## EXECUTIVE SUMMARY

Acoustics Group, Inc., (AGI) was retained by the City of Las Vegas to evaluate the pickleball noise levels associated with the Proposed Regional Pickleball Complex at Wayne Bunker Park. The project proposes adding twenty-four (24) pickleball courts to the park. AGI has reviewed the City of Las Vegas's Municipal Code Noise Standards, Clark County Noise Standards, conducted ambient noise level measurements, analyzed pickleball noise, assessed the impact of the pickleball courts, and evaluated noise control measures for reducing the noise from the proposed pickleball courts at the nearby residential homes.

The predicted future hourly Leq noise level from the proposed pickleball activity will be 56.7, 41.2, 53.4, and 63.3 dBA at the nearest receivers to the north (NM1), east (NM2), south (NM3A), and west (NM4), respectively. At NM1 and NM2, the pickleball noise level would be below ambient noise levels throughout the operating hours and will comply with the recommended noise standard for City of Las Vegas. At NM3A, the pickleball noise level will exceed the Clark County Leq Noise Standard of 52.9 dBA. At NM4, the pickleball noise level would exceed ambient noise levels and will not comply with the noise standard for the City of Las Vegas.

The Lmax from proposed pickleball activity will be as high as 71.4 dBA at the exterior of the southern residences (NM3A). Pickleball would exceed the Clark County Lmax Noise Standard of 56 dBA. However, the ambient background Lmax during operating the hours of 7AM to 10PM, ranges from 62.1 to 88.7 dBA. The future pickleball noise Lmax would fall within the existing ambient background noise range.

The impulse noise from pickleball play will be noticeable at the nearest receptors to the north, east, south, and west.

Noise control is recommended to reduce the pickleball noise at the impacted noise-sensitive receptors to the south and west. With the implementation of noise control options, pickleball noise would be reduced. However, the impulsive character of the noise could remain audible and may still be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise.

This report has been organized into multiple sections for ease of reference. Section 1 introduces the Project and provides a general discussion on the Project Components. Section 2 discusses Noise Fundamentals. Section 3 presents the County of Clark and City of Las Vegas Noise Standards. Section 4 discusses the Ambient Noise Survey; Section 5 discusses the Impact Assessment. Section 6 presents the Noise Control Analysis, including Recommendations. Section 7 discusses the Conclusion.

## INTRODUCTION

Acoustics Group, Inc., (AGI) was retained by the City of Las Vegas to evaluate the noise levels associated with the pickleball court project at Wayne Bunker Park in Las Vegas, NV. The City is proposing a Regional Pickleball Complex with twenty-four pickleball courts and some of the nearby residents are concerned about the potential increase in noise from the future pickleball operations. To the north and east of the project site, are noise sensitive residences under the City of Las Vegas jurisdiction. To the south of the project site, are noise sensitive residences under Clark County jurisdiction. To the west of the project site is a church under the City of Las Vegas jurisdiction. Figure 1 shows the location of the future pickleball courts with respect to the surrounding land uses. Figure 2 shows the pickleball court layout.

Figure 1. Location of Proposed Pickleball Courts

Figure 2. Proposed Pickleball Complex Layout

## NOISE FUNDAMENTALS

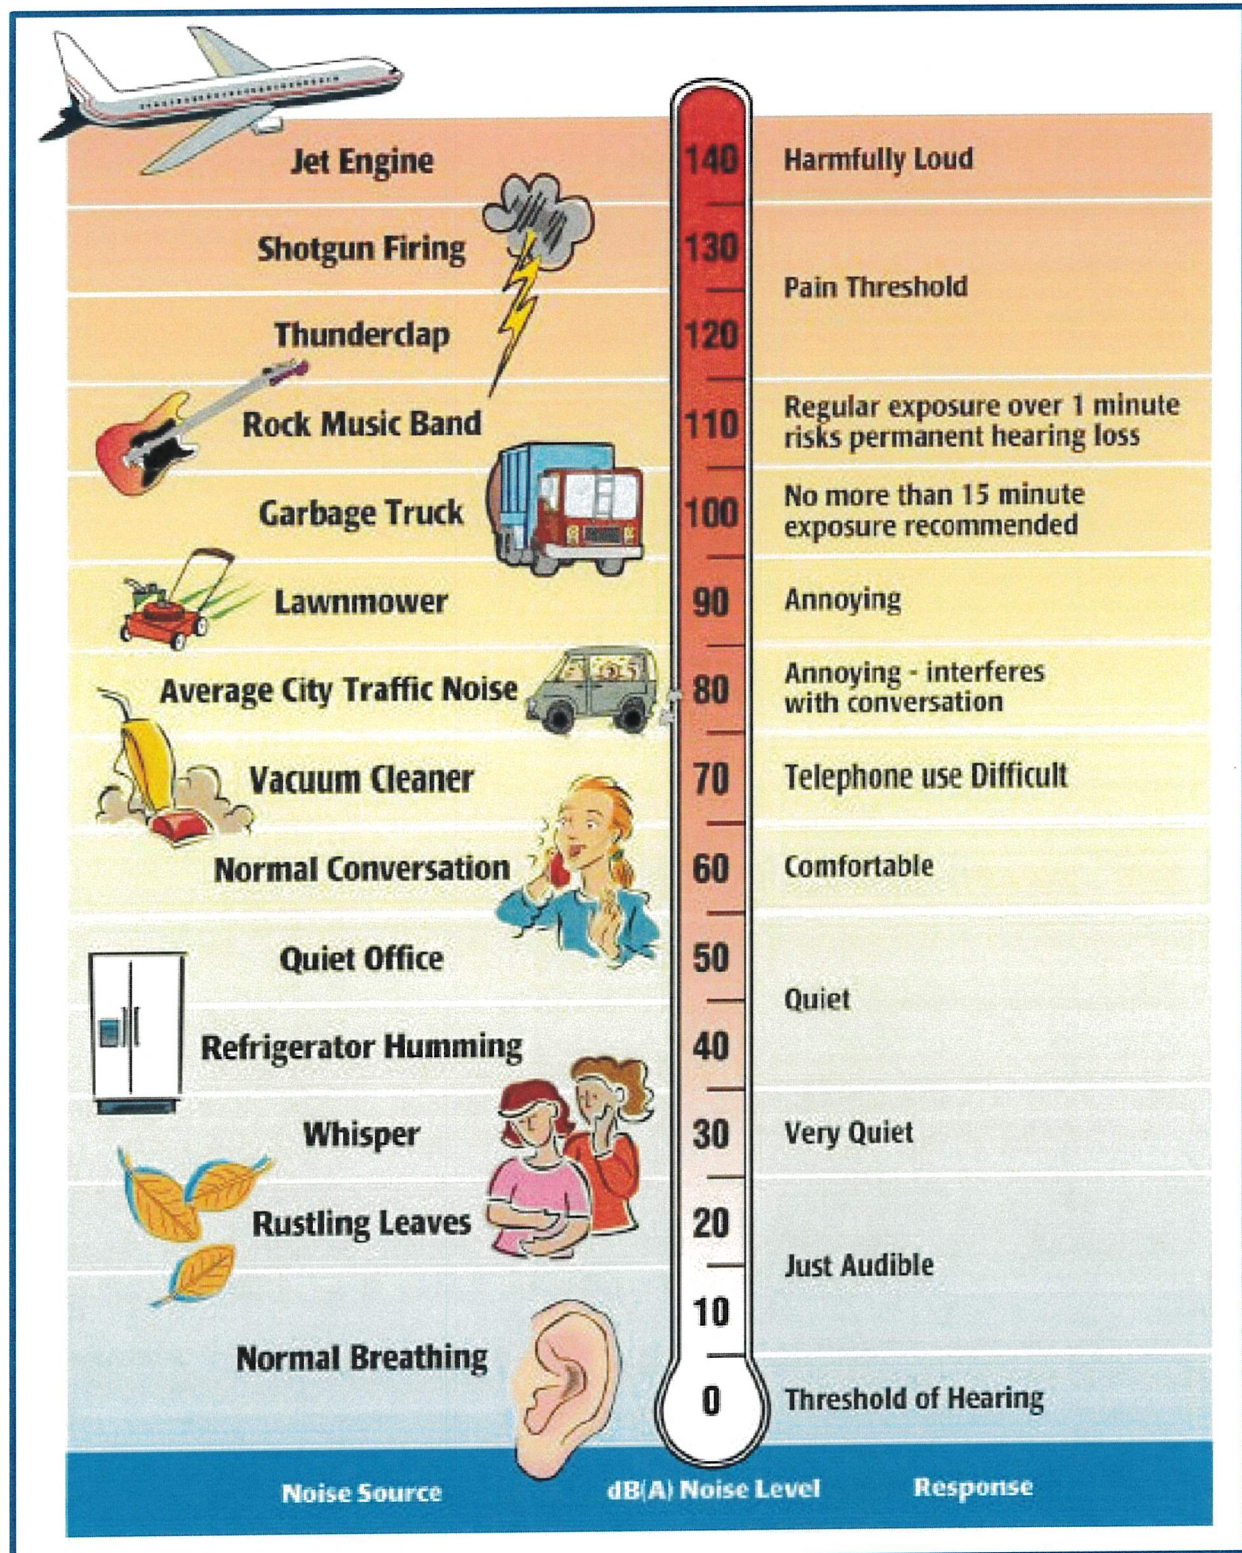

Noise is most often defined as unwanted sound. Although sound can be easily measured, the perceptibility is subjective and the physical response to sound complicates the analysis of its impact on people. People judge the relative magnitude of sound sensation in subjective terms such as “noisiness” or “loudness.” Sound pressure magnitude is measured and quantified using a logarithmic ratio of pressures, the scale of which gives the level of sound in decibels (dB).

