***Re: Request to Hold (24-0072-GPA; 24-0072-ZON)
City of Las Vegas Planning Commission hearing on April 9, 2024***

Dear Ms. Holmes:

We are respectfully requesting that the above-referenced items be held from the April 9, 2024 City of Las Vegas Planning Commission hearing to the May 14, 2024 City of Las Vegas Planning Commission hearing so that the GPA and zone change application can be heard in conjunction with the site development plan review application on May 14, 2024.

Thank you.

Very truly yours,

KAEMPFER CROWELL

Jennifer Lazovich

April 9, 2024 - Planning Commission Meeting

**** STAFF REPORT ****

PROJECT DESCRIPTION

The applicant is requesting to amend the city's General Plan land use map and zoning designation on 20.00 acres at the southeast corner of Hickam Avenue and Grand Canyon Drive. If approved, various public and quasi-public uses such as schools, churches, utility installations and government facilities would be permitted on this site.

ISSUES

- A General Plan Amendment is requested from DR (Desert Rural Density Residential) to PF (Public Facility) on this site. Staff supports the request.
- A Rezoning is requested from R-E (Residence Estates) to C-V (Civic) on this site. Staff supports the request.
- A proposed bill (Bill 2024-8) that would repeal and replace the current Title 19.10.020 regarding the C-V (Civic) zoning district to provide updated development standards and procedures was adopted by the City Council on 03/20/24 and became effective 03/24/24.
- The subject site is part of Planning Area A2 as defined by the 2016 Interlocal Agreement between Clark County and the City of Las Vegas. Staff has determined that a General Plan Amendment to allow public or quasi-public uses or Rezoning to a C-V District does not violate the terms of the Agreement and that the current requests may be brought forward for review.

ANALYSIS

The subject site consists of one 17.50-acre parcel at the southeast corner of Hickam Avenue and one 2.5-acre parcel at the northwest corner of Florine Avenue and Tee Pee Lane; both are currently zoned U (Undeveloped) with a General Plan Designation of DR (Desert Rural Density Residential). The site is bordered by undeveloped single-family residential lots zoned R-E (Residence Estates) to the north as well as lots zoned RS20 (Residential Single-Family) in unincorporated Clark County to the north, east and west. A five-acre parcel at the northwest corner of Alexander Road and Tee Pee Lane is zoned C-V (Civic) for Las Vegas Valley Water District use, and other adjacent parcels to the south are also zoned U (Undeveloped) with either a General Plan Designation of DR (Desert Rural Density Residential) or RNP (Rural Neighborhood Preservation). Neither this site nor any adjacent parcels within the City of Las Vegas jurisdiction are located within the Rural Preservation Overlay District.

Staff Report Page Two
April 9, 2024 - Planning Commission Meeting

The U (Undeveloped) zoning classification is a placeholder district to be used to identify property until it is ready to be developed with a more intense, permanent use. At such time properties with this designation are to be rezoned to accommodate the anticipated uses. Nevertheless, Title 19.12 allows some nonresidential uses to operate on property zoned U (Undeveloped), including some public or quasi-public uses. Development standards for U-zoned properties are intended for large lots with large setbacks and buildings no taller than two stories in height.

The C-V (Civic) zoning district permits public and quasi-public uses operated or controlled by any recognized religious, fraternal, veteran, civic or service organization. Specifically, this zone allows for the development of new schools, libraries, public parks, public flood control facilities, police, fire electrical transmission facilities, Water District and other public utilities. Such uses would need to be evaluated on a case-by-case basis to determine compatibility with the surrounding residential land uses and low-density zoning districts.

Per the Las Vegas 2050 Master Plan, the existing DR (Desert Rural Density Residential) General Plan Designation is intended to feature large lot, single-family estates or ranches typically in suburban or peripheral rural areas. Agricultural uses, as well as some public or quasi-public uses such as churches or schools, are allowed with restrictions that are intended to protect the rural character of the area. Residential density up to 2.50 dwelling units per acre is allowed. Compatible zoning districts include U (Undeveloped) and R-E (Residence Estates).

Per the Las Vegas 2050 Master Plan, the proposed PF (Public Facility) General Plan Designation allows for public and semipublic buildings and facilities, civic uses and spaces, infrastructure and utilities. Compatible zoning districts include C-V (Civic), P-C (Planned Community) and PD (Planned Development) as applicable.

The subject site is part of Planning Area A2 as defined by the 2016 Interlocal Agreement between Clark County and the City of Las Vegas, the stated goal of which is to coordinate growth and development of infrastructure in the northwest part of the Las Vegas Valley, which consists of pockets and islands of unincorporated lands. During the term of the Interlocal Agreement, the areas identified as Planning Area A1 and A2 must remain residential and designated at a density of no greater than 2.0 Units per Gross Acre on the City and County's respective comprehensive plans. The two parties agree that they shall not accept any General Plan Amendments nor amend their respective comprehensive plans, rezone such properties or approve special or conditional use permits to allow industrial or commercial uses or residential densities above 2.0 Units Per Gross Acre and each lot will maintain a minimum buildable net lot area of at least 18,000 square feet with a goal of at least 18,500 square feet.

Staff Report Page Three
April 9, 2024 - Planning Commission Meeting

The terms of the Interlocal Agreement are explicit regarding actions concerning residential densities above two dwelling units per acre, commercial and industrial uses, but do not specifically speak to public and quasi-public uses that are most appropriate for the C-V zoning district. Such uses, if sensitively planned, can be compatible with low-density residential neighborhoods in accordance with Title 19 and the Las Vegas 2050 Master Plan. The Las Vegas Valley Water District facility at the northwest corner of Alexander Road and Tee Pee Lane provides an example of this. Not all such uses are alike, and thus future projects would need to be evaluated on a case-by-case basis for compatibility with the adjacent land uses and zoning districts. Staff therefore recommends approval of the proposed General Plan Amendment and Rezoning requests.

The requests for General Plan Amendment and Rezoning on this site were determined not to be a Project of Regional Significance as defined by Title 19.18.020, as they did not meet the criteria included in the definition.

The Clark County Department of Aviation has provided comments specifically regarding the anticipated church development on this site as it relates to aircraft operations in the area.

“Federal Aviation Regulations (Title 14, Part 77) and City of Las Vegas Code require that the Federal Aviation Administration (FAA) be notified before the construction or alteration of any building or structure that will exceed a slope of 100:1 for a distance of 20,000 feet from the nearest point of any airport runway or for any structure greater than 200 feet in height. Such notification allows the FAA to determine what impact, if any, the proposed development will have upon aircraft operations, and allows the FAA to determine whether the development should be obstruction marked or lighted.”

The proposed development will exceed the 100:1 notice requirement for the North Las Vegas Airport (VGT) or is greater than 200 feet in height. The applicant is therefore required to file Form 7460-1, “Notice of Proposed Construction on Alteration” with the FAA.

“The applicant is advised that FAA’s airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments. The applicant is advised that the FAA’s airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.”

“No building permits should be issued until applicant provides evidence that a ‘Determination of No Hazard to Air Navigation’ has been issued by the FAA.”

Staff Report Page Four
April 9, 2024 - Planning Commission Meeting

“No structure greater than 35 feet in height shall be permitted to be erected or altered that would constitute a hazard to air navigation, or would result in an increase to minimum flight altitudes during any phase of flight, or would otherwise be determined to pose a significant adverse impact on airport or aircraft operations.”

As this project (24-0072) contemplates only the requested General Plan Amendment and Rezoning and not a specific development, no conditions of approval regarding aircraft operations will be added to 24-0072. These conditions will be included with the related project containing the Site Development Plan Review (24-0152-SDR1).

FINDINGS (24-0072-GPA1)

Section 19.16.030(l) of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

- 1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,**

Intensity of allowed uses within the proposed PF (Public Facilities) General Plan Designation may vary depending on the use. Future development must be planned for compatibility with the adjacent low-density designated properties with DR (Desert Rural Density Residential) or RNP (Rural Neighborhood Preservation) categories in the City of Las Vegas and Ranch Estate Neighborhood or Open Lands within unincorporated Clark County.

- 2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,**

The C-V (Civic) and PD (Planned Development) zoning classifications conform to the proposed PF (Public Facility) designation and would be compatible with the adjacent U (Undeveloped), R-E (Residence Estates), RS20 (Residential Single-Family) and C-V (Civic) designations on adjacent properties. The P-C (Planned Community) zoning district, though conforming to the PF designation, is not appropriate for the subject site.

Staff Report Page Five
April 9, 2024 - Planning Commission Meeting

3. **There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and**

The site is located adjacent to Grand Canyon Drive, which is planned as an 80-foot Major Collector Street; Hickam Avenue, Tee Pee Lane and Florine Avenue, which are not master planned but intended to be 60-foot wide minor collector streets. These streets would be required to be built out to a portion or all of their capacity with future development. The nearest city park is located approximately 960 feet to the southwest of the subject site (Majestic Park). Public sewer will need to be extended to the edges of the site for any future projects.

4. **The proposed amendment conforms to other applicable adopted plans and policies.**

The Interlocal Agreement is explicit in its position on amending a jurisdiction's comprehensive plan or rezoning of properties to commercial or industrial uses; however, it is silent regarding amending the General Plan or rezoning to allow civic uses such as government facilities, schools and religious facilities. With appropriate building siting, proper building massing and scale, required parking and appropriate buffering, a development containing such uses can be consistent and compatible with adjacent residential neighborhoods in accordance with Title 19 and the Las Vegas 2050 Master Plan. Other facilities of this nature have been approved and developed in residential areas with little or no adverse impact to the community.

FINDINGS (24-0072-ZON1)

In order to approve a Rezoning application, pursuant to Title 19.16.090(L), the Planning Commission or City Council must affirm the following:

1. **The proposal conforms to the General Plan.**

If 24-0072-GPA1 is approved to amend the General Plan land use designation from DR (Desert Rural Density Residential) to PF (Public Facility) on this site, the request to rezone the site to C-V (Civic) will conform to the General Plan.

2. **The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.**

Staff Report Page Six
April 9, 2024 - Planning Commission Meeting

The proposed C-V (Civic) zoning district permits public and quasi-public uses operated or controlled by any recognized religious, fraternal, veteran, civic or service organization. Specifically, this zone allows for the development of new schools, libraries, public parks, public flood control facilities, police, fire electrical transmission facilities, Water District and other public utilities. Such uses would need to be evaluated on a case-by-case basis to determine compatibility with the surrounding residential land uses and low-density zoning districts.

3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.

The Interlocal Agreement is explicit in its position on amending a jurisdiction's comprehensive plan or rezoning of properties to commercial or industrial uses; however, it is silent regarding amending the General Plan or rezoning to allow civic uses such as government facilities, schools and religious facilities. With appropriate building siting, proper building massing and scale, required parking and appropriate buffering, a development containing such uses can be consistent and compatible with adjacent residential neighborhoods in accordance with Title 19 and the Las Vegas 2050 Master Plan. Other facilities of this nature have been approved and developed in residential areas with little or no adverse impact to the community.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

Grand Canyon Drive, Hickam Avenue and Tee Pee Lane currently provide access to the subject property. Florine Avenue is currently not built at any capacity but may provide future access to the site. All of these streets would be required to be built out to a portion or all of their capacity with future development in order to meet the needs of that development. Relative to the requirements of the C-V (Civic) District, a church or school will likely have different access needs than a utility installation.

BACKGROUND INFORMATION

<i>Related Relevant City Actions by Planning, Fire, Building, Code Enforcement, etc.</i>	
06/09/97	The City Council approved a Petition of Annexation (A-0001-97) to annex 17.35 acres generally located on the south side of Hickam Avenue between Grand Canyon Drive and Tee Pee Lane.
12/19/18	The City Council approved a request for a Rezoning (ZON-74626) from U (Undeveloped) [RNP (Rural Neighborhood Preservation) General Plan Designation] to R-E (Residence Estates) on 9.92 acres at the southwest and southeast corners of Helena Avenue and Grand Canyon Drive. The Planning Commission and staff recommended approval.

Staff Report Page Seven
April 9, 2024 - Planning Commission Meeting

<i>Related Relevant City Actions by Planning, Fire, Building, Code Enforcement, etc.</i>	
09/24/19	The Planning Commission voted to Withdraw Without Prejudice a request for a General Plan Amendment (GPA-76723) from RNP (Rural Neighborhood Preservation) and DR (Desert Rural Density Residential) to R (Rural Density Residential) on 22.46 acres generally located on the south side of Helena Avenue, approximately 620 feet east of Jensen Street. Staff recommended denial. (This application contained APN 138-06-801-010 and a portion of 138-06-301-013)
	The Planning Commission voted to Withdraw Without Prejudice a request for a Rezoning (ZON-76724) from R-E (Residence Estates) and U (Undeveloped) [DR (Desert Rural Density Residential) General Plan Designation] to R-D (Single Family Residential-Restricted) on 22.46 acres generally located on the south side of Helena Avenue, approximately 620 feet east of Jensen Street. Staff recommended denial. (This application contained APN 138-06-801-010 and a portion of 138-06-301-013)
09/08/20	The Planning Commission approved a Variance (20-0081-VAR11) to allow Regional Transportation Commission of Southern Nevada rural offsite improvements where Title 19 offsite improvements are required adjacent to 4.97 acres at the southeast corner of Helena Avenue and Grand Canyon Drive. The Planning Commission recommended approval; staff recommended denial.
	The Planning Commission approved a Tentative Map (20-0081-TMP1) for a nine-lot single-family residential subdivision (Jensen & Helena Area 6) on 4.97 acres at the southeast corner of Helena Avenue and Grand Canyon Drive. The Planning Commission recommended approval; staff recommended denial.
11/14/23	The Planning Commission recommended approval of a Text Amendment (23-0509-TXT1) to amend LVMC 19.10.020 regarding the C-V (Civic) District, and to provide for other related matters. The item will be forwarded to the City Council for consideration for ordinance adoption.
03/20/24	The City Council adopted an ordinance (as Bill 2024-8) to repeal and replace Title 19.10.020 regarding the C-V (Civic) Zone to provide updated development standards and procedures.

Most Recent Change of Ownership

07/22/22	A deed was recorded for a change in ownership.
----------	--

Related Building Permits/Business Licenses

03/22/19	Department of Public Works staff approved a Technical Drainage Study (DS05071) for the proposed Jensen and Helena subdivision on 15.00 acres at the southeast corner of Hickam Avenue and Grand Canyon Drive.
----------	---

Staff Report Page Eight
April 9, 2024 - Planning Commission Meeting

Pre-Application Meeting	
02/05/24	A pre-application meeting was held with the applicant to discuss submittal requirements for a General Plan Amendment, Rezoning, Variance and Site Development Plan Review. The Department of Public Works provided the applicant with an Administrative Offsite Improvement Deferral Form to describe which improvements would be deferred. Staff explained how a pending bill amending the current C-V standards may affect this project.

Neighborhood Meeting	
02/28/24	<p>A required neighborhood meeting pursuant to NRS and Title 19.16.010 was held at the Church of Jesus Christ of Latter-Day Saints Meeting House, 8801 West Alexander Road, Las Vegas, NV 89129, at 6:00 p.m. There were 170 members of the public who signed in as present, along with two of the applicant's representatives, two members of Department of Public Works staff, one member of Community Development Department staff and one member of the City of Las Vegas Planning Commission.</p> <p>The applicant's representative led the meeting and began with a 15-minute presentation describing the temple project, including key issues such as building height, traffic, flood control, lighting, usage, hours of operation and offsite improvements. The General Plan Amendment and Rezoning are being requested to provide greater flexibility in developing a church, which is a permitted use in the C-V zoning district. If approved, construction is expected to take 36 months following civil and building plan review. It was noted that the applicant requested that no streetlights, sidewalks, curbs or gutters be installed adjacent to the site, but this request was denied by City of Las Vegas staff. It was also noted that land to the north and south of this site is owned by the Clark County School District and the Bureau of Land Management.</p> <p>The remaining time was used to hear neighbors' concerns and questions. These included:</p> <ul style="list-style-type: none"> • Why is a meeting house proposed for this site when there are several other ones already in this area? Why is a second temple needed in Las Vegas?

Staff Report Page Nine
April 9, 2024 - Planning Commission Meeting

Neighborhood Meeting	
02/28/24	<ul style="list-style-type: none"> • This development will bring traffic to this area from all directions, especially from Summerlin. • Increased traffic will bring more air pollution. • Will a traffic signal be required on Grand Canyon Drive? A: This will depend on the results of the traffic study and the City of Las Vegas. • How was this particular site chosen? • The Rural Preservation Neighborhood Overlay in unincorporated Clark County has a height restriction, so why does this development not have to adhere to the same standards? • The proposed temple development seems to be violating the terms of the Interlocal Agreement between the City and County with regard to preserving the rural character of this area. • Streetlights go against the rural character of this area and why people live in this area. • Parking lot lighting should be downward-facing. Would the Church be open to turning all lighting off at night? • Are warning lights required to be added to the top of the temple (for aircraft)? • Concerned about flood risk in the area from runoff resulting from increased impervious surfaces. • The current property has an uneven grade, so how much cutting and filling will be required? • Concerned about controlling the speed of vehicles in the area once streets are built out. • Will area water wells be forced to be capped once the temple is developed? • A church on this site would provide value to the neighborhood. Would rather have a church on this site than other types of development. Would be well maintained, have safe sidewalks and lighting. • Temples in other cities are not as tall as this one is proposed to be. Can this proposal be scaled down? • How often would all proposed parking spaces be occupied? A: Not often, if ever, due to different operating times during the week. • Would the Church consider swapping land with CCSD so that the temple could be accessed from Alexander Road? •

Staff Report Page Ten
 April 9, 2024 - Planning Commission Meeting

Neighborhood Meeting	
02/28/24	<ul style="list-style-type: none"> Will there be any ancillary uses or operations on the site, such as a food pantry? A: No. <p>Additional time was afforded neighbors after the meeting to view plans.</p> <p>Overall, reaction to the proposal was mixed, with a majority of neighbors in opposition, based on the responses.</p>

Field Check	
02/29/24	<p>Staff conducted a field check of the subject site, which is undeveloped with desert vegetation. The site slopes down from west to east and from south to north. There are currently no offsite improvements (curb, gutter, sidewalks or streetlights) adjacent to the existing paved perimeter streets. There was some trash and debris noted along Grand Canyon Drive.</p>

Application Information

24-0072 - PUBLIC HEARING - APPLICANT/OWNER: THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS - For possible action on the following Land Use Entitlement project requests on 20.00 acres at the southeast corner of Hickam Avenue and Grand Canyon Drive (APNs 138-06-801-010 and 018), Ward 4 (Allen-Palenske).

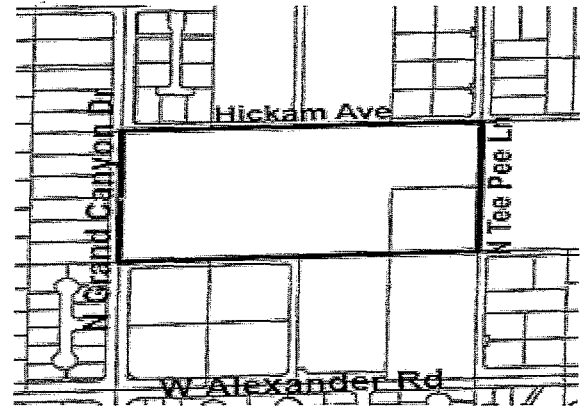

24-0072-GPA1 - GENERAL PLAN AMENDMENT - FROM: DR (DESERT RURAL DENSITY RESIDENTIAL) TO: PF (PUBLIC FACILITY)

24-0072-ZON1 - REZONING - FROM: U (UNDEVELOPED) [DR (DESERT RURAL DENSITY RESIDENTIAL) GENERAL PLAN DESIGNATION] TO: C-V (CIVIC)

I AM A 32 YEAR RESIDENT OF THIS AREA AND OPPOSE THIS PLAN AMMENDMENT AND ZONE CHANGE. THE SIZE, HEIGHT, INCREASED TRAFFIC LIGHT POLUTION, WATER USE, AND ENVIRONMENTAL ISSUES MAKES THIS A HARD NO FOR ME.

Any and all interested persons may appear before the City Planning Commission either in person or by representative and object to or express approval of this request, or may, prior to this meeting, file a written objection thereto or approval thereof with the Department of Community Development, 495 South Main Street, 3rd Floor, Las Vegas, Nevada 89101. Final Action on General Plan Amendments and Rezonings will be determined by the City Council. Other public hearing items may be deemed Final Action by the Planning Commission or forwarded to the City Council. The date of the City Council meeting, if applicable, will be announced at the Planning Commission meeting after the discussion of the item. For more information, including the full staff report, please call (702) 229-6301 (TTY 7-1-1) or go to www.lasvegasnevada.gov/meetings.

We oppose this project 1000%. We live in a rural reservation area and purchased our home, like thousands of others, with the belief that our investment would be protected by existing zoning ordinances. When zoning ordinances can be altered to suit ONE developed while affecting an ENTIRE city, that is unacceptable. We bought our home because of its rural nature - no streetlights, no curb and gutter, no sidewalks, no buildings that are 216 feet high, no parking lots with 514 parking spaces, no FAA strobing red lights atop a

216' tall spire, no traffic congestion,
no night light pollution, and no flood
waters coming off of a massive parking
lot and damaging our homes.
This project does not belong
in a rural preservation area
or in any (especially in the
middle of any) neighborhood!
Every other denomination within the
Inter-local Agreement area has built
with RESPECT to the residents and
has blended in. This project is too
massive for a neighborhood and
either needs to be altered or
moved to another
location.

Application Information

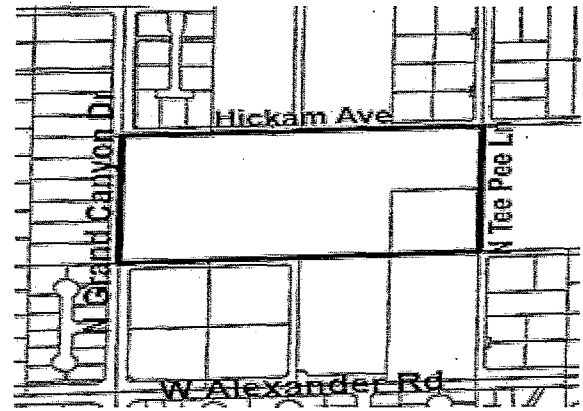

24-0072 - PUBLIC HEARING - APPLICANT/OWNER: THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS - For possible action on the following Land Use Entitlement project requests on 20.00 acres at the southeast corner of Hickam Avenue and Grand Canyon Drive (APNs 138-06-801-010 and 018), Ward 4 (Allen-Palenske).

24-0072-GPA1 - GENERAL PLAN AMENDMENT - FROM: DR (DESERT RURAL DENSITY RESIDENTIAL) TO: PF (PUBLIC FACILITY) OK

24-0072-ZON1 - REZONING - FROM: U (UNDEVELOPED) [DR (DESERT RURAL DENSITY RESIDENTIAL) GENERAL PLAN DESIGNATION] TO: C-V (CIVIC) OK

This LDS Temple and meeting house will be a wonderful addition to our neighborhood. Traffic will be better than a school. Lighting required by the City will be acceptable. Crime will not be a problem with the Temple and hopefully will decrease in the neighborhood. We have been burgulized. We are in favor of the Temple.

Application Location

The proposed project may not pertain to the entire highlighted project site.

Public Hearing Information

Meeting: Planning Commission
Date: 04/09/2024
Time: 6:00 PM
Location: Council Chambers
495 South Main St, 2nd FL.
Las Vegas, Nevada

Any and all interested persons may appear before the City Planning Commission either in person or by representative and object to or express approval of this request, or may, prior to this meeting, file a written objection thereto or approval thereof with the Department of Community Development, 495 South Main Street, 3rd Floor, Las Vegas, Nevada 89101. Final Action on General Plan Amendments and Rezoning will be determined by the City Council. Other public hearing items may be deemed Final Action by the Planning Commission or forwarded to the City Council. The date of the City Council meeting, if applicable, will be announced at the Planning Commission meeting after the discussion of the item. For more information, including the full staff report, please call (702) 229-6301 (TTY 7-1-1) or go to www.lasvegasnevada.gov/meetings.

Oppose this project:

It's bad enough that a lot of our natural animals are being misplaced because of the housing development, but to add this "Massive" building in our local community is an insult to the Las Vegas taxpayers. the Lone Mountain section is a quiet, local community with families that located here for that reason. To add this "Casino Sized Building" would take away the natural effects of our community, let along create traffic congestion, sound and light pollution to an otherwise tranquil setting.

With all the open land that is available in Las Vegas, I am sure that there is a better location that can be chosen to build this temple.

I "WHOLEHEARTLEY OPPOSE" the project and all related applications.

Objection to Temple Site

Temple issue Las Vegas Planning April 9, 2024
Items 24-0072/GPA1/ZON1 (APNs 138-06-801-010 and 018)

Dear Sir or Madam:

My name is Linda Fionda and I have lived at 9390 Helena Ave., corner of Helena and Tee Pee Lane for the last 31 years. I was active in Northwest Citizens Association from 1994 to 2006, holding various offices. I am objecting to the current proposed location of the Temple between Tee Pee and Grand Canyon for the following reasons:

- **Location:** Twenty-five years ago, the LDS wanted to build a temple at the foot of Lone Mountain. At that time there were no homes in the immediate area, and it was directly off of Alexander where the road ended. For whatever reason, they chose not to build at that time. Now that our area is 90% developed with residences that are primarily single story, the proposal is to literally drop a major building 20-30 times larger than the neighboring houses within a limited space and designate minor rural roads as the main entrances/exits for the 500 proposed parking spaces. There is a large empty parcel between the proposed site and Alexander Road. The site clearly is "sandwiched" in between known housing.

When the first temple was being built in 1987, a location on the east side of town was picked that was not fully populated. I am enclosing a picture taken from the Review Journal in 1987 which shows the site. You can see that the houses are not close to the development. If houses developed after the temple was built, at least the builders and future residents would be aware of the temple's existence. To come in after the neighborhood is developed with rural neighborhood standards and expect to drop 87,000 square feet of a 3 story building between residences is unconscionable.

- **Access to major roads:** There is no access to major roads for the number of cars expected to travel to and from the temple buildings. The proposal does not include a parcel off Alexander, which is the only semi-major road in the area. Members would have to drive off Tee Pee, Florine or Grand Canyon to get to Alexander and Craig Roads and even further for Cheyenne and Lone Mountain for freeway access.
 - a. **Alexander Road** has no access to freeways and is 4-5 miles from the nearest freeway, 1-3 miles from the nearest major road.
 - b. **Craig Road** dead-ends at the park, so there is no access to 215. The members would have to drive another mile to Lone Mountain Road through residential streets to access 215.
 - c. **Tee Pee** dead ends at Alexander, so the members have the same issue and

- d. **Grand Canyon** is a mile away from Cheyenne and 2 miles away from Lone Mountain Road for access to 215.

Clearly, there is ample property in the Northwest close to major freeways that is more appropriate to build a major building and accommodate the number of cars anticipated. From Sahara to Centennial at 215 there are numerous large parcels with great elevation that would make the temple stand out over the valley. In addition, just 2 miles from my house, off Durango between Tropical Parkway and Centennial, there are large areas of vacant land that would be equally suitable for a building of this magnitude as it is close to both 95 and 215. One only needs to drive on 215 or Durang to see the immense amount of available land more suitable to this proposal.

They say churches make good neighbors. If this were the "run of the mill" type of church, it might be acceptable. But this building is massive, with very tall steeples and it is just not neighborly to build a building of this size in this rural neighborhood. In addition, a second building is also planned for the site. An alternate site should be chosen that is closer to major transportation outlets.

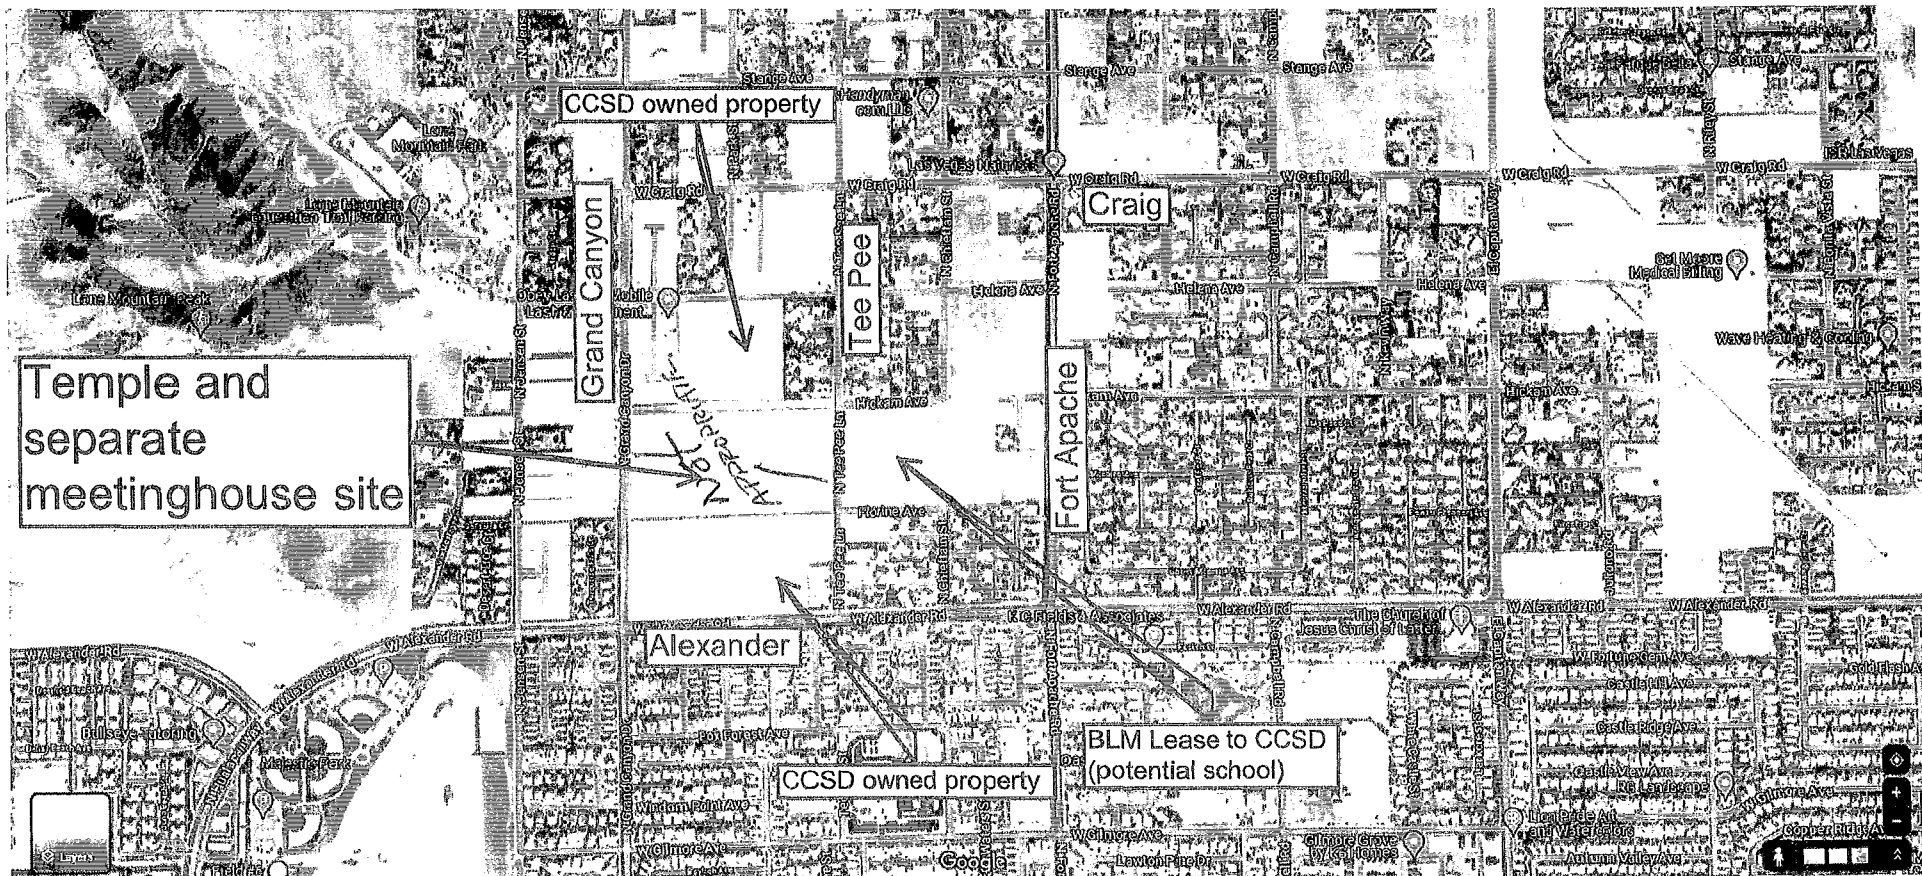

I strongly urge staff to recommend denial of this application, with the Planning Commission and City Council recommending denial as well.

Respectfully submitted,

Linda V. Fionda

RECEIVED

APR 08 2024

Dept of Planning
City of Las Vegas

Mr. Floyd,

Thank you for your graciousness as we go through this process. I'm sure your life is a bit more complicated of late.

So, I've had some time to go back over everything again and probably in my haste I think I missed this, or it didn't register. So after everything in the support materials, it is my understanding you and your staff are pinning your recommendation for approval on a small, necessary, Las Vegas Valley Water District pumping station at the corner of Tee Pee and Alexander as the basis for approval of rezoning 20 adjacent acres for a potential, unnecessary, 87,000 square foot development which includes a 216 foot skyscraper. Also, under the code (as it was rewritten and codified March 20), houses of worship don't seem to have any building restrictions, especially height if they are building a tower or steeple. So pretty much whatever they want to build on that land they can if they receive the rezoning approval even if it does not mesh with the surrounding neighborhood (which, as you know, conveniently is mostly unincorporated Clark County). Am I correct? Or am I missing something?

Seems like a HUGE leap to use as precedent to justify a rezoning request and potential HUGE development no matter what the use. But I do understand, due to the nature of the building and who is proposing it, I'm going to admit something you all can't - the City is probably scared to recommend denial of anything at this point. The updated Federal regulations (Religious Land Use and Institutionalized Persons Act) make it an easy legal call (especially when the Deputy Attorney who signed the March 20 bill draft which changed the code to allow the project is LDS . . .). Even if the house of worship is located in an inappropriate location and is completely out of character with a neighborhood, it is better to risk violating the rights of existing property owners than be perceived as having any bias against the project, even if there are viable, material reasons to deny or suggest changes. And with the new Civic Code being pushed through in March, the city is even more legally exposed. That was a really smart move by the Church - don't deny they manifested it into being - and barely anyone in the community knew it was done before it was too late. If that redefinition had not had happened, this all might have been a moot point. Not sure if you department hand anything to do with this but nonetheless, hands are conveniently tied now.

You also have to hand it to the Church because they used the existing area's light, height and development restrictions (which the residents demanded and secured) to their benefit, as there will be no other building within miles and miles to compete for the eye during the day and at night. The only competition is the mountain itself, which was the point of selecting this location in the first place. People will go out of their way to drive by it, just to see what it is (many thinking they can go in and see it . . . they will be in for a surprise). I was told, but I have not confirmed, the traffic estimates are based on the east-side Temple, if that is the case, they are WAAAAAAY too low.

Below is a pretty good representation of what my new view will be as compared to what it is now. I did a number of efforts, all much smaller but the math seems to make this a viable representation. Note the home being built just left near the bottom of the Temple is .46 miles away and approximately 35 feet tall and the steeple would be approximately .3 miles away. With

the math and approximations I made, this isn't an exaggeration as much as I was hoping it could be. In fact, it is probably undersized as I don't know the specific dimensions of the building (although I have an idea of the placement) in question and I guarantee that first floor isn't going to be less than 35 feet tall. Not sure who will be clamoring to buy my house with the new view . .

RECEIVED
APR 08 2024

Anyway, I'll make sure to introduce myself at the May 14 meeting and I won't, and don't, hold any ill will toward you or your staff. it is just . . . well . . . I am having a very hard time with the shock and disappointment, as is my wife. This has affected both of us a lot more than I would have expected.

Kindest regards,

Clinton Pope

City of Las Vegas

It's with a heavy heart that I foresee the dramatic changes poised to besiege our neighborhood with the planned construction of a new temple. This development is not just a disruption; it's a stark violation of our local zoning rules, regulations, and most importantly, the Rural Preservation Interlock Agreement between the country and city that has long protected the unique character and tranquility of our community.

The future as outlined by the temple's plans paints a bleak picture for our neighborhood. The towering structure, set to be illuminated brightly, threatens to obliterate the scenic views we currently enjoy, replacing the dark, star-filled night sky with a permanent glow that disrupts the natural rhythm of life here. The essence of our rural preservation area and rural neighborhood, cherished for its tranquility and natural beauty, is at risk of being lost forever.

Furthermore, the anticipated traffic congestion from visitors to the temple paints a scenario of our once-quiet streets becoming choked with cars, undermining the safety and peacefulness we have taken for granted. This influx of traffic, seemingly overlooked in the planning stages, will likely erode the quality of life for residents, bringing noise, pollution, and a sense of chaos to our doorstep.

Most distressingly, the planned temple stands as a glaring affront to the legal and communal agreements that have guided development in our area. By disregarding zoning laws and the Rural Preservation Interlocal Agreement, current zoning rules and regulations for these specific parcels located in well established rural neighborhood, the temple's construction not only challenges the legal framework meant to protect our community but also disregards the values and voices of the residents it will affect.

The consequences of proceeding with this temple, as currently planned, reach far beyond the immediate disruption during construction. They signify a profound and enduring impact on the fabric of our community, altering its landscape, violating its legal protections, and undermining the principles of environmental conservation and rural preservation that we hold dear.

In facing this looming development, it's crucial that we, as a community, unite to ensure that our concerns are heard and that any development respects the integrity of our neighborhood's character, legal agreements, and the quality of life of its residents. The planned temple, as it stands, represents a clear deviation from these principles, setting a concerning precedent for the future of our beloved neighborhood. The immediate of hundreds of residents and far more for those in the immediately 1000-2000 foot radius particularly who live off Grand Canyon or Tee Pee lane in this area will experience significant drop in quality of life, right of peaceful enjoy of their property because the obnoxious bright lights all night, required FAA bright blinking lights flashing every 2 seconds all night long because of the 216' height, 1000s of additional cars coming down quiet 25 mph (noise nuisance) narrow roads not close to any main freeway, interstate, highway for access, coupled with 516 parking spaces and use of the meeting house and temple 7-days a week will result in destruction of our way of life that so many generations of families have come to call this area home. Environmental factors for wildlife disruptions will be unacceptable, massive draining issues

Hem 31
P

coming off this property will flood neighbors' homes and neighboring streets and us locals in the immediate area can expect significant drop in property values having to deal with all of the above. Millions of dollars have been invested by homeowners in the immediate area for this lifestyle and to date all builds have met zoning and current rules. Now a single entity comes in and not a single rule applies and they freely get to build structures that don't meet a single current zoning law... The entire process stinks from initial hearing of it presented not by the applicant (LDS Church) but a law firm who was certainly disingenuous in their approach intentionally not providing pertinent details of the project and how this came to be with over 2-years of planning, the convenient CV zoning rules changes only a week before which were clearly introduced by Councilwoman Francis Allen Palenske specifically for this project under the radar before any homeowners in the area knew what was happening, hundreds of thousands of dollars in political party contributions to the council people who voted on this CV change coming from the attorney group of record for the applicant, all of this rammed into a 5-week condensed period leaves all us residents in pure shock and disbelief. As each layer of this project and plan comes together, it is becoming more and more appalling. It's a bad onion where each layer that's peeled back is more rancid than the last. Sad times for Las Vegas not associated with the church. Do Better.

Regards,

Eugene Kodiak Yazzie

Immediate homeowner within fall zone of the applicant structure(s)

Mr Floyd,

I'm amazed our paths haven't crossed and I wish we could have met prior to this situation. In any case, many, many moons ago I was City of Las Vegas Ward 2 Council Liaison for City Councilman Arnie Adamsen, so I know how difficult it is to address the needs of all parties, and the pressures of powerful people and institutions (I've repped a lot of them many times), when a controversial planning item is proposed. With that said, I'm at a loss on how City staff could ever come to the conclusion that rezoning 20 acres of rural undeveloped land in the middle of a rural neighborhood for a 217/18 foot high, 97,000 square foot facility (lit throughout the night like a Strip casino) was remotely acceptable. It is completely out of character with the area and will dramatically affect the surrounding neighborhoods in ways I don't think people realize.

I'm not some random homeowner, this project will dramatically affect my home, its views of Lone Mountain and undoubtedly my property value. I bought my house 12 years ago, moving from the Downtown Historic Huntridge Neighborhood, for a number of reasons, most notably to be in a quiet part of town, with very limited traffic and minimal light pollution. I chose my particular property because of the unrestricted view of Lone Mountain. I looked at the zoning around the area, both the County master plan and the City's existing zoning thinking there was no way my view of the mountain would be obstructed. Needless to say, I was shocked when I came to learn what the LDS Church was proposing .12 miles west of my house. As you can see below, this project is going to not only obstruct my view, it is going to destroy it dramatically.

What is interesting is that I don't live in incorporated Las Vegas, but a County carve-out so I received no notification of this project. I had to learn about it through neighbors, the small sign just posted at the end of Florine (which leads to my community) and the media. Even our HOA (Eagles Rock Estates), of which I am the president, was not informed by the City of the project. So, a community .12 miles from a major proposed zoning change and construction project was left in the dark simply because of lines on a map. Not cool.

With all that said, I would like to learn what you and your staff's justification is to recommend approval of 24-0072 and its amendments. I think every person in the area, City of Las Vegas residents or not, should be informed, and not only how the City arrived at this recommendation but also what backroom maneuverings were done with the County and the LDS Church. Again, I use to play this game, I was in the room many times when staff and councilpersons alike would walk into meetings confident of their position only to sing a different tune when the "right" person (sometimes, I was that person) spoke to them. I'm not completely ignorant of the process, I just wish I was a party to it before it got this far.

For the record, I don't really blame you as I get it. I've been there and seen it happen and the LDS Church is a tough group to go against but there is no way a logical person could ever think this make sense at that location. I think, at this point, the best thing that can be done is to pull the item from next week's agenda. I'm sure Sam and the rest of the planning commission are thinking of doing just that but I think they should do it with your support and a larger conversation about the area's planning should be completed before any recommendations are made or votes are had on this particular project.

Hem 31
P

<image001.jpg><image002.jpg>

The first photo is a view from Florine behind my neighbor's house. The Second photo is from my kitchen .12 miles from the 20 acres. Depending on the positioning of the Temple, it will most definitely affect my view of Lone Mountain. Keep in mind, Lone Mountain is 500 feet from base to summit, the proposed building would be nearly half the height of Lone Mountain and lit all night long!!!!

Kindest regards,

Clinton Pope

CITY OF LAS VEGAS CLERK

Las Vegas City Council
Planning Department

To whom it may concern:

I am writing on behalf of my household in the Lone Mountain Rural Preservation area to protest the approval of application/permit #24-0072.

We would stand side by side our Mormon neighbors in support of religious freedom; we believe in protecting everyone's right to worship as they choose! We are not opposed to having any houses of worship in our neighborhood -Catholics or Protestant churches, Mormon Wards, or Muslim mosques. ***However, it is the monumental size of the building that we oppose in our preserved rural community!***

The steeple height of 216 feet is excessive, and obstructs our rural vistas. Additionally, have horses on our property, as this area is thus zoned, and we ride them to Lone Mountain equestrian trail and park. We are concerned that increased traffic by visitors to the proposed temple will make horseback riding to the park unsafe, or at the least, less enjoyable.

Thank you for your consideration!

Sincerely,

Vicki Shearin

Comments: This is in reference to Bill No. 2024-8, we are opposed to this change in zoning. We all live in the RNP and we do not want the zoning changed to allow a temple and other large structures to be allowed in our rural area and the middle of our neighborhood. This does not fit in to the restrictions on height of structures and lighting. Allowing this in a rural neighborhood will disrupt and ruin our living and will open the door for all other businesses in the RNP. Don't allow this to happen just because of money.

Highly oppose bill below for any to current CV ZONING changes. This bill will be detrimental to the rural preservation environment we currently live in.

Comments:

PROPOSED: Bill No. 2024-8 repeals and replacing LVMC 19.10.020 to change the Civic Zoning district is scheduled for Wednesday, March 20th, at 9am at the Council Chambers · 495 South Main Street · 2nd Floor. You can attend the meeting to voice your opinion or

I'm an owner immediate next to the prosper LDS temple and once this is granted it paves the way to the church making dramatic changes to accommodate their completely non compliant intention for plans they announced a it violates the very single zoning, building, and interlock agreement fought for and established tens of years ago when families and owners made this their homes. I cannot stand for a 216 foot tall tower in my immediate backyard illuminated all night long and so tall requires blinking airports red be on lights! It's absolutely ridiculous!

Your name: Nicole Kelley

Comments: Hi, I was in attendance at the Recommendation Committee meeting today for the C-V Zoning. I would like to note that I was correct to question the height requirements being removed, the new C-V does get rid of all of the height requirements listed in 19.06.060 that are currently in place. The current restrictions cap a building height at 35 ft or 2 stories in a Residential neighborhood. The 19.08.040 only refers to the slope requirements.

