RECITALS

WHEREAS, the Company and Sourcewell (Cooperative Purchasing Organization) have entered into that Contract dated December 20, 2021 (RFP No. 101221), which provides for sewer cleaning, hydro-excavation and industrial vacuum equipment (the "Company Contract"); and

WHEREAS, pursuant to NRS 332.195, governmental entities within this State may join or use the contracts of other governmental entities and cooperative purchasing organizations with the authorization of the Company; and

WHEREAS, the City desires to use the Company Contract between the Company and the Cooperative Purchasing Organization; and

WHEREAS, the City and Company intend to enter into an agreement between themselves using the terms, conditions and specifications of the Company Contract to the extent such are incorporated by reference herein.

NOW, THEREFORE, in consideration of the above premises, the parties hereto agree to the following:

1. The following documents are hereby incorporated into this Contract: Exhibit "A", Special Conditions (seven (7) pages), attached hereto and made a part hereof, Exhibit "B" (thirty-two (32) pages in Exhibit B, incl. cover page), the terms, conditions and covenants of the Company Contract, attached hereto and made a part hereof, and Exhibit "C", Quote (two (2) pages) attached hereto and made a part hereof. In the event of a conflict between the specific language set forth in this Contract and Exhibits, this Mutual Use Contract shall take precedence followed by Exhibit "A", Exhibit "B" and Exhibit "C" in that order.
2. As required pursuant to NRS 332.195, the Company hereby authorizes and consents to the City using the terms, conditions and covenants of the Company Contract as the basis for this Contract, and the City hereby agrees, in consideration of such authorization and consent, to be bound by the terms, conditions and covenants of the Company Contract to the extent that the same are incorporated herein as a part of this Contract.
3. The Company Contract is based upon the estimated procurement figures of the Cooperative Purchasing Organization. The City hereby agrees to the purchase of supplies and/or services in greater or lesser amounts than estimated in the Company Contract. The City reserves the right, however, to terminate this Contract and bid or negotiate a new contract if procurements by the City under this Contract are significantly greater than the estimated amounts in the Company Contract.
4. The Contract Amount shall not exceed \$582,555.00.
5. This Contract and the rights granted hereunder to the City shall continue in force and effect for the period of time set forth in the Company Contract. This performance period is from December 20, 2021 through and including November 29, 2025 and may be extended one (1) additional year. For the benefit of the City, the City shall provide written notice to the Company of such option extension (s), and the Company may not assume an automatic renewal. Exercise of a one-year option does not commit the City to exercise any further options. The City reserves the right to exercise an option to temporarily extend this Contract for up to one hundred eighty (180) calendar days from the expiration date, for any reason.

In the event that the Company Contract is terminated for any reason, including the failure of the Cooperative Purchasing Organization to exercise any or all of the options granted thereunder, the City shall have the right to continue this Contract in force and effect despite such termination, and to exercise any and all of the options which the Cooperative Purchasing Organization fails to exercise thereunder.

6. The City reserves its right to terminate this Contract and its use of the Company Contract for any reason whatsoever, and such termination shall be effective ten (10) days after written notice is provided to the Company. The City's exercise

of its right to terminate herein shall have no effect on the Company Contract between the Company and the Originating Government Entity or Cooperative Purchasing Organization. On the effective date of the termination, the Company shall terminate all work and take all reasonable actions to mitigate expenses. The Company shall submit a written request for incurred costs for services performed through the date of termination, and shall provide any substantiating documentation requested by the City. In the event of such termination, the City agrees to pay the Company within thirty (30) days after receipt of a correct, adequately documented written request. The City's sole liability under this Section is for payment of costs for services requested by the City and actually performed by the Company.

7. Any change or modification to the Company Contract between the Company and the Cooperative Purchasing Organization shall be applicable to the City if so agreed to in writing by the City. In the event that such change or modification adversely impacts the City, the City may elect not to incorporate the change or modification as part of this Contract.
8. Unless the content indicates otherwise, references in the Company Contract to the Cooperative Purchasing Organization shall be understood and interpreted to refer to the City for purposes of this Contract.
9. This Contract may be executed in counterparts. All such counterparts will constitute the same contract and the signature of any party to any counterpart will be deemed a signature to, and may be appended to, any other counterpart. Executed copies hereof may be delivered by facsimile or e-mail and upon receipt will be deemed originals and binding upon the parties hereto, regardless of whether originals are delivered thereafter.

The parties agree that this Contract may be signed electronically via the City's designated electronic signature platform, and that the electronic signatures appearing herein shall be considered the same as handwritten signatures for the purposes of validity, admissibility, and enforceability.