The human hearing system is not equally sensitive to sound at all frequencies. Therefore, to approximate this human, frequency-dependent response, the A-weighting filter system is used to adjust measured sound levels. The A-weighted sound level is expressed in “dBA” or “dB(A)”. Figure 3 provides typical A-weighted sound levels measured for various sources, as well as people’s responses to these levels.

When sound is measured for distinct time intervals, the statistical distribution of the overall sound level can be obtained during that period. The energy-equivalent sound level ( $L_{eq}$ ) is the most common parameter associated with such measurements. The  $L_{eq}$  metric is a single-number noise descriptor which represents the average sound level over a given period of time, where the actual sound level varies with time.  $L_{max}$ ,  $L_{min}$ , and  $L_{xx}$  are also common noise descriptors.  $L_{max}$  and  $L_{min}$  are the maximum and minimum noise levels, respectively, and  $L_{xx}$ , known as a statistical sound level, is the time-varying noise level which would be exceeded xx percent of the time. For example,  $L_{50}$  is the average noise level that is exceeded 50% of the measurement duration or for 30-minutes in a 60-minute period.

Reverberation is the prolongation of sound after the source has stopped. Reverberation time (RT60), for a given frequency, is the number of seconds it takes for the average sound pressure level in a room (originally in a steady state) to decrease 60 dB after the source is stopped. RT60 is a measure of the amount of absorption within a space or the “liveliness” of the room.

## NOISE STANDARDS

### City of Las Vegas

The City of Las Vegas Municipal Code Section 9.16.020 prohibits “Noise of such character, intensity or duration as to be detrimental to the life or health of any individual, or in disturbance of the public peace and welfare is prohibited” and does not specifically adopt noise standards or limits to regulate intrusive noise. However, as per Industry Guidelines, an appropriate noise level increase of greater than 3 dB above measured ambient noise levels would be considered the threshold of significance for determining noise impact. The acceptance of any noise guideline would be subject to the approval of the planning commission; however, the greater than 3 dB increase criteria is suggested for this project to determine project noise impacts. Due to the logarithmic nature of decibels, pickleball noise levels should not exceed ambient noise levels which is reflective of a 3 dB increase from the project when added to the ambient background. Refer to the Appendix for the City of Las Vegas Municipal Code.

### Clark County

The Clark County Noise Ordinance Section 30.68.020 specifies maximum permitted sound levels for residential districts by octave band. The Leq, which is the A-weighted energy sum of the octave band sound levels, is a practical way to interpret the standard. An Leq of 52.9 and 43.4 dBA are the A-weighted energy sum of the octave band sound levels during the daytime and nighttime, respectively. Additionally, impulsive noise is not permitted to exceed 56 and 46 dBA during the daytime and nighttime, respectively. The impulse noise is interpreted to be the maximum noise level described as Lmax. Tables 1 and 2 summarize the Clark County Noise Standards.

**Table 1. Clark County Residential Noise Standards**

Period	Sound Level, dB at Octave Band Center Frequency, Hz									Leq, dBA
	31.5	63	125	250	500	1K	2K	4K	8K	
Daytime (7AM to 10PM)	72	65	58	53	50	47	43	40	37	52.9
Nighttime (10PM to 7AM)	65	58	50	44	40	37	33	30	27	43.4

Period	Maximum Permitted Sound Levels (Lmax), dB
Daytime (7AM to 10PM)	56
Nighttime (10PM to 7AM)	46

Source: Clark County Municipal Code, Section 30.68.020

## AMBIENT NOISE SURVEY

AGI conducted an ambient noise survey on January 23 through 24, 2024, to document baseline ambient noise levels around the project site. The hourly A-weighted noise level was continuously monitored and logged for 24-hours to quantify the existing background noise at four locations around the project site. The noise measurements were performed at the nearest Residences to the North (NM1), East (NM2), and the nearest Church to the West (NM4). Noise measurement NM3 was placed along the north side of Constantinople Ave, directly adjacent to the Project Site's southern boundary. This location was selected because the residential property line directly south of Constantinople Ave did not allow us to securely place a noise monitor along the property boundary. Due to the relative distances to N Buffalo Dr. and W Alexander Rd., the ambient background noise at location NM3 would be expected to be similar to the ambient background noise at the nearest residences to the south (NM3A). Therefore, the ambient noise measurement data at NM3 will be used to represent NM3A. Refer to Figure 4 for the locations of the noise monitors.

Figure 4. Long-Term Ambient Noise Monitoring Locations

## Methodology

Four (4) Brüel & Kjær Model 2270 Acoustical Analyzers were used to conduct ambient noise measurements. The analyzers are precision Type 1 instruments that were calibrated to laboratory standards. The instrument systems were field calibrated before and after the measurements to ensure accuracy and were operated per manufacturer's recommendations.

## Ambient Survey

At NM1, the measured ambient Leq ranged from 54.6 to 69.8 dBA. At NM2, the measured ambient Leq ranged from 55.5 to 72.2 dBA. At NM3, the measured ambient Leq ranged from 42.4 to 61.9 dBA. At NM4, the measured ambient Leq ranged from 43.4 to 64.1 dBA. Noise sources from vehicular traffic contributed to the ambient noise measurement data at all four measurement locations. Children playing loudly were the predominant noise source from the hour of 2PM to 3PM and contributed to a higher ambient noise level than surrounding hours for receptor locations NM3 and NM4. Table 3 summarizes the ambient noise measurement data.

**Table 3. Existing Ambient Noise Levels**

Receiver		Existing Ambient Noise Levels, dBA				Description
		Time	Leq	Lmin	Lmax	
NM1	Nearest Residence to the North	1/23/24 11:00 AM – 1/24/24 11:00 AM	54.6 - 69.8	35.4	94.6	Vehicular Traffic
NM2	Nearest Residence to the East	1/23/24 11:00 AM – 1/24/24 11:00 AM	55.5 - 72.2	40.0	102	Vehicular Traffic
NM3	Project Site Southern Property Line	1/23/24 11:00 AM – 1/24/24 11:00 AM	42.4 - 61.9	36.1	88.7	Vehicular Traffic, Children at Park <sup>1</sup>
NM4	Church Eastern Property Line /Project Site Western Property Line	1/23/24 11:00 AM – 1/24/24 11:00 AM	43.4 - 64.1	36.4	81.7	Vehicular Traffic, Children at Park <sup>1</sup>

Note: <sup>1</sup>Children playing loudly was the predominant noise source from the hour of 2PM to 3PM and has a higher ambient noise level than surrounding hours.

## NOISE ANALYSIS AND IMPACT ASSESSMENT

### Methodology

The methodology used to analyze and predict operations noise involved the use of the CadnaA computer noise model. CadnaA can simulate the physical environment by factoring in x, y, and z geometrics of a particular site to simulate the buildings, obstacles, and typography. The model uses industry recognized algorithms (ISO 9613) to perform acoustical analyses. The noise generated by future pickleball courts was calculated by inputting acoustical sources at the project site. AGI's measurement data from the pickleball noise measurements at other pickleball locations were used for the modeling inputs and calibration. The CadnaA Noise Model was also used to evaluate noise control options.

### Project Design Pickleball Noise

The proposed project will create the highest noise when all 24 pickleball courts are in operation. The pickleball courts will operate only during the daytime hours of 7:00AM to 10:00PM. Pickleball activity during maximum operations will generate an hourly Leq as high as 56.7, 41.2, 53.4, and 63.3 dBA at receivers NM1, NM2, NM3A, and NM4, respectively. Note that the project design includes a 12-foot-high concrete masonry unit (CMU) wall along the southern property line to shield residences that are located on Constantinople Ave. Refer to Figure 5 for a noise contour map of the hourly Leq created by future pickleball operations. A detailed evaluation and assessment of the pickleball noise at noise sensitive receptors within the City of Las Vegas and Clark County is provided in this section.

(Remainder of page blank.)