Additionally, I do not agree with allowing cell towers that obtain C-V Zoning to be built without any special approval process.

Your name: Linda fionda

Comments:

Opposition to Mormon Temple at off of Grand Canyon. 20 years ago the Mormon Temple wanted to build at the foot of lone Mountain. They should've done it then when there was no development now they are taking an inside parcel not even on Major Street with access to Major roads or freeways, and want to sandwich that temple in between the rural neighborhood. Back in 1987 when the original temple was being built, it was built away from the neighborhoods and if houses wanted to build up to it afterwards that's fine but to drop a temple in the middle of a establish neighborhood without major roads is unconscionable. Please deny this rezoning and have them look off of 215. There are plenty of elevated spaces , off of 215 between Sahara and Centennial that they could build a beautiful temple that would be visible to the entire city

I am writing in opposition of Bill 2024-8. I am a resident of the Rural Preservation Area and see this Bill as a watering down of protections rural residents like myself currently have under current city zoning. Thousands of us have invested our livelihoods to build a life where we can have dark skies, farm animals, larger properties, and limited traffic. There are many, many areas of town that have a less rural feel for those that want or desire that.

Comments:

As a life long resident of Las Vegas, I have seen how much this city has grown in my lifetime. I realize that with growth change is inevitable, but when bills like this come around it makes people like me question what the intention of our elected officials really is. We live right around the corner from the proposed LDS temple. The timing of this bill, in addition to large campaign contributions by Kaempfer Crowell to most of the council members, leaves us to wonder if this bill has been designed for the church- all while leaving residents throughout the entire city with negative fallout.

I implore planning and zoning to review this bill and see the contradictions in place with the Interlocal Agreement with Clark County.

With regards to Bill No. 2024-8 (repeals and replacing LVMC 19.10.020) - proposed LDS Temple and Meeting House, we are very much opposed to granting any such zoning changes that would allow for this project to be built.

Comments: The increased traffic alone would create havoc in our otherwise relatively quiet area. We bought our home in this section in order to have less traffic and some general "breathing" room.

Please do NOT grant this zoning change.

Comments	<p>I am writing in opposition to the location of the proposed temple at Lone Mountain.</p> <p>It's a beautiful rendering of the temple and this is best on the outskirts of town where homes, land preserves, and views won't affected.</p> <p>The lone mountain is known for the hiking, and the great desert landscapes. Having traffic increased in this area makes a problematic situations for neighbors, and wildlife.</p> <p>Having a view of a temple, where not all people can go inside, is also something to be considered. Only members of the LDS church will really appreciate the location, but what about the other 2 million who currently reside in Las Vegas?</p> <p>This isn't the spot for it. Let's try another location, like north Las Vegas, and I will fully support that!</p>

Comments	Please don't take away Las Vegas natural beauty for another religious building! There is already a temple in Las Vegas that doesn't get used. The LDS church has vacant openings and are always trying to get their members to fill spots at their current location. There is no reason to add another temple here, other than to fulfill their goal of adding as many temples in our faces as possible. Keep our wildlife & open land!

Comments	I oppose this project. This area was designated as a rural area and I purchased my property with that understanding. Buildings in this area are to be a certain height to preserve the natural beauty. it would bring lots of traffic, noise and light. Our roads do not support such traffic in the area. We cannot continue to let these big developers with deep pockets buy land, annex it to the city and just build what they want.

Comments	<p>The LDS Temple will make the value of the homes in the area increase significantly NOT decrease the value. LDS temples are magestic and beautiful the church takes great care in making sure it blends in with the natural environment. Neighbors should be excited to have it in their area. There will be traffic of members going there to worship but rest assure that it will be discrete and quite. No parties, loud gatherings will take place there. It is a sacred and holy edifice..</p> <p>Temples are a House of The Lord! ??</p>

Comments	<p>I don't think this building is suitable for the proposed neighborhood. It will destroy the rural ambience of the area, increase traffic and pollution, and cause light pollution. Traffic will be dangerous for families and equestrians in the area. In addition, I don't believe a second Temple is necessary for Las Vegas. The valley just isn't that large. It's just not much of a burden for members to drive 30 - 45 minutes to the current Temple.</p>

Comments	<p>There is no actual need for a second LDS temple. As a previous temple recommend holding members of the LDS church living in Vegas, I know that the current temple has always been at low attendance since it was built in 1989. The current temple is within a 35 minute drive from almost every resident of the city. That's very reasonable. I live near enough to Lone Mountain to really appreciate the beauty of its mountainous and rural environment. The residents in the NW want to preserve that habitat and have gone to great lengths to do just that. Unfortunately when a multibillion dollar corporation such as the church comes in, they find ways to get what they want despite the long held desires and hard fought plans that the residents of the land hold. As a resident of NW LV, I urge the planning commission to make the decision not to approve project 24-0072. Leave the city codes and ordinances as they were before the LDS church stepped in.</p>

Comments	<p>There is no need for a building that has zero contribution to the Las Vegas Community to take up almost 20 acres of rural land. This area is surrounded by tax-paying citizens who in most cases specifically inhabit this area for its rural qualities. This is not even a church or building that is open to serve members or the public. It's an extremely exclusive building that is meant to serve the Mormon population ONLY which makes up less than 6% of Las Vegas. There are hundreds of thousands of acres of available land that should suit it just fine. We do not need a giant building that is lit up all night in a mostly residential space. Zoning laws and regulations exist for this reason exactly. I am hoping the council does what we elected them to do.</p>

Comments	I do NOT support the LDS temple being built in this residential area. I'm very concerned about it blocking the view of Lone Mountain, light pollution and traffic issues. I firmly believe that any development MUST adhere to existing zoning regulations to protect the integrity of our community.

Comments	I do not support the location selected for the project. The area selected for the construction was never planned to have a building of that magnitude. The entire neighbor would be affected. A better location more appropriate and able to accommodate the planned construction should be selected.

Comments	<p>It's not about a church it's about preserving a neighborhood that is a Preservation Neighborhood.</p> <p>The city council / commissioners that wanted this land to be rezoned and anyone with ties to the change of zoning for that plot of land should have in all good conscience abstained from the vote and not have accepted money for their campaign. A total conflict of interest.</p> <p>I think any other builder that wanted to rezone that plot of land to build anything other than the Mormon temple would also be running into conflicts. The main reason is it is a Preservation Area. Protecting wild life and a way of living.</p>

Comments	<p>I am extremely opposed to the building of this temple. This area is a residential area and should remain that way. Many people in the area, myself included, use this area to relax, enjoy nature, hike Lone mountain, and to get away from the city life. The residents enjoy their quiet neighborhood, quiet streets, and peaceful homes in this residential space.</p> <p>There are no other large structures or commercial buildings surrounding it. The massive size, height, acreage, night lighting, and traffic of the temple will disrupt the surrounding residential neighborhood and its activities. This temple will be a blight on beauty of this area.</p> <p>It is also my understanding that this temple is going to take over part of the zoned rural preservation area. Why create a rural preservation area if you are going to allow exceptions?</p> <p>I'm sure it is clear to you that the residents in the area oppose the building of this new temple. We do not want this in our backyard.</p> <p>Not only am I opposed to the massive disruption this temple will create in this neighborhood, but I want highlight that the current temple that already exists across town is not being utilized to its current capacity. I struggle to find reasons to approve a second temple in a residential neighborhood when it is unnecessary.</p> <p>Please do not allow this temple to be built here and preserve this area.</p>

Comments	This is part of a (twice) legislated rural preservation area. Local government should not be unilaterally attempting to circumvent this. The project is completely and egregiously outside of the spirit and letter of the rural preservation agreement.

Comments	I oppose the rezoning of land on the rural preservation. The preservation has been a part of the valley for decades and should remain so. Project rezoning has chipped away too much of the preservation as it is. A religious building would also reduce the available property tax base of the area.

Comments	<p>As an exmember of this church, I oppose the building of this temple, not only because of its location, but because of the strain it would put on the local area. These buildings are quite large, take up lots of space, and often times are not built with the surrounding area in mind. Honestly, they stick out like a sore thumb.</p> <p>If you want to keep your community looking and feeling natural, this would be something you should consider NOT building here.</p>

Comments	<p>The temples of the LDS church are not civic buildings, as not anyone can enter. Only active members who pass a series of interviews that include fealty to church leaders and paying 10% of their income may enter.</p> <p>Also, the lighting and size of the temple, as well as the increase in traffic, will completely change the feel of the area. Another LDS temple is only 30 minutes away, and many church members willingly travel hours, so it is not needed in this exact location. Let it be built where it meets existing codes.</p>

Comments	I used to live there. I strongly oppose. When I was Mormon I did not have informed consent about the abuse I would suffer entering the temple. There is so much trauma for exmormons and it's unpleasant to have it retriggered by having to constantly see a temple. They are designed to stand out as a building. People that live there shouldn't have to live through that by seeing it all the time, since it wasn't there when they chose to live there.

Comments

I am adamantly opposed to the applications for the Lone Mountain LDS Temple at the proposed location. The Rural Preservation Overlay was created and implemented many years ago to protect this area from this type of development. We have all built or purchased our homes in this area because we loved the peaceful rural lifestyle that we all enjoy. To construct a structure of this size and magnitude in a unique rural preservation area (RNP) is not acceptable to the majority of the residents who reside within the rural preservation area. It is disappointing that our elected officials have changed the requirements to the Civic zoning classification prior to the applications being submitted to allow this without notification to those of us that it has affected. Approving this application will negatively impact the majority of the residents that live within the RNP while a small percentage of residents within the RNP will benefit. Most of the people that will benefit from the construction of this project will not come from within the RNP but locations from all over the Las Vegas Valley. I am not opposed to the construction of an LDS Temple but am adamantly opposed to this location. There are many locations that are much more suitable for a structure of this magnitude or it could be constructed in an area of new development so people could choose to purchase their homes near the temple instead of the temple being constructed near existing homes where it is not appealing to existing residents. My feeling is due to the actions that have already taken place the decisions from our elected officials on the applications have already been made to approve it. It is my sincere hope that our elected officials will take into account how the majority of the residents and also their constituents that live within the affected area feel about these applications and they will vote to deny the request for approval of these applications. If our elected officials feel they must vote to approve the applications knowing the neighborhood opposition I would request they require a design change to mandate the structure be limited to the current height requirements of the RNP Overlay of 35 feet and an architecture design to blend with the surrounding area instead of designed to have the magnitude of height and design to stand out above all structures in the northwest area of the valley

Comments	The Mormon church is full of harmful ideas, policies and people. As I grew up in the church myself I can say adding another temple in the city of Las Vegas will increase the Mormon church's financial gain. Exploiting their vulnerable members by threatening they will be cast to hell if they don't pay 10% of their salary to the church installing fear into their members in a harmful way.

Comments

In recent years, the church has begun building temples at much faster rate than they have historically. Certain parameters were used to determine where a temple would be built, but these parameters have largely been removed. What we have seen in Utah is temples being built everywhere, but there aren't enough people in the area to assist in the running of temple functions. Additionally, when temples are built very close to each other, the temples tend to have fewer individuals who utilize the temple. For example, imagine a temple that is in a county with 200,000 people, and 2,000 people use the temple on a regular basis. The temple may need as many as 50 people at a time to keep it running. Now imagine another temple is built on the other side of the county. The people on that side of the county are going to go to the closer temple. Now, both temples have 1,000 regular attendants, and both manage to collect 45 temple workers each. Then another temple is built in the county, so now about 667 people regularly attend their temples, but each temple can only scrounge up 30 workers each. As there is already a temple in Las Vegas, I imagine one or both temples will be mostly empty, as we have seen in Utah.

In addition to the issue of granting building permits for a building that will be greatly under used, many people have become concerned about why the church is motivated to suddenly build so many temples when there will hardly ever be people use any one temple at a time. In one instances, the church spent over a million dollars to buy a plot of land for a temple, but the lot was on sale for less than \$100,000. Why would someone buy something for 10× the asking price, especially if there were no competing offers? Now that the church has been fined by the SEC and is being investigated by the IRS, some of speculated that the temples are a way to launder money, just like people who buy art or jewelry in money laundering schemes.

It will be in the best interest of all Las Vegas residents if this temple is not built due to historical issues with usage of temples in close proximity to each other and concerns about the church's finances. At the very least, a decision should not be made until investigations into the church's finances are completed and the absence of a money laundering scheme is confirmed.

Comments	<p>I'm always in support of the right to practice religious freedom and support having a place for those whole believe to practice in a place convenient to them.</p> <p>I do however oppose the need for a large opulent temple within a neighborhood when there are already many churches in neighboring areas that serve the LDS population without being a looming focal point.</p> <p>I myself was raised in an LDS household and unfortunately know the church has a tendency to overtake communities with their beliefs and being a religion that is constantly embroiled in controversy, that is not something our local community wants.</p>

Comments	<p>This building would be an extravagant landmark for a corporation mascarading as a charitable organization that takes much more from people than it ever gives to those in need. It uses buildings like this to perform rituals that only "worthy" individuals can participate in and uses that worthiness to control people including requiring that they pay exorbitant amounts of money to be able to enter. It is divisive, not inclusive. It drives a wedge between people. It does not unify them. Those that have been abused by this organization will be reminded of their pain every time they see it.</p>

Comments	<p>If they'd like to build a much smaller temple that actually fit into our neighborhoods and wouldn't stand out like a sore thumb in our area, we'd welcome it. Instead they're going to bring unwanted traffic to the area. Not to mention the size of this. We've all seen the drawings of it with lone mountain as the backdrop. This is the same size of some of the casinos in our area. Everyone is for change, but they need to really listen to the neighbors who've lived here for years. When Terrible's gas station wanted to build on Cliff shadows pkwy, the residents were against it, but we made compromises and so did terribles. Asking for a church or temple regardless of someone's religion to fit in with our existing community really isn't asking much. And this temple's size does not fit in w our community, nor does all the lighting they are asking for 24/7, not to mention the horrible traffic it will bring to the area every Sunday, wedding, funeral, and other big events they have. Please take time with your family and come visit the lone mountain area on a Sunday, enjoy the amazing parks, or even a walk around or up the mountain. You'll see what we love so much about our area. Maybe you'll understand our opposition to this project. Thank you for your service to our city and taking the time to read this.</p>

Comments	<p>There is no need for a second LDS temple. The current temple is within a 35 minute drive from almost every resident of the city. That's very reasonable. I often visit Lone Mountain to really appreciate the beauty of its mountainous and rural environment. The residents in the NW want to preserve that habitat and have gone to great lengths to do just that. Unfortunately, when a multibillion dollar corporation such as the church of Jesus Christ of Latter Day Saints comes in, they find ways to get what they want despite the long held desires and hard fought plans that the residents of the land hold. As a resident of LV, I urge the planning commission to make the decision not to approve project 24-0072. Leave the city codes and ordinances as they were before the LDS church stepped in.</p>

Comments

I respectfully oppose the proposed amendment to the zoning regulations to accommodate the establishment of an LDS church and meetinghouse at the designated location. This area, situated within a rural neighborhood, is characterized by its distinct land use, and the proposed development does not align with the existing context. The introduction of a facility with a capacity for over 500 parking spaces and frequent events would place undue strain on the limited infrastructure, including narrow streets ill-equipped to handle such volumes.

Moreover, the illumination from the church premises and associated parking lot would intrude upon the prevailing dark sky conditions, which structures exceeding current height regulations would encroach upon and obscure natural vistas. Irrespective of its purpose or religious affiliation, the imposition of such a development within this neighborhood is incongruous.

Residents in proximity to the proposed site have voiced valid concerns, citing issues such as street parking overflow during peak times, persistent noise disturbances from maintenance activities, heightened traffic congestion, and negligible impact on property valuations, contrary to assertions made. Furthermore, the exclusivity of access solely to members raises questions about inclusivity within the broader community.

Granting preferential zoning treatment under the guise of religious classification sets a problematic precedent, potentially opening avenues for exploitation by other entities seeking similar exemptions. Prudent consideration of alternative locations, devoid of the need for zoning alterations and with minimal disruption to established communities, should be pursued to afford the LDS community a suitable place of worship without infringing upon the integrity of existing neighborhoods.

Comments	<p>This Temple does not belong in the center of a neighborhood, especially one designated as a Rural Preservation. The LDS knew when they purchased this land it was not zoned for it, yet they chose to do it anyway. This temple will be taller than the Durango Casino, extra building, 500 car parking lot, insane amount of lighting and a ton of additional traffic. This traffic includes all of the vehicles that will be cutting through small neighborhood streets,</p> <p>Most people who live in the RNP have owned our properties for decades, and everyone of us have abided by the laws. What makes the temple so special they are allowed to break all the rules? Especially something that is not open to the public and is not for the community's benefit. Not to mention allowing this variance will open the Rural Preservation area to all types of large structures and businesses. Please keep in mind when reading all of the comments supporting the Temple are members of LDS who benefit from it, and most do not live in the area where it will affect them.</p>

Comments	I oppose the development and building of the Mormon temple as planned. Lone mountain is a secluded area and this building will dominate the skyline there. It will be out 24/7 and does not fit the overall neighborhood. It is out of scale with the surrounding structures and will be an intrusive feature.

Comments	<p>I oppose the Mormon Temple that is in motion to be built. A special permit to allow a building 216 tall should not be allowed in one of the only rural areas of Las Vegas.</p>
-----------------	---

I am concerned about the noise of a large temple, the light pollution, how this can impact wildlife in the area perhaps during migration, the safety of residents who ride horses who will be put at risk due to the increased traffic, and how this temple does not benefit the current residents of the area. If not apart of the LDS church, people will not be allowed entrance. This benefits only the LDS community, not other religions. Most other religions allow patronage at their own leisure. I am also concerned about the tax exempt status of a church being built in our rural preserve. If homes were built it would contribute to property taxes, but a church being built will not benefit the community financially.

Current residents moved to the Lone Mountain area because they would like to preserve their quiet rural way of life. Adding a church to the area would impact homeowners directly and furthermore they are not benefitting from the addition in any capacity.

Comments	While I support houses of worship in neighborhoods. I oppose the location of the temple because it will not align with the neighborhood building height guidelines. I would hope the church would reconsider the location. I would hope they would locate the temple in an area that has other buildings of similar heights. The rural property owners that are in the area have chosen a lifestyle that lends itself to open areas with ability to enjoy the sky. This project would forever change the area sights.

Comments	<p>My opposition to this project is solely about conforming with the existing zoning ordinances and preserving the RNP. I believe this is an unnecessary intrusion into the RNP zone and unnecessary changes to the zoning. You can build a church anywhere else easily, and without pushback where the Zoning permits, outside of the RNP. Why do they need to bully the neighbors and push this when it's clearly opposed.</p>

The LDS Temple Controversy in the Northwest Valley: Balancing Growth and Preservation

The proposed construction of an LDS temple in the northwest area of the valley has sparked a heated debate among residents who have called this region home for over 40 years. The primary concern revolves around a zone change that would allow for the construction of a structure exceeding 200 feet in height, potentially altering the landscape and character of the area. This essay delves into the conflicting perspectives surrounding the temple project, highlighting the tension between development and preservation in a rapidly evolving urban environment.

Having lived in the northwest valley for four decades, residents have witnessed the transformation of their once secluded desert oasis into a burgeoning urban center. The allure of this area lay in its promise of rural estates, offering a peaceful retreat from the hustle and bustle of city life. However, as the population has grown and development encroached upon these pristine landscapes, concerns about maintaining the integrity of the community have become paramount.

On one hand, proponents of the temple project argue that it would serve as a beacon of faith and spiritual sanctuary for the community. They emphasize the cultural and religious significance of the LDS temple, highlighting its potential to bring people together and foster a sense of community pride. Moreover, proponents suggest that the economic benefits associated with the construction of the temple, such as increased tourism and job opportunities, could stimulate growth and prosperity in the region.

Conversely, opponents of the temple project express deep reservations about the proposed zone change and the potential impact on their quality of life. Their concerns center around the visual aesthetics of the area, with fears that a towering structure would disrupt the natural beauty and serenity of the landscape. Moreover, residents argue that the promise of rural estates must be upheld to protect the interests of those who invested in this vision of a tranquil paradise.

Proposed Alternative

In light of these divergent perspectives, a compromise solution may lie in considering alternative locations for the temple construction. One suggestion put forth by residents is to explore the possibility of siting the temple near the school district bus yard further up the mountains. This alternative location could mitigate concerns about the height of the structure and its proximity to residential areas, while still allowing for the realization of the temple project.

The debate surrounding the proposed LDS temple in the northwest valley encapsulates the broader tension between growth and preservation in urban planning. As communities navigate the complexities of development, it is essential to engage in dialogue that respects the diverse perspectives of residents while seeking solutions that balance progress with the preservation of cherished landscapes. By exploring alternative siting options and fostering open communication, stakeholders can work towards a shared vision that honors the past while embracing the future.

Comments	<p>I oppose. This area had restrictions to these types of buildings. It was protected from larger than 5 acre builds. Votes to change these restrictions by law were sudden. The residents were unaware of these votes and did not have reason for concern because it was a protected area.</p> <p>The residence of this area had put in place restrictions by law to protect these types of rural areas. Do the right thing. Oppose.</p>

Comments	Please honor the existing zoning regulations to Please honor the existing zoning regulations to protect the natural landscape, rural neighborhoods and property values. When citizens invest in a home in a residential neighborhood, especially one with a more rural and natural environment, they expect elected officials to honor the existing zoning. The loss of the serenity and financial investment in properties is not something that should be taken lightly. If this 216-foot temple is erected, homeowners may be hard pressed to sell their homes and experience financial loss. When you add to that the real estate market in Las Vegas and finding another comparable home this is significant. Please honor the existing zoning regulations and respect the citizens and homeowners in this area. I am sure each of you would want your home investment and serenity to be protected as well.

Comments	<p>I oppose the building of an additional LDS temple in this rural community. These buildings are restricted for use by certain LDS members, not everyone who is baptized LDS is even allowed, and people who are not apart of LDS are certainly not allowed. Requirements for temple entry are arduous, and exclusionary. Building one does not better the community, and changing zoning requirements to accommodate this project is disturbing on the city's part. There should be a separation of church and state, and the city should not change zoning laws to appease a religious institution. The LDS church should be ashamed that they are forcing their will on a neighborhood that does not want them there. The stake president has made it clear his intention is only to make his commute to church less tedious. Please preserve our rural Las Vegas communities and protect them for unscrupulous development.</p>

Comments	Please enforce the 200ft height restriction. This enforcement is the type of city ordinance that should apply to everyone. If we were building A Catholic church it would be applied. But because it's an LDS structure it gets A waiver how selective. Am I in Draper UT or Las Vegas? I urge the committee to enforce the height restriction.

Comments	<p>Rural, quiet, dark at night, no traffic, old and new neighborhoods in our residential area, aesthetically pleasing, and beautiful city & mountain views with no businesses or community organizations in our area. This is why we chose Lone Mountain Residential Area to build our forever home. Allowing an over 200-foot constantly lit structure on Grand Canyon is unthinkable. As a retired teacher I used to tell students just because someone "can" do or say something doesn't mean that they should. Are existing zoning ordinances and applicable land use restrictions going to be waived? Please NO. This is truly unacceptable and unfair to those of us who live in the Lone Mountain area. Wow. Please do the right thing for those of us who live here. We do not oppose, in any way, religion or churches. We simply oppose the Massive continually lit building that is proposed. If the proposal was for a 200+ foot tall continually lit gas station, I'm assuming the project would be denied in accordance with complying with existing land use zoning ordinances. Please apply the existing codes which would deem this project unacceptable and would require NO votes, opposing this project. We, the people, are speaking and please let our voices be heard and addressed fairly. Thank you for listening and hearing us.</p>

Comments	<p>I oppose the project because it will adversely affect the quiet enjoyment and tranquility of our neighborhood. All residents relied upon residential zoning restrictions and codes when they purchased their lovely homes near nature, horse properties and views of conservation parks. We have enjoyed peaceful and rejuvenating walks and wildlife and natural flowers for 15 years in a high grade tranquil upscale neighborhood with natural beauty. Temple lights on all night to attract attention would destroy the wildlife and interrupt residents' quiet peace and enjoyment.</p> <p>If council who don't live here force this upon us (large campaign donations from that church noted in public records), then the building should not exceed 90 feet high and it should conform to what were longtime existing codes to maintain the residential nature of the community. The residential code should not be deviated or altered for this project, despite what Francis Allen-Pallenske proposed. All lights must be off by 9 pm and night traffic restricted to the venue to daytime hours. Ample landscaping to beautify the neighborhood and block the view of the monstrosity is necessary. I cannot express deeper disappointment with council for robbing us of our cherished unique neighborhood for self-serving donations to pay for your ugly election billboards, and desecrating constituent trust in you. Build it elsewhere please (such as in your own backyard in Summerlin or Henderson).</p>

Comments	<p>The temple should have to follow all the zoning laws to be allowed into our rural protected community. A temple that is over 200 ft tall and lit 24/7 is a ridiculous proposal right in front of Lone Mountain. The temple could be moved to a different part of the northwest or built using same rules everyone else has to abide by. Blocking the view of a mountain and trail that is for everyone is selfish. The project will also bring so much light pollution and traffic to our neighborhood.</p>

Comments	The Church of Jesus Christ of Latter Day Saints does not need any more temple meeting houses. Their funds should be going to those in need. The homeless, the sick and afflicted. Those struggling. These expensive and gaudy buildings are not productive to the community as a whole. Please build a homeless shelter, a home for children or women in need, a library. A charity. Something else!

Comments	<p>The Mormon Temple should follow the RNP rules on height and lighting. I live in the RNP and love the tranquility it provides. This temple should blend in the environment like St. Anthony of Padua Roman Catholic Church located in the RNP has done. (I am not Catholic or Mormon) This area should follow the RNP Inter local agreement. The Mormon's should design a temple that compliments the area as it is designed now, it is hideously tall and will light up the entire area. They have designed a temple in Tucson which is not horrendously tall and follows Tucson's lighting ordinance (Dark Skies Ordinance). Yes, from RNP in Las Vegas we can see the stars!!! But if this temple is built say goodbye to that.</p>

Comments	<p>I strongly oppose this project as described because this project should have to respect all of the same rules and regulations about height and lighting that the rest of the homes and businesses have honored for years. This is a rural area of our community and we residents want it to stay that way. This project will bring exponential amounts of traffic to this neighborhood. This project will mar our view of the city and the Strip. This project will cause tremendous amounts of light pollution at night. All of these things will not only negatively impact our way of life in this rural area but also cause our property values to potentially go down. Please stop this project.</p>

Comments	Conserve the desert landscape of our valley. I bought my house because this area had a conservation rule that didn't allow commercial buildings and felt residents were protected. This is a disgrace if you will allow this and break rules that were established long ago to give residents piece of mind that nothing like this would ever be allowed. Thank you

Comments	<p>Among the reasons I moved to this area was it's semi-rural, residential environment. The addition of a 20-story building--regardless of its function--contradicts the natural landscape. It would add tremendous traffic to a currently quiet street that I drive on daily and destroy both the scenic beauty of the area and the quiet, non-chaotic living experience.</p> <p>I am completely opposed to this project being built in this area. Thank you.</p>

Comments	<p>Zoning laws allow for us to keep neighborhoods quiet and welcoming to all. This temple would start a precedent of breaking these zoning laws and would enable more big buildings to come into an otherwise quiet neighborhood. It would block a local landmark and be an eye sore for many who do not practice this religion. It does not enhance the neighborhood and is not a place for community gatherings as not all can enter. Please reconsider this decision.</p>

Comments	<p>Lds church already has more than enough temples. Coming from an ex member, I've been on the inside to see how empty temples usually are. And I've seen the numbers related to how often members attend temples. They really don't need another one. They also obstruct views of the beautiful land surrounding us. I would hate for this temple to pave the way for others to build equally large buildings in the area. The lds church is a cult. They're more of a business than a religion. Please don't let them build this temple.</p>

Comments	<p>This project only supports one group, and that is the Latter Day Saint group. It is not by any means, community friendly, and this site should be used on something that will support the community instead of something that will only support a small part of the community. It is poor representation of Las Vegas to build another LDS temple here when there are already multiple.</p>

Comments	<p>As a near 30 year resident of the RNP, I am categorically opposed to this structure being built based on the current proposal. As it stands, it does not follow the current codes/rules for the area, codes/rules we in the RNP have actively fought for and tried to protect.</p> <p>I simply ask you require the applicant to re-submit a proposal that follows the existing guidelines for the area.</p> <p>No one, no entity, no business, no individual should be allowed to re-write, undo, ignore or in any way change the long established guidelines for building in this area.</p> <p>Please respect this community as it is, please vote no, and have the applicant re-submit a plan that meets current rules.</p>

Comments	<p>Please do not allow this over exaggerated temple to be built it's not like we don't already have many of these temples present. Whereas we only have one Lone Mountain and its surroundings. Please take into consideration the effects it will have to our beautiful Lone Mountain not to mention the natural rocks, plants and animals and disruption to the area and environment. Please also consider how this building will not only affect all of us who live in the Northwest but how we bought our homes to be able to view the mountains.</p> <p>How lovely it would be to see within the temple but I believe only those invited and are LDS are able to enter the temple. Isn't it better for all to enjoy the beautiful Lone Mountain rural area? As a non engineer I cannot even factor the logistics of those visiting the temple and how it affects traffic, flow etcetera. Honestly I don't even know how trained engineers can truly factor all that is involved in proper planning moving forward.</p> <p>What are the pros to our City having this built?</p> <p>I foresee only future problems.</p> <p>Thank you for your in depth consideration of this very important issue.</p>

Comments	<p>Even though it is a beautiful house of worship and I believe in freedom of religion, I also believe in the laws that are in place to prevent structures like this from being built in the proposed area. This is a rural preservation area for a reason and even though a select few would love for this temple to be added to the area the majority of the residents in this area are against this. The building goes against the laws in place and let's not forget the huge parking lot, lights and the added traffic is also a major concern. The voice of many should not be silenced by the wants of few and the money behind them. The small man should not loose his rights and way of life due to money "donated" to the ones we elected to represent us or the endless court battles that can be funded by the church. We have laws in place to stop these types of things and they should not be altered in way for any reason. We chose this area to live for a reason and this goes against everything we hoped to have by living here. Feel free to worship anyway you want, but do it in an area where it is welcomed and legal, don't try to change our area for your gain or beliefs. Right is right and wrong is wrong and this is wrong. Buy land in area already properly zoned for your project and don't try to force it into our neighborhood. This isn't about religion it's about a way of life and rules/laws already in place to preserve this way of life.</p>

Comments	I believe that the beauty of the entire landscape will be negatively affected. The impact the traffic will have will change the community for the worse . The lighting at night will light up the entire neighborhood.

Comments	<p>I oppose changing the current residential zoning to civic. In changing the zoning to accommodate the Temple project it would open the door for potential further development from other developers that is uncharacteristic for this area. This project will bring much more vehicular traffic (which would then require additional changes to the area), light pollution, and change the beloved Lone Mountain landscape. It would also negatively effect the wildlife in the area; including but not limited to bats and migratory birds. If the changes are allowed it would take away from why people buy and live in this area, some of which is to have rural/horse property, natural landscapes, dark skies, and quiet neighborhoods free of commercial businesses. The Rural Preservation Interlock agreement is an excellent example of civic leaders working with residents to help protect their community and is an achievement to be proud of. I ask that you please continue to protect the residential community you represent by keeping the current zoning codes and not allowing large scale projects like this in the Northwest Rural Preservation area. Thank you</p>

Comments	ACTION PETITIONED FOR: DENY Application #: 24-0072
----------	---

PETITION SUMMARY AND BACKGROUND:

I am in opposition to the proposed LDS Temple to be located on N. Grand Canyon, Hickam & Alexander Road's.

The Applicant is asking for the following:

- 1.) General Plan Amendment - Lifts the Rural Preservation agreement
 - 2.) Zone change - will allow what is prohibited - residents adhered to existing restrictions
 - 3.) Variances - Unlimited will allow changes to the project as it progresses without application
- (These open Pandora's box for our area, particularly the General Plan. Anything can change, and it will effect land around your home)

The Property is located within NW Rural Preservation Overlay.

The GPA will change the General Plan of the Preservation Area in the NW along with the Zone Change and Variance will change the rural nature and character of the Lone Mountain area affecting all existing residents. This Temple project is inappropriate for such a rural area and belongs in an urban setting with the means for traffic, lighting, parking and off-sites which do not blend with the surrounding properties and rural mountain range, trails wildlife that exists there.

Again, I am asking you to deny the Applicant's Petition. Thank you!

Comments	<p>As a native Las Vegan I can't believe we residents and neighbors have come here to save a mountain and rural land that are in the RNP. There are no buildings over 35' all are .5ac or more. There are hiking trails and horse trail in a registry. The lone mountain range belongs to everyone now this LDS compound called "church" will ruin everything we all worked so hard to build and the rural community that everyone enjoys. Tall buildings, traffic and noise are why people move here. There's no place left in LV with no lights noise and crowds. There are locations better suited with zoning in place. Lone Mountain is for all to enjoy the temple will serve less than 1% of LV residents & botanical gardens proposed will only be enjoyed by church members not the public. Residents have removed lawns and gardens the church plans on massive gardens and water usage will be immense. CV is civic this temple does not welcome everyone neither does the "meeting house" only members can attend. The temple serves "sealed" members less than half LDS members are included.</p> <p>This project changes the rural character, brings too much traffic & lighting here interferes with the trails for hiking and horses. We escaped the city as we moved north on purpose, now this. Please deny the two applications GPA and Zoning. This is our neighborhood & our home. We live here not the people that will travel to the temple. We love the mountains and wildlife not buildings.</p> <p>Thank you, Reneé Newman Native Nevadan</p>

Comments	<p>We live in a Rural Preservation Area, adding a LDS temple that is massive will block views, change zoning, create insane amounts of traffic through rural streets where our kids play and ride bikes. This goes against the purpose of being in a laid back rural environment, everyone bought land out here to have a quiet place to live with mountain and city views, not to be around shopping centers, massive buildings, casinos and traffic. Please keep this a rural area and do not allow this temple or any structures of this magnitude to be built in our rural land.</p>

Comments	<p>This monster structure belongs down by the Strip, not in a rural residential area. People live in rural areas to get away from big, dominating buildings, the huge asphalt parking lots and the lights that go with them. We have animals and kids and families riding horses all through the Lone Mountain area and the traffic to and from the temple will put us all at risk!</p> <p>Face it. The LDS church builds massive temples like the one proposed to get attention, admiration and to announce its presence... That's all good, until the church is willing to dominate and overshadow our community's rural lifestyle by plopping a huge white stone temple right in the middle of 2 acre ranch properties. We don't want the sidewalks, street lights, and big paved parking lots that go with it. It's invasive and inappropriate for the current zoning.</p> <p>Zoning that was put in place to prevent massive structures from ruining the few rural areas left in the NW.</p> <p>BUILD IT DOWN IN THE VALLEY, where the whole world will be able to ooh and ahh over its beauty.</p> <p>And I have to ask, With a neighborhood so opposed to its presence, why does it still want to be here? Answer: The church doesn't care what we think, or how we feel. If these things aren't obvious to the County, they need to open their eyes!</p> <p>JUST SAY NO TO BUILDING A 200ft tall Mormon temple IN ANY RURAL AREA IN THE NW VALLEY!</p>

Comments	I live by Lone Mountain, and I don't believe any man-made structure as tall as the proposed Mormon temple should be built in the area. If a temple is built in the area, it shouldn't be any taller than the residences already in the area. Let natural beauty continue to be the dominant feature.

Comments	<p>This does not belong in a Rural Neighborhood, when there are numerous other parcels available! The City Council violated a contract between the Lone Mountain RNP, ie; the Interlocal Agreement. What the city council did was in fact illegal, they broke Contract Law and circumvented the process of renegotiation of said agreement in 2026. WHY??? Why the rush to push this through?? It is Public Record that certain members of the city council received LARGE donations to their "campaign funds" from the Law Firm representing the LDS Church. So, on top of violating contract law, the city council basically said "we are for sale to whomever gives us the money"! Yes, I'm angry, because I was LIED to, to my face by one of those council members, and they know who they are!!! Oh they said they "couldnt be bought", and "of course I would oppose anything like that".....You tell me, that this is above board!! You know it isnt!! Please support us, we are being railroaded!!!!</p>

Comments	We live a mile and a half from Lone Mountain and walk our dogs to the park and around the mountain frequently. The roads to the park and around the park have minimal traffic and are safe and appealing for this walk. The increase in traffic alone will negatively impact our leisure and one of the reasons we purchased our property. Additionally, our close proximity and view of the mountain means we will surely be able to view this proposed eyesore from our house. We purchased our house for the views of the mountains, not some needlessly tall monument to someone's piety. Best case scenario, take this landscape ruining project and its heavy traffic and put it somewhere else. At the very least, put a reasonable height restriction and nighttime lighting restrictions on it.

Comments	<p>Due to the size, height, and traffic pattern this should be an easy "no" for everyone. This is a rural preservation area. The only supporters of this building that I've seen are members of the LDS church. I would like to see how many non-LDS are actually supporting this building being built. If this passes, then what are we preserving rurally anymore? Can we build a 200 foot building for every religion in this area then? Please consider the entirety of this discussion, the entire population/neighborhood, and not just donations received.</p>

Comments	<p>I oppose this project for multiple reasons.</p> <ol style="list-style-type: none">1. The scale of this building along with the plans for nightmare lighting of the building itself would absolutely ruin the tranquility of the neighborhood, Lone Mountain, and its surroundings public spaces.2. Some folks on the approving council have received multiple donations from the law firm representing the interests of the church

Comments	The area is zoned rural residential with set height requirements. This temple violates those restrictions and would not blend in well to the existing environment. The surrounding neighbors mostly do not support this project. Please do not build a temple there, maybe somewhere outside the city limits.

Comments	I am opposed to the Church of Jesus Christ of Latter-day Saints being able to skirt the zoning rules for the construction of their temple near Lone Mountain. The rural preservation area was put in place for a reason and the church is flaunting their money and influence to jam this massive structure in the preservation area. I think it's disgusting.

Comments	Please preserve our parks. We deserve communal spaces that are free from religious influences. This park is one of the few parks where many members of the community go to every single day. If you build this project, that may change. Las Vegas already lacks many beautiful community spaces, please leave this one alone. There are many spaces in the outskirts that are empty. The mormon building on the east side of Vegas already exists!!!!

Comments	<p>I am absolutely against building a tall religious temple near Lone Mountain. It is immoral and unnecessary for its future congregation. Why ruin this wonderful place and landscape for so many to build a monstrosity for so few? Please please please do not allow this structure to be built. It will ruin so much for all of the people of Las Vegas. I am a member of a different religion and I have to travel from Centennial Hills to Summerlin to worship and if my congregation told me that they planned to build a tall structure there for me to pray in I would absolutely oppose it. Leave the land alone! It is after all called Lone Mountain, it should stay that way.</p>

Comments	I bought my land knowing of 1/2 ac low density as well as northwest rural community. We don't have street lights at all and a temple is not a proper building for this area. Let's just stay with the building code in the area. Please don't tell me the fix is in.

Comments	I oppose the building of this LDS temple as it does not follow the building regulations of the area. Just because a church has power and money does not give them the right to bypass laws or strong arm their way to having those laws changed for their benefit.

Comments	<p>I strongly oppose this project not because it is a LDS Temple but because it violates all Rural Preservation Area zoning in place. Keep the Master Plan as a residential area and do not allow anything but. The height of the building far exceeds the 35' allowed height limit for the area. Excessive lighting that the temple will put out will eliminate our night skies that we value so much in this area. Also concerned about the added traffic in this very low density community - you have kids, horses, bike riders, etc. that will have to deal with the excess noise, cars, etc making it very dangerous for people in the neighborhood.</p> <p>Please stop allowing people to come in that want to change the area - the residents of this area purchased it knowing we were protected to keep the area the same - stop allowing changes to the area please! Not only will this project create all the issues we have addressed but because of the area, it will diminish property values as well; the temple is beautiful but will be an eyesore in the area as it will stand out and never "just blend in". Thank you and please vote to keep the Rural Preservation as it is.</p>

Comments	<p>Restatement of CLV Code 19.10.020. which was approved 3.20.2024 Page 3: E. Development Standards. The last sentence states the following:"The standards shall be designed to ensure compatibility of the development with existing and planned development and uses in the adjacent surrounding area."</p> <p>I do not understand why the height restrictions were removed from the code that was approved on March 20th. It does not make any sense to me whatsoever.</p> <p>The LDS Temple projected to be 220 feet does not in any way, shape or form ensure compatibility of the development with existing and planned development in the adjacent area, which is an established rural neighborhood preservation zone and has been such for decades.</p> <p>In addition, this does not follow the intent of the interlocal agreement that was signed by the city and the county in 2016.</p>

Comments	<p>I am totally against this building as a tax payer my taxes will go up the building will destroy our natural night light. They are currently being taken to court in other states because people on the planning and zoning and county commissioners are Mormon Talk about dishonesty. I hope this is not the case in Vegas. This building that I will be paying for will increase my taxes and increase the value of my home which will cause me from being able to no longer afford living in the beautiful lone mountain area. The people who have house around the church will lose their home due to taxes If the city approves this you are forcing people to sell or relocate and probably be homeless because they can't afford to buy or build what they need. The church needs to Build on an empty plot outside of Vegas and build a community around it. Isn't that what most churches do. This temple does nothing for the community only for the Mormon people. God does not segregate his church or people in his house. God does need a light at night to tell me he's there. As a Christian I wouldn't be able to walk in there and observe a marriage or baptism. But I would be welcome in any denomination and the doors are open. But I'm paying taxes why shouldn't I be allowed in. There churches are no different than any other church they need to be stopped , obey the planning and zoning codes of the city . Please do not allow them to destroy our neighborhoods.</p>

Comments	<p>This building is a monument to waste and greed. The Mormon church has lost hold of the rod and is building the exact building that they warn about in 1 Nephi 8:24-28.</p> <p>If Jesus were alive to visit this temple he would call this a "Den of Robbers". Matthew 21:13</p> <p>Aside from the religious aspect, it just makes no sense to rezone this area for anything other than to solve the housing crisis in our area. A 200 foot tall structure that can house nobody is disgusting. This land is precious, we have preserved it for this long and to just hand it over for what amounts to no tangible benefit to the vast majority of the valley is insane.</p> <p>If they are to rezone this area, they should also include rezoning for high density residential including high rises of 200+ feet. If the city is not willing to do that, then we need to ask why, during a housing crisis, we are willing to bend the rules for a religion but not to actually solve problems.</p>

Comments	<p>I used to live in 89129 and plan to move back. Lone Mountain is such a beautiful place not steeped in light pollution and traffic and it's a breath of fresh air in Vegas. It has rural preservation zoning laws in place to keep it that way, prevent this exact kind of building from happening. I can't believe this is even a conversation. Why should this building get to be above the law? This is a small pocket in Vegas that gets away from the light pollution and heavy traffic, and this building will bring just that. It's unfair to people who moved here for the very reason of buildings like that not being built there. I'm really hoping to see that my elected officials won't be bought off and will uphold the laws in place. I'll be watching closely.</p>

Comments	If we're going to allow an organization to skirt the rules and build a temple of opulence for worshipping money laundering and sexual deviance, can it at least be something that's open to the public and generates taxable revenue rather than an off-limits building that does nothing for the community except steal natural beauty?

Comments

Dear members of the Las Vegas Planning Commission

I am writing to express my opposition to approval of the LDS Temple within the rural preserve area of Lone Mountain. The dedicated rural preserve is an area designed to keep some of the outskirt deserts of Las Vegas, to remind us of the ways of life of a former Vegas and to allow our city to not become one big urban sprawl. That the zoning was codified into law and enforced with the help of a neighborhood board has allowed a truly special area to exist, something so unexpected and peaceful for both the residents of the neighborhood and visitors to enjoy.

I live on the opposite site of Lone Mountain, in part of the Lone Mountain master plan. I would welcome the LDS to build their temple this side of the mountain, within my neighborhood where it would be far more appropriate from a planning and aesthetics perspective.

I am aware that there is former BLM land that was sold to CSSD for a potential school within the rural preservation district. Schools tend to be built to 1 or 2 stories and are not lit 24/7, this is an appropriate use IMO. I am also aware that CV (Civic) zoning has historically been for publicly accessible buildings for the whole community and that very recently a bill was introduced by my council woman for ward 4 to change this to include such things as this temple. To find out that she has taken campaign contributions from the LDS lawyers for this project as well as other LDS affiliated businesses (as have a number of other council men and women) is disappointing to say the least and smacks of a concerted and targeted effort by the church to circumnavigate the rules and the zoning that the planning commission saw fit to implement in the area.

The proposed project is incredibly tall for the area (216ft vs the zoning of 35ft) and with both its height and 24/7 lighting will dominate the area and remove the rural atmosphere the current residents the other side of the mountain from me enjoy and expected to be able to continue to enjoy for many years to come due to the protections of the rural preservation zone. If the project were to comply with current zoning of 35ft tall and was not going to be lit up at night (outside of normal parking lot lights etc) then I would not feel compelled to write this comment to the planning commission.

It is important for all religions to be able to congregate, worship and socialize in Las Vegas however asking a church to be respectful of zoning seems like a minimum ask. There was a Hindu temple project denied approval due to zoning (no-one is above the rules) and I would encourage the planning commission to consider this planning application with the same level of scrutiny.