10. Discrimination: The City of Las Vegas is committed to promoting full and equal business opportunity for all persons doing business in Las Vegas. The Company acknowledges that the City has an obligation to ensure that public funds are not used to subsidize private discrimination. Company recognizes that if the Company or their subcontractors or subconsultants are found guilty by an appropriate authority of refusing to hire or do business with an individual or company due to reasons of race, color, religion, sex, sexual orientation, gender identity or expression, age, disability, national origin, or any other legally protected status; City may declare the Company in breach of contract and terminate Contract.
11. Fair Employment Practices: In connection with the performance of work under this Contract, the Company agrees not to discriminate against any employee or applicant for employment because of race, color, religion, national origin, sex, sexual orientation, gender identity or expression, age, disability, national origin, or any other legally protected status. Such agreement shall include, but not be limited to, the following: employment; upgrading; demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

The Company further agrees to insert this provision in all subcontracts hereunder. Any violation of such provision by a Company shall constitute a material breach of this Contract.

- (a) Company's Warranty. The Company warrants that the Goods supplied to the City are (i) free of defects and deficiencies in design, workmanship and materials, (ii) suitable for the purpose intended by the City, (iii) in compliance with the applicable specifications, and (iv) free from any liens or encumbrances on title of the Goods. If, during the warranty period, any defect or deficiency is found in the Goods, the Company shall immediately, after notification by the City, proceed at its own expense to (i) repair the Goods, to be performed at Haaker Equipment Company's authorized repair facility, located at 4645 Copper Sage St, Las Vegas, NV 89115 (ii) replace the Goods if not capable of repair. The City's remedy for breach of this warranty is contained in Article 2 of the Uniform Commercial Code. The warranty set forth in this subsection shall be in effect for a period of twelve (12) months after the final acceptance of the Goods by the City, or, if available, for the period of the manufacturer's warranty, whichever is longer. The Company must complete the warranty repair or replacement within the time set forth in subsection (d) below.
- (b) Manufacturer's Warranty. The manufacturer's warranty shall be made available to the City at no additional cost. If, during the warranty period, any defect or deficiency is found in the Goods, the Company shall contact the manufacturer immediately after notification by the City, and the manufacturer shall proceed at its own expense to (i) repair the Goods at the Company's authorized repair facility, referenced in Section A-7(a), together with remedying any damage caused to the finishes, fixtures, equipment and furnishings of the Goods, or (ii) replace the Goods that are not capable of repair. In addition to these restrictions, the warranty requirements of the

(d) Warranty Completion Periods

- (i) On-Site Repairs. All on-site warranty repairs shall be completed within fifteen (15) business days of the service request (holidays and weekends excluded). If the repairs cannot be made within ten (10) business days, and the portion or unit of the Goods to be repaired is critical to the operation of the City, the Company shall provide at no additional charge a "loaner" unit of the Goods to be repaired, which is comparable in performance, quality and operation to that subject to repair until completion of the repairs and return to the City. If the Company is unable to provide a "loaner" unit, the City shall have the option to terminate the Contract, or procure a comparable unit from another supplier, in which case the Company shall pay to the City any difference between the Contract price and the price paid to the other supplier. The City agrees to pay for expedited freight charges on repair parts required to meet the ten (10) business day repair deadline.
 - (ii) Off-Site Repairs. If the repairs cannot be made on-site, the Company shall have twenty (20) business days after notification from the City to complete the repairs, including arranging for the delivery of the defective or deficient unit of the Goods to the proper repair facility, and return thereof to the City. If the repairs cannot be made within ten (10) business days, and the portion or unit of the Goods to be repaired is critical to the operation of the City, the Company shall provide at no additional charge a "loaner" unit of the Goods to be repaired which is comparable in performance, quality and operation for use by the City until completion of the repairs and return to the City. If the Company is unable to provide a "loaner" unit, the City shall have the option to terminate the Contract, or procure a comparable unit from another supplier, in which case the Company shall pay to the City any difference between the Contract price and the price paid to the other supplier. The City agrees to pay for expedited freight charges on repair parts required to meet the ten (10) business day repair deadline.
 - (iii) Replacement. If repair is not possible as required herein, the Company shall replace the defective or deficient unit with an agreed upon replacement of the Goods within ninety (90) business days after notification from the City unless otherwise extended in writing by the City. Until the replacement is effectuated, if the unit to be repaired is critical to the operation of the City, the Company shall provide at no additional charge a "loaner" unit, which is comparable in performance, quality and operation to the unit of the Goods to be repaired until the replacement unit has been installed. If the Company is unable to provide a "loaner" unit, the City shall have the option to terminate the Contract, or procure a comparable unit from another supplier for the period of time that it takes to replace the unit, in which case the Company shall pay to the City any difference between the Contract price and the price paid to the other supplier.
- (e) Claim Documentation. The Company shall provide written documentation of each warranty repair claim, in the form of a work order or an invoice, to the City representative who initiated the warranty claim. The following information must be included in the documentation:
- (i) Date of warranty claim

