**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a Variance request for a proposed Residential Accessory Structure [Casita] and Patio Cover that do not meet Archived Title 19.08 setback requirements.

ISSUES

- A Variance (24-0021-VAR1) is requested to allow a proposed Residential Accessory Structure [Casita] and Patio Cover to be placed in the front yard setback where such is not allowed and to allow a 10-foot side yard setback where 15 feet is required. Staff does not support this request.

ANALYSIS

The subject site is zoned R-A (Ranch Acres) with a DR (Desert Rural Density Residential) land use designation and is subject to the Archived Title 19 development standards. The subject site is developed with an existing single-family dwelling and is surrounded by other single-family dwellings on all sides. Previously, the Board of Zoning Adjustment approved a Variance (V-0028-98) for a Residential Accessory Structure, which allowed the structure to encroach into the front yard and side yard setback areas. This Residential Accessory Structure has since been demolished through Demo permit (#R23-04617) finalized on 07/14/23. The applicant is now requesting to place a new Residential Accessory Structure [Casita] and patio cover in place of the demolished structure. Per the submitted justification letter, the applicant intends to utilize the casita for extended family to occupy during the holidays.

Pursuant to archived Title 19.08, Residential Accessory Structures and patio covers are not allowed within the front yard setback area. In the R-A (Ranch Acres) zoning district, the front yard setback area is 30 feet. Additionally, patio covers must maintain a setback of at least 15 feet from the side yard property lines. The submitted site plans indicate that the proposed patio cover will have a front yard setback of 15 feet, and a side yard setback of 10 feet where the Residential Accessory Structure [Casita] would have a front yard setback of 26 feet.

No evidence of a unique or extraordinary circumstance has been presented to warrant the requested Variance. As such, the hardship is self-imposed, and staff recommends denial of the requested Variance (24-0021-VAR1). If approved, the Variance will be subject to conditions.

FINDINGS (24-0021-VAR1)

In accordance with the provisions of Title 19.16.140(B), the Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.16.140(L) states:

"Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing a Residential Accessory Structure [Casita] and Patio Cover within the front and side yard setback. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