Respectfully.
Donna Motta

Name	Bruce Goheen
Residential or Business Address	6800 Indian Chief Drive Unit 203 Las Vegas, NV 89130
Comments	No allowances should be made for this building when current zoning restrictions already would disallow it. This would be incredibly unfair to residents who were limited when their homes were built here. It would also create an undue burden of traffic in this area.

Comments	<p>I oppose this project in its entirety as it doesn't fit in with existing area zoning requirements. It will be an eyesore on the current rural environment. If they are allowed to build this illuminated monstrosity all parts of the building should be fully open and available to public consumption just like every other church in the valley. Magic underwear shouldn't be a requirement to view all rooms and spaces inside. Sadly I believe you have accepted their bribes I mean campaign donations and it has already been rubber stamped through.</p>

Comments	I work near lone mountain often and have family living near lone mountain. I am a Las Vegas native and love the natural beauty of the city. I do not think that a temple in this location is a good idea. There is plenty of other land available that will detract less from the aesthetic of the area.

Comments	<p>I oppose this project because a large building of any type in the picturesque rural area that this was proposed for does not belong. This has absolutely nothing to do with religion, but moreso that this will ruin the natural beauty of the area. We do not want or need something that large destroying the nature in that area. If they want to build a smaller building perhaps elsewhere that could be discussed but this would irreparably ruin a significant portion of the natural views we get here.</p>

Comments	Giving one religious sect special treatment over the thousands of Nevadans that want lone mountain to remain without large urban buildups is unconscionable and likely illegal. The city must prevent the re-zoning of the area. If unsuccessful it may otherwise be forced to approve buildups of more religious sites in the area to avoid the appearance of favoritism towards the small fraction of Mormon practitioners that make up Nevada's religious. The vast majority of the city would not want another unsightly Mormon temple being built in the foothills.

Comments	Allowing a religious building that is not supported by the community and does not offer any benefits to the community and in fact actively takes away from the natural beauty of the area should be opposed strongly. A smaller church built in the area would be fine but not a 200 foot structure that will dominate the landscape.

Comments	I would like to submit my opposition to this LDS temple construction project. The current area is a protected rural zone and this temple has to get special considerations and zoning to even be built. Even then the zone this can be removed for the temple wouldn't fall into that zoning category. The building would not fit with the rural aspect of the area. There are plenty of other areas in Las Vegas that a 200' temple could be built without having to break the rules for this one religious project that is inaccessible to the general public.

Comments	<p>Nobody, except members of the LDS faith want this building here. It is ethically and morally corrupt to force those living there to have to accommodate this building that will bring more light pollution, change zoning laws, and increase traffic and ruin the skyline and natural views just because Mormons want a temple there. It is reprehensible that local Mormon businesses and Mormon lawyers form the church can buy off City Counsel members with campaign contributions so that local ordinances can be changed to accommodate their temple. Something tells me Jesus himself wouldn't want his followers forcing their faith onto others by buying of government officials and forcing other LDS to have a temple in their midst when they don't want it there. Is that the Mormon way now?</p>

Comments	<p>This project is not beneficial to the community in any way shape or form. This building will not even be available to the public after it has been dedicated nor will it be available to most adherents of the LDS tradition.</p>
----------	--

This building is more akin to an exclusive club that will "benefit" a small number of people; namely tithe-paying members of the church.

What greater benefit does this building bring to the community?

It will light the night sky at all hours, block the view natural landscape, and introduce new and constant traffic and parking issues for the area.

Why does it have to be here? There are plenty of other areas that have been zoned for buildings such as this. Why was the zoning law changed for this specific project?

Comments	<p>I oppose the building of this massive temple. I fully support religious liberties, and exercise them myself. This is an extremely tall building that will be an eyesore, and block some of the view of the mountains. If I wanted to look at tall buildings, I would live down closer to the strip.</p> <p>Allowing this temple would open the door for other tall buildings, and cannot be accepted.</p> <p>I understand their desire, but this is not the place for it. If they wanted to do something like this closer to the strip, that would be fine.</p>

Comments	I have lived in the Northwest for over 20 years and have watched the rural preservation codes be whittled down to hardly recognizable. This Temple will ruin the Lone Mountain parks and trails that are next to it as well as the residential neighborhoods that spent all of their lives and hard earned money to live in as rural of an environment as Vegas can offer. Please don't allow the Temple to be built.

Comments	I vehemently oppose the project.
----------	----------------------------------

That area is a pristine rural space covered in multiple parks and recreational areas for locals and families. Hypothetically if you propose building a mega strip mall there it'll be met with great local opposition. But even worse the proposal is for an eyesore cultist temple on par with the over the top Scientology temples you see in Hollywood Blvd and Jacksonville FL. This is desecration of public land, and even worse it's done to appease a cult with a strong documented history of coercion and abuse.

If there's an insistence on building something, we'd much rather you build something actually useful like a homeless resource center, public library, public activities center for children and families, a museum, a civic/cultural center, or even a revenue generating solar farm. Anything but another vanity monument by tax evading cultists who run a publicly documented hedge fund (named "Ensign Peak Advisors") worth over \$100 billion dollars while having to contribute nothing in tax.

Even a new "Lone Mountain Station" property will be better -- at least this will generate tax income for the local area.

Comments	<p>We live in one of the last rural preservation areas left in this town. The beautiful area and view of our Line Mountain is what drew us here in 1982. We are still part of Vegas but not in its direct path. No matter where you are in this area the temple which is not open to all , which they say is for everyone. It's not. It's not even open to all of their followers. It's just going to make too big of a foot print. It doesn't have to be so big. I think that's what is the issue. It will interfere with the majority of the population in this area enjoying the view of our beautiful mountain.</p>

Comments

I am a lifelong member of the church in question , but I oppose this motion to rezone to allow the temple. The people who live in that area set up the neighborhood the way they wanted to in order to preserve the natural beauty of the area... building a 240 foot tower in that area is a horrible idea. I don't understand why the church can't work within existing code to build a temple in another location, or within the stipulations that are set up within the interlocal agreement that has been in use since 2016. The interlocal agreement states that it must stay residential until 2026.

In my opinion, the church is using it's wealth and influence to push through zoning changes. They have done this in recent years in other locations, Heber Valley Utah, and Cody Wyoming. They have used their financial and legal might to push their projects through without taking into the account the opinions of the people who lived in those neighborhoods. This project is being pushed through in bad faith by the church and they should work with the local people and governments to build the temple within existing zoning regulations, not try to strong arm the political system to get their way.

Per the LDS Church's Article Of Faith #12 - "We believe in being subject to kings, presidents, rulers, and magistrates, in obeying, honoring, and sustaining the law." Nowhere in there does it say anything about working in the background to change the laws they don't like so they can push through projects they want.

If the church continues on this path, disregarding the opinions of the little people and doing whatever they can to get whatever they want... they are in danger of becoming the "Great and Spacious Building" that they claim to be opposed to.

Build the temple somewhere else. Find another piece of land and build it within existing civic framework and zoning codes.

Comments

This is an abomination to our beautiful City!
The temple is beyond the Rules of Zoning.....!
If built in the heart of Vegas on land zoned for 35 feet, there will potentially be big problems.

The Mormons have spent large sums of money to lawyers (60,000), to allow the rules to be changed!
We, the people, are up in arms. The mormons are not wanted here...let alone a temple; .they belong in Utah!
This project based on their self-righteousness, will only cause further division for them. Temples are for the few High Elitists, but yet feel the need to build a 214 foot "temple"that only a handful are allowed to enter.

This brightly lit up bldg. will cause light pollution, which harms animals and birds in their native habitat.
It is a major eyesore for ALL; particularly those of us in the NW area. Our beautiful view of the Vegas Valley, will be destroyed. We bought our homes here for the view as we drive down in elevation.
These people are a minority here, and sick and tired of them knocking on our doors, shoving their "book" into our hands. I'd rather have a Bible in my home, and a Church to attend, than a "ward" and a "book".

We have to stop them!!! They are relentless as we have seen here.
I'm tired of these people breaking rules and causing the majority of us, undo stress.
They should be exhausted from defense mode!
What will be next, a Jehovah Witness temple?
No, they have more respect than mormons!

Please stop this massive environmental destruction!
Thank you,
Jeri Diorio

-------	-------------------

Comments	<p>This proposed project will disrupt the quiet residential area. It will bring unwanted traffic to this residential area where children ride bikes and families walk their dogs. The lights being on will disrupt the view of the night sky and the height of the building will impede the view of Lone Mountain to residents that have been here for many years. The proposed location is not a good fit for this type of project.</p>

Comments	I oppose being someone who grew up from elementary to now adult hood in this same area the emptiness brings the peace needed for our area that church is too big and there is already a big Mormon church down the way which should be big enough 514 parking spots is not a church and is completely unnecessary I don't pay all I do to have my scenery changed unexpectedly the dirt should be left alone or utilized for homes or a park for the kids something actually for the community entirely everyone is morman

Comments	A building such as this does not fit our neighborhood, and zoning regulations. We moved out here to get away from the lights and traffic. This is a rural preservation area, and a building such as this does not belong, plain and simple! Please keep our neighborhood the way it was meant to be.

Comments	<p>The area isn't well-suited for such a large building which will be used for large gatherings. It is a rural preservation area and this type of structure would be better suited in a commercial or industrial use area because it will require lots of asphalt parking, commercial-type lighting, and will need wide streets for the likely traffic 7 days a week. Residents in this area have relied on a master plan with ONLY residential use. I know land is limited and commercial/industrial land is more expensive but there MUST be a better location available for this use without diminishing the quality of residential living in this area. Please don't allow a structure like this in this residential area. There are plenty of developers available to build more residences that are more conducive to the rural neighborhood characteristics and will not diminish residential values. Residential land should have residences, of which we have little supply and large demand. Why convert to this type of use? Especially in an area that is characteristically low density?</p>

Comments	While I understand the desire for religious institutions to expand and serve their congregations, I firmly believe that such expansion must be carried out within the confines of existing zoning regulations. I do not agree with waiving/altering the current zoning regulations.

Comments	<p>My household OPPOSES the zoning change being considered in this project (LDS Temple in Lone Mountain Rural Preservation area). This project does not conform to existing zoning and does not fit within the intentions of the established agreements for the RPA.</p> <p>My family moved to this area for its rural character, residential zoning and serene atmosphere. A brightly lit tall temple with high occupancy (and large volumes of vehicular traffic) is 100% incompatible with this neighborhood.</p> <p>I expect the LDS church to offer token concessions to their proposed design in an effort to convince you to approve this zoning change. No concessions can make this project fit harmoniously into this neighborhood. Please deny this zoning change.</p> <p>/s/ Fredrick W & Chong O Lautenbach</p>

Comments	Leave the rural land alone. There are plenty of other areas that could accommodate a temple. The LDS church would like to own this whole valley. Show them they can't.

Comments	If, as stated, this is proposed to be built in the Rural Preservation District, it should not be allowed to be of this size or be lit during dark hours. The people who reside in the District should not be forced to relocate to msintain their rural surroundings, but the church does have the option to place their facilities in an area more suitable. Win-win

Comments	Dimensions of this proposed structure are way disproportionate. I wouldn't oppose a facility that met the current ordinance but this huge facility will be an eyesore in the rural community and the other concerns about the lighting, 7 day a week use, significant negative impact on traffic and parking concerns all justify the proposal to change the zoning be declined. If you allow this for one, other will want to follow suit.

Comments	There has to be a better place for this enormous structure with all the lights and traffic. I have a HUGE problem with putting a "temple" there that only the worthy are allowed to enter. Doesnt sound like any house of God I've ever heard of. I thought the mountain was protected from.these things. ?

Comments	I am concerned about an extreme increase in traffic congestion. Many of the roads in this area are small, 2-lane roads with no sidewalks, crosswalks, traffic signals, etc. I also do not believe a megachurch belongs in a Rural Preservation Neighborhood. This area is not zoned for this and the infrastructure cannot support it.

Residential or Business Address	4765 N Tee Pee Ln Las Vegas , NV 89129
Comments	I strongly oppose this project. We are a rural preservation of homes, not Business or Churches. We want preserve this area. A large church will bring way to much noise, traffic, and general busyness to our quiet neighborhood. There are better areas suited for this temple, not in an already established rural preservation.

Comments	Please do not allow this massive, bright, member-exclusive structure to ruin the beauty of this area! I have no problem with people practicing their religion as they see fit, but this is NOT the correct location for a TEMPLE of this magnitude. Particularly not one that does not add anything to the greater local community, only for a small percentage of Mormons who are considered "temple worthy". This isn't a place I could bring my kids or that adds anything to MY life or that of my family -- it only damages sightlines, wildlife, and the general look of an area that we drive by, live near, work near, and enjoy that natural beauty of on a normal basis. PLEASE do not allow this project to move forward!

Comments	<p>Residents and nearby neighborhoods do not want this 214' monstrosity, along with its 400+ overly-lit parking lot and extra traffic.</p> <p>Any structure built in that area should confirm to the existing zoning. Zoning changes aren't allowed anywhere, or for anything else in Las Vegas, so why now, for a structure no one wants?</p> <p>If the LDS members want a temple there, it has to be built within the zoning codes for the area. AND, if it's true that council members accepted \$10k each in return for their vote of approval, they should ALL BE FIRED!</p>

Comments	Please maintain one of the last beautiful areas of nature within city limits. This is one of the best places in the entire city to enjoy the sunset/sunrise and that would be destroyed by having a gigantic 200 ft constantly lit building towering over the park and trails. Not to mention the proposed parking developments and secondary building.

Comments	Do not allow this Mormon temple to be built. It will not help the community. It will be an eye sore. The church uses the building of temples to accumulate their wealth, it is not for religious reasons. They will most likely hire Mormons to build. You are only helping the Mormon community not the city of Las Vegas.

Comments	<p>I am a 57 year Las Vgas Native. Born and raised here. I grew up on the northwest sise of town.We recently bought in the Lone Mountain Rural Preservation Area.We want to keep this area RURAL. We moved to this area because it was quieter,less traffic,less lighting,more wildlife.RURAL. The temple(or ANY business) will completely disrupt this. More traffic, lighting,noise. It will chase away the wildlife. There is vacant land all throughout Las Vegas. Please don't allow a business to build in our small rural area. Our way of life, and the reason we moved here would certainly be inpacted.</p>

Comments	A 200+ foot building does not belong in rural preservation neighborhood. A structure this tall would ruin what we have here. I have no issue with the LDS community. I would oppose this if it was any other organization, religious or not. The law states a building is allowed to have a 35 feet maximum height. If the LDS wanted to build a structure 35 feet high, I would not be opposed to that.

Comments	It's important to honor the building codes in place for the myriad residents that invested their limited resources into their homes and neighborhood. It's unethical to accept influence or bribes from the Church of Jesus Christ of Latter-day Saints and overturn building codes for this project. Please encourage the church to submit a new proposal in an area that is not concerned with building heights, light pollution, etc.

Comments	<p>First, I vehemently assert that I support religious freedom and admire my LDS friends and business associates enormously. My objections are in no way related to the organization pursuing this zone change. However, the planned location of this temple would be comically absurd if it weren't such a towering affront to this distinctively tranquil part of Las Vegas. There surely must be a more optimal location, properly zoned and more centrally located, to serve the greater Las Vegas Valley's faithful than this one.</p>

Comments

I, my wife, our homeowners association, of which I am president, Eagles Rock Estates, and all its residents are vehemently opposed to item 24-0072, the proposed zoning change from rural residential to civic on the 20-acre property located at the southeast corner of Hickam Avenue and Grand Canyon Drive (APNs 138-06-801-010 and 018) just east of Lone Mountain. As you are aware, the Lone Mountain area has been long designated a rural residential area since its inception imposing very strict limitations on the types of developments and structures which can be constructed. It is our view that this project is inappropriate for the area and would negatively affect the surrounding neighborhoods and community.

Although it could be argued a house of worship, no matter the religion, could be considered a community asset, this project is not a typical house of worship. At more than 200 feet in height, it would be among the tallest religious structures in the United States, most of which are in dense city centers and at nearly 90,000 square feet on 20-acres, its entirety lit throughout the night, it would be more akin to a Las Vegas resort dropped in the middle of a rural neighborhood.

I noticed no one on the commission lives in Ward 4, so you may not be familiar with the feel and aesthetic of the area and its neighborhoods, especially at night. It is rural, dominated with horse properties and small 4 to 10 home communities. There are no large HOAs or master-planned communities. Much of it is undeveloped. If you haven't driven the area, I invite you to do so both during the day and at night and note the lack of light pollution and lack of traffic. If the Temple is built, that will dramatically change, affecting the overall feel and character of the region.

I bought my property 12 years ago for a number of reasons but most notably my view of Lone Mountain (of which the project would directly obstruct), the relative lack of traffic and the lack of noise and light pollution. This project would negatively affect all of these benefits. I also bought with the understanding that nothing like this could ever be built near my house as existing zoning did not permit such a structure anywhere in the region, much less mere steps from my front door directly between my home and Lone Mountain itself.

The more I think about it the more I think it is comical this is even being considered.

Again, I voice opposition.

Comments	<p>I am a homeowner near Lone Mountain and oppose the zoning variance for the proposed Mormon temple. We don't need to support and subsidize the creation of an exclusionary space restricted to the public through zoning variances and property tax exclusions. There is no reason why the structure has to be built as proposed other than to dominate the Lone Mountain skyline.</p> <p>A 200+ foot temple would only reinforce citizens' inability to stem the tide against moneyed interests and religious zealots with no interest in assimilating into the cultural landscape, only replacing it with their vision of the future.</p> <p>-Brian Real</p>

Comments

Dear CLV Planning Commissioners

My name is Anthony Lang and here are my comments for the record on Project No. 24-0072 - April 9, 2024 Planning Commission Meeting - Comments For The Record: CLV - C-V Zoning (CIVIC DISTRICT) Information Zoning and Development Standards - LDS Temple Grand Canyon / Alexander.

I live approximately 1,000 feet to the west of the proposed LDS Temple in the Rural Neighborhood Preservation (RNP) district, which was established with the expressed intent of keeping this area of town in a rural setting.

In regards to the Restatement of CLV Code 19.10.020. which was approved 3.20.2024, with the previous height restrictions removed from the code.

Page 3: E. Development Standards. The last sentence states the following: "The standards shall be designed to ensure compatibility of the development with existing and planned development and uses in the adjacent surrounding area."

I do not understand why the height restrictions were removed from this code that was approved on March 20, 2024. It does not make any sense to me whatsoever.

The LDS Temple projected to be 220 feet does not in any way, shape or form "ensure compatibility of the development with existing and planned development and uses in the adjacent surrounding area", which is an established rural neighborhood preservation zone and has been such for decades.

In addition, this project does not follow the intent of the Interlocal Agreement which was signed by the city and the county in 2016 to preserve this RNP.

Therefore, I would like to state my objection to this project for the record: Where I previously approved the zone change from Rural to C-V based on the old version of 19.10.020 with height restrictions, I can no longer support this zone change without the height restrictions guaranteed in the previous version. My main concerns have always been about the height and the "dusk till dawn" lighting. I will support this project or any religious group that wants to build a house of worship on this property as long as they follow the rules and the intent of the RNP that the rest of us have moved to this area for. I VOTE Yes to preserve our Rural Neighborhood Preservation. Interlocal Agr. I do not support any GPA change to allow this use and a building (a "church which are consistent with Residential Zoning" as interpreted in the Interlocal Agreement and as stated on the record by Mr Seth Floyd on 3/28/2024) with a height of 220 feet. Mr Floyd stated on the record on March 28, 2024 that "Churches are consistent with Residential Zoning". I asked him if I could quote him on this point and he said "Yes". That would limit the structure to residential standards if that is the case.

Thank you

Comments	Religious organizations should not be allowed to have special privilege when it comes to zoning regulations. Churches should follow the same rules as everybody else in finding a suitable location for their structure. This is clearly an oversize and ostentatious display of religious privilege in a neighborhood that is trying to preserve its rural character. The steeple is too high, the nighttime illumination, and the increased non-resident traffic will spoil the rural and recreational character of the neighborhood. I often go to the Lone Mountain area for hiking and to use the very nice parks - this Temple would be an ugly thing to have to deal with. Often, people think religion should get special treatment because they're "charitable" or provide some benefit to the community. LDS Temples are known for not even being open to the public, so there cannot possibly be any benefit to the surrounding neighborhood, unless you are a member of this "club". This Temple is just a conspicuous club house, built for the good of the members only.

Comments	<p>This is a Rural Conservation Area.</p> <p>I strongly oppose any changes to the city regulations that currently prohibit religious organizations from being built on over 5 acres.</p> <p>City council members that are involved with this Bill have received over \$70,000 in donations from the developers legal representation. (as stated on public documents.) \$40,000 of which was given either right before or after the land was purchased. Seems interesting that they are lobbying to weaken the stringent requirements for the currently C-V Zoning code..</p> <p>The church of jesus christ of latter day saints is an actively practicing cult. I was forced to be a part of this organization as a child.</p>

Comments	Keep the Master Plan for Residential use Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet. Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas Excessive lighting/wall wash all night in an essentially dark sky area Privacy concerns for neighboring homes due to temple excessive height Early and late operating hours, 7 days a week Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area.

Comments	I strongly opposed building this church in this area. This land is in a rural preservation area and has been since we built our house 24 years ago. It does not make sense to build a church 200 feet high and leave the lights on all the way around this building. That is a waste of energy. Not to mention that the extra traffic will impact our roads.

Comments	It will mar the natural beauty that the rural land scape at Lone Mountain currently encompasses. Typically I don't mind new buildings even religious institutions that do not allow a none religious peoples to enter the facility. It is just too tall very much would be an eyesore in the way it stands out. It definitely does not fit in naturally with any of the other infrastructure near it and would not be appreciated by everyday common people that are not LDS that live near by. It would have their rural nature marred by obnoxious infrastructure placement.

Comments	<p>Allowing a Mormon church or ANY church to be built in Lone Mountain will ruin the secular importance of the area's landscape/nature. It was be an absolute eyesore! Most importantly if this project moves forward it will further illustrate the immorality and greed of the Mormon church and the corruption of government officials. The Mormon church has a long documented history of pedophilia, sexual abuse, child trafficking, domestic violence, violence against the vulnerable, money laundering, general corruption and so much more. If Las Vegas officials allow this continue, they will not only ruin the landscape/view, it will further drive back protections for those vulnerable in the community. This project is DANGEROUS and DISGUSTING. The community of Las Vegas has worked very hard to combat discriminatory and dangerous organizations that negatively affect our citizens - the Mormon church is one of them. Las Vegas should absolutely not allow this to continue and ruin what this community has worked so hard to achieve. DO NOT ALLOW THE MORMON CHURCH NEAR CHILDREN!!!</p>

Comments	<p>I support the approval of the temple construction project. All you have to do is look at the existing temple on the east side of the valley to see the value that it adds to the immediate neighborhood. My job takes me all around the Las Vegas valley and I've been in almost every major neighborhood around town. As a neighborhood gets older (around 20 years old), you can see the properties become more neglected as the original owners move out and into nicer, newer parts of town--leaving the older homes for lower-income buyers or renters. But if you drive around the homes and neighborhoods near the existing temple, those properties have generally aged very well. The temple is a beautiful building and site and people want to live close to it. These residents are invested in the long-term value and appearance of their properties so even now, some 40 years later, that area has aged extremely well. Some opponents may try to claim this project will have a negative impact on the area, but the proof is in the pudding and all they need to do is drive by the living case-study, right here in town to see the difference it will make.</p> <p>I would guess that the vast majority of opposition comes from those with a religious opposition and not a property value/infrastructure impact opposition. It is important that planning decisions are made based upon the merits of the application and not on religious differences. Hopefully, the decision-makers will see the value this kind of project adds to Las Vegas and votes in favor.</p>

Comments	<p>It's bad enough that a lot of our natural animals are being misplaced because of the housing development, but to add this "Massive" building in our local community is an insult to the Las Vegas taxpayers. the Lone Mountain section is a quiet, local community with families that located here for that reason. To add this "Casino Sized Building" would take away the natural effects of our community, let along create traffic congestion, sound and light pollution to an otherwise tranquil setting.</p> <p>With all the open land that is available in Las Vegas, I am sure that there is a better location that can be chosen to build this temple.</p> <p>I "WHOLEHEARTLEY OPPOSE" the project and all related applications.</p>

Comments	<p>Do not let this happen! It is not fair that this church doesn't have to obey the laws of the land and can use donations through their law firm to give to the council members to get their agenda passed. This also happened in our community. Another temple was supposed to have been built in Erda, Utah. They wanted to change the laws but fortunately the people of the community protested and it was miraculously chosen for another site, by God's will. This church has also bought a block of the Salt Lake downtown for their visitor center. This should also have not been allowed. This was public property. Now they can ban you from this block if they don't like what you wear or if you happen to do something they don't like. Their membership is dwindling and the building of temples is the only way they can save face that it isn't. The other temple there in Las Vegas, isn't busy at all. This church is trying to take over the world with their hidden coffers and their huge land ownership. They don't have a clue who Christ really is. Please do not buy into this game. Keep the laws that the people of your community have decided not this church/cult.</p>

Comments	I don't support the building of the LDS temple in this location. It's a massive structure that is so significantly taller than anything else around. It's going to be an eyesore for anyone living nearby. If the building stays lit 24/7 as other temples do, it will only make it worse. This should be build elsewhere, near other huge structures where is won't disturb as many people for being a terrible sight.

Comments	<p>There is no reason why the Mormon Church has to build their temple in the Rural Preservation Neighborhood.</p> <p>The residents of this area have purchased homes because it was designated rural. This towering temple will destroy the peaceful, rustic ambiance of rural living.</p> <p>It will not increase home values. It will not add to the rural way of life and it will not benefit anyone in this community except the Morman Church. Obviously they do not care about the Rural Preservation community and the families whom they are infringing upon.</p> <p>The concerns listed in our opposition are valid and show the damaging effect this Temple and meeting house will have in the Rural Preservation Neighborhood.</p> <p>I urge you to oppose 24-0072.</p> <p>Thank you.</p> <p>Donna Mc Quillan</p>

Comments	I oppose the project as presented. It does not comply with current neighborhood codes. Too big. Too bright. And not public access - so no reason for variance. If made to fit with current specifications of the neighborhood that would be fine. It is the building not the builder/owner. Be community minded!

Comments	This "church" hurts children and supports child rape and marriage. No tax expemotions for cults while ruining the neighborhood. Also the church pays off politicians voting on this.

Comments	<p>I am a member of the Church of Jesus Christ of Latter-Day Saints and I stand with my neighbors who are in opposition to this temple being built as planned. I don't think it's right to allow such a large building which would require changes or special permission due to zoning restrictions/policies in the area. The church is more than capable of redesigning this temple to a smaller scale. The church should be working WITH the neighbors in that area to plan something more fitting and that the neighborhood would be proud to welcome in. As it is planned, I agree with my neighbors who live near this site that it is too tall, too large to build it there. Please do not let the church and its members steamroll over their neighbors and community to get this building approved. I think temples are beautiful and can definitely add to the beauty of their location, but this one that is proposed is not the right fit. Another member of the church shared this with me today: "This is a residential neighborhood and there is currently nothing taller than 35 feet in the surrounding area and the new temple will be 218 feet tall taking up 19 acres. In comparison, the existing Las Vegas temple covers 10 acres and is 137 feet tall." This new temple is significantly larger than the existing LDS temple on the East side of town - why does it need to be so big? It really will be sad to see this approved. Please reconsider.</p>

Comments	I would like it noted for the record that although I have no issues with church being built on this site, my opposition to the monstrous height of the building / spire and the issues with the spire being lit 24/7 up against the mountain that will reflect it every where, I am forced to oppose this application for the project and the zone change. If you want to build a church and a temple in an RNP zoned interlocal area, fine, but respect the neighbors around you who have fought long and hard to protect and keep RNP neighborhoods as rural as possible and build to the code that is already set.

Comments

We oppose this project and the requested zoning variances to accommodate it because it will destroy the rural nature of this area and it violates existing building restrictions, as well as agreements between the County and the citizens. The size and scope of this project is completely inappropriate for this rural area. At its tallest point, the temple will reach 214 feet - to put this in perspective, that is actually taller than the Red Rock Casino. The 24-hour wall-wash lighting will completely destroy the darkness of this area that historically has been maintained with lighting restrictions and the absence of street lights. Conservative estimates place the traffic burden to be close to 1,200 cars PER DAY. The two-lane roads that run north/south in this Rural Preservation District cannot possibly accommodate that amount of traffic, thus necessitating the widening of these roads - in particular Tee Pee and Grand Canyon. Said widening will bring with it street lighting and the amount of cars will also result in the placement of traffic signals, as well. The widening of these roads could also result in homeowners who are currently on wells, being forced to tie into City water at great expense. A building of this magnitude, with the tremendous traffic it brings, will completely shatter the rural nature of this area. This temple does NOT belong here and the fact that the LDS Church is working to change the zoning for the two parcels is an admission of this fact. The rules are being changed in the middle of the game, which also denies surrounding homeowners the opportunity for notice and a meaningful chance to be heard. There are plenty of other locations in this valley that would be more appropriate for a building of this size so it is truly puzzling why the Church is insisting that the temple be built here. Cynically, we suspect the church wants Lone Mountain as the temple's backdrop. Ruining the rural nature of this area, which its residents have worked so hard to maintain, is not the right thing to do, however. We strenuously oppose this project and beseech this Commission to respect the existing homeowners and the nature of this area and vote against all related applications put before it.

Comments	Being directly across the street from this proposed construction project, we are strongly opposed. It violates the Rural Preservations long held values for the neighborhood. We purchased in the area specifically because of these values and believe that a structure of the size proposed would have permanent effects that would destroy what has long been protected and why we selected this area of Las Vegas to call home.

Comments	I absolutely oppose this project. .This neighborhood is a rural and majestic area. That is why we all bought homes here. This project will destroy the natural surroundings and devalue our homes. Destroy our views of Lone Mountain and our calm and peaceful way of life. Our neighborhood will become over ridden with street lights and traffic.

Comments	<p>I live near the proposed temple site and do not wish for the project to progress. It will increase traffic to an area that cannot accommodate it. Moreover, temples like this one are known for their light pollution, and placing it near Lone Mountain could exacerbate this issue. This area should remain unpolluted, as it stands as one of the few natural landmarks in the immediate Las Vegas area. People seek adventure and an escape from urban life by hiking and mountain climbing, and a large bright building will undoubtedly damage the value and beauty of this natural escape. In light of these concerns, I urge the project planners to reconsider the proposed site and explore alternative locations that would not adversely impact the surrounding environment and community.</p>

Comments	<p>As a member of the church I empathize with the neighborhood and their feelings. They were there first and they are not against the temple just where it's being built and the fact that building codes have to be changed in order to be able to build it. They moved there with the expectation that the building codes would be honored. There are a thousand other places that the church can build it's temple with it's lights on all night and traffic increase than a quiet neighborhood.</p> <p>I understand our church has most money per capita of any religion and can make it impossible to resist but this is unnecessary with so many other possible options.</p>

Comments	Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander. Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events.

Comments	I oppose the building of the temple in this area of the NW Rural Preservation Neighborhood. I believe the excessive height, lighting, and overall traffic impacts are not in line with this part of the NWRPN area. I feel that if zoning changes and variances are needed to build within the already protected rules and regulations that either the building design should be changed to work within those zoning rules and regulations or they should choose a more appropriate NW location already handling that type of significant building structure, lighting, and where streets and traffic already support the area. There is such a small part of the NW that is still preserved and not designed to support a project of this size, so concerns to diminish our protections for those living within the rural preservation neighborhood need to be upheld and not over-ridden when other areas would support such a structure in the NW.

Comments	<p>This project is incompatible with the rural preservation area! None of these features, such as:</p> <p>Temple and separate meetinghouse; Separate meetinghouse, 26-foot 9-inch-high roofline with 66-foot 4-inch steeple; 216-foot building height with over 140 feet of that being completely unusable brightly lit steeple space; 24/7 exterior lighting; over 500 parking spaces</p> <p>reflects rural preservation lifestyle & character, which the City of Las Vegas and Clark County have previously agreed upon for this area. Furthermore, this project should be located next to arterial roadways which are designed to handle 500+ vehicles at a time. Residential streets are not designed for traffic like this.</p> <p>Thank you for denying this project.</p>

Comments	<p>The proposed plan does not fit in the scope of the neighborhood. There are no commercial buildings or businesses in the area. There are horse properties. This structure will impede the views of many homeowners and take away from the natural beauty of the area.</p> <p>Creating a structure this large is not in keeping with the communities needs and serves only a small niche of the community without being mindful of the rest.</p> <p>Please reconsider granting this project in this particular area.</p>

Comments	A structure this tall is so out of place in this area of Las Vegas. It would ruin the natural beauty of that area, not to mention the light pollution. Other concerns include an uptick in the number of vehicles coming to the area, making it difficult for locals to have access to businesses. I can't imagine many businesses in the area being in favor either. A scaled down version of this ambitious project should be considered in deference to the local population.

Comments	This monstrosity should not be constructed with any variances, since it does not fit the terrain or master plan. It will only serve a segment of the local population with little or no value to the majority of Northwest residents. If the LDS church must have another temple in this valley, let them put it Downtown or on the Strip, but never at the base of Lone Mountain.

Comments	<p>I oppose this project because it will irreparably alter the landscape and scenic beauty of Lone Mountain. The Las Vegas valley has few spaces left where unadulterated views of our great outdoors can be enjoyed. Allowing this project, which isn't required to adhere to design standards that will minimize visual impact, will harm southern Nevada's landscape and the property values of its neighbors.</p>

Comments	Oppose- this is a rural area, please be respectful and find another area. We cannot accommodate the influx of people to our community. This is a special preserve, like the precious animals that we are trying to protect nationwide. This is an area of preservation fighting for our land is also being taken advantage of to the core. We have been overtaken by developers at every vacant parcel and we have no more vacancy. Please I do hope and pray that you can please move your location.

Comments	<p>Like many others living in the area, my wife and I retired here to enjoy the area due to its rural character and the nighttime darkness peace and quiet promised by its designation as a Rural Preservation Area. Should this project be approved, that designation and the reasons so many of the residents chose to locate here will be severely compromised having a negative impact upon the entire surrounding community and the people that live here.</p> <p>The project's far out of proportion size, 24/7 lighting, parking and resulting traffic relative to the surrounding area will forever change it in a negative way affecting the enjoyment, property values, and safety far beyond the immediate confines of the project.</p> <p>For these reasons, I must vehemently oppose this project and strongly urge that it be disapproved.</p>

Comments	I oppose the proposal of rezoning the land to allow for a huge building to be placed so near to Lone Mountain. Lone Mountain is a treasure of Las Vegas and is significant because of how it rises above everything else around it. Building the LDS Temple so near to it will permanently change the character of the area surrounding Lone Mountain.

Comments	<p>The LDS church has littered our state with temples, they have attempted to use their billions of dollars to make their presence know across the world. Look at what they have attempted to do in Cody, Wyoming with a tower 100 feet tall covered in lights in a residential zone. They are using "tithepayers" money for this project and I believe the ginormous lighted structure will help obscure the night sky even more.</p>

Comments	I oppose the building of the new Mormon temple in Lone Mountain. The laws should not be changed to allow a casino sized structure, lit 24/7, to be built in a rural residential neighborhood. Especially one that excludes most residents in the community from ever entering the building. This is not about religion this is about the law! An entity shouldn't be able to decide they don't want to follow the rules and then make some donations and buy their way into ruining a community that doesn't want them there.

Comments	The area that is proposed to be developed has been designated as rural space with specific requirements. I believe the space should be conserved and those that want to develop the area should follow the guidelines that were created for the area. Development with a large and tall building that will be brightly lit at all times will detract from the natural beauty of nature.

Comments	There is already a massive temple on the other side of town for LDS members to attend if they wish. Attendance numbers at this temple are dwindling and sparse due to a decline in LDS membership. Another temple is not needed, and not wanted.

Comments	My major objections are the height of the building, the height of the steeple, and the evening lighting of the building. This is/was part of the RNP. So many local neighbors will be affected. Please drastically tone down the project or select another area that will not affect the beloved Northwest RNP. Thanks.

Comments	I used to live in Lone Mtn area. I agree with the neighbors that it will damage what they have fought for for so long, to maintain it an area with dark skies and a lot of land for horses etc. I don't oppose the temple, I oppose the location. It would be far better in an area like Sky Canyon where developers are filling the land. It would still be accessible for those who want it in the Lone Mtn area.

Comments	<p>I don't think a tax exempt hundred+ billion dollar institution under the cover of "religion" should supersede the local community restrictions and claim that building their hundred+ million dollar building will increase the value of surrounding properties. There is no merit or hard evidence of this. It also obstructs the natural beauty of the desert.</p> <p>This will also increase traffic in an otherwise quiet neighborhood.</p> <p>Bulid another temple somewhere that won't require the mormons to get exemptions to building codes or use their billions to fight for what they want just to put a building there that will be a nuisance to the surrounding citizens (traffic, lighting, eyesore).</p>

Comments	<p>I live less than a mile from the proposed site. I worry about the traffic congestion in our residential area. There are several schools in the area. Kids are already playing "Frogger" in some of these intersections just to cross the street to get to school. The proposal will increase the traffic, thus increasing the danger.</p> <p>The height of the proposed building will create an eye-sore. Many residents in the neighborhood move to the area due to the rural atmosphere and the views of the mountains. Never did we imagine a skyscraper would be built in our backyard.</p> <p>Please do not approve the proposed application. There is no benefit to nearby residents. There are only negatives. Thanks.</p>

Comments	I built my first house here in the area and a house for my sister in the area. It was designated rural and horse area. It is not a place to put a casino size place of worship with lights on all night and thousands of cars coming through the neighborhoods. They're gonna have to widen the streets. The Temple itself will not be able to be visited by regular people only the select few. If it was just a regular size church, it would be no problem. And I think it was snuck in two years ago when they purchased the land and changed it from rural to city land without nobody being notified. It also allows them to go as high as they want. This will be a 25 story structure among houses that are only allowed to go 35 feet. We never got a notice we just heard from friends in the area. I know they only have to go 1000 feet away but 10 houses here is 1000 feet and if you're the 11th house you're screwed.

--------------	--------------------

Comments	<p>This building will stand out as an eyesore amongst all the other residential structures in the area. The view from the top of Lone Mountain will forever be changed. This will become the focal point of the area, rather than the beauty that is Lone Mountain. The traffic and congestion that it will cause will be to the detriment of the community.</p>

Comments	<p>I oppose this project and any future amended plans related to it due to the fact it will create more traffic in our neighborhood's and our numerous parks that are in close proximity. In addition, if this is passed, what's to say more tall buildings won't be built in the area once precedence is set allowing this project?</p> <p>No to this project!!</p>

Residential or Business Address	3605 Blackheart Street Las Vegas, NV 89129
Comments	<p>I am opposed to this project. This is a semi-rural area with open space, dark skies, and mountains nearby. A temple reaching several hundred feet in the air with lights all over and traffic going in and out day and night is not amenable to this community.</p> <p>I strongly oppose this project. It will disrupt the quietness of the area.</p>

Comments	I do not want a temple or any kind of behemoth construction near my house. This is why I bought a house where I did: I don't like massive, imposing structures. It detracts from the natural beauty of the surrounding area. Additionally, it will decrease the value of my house.

Comments	Why does everybody want to build something in a pristine part of our community and mess it up with a building? Now mind you I'm in the development business but there's a right place for everything and Lone Mountain is not a right place for a large Temple or any other building.

Comments	It is too large . It will ruin the mountain views and wipe out the hiking trails . Interfere with the wildlife. Increase traffic tremendously bringing havoc to our neighbohood. More people more crime. A decrease in our property value and Interfere with the quality of life in neighborhood. Not to mention it is a eyesore in my neighborhood.

Comments	I do not agree with the building of the 200+ foot tall temple being built in the lone mountain area. We already have a temple here. It will completely congest the area, and cause traffic in a residential area with a low speed limit. The area is quiet and safe and has a beautiful night sky where you can admire the stars. This 24/7 lit temple will completely destroy that. We don't need 2 temples.

Comments	<p>This would violate the rural preservation as well as create unwanted traffic in horse zoned properties. The land has been taken enough by subdivisions and a 200+ft eyesore would not fit the community. It's a shame that this could be allowed. I am for the LDS being permitted to build a temple, however, the temple is not a good fit in this area. I imagine if this was being built in Summerlin the neighbors would be able to stop the construction. This is really another slight by the county and city to allow such an obscene structure in a desolate area.</p>

Comments	I ardently oppose this behemoth of a structure in my neighborhood. I would oppose it even if it was normal sized, but this proposed grandiose monstrosity is way over the top. It may be considered a beautiful temple by those who want it here, but for those of us who moved here for the natural beauty consider it a blight to our neighborhood as well as an intrusion. Isn't there some vacant land near Apex they can defile?

Comments	<p>I built my first house here in the area and a house for my sister in the area. It was designated rural and horse area. It is not a place to put a casino size place of worship with lights on all night and thousands of cars coming through the neighborhoods. They're gonna have to widen the streets. The Temple itself will not be able to be visited by regular people only the select few. If it was just a regular size church, it would be no problem. And I think it was snuck in two years ago when they purchased the land and changed it from rural to city land without nobody being notified. It also allows them to go as high as they want. This will be a 25 story structure among houses that are only allowed to go 35 feet. We never got a notice we just heard from friends in the area. I know they only have to go 1000 feet away but 10 houses here is 1000 feet and if you're the 11th house you're screwed.</p>

Comments	Opposed to building this structure in this location. Not opposed to building this structure in a location more suitable such that the structure and what comes with it does not impede on any residential areas peace, dark sky characteristics, traffic, and any other disturbances currently enforced by the surrounding residents and city permissions and regulations.

Comments	<p>This oversized project does not belong in the proposed area. It will strip residence of their right to the peaceful life they invested in many years ago. Residence chose to live there to experience the rural and tranquil solitude of the Lone Mountain area. Some, but not limited to, of the negative impact points are as follows:</p> <ul style="list-style-type: none">*Obtrusive lighting shining down of homes for many hours of the night*The noise factor before and after daylight hours due to events and functions will be nothing less than extremely disturbing*The height of the structure will invade homeowner's backyard privacy*Added traffic will undoubtedly flow over into the residential streets. <p>Surely there are many other vacant sites not located in this or any rural area that can be entertained by LDS, and still be a comfortable location for their members without disturbing the surrounding residence.</p>

Comments	<p>This building will greatly impact the neighborhood, both with its size and with the amount of traffic and people it brings into the neighborhood. The current Las Vegas temple is bombarded with people every Saturday for weddings, all of whom will be parking and wandering the neighborhood for hours at a time. On top of that, random visitors wandering the neighborhood doesn't promote a sense of safety or security for the residents.</p> <p>If you look at any of the temples around the US, they are lit up as giant beacons that are visible miles away. This will be no different and the bright lights and location will place all eyes on an area that thrives on staying a calm and peaceful desert neighborhood.</p> <p>The way that the church and the legal professionals have gone about getting this approved shows no respect for the residents of this neighborhood. If they do not show respect in the planning process, why would they show any during construction or operations? The building is not public access and requires meeting very strict regulations in order to gain entrance. This does NOT benefit the COMMUNITY, only a select few LDS church members.</p>

Comments	Such a behemoth building would forever change the charm, character and even the lifestyle of our communities in the vicinity. It's a great unnecessary contrast to the rural and wild nature of our area.

Comments	<p>This would completely disrupt the natural beauty of our valley. The building already goes against code with its size. Not to mention the constant lighting that would disturb residents in the area at all hours of the evening.</p> <p>It's not even on a major road but in the middle of housing developments. Leave our desert beautiful, don't hide it with this massive unneeded building.</p> <p>I completely oppose this project.</p> <p>Perhaps build some affordable housing instead.</p>

Comments	I oppose the building for several reasons, the streets, the traffic, the lighting the size, but most of all the fact that they're trying to put a commercial building in a residential neighborhood. They have the meeting hall that they want to build, which is open to the public but then they have the huge temple that they want to build, which is the real issue and that is not open to the public so they're trying to use the church as in reason to override the Zoning however, it's not open to the public what it really boils down to is that's a commercial building for their usage not the public usage. This should not be put in a residential neighborhood.