A-8 Disputes [CAO-4/2020]

- (a) For each claim or dispute arising between the parties under this Contract, the parties shall attempt to resolve the matter through escalating levels of management. In the event the matter cannot be successfully resolved in this manner, the City is granted the sole right, regardless of which party is asserting the claim or dispute, to determine between arbitration and litigation as the forum in which the party desiring to proceed further shall file to resolve the claim or dispute. For any and all claims or disputes asserted by the Company, the Company shall notify the City of its intent to proceed further with the claim or dispute and in response thereto, the City shall notify the Company as to its selected forum for resolution.

For any and all claims or disputes asserted by the City, the City shall notify the Company in the notice of its intent to proceed with further resolution whether it has selected arbitration or litigation as the forum to resolve the claim or dispute. In the event arbitration is the designated forum, such arbitration shall be binding on the parties.

- (b) If arbitration is selected by the City as the forum for further resolution, the claim or dispute shall be filed with the American Arbitration Association under its then current Commercial Arbitration Rules, Expedited Procedures, regardless of the amount of the claim or dispute.
- (c) The laws of the State of Nevada shall govern the validity, construction, performance, and effect of this Contract, without giving effect to its conflict of law provisions. If arbitration is selected, each party hereto consents to, and waives any objection to, venue being the offices of the American Arbitration Association located in Las Vegas, Nevada, or other venue mutually agreed by the parties. If litigation is selected, each party hereto consents to, and waives any objection to, the State courts located in the County of Clark, State of Nevada as the proper and exclusive venue for any disputes arising out of or relating to this Contract or any alleged breach thereof. Each party hereby waives trial by jury in any action, proceeding or counterclaim brought by either of them against the other on any matters whatsoever arising out of or in any way connected with this Contract.

A-9 Termination for Convenience [CAO-08/22/2019]

The City shall have the right at any time to terminate further performance of this Contract, in whole or in part, for any reason whatsoever (including no reason). Such termination shall be effected by written notice from the City to the Company specifying the extent and effective date of the termination. On the effective date of the termination, the Company shall terminate all work and take all reasonable actions to mitigate expenses. The Company shall submit a written request for incurred costs for services performed through the date of termination, and shall provide any substantiating documentation requested by the City. In the event of such termination, the City agrees to pay the Company within thirty (30) days after receipt of a correct, adequately documented written request. The City's sole liability under this Section is for payment of costs for Goods and services requested by the City and actually performed by the Company.

A-10 Event of Default [CAO-12/30/2020]

- (a) If, during the term of this Contract, the Company (i) fails to deliver services that comply with the specifications, (ii) fails to deliver the services within the time specified in the Purchase Order or specifications or any extension thereof, (iii) fails to make progress so as to endanger the performance of this Contract, (iv) becomes insolvent, bankrupt or makes an assignment for the benefit of creditors, or if a receiver or trustee in bankruptcy is appointed for the Company, or if any proceeding in bankruptcy, receivership, or liquidation is instituted against the Company and is not dismissed within thirty (30) days following commencement thereof, or (v) fails to perform any of the other obligation or requirement of this Contract, then any of the aforementioned failures shall constitute an "Event of Default" under this Contract.
- (b) If there occurs an Event of Default, the Company shall be entitled to ten (10) calendar days from written notice thereof to remedy the Event of Default, provided, however, such is capable of being remedied within that period. If the Event of Default can be remedied, but the remedy cannot be completed within the ten (10) day period, the Company may be allowed such additional time as may be reasonably necessary to remedy the Event of Default, provided, however, the remedy is commenced within the ten (10) day period and is diligently pursued to completion but in no event later than thirty (30) days after such written notice. Said time period may be extended at City's sole discretion. If the Event of Default is incapable of remediation, or is not remedied as required herein, the City may, in addition to any other remedies available in law or equity, invoke any of the remedies provided for under Section E-6, "Termination for Default", below.

