**APPLICATION FOR ZERO LOT LINE FOR THE NEW METAL BUILDING
AT 73 30TH STREET, LAS VEGAS, NV 89101**

This project is for the replacement of the fire damaged 70'x30' metal building at this address. The new replacement is a bit larger than the existing metal building. We are planning to install an 80'x40' metal building. The location of the new metal building is needing a zero-lot line to the south of the property.

The business of this property will be selling of special auto parts through the internet. The client doesn't anticipate any installation work on the property.

Sincerely,
DesignLand

Ben Torrella, PE