Figure 5. Leq Noise Contour Map for the Project Design Pickleball Operations

### City of Las Vegas

Noise sensitive receptors NM1, NM2, and NM4 are in the City of Las Vegas' jurisdiction. Future hourly Leq noise levels from the proposed pickleball activity will be 56.7, 41.2, and 63.3 dBA at receivers NM1, NM2, and NM4, respectively. At NM1 and NM2, pickleball noise will not exceed ambient noise levels by greater than 3 dB and therefore complies with the recommended noise standard. Pickleball would exceed ambient noise levels by greater than 3 dB and would be considered a noise impact at NM4. The project design noise barrier only provides shielding for the residences directly south of the courts and does not provide acoustical shielding for the church at NM4.

Pickleball would be considered a noise impact at NM4 when pickleball noise exceeds ambient noise levels. This would occur when the courts are at capacity. Additionally, the impulsive character of the pickleball noise could be audible and could be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise.

Noise control was evaluated to reduce future pickleball noise at the church (NM4). Table 4 summarizes the assessment of the future pickleball noise levels from the Project Design with the ambient background and the recommended noise standard for the City of Las Vegas receptors. Tables 5 through 7 summarize the assessment of the pickleball noise levels from Project Design with the hourly ambient background and the recommended noise standard at NM1, NM2, and NM4, respectively. Figures 6 through 8 show a comparison of the future combined pickleball and ambient noise levels from the Project Design with the hourly ambient noise levels and recommended noise standard.

**Table 4. Summary of Impact Assessment of Pickleball Noise - Project Design**

Receptor		Range in Ambient Noise Level during Pickleball Operating Hours, Leq, dBA <sup>1</sup>	Recommended Noise Standard, Leq, dBA <sup>2</sup>	Future Project Design Pickleball Noise Level, Leq, dBA	Assessment
NM1	Nearest Residence to the North	63.9 - 69.8	66.9 - 72.8	56.7	Compliance
NM2	Nearest Residence to the East	62.5 - 72.2	65.5 - 75.2	41.2	Compliance
NM4	Church Eastern Property Line / Project Site Western Property Line	51.5 - 64.1	54.5 - 67.1	63.3	Exceedance

Note: <sup>1</sup>Pickleball will operate during the hours of 7AM to 10PM.

<sup>2</sup>The Recommended Noise Standard for the City of Las Vegas is a noise level increase that does not exceed 3 dB above measured ambient noise levels for the hour period. Due to the logarithmic nature of decibels, pickleball noise levels should not exceed ambient noise levels which is reflective of a 3 dB increase from the project when added to the ambient background.

**Table 5. Impact Assessment of Pickleball Noise from the Project Design at NM1**

Hour Start Time	Pickleball Noise Level, Leq, dBA	Ambient Noise, Leq, dBA <sup>1</sup>	Pickleball + Ambient Noise, dBA	Recommended Noise Standard, Leq, dBA <sup>2</sup>	Assessment
7:00:00 AM	56.7	69.3	69.6	72.3	Compliance

6:00:00 PM	63.3	53.7	63.7	56.7	Exceedance
7:00:00 PM	63.3	53.3	63.7	56.3	Exceedance
8:00:00 PM	63.3	52.9	63.7	55.9	Exceedance
9:00:00 PM	63.3	52.1	63.6	55.1	Exceedance

Note: <sup>1</sup> Pickleball will operate during the daytime hours of 7AM to 10PM

<sup>2</sup>The Recommended Noise Standard for the City of Las Vegas is a noise level increase that does not exceed 3 dB above measured ambient noise levels for the hour period. Due to the logarithmic nature of decibels, pickleball noise levels should not exceed ambient noise levels which is reflective of a 3 dB increase from the project when added to the ambient background.

**Figure 8. Comparison of Future Leq Pickleball Noise from Project Design with Ambient Noise and Noise Standard at NM4**

### Clark County

Noise sensitive receptor NM3A is in Clark County jurisdiction. Hourly Leq noise levels from the proposed pickleball activity will be 53.4 dBA at the residences located south of the future pickleball complex and represented by NM3A. Pickleball would exceed the Clark County Leq Noise Standard of 52.9 dBA. At NM3A, the future pickleball noise level would exceed ambient noise levels throughout many of the operating hours. Pickleball noise would be considered an impact at the residences to the south when the courts are operating at maximum capacity.

Noise control was evaluated to reduce pickleball noise at the residences represented by NM3A. Table 8 summarizes the assessment of the future pickleball hourly Leq noise levels from the Project Design with the ambient background and the Clark County Leq Noise Standards. Table 9 summarizes the assessment of the pickleball noise levels from the Project Design with the hourly ambient background and the noise standard. Figure 9 shows a comparison of the future combined pickleball and hourly ambient noise levels from Project Design with the ambient noise level and noise standard.

**Table 8. Summary of Impact Assessment of Pickleball Noise - Project Design**

Receptor		Range in Ambient Leq Noise Level during Pickleball Operating Hours, Leq, dBA <sup>1</sup>	Clark County Noise Standard, Leq, dBA	Project Design Pickleball Noise Level, Leq, dBA	Assessment
NM3A	Nearest Residence to the South	50.3 - 61.9	52.9	53.4	Exceedance <sup>2</sup>

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The nearest residence to the south is under Clark County jurisdiction and has a noise standard of 52.9 dBA Leq.

**Table 9. Impact Assessment of Pickleball Noise from Project Design at NM3A**

Hour Start Time	Pickleball Noise Level, Leq, dBA	Ambient Noise, Leq, dBA <sup>1</sup>	Pickleball + Ambient Noise, Leq, dBA	Clark County Noise Standard, Leq, dBA	Assessment
7:00:00 AM	53.4	55.8	57.8	52.9	Exceedance <sup>2</sup>
8:00:00 AM	53.4	52.9	56.2	52.9	Exceedance <sup>2</sup>

6:00:00 PM	53.4	52.9	56.2	52.9	Exceedance <sup>2</sup>
7:00:00 PM	53.4	52.1	55.8	52.9	Exceedance <sup>2</sup>
8:00:00 PM	53.4	52.3	55.9	52.9	Exceedance <sup>2</sup>
9:00:00 PM	53.4	52.1	55.8	52.9	Exceedance <sup>2</sup>

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The nearest residence to the south is under Clark County jurisdiction and has a noise standard of 52.9 dBA Leq.

**Figure 9. Comparison of Future Leq Pickleball Noise from Project Design with Ambient Noise and Noise Standard at NM3A**

Additionally, the impulsive character of the pickleball noise could be audible and could be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise. The Lmax from proposed pickleball activity will be as high as 71.4 dBA at the exterior of NM3A residences. Pickleball would exceed the Clark County Lmax Noise Standard of 56 dBA. However, the ambient background Lmax during operating the hours of 7AM to 10PM, ranges from 62.1 to 88.7 dBA. The future pickleball noise Lmax would fall within the existing ambient background noise range.

## NOISE CONTROL ANALYSIS

### Noise Control

The noise control analysis evaluated additional noise barrier heights and locations to reduce pickleball noise to comply with the noise standards. The height of the noise barrier along the southern property line should be increased to 13-ft and be extended to shield the west property line with a 10-ft high noise barrier section, per Figure 10. The future pickleball noise at NM1 and NM2 would remain the same as without the noise barrier because the barrier does not provide shielding for the residences to the north and east. Pickleball noise levels with this configuration will be reduced to 52.5 and 51.1 dBA at NM3A and NM4, respectively. Refer to Figure 11 for a Leq noise contour map of the pickleball noise level with noise control. A detailed evaluation and assessment of the pickleball noise at noise sensitive receptors within the City of Las Vegas and Clark County is provided in this section.