A-11 Termination for Default [CAO-4/2020]

- (a) If the Event of Default is not remedied as required pursuant to Section E-5, "Event of Default", the City may, by written notice to the Company pursuant to Section E-1, "Legal Notice", terminate this Contract in whole or in part.
- (b) If this Contract is terminated in whole or in part because the Company has failed to provide Goods in compliance with the specifications by the deadline of remediation period, the City may acquire, under reasonable terms and in a manner it considers appropriate, replacement goods that are comparable to the Goods that the Company failed to deliver to the City, and the Company shall be liable to the City for any excess costs related thereto. If the City terminates this Contract only in part, the Company shall continue to perform the un-terminated obligations or portions of this Contract.
- (c) The Company shall not be liable for any excess costs if the failure to perform the Contract arises from circumstances beyond the control of, and without the fault or negligence on the part of, the Company. These circumstances are limited to such causes as (i) acts of God or of the public enemy, (ii) acts of governmental bodies, (iii) fires, (iv) floods, (v)

epidemics/pandemics, (vi) quarantine restrictions, (vii) labor strikes, (viii) freight embargoes, or (ix) unusually severe weather. 3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. **UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION.** The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier’s Equipment, Products, or Services with United States federal funds.

A. **EQUAL EMPLOYMENT OPPORTUNITY.** Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 C.F.R. § 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.” The equal opportunity clause is incorporated herein by reference.

B. **DAVIS-BACON ACT, AS AMENDED** (40 U.S.C. § 3141-3148). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
25	Sales force.	Vactor/TruVac has ten Regional Sales Managers (RSMs) tasked with supporting our dealer's sales efforts. The RSMs set sales targets and are involved in the end-user sales process as needed. The RSMs report to a Director of Municipal/Governmental Sales who reports to a Group level Vice President	*
26	Dealer network or other distribution methods.	Our dealer network consists of 34 dealer entities with over 70 location throughout North America. All dealers are assigned an area of responsibility that cover all of the US, Canada and the US Territories. Total dealer sales reps/territory managers for North American total over 230.	*
27	Service force.	Internally, Vactor/TruVac has an Inside Service organization with eight technical reps that support our dealer's daily need for technical support. We also have four Regional Service and Support Managers (RSSMs) that live and work with specific dealers within their assigned regions to provide warranty support, training, consultation and end-user interaction. All of our internal reps support approximately 225 dealer technicians tasked with providing end-user service.	*
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Sourcewell members will order through their local dealer who will, in-turn, place an order with us. Our dealer will be responsible for assisting the member with equipment configuration recommendations and providing a detailed proposal/quotation to the member. Once the sewer cleaner/hydro excavation unit is manufactured and delivered to our dealer, they will be responsible for preparing, delivering, training and supporting the end-user's needs with the equipment. History is showing that Vactor dealers are knowledgeable, experienced and anxious to use our Sourcewell contract.	*
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Customer Service starts from the delivery process with equipment installation/operation training. Shortly after delivery, we request a customer satisfaction survey be filled out so we can understand the level of satisfaction from product quality, to dealer support and overall product satisfaction. Any negative responses are recorded and assigned to a field rep for appropriate follow-up. All Vactor Dealers have trained and certified technicians with the vast majority of dealers providing road (go to customer location) service complete with well-equipped service trucks. This allows for quicker support of possible inoperative vehicles. Also, at Vactor we have a 24-hour toll free helpline that is staffed by factory personnel. The objective is to provide an immediate contact and response for both our dealers and end-user customers. Lastly, we support our products with a comprehensive warranty that is provided through our trained dealer network. Our philosophy is that quality products with high-levels of service support will ensure the best value for our customers - this, in turn, will create their desire to continue their business relationship with Vactor and our dealers.	*
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Our dealer network allows us to sell and service our products throughout all of North America. Our dealers are assigned geographic areas (or territories) of responsibility that include all states and provinces. The assigned territories are listed in the dealer contract.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	We support, service and actively pursue business opportunities with all Canadian entities that use sewer cleaner and/or hydro excavators.	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	We will service all geographic areas of the US and Canada	*
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We will service any and all Sourcewell participating entities.	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Hawaii, Alaska and the US Territories are serviced the same as other states. We have dealers that are contractually assigned these geographic regions.	*

