

We are writing this letter to let you know we are applying for a variance from the City of Las Vegas regarding two structures on our property at 6224 Budnick Circle which we have lived in for almost 20 years.

The first structure is a casita on the south side of the property. The casita was built by the previous owners and came with the property when we purchased it back in November of 2004. The casita is used as an office and storage.

The second structure is a carport on the south side of the property in front of the casita. The carport was installed about 8 years ago and is used to shelter our pop-up trailer from the sun.

We would appreciate your assistance in this process by signing below supporting variance request for the casita and the carport. This letter would be submitted to the City with the variance application showing them the structures are not a nuisance to the neighborhood and can remain.
