

To whom it may concern,

I am asking for approval on my variance application based on my current economical situation. I am a low income part-time single mother and have started to have issues with making payments to my mortgage. Myself and my sister who recently got divorced and lives with her 2 daughters have decided that we would begin to live together in my home. This way we could support each other economically and emotionally. However, we would need more space to accommodate everyone, this is the reason that I am submitting a variance application. Thank you for your time.

Thank you,

Blanca Gonzalez