Table 7: Marketing Plan

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	We advertise our Sourcewell contract at trade shows, on our public website, on our marketing collateral and at our internal dealer events. We invite our Sourcewell Contract Administrator to attend and participate at our trade shows and internal dealer sales training events. We have facilitated contract training with both our Regional Sales Managers and dealerships. We encourage our dealers to attend and network at Sourcewell sponsored events like GTKU and Sourcewell University.
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Vactor utilizes a number of social media platforms to inform and communicate with the public and our followers. Our Marketing Communications Group does an excellent job of utilizing these technologies to promote our products and keep our users informed of what's happening. We use Facebook, LinkedIn, YouTube and Twitter to keep users and followers up-to-date with the latest product releases including videos; application specific information, new option availability (to enhance the functionality), and the latest press releases. Our website allows users to connect to information including our Sourcewell relationship and contract information.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We would expect Sourcewell to promote our contracts to their membership as a way to simplify the procurement process and that membership understands that contract holders are part of an elite group of product/solution providers that have proven to be reputable and responsive to members needs. We expect that Sourcewell works to continue to expand membership so that additional entities would be able to experience the benefits for all parties. Our Sourcewell contract is currently well integrated within our sales process. Our RSMs, as well as our dealers, have been trained in using our contract as a preferred method of selling/procuring our products. Our dealers currently have the ability to create Sourcewell compliant proposals/quotes within our on-line configurator and ordering tool. By making a simple selection (check box) within our CPQ tool a dealer sales rep can create a proposal that is compliant with our Sourcewell contract. The tool applies the appropriate pricing, contract information, inserts the approved Sourcewell logo and tracks orders for reporting purposes.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We do not have an e-procurement system for end-customer use. However, we do have an on-line product configuration and ordering tool that our dealers use to configure customers specific units and place orders with us. Our dealers use this on-line tool to prepare Sourcewell compliant proposal/quotes for members and then to place that Sourcewell order upon award.

Table 8: Value-Added Attributes

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	We offer training at several levels. Initial training is basic installation training and is provided by our dealers at or shortly after delivery of a new sewer cleaner/hydro vac as agreed to with customer. This would include basic operation, cleaning and maintenance training. This is generally free of charge unless the member requests multiple sessions or more in-depth training that requires more time. This initial training is considered standard or can be optionally upgraded if a deeper level of training is desired. We also offer product model specific maintenance training at the factory. This covers multiple days and is also free of charge with the only costs being travel and hotel accommodations if needed. Dealers usually assist the member/customer with registration for this training.
40	Describe any technological advances that your proposed products or services offer.	Available on our Vactor 2100i combination units we offer a patented Rapid Deployment Boom (RDB). This feature provides for significantly improved productivity in reduced set-up times and also reduces need for operator set-up/breakdown frequency for improved safety and reduced fatigue. Our standard advanced Intui-Touch control system is ergonomically designed that allows for safe and easy interactive control interface. We have also introduced a water-recycler option that again greatly improves productivity while reducing water consumption in the line cleaning process. On our TruVac products we have optional Dig-Right technology (also patented) that allows the operator to set pressure limits to ensure safe digging practices.
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Vactor is ISO 14001 certified (environmental management) which speaks to our environmental management commitment at our factory. Also, the water recycler option mentioned in line item 40 provides for significantly reduced water usage. Lastly, all of our units are now single-engine operation which eliminates the need for an auxiliary engine to drive air-flow for cleaning. This significantly reduces emission and need for secondary engine maintenance.
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	ISO 14001 would be the only third-party issued certification related to environmental management. However, as mentioned above, we are certainly focused on energy efficiency/conservation. I would go as far as saying that we are a leader in developing and providing environmentally beneficial solutions including using alternative fuels such as CNG.
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	While Vactor does not qualify under any of these business headings, several of our partner/dealers do. This includes WMBE and SBE. This is not a requirement of our dealer/partners and therefore access to documentation is not readily available.
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	We offer a variety of combination, jetter only or vacuum only sewer cleaner solutions that can be tailored to specific member requirements. We have a large selection of optional content that allows for customization for specific applications as well as the ability to provide specialized (engineered) solutions that may require unique attention/design. Our excavation products also are available in various sizes with the ability to excavate with water or air. Our products are also supported by a seasoned dealer network that is trained with the capability of supporting users throughout North America.

