4. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.
5. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

**** STAFF REPORT ****

PROJECT DESCRIPTION

The applicant is requesting a Variance to allow a 38-foot wide lot where 100 feet is required at 1201 South Commerce Street.

ANALYSIS

The applicant is requesting to split the lot at 1201 South Commerce Street to separate the existing satellite parking lot used for Casa Don Juan Main Street located at 1204 South Main Street, from the existing building at 1201 South Commerce Street. The subject site is zoned C-M (Commercial/Industrial).

The subject parcel is an existing rectangular shaped non-conforming lot and is 50 feet in width by 140 feet in length. As set forth in Title 19.08.090, the minimum lot width in this zoning district is 100 feet. By splitting the existing non-conforming lot, this application would exacerbate the existing nonconformity by creating two nonconforming lots. The eastern lot would be 56 feet in width by 112 feet in length if approved, while the western lot would be 38 feet in width by 56 feet in length if approved.

This lot split would separate the existing building, on the eastern lot, from its current vehicle access to the rear alley. The two lots created through the requested Variance would result in a lot that is only 38-percent of the required lot width and a second lot that is 56-percent of the required lot width. Staff finds the proposed lot split to be a self-imposed hardship and recommends denial of the Variance. As an alternative to splitting the parcel, permanent easements running with the land could provide for permanent parking and access rights.

FINDINGS (23-0467-VAR1)

In accordance with the provisions of Title 19.16.140(B), the Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.16.140(L) states:

“Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.”

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing to split a non-conforming lot resulting in two, nonconforming lots. Permanent easements conveying permanent parking and access would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site’s physical characteristics, it is concluded that the applicant’s hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