Comments	<p>The Temple itself would not be a concern except for the over-the-top lighting of the surrounding area. The neighborhood gains very little from its construction, yet asks for quite a bit from residents. If this were to be built, I believe monies should be set aside for neighborhood improvement.</p> <p>Currently, the neighborhood walls and gates to the south of the proposed Temple are not maintained and quite frankly would not go well with new construction. This could be remedied as part of the project were it to go through.</p> <p>The construction of the temple should include refinishing the neighborhood walls to the south near Grand Canyon and Alexander as a gesture of good will. Without this caveat, I would not support the project.</p>

Comments	<p>I see the news where they are saying how good this would be for their church community, but this gives no thought as to what this will do for the community that is already living here. This is a rural area and the people in this area have invested a lot into their land, their homes and the rural area they have invested a lot of money into. Not to mention how this will take away from the natural beauty of Lone Mountain. There is plenty of land further out that is not designated as a rural area. Please consider the investment and future of the community that already exists here.</p>

Comments	<p>Based on the strain this project would place on the area infrastructure, the resources and Tax dollars required to support it, and the depravation of the City and County of other projects or development that would increase tax revenue rather than reduce it, I vehemently oppose this fiscally devastating project. Residential and commercial properties generate revenue, jobs and tax dollars. This project would create costs to the area with NO tax revenue or benefit to the surrounding community.</p> <p>Further, it would deprive existing residents of the peaceful way of life which caused them to move to this area, and would likely significantly lower the value of homes surrounding it, negatively impacting the current residents, and ultimately lowering the tax revenue to the City and County.</p> <p>Significant drops in property values might also trigger defaults on mortgages, leaving empty homes, which tend to attract criminal activity.</p> <p>Overall, this project creates no value, and significant harm to the community it intends to occupy. There are plenty of areas in the Valley suitable for a project of this type. A rural preservation area made up of mostly residential properties is not one of them.</p>

Comments	<p>I'm furious that the local residences to this area that will be directly affected by this obstruction are not being notified about expressing our opposition to this. I don't want the added traffic, the loitering of the members, and the view and natural beauty of Lone Mountain being blocked. My extended family are members of the Church of Jesus Christ of Latter-Day Saints and have caused a lot of trauma, shame and guilt to my family, and I don't want to be reminded of their abuse so close to my home. The current temple in Vegas is already underused and understaffed, and this is just like the other temples being built around the world by the same church to funnel their tax exempt money and try to appear like their shrinking membership is not happening. They are notorious for contracting only their members for projects like this and channeling more money to their direct associations. Please don't approve this, our neighbors here do not want this.</p>

Comments	<p>I am a resident of the Lone Mountain neighborhood and I oppose this plan. While I respect religious freedom, the temple will cause unnecessary traffic and disrupt our peaceful neighborhood and quiet tranquility.</p> <p>The temple plans must be reconsidered given the nature of the Lone Mountain Preservation neighborhood. Zoning regulations should not change to accommodate this temple as it is unfair to the residents.</p>

Comments	<p>Instead of adding peace and tranquility, this building will be taking that feeling away from this area if it is built. The constant traffic will truly be an annoyance to any residents nearby. This is NOT religious hate. The people in this community will lose beautiful views, endure extra light pollution, and a lot of traffic. If you look around the world, there are lots of temples built in downtown inner City areas where traffic and bright lights are to be expected. People would still be able to worship anywhere it was built.</p>

Comments	<p>This building will greatly impact the neighborhood, both with its size and with the amount of traffic and people it brings into the neighborhood. The current Las Vegas temple is bombarded with people every Saturday for weddings, all of whom will be parking and wandering the neighborhood for hours at a time. On top of that, random visitors wandering the neighborhood doesn't promote a sense of safety or security for the residents.</p> <p>If you look at any of the temples around the US, they are lit up as giant beacons that are visible miles away. This will be no different and the bright lights and location will place all eyes on an area that thrives on staying a calm and peaceful desert neighborhood.</p> <p>The way that the church and the legal professionals have gone about getting this approved shows no respect for the residents of this neighborhood. If they do not show respect in the planning process, why would they show any during construction or operations? The building is not public access and requires meeting very strict regulations in order to gain entrance. This does NOT benefit the COMMUNITY, only a select few LDS church members.</p>

Comments	<p>I strongly oppose this application and all other applications to build a Mormon temple in the northwest.</p> <p>I have been a resident of Las Vegas for 27 years now. Part of the reason I have lived in the northwest for 13 years is the beauty of our preserved nature.</p> <p>Lone Mountain is a beautiful landmark that will be marred by a temple and all of its visitors. Not to mention the invasion of privacy of the home owners who live very close to the proposed location.</p>

Comments	As a residential homebuilder having built numerous projects in the area and being scrutinized and held to certain standards to build \$1M+ homes in the area, I feel this is not a proper fit for the neighborhood in regards to architecture. I believe the temple itself would be acceptable, however the scale of this structure is too imposing. Residents have moved to the area for the rural feel and this is completely the opposite of that. There is no purpose for the height of the structure above the usable building space other than to draw attention to it. Additionally, there is no need for 24 hr lighting, there has been no allowable street lights in the area for a reason and this goes against the intentions of that regulation. A structure more comparable with the area is completely feasible, so I feel with some revised architecture this can be a more acceptable application.

Comments	We don't want our views ruined, Las Vegas is a beautiful city and we keep building excessively by building into our natural preserves. Our children deserve to play in the privacy of their backyards without people in the temple looking in. They do not need a church that big.

Comments	I am opposed to a large structure such as the Mormon Temple being built in an area that has been deemed a rural preservation area. I am also opposed to the granting of zoning changes to suite big developers while totally disregarding the opinions and concerns of homeowners and residents. It happens time and again. Stop obstructing our views. Stop building high rises. For once listen to the people.

Comments

- (1) The planned temple violates EVERY ONE of the existing Rural Preservation provisions.
 - (2) The planned temple violates the provisions that might designate it as a C-V (Civil District), or "civic zoning" that might accept a large building but not a religious facility on over 5 acres of land; and because the building is NOT open to the public, but is a PRIVATE building for LDS members only.
 - (3) Dominates the Landscape: The temple itself (I would say) is intentionally built at its size, its height and on higher ground expressly to dominate the landscape in an imposing way that emphasizes its social and political strength and power over the local community. Indeed, architect renders show the temple will be able to be seen for many miles, towering over the surrounding homes.
 - (4) Light Pollution: It will be lit up at night creating light pollution, destroying the serenity and beauty of the evening sky, which is one reason people moved to this area to start with, away from city lights. The area is dark and quiet at night, with no streetlights, no curbs, no gutters, and no sidewalks.
 - (5) Traffic: The temple will undoubtedly increase TRAFFIC flow by thousands of vehicles daily, resulting in traffic lights and stop signs by necessity, and RISKS to pedestrians, joggers, bicyclists, horseback enthusiasts and animals traversing the current landscape, breaking the calm serenity, quiet and pedestrian safety of the area.
 - (6) Higher Property Taxes Imposition on Local Homeowners: While the LDS is immune from taxes as a church, the vast property with its massive temple will increase property taxes for the surrounding property owners. Again, this is a consequence of the rezoning and temple building that homeowners understood would NEVER occur when their homes were purchased. Increased property taxes will be a particularly high burden to those retired, on a fixed income or at the lower economic scale.
 - (7) Ecosystem: The temple and the traffic, noise, and light pollution will have an adverse impact on the ecosystem. The safety of native land animals and birds. Daylight and evening light regulates and suppresses sleep in diurnal birds. There has been NO environmental impact study regarding the building of the temple.
 - (8) City-County Interlocal Agreement: This Temple stands out as the single exception made a single, religious, and politically influential group in that the Council is changed the C-V District definition and is attempting to change the zoning rules for no other known reason than to accommodate the LDS Church in a nakedly, unethical, partisan way that injures parties that purchased land, under the pre-existing zoning, C-V rules and the (still) existing City-County Interlocal Agreement that promised no changes in zoning rules and attracted homebuyers to start with. The Council will be violating that Agreement if the re-zoning and approval of the project is allowed to pass!

Comments	<p>I have lived in my home in the NW preservation district for 25 years. I bought here because of the restrictions on building huge buildings and that includes churches. It is wrong and not fair to allow this structure. If approved it opens it up for lawyers to challenge the code and more structures some perhaps even larger to be built. I strongly Oppose this project and ask the board to put themselves in our shoes as this monstrosity will be in our quite peaceful neighborhood. Thank you</p>

Comments	We moved here specifically for the Rural Preservation Area and oppose the location of the Lone Mountain LDS Temple and separate meeting house in a residential area that was zoned for a school. We bought our house here specifically to be in a rural area. Had we known about this we would have never moved here. This is not the area that a 216 Feet tall and highly lit building is zoned for nor the street lighting that this area is designed for. Many of our neighbors have horses and horse properties here because this is a NW Rural Preservation Area! This is not fare for all the residents that have lived here for many many yrs.

Comments	<p>I Beau Loyd am very disappointed that our city keeps building structures and buying a land This place in Nevada will soon look like Los Angeles, California.</p> <p>Instead of having thousands of acres of land, there will be small islands of land surrounded by concrete.</p> <p>It disappoints me that the Mormon community have chosen this site when they already have a mormon temple in North Las Vegas.</p> <p>I do not want a giant castle near my part of the valley that I've lived for over 15 years.</p> <p>I hope the Mormon community can find a new location for their temple and I respect they're all aspects of life. I love this country for us to have the freedom of religion and I want nothing but the best for the Mormon community</p> <p>-Beau Loyd</p>

Comments	Keep our mountains areas beautiful with residential and small businesses. Do not hinder the natural beauty with tall obtrusive buildings with flashing lights and more traffic. Residents personal privacy is important. There is plenty of room to build these tall buildings anywhere on the Las Vegas Blvd.. Thank you.

Comments	<p>This project does not fit the guidelines for the rural preservation zone if they want to build a single-story temple under the height limitation, low-level lighting, and follow all other guidelines already on the books for rural preservation, that would be acceptable.</p> <p>The only reason the church wants the temple in the rural preservation zone is because of the elevation of the area and no other lights in the zone, thus allowing a spotlight on the temple. An obnoxious beacon in the nighttime sky is 100% against the principles and primary reason for having a rural preservation zone.</p> <p>The Mormon cult uses oversized monstrosities and obnoxious lighting as a form of subliminal manipulation, one that I should be forced to endure which would be the case if the guidelines already in place were to be altered to allow this temple to be built as it is submitted.</p> <p>If a 240-foot glitzy lighted temple needs to be built, build it downtown (perhaps near the vacant lot by 11th street), where a building such as that would fit right in</p>

Comments	I fully oppose the building of the Mormon Temple at this location. This area is a rural residential area and is no place for any building taller then the Red Rock Casino with a proposed 500 parking spots. They plan to have the lights on almost all the time and the traffic that this will bring into a area where houses were purchased to be able to walk horses through the streets to get to the trails. This is not an appropriate area for this area.

Comments

This LDS Temple proposition is Against ALL Rules/Regulations, and should by law, not move forward.

I find it very offensive that the LDS Church is spending huge amounts of money to their lawyers, to ram this through.

We, the people, are rising up, and speaking up for you to re-consider how this monstrosity will impact us and the wildlife in this area. We were reassured many times that this land area was safe and secure, when we purchased our homes years ago.

Is this part of the "Spiritual Battle" that we are facing daily, in regards to what is happening in the political arena? We cannot let the LDS "church" take over our lives and livelihood.

The Vegas Valley is beautiful, day and night, and this eyesore is not wanted or needed here. For a religion to be respected, why on God's earth, are the Mormons hell-bent on being more disrespected?

I can only imagine living next door to this; cars parked in my front yard, bright lights 24/7, noise from people coming and going, light pollution, being able to look into my private backyard from this huge tall bldg., not to mention the ugliness of it all.

We were lied to! How can this happen? Paid lawyers, etc....you know the drill. This is "Evil" at its finest.

We are all doing our best in this economy to survive, and this added stress is not lawful! One cannot change zoning laws, because of Self-Righteousness , Power, Greed, and Money.

Please have a conscience, and do what is right!!

Jeri Diorio

Comments	<p>I've lived in this neighborhood for 30 years and I want it to stay rural. The height allowances for this project is ridiculous. The added vehicle traffic is a concern for safety and the added noise with the additional traffic is unacceptable. The additional lighting is a concern, especially for the nearby houses. Residents have bought homes in this area not only for its rural status but also for the views which would be blocked by this structure. Traffic, which has increased by the 215 would exponentially be increased . We did NOT Buy into this. People bought into this area for a special, quiet lifestyle. This would be ruined by allowing this structure</p>

Comments	We live in CH Rural for a reason. TO KEEP IT RURAL. Too many of these commercial structures are out of the character of this area. Excessive lighting and traffic will continue the erosion of our lifestyle. We vehemently oppose any building like this in our area. Any commissioner that has accepted money from the church or is a member of this church should recuse themself.

Comments	<p>All projects should not only conform, but support the environmental landscape of the community. Having a religious affiliation does not justify the complete dismantling of the surrounding environmental and architectural standards and beauty defined for a neighborhood. No single organization, be it religious or industrial, has the right to overrun and dominate a community solely to support their mission. The project as designed is disrespectful to the community. It should be re-conceived and re-designed to better fit the environment standards that have been achieved and enforced upon others.</p>

Comments	<p>I oppose the placement of the proposed LDS temple. I fully respect and support houses of worship as pillars of any strong community. However, the LDS temple that is proposed is not within the intention of the community (the Lone Mountain Rural Preservation District). The height, lighting, size (acreage), traffic, ambient noise, and FAA-mandated safety lights are all extraordinary for our neighborhood and will distract)rather than add) to the rural aesthetic.</p> <p>There are neighborhoods immediately adjacent (Providence: Hualapai & Elkhorn); Centennial Hills; Summerlin; Queensridge) where the proposed structure would be less intrusive and more inclusive of surrounding aesthetic.</p>

Comments	This project does not belong in a rural setting. The city council has breached a legally binding contract, ie, the Interlocal Agreement. I have been told by a retired judge, what the city council did was illegal, and should be challenged in court, which it will be.

Comments	<p>I oppose the proposed LDS temple that would be located near Lone Mountain, in the rural preservation neighborhood. This neighborhood is not an appropriate location for a building of this size. The temple would serve over 100,000 people from all over the Las Vegas Metro Area, which would create far too much traffic for the rural neighborhood. Further, this neighborhood is popular among occupants due to its rural nature, which includes a lack of light pollution. This area of town is very quiet and dark at night. The lights on this proposed temple are far too bright for this area.</p> <p>Further, St. Anthony of Padua Catholic Church is also within the rural preservation neighborhood, but it does not pose the same issues due to its decreased height and lack of exterior lights.</p> <p>If a temple is built on this lot, the height and lighting should be limited, which would be keeping with the spirit of the rural neighborhood.</p>

Comments	I live close but not in the vicinity of the notifications. I am opposed to this because of all the traffic it will bring to the area. I am opposed because it is basically a commercial building, an assembly building with hundreds of people coming and going from the facility, This is a residential area. These buildings are not suited to for the surrounding environment. I strongly oppose this in my neighborhood

Comments

- (1) Rule Preservation: The planned temple violates EVERY ONE of the existing Rural Preservation provisions.
 - (2) Civic Zoning: The planned temple violates the provisions that might designate it as a C-V (Civil District), or "civic zoning" that might accept a large building but not a religious facility on over 5 acres of land; and because the building is NOT open to the public, but is a PRIVATE building for LDS members only.
 - (3) Dominates the Landscape: The temple itself (I would say) is intentionally built at its size, its height and on higher ground expressly to dominate the landscape in an imposing way that emphasizes its social and political strength and power over the local community. Indeed, architect renders show the temple will be able to be seen for many miles, towering over the surrounding homes.
 - (4) Light Pollution: It will be lit up at night creating light pollution, destroying the serenity and beauty of the evening sky, which is one reason people moved to this area to start with, away from city lights. The area is dark and quiet at night, with no streetlights, no curbs, no gutters, and no sidewalks.
 - (5) Traffic: The temple will undoubtedly increase TRAFFIC flow by thousands of vehicles daily, resulting in traffic lights and stop signs by necessity, and RISKS to pedestrians, joggers, bicyclists, horseback enthusiasts and animals traversing the current landscape, breaking the calm serenity, quiet and pedestrian safety of the area.
 - (6) Higher Property Taxes Imposition on Local Homeowners: While the LDS is immune from taxes as a church, the vast property with its massive temple will increase property taxes for the surrounding property owners. Again, this is a consequence of the rezoning and temple building that homeowners understood would NEVER occur when their homes were purchased. Increased property taxes will be a particularly high burden to those retired, on a fixed income or at the lower economic scale.
 - (7) Ecosystem: The temple and the traffic, noise, and light pollution will have an adverse impact on the ecosystem. The safety of native land animals and birds. Daylight and evening light regulates and suppresses sleep in diurnal birds. There has been NO environmental impact study regarding the building of the temple.
 - (8) City-County Interlocal Agreement: This Temple stands out as the single exception made a single, religious, and politically influential group in that the Council is changed the C-V District definition and is attempting to change the zoning rules for no other known reason than to accommodate the LDS Church in a nakedly, unethical, partisan way that injures parties that purchased land, under the pre-existing zoning, C-V rules and the (still) existing City-County Interlocal Agreement that promised no changes in zoning rules and attracted homebuyers to start with. The Council will be violating that Agreement if the re-zoning and approval of the project is allowed to pass!

Comments	<p>This negatively impacts the entire valley. It particularly negatively impacts the those in and around Lone Mtn.</p> <p>We have a very diverse community. We respect the rights of the LDS community to have temples. This temple is not appropriate for this area. It only serves a sma?l portion of the community, but it impacts on the entire community is negative.</p> <p>I lived in the building directly adjacent to the San Diego Temple. It obstructed views. It increased traffic and pollution. The lights were insanely bright.</p>

Comments	<p>Please vote NO!</p> <p>I can't understand why this hotel height gargantuan sized building is being forced upon an area that has a master plan for buildings no higher than 35 feet, rural and no street lights. Traffic is going to increase, neighbors views including mine will be blotted out or obstructed. Not right to put it in our area. Just because we're county and you rezone it city? Seems a bit suspicious to me?</p>

Comments	<p>I am opposed to the changing of the zoning codes for this project. I am not opposed to a Mormon Temple being built there I'm just opposed to the size, height of this project. I moved to this area of Las Vegas because I liked the open, Landscape, Anche homes, and the fact that lone Mountain itself was a natural preserved area for families to get out and enjoy the natural landscape of our Desert community. I think, putting a temple, this size and of this height will distrust the aesthetic of the community. And will open the area to more developments as itself soon we will have another downtown strip area of Las Vegas in the northern communities. I am not in favor of this. I'd like to see the zoning to be kept the same and they are welcome to build a temple that fits within that zoning guidelines. I don't understand how it got this far. Am in the design and building industry myself here and I'm a bit surprised that building plans weren't submitted before they even had purchased the property knowing the zoning restrictions that were imposed to that area</p>

Comments	<p>I oppose this project in the location indicated for its huge size. This project is trying to make a statement instead of just rendering a service that fits a residential area. It is like planting a huge forest tree in your residential front yard. It will completely change the atmosphere of the area. Residential neighborhood can accept service type facilities only within the size that is enough to render a service. To make a statement, put your giant show off project few miles away. Besides, Majestic park just next door houses sporting facilities for kids and is very busy for that, and the lone mountain has a horse facility with a trail for horses around the lone mountain that will be very disturbed by so much lighting. Local roads may not be able to handle the added traffic.</p>

Comments	Without adequate infrastructure, this project will create a traffic nightmare for the area every day of the week. There is already congestion on Craig off the 95 and Cheyenne off the 95. The height of the building and the location of this Temple made it difficult to agree to such a structure in the neighborhood.

Comments	Light saturation should be restricted to non-residential areas, such as downtown. This will affect the health and well being of residents for many blocks, if not miles, around. The Mormon community is failing to show respect for the community by proposing this monstrosity in a residential neighborhood.

Comments	<p>The proposed Mormon temple should not be located in a residential community.</p> <p>The increased traffic, parking problems, and aesthetics of the temple deflates the value of the homes in the neighborhood.</p> <p>Any negative impact on house prices, if the project is approved, should be born by the Mormon church as the immediate cause of financial loss.</p>

Comments	<p>We absolutely oppose this structure in the middle of CH Rural Preservation. This is not aligned in any way with this area. This area was set up with limited growth and there are too many builders already building too many new homes. We have several Churches with many denominations in our area serving our community needs.</p> <p>216 Feet high will destroy this area with 24/7 lighting and over 500 parking spaces. What part of Rural has a 15,982 sq ft Meetinghouse and Temple Sq. footage of 70,194. This is not a commercial area but a residential area. The 24/7 lighting will effect thousands of home owners, planes will need to change flight patterns</p> <p>You will be removing walking paths which many of us use, horses which once were walked around neighborhoods, this will change the entire landscape cutting off pristine views of our beautiful mountains for hundreds of residents but especially our neighbors in Lone Mountain.</p> <p>And let's talk about the flooding that occurs in during heavy rains, anyone who lives directly around this area will be impacted even more. Any of our two lane roads just won't support this. How much money was donated to the city council members before they voted? Is this legal or another form of gifting.</p> <p>We want to protect our dark skies, wildlife and rural way of life.</p>

Comments	You wouldn't approve a Red Rock Casino in that location so why allow a behemoth like the proposed building be built there. If they want a Temple there have them build one to the same code all other churches in the area have to follow. The traffic and light pollution that will be generated by this proposed building is intrusive to say the least and going to hurt property values and stall new building in the area. This is not the place for a building of this size, regardless what it's used for.

Comments	Please preserve the nature of our rural neighborhoods by adhering to the limits that were out in place with that in mind. We do not need excessive thru-traffic, which this would bring, to an otherwise secluded and rural area. It would change the very nature and character of the community.

Comments	<p>I am opposed to project #24-0072 because it will irreparably change the Lone Mountain Rural Preservation Area with high traffic, noise pollution and make our neighborhood unsafe for the residents and children currently living here. These neighborhood roads have already seen a significant increase in traffic and speeding. Our area has no sidewalks, bike lanes, lights and on most roads no lane divider paint. We purposely purchased our home 12 years ago in this area specifically because it is a rural preservation area. Las Vegas has so much rapid development we believe it is important to preserve rural areas for its future. I take no religious issue with the proposal, I do take issue with how out of place it would be aesthetically and how it would forever change this area to the detriment of all the neighbors in this quiet beautiful area.</p>

Comments	I strongly oppose this application. As a long time resident of this area, (since 2006) I feel that the height and size of the proposed structure is not in line with the standards of the community nor the essence of the reasons we live in this rural preservation district. To be clear, I do not oppose the church building places of worship, but it isn't in the right place, meeting the needs and desires of the community here.

Comments	<p>I oppose this application and all other future applications. This land use would occur in an area where myself and others frequently ride our horses, as is encouraged and supported by our rural preservation neighborhood. Excessive traffic, added noise, and bright lights would be detrimental to these activities and to our daily lives, even without the animals. Additionally, the temple would create an eyesore in the community. Regardless of how beautiful the structure, the bright lights and towering building would stand out and severely detract from the serenity of our dark skies and nature-focused lifestyles. Our best view is of the mountains and we should have freedom from having to look at a religious symbol every day. Please do not approve these plans - the temple can and should be built somewhere else.</p>

Comments	This proposed church is not harmonious with the rural community.
----------	--

Please do not allow this 216' tall temple.

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet.

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas

Excessive lighting/wall wash all night in an essentially dark sky area

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M:

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot.

Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot.

Comments	This building breaks all of the rules of this area, lights, sidewalks, traffic larger than the 34' tall rule. We move to this area to get away from all the lights, traffic, we don't want this building here.

Comments	I oppose this project based on the anticipated negative impact it would have on the environment and the surrounding community. We live at the backdrop of red rock and a building of this stature is not appropriate. There are plenty of areas in Las Vegas where a temple could be built without the negative impact this would bring to northwest Las Vegas. I personally believe this will displace long term residents and would lower property values.

Comments	I'm particularly upset about the height of this building and the intention to keep it lit all night long. I would be much more satisfied if they agreed to lower the height to 100ft and turn the lights off after 11pm. We live in the country so we don't have to deal with light pollution at night. My other main concern is to keep it out of our rural preservation district. They need to build it elsewhere. This is not a mere NIMBY thing. It can be up on this side, but needs to be outside of our rural area.

Comments	I 100% oppose the building of this temple and the structures that go with it. This is a rural community. This building is too tall and the lighting will go on all night, disturbing the surrounding area and the night skies that we enjoy away from the Las Vegas Strip. There are other areas that this can be built in that is more conducive to having a temple built. To have something of this size and magnitude built in this area is uncalled for and unnecessary! I stand firm with many of my neighbors and protesting against the building of this facility!

Comments	<p>This is not fair we moved here because of the preservation regulations and now we are being bullied a structure far exceeding what we're allowed to build on our own properties and it will create a ton of new traffic and make a nice dark quiet area bright busy and loud. I moved my family here and love it so my daughter can enjoy a nice rural feel and this will entice me to buy somewhere else and rent out my property here. This happened to our family south of the M where they promised to never build structures of such size and zoning and money pushed us away. Show some integrity to our preservation area and keep it just that. There's a ton of places to build a structure like that please choose elsewhere and kee this little area the gem it's always been. Don't ruin it on all the people who call this place HOME</p>

Comments	<p>As someone who has just moved to area and currently looking to build a house in the Lone Mountain Area, this project is alarming. I chose this area due to lot sizes, costs, access to nature and privacy. Having a church the size of a high rise casino is not a necessity for this area.</p> <p>While I don't oppose any church or house or worship, one this size I do oppose. There is ZERO reason why house of worship needs to be this grandiose. No other church in the area is even a fraction of this size.</p> <p>3 stories max...how this made it this far...people should be concerned whom is representing them. I know I am</p>

Comments	Greatly oppose this given the current feel of the Rural Preservation Area where I now live and hope to maintain as is. This has nothing to do with religious preferences or freedoms but preserving this small pocket of the natural beauty in the area. There are a lot of other areas in the LV valley and its environs where this could go and even probably improve the area.

Comments	<p>I am opposing this project but I know that my voice will fall on deaf ears. The cult Mormon religion has so much money I know that they will push it through even if everyone in Las Vegas opposes it. Maybe there will be enough people opposing the project to delay it for a while but we all know that eventually the committee members will approve it.</p>

Comments	As much as all places of services should be allowed, this area is a preservation area. Those who currently live in the area closest to the proposed church should have the final say. They chose to live in homes near Lone Mountain because of the beauty of the mountainous areas, open skies and no skyscrapers blocking their views. One would think that the Church of Later Day would agree to not block God's creations. There are plenty of areas were skyscrapers building would be welcomed. If they, LDS really need a church there, make it more tasteful and not obnoxious. God doesn't need overwhelming buildings to pray. Actually it is against his words. Do not stand on the corner but pray in private.

Comments	<p>I oppose any structure of this size, etc in any residential neighborhood, especially a rural one.</p> <p>We need to really think about why we are allowing a church to dictate and change zonings to suit their needs. There are multiple land on the west side of Vegas that can accommodate a structure of this size that won't impinge on a neighborhood. An intersection with easy access with other commercial buildings etc would be a better fit. We can't give in to money, politics or religion. No one is above anyone else. What the LDS want can't go above the zoning that has been in effect for years in our rural preservation area. Why is it called that if anyone can put in a zoning change and get what they want. That will open the door to other developers to change our zoning. We all have to have some integrity and do what we know is right.</p> <p>DO WHAT YOU KNOW IS RIGHT, my father used to always tell us kids that. Please, think about that phrase when making a decision. The LDS wants it their way, they can do that at an appropriate location. Thank you so much.</p>

Comments	For 22 years, I have I lived 2 blocks East of this proposed project. This is a quiet neighborhood.
-----------------	--

This proposal is a commercial project that has no business in this neighborhood. The light pollution, the traffic and the huge 216 foot height variance will greatly impact our neighborhoods in a tremendously negative way.

I am against this project moving forward.

Comments	For several reasons I oppose building the Temple in our rural community. The intrusive height, lighting 24/7, including flashing red lights to warn pilots, noise from lighting, drainage issues for local residences, increased traffic on our rural streets, and from what I understand this structure isn't open to the public or general parishioners, but only to high ranking individuals within the church. So the purpose of the structure that most of our rural community are being asked to accept will be seldom used and not not accessible by most local residents.

Comments	This isn't the first (or even the second) time that this issue has come up. On 11-20-2003 Canyon Ridge Christian Church and the ICLV both went before Planning to try and get enormous structures permitted. Both ultimately failed although the ICLV tried again in 2011. It didn't belong in Lone Mountain West and certainly doesn't belong in Rural Preservation either.

Comments	<p>The overall scope and height of this project is in no way compatible with existing land use and zoning. A 261 ft building that is illuminated will permanently obstruct the Lone Mountain view of thousands of residential properties unfortunately situated at a lower level. Homes that were purchased in this area were done so with the knowledge that this area was a rural preservation area with substantial restrictions in place to prevent development of this sort.</p> <p>I strongly urge the council and planning authorities to reject this proposal and direct the developer to a more suitable parcel with existing, less restrictive compatible zoning.</p>

Comments	I am all for churches but there is already a park over here and this temple is scheduled to be very tall, does not fit with the rural characteristics of the rural Nevada planning of this area. It seems rural Nevada is getting pushed out and its not fair to those of us that have been on this side for decades. Our voice should be heard and this is not the place for such a temple. Please hear us and let our voices have meaning and carry weight.

Comments	This would ruin the rural vibe in this area and should be relocated further down the mountain so the current residents can still enjoy quite living as have signed up for decades ago. Please do not let this happen. We need to preserve some areas of the valley to the rural lifestyle.

Comments	We purchased our home in the rural preservation area near Lone Mt. because of the rural, non-commercial, peaceful nature of the area. We love the views of the mountains and the darker skies at night. I do not believe the proposed plan for the temple is appropriate for this site/area. I have lived in Las Vegas for 65 years and it just saddens me how constant zoning changes are made to the detriment of the affected communities.

Comments

Allow me to revise my prior entry.

HIGHLIGHTS IN OPPOSITION:

1. 2016 Clark County and City of Las Vegas Interlocal Agreement: The Agreement signed Dec. 21, 2016, explicitly states (Paragraph 2.A.): "The Parties agree that they shall not accept any General Plan Amendments (GPA) nor amend their respective comprehensive plans, rezone such properties or approve special or conditional use permits . . . ". "Shall not" couldn't be made any clearer. The actions of the city's Planning Commission to amend the GPA and rezone the properties concerned in "the Project" directly and indisputably violates terms of the Interlocal Agreement.
 - a. The City Council staff's opinion that just because it can point to the Las Vegas Valley Water District's facility presence in the area covered under "the Agreement" justifies the City amending the GPA and rezoning the land, falls flat on its face! It is likely the Water District's facility was in place when the 2016 "the Agreement" was renewed.
 - b. Regarding the City Council's staff's opinion is that since "the Agreement" is silent on "rezoning to allow civic uses . . . such as religious facilities" then "the Project" should be approved, this too is interpreted to favor the Council's desire to approve "the Project". As stated previously, Paragraph 2.A is explicit in stating any GPA amendments and rezoning "shall not" be accepted. If the City Planning Commission wishes to move forward, it must first seek and renegotiate the terms of "the Agreement".
 - c. Regarding the City Council's staff's opinion other exceptions "have been approved and developed in residential areas with little or no adverse impact to the community" where is the proof? Moreover, there has been no independent Environmental Impact Assessment to determine what if any impact there may be (see #3 below).
2. Quasi-public use: Even by skirting around the issue of "the Agreement" the characterization of "the proposed C-V (Civic) zoning district (permitting) public and quasi-public uses . . . by any recognized religious . . . organization" falls into question.

The common legal definition of "Quasi-public property" means any property that, although under private ownership or control, is accessible to the public. This term shall include, but shall not be limited to, the New Jersey Turnpike, the Garden State Parkway, shopping mall roadways and parking lots, private business roadways and nonresidential parking lots. [Source: www.lawinsider.com/dictionary/quasi-public-property]

Another source defines "quasi-public use" as "essentially public (as in services rendered) although under private ownership or control." [Source: www.merriam-webster.com/dictionary/quasi-public]

However, the LDS Church has made it abundantly clear that use of the land, Temple and buildings are FOR MEMBERS ONLY of the LDS Church, and NOT THE GENERAL PUBLIC.

A quasi-public corporation is defined as "a company in the private sector that is supported by the government with a public mandate to provide a given service. Examples include telegraph and telephone companies, oil and gas, water, and electric light companies, and irrigation companies." [Source: www.investopedia.com/terms/q/quasi_public_corporation.asp]

However, the LDS Church is NOT supported by the government and IS NOT GIVEN a public MANDATE to provide a given service.

So, by all these definitions, "the Commission's" staff's opinion falls hollow.

3. Public Services Infrastructure: The City Planning Commission has failed to detail "the Applicant's" burden vs. the City/County costs for the provision of electricity, sewage, water mains, fire hydrants, fire houses, roadways and walkway construction and traffic signals/signs that such a large-scale project would, by necessity entail.

The public has a right to know by what means (bond referendum, sales taxes, property taxes) and at what costs the citizens of Las Vegas will be burdened with to secure the infrastructure and safety measures necessary just to accommodate the LDS Church's Project!

4. Environmental Impact: The residents in the Lone Mountain area value the rural preservation of their properties and surrounding landscape. They likely bought their plats and homes with the understanding that the rural nature of the area was under protection of the existing General Plan, zoning assigned and the Interlocal Agreement. However, the 20-acre project with its towering 240-foot-high spire lit 24/7, will increase traffic flow, disrupt nature trails, affect the safety of joggers, bicyclers', hikers, and horseback riders; and it will impede and damage animal thoroughfares and habitats. The "wash-out" effect of the Temple's 24/7 lighting will destroy the joy and tranquility of the evening "black sky" and will undoubtedly have an adverse effect on diurnal birds.

Therefore, before approving "the Project" an in-depth Environmental Impact Assessment should be ordered and reported to the public.

5. Flood Control: Whereas the LDS Church has sought to build its Temple on 20-acres elevated ground with water run-off to surrounding residential areas, and whereas "the Project" will require water mains construction, and the existing community has underdeveloped rain runoff drainage.

Before approval of "the Project" the mentioned Environmental Impact Assessment must include a flood control plan, what mitigating measures can/should be taken, the costs and means by which those measures are paid.

6. Potential for Higher Property Taxes Reassessment: This is an imposition on Local Homeowners. It is fortunate for the LDS Church that it is immune from taxes. However, the private landowners for the properties bordering the location of the Temple, are not so lucky. It's highly likely that the presence of the Temple will result in higher property taxes; and as previously mentioned, the citizens of the city will be assessed increased taxes or fees to pay for the infrastructure that will accompany the building of the 87,000 sq foot, 3-story high Temple with its 500 parking spaces and outbuildings.

This is the unintended consequence of rezoning and approving "the Project" and it is a neglected adverse outcome for the public.

7. Lack of Transparency and Disclosure:

Regardless of the outcome of this meeting, it seems evident that members of the Planning Commission must have been aware of the Church of LDS's agenda to build a Temple. As far back as 2021 the LDS Church donated the maximal amounts allowed by law to the campaigns of members of the Commission. The land itself was purchased in 2022. It seems highly unlikely that in February 2024, the Commission independently identified the exact measures (the changes in property definitions and zoning regulations) needed precisely to approve "the Project" and then, within a matter of 53 days, rush the changes and approve the construction of the Temple with very little disclosure to the public at large.

The public deserves explanations. The following questions to the Las Vegas City Council are presented based on the concerning sequence of events, though likely legal, appear unethical or deceptive. I respectfully request an Ethics Review to answer the following:

- a) With maximal campaign contributions going to council members, donated by the LDS Church legal firm, did the LDS Church and/or law firm (Kaempfer Crowell) play any role in writing the provisions of Las Vegas Bill 2024-8?
- b) Was any person(s) working on drafting, completing, or voting on Bill 2024-8 affiliated in any way with the LDS church or its representing law firm, or receive any money from either the LDS Church or said law firm?
- c) Have any of the voting council members met publicly or privately with members of the LDS Church and/or members of its law firm, prior to voting on L.V. Bill 2024-8; and if so, on what dates, for what purpose, and who was in attendance?
- d) Have any of the council members previously made an obligation to the LDS Church or its representing law firm, to vote in the affirmative for L.V. Bill 2024-08 and/or the pending re-zoning of areas in the Lone Mountain district, Ward 4?

RECOMMENDATIONS

1. DISAPPROVE, OR PEND RECONSIDERATION UNTIL AFTER:

- a) Revision of the Interlocal Agreement to eliminate discrepancies.
- b) Completion of an Environmental Impact Study
- c) Completion of an Infrastructure Cost Assessment
- d) Followed by completion of Public Hearings disclosing all the above, at least 2 Public Hearings at locations proximal to the proposed building site, chaired by one or more of the Council members (the People's representatives), and not chaired by LDS Church members or its Legal team.

2. IF APPROVED, build a smaller structure that meets the building code, zoning requirements and the Interlocal Agreement that existed prior to the Commission's changes.

3. SELECT A BUILD SITE AT A DIFFERENT LOCATION: Outside the 215

Loop, or inside city limits that is coded properly, or north on I-95 where there's open land and few residences.

Comments	As I'm sure so many others have expressed, I don't believe that we need this sort of structure in a residential neighborhood. Privacy concerns aside, it will take away from the natural beauty that we have with the mountains, which believe it or not, some people appreciate more than the strip and all its lights. A lot of people moved to the outskirts of the city to be away from all of that, if they want to build a 200+ft temple it should be in an area where it makes more sense. The Mormon church expressed that the reason they want to build this extravagant temple is because we have a growing number of members in or community, but they also stated that it was because we get a lot of tourists that would like somewhere to go when they're visiting. Based on that, it should be closer to the strip and more centralized, not in the far NW side of the valley.

Comments	<p>This proposed project will disrupt the quiet residential area. It will bring unwanted traffic to this residential area where children ride bikes and families walk their dogs. The lights being on will disrupt the view of the night sky and the height of the building will impede the view of Lone Mountain to residents that have been here for many years. The proposed location is not a good fit for this type of project.</p>

Comments	The temple is too large for the area. Nevada has a lot of land on the city's north side where traffic would be fine. Don't build the temple in at area. community has building restrictions and this should be followed!

Comments	We OPPOSE this project and all related applications for the following reasons: Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35 feet. Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas Excessive lighting/wall wash all night in an essentially dark sky area Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Comments	<p>The Height of the temple is going to be tall like a casino , it will take away our views we see of the city. There will be so much traffic and noise. The reason we liked it up here because it is quiet. What about the light pollution. We don't have streets light in our neighborhood because of it. Please find another area.</p>

Comments

The petitioner's proposed structure is not a church, rather, it is a huge temple, whose 216-foot height, 24/7 bright lighting and 500 parking spaces are best suited for a commercial corridor adjacent to an interstate highway. This structure is not compatible with our rural community, which offers hiking and equestrian trails, an equestrian park and low-density residential living, a respite to those seeking to escape the congestion of the city. In contrast to public improvements, the proposed temple will not be available for public use; only those of the LDS faith who have met requirements for entrance are admitted into Mormon temples. Compounding this exclusivity is the fact that its very presence would diminish the rural qualities that make this area unique and valuable. Though the temple would benefit a segment of the community, an approval of this rezoning request and the subsequent building of this structure would come at the expense of the community at large. There are other appropriately zoned parcels upon which this temple could be built, sparing our neighborhood the intrusion of 24/7 bright lighting, of heavy traffic created by cars driving to and from the 500-space parking lot, and of the eclipsing for many of Lone Mountain, the very center of this neighborhood community.

The rezoning required for the proposed construction, if granted, would redefine our rural community. Many of us chose to live in this neighborhood and to build our homes here based on the zoning and on what we understood to be (former) City Councilman and County Commissioner Larry Brown's vision for this community. Should we now bear, if even we could, the considerable burden of finding and purchasing a home in another rural neighborhood so that the petitioner can build the proposed structure in a neighborhood for which it is not zoned? Building an intrusive structure such as this in a rural preservation area is not, I believe, good policy. Neither is disrupting established communities in this challenging season of housing shortages and rising prices.

Thank you for the opportunity to present my views.

Comments	I see no use for another temple in Las Vegas and would prefer to see our beautiful mountains and Landscaping be destroyed. We are losing all our beautiful scenery and the animals that live in that habitat are being shoved out of their environment and coming down the mountain and endangering people. Please leave our beautiful scenery alone.

Comments	<p>This will be a disaster for our community that is family oriented. Traffic and lighting will cause much turmoil, accidents, problems for kids getting to school. Sleeping with these bright lights will be a disaster for people who work, need to sleep, and for children doing homework and getting sleep. The neighborhood will take on a totally new atmosphere and will cause a great deal of stress and people will want to move.</p>

Comments	<p>As an over 30 year resident of this area, living very close to this proposed site, I object to the construction and presence of this project. The Rural Preservation Act exists for the reasons stated clearly, and upheld, since inception in the 1980's. What other sites have been considered? To disrupt this quiet area in lieu of other sites that are not within the Rural Preservation Act is simply wrong. To feel that this preserved way of life can be disrupted is not acceptable, nor is it logical, for any proposed project. Simply for the sake of convenience of those wanting to access this project is insulting and has an air of superiority clearly demonstrating that the rules don't apply to everyone and the need to be accommodated should override the existence of this critically important rural preservation history. This project, or any project aimed at doing the same, should be DENIED.</p>

Comments	I oppose the zoning changes needed for this church. The increased traffic and lighting alone will change the area. The height of the structure(s) is not acceptable also. The original zoning was put in Place for a reason and should remain the same. This is a change for a select few of our community and changing the zoning affects all who live in this area and have enjoyed the way it has been.

Comments	I do not support this project because it is in violation of current zoning laws for this area. It will take away from the designation of rural structures and exceed the height limit. It will increase traffic. The light pollution will distract from the mountain calm that now exists.

Comments	<p>I oppose the proposed structure due to the irreparable damage it will have on the scenic and natural Lone Mountain community. This is an area where people ride horses, and where parents take their children to one of the many city and county parks, and where we relax at the foot of the mountain at the edge of our busy city. This is one of the best places in the valley to enjoy a nature hike with friends. We should not have to forfeit our peaceful enjoyment of this exceptional area in order for the Mormon Church to build a structure of this size, which would obstruct our scenic views. Las Vegas and Clark County have invested significant funds to preserve this area, and so have the residents of our community. There are many more suitable places in Las Vegas for the church to build a structure of this magnitude.</p>

Comments	This is the rural preserve area of NW Las Vegas and we would like to keep it that way. A gigantic temple towering over all the houses in that area will be an eye sore, no matter how beautiful they make it. When we moved here, our realtor kept emphasizing there would be no businesses developed in this area. A temple is a religious business - people coming and going, not living in this area.

Comments	<p>Disappointing that a organization which calls it self a Christian would buy land for a project and attempt to manipulate the present law for there own purpose knowing that the people who live there chose to live there because they endorse the present laws and rules providing the present environment... unassuming, quiet rural. The stature of this building is intended to shout out to the the world loudly with blarring lights day and night and belongs in the city , not in a rural area.</p> <p>Please be kind to your people... please do not 'Bulldoze over them with your money"</p> <p>Yours in Christ Michael R Kane, MD</p>

Comments	There must be another piece of property that the temple can be built on. Farther out from the residential. It's bad enough that our HOA forces us to have our lights on outside at night. Very hard to sleep with so much light. I can only imagine what the residents around the temple will be dealing with.

Comments	<p>I moved out here in the northwest for the peace and quiet. It is bad enough that the county has been "developing" the infrastructure which is encouraging the building of new housing, but the intrusion of a megatemple with the commensurate traffic and lighting is a real concern.</p> <p>Keep the "rural protection area " rural!</p>

Comments	I strongly oppose this, a lot of us live up here to enjoy the quiet neighborhoods and no street lights that no sidewalks no businesses it's just a great way to get home sit outside and relax and watch the world go by without any interruptions. Besides being huge and towering over everybody's homes, there will be a lot more traffic a lot more trash and garbage the church goes that park in front of the residential areas park in front of driveways where you can't get out or in. And yes, this does happen. Check with some of the people that live across the street from the temple on the east side. Please please consider the people that live in this area and have for many many years and how their lives will be changed. Their children's lives will be changed and their animals.

Comments

Besides the issues below, if this were to move forward, I would be curious to see what campaign donations by the LDS have gone into the current pockets of the city council, which is voting on this measure to make an exception to current zoning laws. That would be even more interesting than all the support/opposition to this, as we all know how politics works these days too well.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet.
 - Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas
 - Excessive lighting/wall wash all night in an essentially dark sky area
 - Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
 - Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M:
 - Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot. Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot.
 - BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE
 - L-864 MUCH brighter than L-810
 - Early and late operating hours, 7 days a week
 - Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area.
 - Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot
 - 514 proposed parking spaces
 - Bright parking lot lighting
 - Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander
 - Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties
 - Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events.
 - Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc)
-

Comments	I do not want the rules changed for this project. I do not like the height. I do not like the extra traffic. I do not want the light and noise. There are other locations they could choose that would not impact established neighborhoods. I do not oppose religious structures, just the location of this project. Thank you!

Comments	As an avid runner, hiker and a nature lover the Lone Mountain area is one of my favorite spot in all of Southern Nevada. It's such a wonderful place to have just 15 minutes from my house when I need a break from life's stresses. I feel as though this church will be too detrimental to the area in terms of view, vehicular traffic and pedestrians. The volume of cars and people going to/from the church on the weekends will be an impact to the area and detriment to those like me who enjoy their weekend getaways. There are plenty of other places on the west and northwest sides of the valley that they could propose their church to be built.

Comments	I purchased my property in 1997. I like the Urban Preservation Zone. I don't particularly care for the 2 story homes that have been built in recent years. Ranch style homes were the theme in this area and I don't think a building with a footprint like what is proposed fits into the rural setting.

Comments	Do not allow such a tall building be be built here!!! This is no good for the wildlife and for the residents. It's literally a private church?? No one in the area unless they're Mormon and recommended can enter this facility. Don't be like the politicians taking donations from LDS to bypass the laws that didn't allow them to make that building in the first place.

Comments	I oppose this project because it is not fair to the homeowners in the surrounding areas to have a giant building in the middle of their neighborhood, blocking their views. I support the building of a temple, just not in that location. Maybe the church can purchase land on the edge of town somewhere.