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	Yes	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No usage limitation. Standard warranty is for 1 year bumper-to-bumper exclusive of wear items such as nozzles.	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes	*
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Our dealer contracts require that they provide service for all customer within their area of responsibility. This would of course include Sourcewell member customers. In very rare situations and with the agreement of the customer, authorizations for a specific customer to perform their own warranty repair can be given. Vactor and our dealer would support this by providing parts, work instructions and compensation at pre-established rates. Authorization would only be given if the required repair is considered relatively easy to accomplish and did not present any risk for the customer.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Our warranty covers all items with the exception of engines, truck chassis, tires and other components that carry their own manufacturers warranty. These items are typically supported by local dealer facilities. Any items/components that do not have local service would be cover by Vactor and our dealers. We have been know to assist our end-user by leveraging our contacts with engine and chassis manufacturers and dealers.	*
50	What are your proposed exchange and return programs and policies?	It is extremely rare that we would need to exchange or have a product returned. If one of our sewer cleaners was determined to be wrong for a specific customer need/application, we would work with them to modify or exchange a product for one that would work better. Ultimately, we are all better off if the customer is satisfied with their product - that's what we work toward.	*
51	Describe any service contract options for the items included in your proposal.	We are not specifically offering service contracts with this proposal. However, most of our dealer offer a variety service contract options and service specials. The offerings can be from full-service turnkey parts and service solutions to specific targeted specials. These are dealer specific.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
52	Describe any performance standards or guarantees that apply to your services	To ensure that our products are supported in a timely manner we offer a bumper-to-bumper, 1-year standard warranty (exclusive of wear parts). We have a nation wide/North American service network with all dealer connected via our service network software (providing specific unit service history and service/recall information). We also have a 24-hour hotline to assist both dealers and end-user with diagnosis and troubleshooting information.	*
53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	Several months after delivery of each new unit we send out a Customer Satisfaction Survey asking for feedback in the areas of product quality, performance, level of satisfaction with their dealer experience and overall product. Any negative mark or comment is recorded and assigned for follow-up. The scores are tallied in the form of a Customer Satisfaction Index (CSI) score. Several quality and service performance measures are tied to the CSI. This helps us understand the voice of the customer and ensures that we are monitoring quality, performance and overall customer satisfaction at the manufacturer level.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
54	Describe your payment terms and accepted payment methods?	Payment terms are established between the Vactor dealer and the Sourcewell member. Generally, this is net 15 or net 30-days. However, our dealers do much of their business municipally and understand that some entities need to apply different payment terms. Most of the time the specific member requirements can be met if within reason. The standard payment terms between our dealer and us is net 30-days.	*
55	Describe any leasing or financing options available for use by educational or governmental entities.	Again, leasing and financing options are determined between the Vactor dealer and the Sourcewell member. All of our dealers offer some type of leasing and/or financing option. This is usually with a third-party that we or they have established relationships with. We often recommend NCL and many of our dealers have an established relationship with NCL and use NCL's Sourcewell contract solution for lease/financing options.	*
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	We do not have a standard transaction document that is provided to the end-user/member. Typically, the entity issues a purchase order to our dealer based on a Sourcewell proposal/quote that is generated through our configurator tool. The dealer submits the "quote" to us as an order once the member issues a PO. We, in turn, issue an electronic acknowledgement document to the dealer confirming what was ordered. This is our standard process today, for all orders, and Sourcewell orders fit nicely within our existing process. I am including example document in the upload section.	*
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	The payment process for members is a transaction between Sourcewell member and Vactor dealer. I do not believe P-card transactions are used. We (Vactor) do not accept P-card payments from our dealers. We have no hidden or undisclosed costs.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We are offering our full-line of sewer cleaners and hydro-excavators. Our pricing model is a 3% discount from list price on all Vactor/TruVac manufactured products (and options) exclusive of chassis and freight (from factory to dealer location) costs. We are also offering the rental of our sewer cleaners and hydro-vacs. Rental rates apply across the US and Canada (in Canadian dollars). The rates provided on the rental rate sheets are the Sourcewell member's price. We will also offer used sewer cleaners and hydro-vacs, primarily from our rental fleet. These are generally late model year and because of various usage and condition of specific units, the pricing will be a negotiated and agreed to price between the member and the Vactor dealer. This allows members a method of obtaining quality equipment at a much lower initial acquisition cost.	*
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	For new equipment a 3% discount from list price applies. This discount applies to all Vactor/TruVac manufactured content including options. The rental pricing is a pre-established rental rate and is consistent throughout the US and Canada. These rates are at the lower end of the regional rate study that was conducted to determine appropriate and consistent rental rates. Used equipment pricing will be negotiated and agreed to between member and Vactor dealer.	*
