## Saving Places for 75 Years

PastForward 2025 will wrap up a year-long celebration of the [75th anniversary](#) of the National Trust for Historic Preservation and the innovative practice of preservation in a truly unique American city.

## Focus on Innovation

This year the conference will explore cutting-edge innovation, ground-breaking creativity, and experimentation transforming preservation for the future.

Speakers and sessions will showcase how preservation revitalizes communities, spurs economic development, nurtures a healthier environment, and fosters a stronger, shared sense of civic duty and belonging.

The conference will specifically address innovations in the following important areas:

A climate-friendly, community-driven **repurposing of older buildings** that energizes disinvested neighborhoods and supports healthy communities.

A **reimagined commemorative landscape** that honors the achievements, contributions, stories, and cultural heritage of all Americans.

An **invigorated public sphere** where meaningful places serve as catalysts for civic engagement across all demographics.
