

## JUSTIFICATION LETTER

Project Name: Stuff My Turkey Full Alcohol On-Premise  
Pre Application #: 102213-PRE  
Location: 4760 W Sahara Ave, Ste 20, Las Vegas, NV 89183

### Project Description:

The project involves establishing a restaurant called "Stuff My Turkey" in Las Vegas that aims to offer a variety of alcoholic drinks to its customers. The primary focus of the restaurant will be on providing a unique dining experience centered around turkey-based dishes, complemented by a well-curated selection of alcoholic beverages. The restaurant will strive to create a relaxed and enjoyable atmosphere for patrons to enjoy their meals and drinks. The restaurant is 3,163sqft and has outside patio dining of about 200sqft. There are four tables under the canopy directly outside of the side entrance that will be used for guests that are dining and wish to have alcohol. That area has a gate around it. There is a patio area at the front entrance which will only be used for guests waiting to be seated (no alcohol will be allowed in this area). The Hostess/door staff will be trained on where to seat guests and monitoring the entrances/exits to ensure no alcohol is carried outside of permitted areas including the inside dining area and the gated side patio.

### Development Data:

The development data for the project is our acquired location for the restaurant, obtaining necessary permits and licenses, we have designed the interior space, set up the kitchen and bar areas, sourcing quality ingredients, and creating a menu that features a range of turkey-based dishes and alcoholic drink options.

### Liquor License and Waivers:

To legally sell alcoholic beverages, "Stuff My Turkey" would need to obtain a liquor license from the relevant local authority, such as the Department of Community Development – Business Licensing Division, which oversees liquor licensing in Las Vegas. The specific requirements and application process may vary, so it is important to consult with local authorities to ensure compliance with all regulations.

### Hours of Operation:

The anticipated hours of operation for the restaurant would be our standard business hours 10am-10PM. Typically, restaurants in Las Vegas have flexible operating hours, often extending into late evenings or even operating 24/7. However, it would be advisable to conduct market research and consider factors like customer preferences, competition, and local regulations to determine the most suitable operating hours for "Stuff My Turkey."

We understand that local regulations and policies may change over time, so it is crucial to stay updated with the latest laws and requirements related to selling alcoholic beverages in Las Vegas. Consulting with legal experts and local authorities would be beneficial in ensuring compliance with all applicable regulations.