Comments

"Thousands of tired, nerve-shaken, over-civilized people are beginning to find out that going to the mountains is going home; that wilderness is a necessity; and that mountain parks and reservations are useful as fountains of timber and irrigating rivers, but as fountains of life." - John Muir 1901

Written over a century ago, Muir recognized that the mountains and the natural world serve as sanctuaries, essential not just for economic resources but for spiritual renewal. Muir fought for the preservation of these sacred spaces, which he regarded as 'God's first temples,' against the ravages of industrial exploitation.

Now, we confront a modern-day challenge to the sanctity of natural landscapes-a proposed LDS Temple near Lone Mountain, a modest butte revered by Las Vegas locals as a refuge amidst the urban sprawl. Rising a mere 563 feet above its surroundings, Lone Mountain holds profound significance for the community, offering easy access to a unique hiking trail and view that provides solace from the rigors of daily life.

The prospect of a towering temple so close to Lone Mountain presents a stark contradiction to its role as a place of recreation and communion with nature. Such a structure, subconsciously signaling the wealth and influence of a religious organization, threatens to overshadow the value of Lone Mountain as a haven for connection with the natural world. Such encroachments not only diminish the recreational value of the area but also undermine the principle of equitable access to public spaces, prioritizing the interests of the affluent few over the collective well-being of the community.

Conclusively, the proposal to build such a large structure of worship compels us to reaffirm the principle that spaces of recreation and natural beauty should remain sanctuaries. Immune to the encroachments of powerful entities. By advocating for responsible development practices and prioritizing the protection of natural beauty, a testament is created to the enduring right of every individual to seek solace and inspiration amidst the unspoiled beauty of nature, free from the influence of external agendas.

Comments	I understand that the LDS church has owned this land for a long time. However, they already have one Temple in this city. That Temple was built before housing was. This will severly disturb the environment and community surrounding this land. There are other unintrusive things that can be done with the land.

Comments	If they were planning to build a temple similar to the one on Grand Canyon and Alexander, that is a regulation, height, and blends in with the area, then that's fine. But there's no need to have a hotel sized compound in the middle of a residential area that is obstructing views and traffic flow.

Comments	<p>My entire neighborhood opposes this build! This is another fine example of the LDS church greasing the palms and getting what they want! This is so obvious and blatant. Disregard for the horse zoned property that surrounds the entire area. What about all the nocturnal animals that this will affect?</p> <p>The resident of this area have moved here to get away from traffic and the bright lights of Vegas and this is completely going against why everybody has moved up here! There are plenty of other places This monstrosity of a church can go! Keep it out of our neighborhood!</p>

Comments	<p>The proposed project of a Mormon temple is not a good idea for this community. We enjoy the darkness and ability to see the stars out this way. We don't need a multistory temple lighting up the sky all hours of the day and night. The height of the structure also causes an invasion of privacy to nearby residents.</p>

Comments	Do not let the LDS church buy off the Las Vegas City Council with donations to your campaigns and go against the residents of the Lone Mountain area. The residents have worked to preserve the area surrounding their homes to keep it open and safe for wildlife and small residential communities. The LD church is going in and quietly changing ordinances that have been established, so a giants 20+ story building that will be lit up like the Las Vegas strip. Tell the LDS church no! There are many other locations in the Las Vegas valley where ANOTHER LDS temple can be built. Leave these residents alone and stop steam rolling them LDS church! This temple will hurt this community.

Comments	<p>We oppose this entire project as it is a huge structural project in a mainly single family with one level structures in the Rural Preservation Area.</p> <p>This area has horses and other animals, minimal traffic and low lighting for night sky viewing.</p> <p>The building heights are excessive and impeding the views of established housing. The lighting will further detract from our night sky stars viewing.</p> <p>The size of this project creates a potential traffic grid in and area that is a rural preservation area</p>

Comments	This project would be fine in another more secluded location. My backyard looks at this plot of land and it would be completely ruin my entire home life if this temple were to be built. I have built this house from the ground up and would NEVER want to look at a 216 ft tall building in my backyard.

Comments	<p>I support the project but object to the location. Regardless of the structure (temple, casino, etc) building an illuminated high rise nearly 1/2 the size of Lone Mountain in an area completely void of any commercial businesses voids the promises and efforts previously given. We residents, love our non-commercial area, it's lighter than "normal" Las Vegas traffic, it's darker than "normal" Las Vegas skies. We also love our mountain, completely in its natural state. The beauty of nature cannot be ignored. Why would anyone support blocking the Mountain View's with a high rise. One might as well bring in equipment and remove it. Surely, the LDS temple engineers can locate other areas with mixed zoning more appropriate than imposing on a complete residential area. A residential area of a preserve mostly without street lights. A church, in my opinion, is commercial. It's big money. It appears that money is being used to sway decision makers in supporting this project where they might not support another commercial using the same space. Look at the community, even Terrible Hurbst hasn't built here.</p>

Comments	<p>Our family has lived near Lone Mountain for over 20 years.</p> <p>In our experience elsewhere, the addition of a temple like this enhances property values, forever guarantees peaceful and pristine use of the land, and fosters community in all the stages of production.</p> <p>We strongly prefer the proposed temple's land use to any other foreseeable use of that land, and ask that you ensure our views are represented. Thank you!</p>

Comments	<p>I fully support this project. I believe this project is in the best interest of the community. Not only will it bring beauty to that area but it is something that the residence in the surrounding areas are very excited for and happy about the latter-day Saint church works really hard to also maintain the beauty and peace to all their buildings and temples continuously throughout the years. I don't see this one being any different.</p>

Comments	I live very close to this LDS church/temple site and welcome it wholeheartedly in my community. I have lived at this address for over 30 years and fought diligently over the years to control zoning and approval of building in my neighborhood. This will be a positive for the community and an asset to property owners and residents alike.

Comments	I support this project, as it is an opportunity to bring more peace and beauty to this part of town. It is a privilege to have a temple in our midst the grounds are always well taken care of and the feelings felt around the building and in the building are of peace and serenity. It is common that it increases the value of the homes around it. It is better to have a beautiful and peaceful place instead of a casino or any other concrete building that will disrupt the view and feeling of the neighborhood.

Comments	I support the building of the temple of The Church of Jesus Christ of Latter Day Saints on this site. The temple brings beauty and adds to the communities where they're built. I have seen them in other towns and other communities, and they are always well done, peaceful, and beautiful. I think adding one at this location would add to the quality and character of this area.

Comments	I literally live across the street from the temple/church project. I am excited for a church to become a part of our neighborhood. It will beautify it and be a wonderful addition to an already beautiful desert landscape. I absolutely love what the church provides for the youth (service projects, and faith based activities, and a place for them to get away from the noise of the world), also the peace, serenity and church community as a whole will benefit not only the members, but those around them. I also have a horse, chicken and well. I do not feel this project affects the rural aspect of the area. I do not feel my urban-cowboy lifestyle is threatened by this. Our city is growing and there are plenty of members who have been praying for another temple. This is an answer to prayers. I would much rather have a church/temple than a school or more houses. Thank you.

Comments	<p>I live 1 block from the location I am in favor of the LDS temple to be built in this area. I feel it is our responsibility to support ALL religious groups places of worship without persecution despite a zoning conflict. The level of false websites, you tube channels, anti Mormon doctrine, overall untruths of our religion shared, social media pages that have been started where you may only join if you don't support the LDS groups or temples, talks of corruption, lies and more has been shocking to say the least. Despite all of this, myself as well as others of our faith would still open our doors to these people if there were ever a need. The LDS church has gone above and beyond for this community time after time. We have opened our buildings up to other religions to practice just to mention one as a young girl I remember my church in the 80s when a Baptist church was burnt down on Charleston. Our doors were opened to accommodate and hold their own meetings for over a year until they could rebuild. The LDS church members volunteer regularly with charities across the valley with no expectations. It done in the Lords name. I ask that this issue be passed in favor of the temple. After all God created this world and this land. This is an honor to have a house of the lord be built in my area. I love the NRP but changes can and should be made from time to time. Just as lights and stop signs were put in for good reason this zoning should be approved for good reason. Thank you for your time.</p>

Comments	<p>It has been my experience that Temples both enhance the beauty of surrounding areas, but bring joy to many. The grounds are always well kept and the people attending are usually well manicured and upstanding citizens. The houses around temples often appreciate in value as well.</p>
-----------------	---

The beauty of a temple will not deplete the view or beauty of the designated site.

Thank you for your consideration.

Comments

We are so excited for a new temple to be built in Las Vegas so much closer to many of the over 105,000 members in the valley. With only one temple at the base of sunrise mountain, many members drive close to an hour each way to attend the temple, which we consider the house of the Lord on earth and a place to receive guidance and peace in our lives. Many members love to attend the temple weekly or monthly and sacrifice to make the drive, including many teenagers that also the the blessings of the temple. Below are pictures of my 13 year old son and his friends and my 15 year old daughter and her friends attending the temple near Sunrise mountain. I know many youth that make the trek across the valley regularly to spend time in the temple feeling close to the Spirit. To have a temple closer would be such a blessing to so many faithful members of the Church of Jesus Christ of Latter-day Saints in the Las Vegas Valley.

Temples are so special and sacred to us. Our church explains them this way:

"Temples are literally houses of the Lord. They are holy places of worship where individuals make sacred covenants with God. Because making covenants with God is such a solemn responsibility, individuals cannot enter the temple to receive their endowments or be sealed in marriage for eternity until they have fully prepared themselves and been members of the Church for at least a year. Throughout history, the Lord has commanded His people to build temples. The Church is working to build temples all over the world to make temple blessings more available for a greater number of Heavenly Father's children.

Places of Learning

Temples are places of learning. Their principal purpose is to provide ordinances necessary for the children of God to enable them to return to dwell with Him. Temple ordinances lead to the greatest blessings available through the Atonement of Jesus Christ. Everything in the Church-the meetings and activities, the missionary efforts, the lessons taught and the hymns?-all lead to the work done in holy temples.

One ordinance received in the temple is called the endowment. The word endowment means "gift," and the temple endowment truly is a gift from God. The ordinance consists of a series of instructions and includes covenants to live righteously and follow the requirements of the gospel. The endowment focuses on the Savior, His role in Heavenly Father's plan, and the personal commitment of each member to follow Him.

Another temple ordinance is celestial marriage. In this ordinance husband and wife are sealed to one another for eternity. A sealing performed in the temple continues forever if the husband and wife are faithful to the covenants they make.

In addition to being a place where sacred priesthood ordinances are performed, the temple is a place of peace and revelation. It is a place where spiritual guidance can be received for crucial decisions or concerns."

LDS.org

LDS INFLUENCE IN LAS VEGAS

Members of the Church of Jesus Christ of Latter-day Saints have played a major role in Las Vegas since the very beginning and have always helped the community for the better. Mormon missionaries first settled in Las Vegas in 1855.

"The Old Las Vegas Mormon Fort, the first permanent, non-native settlement in the Las Vegas Valley, features the historic remains of an adobe fort built by Mormon missionaries along a spring-fed creek in 1855. The creek, the only free-flowing water for miles around, provided irrigation for fields and orchards and the 22,000 square foot outpost served as a way station for travelers. Today the park is located in what is now Downtown Las Vegas.

<https://parks.nv.gov/parks/old-las-vegas-mormon-fort>

The members of the Church of Jesus Christ of Latter-day Saints are well respected in the community and have been recognized for their hard work and discipline and kindness and respect to others.

"Well-known Las Vegas journalists Jon Ralston and John L. Smith described the Latter-day Saint impact on their community from their perspective. Ralston, observed, their "influence has been pervasive because it's been so broad and so deep." And he added, "They were known for standing up, men of moral rectitude.

Smith has noted, "You cannot say that Las Vegas would be anywhere near what it is today with that tremendous influence of some very dedicated people who happen to be Mormon in faith and practice ... I don't think there's an area of Las Vegas life that has not been touched by the LDS faith. . . participating and organizing in the community. . . focusing on public education ... values that are so important to a community if you're going to put down roots ... I think the[ir] greatest contribution is stability. ...To have members of the community that are stabilizing influencers, can't be overstated, it's so important."

Perhaps former U.S. Senator Richard Bryan said it best in summarizing their influence: "The LDS community has had a profound impact on southern Nevada. Dating back to the early founding of the mission in 1855 here in Las Vegas and the growth of the community largely in the early days ...They brought with them strong family values. They brought with them the virtue of hard work, discipline, all of which is part of a value system that even those who were not members of the church, but always it was family. Family was first, not second, not third and the family structure impresses all. We don't understand necessarily the theological roots of the belief, but the family values, the civic responsibility. In effect, they're good people who helped to make Las Vegas a good city for all of us to live in."

<https://www.unlv.edu/news/article/saints-among-us-lds-impact-las-vegas#:~:text=Today%20this%20sacred%20edifice%20stands,105%2C000%20in%20this%20metropolitan%20region.>

Oscar Goodman and his wife, Carolyn, who have both served as mayor of Las Vegas (Oscar 1999-2011, Carolyn 2011-present) recognize the important contributions of Latter-day Saints. According to Oscar, Church members "have placed themselves in places of responsibility, ... in order to shepherd what makes an area successful: roads, streets, schools, that kind of thing. Their presence [is] always felt; they [are] always well-respected."

The temples of the Church of Jesus Christ of Latter-day Saints are kept in pristine condition and respected by the members of the church. The Temple near Lone Mountain will add to the beauty of the surrounding area and those attending will respect the community and be so grateful for the ability to attend the temple closer to our homes. The members of the Church have long shown the Las Vegas Community that they only want the best for our beautiful City and have gained the respect and love of our neighbors.

Comments	I support the building of the Lone Mountain Temple. Each Temple has been beautifully built and is a great addition to any community lucky enough to have one in their midst. Voiced concerns in protest of the building of the Temple need only look at the Las Vegas Temple built on the east side of the valley. Property values increased and the increased traffic that was such a concern then were found to be a non-issue. Those who attend the Temple have always been respectful of the community surrounding it.

Comments	I am very much looking forward to having a second temple in the Las Vegas valley here on the west side. It will be much closer to us, making going to the temple a much easier and shorter occasion. With two little boys making it to the temple has not been something we've been able to get away and do as much as we would like to. With the constructing of a temple up the street from us it will bring much peace and joy in our home. Practicing my faith means a great deal to myself and my spouse.

Comments	Initially there were the same concerns with the Las Vegas Temple on the east side of the valley people came to love and admire the Temple in their neighborhood. Home prices didn't decline and the area is beautiful. This is a sacred quiet place and nothing will be disrupted and I know The Church of Jesus Christ of Latter Day Saints will do their very best to work with the surrounding area for this to be a great asset to the community.

Comments	<p>This will be a beautiful addition to this side of town! The buildings are always well maintained over the years and the gardens stunning. I do not believe the concerns of parking, traffic, and noise are valid in any way as clearly demonstrated by the other temple owned by The Church of Jesus Christ of Latter-day Saints located across town.</p>

Comments	I whole heartedly support the development of the project. Temples of the Church of Jesus Christ of Latter-day Saints dramatically enhance and beautify the area. They provide a calmness, an tranquility and peace to the area, and improve safety and quality of life for all neighbors. Those who oppose it should see the Temple on the East side of town, near Sun Rise Mountain. That temple has preserved the quality and safety of the homes around it, and this temple will provide the same benefits. I grew up to a temple in another state. It had the same positive and tranquil affect there as well. Opponents of other temples throughout the U.S. regularly become supporters. I STRONGLY SUPPORT THIS PROJECT because I know how much benefit it will provide to the area.

Comments	Places of worship belong in neighborhoods as much as schools do. The impact of this building will have much, much less of an impact than a school that is a zoo twice a day for 9 months of the year. This will bring value to the community's real estate as well as providing a beautiful place to enjoy. Thank you for considering my comments!

Comments	Please allow this project to move forward. The Church of Jesus Christ of Latter Day Saints builds beautiful temples and always maintains them perfectly. I have visited temples all over the world, and all of them have had immaculately cared for grounds, a quiet presence, and have only added to their surroundings. Just as Temple Beth Sholom on Hualapai and the other faith's buildings around the area add to the beauty and culture of Las Vegas and this part of the city, this temple will do the same.

Comments	<p>The Lone Mountain Nevada Temple will be an extension of the Spring Mountain Range. Within the nearby mountains I have the opportunity to escape and to elevate. The temple is a place of refuge set apart from the rest of the world where I draw closer to God. Just like the rocky range West of town, any summit offers a clearer view of the world around me, the temple offers us this and more.</p> <p>I understand that the proposed Lone Mountain Temple will be constructed upon a 20 acre site. These sacred grounds will permeate beyond the designated buildable area to bring peace and awe to the neighborhoods that surround it. Like many sacred structures throughout the world that I have visited, I have found myself reverently admiring architecture and design. The Lone Mountain Temple contains architectural elements that should evoke the same reverence and majesty that builds hope and communities.</p> <p>My home is within a half a mile of the proposed temple and I am eager to worship in a place where heaven touches the earth.</p>

Comments	<p>I support the project for several reasons. LDS temples are beautiful buildings with meticulously maintained landscaping. It will beautify the neighborhood, and is far preferable to a school being built in that location, where the school district owns the land on either side of the LDS property. Regardless, the land will one day be developed, and I think a beautiful temple would be a good option, when compared with other possibilities. Selfishly, as I live very close to the proposed location, it will likely boost property values in the area. Also, I think whether LDS or not, buildings that turn one's thoughts beyond themselves and to a higher ideal are beneficial to a community and neighborhood and should be welcomed.</p>

Comments	<p>This project will be a positive addition to the community.</p> <p>I have lived other places in the United States where a project like this was built. Those that lived near the project were apprehensive in the beginning but after completion they found their concerns were unfounded and they really appreciated the beauty and positive effect it had on their community.</p> <p>Thank you for allowing this project to go forward.</p>

Comments	Every time a temple is build from this church the property values increase and the neighborhood around the building is preserved and looks nice years later. There has never been a problem with lots of traffic around it and it is a quiet and peaceful additional to the neighborhood. I fully support the building of the temple.

Comments	I am a frequent visitor with my kids to the park and hiking the mountain. I will continue to visit the area. I would deeply prefer a temple rather than retail or more apartments and or condos which give more opportunity to negatively impact the community. Adding a beautiful building to the area that is will kept and clean will add so much to the area in a positive way.

Comments	<p>Constructing a beautiful LDS temple in the community represents much more than a place of worship; it is a beacon of peace, spiritual strength, and communal harmony. Not only does it enhance the beauty of the area with its serene and majestic architecture, but it also contributes significantly to the safety and wellbeing of the neighborhood. Temples are well-maintained and secure, which helps in creating a safer environment for everyone around. Moreover, the presence of a temple often leads to an increase in property values, as many people value the proximity to such a peaceful and sacred place. Overall, building an LDS temple is a step towards fostering a more connected, safe, and aesthetically pleasing community.</p>

Comments	Wholeheartedly support this project. LDS temples are beautiful buildings with beautiful grounds and attended by good, kind, respectful people. It's well know that such temples increase property values in the neighborhoods they are built in. Surrounding neighbors will only come to love & appreciate such a beautiful place of worship in their immediate vicinity.

Comments	I support the building of the Lone Mountian Temple. It will be a benefit for myself and my family, but also for the members of the Church of Jesus Christ of Latter Day Saints and the surrounding community. The temple offers a place of peace and joy to me. A place where I can go to feel safe and I always leave striving to be a better person. The temple grounds beautifully maintained and are open to all to enjoy and feel that same peace.

Comments	<p>I am looking forward to seeing The Lone Mountain Temple of The Church of Jesus Christ of Latter-Day Saints completed. It will be a positive, beautiful addition to Western Las Vegas, and additionally increase the property values in its surrounding neighborhoods. The Las Vegas Temple off of Bonanza has been a positive blessing to our community for decades. The grounds will be beautiful at The Lone Mountain Temple and it will be a quiet, peaceful area, and will be a positive addition to the area where it will be built. I wholeheartedly support its construction, and hope locals will realize the positive influence that will flow from having this temple in our area.</p>

Comments	<p>I am in favor of the new LDS temple being built in the Lone Mountain area. The sacredness and peace that it brings to all the who visit there is indescribable. All the temple sites that I have visited throughout my life are beautiful, peaceful, tranquil and very well maintained. I have also noticed usually an increase in the value of the surrounding properties once a temple site is announced. I look forward to seeing this project being built.</p>

Comments	I support this Temple to be built here in the area. It will bring more to the neighborhood than people will realize at this time. I understand peoples concerns, but feel if they go and visit another Temple they will see that it is a good thing. Traffic around other Temple is residential neighborhoods is really not that much more than normal. This Temple will be a blessing to all of Las Vegas.

--------------	-----------------------------

Comments	The temple will be a nice addition to the community. Our city is lacking overall in the number of places people can worship. The other temple in Las Vegas is very pretty and everyone can enjoy the outdoor space. I hope the temple will be able to move forward, as planned.

Comments	<p>I am in support of the Church of Jesus Christ of Latter Day Saints building their Temple next to the Lone Mountain area of the NW part of our Valley. They always do a great job making sure the project turns out beautiful and is an asset to the neighborhood. They also make sure they comply with all the concerns the neighbors would have</p>

Comments	<p>I am in full support of the Lone Mountain Temple project. The temple is a sacred and edifying place of worship which will bring beauty and tranquillity in abundance to the Lone Mountain area. Having a temple close to me will provide a place of solace and peace which is very important to me.</p> <p>Without reservation, I fully support this project and look forward to showing that support! Thank you for your consideration.</p>

Comments	<p>We are in favor of the Las Vegas Lone Mountain Temple being constructed at the proposed site. It will enhance the surrounding area in every way. The construction, landscaping, and ambience will raise property values and add to the beauty of the neighborhood. It is conducive to the peace and beauty of the surrounding area. This construction will enhance the lives of our family by making a temple accessible to us on our side of the valley. My brother and his family live only a couple of blocks from the proposed site, and they are thrilled about this project for all the reasons above and more. This construction will enable us to attend the temple with only a 7 minute drive rather than the current drive across the valley from Summerlin to Sunrise Mountain which can take more than 30-40 minutes, depending on traffic and construction. Please allow this project to move forward. Thank you! John and Stephanie Steffen</p>

Comments	Thanks for the chance to voice my support for this project. Full disclosure, I am a member of the Church of Jesus Christ of Latter Day Saints. I grew up close to the temple site and so I can appreciate that there are many wanting to keep the peaceful low traffic nature there. I have visited around 20 different temples around the world and in each case, it has made it's surrounding area better. Property values have gone up. The overall quality of the area goes up. Neighbors grow to love it's presence and serene nature. Esthetically, they are among the most beautiful buildings constructed. People not of our faith notice how peaceful the grounds are. I have a feeling that if approved, everyone will be happy once it's built. There also shouldn't be noticeable traffic. In this era when fewer religious sites are being built, this would be a win for everyone especially those living close by regardless of their religious affiliation. Thank you!

Comments	<p>I have never seen a temple that did not add beauty. The people living in these areas cannot expect to never have the city grow even in their area. To believe such is just not realistic.</p> <p>That said, make proposals that will move the project forward in a manner acceptable to the majority of all concerned parties.</p>

Comments

As a lifelong resident of Nevada and the Las Vegas area, I understand the value of having a beautiful temple in the area and how it improves the overall image and feeling in a community. These structures are well-maintained, generally low traffic (after initial opening stages), and conscientious of surrounding neighbors. In nearly every case, property values in developed areas around temples increase exponentially, benefiting the neighbors, community, and city.

I've seen many negative posts about this proposed temple and local residents' concerns about the potential impact on the area. I understand that they want their area to remain rural, but the reality is that many developers have already moved in and are installing housing tracts that will infringe on their desire to remain rural. If the plot of land purchased for the temple is ultimately denied for that use, the next proposed project will likely infuriate the neighboring residents as well. Ultimately, many would like to see it remain an undeveloped dirt lot. However, at the rate that this valley is growing, something will be built there, and it will probably end up being something far more contentious than a sacred house of the Lord.

Members of the Church of Jesus Christ of Latter-Day Saints make great neighbors. Their teachings and those they instill in their families include loving God, loving others, and serving their communities. Areas with temples often attract families who share those values, whether or not they share the same faith because they help create safer and more stable societies. The same cannot be said for other potential structures such as storage facilities, large scale apartment complexes (with dedicated section 8 accommodations), marijuana dispensaries, bars, or casinos.

People don't like change, and I get that. However, change is constant, and it is our attitude and behavior that determines whether it will be change for the better or worse. As a northwest valley resident, I believe that building this proposed temple will ultimately prove to be a positive change for our community and respectfully submit my comments in favor of the project.

Comments	<p>Any building intended as s place of worship of our Heavenly Father is a good thing, in my opinion, for any area.</p> <p>The Judeo-Christian mores upon which our country was founded are supported, honored, and enhanced by the existence of any building of this type - even if it is not specifically in line with one's own religious beliefs.</p> <p>Historically, and currently the Church of Jesus Christ of Latter-day Saints is known to build their temples with a sensitivity to the architecture and setting in which they are built, and the quiet dignity these structures bring to the areas in which they exist is a benefit to those areas and neighborhoods.</p> <p>I look forward to seeing this building and property built as planned.</p> <p>Thank you.</p>

Comments	<p>Of all the potential projects that could be built on this acreage, a temple would be a positive addition, especially compared with the potential of building a high school or middle school on that property. The acreage is large and the temple will be built in the middle of it, which will alleviate quite a few of the concerns people might have. The Church takes pride in ensuring the properties are well-kept and beautiful.</p>

Comments	<p>I wanted to show my support for the project. The temples of the Church of Jesus Christ of Latter-day Saints are beautiful, peaceful, sacred places. The proposed temple at Lone Mountain will bring a peaceful atmosphere for all who visit the grounds. It is wanted and needed by thousands on the west side of the valley!</p>

Comments	I support the Church of Jesus Christ of Latter-Day Saints building a temple in the Lone Mountain area. Due to the growth of the Las Vegas valley and the church membership, there is a great need to have a second temple in Las Vegas. This beautiful building will be an asset to this area as it we be built to the highest building standards and the building and grounds will be immaculately maintained. My family and I look forward to having this temple built as it is an important part of our worship.

Comments	<p>I support the construction of all religious worship centers. It could be a mosque, a cathedral, or synagogue.</p> <p>This building will be place of worship for thousands of members of the church of Jesus Christ of Latter Day Saints. The church of Jesus Christ of Latter Day Saints has a long and friendly relationship with southern Nevada, being among the original founders of many of the cities and towns in the region.</p> <p>The charity and service provided by the church and its members have benefited this city in more ways than can be quantified.</p> <p>The building itself will be an architectural wonder that will match and enrich the beautiful natural settings that surround it.</p> <p>If you want actual evidence of how it beautifies and lifts the community it is located, look no further than the temple built in the southeast valley on Bonanza Rd.</p>

Comments	The people on the east side of town was also opposed to having the Temple built in their neighborhood as well, until the Temple was built and they saw the benefits of The House of God in their neighborhood. As a member of The Church of Jesus Christ of Latter Day Saints, we welcome another beautiful Temple in the Lone Mountain area.

Comments	<p>I am so excited to be able to have this place of worship closer to my home. I love to attend our Temple to worship but the commute to the East side can add an extra 1.5 hours of total travel time.</p> <p>The LDS temples are not only beautiful but a sacred place to us. They are also always maintained with the highest regard and they always add value to neighborhoods.</p> <p>I hope we can all agree this will benefit our community.</p> <p>Only good things come from these houses of worship.</p>

Comments	<p>I fully support a Temple to be built by The Church of Jesus Christ of Latter Day Saints as proposed in this project. Being a descendant of the early pioneers that settled Southern Nevada. I believe a Temple built representing their faith only strengthens the community and viability of Las Vegas as a family based community. From a business and community perspective, LDS Temples have served to increase property values around them and serve as a standard of beauty and cleanliness that all communities should strive for and typically do when a Temple is built nearby. I have visited LDS Temples around the world and they serve as beacons of light in the poorest circumstances to the most advanced, prosperous western countries as we have seen in Philadelphia, Washington DC, Rome, Bern, London, San Diego, Los Angeles , and many more. Even burgeoning Asian countries and cities such as Bangkok, Tokyo, and Seoul for example have embraced the construction and operation of these Temples as they see how the families and communities around them are strengthened. There is neither any monetary, business, development, sustainability, nor related ESG arguments that can be coherently made to sensibly not move forward with this project.</p>

Comments	I fully support this project. A temple brings way more safety, beauty, and increases property values. My understanding is that the lot is already zoned commercially, so this is the better option. This is also a necessity for members of the Church of Jesus Christ of Latter-day Saints to freely and fully exercise their faith. This building will beautify the area, and it will not draw loud or rambunctious crowds. The Lone Mountain area will greatly benefit from this addition.

Comments	Please move forward with the planning and building of this temple. It will be a blessing to many and those that are in the surrounding areas will ultimately be pleased to have it in their neighborhood. The temple will be a reverent, peaceful place and those that attend the temple will the same.

Comments	<p>I am in favor of the new proposed temple they are planning on building in the Lone Mountain area. I've never seen a temple that didn't enhance the neighborhood and the surrounding area. It increases the value of the homes. The temples are stunning and the landscaping is beautiful. I currently have to drive 45-60 minutes from my home across town to worship in the temple in the north east. Having a temple in this area would make it much more accessible for me to worship and practice my faith.</p> <p>I understand that some may not like the idea of developing the area around their homes. Some people probably moved to the Lone Mountain area when there was nothing around. But I disagree with those who are protesting the building of much needed services such as churches, schools, grocery stores etc... These institutions are essential and basic to communities and should not be stopped because people don't want the empty desert next to them to be developed.</p>

Comments	The Church of Jesus Christ of Latter-day Saints has built hundreds of similar buildings throughout the world. The land has been lawfully purchased for this purpose. The building and the surrounding grounds will be well maintained and help to beautify the area, and the traffic flow will be carefully considered so as to give minimal inconvenience to the surrounding area and residents.

Comments

I support this project and all related applications. The Subject Property is not located within a Rural Neighborhood Preservation ("RNP") overlay district. While the Subject Property appears to be within an Excepted Area ("Excepted Area") of the Lone Mountain Interlocal Agreement ("LMIA"), the LMIA does not prevent this project from being approved for a variety of reasons.

First, the LMIA states that Excepted Area properties "must remain residential" however the Subject Property is not currently zoned residential. Instead, according to City's Zoning Interactive Map, it is currently zoned as Undeveloped, which pursuant to LVMC 19.06.050 is a "temporary classification to be used until property is ready for development for a more intense, permanent use." This Subject Property cannot "remain residential" when it is not currently zoned residential. The purpose of the LMIA is to prevent residentially zoned properties from being rezoned to something other than residential. If a property is not currently zoned residential then the LMIA does not affect it. The Subject Property is not currently zoned residential and therefore it is not affected by the LMIA.

Second, the LMIA states, "The Parties agreed that they shall not accept any General Plan Amendments (GPA) nor amended their respective comprehensive plans, rezone such properties or approve special or conditional use permits TO ALLOW INDUSTRIAL OR COMMERCIAL USES[.]" (Emphasis added). Accordingly, the LMIA only prohibits changes to GPA's, zoning, or use to industrial or commercial. Pursuant to LVMC 19.00.100(B)(2), commercial and industrial zoning districts include Professional Office (P-O), Office (O), Designed Commercial (C-D), Limited Commercial (C-1), General Commercial (C-2), Planned Business Park (C-PB), Commercial/Industrial (C-M) and Industrial (M). This project proposes to change the zoning to Civic (C-V) which is a special area zoning district under LVMC 19.00.100(B)(3) and not included in the commercial and industrial uses of LVMC 19.00.100(B)(2). As a result, approval of this project will not violate the LMIA because the proposed zoning/use is not for industrial or commercial uses.

Third, this project proposes a Church/House of Worship use, which pursuant to Table 2 of 19.12.010(B) is permitted as either a principal use or a special use under every single zoning category that exists, one of just a few uses that are given such wide leeway.

Fourth, pursuant to the federal Religious Land Use and Institutionalized Persons Act (42 USC 2000cc), government entities are restricted in imposing or implementing land use regulations that impose a substantial burden on the religious exercise of a person or religious institution. Interpreting the LMIA to restrict religious activity would be a violation of this federal law.

It is important to note that another faith group was allowed to construct a Church/House of Worship within an Excepted Area of the LMIA within the

last eight (8) years. Construction was completed in 2016 of the Saint Anthony of Padua Roman Catholic Church located at 6350 North Fort Apache, near Centennial Parkway. Even if the Subject Property was included in an RNP, that alone does not prevent construction of a Church/House of Worship. There are already other Houses of Worship in the nearby community located within an RNP overlay, including churches located at 9830 Elkhorn Road and 10070 West Azure Drive. There is also another church in the nearby community that is located on a C-V zoning classification, including a church located at 8801 West Alexander Road. Because of these other places of worship within the RNP and Excepted Areas of the LMIA, this project is compatible with the City's General Plan, adjacent development, and development in the area.

I live within the nearby RNP and approve and support this project. From my property, I can already see the 215 Highway lights; the Centennial High School lights; the Strip lights; the quarry lights near the 215 Highway and Lone Mountain Road; a variety of lights at schools, businesses, and parks in the area; and streetlights on Alexander Road, Lone Mountain Road, and Anne Road. I hope to be able to see the lights of the temple too because from the renderings of the project, it appears that the temple will be built to the same standards and quality that the temple on the other side of the Valley is, which is also built next to a neighborhood with large lots. Thus, the building elevations, design characteristics, and other architectural and aesthetic features will not be unsightly, undesirable, or obnoxious in appearance. The steeple is narrow and will not obscure full views of the mountains, sky, strip, or other areas. This project will beautify the area and increase the property values of us that live nearby.

The project will not have an adverse effect on the community or nearby properties. In fact, development will be beneficial beyond just the beauty and increased property values. Historical events have demonstrated how important off-site improvements are for drainage control in the Valley, especially in the northwest part of town. Additionally, sidewalks on public streets provide safer pathways for children to walk to school. During storms, children are forced to walk in the middle of the road when sidewalks are absent.

Comments	<p>I live in the RNP and I approve of the church building the temple. Unfortunately Las Vegas is not going to stop growing. The building that is going on in this area is not "Rural" anymore. We are past the point of keeping the "rural" preserved. I believe it is now crucial to support buildings that will keep the area beautiful and preserved as best it can be. The church of Jesus Christ of Latter Day Saints has an amazing record of designing and maintaining a beautiful property. We are never guaranteed who can/will purchase property. At least we know what we are getting and it will be a great asset to the community.</p>

Comments	<p>This temple will be a blessing to the community and will enhance the appeal for the community and increase the property values.</p> <p>Because of the size of the building many of the uniformed will assume a heavy traffic issue but in reality the traffic will be spread out throughout the day and will not be much different from most residential traffic patterns.</p>

Comments	Please consider the benefits of building a house of the Lord on the property as it can only enhance the area, and allow us to worship how, where, or what we may. This freedom of worship is what our U.S. Constitution is all about. The minute we as a people don't allow others that freedom of worship, we fail as a society. This sacred temple will be used to endow members of the Church of Jesus Christ of Latter-day Saints to receive spiritual gifts from our Heavenly Father, and allow families to be sealed for eternity. Those who oppose this temple being built are welcomed to attend an open house before the temple is dedicated, so they can see and learn about the purpose of a House of the Lord. I pray that our loving, kind Father in Heaven will soften their hearts. God loves everyone and I pray that they may feel of His great love through this temple.

Comments	<p>I would like to express my support for the new Temple of the Church of Jesus Christ of Latter Day Saints.</p> <p>The temple site on Sunrise Mountain caused the same debate, with passionate feelings on both sides of the issue. Real estate prices climbed and all the traffic issues homeowners worried about, were taken care of. This second temple will be a beautiful, quiet, landscaped area of tranquility and once again homeowners in the area will see an increase in their property value.</p> <p>The church has always been careful of light pollution as well, so I am looking forward to the finished site.</p>

Comments	<p>We are excited and anxious to have a temple for worship close by. Having had nursing babies in the past and especially because I will have another one in the next year every minute counts in order to make worship possible. I understand some concerns about traffic and building height, but the beauty and peace of the temple grounds is such a blessing and I know that the temple building crew and future attendees will make every effort to respect the surrounding residents' space and homes. Please let us build a temple- it is such a joy to be able to attend and feel the love of God both inside and outside this edifice.</p>

Comments	<p>The temple will be beautiful. It will increase the land and home values all around it. The temple will be a reverent peaceful area for all to visit and enjoy. The people using this temple will be considerate and kind to everyone. The temple usually closes by 8 pm. There will be no loud music or noise coming from the temple. In fact those who enter the temple are asked to whisper to keep a reverent spirit. Traffic will be light, coming and going. If you want to see the other temple in town please go to the far east end of Bonanza. Speak to the neighbors. They love the beautiful well kept grounds and the beautiful building. This temple will be a wonderful asset to the community. Proving that the city of Las Vegas isn't just casinos!</p>

Comments	As well-traveled members (ranked Major) of the Air Force, we have seen many LDS temples all over the world and in every case, without exception, these temples are not only beautiful and an aesthetic addition to the neighborhood, but they raise property values around them. Once finished, the attendants are law-abiding, peaceable, and quiet and the church that owns these buildings prides itself on keeping the grounds immaculate. No expense is spared. It will truly elevate the neighborhood.

Comments	<p>Almost without exception, every neighborhood in which the LDS church has constructed a temple the property values have increased and they have elevated the beauty of the neighborhood. I have known the LDS church to be extremely attentive to the concerns of the surrounding neighborhoods in which they are built throughout the world! I have heard and read comments from those who say that this structure will stick out and be an eyesore, that it doesn't fit into the landscape, that traffic will increase significantly . Please show me an LDS temple that doesn't add Beauty to the area. Recently, the Durango Station Casino with its huge electronic billboards and flashing displays and lights was constructed in my neighborhood. Certainly, if such a structure in the middle of a residential area gets approval, why then shouldn't an LDS temple which I believe will have a significantly less light footprint be built in a similar neighborhood? The increase in traffic in that neighborhood, I propose will be a fraction of what we have experienced because of the Durango Casino!</p>

Comments	Temples are a place of beauty and peace. A place where we can feel the Lord's spirit. All are welcome to the grounds of the temple & in the waiting room to partake in such a beautiful and peaceful place. A temple is the house of the Lord, a holy place set apart from the rest of the world. With everything that is going on in our world, we would be so blessed to have this sacred, beautiful place in our neighborhood.

Comments	Allowing the Lone Mountain temple to be built in Northwest Las Vegas will add value and strengthen the local community. LDS temples have spiritual significance and promote principles of faith, God, and country. Temples are sacred places of peace and worship. Having a temple closer to my home will bless the lives of my family and local church members.

Comments	<p>Having an LDS temple would be a beautiful addition to the Lone Mountain neighborhood. The grounds would always be well kept and lovely. Those attending the temple would be quiet and courteous as they are coming to worship which requires their reverence.</p> <p>Eventually all land in our area will be developed, knowing such it makes sense to allow a well established religious organization with a proven track record for being good neighbors to be the choice.</p>

Comments	<p>The temple will be beautiful. It will increase the land and home values all around it. The temple will be a reverent peaceful area for all to visit and enjoy. The people using this temple will be considerate and kind to everyone. The temple usually closes by 8 pm. There will be no loud music or noise coming from the temple. In fact those who enter the temple are asked to whisper to keep a reverent spirit. Traffic will be light, coming and going. If you want to see the other temple in town please go to the far east end of Bonanza. Speak to the neighbors. They love the beautiful well kept grounds and the beautiful building. This temple will be a wonderful asset to the community. Proving that the city of Las Vegas isn't just casinos!</p>

Comments	I am in full support of the LDS Temple being built at lone Mountain. This is going to be a beautiful structure, and those who adhere strongly to the laws of the land will be in attendance. I don't see what a downside would be.

Comments	As a 46 year old Las Vegas native, I support this project entirely. Zoning changes are made constantly across the valley for the betterment of the residents, in places that initially are opposed by residents. This beautiful building will bring peace to the neighborhood as well as increase the residents property values.

Comments	<p>I have lived here over 44 years and Churches bring a stability, peacefulness and calmness to our community in Las Vegas. The buildings are beautiful and well kept landscape will improve the surrounding area. Our community can only benefit from this project. The Church community serves all those in the area. We all can look forward to our Lone Mt Temple in Las Vegas.</p>

Comments	I'm in support if this building. I think it will add value to the neighborhood and be a beautiful addition to the city. We need more churches all over the world, and a peaceful place for people to escape to. While recently traveling through Europe I was surprised how many beautiful churches resided amongst villages and communities. The area could use something other than housing and strip malls.

Comments	Having the proposed temple built near our home would be very beneficial for our family. In fact, knowing that there were plans moving forward to build the temple was one contributing factor to us choosing to move into this area. The Church of Jesus Christ of Latter-Day Saints has very high standards for the design and construction of its temples and is meticulous in their upkeep. Temples beautify the areas in which they are built.

Comments	We are so excited to have a Temple in closer proximity to our home. Temples are very special and are a sacred edifice to members of the Church of Jesus Christ of Latter-day Saints. Having a Temple in the western part of the valley will allow many more individuals the ability to receive what we believe are the blessings of the Temple. This Temple will also add to the beauty of the surrounding area. I look forward to the day when this Temple can be built and wholeheartedly support the project.

Comments	<p>I think this project of the building the temple of the Church of Jesus Christ of Latter Day Saints should be supported for many reasons. First, I believe in the mission of the Church of Jesus Christ of Latter Day Saints, and the members of the church in this area believe the temple is a fundamental part of their religion. Second, this temple will attract more members of the church who will bring their strong moral character, and young families, which are key to a healthy community. Third, this temple, like the others the Church of Jesus Christ has built, will be esthetically beautiful, adding to the community. And lastly, I believe where a temple of the Lord is, He will be there also.</p>
-----------------	--

Please support and consider the construction of the temple of the Church of Jesus Christ of Latter Day Saints.

Comments	As a practicing member of The Church of Jesus Christ of Latter-day Saints I attend the existing Las Vegas temple almost every week. I live on the west side of the valley very near Summerlin so the drive to and from the temple takes quite a while. Having the new Lone Mountain Temple so much closer to my house will make it easier for me to attend and be a benefit to the west side of the valley and the community that surrounds it just as the existing temple has been to the east side of the valley and its surrounding neighborhood.

Comments	This project only brings benefits from my understanding. All the areas in other states, ours included, the property value goes up. People visit more and it have the potential to help more houses to be made in the area which the growth of Las Vegas should be our priority. It have another place of worship that looks like a castle would only bring more beauty to the already astonishingly beautiful mountains.

Comments	<p>I live just down the road from the proposed project at Durango and Loan Mountain. I fully support the project and look forward to this beautiful building being completed.</p> <p>I know from experience that other LDS temples have increased the overall value of neighborhoods. Also, members who use the temple are normally very aware of nearby homes and businesses and go out of their way to not disrupt homes in the area.</p> <p>Businesses in the area will benefit from increased patronage. This will be a good thing for the area.</p>

Comments	<p>I support this project whole heartedly. I know the Church will be willing to listen and compromise what they can, to accommodate the concerns of the area residents. The temples are beautiful and would enhance any area where they are located. The Church members are respectful of temple properties.</p> <p>I hope the area residents will really listen to the truthful discussions of the property use, and understand what could be a beautiful asset to their area.</p> <p>I truly believe there is a meeting of minds, on both sides, if each side will listen with an open mind and heart.</p> <p>The temple on the East side of Las Vegas is great example. I would hope the opposers would talk to some of those neighbors. Thank you, Joyce Bohnet</p>

Comments	<p>The presence of religious institutions, including a large one such as an LDS temple, can contribute significantly to the betterment of the Las Vegas valley for several reasons. Such institutions provide a sense of community and belonging, fostering social cohesion and support networks among residents. They offer moral and spiritual guidance, promoting values such as compassion, charity, and service, which can help address social issues and improve the overall wellbeing of individuals and families.</p> <p>Religious institutions often engage in charitable activities, including feeding the hungry, providing shelter to the homeless, and offering educational programs that benefit the broader community. They can also serve as centers for education, cultural exchange, and interfaith dialogue, promoting understanding and harmony among diverse groups within the community.</p> <p>Moreover, the construction of a large religious building like an LDS temple can contribute to the economic development of the region.</p>

Comments	I support this project. It will be an asset to the neighborhood. The Church of Jesus Christ of Latter Day Saints always does a great job making sure they address the neighbors concerns before they build the Temples. It will be a beautiful building with lush landscaping and conform to neighbors concerns

Comments	<p>If you go to the other temple we have here in Vegas the grounds and temple itself is really peaceful. The people who go there are quite and respectful, dressed nicely because we respect that the temple is a house of God.</p> <p>It's not like a meeting house where a bunch of cars will be entering and leaving all at the same time- they'll trickle in little by little and leave little by little. Id be more concerned with the 2 near by parks in the neighborhood rather than the temple. I'm all for this and I hope it goes through. The last thing we need more of is gas stations, bars and slot machines...let's for once add something that will add beauty and something that will encourage people to live better lives.</p>

Comments	I wholeheartedly support the building of a temple in Lone Mountain. It will be a beautiful place of worship and refuge for members and non-members alike. While I acknowledge some concerns by neighbors, demanding that your neighborhood never change is unrealistic, especially in the Valley with so much growth. The LDS temple and the church will be good stewards and kind neighbors.

Comments	These homeowners that are complaining need to understand that this beautiful Temple will bring the value of their Homes and property way up in Value. It will be very well taken care of and beautiful for this side of town. With all due respect the Mormon's are a beautiful bunch of people and I will be so proud to see this side of town with a Beautiful Temple!!!