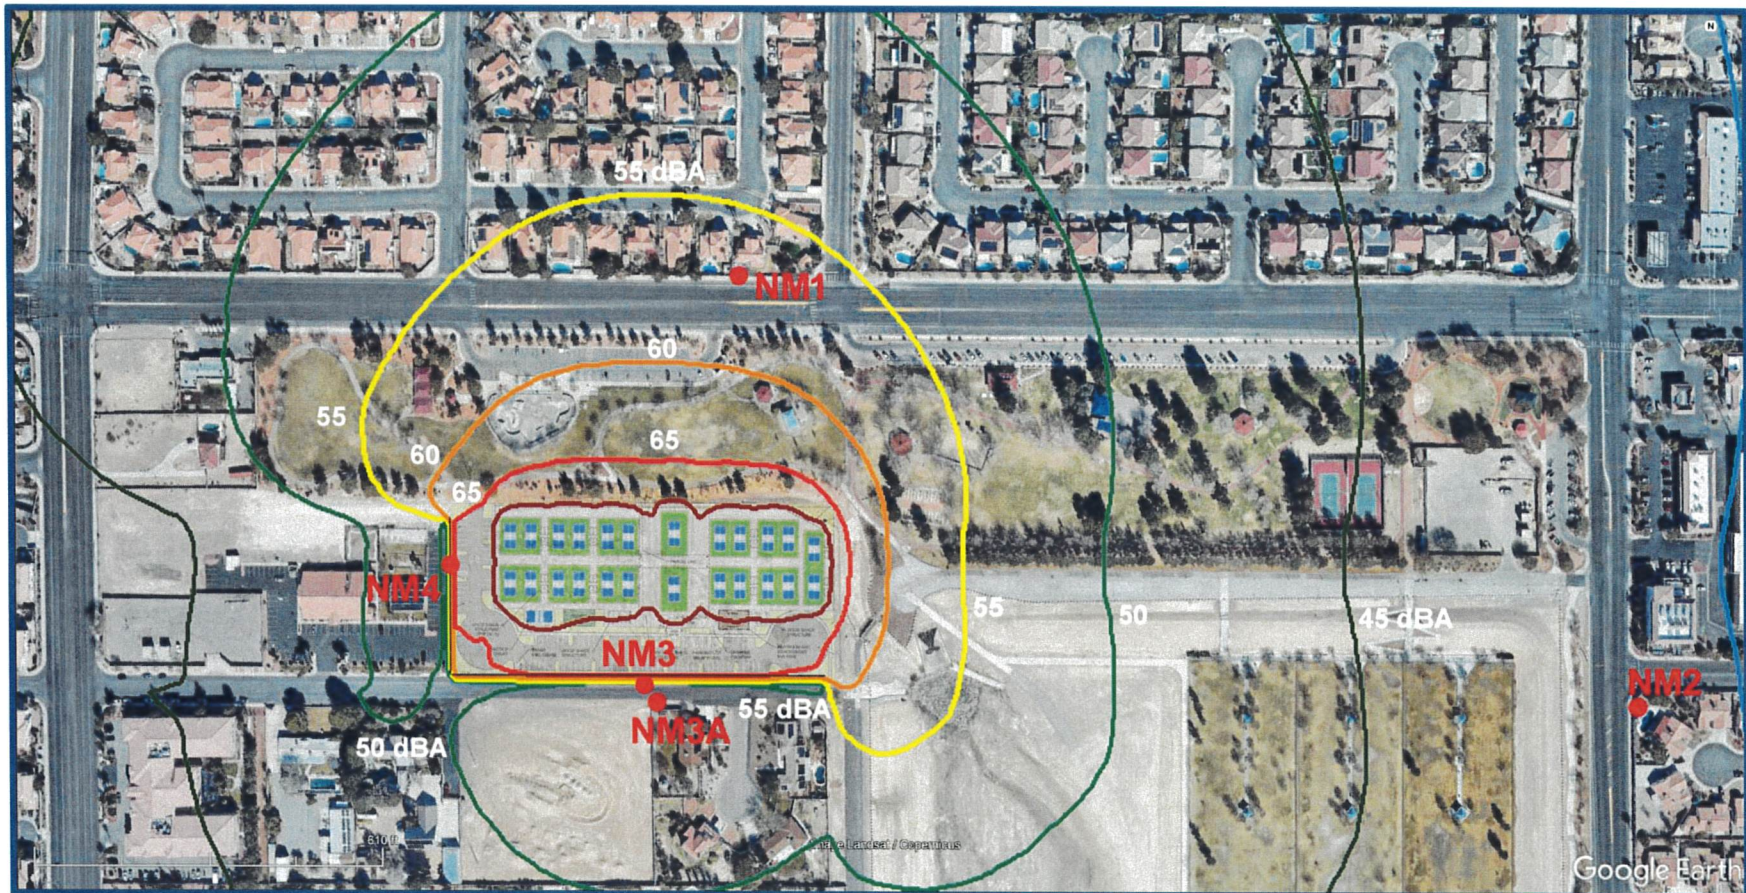

Figure 11. Leq Noise Contour Map for the Pickleball Complex with Noise Control

### City of Las Vegas

Noise levels at the noise sensitive receptors to the north (NM1) and east (NM2) remain unchanged with the noise barrier and in compliance with the City's standards because the noise barrier does not provide shielding in the north and east directions. At NM4, pickleball noise levels with the recommended noise barrier configuration will be reduced to a Leq of 51.1 dBA. The reduced pickleball noise will comply with the City of Las Vegas recommended noise standard at the church. Table 10 summarizes the pickleball noise with the noise control recommendations for properties located within the City of Las Vegas jurisdiction. Table 11 summarizes the assessment of the pickleball noise levels from noise control recommendations with the hourly ambient background and the recommended noise guideline at receptor NM4. Figure 12 shows a comparison of the pickleball noise levels with full noise control recommendations with the hourly ambient noise level and recommended noise guideline at NM4.

**Table 10. Summary of Impact Assessment of Pickleball Noise  
– with Recommended Noise Control**

Receptor		Range in Ambient Leq Noise Level during Pickleball Operating Hours, Leq, dBA <sup>1</sup>	Recommended Noise Standard, Leq, dBA <sup>2</sup>	Pickleball Noise Level with Recommended Noise Control, Leq, dBA	Assessment
<b>NM1</b>	Nearest Residence to the North	63.9 - 69.8	66.9 - 71.8	56.7	Compliance
<b>NM2</b>	Nearest Residence to the East	62.5 - 72.2	65.5 - 75.2	41.2	Compliance
<b>NM4</b>	Church to the West	51.5 - 64.1	54.5 - 67.1	51.1	Compliance

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The Recommended Noise Standard for the City of Las Vegas is a noise level increase that does not exceed 3 dB above measured ambient noise levels for the hour period. Due to the logarithmic nature of decibels, pickleball noise levels should not exceed ambient noise levels which is reflective of a 3 dB increase from the project when added to the ambient background.

**Table 11. Impact Assessment of Pickleball Noise with Noise Control at NM4**

Hour Start Time	Pickleball Noise Level with Noise Control, Leq, dBA	Ambient Noise, Leq, dBA <sup>1</sup>	Pickleball + Ambient Noise, Leq, dBA	Recommended Noise Standard, Leq, dBA <sup>2</sup>	Assessment
7:00:00 AM	51.1	56.7	57.7	59.7	Compliance
8:00:00 AM	51.1	54.8	56.3	57.8	Compliance
9:00:00 AM	51.1	54.9	56.4	57.9	Compliance
10:00:00 AM	51.1	55.4	56.8	58.4	Compliance
11:00:00 AM	51.1	54.4	56.1	57.4	Compliance
12:00:00 PM	51.1	57.5	58.4	60.5	Compliance
1:00:00 PM	51.1	53.3	55.3	56.3	Compliance
2:00:00 PM	51.1	64.1	64.3	67.1	Compliance
3:00:00 PM	51.1	56.6	57.7	59.6	Compliance
4:00:00 PM	51.1	54.9	56.4	57.9	Compliance
5:00:00 PM	51.1	55.3	56.7	58.3	Compliance
6:00:00 PM	51.1	53.7	55.6	56.7	Compliance
7:00:00 PM	51.1	53.3	55.3	56.3	Compliance
8:00:00 PM	51.1	52.9	55.1	55.9	Compliance
9:00:00 PM	51.1	52.1	54.6	55.1	Compliance

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The Recommended Noise Standard is the lowest ambient noise level during the hour period.

**Figure 12. Comparison of Future Leq Pickleball Noise with Noise Control with Ambient Noise and Noise Guideline at NM4**

Additionally, the impulsive character of the pickleball noise could be audible and could be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise. The future pickleball noise Lmax at NM1, NM2, and NM4 would fall within the existing ambient background Lmax noise range. The addition of the recommended noise barrier will provide additional noise reduction of the impulsive pickleball noise at NM4.

The noise reduction provided by adding absorptive materials to the northern face of the noise barrier wall was evaluated and determined to be not significantly effective for the residences located to the north, east, south and the church to the west. The area located within 75 feet north of the noise barrier could experience 1 to 2 dB of moderate noise reduction from the absorptive material; however, the noise reduction would not be noticeable to the receptors north, east, west and south of the project site. Therefore, absorptive materials are not recommended for the noise barrier.

### *Clark County*

At the residences located south of the complex and represented by NM3A, pickleball noise levels with the recommended noise barrier configuration will be reduced to a Leq of 52.5 dBA. The reduced pickleball noise will comply with the Clark County Noise Standard of Leq 52.9 dBA. Table 12 summarizes the pickleball noise with the Clark County Noise Standard. Table 13 summarizes the assessment of the pickleball noise levels with noise control recommendations, with the hourly ambient background and the noise standard at NM3A. Figure 13 shows a comparison of the pickleball noise levels with full noise control recommendations with the hourly ambient noise level and noise standard at NM3A.