60	Describe any quantity or volume discounts or rebate programs that you offer.	Additional volume discounts may be considered on a case-by-case basis.	*
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Sourced products or open market items fall into three categories for us. This could be items that would be provided by our dealer. The items in this category would be quoted by our dealer to the member and could include items such as special radios, decals or exterior wraps, lighting, and other dealer installed accessories. These items would not be subject to the 3% discount. Also included in this category would be unique equipment or options that would be designed, manufactured or procured and installed by Vactor. This is common for us and would be handled through our RFQ/Specials process. This allows us to provide a unique (off price list) solution for our customers and would be priced consistently with the 3% discount from list price. Our "Special" solution would be included in the Sourcewell proposal/quote. The last category would be factory supplied chassis. Because most of our products are mounted and integrated to a commercial chassis, we work with commercial chassis manufacturers and their local dealers to provide chassis specifically engineered for Vactor/TruVac equipment-mounting and use. We typically get favorable pricing from the manufacturer/dealer because of our volume. These chassis are very competitively priced and specifically designed for use with our sewer cleaners/hydro vacs. This is the easiest, least risky, and most often cost-effective turnkey solution. Because chassis availability/inventory is inconsistent and lead times vary significantly, we do not provide chassis pricing. Our dealers will provide chassis quote through at the time a Sourcewell quote/proposal is being developed - the 3% discount does not apply to chassis that we or our dealers provide. Supply of chassis is currently constrained.	*
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Additional costs not included with our submittal would include dealer charges for items such as pre-delivery inspection and unit preparation, local freight charges, additional training above and beyond initial training at or shortly after delivery. Also, as mentioned above, any dealer installed item would not be identified in our price sheets but would be identified in the member's Sourcewell proposal/quote.	*
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	The freight from our factory to the local dealer facility would be included with the Sourcewell quote but not subject to the 3% discount. Freight is a pass thru cost and not a profit item for us. Local freight and delivery, however, is handled by our local dealers and is not specifically listed in our response. This cost would be additional and should be listed on the member's pricing quote (often listed as part of the PDI process). This price would also vary by dealer and complexity of local shipping requirements.	*
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Alaska, Hawaii, Canada or other "offshore" delivery requirement would include a special quote from us. With offshore shipping requirements we typically containerize the product, deliver to a coastal port via truck and then load the container to a boat for delivery to location. This usually requires additional handling charges including protective coatings and dock charges. These charges can vary and would be disclosed in a member's proposal/quote.	*
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We have a dedicated traffic department which is tasked with arranging any unique delivery requirement. This is their focus and the department is knowledgeable and skilled at finding competitively priced shipping options that best meet requirements.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	The pricing offered for our complete line of sewer cleaners and hydro vacs for this Sourcewell proposal is better than what we typically offer for other purchasing contracts. It is possible that a dealer may offer a lesser price for a specific deal or customer but that is generally without our input.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Currently, we require our Regional Sales Managers to report Sourcewell Sales (using the provided Sourcewell template) on a quarterly basis. Late last year we refined and simplified that process by allowing our dealers to select "Sourcewell" within the CPQ/ordering tool and that would automatically apply the appropriate pricing. This also allows us the ability to track Sourcewell deals in our CPQ/on-line ordering tool. Each RSM now has the ability to view all sales, by specific dealer and region and can query for Sourcewell specific sales. By tracking sales within our CPQ ordering tool, we can verify "Sourcewell" sales and obtain the other required reporting details including transaction price. Once RSMs submit their territory Sourcewell sales reports, they are reviewed and reconciled by our Controller. Once approved, I submitted the quarterly report as required and our Controller initiates payment.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Quarterly sales are reviewed and compared to the previous year's quarterly results and are also reviewed as a percentage of overall sales. As Business Development Manager, I am task with ensuring growth targets are achieved specific to several business development objectives that are set. This includes overall Sourcewell Sales increases. I am also charged with ensuring compliance to requirements.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	As with past contracts, we propose a 0.5% administrative fee exclusive of chassis pricing and freight. We remove chassis pricing and freight as these items are not profit generating but rather cost items. This fee will be paid by us (Vactor) and is not a line item past on to the member.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	We are offering for purchase or rental our full line of combination sewer cleaners, jetters, catch basin (sewer vacuums) and our hydro and air excavation products. This includes multiple sizes/capacities for combination sewer cleaners, truck mounted jetters and catch-basin (vacuum) units. Also, trailer mounted jetters and various sized hydro and air excavation units under our TruVac brand name. Also included is our Liquid Vacuum Tanker (LVT) that is a simple water/sludge pump designed for vacuuming refuse/dirty water, containing and transporting that material.
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Combination Sewer Cleaners (various capacities) mounted on appropriately sized class 8 truck chassis; Catch Basin (vac only) units; Truck-Mounted Jetter and trailer-mounted Jetters; Various sized Hydro and Air Excavation units mounted on appropriately sized truck chassis; and Liquid Vacuum Tanker (LVT) trucks.