Comments

Dear Planning Commission,

I wholeheartedly support the building of the temple for the Church of Jesus Christ of Latter-day Saints as it has been proposed. I have lived in this area for more than 18 years, and I understand concerns of residents in this area, however, I think there has definitely been an overreaction the opposition to this project. I will address the issues that have been brought up:

1. "Doesn't belong in the RNP". To me, homes, churches and schools are the perfect structures that belong in the RNP. Opponents want this building moved to commercial areas, but houses of worship belong aside residences just as much as horse property, parks, and schools--that are part of our everyday lives.

2. "It's too big/tall for zoning". This property has been on the record as a possible site for a school for many years. A school would also be a huge building. We all know that huge homes could be built next to us that completely block our views. Our views are not guaranteed. At least this temple will be surrounded by Church land, so nobody will be directly next to it. It is also important to note that the land directly behind the temple site has not been developed. Anyone building there would be able to build in such a way to preserve views from many angles.

3. "Lighting disrupts the RNP darkness" - This site is close to Alexander, where we have an entire street lined with streetlights. Just across Alexander, we have higher density housing with lots of lights too. I have to admit that I enjoyed the darkness around my house when I first moved to this area, but as empty lots have been developed, my ability to see the stars has disappeared. This is just a result of the development that will continue to occur, and the trend for homes to have multiple ambient outdoor lights. I think the Church will be reasonable about the lighting, just as it has been in other rural areas. Opponents to the temple lights cannot guarantee that empty lots in the RNP won't be developed with multi-story, multi-million dollar homes that have dozens of lights installed. I also don't hear complaints every year during Christmas, when homes all throughout the RNP don bright lights that extend from the rooftops to the ground.

4. "A 200-ft building is too tall for this area". The temple cannot be compared to a 200-ft building because it is only the steeple that reaches 200 feet. This is drastically different than a huge, rectangular commercial building that would extend 200 feet. It would be hard to stand in the precise point where this steeple blocks views.

5. "It will bring too much traffic". I live near the Catholic Church on the corner of Centennial Parkway and Fort Apache. There are times that the streets surrounding the church are lined with cars because the church parking lot is full. Also, sometimes I have to wait more than 5 minutes to be able to turn out onto Centennial Parkway because of the constant stream of cars after a worship service ends. It is over quickly and orderly, and I would

love to be surrounded by such houses of worship. It should be noted that although several hundred people might be in the temple at one time, the services are staggered so that everyone doesn't come or leave at once. The only time that traffic will even be noticeable is during the open house, when the public will be allowed to walk through the temple.

The location of this temple is ideal for the membership of the Church that lives in this area. Freeway access is wonderful for all the members that live along the 215 and struggle to get to the temple on Sunrise Mountain because of distance and traffic.

I am saddened that several very outspoken residents of the RNP are opposed to the temple. I truly believe that they will not be as inconvenienced as they believe. I hope that, in time, they will see that the temple will beautify the area and be a peaceful addition to the Lone Mountain area.

Thank you,
Janet Chamberlain

Comments	This a great value to the members of The Church of Jesus Christ of Latter Day Saints. I have clients that live across from the site who said the value of their homes have increased and they look forward to the addition of the beautifully landscaped area they can walk around even though they are not members of the church.

Comments	The Lone Mountain Temple will be a great addition to the west side of the valley! It is beautiful and brings the property value around the temple up. The temple is used for service and is an amazing part of the community. I have been in Las Vegas my entire life. I am so glad to finally have a temple being built on my side of the city.

Comments	When I heard the news that a new temple was planned to be built in the Lone Mountain area I was THRILLED. My husband and I are born and raised Las Vegans and have raised our own children here. We currently live in Summerlin North and the drive all the way across town and back to visit the existing temple is well over an hour drive- making it difficult to visit regularly. On top of that- since Covid- the temple is run on an appointment only basis which means the drive becomes very stressful when traffic is heavy, worrying if we will make our appointment. We have hoped for a new temple on our side of town for years, and this location is ideal. The beauty of and peaceful grounds of temples are unique and we look forward to the day this new temple is open and available to attend.

Comments	<p>I am in support of the proposed LDS Temple being built.</p> <p>Temples like the one proposed are an asset to the community around it. It will add beauty to the neighborhood with both the architecture and landscaping. Property values historically go up in the surrounding area. Concerns such as increased traffic or noise, tend to be unfounded. Any study of the impact of this proposed Temple, should include feedback from the neighbors of the existing LDS Temple built in the early 90's on the east side of Las Vegas, or the LDS Temple built in 2003 in Redlands, CA. They are similar neighborhoods.</p> <p>Thank you for your consideration!</p>

Comments	<p>I fully support the temple being built near Lone Mountain. The only temple in Las Vegas is currently east of Hollywood. For residents on the west side of Las Vegas it can take more than 45 minutes one way to get there. If the temple is built at this proposed Lone Mountain location, I and my children will be able to walk. I, like many others, will be able to worship more often.</p> <p>The temple is also a magnificent structure that I believe will enhance the beauty of the area.</p>

Comments	<p>I fully support the building of the Lone Mountain Temple. As a member of the Church of Jesus Christ of Latter Day Saints this building is the most sacred place on earth. It literally is the House of the Lord. It is where I go to find peace and refuge from the world. I live just blocks from the building site and I know it will be a peaceful haven that will only enhance the neighborhood. The many members of the church living on this side of the valley need this temple! Having a temple on the West side will be such a blessing for many adults and youth in our church who now make the trek across the valley to worship.</p> <p>To see this temple built and to be able to worship there would be one of the great blessings of my life. Please help make this a reality!</p>

Comments	The LDS temples are beautiful and peaceful. Their patrons are generally kindly, gentle folk. I've lived near several. All property values went up dramatically near the temples I lived near. It's a good thing!

Comments	<p>This temple is an important part of our church and community culture. Historically, temples have elevated the surrounding area, adding beauty and giving business opportunities to nearby restaurants and stores as patrons visit. They are quiet, well maintained spaces that improve the value of homes in the area. The height, potential aesthetic issues, and lighting of the building are far less than other buildings (especially casinos and some apartments) throughout Las Vegas, even in more residential areas. Additionally, temples built by The Church of Jesus Christ of Latter-Day Saints are generally designed in a way that blends in with and honors the existing landscape. For a great example of a temple's benefits to the community, visit the current Las Vegas temple that has been operating since 1989 at Sunrise Mountain.</p>

Comments	<p>I support the building of this project. Property values typically rise in areas where LDS temples are built, so it benefits even those that are not members of the LDS church. LDS temples are always well taken care of with well groomed, beautiful landscaping. The people that attend the temple are peaceable and come and go without causing disturbances to the surrounding areas. As temples are open all day most days, there's not even a "rush hour" time that could cause traffic issues like there is with schools. Honestly, I don't see any downsides to building this temple.</p>

Comments	<p>I live about a quarter mile from the planned temple site. I am a member of the Church of Jesus Christ of Latter-day Saints. I do not believe the temple nor the meetinghouse will interrupt the area that we live in. I believe it will be a welcome addition to the area. It will allow my family to see a beautiful and welcome building that we live close to our home. While others may not understand the significance of the building, having the temple so close will be a constant reminder to me and my family to show love and compassion for others. It will allow my family to save time traveling across town to the other temple site. If the temple is not constructed, it seems inevitable that the land will be used to build homes. The Las Vegas Valley continues to grow. Without breaking up the land into something besides residential area, the northwest will become a suburban mess, with monotonous homes. The temple is a welcome addition and complement to the existing area and mountain.</p>

Comments	This is outside of the County RNP. There will be very little to no traffic there on Sundays or Mondays, when it's typically not open. It's much smaller than is being portrayed in the petition against - the main building itself appears to be around 76', with the rest of the height just the narrower steeple portion, so it's not like a full width full height casino hotel that will block all the views. This will be a beautiful building and grounds that will raise property values in the area.

Comments	The church of Jesus Christ of Latter-day Saints always has the highest level of quality in build and beautification standard. The temples are also insanely quiet and will not increase noise in the area. Overall, property values typically go up surrounding the LDS temples. I support this build completely.

Comments	This is exactly the kind of project we need in the Northwest. It will be a monument to the community. If this is not built on that site, I am afraid we are going to see more high density housing or more multi-family development there,. We already have way too much of that in this part of the valley!

Comments	Very much looking forward to this temple, which will beautify the area for all residents. As 5th generation residents of Clark County, Nevada, this temple in our part of town is the culmination of many long-time hopes and dreams for my wife and I, and for other members of our family. We walk from our home to and around Lone Mountain frequently and appreciate the beauty this will add to the area for everyone. We are also grateful to live in a country which places freedom of exercise of religion as the first freedom listed in our Bill of Rights, so our rights to worship are protected, and so our Church's rights to construct sacred spaces on land it has purchased with the tithes paid by its faithful members, is also protected. Thank you for your consideration.

Comments	<p>My wife and I are overjoyed that there is going to be a new temple right next to our home. Just being able to drive past it everyday in its self. My wife and I tried to attend the temple every month in the past but switched it to every other month because gas was too expensive and inflation has mad it tougher. Now that it's closer we won't be as tight in the budget in order to visit the house of the Lord. We are excited to have the Lord as our neighbor. The calm, reverent and peaceful nature of the temple will be a true blessing for all not just members of the church. The temple is a reverent place as it is the holiest and most sacred place we can be. Please allow the temple to be built in lone mountain this place has always been a special place and has been for a reason or a temple wouldn't be being built there. Thank you for your time and consideration. May God bless you and guide you in your decision.</p>

Comments	I support the change of zoning and building of a temple in this area. I live walking distance to the proposed site and love living in this area. I believe a temple will increase the property value of all the homes around and will not cause a major disruption in the area. I only believe that it will enhance the surrounding area.

Comments	<p>I was a Henderson, NV resident prior to moving to Utah, so Vegas has a special place in my heart. Temples of the Church of Jesus Christ of Latter Day Saints, in my opinion, are a great addition to any neighborhood. They are always well-kept, and their patrons are quiet and respectful of the area. I can't think of any negative repercussions to this addition to the community other than a slight increase of traffic around it. The streets and parking always seem to be very well thought out and planned to not have a negative impact on community members.</p> <p>All that being said, I believe the world (and this community specifically) would benefit from a few more churches where people are taught kindness and tolerance, and less of the opposite.</p> <p>Thanks for your consideration.</p>

Comments	<p>This structure will promote an family friendly neighborhood, attracting individuals and families who value being near a religious structre, and provide a significant increase in property value in the area. The buildings and landscaping produced by The Church of Jesus Christ of Latter-day Saints are very beautiful. I have lived less than a block away from one before and I enjoyed being able to see it out my window.</p>

Comments	I support the construction and operation of the proposed Lone Mountain Temple and adjoining chapel for the Church of Jesus Christ of Latter Day Saints on this site. As a civic facility and very moderate footprint on this 20-acre parcel, this use is far less intrusive than the many other civic uses, such as a high school, that could be appropriately located on this parcel. Churches and Religious facilities are best located in neighborhoods. Based upon the history of other temple sites, these grounds will be beautifully landscaped and well maintained for decades to come.

Comments	It's been proven that temples of this type have increased property values in their areas. I join thousands of Latter Day Saints in the NorthWest region of Las Vegas who support the project of the Lone Mountain temple and thank all those in advance who will approve all applications. We see this as a huge blessing to all who will attend the temple and ultimately a blessing to those who live in the neighborhood around the project site.

Comments	Temples, churches and buildings, that invite people to worship in, make our surroundings more beautiful and create a peaceful atmosphere. It will add a sense of unity as we accept and love the people around us. Give them the freedom to worship how/who/what they believe in as it is according to our laws.

Phone	(702) 306-2806
Email	marc.d.leavitt@gmail.com
Comments	I am in support of this project because it supports religious freedom and actually will likely increase the property values in the surrounding areas too. Temples like this have a positive impact in the neighborhoods nearby. These temples bring a peaceful and serene environment to those communities they are built in.

Comments	<p>I have worked at the existing temple on Temple View and Bonanza and the patronage has outgrown the current structure. For those working there to provide for the current patronage, it has become very strenuous work. With the city growing so far west, there is a big need for a temple in that area, too. It would help ease the load placed on our 30+ year- old temple, and allow for people in the northwest part of town to not have to commute across town.</p>

Comments	I am extremely excited to have a new location to worship. LDS temples have historically been a beautiful and quiet place to live near. They also drive home values up in the area. Many LDS members and non-members will benefit from this temple being constructed.

Comments	<p>This temple is a significant portion of our worship. Traffic will not be an issue like a Mega Church would. Members come and go 1 or 2 at a time throughout the day, and not in huge groups at once. We practice reverence from the time we pull unto the parking lot.</p> <p>Your property values will increase and the neighborhood will become better.</p>

Comments	<p>I strongly support the building of the LDS Lone Mountain Temple. I am a member of the church. The temple is a sacred house of worship. I would think that in today's increasing tolerant society, bigotry (including religious bigotry) is a thing of the past. Unfortunately, I do not see the opposition to the proposed temple as anything but bigotry.</p>
-----------------	---

The purported concerns, I have heard on the news, are two-fold.

First, that the temple will block views of Lone Mountain. But the truth is Las Vegas is a rapidly growing city. New construction blocks views all the time. I live off Iron Mountain Road just east of Mt. Charleston. For a number of years I had a beautiful view of the mountain. I don't anymore due to new construction. The fact that my view was being taken away did not stand in the way of the new construction.

The second purported concern is traffic. This concern does not seem sincere. Again, in Las Vegas' rapidly growing city, traffic has also grown- all over town, including in residential areas. But increased traffic does not stop new construction from happening. If it did, Las Vegas would be a much smaller city. I have been to a number of temples all over the United States, and in none of those areas where there are LDS temples does traffic become problematic.

People who know The Church of Jesus Christ of Latter-day Saints know we are good neighbors that do a ton for the city, for friends and fellow neighbors. Having a temple nearby is only a good thing. It will only bring good people to the Lone Mountain area and will increase property values because people will want to live there even more than they already do. Thank you.

Comments	A temple is a place for deeply religious worship and service. I believe the northwest valley location will provide convenience for west side residents who attend and also have a positive impact on valley-wide pollution by reducing the number of miles many temple-goers will need to drive.

Comments	LDS Temples have a history of being the best neighbor. They have a tract record of maintaining immaculate landscape, peaceful patrons, and fostering good will among members of the city. When the temple in the East side of town was built, the Pastor of the Evergreen Baptist Church spoke in favor of approving the temple project due to the help the LDS church rendered in helping rebuild his church building after a fire burnt it down.

Comments	<p>I have seen many of these buildings in various locations throughout the United States. They have many of their temples in residential neighborhoods and they add to the beauty of the neighborhoods and add value to the surrounding homes.</p> <p>I strongly support the construction of this building.</p>

Meeting Date	Tuesday, April 9, 2024
Project Number	24-0072
Position	I SUPPORT the project and all related applications.
Name	Zohner Gayle
Residential or Business Address	745 Spanish Dr Las vegas, NV 89110
Phone	(702) 480-7801
Email	edragayle3@gmail.com
Comments	I think it is a great contribution to our city. Also property values always go up in the area around the temple. They do not cause excessive traffic since people go at different times not all at once. The buildings and grounds are always beautiful and well groomed. Anyone can go on the grounds and enjoy the peace and beauty there.

Comments	I am in favor of the Temple at Lone Mountain to be built. The Temples are such beautiful buildings with quiet traffic upon the properties. It will increase property values. There are parks in the areas as well with lights continuously on.

Comments	I don't understand why anyone out of anything but hate would want a temple from the church of Jesus Christ of Latter Day Saints in their community. Increased property values, maintained neighborhoods, beautiful architecture, etc. I live in a community with Jewish synagogue and I love nothing more than watching these men women and children worship their God. This movement to prevent this is nothing short of religious discrimination.

Comments	<p>I live in the area near the proposed build site. I think a temple in the area would bring beauty and peace to the area. The valley is growing immensely and the temple is needed on the West side of town.</p> <p>Traffic will not be any worse then the hoodlums doing donuts and racing up and down the roads in this area have already made it.</p> <p>The temple on the East side of town has become part of the neighborhood and creates a strong community. A house of worship should not be denied in this area.</p>

Comments	I fully support this wonderful project. LDS temples are beautiful additions to cities. Additionally, they hold strong significance to the LDS residents, of whom there are many in Las Vegas. They are designed for quiet and respectful worship, and so they do not attract large, noisy crowds or patrons who behave poorly. I would be happy to have one personally in my neighborhood, and think that the location and design for this one are beautiful as well as being considerate of the neighborhood and its residents.

Comments	<p>I support the building of this temple near Lone Mountain. I live about 1.5 mi. from this location and feel that it would be a positive influence in the neighborhood. While I am aware that it is within the Rural Preservation District. schools and religious buildings are allowed in the district. If you want confirmation of the positive effect having a temple nearby has on the neighborhood, just ask the residents around the temple near Frenchman's mountain what they think about it. I believe that their property values have gone up & i feel it has brought a good spirit to the area. I hope that this project will be able to move forward without further delay.</p>

Comments	I support the Church of Jesus Christ's Lone Mountain Temple project. I know it will not only add value to the members of the church in Las Vegas and surrounding areas, but it will be a beautiful and complimentary addition to the alone Mountain landscape. I know the church will go to great measures to ensure it compliments the landscape and historically temple improve property and resale values of neighboring communities.

Comments	This beautiful edifice will enhance and beautify the city. Temples are impeccably maintained and designed. These houses of worship enhance the lives of those who use them and gaze upon them, making them better citizens. The location on the west side will reduce traffic to the east existing temple and provide a great benefit to many Las Vegans on the west side.

Comments	In a town where the strip is a mass of lights and where people want to build so that they have a view of that strip, it's kind of hard accept that someone is bothered by the lights. I believe that it was also mentioned about traffic but there are several large parks nearby as well as the trails to Lone Mountain itself. It seems that every temple that The Church of Jesus Christ of Latter Day Saints tries to build is protested by someone. Seems like religious discrimination to me.

Comments	I fully support this project. I am an LDS church member living near the proposed temple site. As is the case with most neighborhoods where temples are, this will bring peace and goodness to the area, compared to other projects that may end up there.

Comments	This building will help cement this part of the valley as more than just subdivisions, it will provide a focal point to the area. The quality of the landscaping and the beauty of the building should elevate property values. Lastly, it will be a focal point for Latter Day Saint worship in this part of the valley, serving the religious needs of the large LDS population.

Comments	What a wonderful opportunity to have another Church of Jesus Christ of Latter Day Saints temple in Las Vegas. In every city or country , wherever the Church of Jesus Christ builds a temple, they are immaculately maintained both inside and out. The very best of materials are used in each temple. To see pictures of various rooms of worship, go online and research the LDS Manti temple, the LDS Red cliffs temple, and the LDS Saint George temple (which have been recently opened to the public before they are then dedicated to the Lord) see how beautiful these temples are to members around the world. Temples are sacred and are places of peace, joy, service, and love to our families and the Savior, Jesus Christ. Thank you for the opportunity to testify of how important this new temple will be to the city of Las Vegas and surrounding cities and counties.

Comments	We are excited to be able to worship at this religious temple. Having this temple in this area will beautify all of the surrounding area and bring with it a spirit of respect and peace. Having a temple at this location will allow our family to reverently worship much closer to our home. The commute will be 12 minutes as opposed to the 40 minutes that we currently take to the temple in east Las Vegas. We encourage you to consider that having a LDS temple in this location will be an overall benefit to the community.

Comments	I am currently a Las Vegas Temple worker. A temple is hollowed ground where upstanding members of the Church of Jesus Christ of Latter Day Saints quietly come to worship during dawn to dusk. It is a beautiful building that will only bless the lives of all nearby. We are kind neighbors and we promise that this temple will bring nothing but good things to the Lone Mountain area.

Comments	I'd much rather see the beauty of a worship place and religious freedom institution. Any structure that goes on that land will more than likely be higher than the temple any way. A temple would add more positivity to our community and society. The temple grounds are always well kept, beautiful, and peaceful.

Comments

We understand that there are concerns about the potential for increased traffic, light pollution and taking away from the rural atmosphere of the Lone Mountain area. I would like to respond briefly to each of these concerns. Due to the use of the building, it will not result in large numbers of vehicles arriving and leaving at the same time. Members of the church come and go throughout the day, a few at the time. It will not be like traffic for a sporting event or a large congregation. As for the lighting, I would like to bring up an example of a similar concern that was expressed about the Oakland California Temple. During the energy crisis of the late 1970's, a decision was made to turn off the lights in order to conserve energy. Officials at the Oakland airport requested that the lights be turned back on since the pilots had become accustomed to using them for navigational purposes. In addition, the lights are used for highlighting the architecture of the building and will not be like the huge lighting on poles at a sporting complex. As far as the design and appearance of the building, an artist's conception is available. Architects take time to review the surrounding neighborhood and area in order to fit the building to the local area and culture. I believe that this building will be a great addition to the surrounding area and believe that those who might have concerns will be pleasantly surprised to see how well it fits in.

Lastly, my wife and I appreciate the fact that everyone has a voice and a desire to protect the rural environment of our community. I, myself, grew up in a rural area and would certainly want to have a voice if there was a change coming about that might have impact on our quality of life. We get that. Perhaps it might help to obtain additional perspective if the opponents would take time to drive by a similar temple which is located across town on Temple View Drive. We want to be good neighbors and hope this helps to put things into perspective.

Comments	<p>This temple location will be tremendous for the 2nd Latter-day Saints temple and encourage many saints on the west side of the valley to attend the temple more often. This will create a more prevalent atmosphere of loving kindness, neighborly respect and an overall attitude of people trying to lead better lives. Latter-day Saints helped settle this valley at great cost and sacrifice, and this temple will help continue to honor the current sacrifices of saints who live and visit</p> <p>Anecdotally, where ever and when ever a sacred LDS temple is built, property values increase, crime decreases, the area is filled with trees, shrubs and outdoor beauty that lasts for generations.</p> <p>As a fifth generation Latter-day Saint, the sacred times I spend at the temple change my life for the better. There are so many misconceptions about our church and I'm hopeful you will take that under consideration as you vote yes to build the Lone Mountain Nevada on the site previously chosen.</p> <p>Many thanks for all of you and your contribution to the betterment of our community.</p>

Comments	<p>This will be a beautiful addition to the city. There are thousands of members of the LDS church in the Las Vegas valley. We have one temple on the far east side and it is difficult for many people to get over there, especially with the traffic and gas prices. Having a house of worship closer to many of our members would be a great blessing. We always keep our buildings in beautiful condition and our temple grounds are always immaculate. There is no reason to protest this temple except that of religious persecution and/or prejudice.</p>

Comments	These buildings are beautiful and bring value to the community. Home values typically rise if they are close to temples. The religion and people who attend these temples are good god fearing patriotic and productive members of society. I wholeheartedly respect their wishes to have a temple in their community.

Comments	I am in full support of the building of a temple for The Church of Jesus Christ of Latter-day Saints in the Lone Mountain Area. Temple will not only make the area surrounding more beautiful but the traffic will be very minimal. Not only will the members of the church be blessed by having another temple of God in Las Vegas, but the people who are not members of the church will be surrounded by a beautiful building. The community will be a better place with this building standing.

Comments	<p>I lived in Las Vegas for 56 years, the addition of the proposed Temple for the Church of Jesus Christ of Latter-day Saints in the Lone Mountain area will bring much needed culture to that end of town and will serve MANY Las Vegas Residents.</p> <p>The structure is beautifully designed and past history has proven that these temples and their grounds are meticulously maintained and increase the property value of the area residents.</p> <p>Additionally, the area is not the leasr bit rural as those opposing its construction claim.</p>

Comments	Please understand the building of this Temple will be of great benefit to members of The Church of Jesus Christ of Latter-day Saints. Contrary to popular belief, it will not create huge traffic problems and it won't take away from the rural area it will be built in. Just as any other faiths who build worship places to practice their religion and get closer to God, we also are looking to do the same.

Comments	<p>I fully support the building of a temple for the Church of Jesus Christ of Latter Day Saints in the Lone Mountain area. A temple in the area can add value to homes already in the area, among other things...a peaceful atmosphere, less crime, and adds beauty to the entire city of Las Vegas. Any religious building represents wholesome ways of living no matter where it is.</p>

Comments	I have seen that LDS temples are well maintained, beautifully landscaped buildings that add to their neighborhoods. They may be bigger than houses, but they are pleasant additions to neighborhoods.

Comments	Our family is thrilled to have a temple built nearby. It will increase the value of homes around it. It will add to the beauty of the area. It will always be well taken care of. It is a sacred place and will not be a place of constant, loud parties. It will be a reverent place where people come to worship. The grounds will be a beautiful, calm space to walk for everyone.

Comments	<p>I am in support of the temple and am asking for its approval. I travel to the temple on the Eastside once a week. I go to the temple for self reflection and learning. The temple also offers me great peace and I rely on that peace for my mental health and support in my daily life.</p> <p>Having the temple built on the Westside would be a great help in travel and stress. With a temple closer I plan to attend more than once a week. Which will be a greater benifit to me and my family.</p> <p>There are many members of the church of Jesus Christ of Latter-Day Saints, not just me, that would benefit greatly with a temple built closer to them. Please approve, and let the members have a temple closer to them, so there is easier access, and more opportunities to attend.</p>

Comments	<p>The LDS temples are beautiful buildings only enhancing their surroundings. The grounds of temples are kept up beautifully with flowers and trees, making neighborhoods more desirable, and not only as it stands new ...always the building and grounds will always maintain being kept up! Which is why the area by the other located temple is still beautiful all these years later! The temple is peaceful and so are the people the visit those grounds and it will only enhance the community it is built in!</p>

Comments	My husband and I visit the Las Vegas temple at least once every week it is open. We have done so for the last 10 years. Like all temples, it is beautifully maintained and a truly unique place of peace and refuge for all who walk onto its grounds. Yesterday, I took my Catholic friend from Peru there. How she loved it in this city of noise and money and glamor! We stayed an hour longer than I had expected. My husband and I maintain the incredibly positive aspects of this sacred building of prayer and good will to all people will be felt and enjoyed by all its neighbors once it is complete.

Comments	I grew up in Las Vegas and love this city with my whole heart. The temple will be a BEAUTIFUL addition to the city. Additionally, the Mormons are good people who do so many selfless, serviceable things for the Vegas community. We should support them and their freedom to worship in the way they want. They bought this land - let them build.

Comments	I fully support the building of the LDS Lone Mountain Temple and I plan to attend this temple often. Our current temple on the eastside of Las Vegas is very busy and running at capacity. We use this temple to strengthen our family relationships here in the Las Vegas. The temple will be beautiful and uplift the area. As a congregate are very respectful of our neighbors.

Comments	In a city full of structures that "stick out like a sore thumb" it would be an honor to have this holy edifice in my neighborhood. Not only will this building enhance the beauty of this neighborhood, it will bless this whole city by promoting people to do good and serve others.

Comments	<p>I think the new LDS temple would be a great addition to the valley. These temples stand as symbol of goodness and beauty for everyone who will see them. One can look in beautiful areas of the world, San Diego Washington DC, Saint Paulo, Brazil, and many other natural beautiful places in beautiful settings. This temples will stand as a symbol of beauty in our community too. They do not distract from the beauty, they add to the beauty. It also Means a lot to those who will worship and frequent the lone mountain temple.</p>

Comments	<p>There are many thousands of members of the Church of Jesus Christ of Latter-day Saints that this temple, in the Lone Mountain area, will serve. Many of these church members are upstanding members of our Vegas community. They are doctors, lawyers, fire department chiefs, firefighters, police officers, teachers, local business owners and so much more. We as local members of the church love our Las Vegas community and feel grateful and humbled at the possibility of having such a sacred place of worship in our midst. We believe it will be a beautiful building that will add to, not detract from, the natural surroundings. One needs only to take a trip to the other side of town to see how beautifully the temple building and grounds are maintained, and what the surrounding neighborhoods, in turn, also look like. It's our collective hope and prayer that this temple can be built and that it will bless and unite us all in the area.</p>

Comments	Temples are sacred in our religion. There are no parties, no noise, and no huge crowds. We believe that they are a place where we make special promises with Jesus Christ for ourselves, and for the dead who never had a chance to hear his gospel. Therefore, we approach the temple with great reference. The temples are built to be beautiful in order to honor our God. I am confident that a compromise can be reached that will satisfy both parties.

Comments	Another temple would be beneficial, not only to the LDS community but to the citizens of this city. The amount of support they volunteer towards this city every year is unquestionably a valuable resource. Sustainability and growth within the community would only further the ties to the local community which, in turn, help every citizen that is in need of assistance from personal items, groceries, traits, transportation, housing, medical and other services that are essential to the development of our less than fortunate residents and their families.

Comments	I remember the pushback and doom and gloom when the first temple in Vegas was proposed. None of the drama unfolded as predicted. The Temple and its patrons have lived in harmony for many years. I encourage anyone with concerns, go visit the temple, bring a lawn chair, observe the impact, stay for the views.

I grew up around Latter-day Saint temples in California, Utah, Idaho, and Nebraska. They bring a beauty to the community like nothing I've ever seen. When Latter-day Saints attend the temple, they are taught to be better community members and neighbors, more kind and giving. The temple is a place of worship that elevates the lives of all who enter. The more temples that are built in any community, the stronger, kinder, and more unified that community becomes.

It would be most helpful to hear and rely on the comments and statements of those who have actually lived around and experienced the impact of Latter-day Saint temples in their community rather than relying on those who have never experienced it or who fear the unknown or only speculate about its impact.

Comments	It will come as no surprise that as the Stake President of the Lone Mountain Stake of The Church of Jesus Christ of Latter-day Saints, we strongly support all aspects of this application. We know that it will be a beautiful, peaceful, and very well-maintained addition to our community for decades to come. More importantly, we support this application because of its religious significance. We know the temple will be built as a House of the Lord, and we will treat it as such. Further, based on approximately 34 years of experience with the Las Vegas Temple, at the base of Sunrise Mountain, there is no reason to be concerned about traffic or increased noise.

Comments	I support the building of the new temple. It will be a blessing to members of the church and those around. There is a special sense of peace that come from it because it is the House of the Lord. Honestly, it seems that lighting is a big concern, so I say it's lit at night, but not to the extent that most temples are lit so it's still dark enough at night.

Comments	I am currently a Las Vegas Temple worker. A temple is hollowed ground where upstanding members of the Church of Jesus Christ of Latter Day Saints quietly come to worship during dawn to dusk. It is a beautiful building that will only bless the lives of all nearby. We are kind neighbors and we promise that this temple will bring nothing but good things to the Lone Mountain area.

Comments	This building, although tall and lit 24-7, will bring a peaceful atmosphere. Vegas is full of lights and tall buildings but this one is a serene beauty that the community may not understand at first until it is built. Not only will it be stunning and beautiful it will bless the lives of those who live around it, spiritually, financially, and emotionally for both members and non members of the faith. Some community members may not understand that until after it's built.

Comments	The arguments against providing a place of worship amongst a rural or residential neighborhood makes no sense as the plan would not obstruct views,, polite the area, or provide any sort of nuisance. Places of worship are nearly always associated with residential neighborhoods. As such, the plan should be allowed.

--------------	------------------------------

Comments	<p>The facility will be beautiful. The patrons to these facilities are always courteous to neighbors as the neighborhood next to the temple on the east side would likely attest to. It will increase traffic some during operating hours, especially on Saturdays when most weddings occur, but it will reduce congestion on the east side (Bonanza from Eastern to Hollywood). My family and I strongly support this project and hope you approve it to move forward.</p>

Comments	The construction of this facility will beautify the location and increase values for homeowners and landowners in the surrounding vicinity. This is a long term commitment and investment in the community that will outlive current concerns or perceived drawbacks related to approval of the project.

Comments	I wholeheartedly support the building of another LDS temple in the Las Vegas Valley. It is deeply needed for the saints in and around Las Vegas. As a saint from Moapa Valley (Overton), I am in full agreeance of this. I honestly don't care if it blocks people's view, at least it will be beautiful. They chose to live at Lone Mountain and they knew the area was going to grow over time. They heard about the temple one way or another. They can either choose to stay in the area or move if they don't like it. I'm talking about the non LDS people who hate our church. Thank you very much!

Comments	This building will only serve to beautify and enhance the surrounding neighborhoods. Reading about other LDS temples in rural areas, we have learned that they are much less of an intrusion than the community originally thinks they will be and tend to increase property values. We think this temple will be a wonderful addition to the Lone Mountain area that we love and have lived in for the past 20 years.

Comments	<p>I'm from out of state, but here in California, we see the joy and love we've received with having Temples. They beautify our Neighborhoods and traffic has not been bad, because there is enough parking for all who come. it made our neighborhood prices of homes have risen. They are building one in Yorba Linda, calif and we're so excited. I hope you see the positives in completing this project and all can work together to compromise and come to an agreement. I'm putting this through because I visit this Neighborhood often as I have friends who live nearby. Thanks for your time.</p>

Comments	<p>We lived in the valley during college and still have family and friends in the area. We visit often and look forward to having a new temple in the valley. I find the structures beautiful and believe temples add significant value to a community. I look forward to visiting during the open house and hopefully many times thereafter.</p>

Comments	Homeowners had the same concerns when the other temple was built near Sunrise mountain. This is why there is no visitor center and lights go off at a specific time. However, after the completion those homeowners were very pleased because it increased their home value. I believe the same will happen here.

Comments	<p>The Las Vegas valley is a growing metropolitan area that is no longer a rural community. Parump, moapa, Logandale and Indian Springs are all more rural areas. As an area grows, property values increase due to increased population and the ability to maintain a rural feel for a few families is superseded by the need to provide for the growing population. The proposed temple project will maintain high property values in the area and supports a calming community feel. It will not being a commercial feel to the community. It will provide thousands In the Las Vegas valley an opportunity to worship God in a peaceful way. But the desire to maintain a « rural » community in the middle of a major metropolitan area now is a elitist view that doesn't account for the growing needs of the Las Vegas population. There are multiple new communities popping up in the proposed area and a large community park that already changed the feel of the « rural community ». Please let this beautiful peaceful location serve those residents in the Las Vegas valley</p>

Comments	<p>I have grown up in this neighborhood since 1995. I have watched this area grow and many good people have moved here to establish a strong community where their families can be safe. I think it is important to allow things that are positive and good into our community while being ever vigilant of trying to keep things out that damage our community (like a bar or strip club would). It is clear that this is not the preference of all members of the community to have a large Temple nearby, but I would argue that it brings good people into our community who are looking to worship God and be better people. If you are a person that is worried about how this Temple will affect your way of life or if it will bring too many businesses/new move ins, go over to the east side of town to the other Temple at the end of Bonanza. The community immediately around the Temple is very quiet and peaceful. There also isn't a business around the Temple for at least a mile in any direction. I would also invite you to ask the people that live right by or near the Temple what their thoughts are of a large building near them, for I believe this neighborhood has come to love this building and see it as a staple of their neighborhood. Over time, the Temple at Lone Mountain will bring peace and happiness to our community and residents will be able to tangibly notice this over the years.</p>

Comments	This is a temple I will be able to attend. It is extremely important to me and my worship. Please consider it a positive addition to this area. Much service will be afforded there and in the community by having this temple of The Church of Jesus Christ of Latter Day Saints in that location. It will make the area beautiful. Thank you.

Comments	<p>Having a religious building such as this will only bring up this area. If you look up other Church of Jesus Christ of Latter Day Saints Temples you will see the care and attention that is put into keeping the grounds clean and beautiful as well as quiet. This will be the case with this temple as well. In the world right now there is a lot of turmoil as well as cost of living sky rocketing and having a place of worship such as this will be helpful to those in the valley get through these hard times. So much of our city in changing some for the good and other changes not so much. A lot of these changes are not truly focused on the locals who live here but the tourists who come and go. This building is for the locals, we need this. We have so many corner pubs and smoke shops... this building isn't going to cause harm to the area by the type of people it attracts and decisions made after visiting such a place like these pubs and smoke shops often do. A building like this attracts people looking for spiritual peace and guidance. No one will be speeding drunk or high in and out of the place. The building is kept immaculate and quiet. The homes in the area will have their value increased by such a property as this. We want and need this building.</p>

Comments	<p>We whole heartedly support the proposed project.</p> <p>The proposed Lone Mountain Temple will be a visual improvement to the area and increase property values (as did the one on East Bonanza in Las Vegas). A small amount of traffic increase could be seen as compared to what we've had mostly due to it being a un-improved area. The future school will bring a larger amount of traffic than this Temple. Lighting the structure at night would bring an slight increase of ambient light to the area but, you can still see the stars at night.</p>

Comments	The Temple would be a beautiful addition to any neighborhood! The property values will increase in the neighborhood. If you have doubts, just come look at the existing one on Bonanza and Temple view Dr. Visit the beautiful gardens, observe how quiet and peaceful it is. This will quiet your fears and any objections you may have. Property owners thought the same thing when this Temple was built but have since changed their minds.

Comments	<p>I have often helped protest other developments in the Northwest Preservation area. As I have participated I've learned that many in the area don't want anything developed ever. They are happy with empty lots.</p> <p>However, I have come to the conclusion that eventually the lots will be filled. I am happy that a beautiful building for religious ceremonies will be built in that location. It is much better than storage units or some other building.</p> <p>I fully support this project.</p> <p>Nate Haldeman</p>

Comments	<p>I lived across the street from the temple on the east side of town in excess of 20 years. They were/are an excellent neighbor. I attend there once a week for the last 10-12 years. The proposed one is much closer to where I live now, so I will likely attend it if it is completed.</p> <p>I know many will oppose this building strictly out of religious bias, I urge you not to listen to their rhetoric. The temple is a sacred and uplifting place for it's members and is available to all who will abide by the standards that make it a sacred and uplifting place. I whole heartedly support this project.</p>

Comments	<p>One thing that people should realize about these temples is that they are not like a normal public forum which hosts events that draw a large crowd. They are not even like a church in this regard. There are generally not such events at a temple. Rather there is a slow trickle of people coming and going throughout the day, and so you don't really see periods with a lot of traffic congestion or large crowds entering or leaving at once, as you might another kind of public space. I've been in other neighborhoods with an LDS temple and they don't add that much traffic, and I think it is because of this general tendency.</p>

Comments	The new Temple for the Church of Jesus Christ will only add to the beauty of the area. Those opposed should consider if it is their own personal biases are the reason for their opposition to the project. Would they oppose another denomination as well. The building will further develop the area, provide numerous construction jobs as well as other resources.

Comments	I strongly support the construction of. The Lone Mountain Temple being requested to be built by the Church of Jesus Christ of Latter Day Saints. This is an important building for religious worship and will provide important opportunities for members of the Chirch of Jesus Christ of Latter Day Saints on the west side of Las Vegas to be able to visit a temple more easily. It often takes an hour to arrive at the existing Las Vegas temple for those of us on the southwest side of the valley. Visitors to the temple will be respectful to surrounding neighbors and the temple grounds will be a beautiful addition to the neighborhood. Thank you for your consideration of this important project.

Comments	<p>The temples of the LDS church are not civic buildings, as not anyone can enter. Only active members who pass a series of interviews that include fealty to church leaders and paying 10% of their income may enter.</p> <p>Also, the lighting and size of the temple, as well as the increase in traffic, will completely change the feel of the area. Another LDS temple is only 30 minutes away, and many church members willingly travel hours, so it is not needed in this exact location. Let it be built where it meets existing codes.</p>

Comments	I have lived in many parts of the country, such as North Carolina and Virginia, where temples were announced and built while we resided there, and were a blessing to the community in so many ways, as will also be the case here in the Las Vegas Valley. The Lone Mountain Temple proposal/project will add additional peace and love to our Lone Mountain Community.

Comments	<p>These temples only bring beauty and peace. The people who come here are coming to temples to serve and commune with god, so they come with a quiet and peaceful behavior.</p> <p>Comparing to the number of bars, strip clubs, casinos, and other public places in Las Vegas that bring loud roughy behavior this temple will be a beautiful contrast.</p> <p>Vegas has a lot of amazing fun tourist attractions and that's great for the city. But this temple is a beautiful and peaceful place for the community and travelers that brings a good contrast that every city needs</p>

Comments	<p>I support the building of the LDS Lone Mountain Temple. Citizens in the United States have the right to religious freedom and should be allowed to gather together to worship. Las Vegas area is home to nearly 200,000 members of the church of Jesus Christ of Latter Day Saints. Temple worship is an important part of their religious beliefs. The Las Vegas temple that exists on the East Side of Vegas cannot accommodate all the members that wish to attend and therefore a second temple is needed. These temples have been known for their beauty and well kept grounds throughout the world. They are not disruptive to neighborhoods as they follow traditional wake/activity hours and are well maintained. The increased traffic would be no different for a temple than for any other church, synagogue or school that neighborhoods already house. Therefore I am in support of the Lone Mountain Temple being built.</p>

Comments	I strongly support this beautiful Lone Mountain LDS Temple project. Historically, LDS Temples increase property value as well as they are always wonderful neighbors with beautiful grounds and are a peaceful sacred place of worship.

Comments	For the temple plans at Lone Mountain, I see no reason to oppose this project. When built it will be aesthetically pleasing and well maintained. As with other like builds it will not attract or promote any activity that would ever be in violation of the noise ordinance. Could do quite the opposite and encourage awe and quiet reverence in the area. Those {members} that typically visit, as proven with hundreds of other like-builds, are peaceful, respectful citizens that abide laws. Traffic will increase in the area I'm sure but no more than any other development built there. I am in full support of the project and like many, excited to see it completed!

Comments	I have lived in Ward 4 for over 20 years at this address, located only 2,200 feet due east of this project. I strongly support it. I know that it will have a very positive impact to our neighborhood. This is the best possible use for this large tract of land. I wish the temple had been here when my children were young, but I am excited for the incredible opportunity this is for my family going forward to be near a place that is so very special and sacred to us.

Comments	LDS temples add beauty, improve the surrounding areas, provide security and improve property values. They are always maintained and in pristine condition. Temple patrons are quiet and respectful of surrounding properties. The grounds are a place to experience peace, solitude and reflection and are open for anyone to enjoy.

Comments	I saw this on the news. Why are we talking about going against the 1st amendment? All the LDS Temples are beautiful structures and the grounds are kept well. A casino may be several stories higher so the height is a silly argument. I know I live in Henderson but I don't like seeing religious persecution.

Comments	<p>I live in the same area which is restricted to a minimum of half acre. There are many patches of land where there have been no homes. This has resulted in somewhat of a patchwork to our area. The proposed project would add to the beauty of our area. And would result in increased homes around this area.</p> <p>Though there are some existing homes that have a partial view of the city, the narrow proposed tower/steeple would not dramatically obstruct their view. Also, rather than having custom homes, block their view substantially, the proposed project and proposed landscaping would beautify their view.</p> <p>Dr Muir.</p>

Comments	<p>I live in the same area which is restricted to a minimum of half acre. There are many patches of land where there have been no homes. This has resulted in somewhat of a patchwork to our area. The proposed project would add to the beauty of our area. And would result in increased homes around this area.</p> <p>Though there are some existing homes that have a partial view of the city, the narrow proposed tower/steeple would not dramatically obstruct their view. Also, rather than having custom homes, block their view substantially, the proposed project and proposed landscaping would beautify their view.</p> <p>Dr Muir.</p>

Comments	LDS Temples are great. They are beautiful and improve property values. They attract faithful Christian people daily to the temple and those individuals regularly patronize local restaurants either before or after their religious service. I'm jealous that they aren't building it closer to my home.

Comments	This building can only bring beauty and joy as the previous temple has done since the 80s . It will enhance property values and is peace in this turbulent world we find ourselves in . All religious buildings have significance and beauty in all parts of the community and is probably the things we most need .

Comments	<p>I support this temple being constructed in the Lone Mountain neighborhood. I understand the area is RNP but it is at the very edge and nearly into higher density neighborhoods. So it really isn't an obstruction within the RNP. Other special use permits have been granted for various developments, schools, houses of worship in other parts of the neighborhood and I do not believe the LDS church should be penalized for a similar use. Added traffic to the neighborhood will largely go unnoticed. The temple will beautify the neighborhood as it does in every location where temples have been built. As an LDS person, the temple is a special, holy place providing solace and connection with our God. Thank you for allowing the legal process to move forward and allowing our temple to be built.</p>

Comments	<p>This facility will be a beautiful addition to our northwest community. The facility is much needed by the members of the Church of Jesus Christ of Latter Day Saints.</p> <p>Arguments of heavy traffic flow in the area are unfounded. Compare expected traffic flow and patterns to the traffic patters and use of the Las Vegas Temple on the valley's east side.</p> <p>Arguments of light pollution are not supported. The affects of the overall lighting in Las Vegas valley are such that dark skies viewing is not possible.</p> <p>The grounds of the Church's existing temples are always well kept, beautiful, and peaceful. This creates a quiet place for reflection and meditation. The building itself as proposed is beautiful and stunning. It will contribute to the community's appearance.</p>

Comments	I am in support of this project being built. It is my understanding that this had been a planned site for a school to be constructed. I feel that this project would have a positive impact on the neighborhood in regards to noise, traffic, crime and the beautification of the area. There has been a temple on the east side of the valley for over thirty years. It has been an asset to that community and one can visit that area and see for themselves that that temple has not been a negative impact on that area.