**Table 12. Summary of Impact Assessment of Pickleball Noise with Recommended Noise Control**

Receptor		Range in Leq Ambient Noise Level during Pickleball Operating Hours, Leq, dBA <sup>1</sup>	Clark County Noise Standard, Leq, dBA <sup>2</sup>	Future Pickleball Noise Level with Noise Control, Leq, dBA	Assessment
NM3A	Nearest Residence to the South	50.3 – 61.9	52.9	52.5	Compliance

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The nearest residence to the south is under Clark County jurisdiction and has a noise standard of 52.9 dBA Leq.

**Table 13. Impact Assessment of Pickleball Noise with Noise Control at NM3A**

Hour Start Time	Pickleball Noise Level with Noise Control, Leq, dBA	Ambient Noise, Leq, dBA <sup>1</sup>	Pickleball + Ambient Noise, Leq, dBA	Clark County Noise Standard, Leq, dBA <sup>2</sup>	Assessment
7:00:00 AM	52.5	55.8	57.8	52.9	Compliance <sup>2</sup>
8:00:00 AM	52.5	52.9	56.2	52.9	Compliance <sup>2</sup>
9:00:00 AM	52.5	51.1	55.4	52.9	Compliance <sup>2</sup>
10:00:00 AM	52.5	52.7	56.1	52.9	Compliance <sup>2</sup>
11:00:00 AM	52.5	52.4	56.0	52.9	Compliance <sup>2</sup>
12:00:00 PM	52.5	52.6	56.0	52.9	Compliance <sup>2</sup>
1:00:00 PM	52.5	51.6	55.6	52.9	Compliance <sup>2</sup>
2:00:00 PM	52.5	61.9	62.5	52.9	Compliance <sup>2</sup>
3:00:00 PM	52.5	55.3	57.5	52.9	Compliance <sup>2</sup>
4:00:00 PM	52.5	59.8	60.7	52.9	Compliance <sup>2</sup>
5:00:00 PM	52.5	54.6	57.1	52.9	Compliance <sup>2</sup>
6:00:00 PM	52.5	52.9	56.2	52.9	Compliance <sup>2</sup>
7:00:00 PM	52.5	52.1	55.8	52.9	Compliance <sup>2</sup>
8:00:00 PM	52.5	52.3	55.9	52.9	Compliance <sup>2</sup>
9:00:00 PM	52.5	52.1	55.8	52.9	Compliance <sup>2</sup>

Note: <sup>1</sup>Pickleball will operate during the daytime hours of 7AM to 10PM.

<sup>2</sup>The nearest residence to the south is under Clark County jurisdiction and has a noise standard of 52.9 dBA Leq. Pickleball will comply with the Leq noise standard.

**Figure 13. Comparison of Pickleball Noise with Noise Control with Ambient Noise and Noise Standard at NM3A**

Additionally, the impulsive character of the pickleball noise could be audible and could be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise. With the noise control barrier, the Lmax from proposed pickleball activity will be reduced to 70.5 dBA at the exterior of NM3A residences. Pickleball would exceed the Clark County Lmax Noise Standard of 56 dBA. However, the ambient background Lmax, during operating the hours of 7AM to 10PM, ranges from 62.1 to 88.7 dBA. The future pickleball noise Lmax would fall within the existing ambient background noise range.

### **Additional General Noise Control Options**

1. Require the use of newer low noise padded neoprene paddles at all times. Each player's paddle should be inspected by City personnel prior to access to the courts. Players using old high noise paddles would not be allowed court time.
2. The City should maintain a list of acceptable quieter pickleball paddles and balls to minimize noise disturbances. The list shall be updated as necessary to reflect the current technology for paddles and balls.
3. Encourage the use of low noise pickleball equipment whenever possible.
4. Consider quiet days or hours.
5. Consider the use of quiet foam balls during the nighttime hours.

### **FREQUENCY CONTENT OF PICKLEBALL NOISE**

The sound produced by the impact between a pickleball and paddle is characterized by a sudden onset and brief duration. The spectral content of the paddle impact is narrowband with a center frequency typically between 800 and 2,000 Hertz. Due to the frequency content of a pickleball strike, and the quantity of impact events, the impulsive character of the noise could remain audible and may still be a source of annoyance to sensitive individuals. Figure 14 displays the frequency plot of tennis, pickleball noise (no noise control), and pickleball noise with a 10-ft barrier at approximately 50-ft from the court. The impact sound of pickleball and its frequency characteristics can be further reduced with the use of padded paddles and to a greater extent foam balls. An additional 3 to 10 dB of noise reduction can be achieved with low noise equipment.

Note: <sup>1</sup>Taken from noise measurement location at approximately 50-ft from court.

**Figure 14. Frequency Content of Pickleball vs Tennis Strike**

## CONCLUSION

Acoustics Group, Inc., (AGI) was retained by the City of Las Vegas to evaluate the pickleball noise levels associated with the Proposed Regional Pickleball Complex at Wayne Bunker Park. The project proposes adding twenty-four (24) pickleball courts to the park. AGI has reviewed the City of Las Vegas's Municipal Code Noise Standards, Clark County Noise Standards, conducted ambient noise level measurements, analyzed pickleball noise, assessed the impact of the pickleball courts, and evaluated noise control measures for reducing the noise from the proposed pickleball courts at the nearby residential homes.

The predicted future hourly Leq noise level from the proposed pickleball activity will be 56.7, 41.2, 53.4, and 63.3 dBA at the nearest receivers to the north (NM1), east (NM2), south (NM3A), and west (NM4), respectively. At NM1 and NM2, the pickleball noise level would be below ambient noise levels throughout the operating hours and will comply with the recommended noise standard for City of Las Vegas. At NM3A, the pickleball noise level will exceed the Clark County Leq Noise Standard of 52.9 dBA. At NM4, the pickleball noise level would exceed ambient noise levels and will not comply with the noise standard for the City of Las Vegas.

The Lmax from proposed pickleball activity will be as high as 71.4 dBA at the exterior of NM3A residences. Pickleball would exceed the Clark County Lmax Noise Standard of 56 dBA. However, the ambient background Lmax during operating the hours of 7AM to 10PM, ranges from 62.1 to 88.7 dBA. The future pickleball noise Lmax would fall within the existing ambient background noise range.

The impulse noise from pickleball play will be noticeable at the nearest receptors to the north, east, south, and west.

Noise control is recommended to reduce the pickleball noise at the impacted noise-sensitive receptors to the south and west. With the implementation of noise control options, pickleball noise would be reduced. However, the impulsive character of the noise could remain audible and may still be a source of annoyance to sensitive individuals, especially when the ambient background noise level is lower or when there are lulls in traffic noise.

## CITY OF LAS VEGAS MUNICIPAL CODE

9.16.005 - Definitions.

As used in this Chapter, unless the context otherwise indicates, the following terms shall have the meanings that are ascribed to them as follows:

- (A) "Demolition" means any dismantling, intentional destruction or removal of structures, utilities, public or private right-of-way surfaces or similar property.
- (B) "Emergency" means an occurrence or set of circumstances that involves actual or imminent physical trauma or property damage which demands immediate action.
- (C) "Emergency work" means any work that is performed for the purpose of preventing or alleviating the physical trauma or property damage that is threatened or caused by an emergency.
- (D) "Muffler or sound dissipation device" means a device for abating the sound of escaping gases of an internal combustion engine.
- (E) "Noise" means any useless sound which annoys or disturbs humans or which causes or tends to cause an adverse psychological or physiological effect on humans.
- (F) "Noise disturbance" means any sound which is unreasonably loud, disturbing or unnecessary or which endangers or injures the health of humans or annoys or disturbs a reasonable person of normal sensitivities.
- (G) "Public right-of-way" means any street, avenue, boulevard, highway, sidewalk, alley or similar place which is owned or controlled by a governmental entity.
- (H) "Public space" means any real property or structures thereon which is owned or controlled by a governmental entity.

(Ord. 3359 §§ 1, 2, 1988)

9.16.010 - Prohibited noises—Exceptions.

Subject to the provisions of this Chapter, no person shall make, cause, create or continue any noise disturbance within the corporate boundaries of the City. Noncommercial public speaking and public assembly activities that are conducted on any public right-of-way or in any public space shall be exempt from the operation of this Chapter.

(Ord. 3359 § 3, 1988; Ord. 2100 § 3 (part), 1980; Ord. 412 § 1 (part), 1950; prior code § 6-1-24 (part))

9.16.020 - Detrimental noises prohibited.

Noise of such character, intensity or duration as to be detrimental to the life or health of any individual, or in disturbance of the public peace and welfare is prohibited.

(Ord. 2100 § 3 (part), 1980; Ord. 412 § 1 (part), 1950; prior code § 6-1-24 (part))

9.16.030 - Enumeration of prohibited noises.

The following acts, among others, are declared to be noise disturbances and noises in violation of, and unlawful under, this Chapter, but this enumeration shall not be deemed to be exclusive:

- (A) The sounding of any horn or signal device on any automobile, motorcycle or bus while it is in motion except as a danger signal if another vehicle is approaching apparently out of control or, if in motion, only as a danger signal after the brakes have been or are being applied and the deceleration of the vehicle is intended, the creation by means of any such horn or signal device of any unreasonably loud or harsh sound or the sounding of such horn or device for an unnecessary and unreasonable period of time.

