DISCUSSION

SUBJECT:

REPORTS AND PRESENTATIONS:

Report by JC Davis, Director of Customer Care and Field Services for the Las Vegas Valley Water District, concerning an update on conservation water rates across the region - All Wards

FISCAL IMPACT:

None

PURPOSE/BACKGROUND:

Drought conditions have resulted in reduced elevations of Colorado River water in Lake Mead, Southern Nevada's primary source of municipal water supplies. This report will provide an overview of how enhanced conservation measures have reduced water usage within the community.

RECOMMENDATION:

Report only, no action required.

BACKUP DOCUMENTATION:

1. PowerPoint Presentation by JC Davis, Las Vegas Valley Water District