Table 15: Industry Specific Questions

Line Item	Question	Response *
78	Describe any product or equipment features that improve operator safety.	All our products include single button Emergency Stops (E-Stops) at all human-machine interfaces to allow for rapid shutdown of operation. Our Rapid Deployment Boom (RDB) eliminates the need for repeated operator actions for set-up and breakdown throughout the workday. Our Dig-Right technology will automatically control pressure settings to avoid damaging underground utilities that would cause unsafe working conditions. We also have auto Water Shut Off (WSO) on the digging lance on our hydro ex units to provide an extra layer of safety for operators.
79	Describe any product or equipment innovations that increase uptime and operator productivity.	Our RDB 10x15 boom, as previously described, significantly improves productivity. Our water recycler option significantly reduces the need to fill-up with fresh water thus providing for greater productive time. The Dig-Right option on our Vacuum Excavators allows greater productivity by automatically adjusting pressures to digging conditions.

LIMITED WARRANTY

Limited Warranty. Each machine manufactured by VACTOR MANUFACTURING (or, "the Company") is warranted against defects in material and workmanship for a period of 12 months, provided the machine is used in a normal and reasonable manner and in accordance with all operating instructions. In addition, certain machines and components of certain machines have extended warranties as set forth below. If sold to an end user, the applicable warranty period commences from the date of delivery to the end user. If used for rental purposes, the applicable warranty period commences from the date the machine is first made available for rental by the Company or its representative. This limited warranty may be enforced by any subsequent transferee during the warranty period. This limited warranty is the sole and exclusive warranty given by the Company.

STANDARD EXTENDED WARRANTIES (Total Warranty Duration)

<u>2100 Series, HXX, Series and Jetters</u>	10 years against metal water tank leakage due to corrosion. Nonmetallic water tanks are covered for 5 years against any factory defect in material or workmanship.
<u>2100 Series, HXX and Guzzler only</u>	5 years against leakage of debris tank, centrifugal compressor or housing due to rust-through.
<u>2100 Series and Jetters</u>	2 years - Vactor Rodder Pump on all unit serial numbers starting with 13-##V-####

Exclusive Remedy. Should any warranted product fail during the warranty period, the Company will cause to be repaired or replaced, as the Company may elect, any part or parts of such machine that the Company's examination discloses to be defective in material or factory workmanship. Repairs or replacements are to be made at the selling Company's authorized dealer's or distributor's location or at other locations approved by the Company. In lieu of repair or replacement, the Company may elect, at its sole discretion, to refund the purchase price of any product deemed defective. The foregoing remedies shall be the sole and exclusive remedies of any party making a valid warranty claim.

This Limited Warranty shall not apply to (and the Company shall not be responsible for):

1. Major components or trade accessories that have a separate warranty from their original manufacturer, such as, but not limited to, trucks, engines, hydraulic pumps and motors, tires and batteries.
2. Normal adjustments and maintenance services.
3. Normal wear parts such as, but not limited to, oils, fluids, vacuum hose, light bulbs, fuses and gaskets.
4. Failures resulting from the machine being operated in a manner or for a purpose not recommended by the Company.
5. Repairs, modifications or alterations without the express written consent of the Company, which in the Company's sole judgment, have adversely affected the machine's stability, operation or reliability as originally designed and manufactured.
6. Items subject to misuse, negligence, accident or improper maintenance.

NOTE The use in the product of any part other than parts approved by the Company may invalidate this warranty. The Company reserves the right to determine, in its sole discretion, if the use of non-approved parts operates to invalidate the warranty. Nothing contained in this warranty shall make the Company liable for loss, injury, or damage of any kind to any person or entity resulting from any defect or failure in the machine.

THIS WARRANTY SHALL BE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND TO THE EXTENT PERMITTED, CONFERRED BY STATUTE, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE AND ANY WARRANTY AGAINST FAILURE OF ITS ESSENTIAL PURPOSE, ALL OF WHICH ARE DISCLAIMED.

This warranty is in lieu of all other obligations or liabilities, contractual and otherwise, on the part of the Company. For the avoidance of doubt, the Company shall not be liable for any indirect, special, incidental or consequential damages, including, but not limited to, loss of use or lost profits. The Company makes no representation that the machine has the capacity to perform any functions other than as contained in the Company's written literature, catalogs or specifications accompanying delivery of the machine. No person or affiliated company representative is authorized to alter the terms of this warranty, to give any other warranties or to assume any other liability on behalf of the Company in connection with the sale, servicing or repair of any machine manufactured by the Company. Any legal action based hereon must be commenced within eighteen (18) months of the event or facts giving rise to such action.

The Company reserves the right to make design changes or improvements in its products without imposing any obligation upon itself to change or improve previously manufactured products.