- (B) Operating or playing, or permitting the operation or playing of, any radio, television, phonograph, stereo, drum, musical instrument, sound amplifier or similar device which produces, reproduces or amplifies sound in such a manner as to create a noise disturbance:
- (1) To any person who resides or works in the vicinity. The operation or playing of such radio, television, phonograph, stereo, drum, musical instrument, sound amplifier or similar device in such a manner or at such a volume as to be plainly audible to the human ear at a distance of fifty feet from the source of the noise shall be prima facie evidence of a violation of this Chapter; or
  - (2) At a distance of fifty feet from such radio, television, phonograph, stereo, drum, musical instrument, sound amplifier or similar device when it is played or operated in or on a motor vehicle that is on any public right-of-way or in any public space.

This subsection shall not apply to any noncommercial spoken language that is subject to Subsection (K) of this Section.

- (C) Yelling, shouting, hooting, whistling or singing on the public streets, particularly between the hours of eleven p.m. and seven a.m., or at any time or place in such a manner or at such a volume as to annoy or disturb the quiet, comfort or repose of any person in any hospital, dwelling, hotel or any other type of residence or of any person in the vicinity.
- (D) The keeping of any animal, bird or fowl which, by causing frequent or long-continued noise, disturbs the comfort or repose of any person in the vicinity.
- (E) The use of any automobile or motorcycle so out of repair, so loaded or in such manner as to cause loud and unnecessary grating, grinding, rattling or other noises.
- (F) The blowing of any steam whistle that is attached to any stationary boiler except to give notice of the time to begin or stop work, as a warning of fire or other danger or upon the request of the proper authorities of the City.
- (G) The discharge into the open air of the exhaust of any steam engine, stationary internal combustion engine, motor vehicle or motor boat engine except through a muffler or other sound dissipation device which will effectively prevent loud or explosive noises therefrom.
- (H) The erection, including the excavation, demolition, alteration or repair of any building in any new or existing residential district, or the excavation, construction or repair of any right-of-way improvements in any new or existing residential district other than between the hours of seven a.m. and six p.m., except in the case of urgent necessity in the interest of public health and safety and then only with a permit from the designated official. Such a permit may be granted for a period not to exceed thirty days while the condition of urgent necessity continues. Such a permit may be granted only upon a determination by the designated official that the public health and safety will not be impaired by the performance of the work between the hours of six p.m. and seven a.m. and that loss or inconvenience would otherwise result to any party in interest regarding the work. Such a permit may be granted only if application therefor is made at the time that the permit for such work is issued or at any time during the progress of such work. In connection with the permit process described in this Subsection, the designated official may establish such forms, policies and procedures as deemed necessary. For purposes of this Subsection, the "designated official" means:
- (1) For work involving buildings, the Director of Community Development or a designee.
  - (2) For work involving right-of-way improvements, the City Traffic Engineer or a designee.
- (I) The creation of any excessive noise on any street that is adjacent to any school, institution of learning, church or court while the same is in session, or is adjacent to any hospital, which unreasonably interferes with the working or sessions thereof or the persons therein.
- (J) The loading, unloading, opening, closing or other handling of boxes, crates, containers, building materials, garbage cans or similar objects between the hours of eleven p.m. and seven a.m. in such a manner as to project a noise disturbance across the boundary of any residential real property.
- (K) The use or operation for any purpose of a loudspeaker, public address system, or sound amplification device in connection with any radio, phonograph, tape recorder, microphone or similar device:

- (1) In such a manner or at such a volume that it is plainly audible to the human ear at a distance of fifty feet or more from the source of the sound;
- (2) Between the hours of eleven p.m. and seven a.m. on any public right-of-way or in any public space; or
- (3) On a truck or other vehicle, either moving or standing, for advertising or any other purpose.
- (L) The offering for sale or selling of anything by shouting or outcry within any residential or commercial area of the City.
- (M) The repairing, rebuilding, modifying or testing of any motor vehicle, motorcycle or motorboat in such a manner as to project a noise disturbance across the boundary of any residential real property.
- (N) The intentional sounding or permitting the sounding outdoors of any fire, burglar or civil defense alarm, siren, whistle or similar stationary emergency signaling device except for emergency purposes or for the testing, between the hours of eight a.m. and six p.m., of:
  - (1) A stationary emergency signaling device; provided, however, that each such test shall be performed at the same time of day, and any such testing shall use only the minimum cycle test time, which, in no event, shall exceed sixty seconds.
  - (2) The complete emergency signaling system, including the functioning of the signaling device and the personnel response to the signaling device; provided, however, that such testing shall not be performed more than once in each calendar month.
- (O) The sounding or permitting the sounding of any exterior burglar alarm or any motor vehicle burglar alarm unless such alarm is automatically terminated within fifteen minutes after its activation.

(Ord. No. 6816, § 89, 8-17-22; Ord. No. 6161, § 1, 9-21-11; Ord. 5038 § 1, 1997; Ord. 3359 § 4, 1988; Ord. 2100 § 3 (part), 1980; Ord. 1890 § 1 (part), 1977; Ord. 1745 § 1 (part), 1975; Ord. 412 § 1 (1), 1950; prior code § 6-1-24(A—K))

#### 9.16.040 - Exemptions from chapter provisions.

None of the terms or prohibitions that are contained in this Chapter shall apply to or be enforced against:

- (A) Any vehicle that belongs to, or is used by, the City or its authorized garbage collection contractor while it is engaged in any necessary public business;
- (B) The excavation or repair, or both, of streets, highways or bridges that are made during the night by or on behalf of the City, Clark County or the State, if the public welfare and convenience renders it impracticable to perform such work during the day;
- (C) The emission of sound to alert persons to the existence of an emergency;
- (D) Sounds that are emitted in the performance of emergency work;
- (E) Any event that:
  - (1) Is authorized by a special event permit issued by the City; or
  - (2) Takes place on the premises of a business that is licensed pursuant to Chapter 6.39 or Chapter 6.50 and is located within the Downtown Entertainment Overlay District, as described in LVMC 19.10.120, but only if and to the extent that all outdoor speakers or other amplification devices comply with the requirements and limitations of LVMC 6.39.050(D)(5).
- (F) The exempt portion of any event that takes place on the premises of a business that is located within 18B the Las Vegas Arts District, as described in the Las Vegas Downtown Centennial Plan. The "exempt portion" of an event includes the following:
  - (1) For events beginning on Sunday through Wednesday, event activities that do not extend beyond ten p.m.;
  - (2) For events beginning on Thursday, event activities that do not extend beyond midnight; and
  - (3) For events beginning on Friday and Saturday, event activities that do not extend beyond two a.m. the following morning; or
- (G)

Civic functions, including without limitation parades, concerts, athletic events, group use of public facilities and other public gatherings for which a license or permit has been issued pursuant to any chapter of this Code.

(Ord. No. 6648, § 2, 10-17-18; Ord. No. 6157, § 1, 8-17-11; Ord. 6004 § 1, 2008; Ord. 3359 § 5, 1988; Ord. 2100 § 3 (part), 1980; Ord. 1890 § 1 (part), 1977; Ord. 1745 § 1 (part), 1975; Ord. 412 § 1 (2), 1950; prior code § 6-1-24(L))

9.16.050 - Violation—Penalty.

Any person violating any provision of this Chapter is guilty of a misdemeanor. A person who is convicted of a violation of Subsection (B) or Subsection (K) of Section 9.16.030 shall be punished by a fine not less than fifty dollars for the first offense, one hundred dollars for the second offense and two hundred fifty dollars for the third and all subsequent offenses.

(Ord. 5038 § 2, 1997)

## CLARK COUNTY MUNICIPAL CODE

30.68.020 - Noise.