Comments	<p>I support the building of the LDS Temple on this site. The structure is beautiful and will fit in perfectly with the landscape of the area. An argument that the structure would block views is unfortunate but a possibility with any structure being built in that area. Whether the structure were 25 feet or 225 feet residents would still be impacted. The temple will allow for a beautiful area that residents can walk through and enjoy the surroundings.</p> <p>The traffic impact will be minimal as the use of the temple is spread throughout the day and many people carpool together. There would not be much more traffic here as is present at the park nearby.</p> <p>The property taxes in this area will rise as seen in the situation of the previous temple.</p> <p>This temple will fill a need in our valley for worship services. I have never been to the temple and encountered a traffic jam. Patrons are not drunk or driving recklessly. This temple will bring only positives to the Area.</p> <p>I support this project and the benefits to many in our valley are worth considering.</p>

Comments	<p>Historically, whenever a temple of The Church of Jesus Christ of Latter-Day Saints has been constructed, the property values of properties immediately surrounding the temple have increased. The construction of churches and other religious edifices adds to the moral integrity of a community by decreasing crime, increasing charitable donations to the community and expands the diversity of faith and belief of a community. Even though I am a member of The Church of Jesus Christ of Latter-Day Saints, I would never oppose the construction of a church or other religious edifice of a another faith because of the foregoing reasons. Religious liberty should always trump the secular concerns of, for example, having a religious edifice interfere with a property owner's view, or lighting (the lighting on temples is always low-level - just to silhouette the building).</p>

Comments	<p>You will find that the temple and temple grounds will complement surrounding communities and will increase the value of your properties. The members that attend are respectful and reasonably quiet. Traffic comes and goes. As the temple is first opening to the public, for a short time, there will be more traffic. That will decrease.</p> <p>I hope you will understand how special this house of worship is to many in the valley.</p>

Comments	Our family is just thrilled at the prospect of a second temple in the Las Vegas Valley. The Lone Mountain area is beautiful. We know the building will be beautiful as well, adding to the area. This building is used for special purposes in our religion. We consider it holy. We believe it will bring peace, beauty, and goodness to this area. We also believe it will add to home and land values in surrounding neighborhoods as it has done in the East part of the valley. We support this process and add our voices to the building of a temple in Lone Mountain, NV. Thank you!

Comments	<p>I was born and raised in Las Vegas so if anyone knows about traffic, it's me. I can understand those that are concerned about more traffic entering their community. However, I can assure them that the traffic will be minimal because the Latter-Day Saints (LDS) temple is not like regular church buildings that have activities all through out the week. People go in, people come out. I also understand those that are concerned about the lights shinning from the LDS temple. The lights on the temple, all though not as bright, are more like those lights on a lighthouse. They bring a feeling of peace, hope, and safety. Who wouldn't want that in their neighborhood?</p>

Comments	The land bought by the church was legally bought and their plans have been clear since the announcement. This is private property that it will be built on and they have a right to build on it following the legal regulations.

Comments	<p>As a 4th generation Las Vegas resident, my family has seen this city change and grow nearly from its birth. Some of those changes have been good, and others not so.</p> <p>I was a 7 years old when the first temple of the Church of Jesus Christ of Latter-day Saints opened here. Its grounds are pristinely kept, the architecture is beautiful and unique, and those visiting are quiet and of reverent behavior. The Lone Mountain temple would be no different.</p> <p>As our city continues to grow, we can allow it to grow with goodness and beauty or with places that bring negative behaviors. A place that is sacred to those who worship there, and also brings beauty to those around it, is just the sort of place we should want to have in our city.</p>

Comments	We are looking forward to having this temple in our area. We feel it is important for the worship of the members of the Church of Jesus Christ of Latter-day Saints on this side of the valley. We feel it will especially help our youth. Temples add morality and goodness to any area they are built in. We recognize that people live near these temples and we vow to be respectful to them and those in their neighborhood.

Comments	I fully support and welcome the building of this temple in the Lone Mountain area of Las Vegas. I believe this will add value to the area in multiple ways and meet the needs so many people in the north west side of the valley. This church and its members are heavily involved in community service which will directly benefit those in our community. An additional meeting house and temple are needed.

Comments	We are excited for the opportunity to have an LDS temple in our area. We believe that it will bring beauty to the surrounding areas. If the land is going to be developed, we would rather a temple be built than a school or additional housing. A temple will have the least impact on the neighborhood and will help beautify it instead.

Comments	<p>I spent many years residing in the vicinity of Lone Mountain, just about half a mile from the proposed temple site. These days, my home is situated 4.5 miles away from this location. My family and I have a tradition of ascending Lone Mountain together every Thanksgiving morning, and we often visit the Lone Mountain Regional Park. I cherish the lifestyle offered in the Northwest.</p>
-----------------	--

As a member of The Church of Jesus Christ of Latter-day Saints, I used to attend worship services at the chapel near the proposed site on Alexander for many years. I strongly believe that the activities associated with our temples promote a serene, peaceful environment that aligns well with the rural preservation character of the neighborhood.

Many members of my faith will visit the proposed temple regularly, approaching it with a sense of seeking spiritual guidance and reverence. I personally suspect that the traffic impact of a temple at this location would be considerably less compared to a nearby school, as well as a reasonably dense residential area. Temples, in general, contribute positively to communities by attracting respectful visitors. They are architecturally stunning, constructed to the highest standards, and meticulously maintained with a commitment to being good neighbors.

While a temple may not be the preference of all neighbors, I am enthusiastic about the prospect of having one closer to my home. I believe it will only enhance the beauty, tranquility, and value of the Lone Mountain area. Therefore, I am wholeheartedly in support of Project #24-0072.

Comments	<p>We lived a mile from the existing temple on Bonanza and were there until 2001. We watched it being built and all that has gone on their since. I am a Real Estate broker for 43 years and watched as prices for the surrounding homes improved a lot with their new neighbor (the temple) and gave new vitalization the the area.</p> <p>We know of individuals commenting about loosing views at their property. The temple is a destination that many people will want to come and see. The landscaping is amazing and manicured. All lighting on temple grounds go toward the building and not to the neighbors property. It is beautiful day and night.</p> <p>Once the temple is built and running they will see how nice it is to live by a temple. Any one that has a temple as a neighbor has a good neighbor. If anyone does not like the temple as a neighbor, and by living close by the temple has cost them value to their home we would be willing sell their home at zero fee cost to the listing side broker fee. I really believe they will have new found value to their home. Having 43 years as a real estate professional give me the knowledge and experience to identify future value. I am to stand behind it that statement.</p> <p>We live 2500 feet from the temple site now and cant wait to that close to the temple.</p> <p>John C West</p>

Comments	We strongly support the new proposed temple at the base of Lone Mountain. We travel weekly to the Las Vegas temple on the southeast side of town and look forward to a much more convenient northwest location at which to worship. It will save a lot of money for us personally spent on fuel and will decrease our carbon footprint. It seems like many proposed temples built outside of Utah face very similar opposition prior to being built. Most near-site neighbors come to find it a happy consequence, however, when their property value significantly increases. I am sure the church will do its best to address neighbor concerns, such as the safety of equestrian pathways. We members of the Church of Jesus Christ of Latter Day Saints always endeavor to be good neighbors.

Comments	<p>For the thousands of LDS residents in Las Vegas, there is a need for another house of the Lord. This is a place where people go for peace, and perform rites like marriage. Embrace the diversity of religion and allow it. This house doesn't come with noise or loud gatherings of people. Just beauty. The Latter Day Saints are typically good, respectful people. Thank you for your consideration.</p>

Comments	<p>I support the proposed LDS temple. Prior to the original temple being dedicated in 1989, many people opposed its construction too. Many similar concerns were cited back then. That temple has proven to be a beautiful asset to the neighborhood at the base of Sunrise Mountain.</p> <p>Many homes around the original temple are horse properties and there is adequate space and safety for owners to ride their horses in the surrounding area. I feel it will be similar scenario if the proposed temple is built at the base of Lone Mountain.</p> <p>The proposed temple will allow Latter-Day Saints on the west side of town to more fully exert their first amendment rights to practice their religion and I support the project to allow American citizens to worship their God.</p>

Comments	<p>With most temples that are built, there are protests that occur. Back in the 80's when the temple was being built on the east side of town, the biggest complaints were that it would cause traffic issues, increase noise in a quiet neighborhood, and lower property value. All three concerns were proven to be just the opposite. Take a drive over by that temple and observe the peace, light traffic, and go online and look at the property values of homes in the area compared to the values of homes outside the area. Of course my opinion is of support for the temple, but my comments are based on facts from the same type of structure across the valley. There is nothing that detracts from anyone's view or peace in the neighborhood</p>

Comments	I support the LDS temple project. As a member I am excited to have access to a temple so close as I know tens of thousands of other members feel the same. In addition, I'd much rather a religious building of any denomination than more houses or big shopping centers. I hope the planning committee will approve this project as the land will be built on.... It's just a matter of what will be built.

Comments	I'm am so excited for a temple for the church of Jesus Christ to be closer to where I live! The temple on the east side of the valley is beautiful but it is a 45 minute drive for me! I am so excited for the proposed temple to be closer to me! The temple brings beauty to every area where one is built. Overall it is a great thing for any community.

Comments	I fully support the construction of the Lone Mountain Temple for the Church of Jesus Christ of Latter-Day Saints. Temples are a place of peace and refuge from the stresses of life. Every time I attend the temple, I receive answers from God about questions and concerns I have in my life. I leave the temple feeling happier and more motivated to live a service oriented, loving, and compassionate life like our savior, Jesus Christ. I have lived in multiple states in the United States, and every place I have lived where a temple is built, members of the church of Jesus Christ of Latter-day Saints and non-members of the church are grateful to have a beautiful building dedicated to worshipping God. I know the temple will bring greater JOY to individuals and families in our community.

Comments	I am 100% for this project. I am a member of The Church of Jesus Christ of Latter-Day Saints and currently serve at the Las Vegas Temple on the east side of town. I believe that this building can only help beautify the neighborhood. I believe this will help bless our community. We could always use more places of worship in our communities.

Comments	This project is positive for the entire community on the west of Las Vegas valley. It will add to neighborhood value and the community.. The argued traffic is no different than what neighborhood development would be or any denomination of church building. The building will be a quiet addition of neighborhood aesthetics. This can be clearly shown in all areas when any church development adds to the beauty. It does not matter what religion,, these types of improvements are positive.

Comments	I support this project wholeheartedly! The Church of Jesus Christ of Latter-day Saints has been nothing but an amazing community to everyone in its surroundings. The temple grounds have a very sacred feeling, and are always quiet, beautiful, and clean! Also having a Temple there will only increase the real estate for those living in the area.

Comments	<p>As a native Nevadan and a member of the church of Jesus Christ of latter-day Saints, I support this project. Churches and temples represent what is needed most in today's society. The peace, the tranquility and the beauty offered from projects like these are second to none. To have access to something like this on the west side of the valley is important to all of us who are members and understand its significance. I appreciate the planning committee hearing out everyone whether they are in support or opposition of this project. I encourage all of you to ponder the significance of this building and to approve this project to move forward. Thank you.</p>

Comments	<p>I live with my wife in the Northwest as does my nine married children and their spouses and our 43 grandchildren. I am a 3rd generation Nevadan and have practiced law here for 48 years and I support the project for many reasons. Every week I ,as well as many of my children, travel across the entire town, which with the freeway still takes 40 plus minutes each way. I do this as a part of my faith and have long awaited a temple closer to us. A temple is a refuge and a place of peace and beauty with well groomed property that surrounds it.</p>
-----------------	---

As you look at an arial view of the site you can see that it is an ideal place for a beautiful temple and will not hide the huge Lone Mountain from view. For many years I owned 3 acres on Tee Pee and Smoke Ranch Road and it was in the middle of the desert bench with few neighbors but I knew Las Vegas is a growing town wherever you live. I couldn't expect to keep development from happening between me and the mountains.However, as with other temples, the neighbors would end up being thankful as their values increase and the land does not end up jammed with houses or apartments.

I know that many of the neighbors are excited and positive about the project and I hope you hear from them and I hope the concerns of any other neighbors will be resolved as they understand more about the intended project. I do however know that those who are anti-church will never be looking for any resolutions and any cause or claim that will support that hate will be used. This project will be a huge needed benefit to our community here in the Northwest.

Thank you for your time .

Comments

I am in favor of the new Lone Mountain Church of Jesus Christ of Latter Day Saints (LDS) Lone Mountain Temple in its entirety. I am a lifelong member of The Church of Jesus Christ of Latter Day Saints, having been born and raised in the Las Vegas Valley since 1970. I have watched the valley develop in so many ways. The LDS people were some of the original settlers of this valley and hold their faith dear and worship regularly. The Church and its people have made many contributions to this valley. I volunteer weekly at the current Bonanza Las Vegas Family Search Center next to the current Bonanza Temple and regularly meet people who want to come to the Temple often, but are unable because of the distance after a long day at their jobs. Often during the hours that they can attend, the Temple is full and hard to find an opening to attend a session. I have witnessed this first-hand. The LDS Church always keeps its properties pristine. The proposed Temple or as we like to call it, House of the Lord is indeed a beautiful House of the Lord. Those who attend are respectful and would be an asset to the area as will this Temple. I hope that it will receive the approval it deserves. In a place such as Las Vegas that seems to welcome good, bad, beautiful, extraordinary, ugly, strange and odd among other things, let's welcome this good, beautiful and sacred Temple to the Valley and let it enrich lives as the House of the Lord (Temple) does. Might I add, historically places that have allowed The Church of Jesus Christ of Latter Day Saints and its congregations to build a Temple or House of the Lord, the residents in those areas have seen their property values increase in a noticeable manner much to the residents surprise. That is always a welcome addition to homeowners. Please approve The Church of Jesus Christ of Latter Day Saints proposals for the Lone Mountain House of the Lord (Temple). Also concerning those who oppose LDS Temples are often unaware of the benefits of having an LDS Temple or House of the Lord close to them. I'm sure any real and non discriminatory concerns can be addressed. I hope and pray that the LDS Church will not find any discrimination in this matter. Sadly the past history of The Church of Jesus Christ of Latter Day Saints has experienced too much bigotry, hate and religious discrimination based on misunderstandings of the faith. Sincerely, Rebecca Sorensen

Comments	Great way to preserve the peacefulness and tranquility of the area. The temples park-like landscaping will be a treasure, and traffic to temples is much lower than to a housing development of the same size.

Comments	Although I don't live in the neighborhood in question, I am a member of The Church of Jesus Christ of Latter Day Saints. Our church has a long-standing reputation of respecting and honoring the temple and its surrounding area. We only hope to quietly worship in a beautiful, peaceful building. In my opinion, adding an establishment that houses God-fearing, good people can do nothing but enhance whatever neighborhood that it is located in, no matter the denomination. Please consider the approval of this sacred building.

Comments	<p>Dear members of the council.</p> <p>As is the temple on the east side of Las Vegas, a shining star to the neighborhood, so to will this one be on this side. There seems to be a small group of good people opposed, but I am confident after it gets built according to plan designs, they will be not only pleased but grateful to have it in their neighborhood. Nothing but good will come of it.</p> <p>Thanks so much for your taking a good look at this. All the best.</p> <p>Russell Cook</p>

Comments	<p>This temple is something our community has been looking forward to. When these buildings are constructed, no expense is spared, are built with splendor and grandeur, only bringing value to the homes in the surrounding area. While there may be a select few who feel "inconvenienced" by this particular location, the phenomenon will be the case no matter where this structure ends up. Those in the "nay" camp are likely only seeing the negatives without seeing the positives.</p> <p>Members will travel from surrounding localities to participate in family events, which is certain to bring dollars to the surrounding community. Me and my family respectfully ask for the council's support on this project.</p>

Comments	<p>I would welcome the temple in the area! With over 100,000 church members in the valley a second place of worship would be greatly appreciated by many in the area. Temple grounds are impeccably maintained, and building construction is the highest quality in workmanship and materials. These factors help maintain and even improve neighboring areas and property values.</p> <p>In addition, as the area is experiencing incredible growth, it is important to incorporate places of worship. A temple would be a much better use of the land, and more in line with the intent of the area, than a school or other commercial building.</p>

Comments	I live in a rural community. I have for all but 3 years of my life. I do most of my shopping in north Las Vegas and think this would be a wonderful addition to the community. It would add value to the homes. It would add beauty. The patrons are respectful and quiet. I know there are antagonists, there always are. Please do not allow people's anger, hate, and prejudice persuade your decision for what will be best for the community.

Position	I SUPPORT the project and all related applications.
Name	David Christensen
Residential or Business Address	3025 Palomino Lane Las Vegas, NV 89107
Phone	(702) 528-3122
Email	davidc@sceholdings.com
Comments	As amember of the Church, I support the building of this new temple. It will benefit all our members in the valley. It will be a peaceful site. There will be increased traffic in the area: however, this will have less impact than the traffic from an elementary school. Thank you.

Comments	A Latter Day Saint Temple would be a wonder addition to the Western part of the valley. The proposal is beautiful and would increase land values in the area. The Temple on the East side of the valley seems to have improved that area and not caused any significant problems.

Comments	I lived in Centennial Hills until I retired about 9 years ago. The Las Vegas Temple is a long drive from there for many faithful members, as many who attend the Temple are often senior citizens. Having this new Temple to attend would make Temple worship more accessible to members on the Western side of the valley.

Comments	<p>I grew up in Lone Mountain Heights just minutes away from where this building will be built. I still call the area home. The area is densely populated by members of The Church of Jesus Christ of Latter-Day Saints, including myself. These houses of worship are incredibly valuable to us, and it is our right to build them and worship in them. I know of no logical way that this temple will do anything but good for the area and the people near it. The church has done immeasurable good in my own life and in the community at large, and a temple will only expand that goodness. We strive to be upright citizens and respect the pluralistic character of our city. I ask that you do not give heed to opposition to this building that is rooted in nothing but prejudice and vitriol.</p>

Comments	I and so many other church goers are beyond excited about this. The temple serves a specific and separate purpose from normal LDS meetinghouses, and for the many members who live on the west side of town, having a temple here will be a huge convenience. Time has also shown what having a temple in the neighborhood does to property values. I look forward to the construction of the temple.

Comments	<p>The Temples of the Church of Jesus Christ of Latter Day Saints are beautiful buildings that bring a stately grace and enhancement to any area. They are always well maintained and are peaceful and serene. Any neighborhood would be lucky to have one. There is nothing of greater worth that you could put there. There is a special feeling there, even on the grounds. You won't regret having it in your neighborhood.</p>

Comments	<p>The LDS Temples are the most beautiful! The Lord is there. I live fairly close by & am so excited to have an LDS Temple on the west side of town. I know our leaders will do their best to satisfy the neighborhood's needs and will extinguish their fears. I would build it in my own backyard if I could! We love our Saints and will benefit from having a House of the Lord near by!!</p>

Comments	With all of the casino and hotel construction in the valley, the argument that this structure would disrupt the view is disingenuous and masks protesters' true motivation. Opposition to this project is fueled by bigotry towards one of the most charitable religions today. Mormons helped to found the Las Vegas valley, and have a long history here. I proudly support the construction of this temple.

Comments	<p>As a member of the Church of Jesus Christ of Latter-Day Saints, I would be thrilled to see a temple built so much closer to me. On the practical side, I understand why some do not like the idea of it being built in this area. However, I think the benefits far outweigh the drawbacks in this case. A temple is a beautiful structure and the grounds are always well taken care of. It will beautify the area around it and increase property values for owners. Also, a temple will draw increased patronage to shops near it, and will not be disruptive for those living around it. A temple by nature is a quiet and peaceful parties. I feel that even for individuals not of my faith, this temple will be beneficial in the practical sense long-term. Thank you so much for hearing me out :)</p>

Comments	<p>The Lone Mountain Temple project of The Church of Jesus Christ of Latter-day Saints is an important positive contribution to our community. My family finds great spiritual strength as we worship God in temples of this kind and each temple is a stunningly beautiful addition to the surrounding areas. The property is quiet and careful not to disturb local residents as well. Please move the project forward and approve any outstanding requirements so construction can begin. Thank you.</p>

Comments	The Temple on Bonanza is a beautiful structure and only enhances the neighborhood. It is quiet and well maintained. I think a Temple in the Lone Mountain area would only enhance rather than disturb the neighborhood. It could only add to the property.

Comments	<p>I've been an 18 year resident in the Lone Mountain area off Ann and Fort Apache and have been the beneficiary of the wonderful spirit that exists here in the NW valley. Fond memories like many years with Lone Mountain little league baseball and a variety of other community endeavors are treasures to me as I love and cherish our associations in the community!</p>
-----------------	---

Like the Hymn "My Country 'Tis of Thee" that states:

Land of the noble free
Thy name I love
I love thy rocks and rills
Thy woods and "templed" hills
My heart will rapture fills like that above

I 100% support this project in the spirit to fulfill the religious freedoms embedded in this first verse.

The Lone Mountian temple will beautify the "hills of northwest Las Vegas" and will be an emblem of a people committed to God and Country which will add in exponential ways to the strength of this amazing Las Vegas community I so dearly love!

Comments	<p>The Lone Mountain Temple will be a great addition to the valley. It will be a beautiful structure and help visitors or people looking to move here see that Vegas has more to offer the community than just the Strip. It will also be an important place of worship for people living here, allowing those in that area of the city the opportunity to attend the temple more often. I hope the project and all related applications will be approved as soon as possible.</p>

Comments	<p>This temple is something our community has been looking forward to. When these buildings are constructed, no expense is spared, are built with splendor and grandeur, only bringing value to the homes in the surrounding area. While there may be a select few who feel "inconvenienced" by this particular location, the phenomenon will be the case no matter where this structure ends up. Those in the "nay" camp are likely only seeing the negatives without seeing the positives.</p> <p>Members will travel from surrounding localities to participate in family events, which is certain to bring dollars to the surrounding community. Me and my family respectfully ask for the council's support on this project.</p>

Comments	<p>The Church of Jesus Christ of Latter-day Saints temple will be such a beautiful addition to the area of Lone Mountain. The building structure and the landscaping are so well maintained. There is a peace that comes with these beautifully structured houses of worship. Members come to the temple with reverence and respect to the Lord as well as to the community.</p> <p>As members of this church, we are anxious for an additional temple in the west side of the Las Vegas valley. Lone Mountain residences are so fortunate to have such a building in their area!</p>

Comments	<p>I am a multi-generation resident of Clark County, Nevada, who lives within walking distance of the Lone Mountain Temple site (with dozens of family members living throughout the valley). My family eagerly anticipates this Temple. We are very grateful that our Church Leadership were inspired to choose to build at this site. I believe it will add significant beauty to the area and will symbolically help direct our thoughts and prayers heavenward, toward God, and will be a place that will peacefully help strengthen our faith in Christ. My wife and I intend to frequent this Temple and bring our children too, as it will be much closer--and time in Temples blesses our lives and spiritually refines us.</p> <p>Thank you to the City officials for your service. I am in full support of this Temple. I further ask and hope that the City will optimize the planning phase of this place of worship for peak beauty in construction and refrain from delaying or downgrading plans for its construction. The beauty of our community will be enhanced with such a place of peace and holiness. Again, thank you for your consideration.</p>

Comments	We would love the Lone Mountain temple! It would help me and so many others! We would be able to reduce the commute to the Las Vegas Temple which would in turn reduce car emissions and traffic. The Lone Mountain temple is a symbol of beauty regardless of it people consider it their place to worship or not.

Comments	<p>I lived in Las Vegas from 1991-2009 a couple of blocks from the LDS Temple on Sunrise Mountain. It only beautified the area and enhanced the natural beauty of Frenchman Mountains (which my sons hiked). The members of The Church of Jesus Christ of Latter-day Saints are law abiding, peaceful people, whose ancestors settled Las Vegas. There will be no disruption to nature or people with the building of this temple. Casinos are allowed to be built with several stories on all sides of town and they do not take away from the natural beauty of Las Vegas! This temple will become a beautiful landmark just like the one on the east side of town.</p>

Comments	I am so grateful to have this beautiful House of the Lord on this side of the Valley. It will only bring goodness and beauty to the area. This Valley has become so wicked and crowded and overwhelming busy that this small piece of land (the temple) will bring a calm and peace for everyone near and far.

Comments	<p>I'd like to offer my support and excitement for the construction of the Lone Mountain temple for the Church of Jesus Christ of Latter-day Saints in Las Vegas. These Christian temples are known to create lovely places of peace and beauty in the communities where they are built. They attract individuals and families who are peaceful, kind, and service-oriented. This temple will be a beacon of light, a positive landmark, and a blessing to the city of Las Vegas.</p>

Comments	The LDS temple will enhance our neighborhood. I have seen dozens of these temples. They are beautiful and well-maintained. The people using them are good neighbors and citizens. Although it will be tall, it will stand out in a most positive way to beautify this area. And Those who live by temples experience its positive influence very quickly.

Comments	The Temple will bring nothing but beauty, tranquility, and peace to the community. It won't add a lot of traffic because people come and go throughout the day, not all at once. It won't create chaos and noise because people go to the temple with an attitude of reverence and peace. Please allow the temple to be built!

Comments	<p>Being 1 of over 120 Temples built by the Church of Jesus Christ, it is easy to verify the benefits of having a Temple built within a community. From New York, to Washington SC, to Cleveland, Ohio to Los Angeles, CA...and so many in between, the Temple brings value, beauty, appreciation for our place in the lives of others and a chance to exercise our privilege to worship God. As a member of this church, I have actually been to the temples I've listed, and every time I visit one, I leave feeling like I want to be a better person and contribute meaningfully and positively to my community. And so has the people I've spoken with who have also visited Temples. It will provide untold benefits to the community surrounding the proposed Lone Mountain Church of Jesus Christ of Latter-day Saints Temple. For any concerns: check out current LDS church Temples in any number of cities all over the USA. There are over 120 to check for verification of facts and not supposed, unfounded concerns.</p>

Comments	I want the opportunity to worship in the temple without driving through downtown trying to get to the current location. This new one will be closer and I can worship more often.

Comments	Latter-day Saint temples are built for people to gather reverently to worship God. All latter-day Saint temples are maintained impeccably both in building and on the grounds. When the temples are built the architects carefully consider the natural beauty surrounding the temple and strive to maintain and enhance the nature. This structure will allow people to exercise their religious freedoms, and the construction and maintenance of this temple will be done in a respectful and conscientious manner.

Comments	<p>My parents came to Las Vegas, from Utah, in 1954. Me and my three sisters were raised in Vegas. I raised all Six of my children in Vegas. Most of my grandchildren were born in Vegas -13 of them are still in Vegas. We are four generations of Las Vegans and faithful members of the Church of Jesus Christ of Latter- Day Saints. We are so thankful for our Temple on Sunrise Mt. We look forward to the new Lone Mt. Temple. The temples bless the whole Valley not just members of the church.</p>

Comments	<p>I am writing in support of the proposed Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints. I am a member of the Church of Jesus Christ of Latterday Saints and I live in Summerlin North. The current temple on the East side of Las Vegas is a difficult drive for me when I want to attend the temple. The location of the Lone Mountain temple will not only add beauty to the area, but will provide easier and more convenient access for me and the many members of our church who live on the West side. The temple is a place of spiritual worship where I can find peace and comfort away from the world. Please allow the Church of Jesus Christ of Latter-day Saints to build this beautiful edifice as planned as all in its midst will benefit from its beauty.</p>

Comments	<p>I totally support the building of an additional Temple for The Church of Jesus Christ of Latter Day Saint in their endeavor to build another temple on the west side of Las Vegas. This will facilitate many members of the Church Of Jesus Christ Of Latter Day Saints to attend a temple that is close to them..</p> <p>I respectfully understand some peoples disagreement on this project. However, it's been my experience since living in the valley for the last 23 years that at Temple of the Church Of Jesus Christ Of Latter Day Saints has been a great asset to the neighborhood and risen property values and increase the worship of the people in our valley.</p>

Comments	<p>In regards to the building of the LDS temple in northwest Las Vegas, I completely support it. The building will not only be beautiful but will bring great peace to our valley. The temple near Sunrise Mountain was also protested many years ago but it has done nothing but be a beautiful landmark in our wonderful city and a place of holy worship for the LDS community. The temple in the northwest will give thousands of visitors the opportunity to enter and see what the temple is used for. Nothing is secret, but rather sacred. The members of the Church of Jesus Christ of Latter Day Saints have been and will always be valued, respected and hard working members of the Las Vegas community. Please accept this as my message of support for the new LDS temple. Sincerely, Mike Livreri</p>

Comments	I live close to the other temple on Bonanza and Temple View. It is a place of peace. It is a beautiful building that is well kept and an attraction to families for both those who are members of that church and those not. It is a building that uplifts the community rather than draw it down. What a blessing that another is offered to our community.

Comments	I support the LDS temple being built in Lone Mountain. Temples are a sacred place for members of the faith to gather and strengthen their beliefs in God and Jesus Christ. Having easy access to a temple allows members to worship in the temple more frequently. While others claim that temples will worsen traffic or increase noise levels this is often not the case. While there will be members traveling to the temple for worship, it is not such a significant number that it will have a negative impact on the neighboring communities.

Comments	I live in the Lone Mountain area, I believe that a temple in our area will be a great addition and actually improve property values. The first temple built in Las Vegas had the same objections, and all of the worries did not come true.

Comments	I fully support a temple of the Church of Jesus Christ of Latter-day Saints in the northwest as proposed. I am familiar with the beauty and all around benefits the current temple on the east side offers and I know the proposed temple will be a great asset to the community in the northwest. It will beautify the area, be a place where all citizens can walk the grounds and be uplifted by the peace found there and will allow so many of my neighbors who are members of the church to worship as they wish more often than they can now.

Comments	Dear Members of the City Council,
----------	-----------------------------------

I am writing to express my enthusiastic support for Project #24-0072, the proposed Temple of The Church of Jesus Christ of Latter-day Saints at Lone Mountain. Having grown up in the vicinity, the prospect of having such a beautiful temple in our area fills me with immense joy. Temples are not just architectural marvels; they are beacons of peace and centers for community gathering that promote values of kindness, service, and unity. I am confident that the presence of this temple will greatly enhance the beauty of our city and enrich the lives of its residents. Moreover, I trust that those visiting the temple will show the utmost respect for our neighborhood, further ensuring that its impact on our community is wholly positive. I earnestly request the council's approval for this project, confident in its potential to promote goodness and unity within our community.

Comments	I believe in and support the right of all Citizens to practice their religion and the associated practices and ordinances to be executed as part of those beliefs. The related building and spaces proposed are necessary to fulfill those purposes. This Temple will allow for those freedoms to be exercised. We know there is much to consider and ask that our rights and privileges as Citizens in this great Country are considered carefully. Thank you for all you do, Sincerely the Church-Hayes family

Comments	I am in favor of the construction of the Church of Jesus Christ of Latter Day Saints Temple near Lone Mountain. There is a need for this building by attendees. And as can be seen from other such temples these buildings and their grounds beautify the surrounding area in reverent and thoughtfully appropriate ways.

Comments	<p>I fully support the building of the LDS Temple. All LDS Temples I have seen are beautifully designed with immaculate detail. Concerns about lighting are a non issue, as lights are non intrusive and typically aimed at the building. Safety traffic in the area should not be a major concern since appointments can be limited, and the building can only host so many individuals.</p>
----------	---

Data points could be pulled from the well established temple located on the east side of Las Vegas to validate any concerns on safety, traffic, or view obstruction.

Project Number	24-0072
-----------------------	---------

Position	I SUPPORT the project and all related applications.
-----------------	---

Name	Melissa Gardner
-------------	-----------------

Residential or Business Address	11024 Mount Royal Ave Las Vegas , NV 89144
--	---

Phone	(702) 927-5450
--------------	----------------

Email	laprincesse03@hotmail.com
--------------	---------------------------

Comments	The temple will bring beauty to the surrounding area. The grounds are peaceful, quiet and well maintained. It has also been shown to improve the property value of surrounding neighborhoods with temples in other areas, including the one currently operating in east Las Vegas.

Comments	<p>I fully support this project!</p> <p>The architecture and grounds from the estimated look, look beautiful. I believe that it will bring some beauty to the neighborhood. Which is always appreciated.</p> <p>As far as the lights, if you look at the other Temple in the city, the lights are not blaring bright like they are on the Strip. They are dimmed to where you can see the building but it's not so bright that it affects the houses around. The same will be fine for those living near the new building.</p> <p>It is not in the way of views or anything.</p> <p>Plus it will look 100 times better than an apartment building they would more than likely build there.</p> <p>So I fully support this Build!</p>

Comments	<p>The Temple is a building of beauty and peace. Many people walk around it in prayer. It brings good to any community, and the church tries to meet all of the challenges that the neighborhood has in terms of lights and traffic. It would be an answer to prayer to have this building built in the Northwest. Thank you for your consideration.</p>

Comments	I support the building of the temple in that location, and I think it will help the community. In order to enter the temple, members need to live with good morals, and I think a healthy community requires its residents to live with good morals. I think it will help beautify the community, and be a place where both members of the Church of Jesus Christ and non-members can find peace. We believe that Temples are the House of the Lord and are very important to our worship, and this country upholds freedom of worship.

Comments	The temple is a very important part of my religious life and an essential part of my emotional well-being. It would mean so much to me to have a temple that is easier to travel to. Temples and their grounds are well-kept and beautiful as it is an outward expression of our love for our Savior Jesus Christ. I hope and expect that members of the community will find that the patrons are polite and respectful as only the most devout members of The Church of Jesus Christ of Latter-Day Saints are worthy to attend.

Comments	The Church of Jesus Christ of Latter-Day Saints (LDS) temple is an important part of the faith and tends to uplift and elevate the surrounding community. The temple is a sacred builidng where families are brought together under God. Attending the temple is a crucial part of the LDS faith and a second temple is needed to accomadate the ever growing membership in the Vegas valley. Please allow this sacred structure to be built.

Comments	Please allow The Church of Jesus Christ of Latter-day Saints to continue with this project as already established. There is precedence for how this will not cause more traffic issues in the surrounding neighborhoods. Just look to the current temple already located on Sunrise Mountain. People can still ride their horses. The temple does not keep bright lights on all night. Most areas will find that their homes increase in value because of the temple being built there.

Comments	<p>The temple is a beautiful religious building with meticulously kept landscaping that will increase property values in the surrounding area. The people visiting will be well dressed and well behaved.</p>
-----------------	---

We currently only have one LDS temple in the valley, on the foothills in East Las Vegas. My parents live in Centennial Hills, and they commute to the temple every week. They are in their 70's; travel is becoming more difficult for them, traffic continues to get worse, and travel times consistently lengthen. This new temple will only be 9 minutes from their house! They are so excited for the temple to be built! Please allow this place of worship to be constructed as planned.

Thank you,
Lara Allen and family

Comments	<p>I strongly support the building of the temple for The Church of Jesus Christ of Latter-day Saints near Lone Mountain in Las Vegas, Nevada. There is a great need to have a second temple in Las Vegas for those members of the church who live on the west side of the valley. The temple that is on the east side of the valley has come to near capacity and some people are not able to attend because it is so busy. The Church of Jesus Christ of Latter-day Saints has always done temples throughout the world in a very dignified and proper manner. The temple will be a great asset to this part of the valley and to those neighbors who are nearby. I hope you will consider passing this project and appreciate your service to our community in your elected positions.</p> <p>Sincerely, Richard K Adams</p>

Comments	<p>The Lone Mountain Temple will be a beautiful addition to the landscape of the area and add to the area that surrounds not only community but the whole neighborhood. It will add value to property that now exists and for future development that is to come. You only have to look at the Las Vegas LDS Temple as an example to what it did to enhance value and beauty to to their surrounding neighborhood as an example.</p>

Comments	<p>The Lone Mountain LDS Temple will be a beautiful addition to the landscape of the area surrounding the Lone Mountain. It will not only add beauty to the environment but a true value to property owners as well. You only have to look at the Las Vegas LDS Temple after it was dedicated to see what the value of their neighborhood soared as proof to what a temple will bring to your neighborhood. There is no down side to having such peaceful, welcoming, beautiful neighbor such as a temple.</p>

Comments	I support the Lone Mountain Temple. Temples are a beautiful, peaceful place to commune with Father in Heaven and nothing but a good truly neighbor. The Temple will not take from the landscape of the desert surrounding the mountains or the neighborhood, but will guarantee a lifelong neighbor of well kept beauty and landscapes.

Comments	<p>I am in support of the new LDS Temple. We have casinos and sports complex going up all the time. I am in support of the temple because of what it stands for. It is a place where people can go to get married or get ready to go on a mission to name a few. The other temple needs updated and cannot support everyone that needs its services. That would require two temples. People that go their are quiet and considerate. So we would not bother any of the neighbors. There will be no loud noises or alcohol so everything will be peaceful at all times.</p>

Comments	I think this project would be a wonderful addition to our great city. The temple located on the east side of the valley is a blessing to the neighborhood and does not detract in way from the surroundings. Those that visit the temple are always courteous and polite. The temple grounds are always well maintainted and appealing. This project will be a benefit to whatever neighborhood it is built in.

Comments	<p>We strongly approve the building of the Lone Mountain Temple and all that it entails. As someone who grew up in the Las Vegas Valley I have enjoyed having a temple in our area. However, with the location in the Northeast part of town it creates a major time commitment to travel to and attend the current Las Vegas Temple. The plans of the new Lone Mountain Temple would provide easier access to the temple for church members like me, particularly those that live on the west side of town. Temples are a blessing to all within its vicinity, members and non-members alike. It brings a light, peace, and sacredness with it that everyone can enjoy. While temple traffic may be busy as construction and the open house take place the actual running and operation of the temple will not bring with it a high volume of vehicles on a regular basis. This can be exemplified by the current temple traffic at the Las Vegas Temple.</p>

Comments	<p>An LDS temple is extremely beautiful and the grounds are kept manicured at all times. It is a place of peace and beauty for the entire community. It will increase the value of surrounding homes and neighborhoods.</p> <p>Local members of the LDS faith have been waiting for this for a very long time because the only temple in Las Vegas is far and inconvenient to get to for most of the members.</p> <p>The crowd of people who will be attending the temple to worship will be kind and respectful.</p> <p>It's a win win for everyone.</p>

Comments

I am very much in favor of this building.

In relation to its size:

Though it may be bigger than the homes and other buildings in the area, its positive purpose is also as big if not bigger than any one building in the area. The fact that it brings good and respectful people together for a positive purpose of serving and loving one another, is reason alone to want something like that close by. In this world of hate, anger, fighting, lawlessness and more - - who wouldn't want an opportunity to have something (anything), that is a gathering place with such a positive, serving and loving purpose close to them. Positive and Good behaviors generally propagate more positivity and goodness. Hence, the more good we surround ourselves with, the better off we are, and we increase the chances of having more "good" things around and happening to us.

As for the lighting:

The scriptures tell us our Savior is the Light of the World. When good light is used in positive ways, it is always beneficial inwardly and outwardly. The lights on the temples are purposeful and are focused lights for the building and many shine upward far more that outward, but never enough to negatively impact the view of a starry sky. An interesting fact is, that when the Church has turned off the lights of buildings in certain neighborhoods who initially expressed concern, the residents themselves; many (if not most), who are not of the same Faith, request that the Church turn them on. Not only do they miss the beauty of the building itself, but they feel safer when they are on.

I hope the building is approved. I am not aware of any long lasting negative impact of a Temple built by the Church of Jesus Christ of Latter-Day Saints. Each brings far more positivity to the area in the long run...

Thank you.

Comments	<p>I support the building of religious spaces in my community. I think the proposed building plans look beautiful and I think it will be an asset to the surrounding neighborhoods. The central spire's height is not an issue the way a building with several full floors to that height would be. Steeples and spires/towers on church buildings, synagogues, and cathedrals are typical and part of the beautiful architecture. I support the proposed plan.</p>

Comments	The LDS Temple will improve the Las Vegas community in so many ways. People who attend are working to better themselves and to help others. The LDS temples all over the world are well maintained and quite beautiful. The grounds are open for anyone to come and enjoy the beauty. We need more places like this to go to and enjoy peace.

Comments	<p>This project will have minimal impact on traffic or any other connection in the areas surrounding the building site. The City of Las Vegas has already done an outstanding job of creating and designing a roadway system to accommodate future growth. Like the LDS temple already constructed on East Bonanza, noise has been and will never be an issue in the building's use. It is always a good thing for any community to construct local houses of worship near where its parishioners live, work, and play. Thank you for considering and acting on the construction of this house of worship.</p>

Comments	We support the construction of this new temple for the Church of Jesus Christ of Latter Day Saints. There's many regular meeting houses of this church throughout the Las Vegas Valley that are well taken care of including the outdoor landscaping. We also support the building of other faiths to meet the spiritual needs of its adherents.

Comments	Every LDS temple with which I have ever been associated, from Washington DC to Chicago, to Las Vegas to a California, has gone through this process of resistance by certain members of the community. It is inevitable. But in the end, in every case it has turned out to be a blessing and a benefit to the community as a whole. It produces beauty, and peace. It maintains or raised property values. They are well cared for, and enhance the whole environment. I recommend approval!

Comments	<p>The building of this Temple to the people of the Church of Jesus Christ of Latter Day Saints and even to the community members who will live nearby, will greatly benefit from the grounds of the temple being nicely kept and will bring a beautiful and calm atmosphere, along with maintaining the integrity of surrounding communities.</p> <p>It will not be distracting to the nature around it. Please allow the members of the Church of Jesus Christ of Latter Day Saints this temple for their worship and see how it will improve the area.</p>

Comments	Temples are an essential part of our worship that reinforces critical connections to God and family, which positively impacts the community at large. There is currently only one in the entire valley, and it is difficult for many of us to get to around work schedules and traffic. Please allow this second temple to be built. Thank you.

Comments	<p>Thank you the opportunity to express my opinion about the construction of the Lone Mountain Temple of the Church of Jesus Christ of Latter Day Saints.</p> <p>We have lived in Las Vegas the past 7 years and love it.</p> <p>One of the many wonderful things we appreciate is the diversity of our neighbors and the support of community affairs.</p> <p>We have been surprised at the objection to this construction in a community that is typically very supportive of efforts to each other.</p> <p>Our experience is that neighborhoods that have buildings of worship -wether it be temples, synagogues, cathedrals or mosques-tend to be more vibrant and experience a stronger feeling of community. We expect this will happen around the Lone Mountain area.</p>

Comments	The temple proposed by The Church of Jesus Christ of Latter Day Saints is a beautiful addition to the area. Temples do not add substantial traffic to the area and the patrons of the temple are peaceful and respectful to the neighbors and area. Temples offer a wonderful blessing to the neighborhood for both beauty and representation of respect, worship and community.

Comments	<p>I have been to LDS Temples all over the country and it is very evident that they beatify every area they are built in. The church does a great job in scheduling sessions so that the traffic isn't a huge impact. There is not a noise problem created because everything done inside the Temple is done in reverence and cannot be heard outside. Lastly, there is a huge need for this Temple due to the growing number of parishioners that cannot all attend the existing Temple on the east side of this ever growing city.</p>

Comments	To Whom It May Concern:
----------	-------------------------

David and Diane are in full support of construction of the Lone Mountain temple considering the beautiful, well-maintained edifice and grounds that will result. It will be a wonderful addition to our area, including increased land value. We and many others will find more peace, joy, kindness, and compassion through its presence and use.

Temples have been wonderful additions to communities and neighborhoods across the country. We strongly encourage the city of Las Vegas to approve and fully support moving forward on this project.

Sincerely,
David and Diane Burningham

Comments	<p>I full heartedly am in favor of the proposed project. While I have read articles in regards to the concern from surrounding neighbors I do not aim to be insensitive to them. I believe it is human nature to oppose change in certain aspects of our lives. I know and believe the building of a temple would be a blessing to all the surrounding neighborhoods. It brings a sense of peace, beauty and financial benefit to the area. While I understand concerns I also realize that there would be many long-lasting benefits that many are unaware to those with concerns.</p>

Comments	I support the construction of the temple. Although there are valid concerns from neighbors in the immediate vicinity, there are significantly more benefits that will come with the temple. Traffic impact will be negligible. The temple is far enough from the trail that horse riding and recreational activities will be not be impacted. Furthermore, the temple increases the areas land value because the objectively high quality building will replace an empty, barren dirt lot.

Comments	<p>The proposed LDS temple is a beautiful and sacred building. This will be a building which is well taken care of and pleasing in appearance. The people who will frequent this building are a respectful group and will not be bringing crime to the nearby areas. This will lead to increased property values and a safer neighborhood. If I lived in the adjacent neighborhoods I would much rather have a building owned and maintained by the Church of Jesus Christ of Latter Day Saints over a 300+ apartment complex, casino, shopping center or bar. I fully support the building of this proposed project.</p>

Comments	The temple is a place where people learn to be better people. Better people create better communities. We know that the temple in the lone mountain area will uplift all around it and be a peaceful place for anyone (members and non members of The Church of Jesus Christ of Latter Day Saints) to find refuge.

Comments	I fully support the project and all related applications. The Church of Jesus Christ of Latter Day Saints Temple on the East side of town is beautiful, well maintained, and surrounded by beautiful homes. It does not cause any problems to the residents in the area. The Church of Jesus Christ of Latter Day Saints and it's members are good neighbors and represent a sizable proportion of the Las Vegas Valley and Clark County population.

Comments	<p>My family and I have resided in Southern Nevada for over 80 years. We've worshipped, worked, served, educated, employed and raised families here. We strongly support the construction of the new LDS Lone Mountain temple. I personally travel to the existing LV temple several times a month and am eagerly awaiting this new, beautiful, edifying and sacred structure to be erected so close to my home. Thank you for your consideration.</p>

Comments	The Lone Mountain Temple will be a great addition to the community. It is architecturally pleasing and stands as a symbol of beauty and peace. It's beauty can be enjoyed by all. And it will be a special blessing to the many thousands of nearby members of its church to worship as they see fit and to bring about good.