- a. Excessive noise shall be muffled to mitigate objectionable intermittence, beat frequency, shrillness or volume.
- b. The maximum permissible sound pressure level of any continuous, regular, or frequency source of sound produced by any activity shall be established by time period and type of zoning district per Table 30.68-1.
- c. Public address systems of any kind shall only be permitted subject to special use permit approval unless in conjunction with live entertainment or a temporary outdoor commercial event which is otherwise approved.
- d. Sound levels shall be measured with a sound level meter and associated octave band filter, manufactured according to standards prescribed by the American National Standards Institute, ANSI S1.2-1962 "American Standard Meter for the Physical Measurement of Sound" and the revisions thereof, including ANSI S1.1-1976, ANSI S1.6-1984, ANSI S1.4-1983- Type 1 Precision, ANSI S1.11-1986 and ANSI S1.13 Field Method. Measurements shall be made using the flat network of the sound level meter.
- e. Impulsive type noises shall be subject to the standards described in Table 30.68-2, provided they are capable of being accurately measured with the equipment described above.
- f. For the purpose of this Chapter, noises capable of being measured shall be those which cause rapid fluctuations of the sound level meter needle with a variation of no more than plus or minus two (2) decibels. Noises incapable of being measured, such as irregular and intermittent sound emissions, shall be controlled so as not to become a nuisance to adjacent uses.
- g. Sound pressure levels shall be measured at all property lines at a height of at least four (4) feet above the ground surface.
  1. Where the emitting and receiving premises are in different zoning districts, the limits governing the more restrictive district shall apply to any regulated noise entering that district.
  2. The levels specified may be exceeded by ten decibels (10dB) for a single period not to exceed fifteen (15) minutes in any one day.
- h. Requirements of this Section do not apply to:
  1. Construction and/or demolition activities when conducted during daytime hours.
  2. Sound generating equipment or apparatus used for public safety or to warn the public of an emergency.
  3. Noise from use-related loading/unloading operations that affect residential areas when conducted during daytime hours.
  4. Lawn maintenance and home repair only if conducted during daytime hours as a normal function of any authorized use, and the equipment is maintained in proper working condition.
  5. Aircraft Noise.
  6. Properties located within the Gaming Enterprise District located between Sahara Avenue and St. Rose Parkway and Koval Lane or its alignment and Cameron Street or its alignment.

*I don't know why the  
city thinks every  
square inch of land has  
to be developed,  
More traffic, high walls  
no critters are all reason  
I oppose this project.  
Leave the land alone &  
spend the \$ improving the  
park. The plumbing, the  
stagnant water etc.*

Comments: Please raise the height of the fence at Wayne Bunker Park. we really need more pickleball courts. I am a senior and just started playing; I got 4 of my friends interested and they love it also. It's improved our endurance and our agility, we've made new friends, given us a bright outlook on life. We seniors need activites we can do to stay active and improve our health, and help our overall well being. Thank you so much

**Comments:** Please vote yes on this. Pickleball is the fastest growing sport in America, and Las Vegas, along with most areas, is lacking in places to play. Agree, it can be loud at times, but this proposal will help with that. Residents and Pickleballers will both benefit with the higher wall. Thank you for your consideration.

City of Las Vegas

**Meeting Date:** Tuesday, March 12, 2024

**Project Number:** 23-0382

**Position:** I SUPPORT the project and all related applications.

**Name:** Eric Recientes

**Residential or Business Address:** 7780 Hickam Ave  
Las Vegas, NV 89129

**Email:** erecientes@gmail.com

**Comments:** I am an avid tennis fan player and supporter whom has embraced the game of pickleball. Pickleball is a sport that has a broad demographic that includes all levels, incomes and ages to become more active and enjoy the outdoors family and community. With the explosive growth and popularity of this sport it is a welcome to build a new facility at Wayne Bunker Park within our neighborhood. There just never seems to be enough courts nowadays...more are welcomed..with great facilities and expansion for the northwest.

**Name:** Spencer Childs

**Residential or Business Address:** 6478 Soaring Hills Ct  
Las Vegas, NE 89110

**Phone:** (702) 768-9426

**Email:** rspencerchilds@hotmail.com

**Comments:** Please approve these courts, they are needed and will be used. Speaking in general terms pickleballers are very good neighbors and the courts will increase their property values . We have made accommodations to address their valid noise concerns. Please approve!

Comments: In favor of the Wayne Bunker Pickleball complex:  
Having lived here for more than 50 years, my spouse and I agree that more pickleball courts are necessary. Many people use the courts, including children, the elderly, and families. The courts will encourage everyone to have a healthy outlet. Regretfully, there aren't enough courts to meet demand right now.

**Comments:**

We really do need more courts. They get so packed, it's intimidating for me to take my kids to teach them. Would be great to have way more courts so we can play as a family and not be thrown into the midst if having to play with strangers.

Pickleball has made me so happy. I've made so many friends. And I've lost weight!

### Formstack Submission For: Planning App Comments Submitted at 03/11/24 2:24 PM

**Meeting Date:** Tuesday, March 12, 2024

**Project Number:** 23-0382

**Position:** I SUPPORT the project and all related applications.

**Name:** Sheryl Cinelli

**Residential or Business Address:** 9137 mastodon avr  
Las Vegas, NV 89149

**Phone:** (702) 561-6820

**Email:** dream2ski@aol.com

**Comments:**

The community is facing a pressing need for additional pickleball courts as the sport experiences a remarkable surge in popularity. The current demand for pickleball has outpaced the available supply of courts, creating a situation where there is an urgent requirement for more facilities. To meet the escalating interest and enthusiasm for pickleball within the community, it is imperative to establish additional courts to ensure that everyone can actively participate and enjoy the sport without encountering constraints or limitations. This expansion will not only

cater to the current demand but also contribute to fostering a sense of community engagement and well-being through the shared enjoyment of this rapidly growing recreational activity.

#### Comments:

I live directly across the street from 4 courts at Stonebridge Park in Summerlin. These courts are very busy and are used from early morning til late in the evening. I never hear the noise if I am inside. I sit in my backyard often and rarely hear the noise from the courts then. If I do hear it, it is feint.

Las Vegas needs more pickleball courts. Existing courts are very full and the sport is growing in popularity quite dramatically. This location is ideal. A 10-foot wall should adequately provide noise reduction sufficient for all but the most sensitive.

#### Comments:

I started to play pickleball in 5/2021. I use to be able to find courts to play but now there is such a long wait between games because there are so many new players. This is such a fun and sociable sport. We have a new court put in at Centennial Hills Park, however, the courts are slanted!! This does not help. If we are to have 28 pickleball courts in the northwest area, it will alleviate a lot of the issues in our area of being able to find courts then the 2 random courts here and there. These courts are so needed as kids in junior and high school are being taught how to play and that will cause even more congestion. WE NEED THESE COURTS AT

Hem 19

Comments: I wish to express my support for the revisions and additions to the Wayne Bunker Park pickleball initiative. I appreciate the efforts the City has done to address issues that can make this project a win for all parties. Each touch point along the way for the past three years has improved upon the plans. Hopefully, the outcome from the recent sound study can mitigate concerns of a few residents that object to the addition to the park. The growth of the sport is well documented. We simply need more pickleball courts across the Las Vegas Valley. In my opinion, it doesn't matter where they are constructed and located, there will always be some sort of

Item 19  
A

opposition. Regardless of the sport, there will always be noise, whether its a bounce of a basketball or simply people having fun. As a community, we need to figure out what can be done for the common good. I am anxious to use these courts and plan to be there day one to use them. Thank you.

**Comments:**

Las Vegas needs more pickleball courts and the location at Wayne Bunker Park serves the NW valley where it is really needed. Pickleball is a great form of exercise and fun and is a big draw for tourists and citizens to Las Vegas. I totally support this project and can't be more happy if this project is successful. I have Parkinson's disease and exercise is so important to fighting off the symptoms and this is a great form of exercise. Thank you for your support and moving this much needed project forward.

#### Comments:

As an avid pickle baller in the Las Vegas area, I support the addition of pickleball courts at Wayne Bunker Park. Pickleball is an amazing sport with many benefits including fitness and improving the well-being of people. Pickleball is a social sport and leads to making the community better. It unites people of all ages and the camaraderie that develops as part of the experience leads to lasting friendships. One gentleman described it to me as "saving his life" after his wife of many years passed away. Without pickleball he was facing a life of isolation and loneliness. After discovering pickleball, his social circle expanded and he has made new

Item 19  
A

friendships while remaining active. We simply need more pickleball courts. Many times players have to wait for courts to open up to play. All public parks should have this amenity. And, there are simply not enough courts in the Las Vegas area. We've all seen the success of the courts at Sunset Park. Let's build a similar complex in NW Las Vegas. Thank you.

**Email:** hour\_mentees\_06@icloud.com

**Comments:**

Pickleball is the fastest growing sport in America and it's fun for all ages and demographics. I'm a local pickleball player and I can attest to a severe shortage of public courts to play on as compared to the number of players wanting to play. The line of players waiting to play on any given day is long and makes it difficult to get time to play. Currently I will drive as far away as Sunset Park from Summerlin. Please move forward with the Wayne Bunker project giving more citizens opportunities to enjoy this wonderful sport while continuing to make Las Vegas a strong community with lots to offer its many residents.

#### Comments:

The Wayne Bunker Pickkeball complex is a very positive addition to the Las Vegas community. We have supported and played pickkeball for 14 years in Las Vegas....all ages enjoy this sport and find it to be a very important healthy and social addition to their lives...we don't have enough courts in Las Vegas to support this sport that is now busting its seams here in our communities....players are having to wait in lines and for considerable time to just play and get well needed exercise. Wayne Bunker is the perfect park to accommodate the needs of the pickleball community . Having courts in the Wayne Bunker community will raise

Item 19  
A

the value of their homes.....it will bring in new buyers that want to live in a PB community. Please vote this very important development through for the health and well being of the Las Vegas residents. Thank you. Sally Dobson

**Comments:**

I strongly support the Wayne Bunker Pickleball Complex! As the Northwest side of Las Vegas continues to expand, we need more recreation facilities like Wayne Bunker for residents. The growing sport of Pickleball provides multi-dimensional benefits which include exercise and improved cardiovascular health, social contact, and improved hand-eye coordination. It also improved cognitive skills since there is a fair amount of strategy to the game. Again, I strongly support the Wayne Bunker Pickleball Complex. It will definitely benefit the community!

#### Comments:

I support the recommendation of a 13 foot perimeter wall and the 10 foot barrier fencing for each court inside the complex.  
The western portion of the Las Vegas valley has experienced an enormous growth of pickleball players that it's hard to find a venue that isn't completely packed with players. This venue will definitely solve the overcrowding at the venues that are located in the western sector.  
I appreciate everything that the city has done to accommodate the neighbors in an effort to resolve their concerns.

Comments: Pickleball has become the fastest-growing sport, offering both physical and mental benefits to our community. As the demand for courts continues to rise, I propose the expansion of pickleball facilities in Las Vegas. The sport's popularity reflects its positive impact on mental well-being, physical health, and community engagement. By increasing the number of courts, we can accommodate the growing interest and provide a welcoming environment for residents of all ages.

**Comments:**

Our family of 4 strongly SUPPORTS creating the Wayne Bunker pickleball complex. Our family (children ages 9 and 11) enjoy playing pickleball together and meeting other families and kids on the courts. Our son, Jack (age 9) considers pickleball his primary sport and has goals to become a professional player before he graduates high school. He is currently sponsored by the premier brand in the industry, JOOLA, however we often have to travel to Utah, Arizona and California to compete and train with other Junior players. Adding a premier facility in Las Vegas would provide more opportunity for families to play and help develop the

City of Las Vegas

Junior players here locally. Having been deeply involved in the sport for nearly 3 years, the growth has been incredible and is increasing even more rapidly. Building a pickleball complex in the northwest NOW will allow Las Vegas to provide opportunities for the community that would not exist otherwise. Please approve this project for the benefit of the Junior players and their families, in addition to all of the other active pickleballers who live in our area!

Comments: Pickleball has become such a popular sport, and for a good reason. It is bringing the community together and getting us all healthier at the same time! I have found it to be the most amazing and welcoming community of any sports so far. There is such a need for more courts, public courts, available to all of us without having to drive 30 minutes to wait for one of the few that are available. Please approve this project and others like it! Thank you

**Comments:** I am the admin of Durango Hills Pickleball Club that has more than 2700 members. I know many seniors and young people became more active, social and fun from playing pickleball. It's getting crowded at Durango Hills, especially during the weekend. The approval of the project will help many people tremendously.

**Email:** hrongsheu@yahoo.com

**Comments:** I am the admin of Durango Hills Pickleball Club that has more than 2700 members. I know many seniors and young people became more active, social and fun from playing pickleball. It's getting crowded at Durango Hills, especially during the weekend. The approval of the project will help many people tremendously.

Comments: As a supporter, player and big fan of Pickleball- my greatest joy is bringing families together who are beginner players. They are usually excited and eager to learn while having fun. We laugh a lot, encourage, applaud and feel good when playing. I see so many Las Vegas Communities gathering and embracing Pickleball.

A Bunker Park Pickleball Community will be a good social gathering place for people/neighbors.

Item 19  
A

Engaging in pickleball can improve flexibility and range of motion, particularly in the arms, legs, and back. Regular play encourages gentle stretching of the muscles and joints, which is especially beneficial for older adults who may be experiencing a decrease in flexibility due to aging.

Pickleball offers significant mental health advantages.

Participating in this social sport can reduce stress, elevate mood, and boost self-esteem.

The camaraderie and friendly competition found in pickleball play can also help alleviate symptoms of anxiety and depression, contributing to overall mental well-being.

The sport requires players to make quick movements, anticipate the opponent's shots, and maintain balance while hitting the ball.

This not only improves hand-eye coordination but also enhances overall balance, which is crucial for daily activities and preventing falls, especially in older adults.

Pickleball offers physical, mental, and social benefits, making it an ideal activity for individuals looking to enhance their health and well-being. Whether you're a seasoned athlete or a beginner looking for a fun way to stay active, pickleball provides a welcoming and inclusive environment for everyone to enjoy the game and reap its numerous health benefits.

**Comments:**

I fully support this pickleball facility. Like the field of dreams, “build it and they will come”. This facility will enable promotion of the sport and ease some of the strain on existing courts, such as Durango Hills which can have waiting times as long as 30-45 minutes just to play one game!. There simply are not enough courts on this side of town. Summerlin town center is another location that needs more courts. We see a skate park on town center totally underutilized...conversion would be a great solution to additional court needs in Summerlin and the west side. Keep up the good work with building parks that meet community needs!

**Comments:**

I support the 10 foot wall. Additional Pickleball courts are needed in this area. Many people, all ages are loving the game. It is awesome to see families outside doing something together. We need more courts and the wall will help the adjacent neighborhoods feel better about the courts being there. Remember this is an activity that doesn't require a lot of expensive equipment and all ages can participate. Again, please move forward with the project.

**Comments:**

I have been playing at Durango for over eight years and have seen the exciting growth of Pickleball. Pickleball saved my life, not enough room here to explain but it did. There are two groups that desperately need more courts. First group is family's, every weekend I see family's show up and leave because they just want a court for themselves. Next group is the newbies, again they need courts to practice to get better to tackle the more experience players. The last meeting I went to I heard one of the commissioners put out a challenge to play him, bring it on anytime, I would love to.

**Comments:**

I completely support the position for having the Newly To-Be-Constructed Pickleball Courts at the Wayne Bunker Site. Not only as a USA Pickleball Ambassador and Registered Pickleball Professional (Pro Level PPR Coach) but as a US Military Retired Veteran.

My Support is for the construction to not only facilitate the community (Civilian as well as All Military Services) on this side of of the Valley, but just for that reason alone, is bases enough. The City and Community (SNP) have come together to find a location suitable enough for the BLM Monies to be placed in great

usefulness. The Facility will unite the communities and be come a Recreational Rehabilitation ICON for our Veteran to use as they incorporate back into their neighboring communities. It will rival the Sunset Park Pickleball Community and bring revenue to the communities; Community and City Organized Events and Tournaments... Bar-none (and in reality) The Northwest and East have the better and majority of pickleball players and we are frankly, pleased to have a facility of this caliber in "our" near by locations. In hindsight we will not have to trek (21\_Miles) to Sunset facility to find suitable competition or travel the already over crowded and treacherous highways and byways just to play with and against our neighbors. The Lack of courts and facilities in our areas cause us to do that.. Let's not miss the opportunity to unite our community recreationally and possibly generate revenue for the city and surrounding Wards...  
v/r USAP Ambassador, PPR Certified Coach and USA Retired Veteran.

Re: Pickleball Complex at Wayne Bunker Family Park

**Comments:** Dear Members of the City of Las Vegas Planning Commission,

My name is John Sloan, and I support approval of building a Pickleball complex at Wayne Bunker Park.

RECEIVED  
MAR 11 2024  
Dept. of Planning  
City of Las Vegas

Item 19  
A

As a little background, July 2013 marks the date when pickleball was first played on outdoor dedicated courts in a public park in the State of Nevada. This was a City of Las Vegas project to repurpose an unused roller hockey rink at Police Memorial Park. Dedicated outdoor courts in the city's public parks changed the whole dynamic of the sport's growth. Traditionally played indoors by senior citizens in a few gymnasiums around the county, the outdoor public courts opened play to young working adults and school aged girls and boys. Seeing the immediate demand, the City within a few months repurposed another hockey rink at Durango Hills Park in December of 2013. New courts at Bill Brier Family Park were soon to follow. Then Clark County got the burn as did other municipalities in Clark County.

The project at Wayne Bunker has been on the drawing board for a long time. The City requested a letter writing campaign back in September of 2020 as it was making application for a BLM grant. A plan is on the table that appears to meet the public demand while also addressing and mitigating concerns expressed by neighboring property owners.

My hope is that the Planning Commission will see this project as an enhancement to the City of Las Vegas as well as being in the collective best interest of all concerned.

Thank you.

John D. Sloan

**Comments:**

I have played pickleball for over 10 years now. It has exploded in the last 3-4 years. I now see young people, middle age, adults and seniors. This sport is a perfect for our community. It creates friends and brings families closer together! It's a wonderful health benefit for all age groups. We have outgrown Durango Hills and Lone Mountain pickleball courts. It takes a good while on peak times to play another game. I waited at least 30 minutes between games a couple of Saturdays ago. Please build these courts as they are in high demand. Let's keep our community exercising, socializing and having fun! Thank you!