Members of the Las Vegas City Council,

We would like to express our support for the Lone Mountain Temple in Las Vegas, Nevada. We have lived in Las Vegas for more than fifty years. My wife is a native. Growing communities have always needed places of worship. We acknowledge God's hand in our very lives and existence. Building places of worship was one of the first projects our founding fathers set out to do immediately. The rule was that no building should be taller than a church spire. No debate is needed when it comes to pursuing the work and support of Christian worship. Thank you as the Las Vegas City Council, for your vote in supporting the Lone Mountain Temple in Las Vegas, Nevada. The temple will be a beacon of light to our community.

Sincerely,
The William Glen Humphrey Family

Comments	<p>This will be an outstanding project and the neighbors and neighborhood will benefit from OUTSTANDING perimeter landscaping that will be a compliment to the area! Temples are always beautifully maintained and uplift an area. We hope that the Las Vegas Planning Commission and Las Vegas City Council fully support this new beautiful religious structure in the Northwest part of the City!</p>
-----------------	--

We hope the Review Journal will write a similar article about the Las Vegas City Council, like they wrote at the end of December 1984...Under the Headline...The Right Decision on Mormon Temple. "The County Commissioners made the right decision; they approved construction of the Temple. Everyone can empathize and sympathize with the neighbors who objected to the Temple. For the greater good of the community, however, a Mormon Temple is a welcome addition". Thank you for your support in advance, Howard & Cristi Bulloch

Comments	<p>We have lived close to the Las Vegas Temple located on Temple View Drive & Bonanza for 35 years, since it was built.</p> <p>The Temple has never posed any type of problem in the neighborhood. It's highest steeple is 119 feet tall with 5 other smaller steeples. They have never detracted from the view of Frenchman Mountain or the view of the city (day or night). Quite the opposite, the Temple enhances the views and the entire area. The traffic can enter and exit from three separate gates and has never been problematic. The starting times for the meetings inside are staggered so there is never a rush of cars entering or leaving the site. The site is very beautiful, and it is maintained perfectly. The color plantings are timed to the seasons and the Church has complied with watering standards and still kept a stunning site. The building is closed on Sundays and Mondays, so there is no impact on those days. We believe that the Temple and it's grounds has increased the value of our property and given us a much-improved environment on the east side of Las Vegas. We encourage the approval of 24-0072.</p>

Comments	<p>I am writing to voice my support for the building of the beautiful Lone Mountain, NV temple. I was so excited to find out a new LDS temple was going to be built. I hope and pray this temple can be built. It will be a wonderful place of peace, beauty, and worship for many in Southern Nevada! Please allow us to build this temple as was proposed. I can't wait to worship in this new temple! I would love to have one built nearer to me but am so grateful to have one built within an hours drive! I support the proposed temple!</p>

Comments	I am in favor of the Lone Mountain temple project. Not only will the project will beautify that neighborhood and increase property values, it will be a positive influence in the community and an important concession to the large number of LDS residents in the valley (6% of valley residents are members of the Church of Jesus Christ of Latter-day Saints, and are the 2nd largest religious denomination).

Comments	<p>I would love to see Las Vegas get a second temple. It would be nice to have more availability to attend and to not have as much traffic for those traveling from the west side of town, where I used to live. (It is densely LDS)</p> <p>Wherever I have traveled and visited a local temple, the neighborhood around it is clean, quiet and on Zillow; holds a value above other nearby neighborhoods. I have seen the positive impact that a peaceful house of worship can bring to a neighborhood. While loosing part of your view is not ideal, I don't think the full mountain would be blocked. If we could fast forward time, I think the homeowners nearby would grow to love the view of such a beautiful building. I hope agreements can be made so this house of worship can be built!</p>

Comments	I am a native to Las Vegas raised in the Lone Mountain area and I fully support the proposed Church of Jesus Christ temple. The beautiful architecture will enhance the area. Members of the church will treat this as a sacred place, will maintain it in pristine condition, and will conduct themselves with reverence and civility when visiting the temple. The church's hundreds of other temples in other municipalities throughout the US and world demonstrate this standard without exception. This temple will be a treasured resource to the thousands of members of the Church of Jesus Christ of Latter Day Saints who live in Southern Nevada.

Comments	I rock climb at beautiful Lone Mountain frequently and look forward to overlooking this beautiful building as I climb. I feel like it will only add to the beauty and serenity of the area. There is nothing "hustle and bustle" about a temple of the church of Jesus Christ and latter-day Saints. It's all about peace and serenity and spirituality.

Comments	<p>Why is it that anywhere one of these Temples goes in, property values in the surrounding areas rise substantially.</p> <p>Maybe it's because they add so much good to any area they are located. So much Beauty! These Temples are some of the most beautiful structures on the face of the earth. They add to, and complement any view.</p> <p>So much Serenity! These Temples invite/bring peace, solace, and a beautiful atmosphere anywhere they are located.</p> <p>So much Love! These Temples bring the most loving, kind, caring people you could ever want in your community. We care for, and love all humankind.</p> <p>As far as traffic, these Temples don't invite/bring people racing up and down the streets, they bring a peaceful, calm, light commute, in and out of the temple.</p> <p>I completely support this project moving forward, and all the good it will bring to our community. Thank you for your time and consideration.</p>

Comments	The Church of Jesus Christ of Latter Day Saints temples always bring increased property value to the homes around them. They are very safe, and gorgeous! During the open house, it will be busier than normal, but it will not be a continual issue.

Comments	<p>The Lone Mountain temple will be beautiful and it will only have positive effects for the surrounding area and community. It will bring people from around the valley who will also go to businesses and restaurants in the area. While the temple is sacred and is a place of worship for members of the Church of Jesus Christ of Latter Day Saints, once built, before the dedication, it will be open to the public for tours. The church has plenty of videos (churchofjesuschrist.org) talking about the ordinances and answering questions anyone may have about the purposes of the temple. After its dedication, members of the public are always welcome to walk the temple grounds and enjoy the beauty. If you take a look at the temples the church has throughout the country and world, you can see the beauty and goodness they bring.</p>

Comments	This temple is a long awaited and welcome addition to our city. The location is perfect to serve members of The Church of Jesus Christ of Latter-Day Saints in the western part of the valley. We are thrilled to have this project moving forward and we are certain that the church and the city will be able to work together in order to create a plan that is respectful to the needs of the surrounding area while providing a sacred haven for followers of Jesus Christ to worship.

Comments	<p>We have many youth who like to attend the current temple of the Church of Jesus Christ of Latter-day Saints. A large number live on the west side of the valley and they spend quite a bit of time traveling to attend the temple. It would be a huge blessing to them and their families to have a temple much closer so they could enjoy this opportunity more often and at a greater convenience and safety. My husband and I are in our 70's. We also enjoy working in the current temple, but the trip is becoming more hazardous for us as traffic congestion increases. We would dearly love to have a temple nearer to our home so we could enjoy this privilege more often.</p> <p>Temples of the Church of Jesus Christ of Latter-day Saints have a very positive impact on the communities they serve. They bring families closer together, they strengthen the youth and give them positive opportunities to serve and bless others. They are beautiful and well-maintained and enhance the neighborhoods in which they are built. They also provide a great opportunity for the members of the Church to do good and give time serving others.</p> <p>It would be more efficient for the many people traveling from the west side of the valley to the current temple to drive less, use less fuel and time. I understand there are approximately 500-600 people who make this trip weekly to serve in the current temple, so it would have some impact on their time and expenditures, if not on emissions of the whole of the community.</p>

Comments	<p>I support the building of the Lone Mountain LDS temple. In every city we've lived or visited where a temple has been built, and there have been dozens, the temple is very well maintained and only adds to the beauty and value of surrounding properties. In a city full of buildings and areas that are degrading and lead to crime, vandalism, and degradation of humanity, the temples of the Church of Jesus Christ of Latter-daySaints are not only architecturally beautiful, but bring a sense of peace, dignity, and capture the love of God, just by their appearance. Please vote in favor of an edifice that would make Las Vegas a more welcoming, beautiful city.</p>

Comments

Hi, there. I fully support the building of the Lone Mountain temple of The Church of Jesus Christ of Latter Day Saints. I understand the anguish of the local residents seeing the changes that will be made to the large desert lot near their homes. I agree it would be wonderful to have the Las Vegas Valley stay the same, with less traffic and more open areas. Yet, Vegas is growing, as you know. The saints in the valley have only had one temple on the east side of town for the past 25 plus years. Since then, our membership has grown exponentially, and a second temple would be a great help to us.

Some things the residents may not realize; in the past buildings of LDS temples, the home values of that neighborhood have always sky rocketed. Realtors are able to sell homes easily near a temple. There is an immense peaceful spirit that is felt on that sacred property. I have heard that the local residents are worried about the extra traffic that will come. What they don't know is that the people coming to visit this building are peaceful Christians that would not cause any harm or trouble for the area. If a public school was built on the Lone Mountain temple proposed lot, the crowd will be much different and at times, negative and disturbing the peace.

I can speak for many fellow members of our church in the Vegas valley that we would be eternally grateful for this temple to be allowed. It will only inspires beauty and peace from it's beautiful view. It will serve as a strengthening place of worship for those permitted to enter after the dedication takes place. The dedication is a beautiful experience where everyone in the community are able to walk through and feel the presence of the spirit in this beautiful building.

I pray that hearts will be softened and this temple will be allowed to start construction. I pray that the local resident's hearts will be softened, and will see how this building will bless their lives. Thank you for taking the time to read this. Bless you. Erin

Comments	<p>I think this is a great location and opportunity to eliminate some of the pressure of the current Church of Jesus Chris of Latter day Saints temple There are several other Religious denomination temples through the Ls Vegas Valley and the Church of Jesus Christ of Latter Day Saints should be no different</p> <p>I am in Support of this project</p>

Comments	<p>I have lived on the East side of Las Vegas for 34 years, near the Las Vegas Temple. It has only enhanced the value of the homes and kept that location clean. There is minimal traffic and they have always worked with the neighborhood regarding lighting. They no longer light it in the evening.</p> <p>Having this kind of structure in a neighborhood enhances the area, as shown from my experience living on the East side of town. I take walks by the temple often and marvel at it's beauty and structure.</p>

Comments	I fully support the building of a temple near Lone Mountain at the proposed site, inclusive of the proposed size and height of the building. Temples bring peace and beauty to the community. They keep property values higher and the landscape beautiful. They prevent the addition of buildings that bring crime and noise to the community. We also benefit from the spirit of buildings and people dedicated to God, virtuous principles, and humanity. It's a win for the whole community.

Comments	<p>Every temple I have been to is in a residential area and has anywhere from 1-3 meeting houses or chapels around it. Yes it will stick out, but it is supposed to be a beacon, something you can see from almost anywhere in the city, and close to mountains. The Lone Mountain temple will be a wonderful addition to the valley and the surrounding members who struggle to get across the valley to visit and make/renew covenants in the Las Vegas Temple. Please allow this temple to be built and continue to strengthen our faith for the ever growing community of the Church of Jesus Christ of Latter Day. Saints</p>

Comments	<p>Having lived across the street from the existing Las Vegas LDS temple for over 20 years, I can attest that the traffic and noise associated with the temple will not be the issue that the nay-sayers are making it out to be. Aside from the occasional wedding party taking pictures outside on a Saturday, you would never know anyone ever even went there. Yes, there were some cars, but not any more than there would be coming and going from a park. There are definitely worse things that could be added to the neighborhood, especially things that would invite a far less desirable clientele than people simply wishing to mind their own business and quietly worship inside.</p> <p>PS - the outside lights turn off at 11PM.</p>

Comments	<p>I am in SUPPORT of the Lone Mountain Temple for the following reasons:</p> <ul style="list-style-type: none">*It has been demonstrated that property values INCREASE when a home or community is located within close proximity of a Temple of the Church of Jesus Christ of Latter-Day-Saints.*The architecture and landscaping will add to the Lone Mountain area. The grounds are open to the public during operating hours for those wanting a peaceful and serene setting.*The Temple site will serve as an excellent buffer zone to the home development to the north of the proposed site from the proposed school zoning that is directly to the south of the property.*Traffic will be very reasonable throughout the day during operating hours. There are no Sunday services and the temple is closed all day Sunday and Monday. The proposed school, which is directly south of the property, will be very busy during morning and afternoon drop-off.*Property to the North of subject is Public Use and ranch estates. Property directly to the east is Ranch Estates Neighborhood (2 du/ac).*The other temple that is located on Temple View and E. Bonanza has the same zoning designation of Ranch Estate Neighborhood (2/acre). Thank you for your service and thank you for your consideration!

Comments	I grew up in this area catching lizards and riding dirt bikes. The desert lots that were part of keeping this area open and undeveloped have been turned into luxury homes and small gated communities with one by one. I would be much happier to see a large area developed into an architectural landmark with landscaped grounds open to public than wait for the next Lennar development with high red cinderblock walls obstructing the open space that used to define this area.

Comments	The temple will help maintain the good neighborhood. It will ensure that the people who are visiting the area are respectful. If the temple does go there something else will like a casino or something else, then you don't know what types of people will be in the area. LDS temples are always well maintained and beautifully kelp.

Comments	<p>The proposed Lone Mountain temple for the Chirch of Jesus Christ of Latter Day Saints is a necessary project. The temple is a special place of worship that our members use to serve god. Temple grounds throughout the world are all kept to very high cleanliness standards and are maintained with very beautiful aesthetics. The temple in the proposed location will help all 86,000 members in the Las Vegas area to serve our savior. As a member of the community, and a member of the church I wholeheartedly support the construction of the Lone Mountain Temple for the Church of Jesus Christ of Latter-day Saints in Las Vegas. This temple will not only serve as a place of worship for local members but also as a symbol of peace, unity, and spiritual growth in our diverse city. Its presence will contribute to the moral fabric and strengthen the values of love, service, and compassion within our community. Let us welcome this opportunity for spiritual enrichment and cultural enrichment with open arms.</p>

Comments	<p>I strongly support the lone mountain Temple project. As a Las Vegas resident of five years and active latter-day Saint, the drive to our current temple can be extremely long due to traffic and location. This temple will be much closer and easier to practice our religious freedom. There should not be any traffic concerns for local residents because temples have a consistent tiny flow of traffic throughout the day every day of the week (unlike typical churches where tons of cars go on meeting days). Also, the temple beautifies the area, and will be a magnificent point of interest in the lone mountain area. Concerns for maintaining a dark rural landscape do not make sense as there is a Walmart right down the street, and for how urban Las Vegas is.</p> <p>Please take into consideration the large religious community present in our neighborhoods and let this proposal go forward. Thank you.</p>

Comments	I believe this will be a great addition to the community for a number of reasons. Firstly, it will be a beautiful structure and bring even more beauty to that area (keeping in mind the traditional architecture of Las Vegas). Secondly, it will be a peaceful and tranquil place. Thirdly, it will primarily attract the "salt of the earth" kind of people to attend frequently. Fourthly, it will add value to the surrounding property, as it is a desired place to live near.

Comments	<p>We, (4 registered adult voters at this listed residential address), support the nearby proposed temple. This temple will beautify the community, and stand as a beacon of hope at the very time when we need light and hope in this world. The temple is a quiet, peaceful place inside and out, and the outside grounds are open to anyone in the neighborhood to come visit, and ponder and reflect. Allowing the construction of the temple to proceed preserves freedom of religion.</p> <p>We look forward to having an LDS temple so close to our neighborhood.</p>

Comments	<p>I wanted to extend my full support for the construction of the Lone Mountain Temple.</p> <p>In contrast with Las Vegas' reputation, this spiritual haven offers a place of tranquility and serenity that is simply unmatched. A thriving community of faith strengthened by this sacred edifice will only help the greater Las Vegas area.</p>

Comments	<p>Building a Temple will bring spiritual calmness and purity to any area it is in, but especially Lone Mountain. Lone Mountain is a beautiful place and a perfect location for a Temple. It is a quiet and peaceful experience whenever you visit a Temple, so it will not bring any negative effects to the area whatsoever. It will be a beautiful building that will be a visiting point for anyone and everyone to see. The people who will visit the Temple will always be respectful and kind. There is no downside to building a Temple, only blessings and wonderful opportunities.</p>

Comments	<p>I am so excited about the Lone Mountain Temple. The temple is a huge part of my religious practice. I travel across town every week to the Las Vegas Temple. It takes me an hour to get there and about 40 minutes to get home. This is due to traffic in the valley. Having a temple on the west side of town will make it much more accessible to my family and I and will allow me to go more often and with less time away from work and family. This is true for tens of thousands of members of the Church of Jesus Christ of Latter-Day Saints. The temple is a beautiful and peaceful presence in locations around the world. Anyone who is worried about the temple being built near Lone Mountain should drive to the Las Vegas Temple on any day of the week and experience for themselves what influence that building shares with its surroundings.</p>

Comments	<p>A temple at this location would be a spectacular piece of architecture that would beautify my back patio view. Not only that, the landscaping will beautify the area and will be a great place to walk and take family photos. Every temple has created value in the homes it is nearby because of its beauty, splendor, and religious significance of it being the house of the Lord.</p> <p>I intentionally moved to this side of town to be closer to a temple once it gets constructed. The height of the building will compliment lone mountain and its hikes. To be able to see a magnificent building from that angle on top of the mountain instead of just dirt.</p> <p>This spot compliments the parks nearby and will make my family and I spend more time outdoors and in that area to take part of any close businesses.</p> <p>The amount of traffic will not be significant since there is limited capacity of services that can be done each day.</p>

Comments	<p>I am so excited to have a Temple of The Church of Jesus Christ of Latter-Day Saints so close to where we live! I have lived in multiple states during my life and LDS Temples have always enhanced the areas and neighborhoods where they are constructed. They are beautiful and peaceful places where anyone can visit and enjoy the grounds and gardens. I am confident that this temple would also provide a wonderful, peaceful place for everyone living in the Lone Mountain area of West Las Vegas.</p>

Comments	The Church of Jesus Christ of Latter-Day Saints builds beautiful buildings all over the world. They take into account local culture and architecture to influence their design. It is always well maintained. The building and it's patrons encourage reverence and peace while on temple grounds, so there won't be noise disruptions in the neighborhood. It would absolutely bring a sense of beauty and serenity to the desert neighborhood. As a member of the church myself, I can attest to the fact that the church cares about being a good community member, and encourages it's members to also engage positively in the community. The building of the temple would only further the devotion of it's local members, and further the positive engagement in the community across the board.

Comments	When LDS temples are built they are a landmark that raise property values and add to the safety and beauty of an area. The young men and women that grow up around them learn to serve their community and create a better atmosphere for families. This will bless our family, our community and Las Vegas with economic growth and personal development.

Comments	<p>Temples of the church of Jesus Christ of Latter Day Saints are beautiful and peaceful buildings that bring a sense of beauty, order, and investment to the community around them. It is not uncommon for their presence nearby to increase home values in the area and this is especially likely in an area where church membership is so large and church members in particular desire to live close by. This building will be a blessing to the many members of the church in the area who will no longer need to commute to the current temple off Charleston and will likely cut down on traffic congestion from people trying to make it over there from the other side of town.</p>

Comments	<p>The LDS community has been needing another temple for years now. We understand concerns, but it's land bought and paid for and it's not going to be a party place it's a scared place. We love our neighbors and look out for each other. With Vegas growing so fast it's busy all over town and new buildings everywhere are being built. Hopefully a design can be agreed upon by the people and the city. Thank you!</p>

Comments	I support the building of the Lone Mountain Temple as it will offer members of our church within southern Nevada to attend its services. The building itself will beautify the area around it and adds diversity to the neighborhoods in its vicinity. Do not reject its construction and deprive the tens of thousands of Church members the access to saving ordinances vital to their faith and salvation.

Comments	<p>I understand some of the residents of the area oppose the building of the Lone Mountain Temple for the Church of Jesus Christ of Latter Day Saints. The reasons are zoning laws regarding heights of buildings and traffic. I think if they were to research they would find that in areas where temples are built, the home values go up. The buildings are beautiful and well maintained with gorgeous landscaping. The traffic at a temple is not like a sporting event where everyone comes at the same time. At the Las Vegas temple I have never seen lots of traffic. It would be very convenient for members of the church in the North and West of the valley to have another temple in the area. At times the commute to the Las Vegas temple is daunting. I want to speak up in favor of building the temple. Thank you.</p>

Comments	<p>I strongly support the LDS church's building of the Lone Mountain Temple as I believe it will unite families together for eternity. Having lost not one but two late-term pregnancies in the last three years, my wife and I have been heartbroken by tragedy. However, through many miracles we have witnessed, we have kept up hope in a greater plan which allows families to reunite and perpetuate beyond the grave. We look forward to the day when we can reunite and hold these precious children in our arms again. And this is made possible through the blessing of sacred ordinances found only in temples here on the earth. I'm sure some people do not fully understand the blessings of what this beautiful building will bring, but I can attest they all relate to the things that matter most. What could be more important than that?</p>

Comments	<p>I am a resident of this area and I support this project. I believe that the community will greatly benefit from the temple. It is a beautiful addition to the area and I believe it will bring many positives. In the evening there is always an option to turn off the lights in the area so that it doesn't distract the night sky. The Church of Jesus Christ of Latter-Day Saints church always has a positive effect on the community where the temples are built. Our family can't wait for the temple to be built!</p>

Comments	<p>I believe that this development will be an asset to the local neighborhood. The model for this development can be found in the Church of Jesus Christ of Latter-day Saint temple constructed on the east side of the Las Vegas Valley at the end of East Bonanza Road during the mid-1980s. There were concerns expressed at that time about potential negative impacts that would result from the development. Looking back, it seems clear that those concerns were unwarranted. The facility is a beautiful addition to the neighborhood. The building and grounds are attractive and have been well-maintained. Traffic impacts have been minimal. The patrons of the facility are orderly and law-abiding. Concerned neighbors to the proposed project should take the existing model into account in considering the impact of the project to their community.</p>

Comments	I support this project. These Temple's are always beautiful buildings with beautiful grounds. They do nothing but improve the area in which they're built. For those of the faith, these Temple's and truly considered houses of the Lord Jesus Christ, so the impact on their community and the community as a whole is uplifted.

Comments	We fully support the building of the Lone Mtn Temple. These structures add beauty, increased property values, and community gathering. A temple has symbolic meaning related to the mountain, making this an ideal location. Any traffic volume concerns can be resolved together with the nearby community. Alternatively a high school or other project put in this location would have a similar impact on traffic volumes.

Comments	<p>I would love this project be approved. I would be a frequent visitor and it would greatly enhance my mental and spiritual health. I believe having this building on this side of the valley will allow more residents the opportunity to visit this house of worship at a more frequent rate since the only other one is on the east mountain. Buildings like these do not attract large and loud gatherings, operate during normal business hours, and are limited to specific members of the faith. I do not believe that it will be a distraction from the landscape as it is a beautiful and simple design that will blend in well. In many other places around the world property value for surrounding properties increases when this kind of building is built. My family of 5 all want this project to be approved to allow the construction to start quickly because we are so excited for this project! The members of this faith add so much wonderful benefit to the community and by disapproving the project I believe it will taint the beautiful symbiotic relationships that occur. We want to encourage strong moral and ethical character in our community and adding this place of worship will absolutely encourage such behavior.</p>

Comments	The LDS Lone Mountain Temple will be a beautiful architectural addition to the area, just as the LDS Temple was on Sunrise Mountain where the area was largely undeveloped at the time and the Church of Jesus Christ of Latter-day Saints did much to beautify the area, increase property value, and support growth in the area. Further, an additional LDS temple is a practical necessity that is needed to support the over 85,000 members of the LDS Church who were instrumental pioneers in the original establishment of Las Vegas as a place of residence.

Comments	<p>Whether you are a member of the LDS church or not, you must look at the history of communities with Temples within the area. The LDS church builds beautiful, quality buildings that enhances the surroundings. Therefore, economically it makes good business sense to allow for the construction of the Temple.</p> <p>The country is divided on so many fronts and there is special attention being paid to dividing Christians. As Americans we should be fighting for rights for all mankind to be able to worship how and where they may, as long as their worship does not hurt another human. Certainly, nobody could justifiably claim that having this Temple, a beautiful place of worship, could cause injury to another.</p> <p>Once and for all we need to put our personal opinions a side and stand for rights as Americans. We need to be united in the cause for Freedoms. Regardless of your religious affiliation, this is an American right that we should all be united in.</p>

Comments	As a Nevada resident for 25 years, I support this application and project with the utmost enthusiasm. Las Vegas is and always has been an economically, culturally, socially, politically, and even religiously diverse city. This project will in no way cause any negative impact to the surrounding neighborhoods and communities. The building structures and grounds will be a beautiful landscape and add to the already pleasing atmosphere of the Lone Mountain area. The minimal increased traffic from attending patrons will not cause any disruption to the nearby neighborhoods. This project will further the wonderful diversity of our city and community in a positive way.

Comments	<p>A temple is a beautiful structure. The Latter Day Saint Church tries to use the architecture to accentuate the surrounding beauty and not detract. The grounds are always immaculately maintained.</p> <p>Most members understand what a privilege it is to have a temple in their area and treat it with respect, including the streets surrounding it. It's always an honor to have the opportunity to worship in a building dedicated to God and that spirit permeates into the actions of the those attending the area, keeping its location a place of beauty and calm; personally to me that will help keep the integrity of the Lone Mountian Rural Preservation better intact and help keep out unwanted company.</p> <p>Lastly there are many new homes being built already changing the traffic and amount of people coming through. The temple will bring people to it, yes, but it isn't the only thing adding to the increase of flow. Like other temples in operation, there will be set times to be open and closed, giving traffic cycles predictability.</p>

Comments	<p>My household supports the building of the Lone Mountain Temple and grounds. They will be well maintained and a quiet addition to the valley. Those participating in services are always asked to do so with respect and safety in driving. The public is always welcome to enjoy the grounds which are beautifully landscaped. The temple is a holy place that strengthens families which in turn strengthens communities. The work done in temples is wholesome and uplifting. We whole heartedly believe that the Lone Mountain Temple will be a positive addition to our valley.</p>

Comments	<p>Temples are special places of worship that provide the Latter-day Saints opportunities to grow closer to our Savior Jesus Christ, learn, and bless our families, as well as gain perspective and strength to serve our neighbors and communities, and endure life's challenges. I invite the members of this planning commission to consider its noble purposes, and to walk the grounds of the temple in the east valley and experience the peace it affords visitors and the surrounding area.</p> <p>I look forward to worshipping in this facility and encourage the commission and council will approve its construction.</p>

Comments	<p>I fully support this project and the positive impact it will have on the surrounding community. These temples are architecturally sound, aesthetically amazing and an excellent addition to the neighborhood. Attendees at the temple are quiet, peaceful, and respectful of the grounds on which they are built. The opportunity for all to visit the temple prior to its official opening provides exposure to other religious beliefs and helps dispel myths surrounding temples and why they are built. I wholeheartedly support the approval of this project.</p>

Comments	<p>I support the building of this structure. If you look at other similar buildings they are typically constructed in residential neighborhoods and their operations do not cause any traffic issues. Churches, synagogues, mosques, and temples are almost always built in residential neighborhoods and this one is no different. There is no reason to block it's construction. The rest of that lot is owned by the school district which presumably will be used to build a future school which will cause much more disruption to this neighborhood than a new temple. The proposed plan is perfectly OK and I do not oppose it at all. I live about 15 minutes from this location and look forward to it's construction.</p>

Comments	I support the Lone Mountain LDS temple 100%. Temple worship is central to our beliefs that the ordinances of salvation are essential for all mankind, including those who oppose the temple currently. Right now the other temple in Las Vegas is so overbooked that my children can't participate in baptisms for their ancestors as often as they would like. Please allow this House of the Lord to be built. Dr. Keith Winder.

Comments

Thank you for this opportunity to publicly support the proposed temple project from The Church of Jesus Christ of Latter-day Saints.

I moved to Las Vegas just a few years ago. My parents were both converts to The Church of Jesus Christ, so I grew up with the intense passion of a convert's fire, but always as a religious minority.

I remember when I was ten seeing "F*** the Mormons" scratched into the back of my parents car facing our house. But despite the disdain of some of our neighbors, my faith was always very important to me. It motivated my education, my emotional health, my parenting, my community service, and my labor.

One of the things I have most enjoyed about moving to Las Vegas is the deep heritage this city has for people of my faith, and the warm regard in which my people are held here. I've always enjoyed the "Old Mormon Fort" down on Washington and Las Vegas Blvd. Our minority faith has played a significant role in building up this town. And I believe that the ambitious spirit that characterizes our city even today comes in part from those early pioneers.

For members of The Church of Jesus Christ, like me, the temple plays an important part in our worship. In the temple we promise to uphold moral codes and a family life that helps create the strength of our city. We make those promises to God. When I make them I feel closer to heaven. And when I leave the temple I am encouraged to be kinder, work harder, and serve more. Going to the temple makes me a better person, and when I'm a better person I help make Las Vegas a better place. Even seeing the spire of the temple as I run errands reminds me of my worship and inspires my behavior.

I understand you have many important considerations as you decide on this proposal, but I can think of few better ways to use this land than to celebrate the heritage of one of the religious minorities that has played such an important role in our city's history. The fact that it will help inspire many of your citizens to be better, kinder, more community oriented people is just the cherry on top.

Thank you for your time.

Comments	I am in full support of the temple for the Church of Jesus Christ of Latter Day Saints. The temple will add beauty to the area and attract good people too. If Lone Mountain is becoming more developed i would much rather have a pretty temple rather than new town homes or a casino or a strip mall.

Comments	<p>We have been to the grounds of this type of facility many times, and always experienced a peaceful beautiful relaxing feeling. The grounds are always extremely clean and beautifying to any community no matter what season it is, The property value always goes up around these facilities, once they are built.</p> <p>The schedule of those who visit there is ongoing throughout the day, really there has never been much traffic there at any given time, that we have seen at any type of these facilities and we have visited many of them in different states.</p> <p>The project would be an asset to our community and add to the value of all our property values close and in surrounding neighborhoods in this area of town.</p> <p>Thanks for letting us comment.</p>

Comments	<p>I am asking the commission to approve this building project as it will not be a major problem with regards to traffic, design, or diminish property values. Look at what happened to these supposed problems when the temple was built on the east side of the valley. Property values went out of sight, it added remarkable beauty to the area, and traffic hasn't been a problem. Please approve this project.</p>

Comments	Our household supports this project for the beautification of our beautiful desert and community. Having a project like this elevates the community as a symbol to show a respect to God. We respect all who worship God in their respective religions as well as those who choose not to have an association with a higher being. A community that is built of respect and consideration of eachother has a strong foundation of trust. We respectfully request that our voice be counted in support of this project and the overall well being of our amazing communities in the greater Las Vegas area.

Comments	<p>We support the LDS Temple construction. Evidence of neighborhoods where they're built speaks loudly. Neighborhoods improve, values increase, and no inconvenience due to limited traffic flow as attendees are only a few at a time.</p> <p>Fear mongers and prejudice abound spouting rhetoric that's not even close to the reality of the temple, temple attendees, traffic flow, and impact on the surrounding neighborhoods. If there are serious concerns than a survey of those living next to the east temple is reasonable.</p> <p>The east temple neighborhoods have elevated values and no complaints. Parking is kept on temple grounds. Attendees are respectful.</p> <p>The same is seen around the world by those adjacent to LDS temples. Thank you.</p>

Comments	This building will preserve the ruralness of this area far more than any residential zoning or school building will. It will also prevent commercial buildings from being built in an area where desert preservation is important. A church is an asset to the community. These two church buildings will be far more advantageous to the area than gas stations or commercial buildings.

Comments	<p>I wholeheartedly support this project in every respect. This temple will be within my designated Temple District after it is constructed, and will be a great blessing to me, my family, and to my neighbors. I realize we already have a Temple far away on the east side of Las Vegas near Frenchman's (Sunrise) Mountain; however, that is a long-distance to travel for our members who live on the west side of Las Vegas. I lived here in Las Vegas in 1987 when the other Temple was approved by the County Commission, and I remember the same kinds of opposing arguments then, as are being made now; however, after approval was given and the Temple was built, the neighbors in that area all seemed to LOVE it whether they were members or not, and to this day have considered it to be their own. They have considered it to be an enhancement to the Sunrise Mountain and the surrounding area, not a detraction. I currently serve as the President and Presiding Officer of that other Temple, and although it is well used by the members in the entire Valley, it would certainly be a great blessing to us all to have the new Temple at a much more convenient location to half of our members, so that we can all attend by not having to drive exceedingly long distances to and from the Temple to worship as we believe God intends. I believe that our Temple neighbors on the east side of the Valley feel that this beautiful edifice enhances the entire area, including the beautiful Mountain View all, and I must say that I have never heard anyone say that our existing six (6) spire Temple blocks the view of the Frenchman (Sunrise) Mountain, or any of the other natural beauty in the area. Your support of this application will be greatly appreciated, not just by me, but for all of our members in Southern Nevada. William Hunt Stoddard, SR.</p>

Comments	<p>Hello there! I fully support a new LDS Temple being built in this city and this part of the valley. From what I understand there has been some pushback on it, particularly by the residents who own homes in the area it is being built in. The temple itself is a blessing for that area and our city. So many great things occur within its walls, not only for the living but for our brothers and sisters who have passed on from this life. It is also a place for self-reflection for the members who go to experience the strong spirit that is there. I can only assume most of the people opposing this don't understand and perhaps find it strange and mysterious. I am a member of the Church of Jesus Christ of Latter Day Saints and perhaps a nobody, but entering the temple makes me personally feel like I am accomplishing so much. It strengthens me to tell you the truth. It brings me closer to the person I should be. A lot of members could probably say the same thing. Please take my words into consideration. Thank you.</p>

Comments	<p>I support this project whole heartedly. I know the Church will be willing to listen and compromise what they can, to accommodate the concerns of the area residents. The temples are beautiful and would enhance any area where they are located. The Church members are respectful of temple properties.</p> <p>I hope the area residents will really listen to the truthful discussions of the property use, and understand what could be a beautiful asset to their area.</p> <p>I truly believe there is a meeting of minds, on both sides, if each side will listen with an open mind and heart.</p> <p>The temple on the East side of Las Vegas is great example. I would hope the opposers would talk to some of those neighbors. Thank you, Joyce Bohnet</p>

Comments	<p>I am highly in favor of the project for this Temple. As a Real Estate professional, each and every time a Temple of the Church of Jesus Christ of Latter Day Saints is built, the values of surrounding properties increase and the neighborhoods become more stable and people are drawn to the area.</p> <p>On the other hand, other "high elevations" structures, such as casinos have the opposite effect on property values and areas.</p> <p>This should be an easy decision that makes sense for the neighborhood, the city, the county and the state.</p>

Comments	The Lone Mountain Temple will be a beautiful addition to our community! Wherever temples of the Church of Jesus Christ of Latter-day Saints are built, they have added a sense of refinement to the area and attract goodness. Personally, it will be a blessing to me and my family to have it closer to our home.

Comments	<p>My name is Linda Francis and my address is 6449 Melody Rose Ave, Las Vegas, Nv 89108. I have been a resident in the Las Vegas area for over 70 years. I belong to the Church of Jesus Christ of Latter Day Saints and I am so thrilled to know of another Temple, the Lone Mountain Temple, that has been proposed to be built.</p> <p>I feel that this temple will be an asset to the community and the surrounding area. The temples are beautiful in design and have beautiful landscape. The temples, upon completion have an open house offering tours to the public so that anybody wishing to enter the temple can do so. Our temples are sacred to us and our connection with our Heavenly Father.</p> <p>Religion and houses of worship are important part of our community not only to my church and religion but to other religions. I support different faiths and encourage support of their church buildings and temples.</p> <p>I ask that the City of Las Vegas Planning Commissioners approve the building of the Lone Mountain Temple.</p>

Comments	I support the building of the temple by the Church of Jesus Christ of Latter Day Saints. This beautiful building is sacred place of worship that will be bring light and peace to the area of Las Vegas. It is an important place for members of the Church of Jesus Christ of Latter Day Saints. Not only does it have spiritual value, but it will also improve property values. All residents of the northwest valley will benefit from this building.

Comments	I support the building of the Lone Mountain temple because as a member who regularly worships in the temple on the east side of the valley, it will be wonderful to have the ability to visit a location much closer to my home. Also, the beauty and tranquility of the building and grounds will surely enhance the surrounding neighborhood.

Comments	<p>I am a local small business owner and have been a Las Vegas resident for over 25 years. I approve the building of the temple for the Church of Jesus Christ of Latter-Day Saints. I believe the building of this temple will have many benefits for the Las Vegas valley. Not only are LDS temples beautiful to look at , they also increase the property value of the surrounding area. These temples maintain a respectful and peaceful atmosphere that will not interfere with the natural beauty of the area but rather enhance it and will be a better addition than any other thing that could be built on the land. Thank you.</p>

Comments	I support the proposed Lone Mountain Temple for the Church of Jesus Christ of Latter-day Saints. This temple will serve thousands of their members who live within a 5 mile radius of the proposed site. The temples built by the Church are beautiful structures which always enhance the area they are located. The temple activities do not disturb the surrounding neighbors; no outside bells or loud speakers.

Comments	<p>This will be a beautiful building with beautiful and well maintained landscaping. The grounds will be open to anyone to visit and enjoy their beauty year round. There will be an abundance of trees, bushes and seasonal flowers. People coming and going will be quiet and respectful. The temple will be a wonderful addition to this neighborhood!</p>

Comments	<p>We live on the outskirts of a rural preservation neighborhood and would welcome a building such as this in our area. Temples are not regular buildings and are not in use at high volume. The patrons are quiet and there for a sole purpose -- to worship INSIDE the building. There are no loud outdoor events that would disrupt the peace of the neighborhood. Out of all the things that could be put in this area, you should be thankful its a house of worship and not a strip mall or WalMart.</p> <p>Furthermore, the property was purchased and designated for this use quite some time ago, so petitioning against is most likely a moot point. Embrace your new neighbors -- see what they are all about. I am pretty sure any member of the church would be happy to teach you about their temples and the peace they bring.</p>

Comments	Temples are beautiful peaceful places and have always brought up property values wherever they are located. They don't cause a lot of unwanted traffic. I have no concerns that anything bad could come from the Lone Mountain Temple, only good.

Comments	<p>I am adding my comment in support of the Project to build the LDS Temple. Historically, the Church of Jesus Christ of Latter-Day Saints uses local contractors to provide labor and materials that would help our community fiscally. It also has an extremely high standard for the materials used and the work done. In other words, the Temple would be an incredibly beautiful addition to the neighborhood. As a result, I fully expect property values near the Temple to increase significantly. Even more importantly, I believe religious edifices like Temples and churches of any faith add substantial value to the community and stand as a reminder that there are people who still hold religion as an important part of their lives. I respectfully request that the Project be approved along with all related applications.</p>

Comments	I support the project. It would serve to beautify the community and improve the area. Additionally, in regards to traffic the temple would operate during normal city code hours. Temples are not even open on Sundays and temple attendance is spaced out throughout the day. There isn't a massive traffic influx at one time. Many members and nonmembers throughout the valley support this projects.

Comments	<p>I fully support the Lone Mountain Temple, proposed by the Church of Jesus Christ of latter-day Saints. Temples are places of beauty and peace, and a temple in this area will add to its beauty and tranquility. I live one mile from the proposed site, and I walk, jog, or bike in that area all the time.</p>
-----------------	---

As a note, when the Las Vegas Temple was built on the east side of town, it was a completely rural area. It is now one of the most peaceful and beautiful areas on the east side of town in my opinion. The Lone Mountain area is only semi rural. High density housing, condo units, and large ball fields with lots of lights are just across the street on the other side of Alexander from Lone Mountain. The proposed temple will be a more beautiful, peaceful use of the property than any other use, which could include schools or a housing development.

We respectfully request for the City to approve any applications and plans for the Lone Mountain Temple. Thank you!

Comments	<p>The LDS Church has followed all the current legal requirements. And past experience shows that the Church is more than willing to negotiate and adapt to expectations and concerns, whether they be with traffic, eco-footprint, building height, lighting, and other rural zoning restrictions.</p> <p>There is a need for another temple because first one doesn't have enough capacity for all the people who want to visit it. The existing temple has created a safe place for pedestrians in that neighborhood and gathering place for kindness. Every temple that has been built has been designed to fit with the area, add to the beauty, and increase the value of the neighborhood.</p>

Comments	I support the building of the temple of the Church of Jesus Christ of Latter-day Saints. I know many people, both religious and non-religious, who enjoy the temple grounds of the other temple that is already in the valley. I believe this will be a beautiful addition to the city and will promote peace within the neighborhood.

Comments	<p>The zoning is allowed. There shouldn't really be any question. The only questions are being raised by individuals that have shown that they don't understand where the Rural Preservation Zone covers and what is allowed on the discussed parcel.</p> <p>Please approve because it is what is allowed for by the law and ordinances.</p>

Comments	<p>Welcoming, safe, and vibrant communities characterize our collective hopes for civic life, and expressions of faith have long been an vital strength in achieving this. The proposed Lone Mountain Temple of the Church of Jesus Christ of Latter-Day Saints will stand as an additional beacon of lofty aspirations for all members of the community, irrespective of their personal or faith affiliations. It is virtually universally accepted that the hundreds of temples that the church has constructed around the world are aesthetically appealing. But their greater value lies in their intended meaning. Of course, enormous care is taken to assure that the architectural design, choice of materials, surrounding landscaping, and other arrangements amplify the superlative wonders of the natural setting. Surely, the Las Vegas area provides a wonderful environment for expressing the highest ambitions of all people, and this temple will humbly take advantage of these natural characteristics in ways that delight all who behold it. Even casual passersby and tourists will feel greater appreciation for the environs of our beloved city. However, a more powerful impression will be made by those who share respect for the building's intent. Like all mosques, cathedrals, synagogues, and other places of worship, the Lone Mountain Temple will stand as a symbol for appealing to the most selfless, compassionate, kind, and transcendent yearnings of all people. It will stand as a rebuttal to the callous, selfish, and uncharitable impulses that all good and reasonable people wisely reject. While the vast variety of people here in Las Vegas and beyond may part ways in the particulars of our belief systems, we support each other in our common quest to reach higher, love more, and make the world a better place. This building will join the sacred edifices lovingly created by people of all upright faiths as an appeal to our collective better nature. This can only make us all better, together.</p>

Comments	I fully support the building of the LDS temple in the Lone Mountain area. I support all religious efforts that seek to bring light, goodness and hope into communities. This temple will be used by individuals who love God and want to share that love and hope with others. In a day where good is called evil and evil called good, I hope people will recognize this structure as something that is good.

Comments	I support the approval of the construction of the lone Mountain Temple of the Church of Jesus Christ of latter-day Saints. This will be a beautiful, sacred place that will not only beautify the area, but will raise property values. It will be a light to the community. I look forward to attending this temple when it is completed.

Comments	I don't feel traffic and lights will be as big of an issue people think it will be. The Temple grounds are always beautiful and well taken care of. They are beautiful to look at day and night. This is a place of worship and some learning. If this was a school would there still be complaints?

Comments	Having this Lone Mountain Temple built will bring so much beauty and tranquility to the area. While the Temple is specific to The Church of Jesus Christ of Latter-day Saints and its members, the sacredness and spirit of the Temple will be felt by everyone. Simply having it within the city will create an inviting and peaceful environment and if one is lucky enough to live nearby, that feeling will permeate his/her home. Examples from temples around the world show that they are not only beacons of light and hope in the community, but also significant in creating and preserving neighborhood longevity and economic stability.

Comments	<p>Many founders of the city of Las Vegas were members of the Church of Jesus Christ of Latter-Day Saints. There is a deep heritage of Latter-Day Saints investing in the success of our community. Our federal courthouse was named after one of these pillars.</p> <p>This temple will draw committed people to Las Vegas and who will continue making an impact in the community, for good. The values and principles taught inside of the temple radiate through the lives of church members to all those they meet and work with in our city.</p> <p>I support the addition of the temple in Las Vegas, at this location. It will add beauty & peace to the area, and inspire greater inclusivity in our community.</p>

Project Number	24-0072
Position	I SUPPORT the project and all related applications.
Name	Blaine Hansen
Residential or Business Address	6200 Deer Springs Way Las Vegas, NV 89131
Phone	(702) 533-9058
Email	hansenorthodontics@yahoo.com
Comments	I fully support the proposal to build a temple as outlined. These buildings are beautiful and add value to neighborhoods. They are houses of worship. Our country, in part, was formed based on our freedom to worship how we wish. This proposal should be approved. Thank you

Comments	<p>The temples built by The Church of Jesus Christ of Latter-day Saints are beautiful and raise the values of all properties in the surrounding areas. Inside the temples members of this Church are encouraged to be better friends, neighbors, and citizens. These teachings elevate all those that attend the temple, as well as all those they interact with outside of the temples.</p>

Comments	I strongly support the temple building for the Church of Jesus Christ of Latter Day Saints. From a personal standpoint, this building of worship will be blessing to me and my family. And from a community standpoint, in my experience temples with their beautiful landscaping end up being a huge benefit to all the surrounding neighbors. I've been to many temples in Arizona, Utah, Idaho, Tennessee, New York, and California, and never seen a temple impact a neighborhood negatively. From traffic, beautification, and property value there has ALWAYS without fail been positive impacts on the surrounding neighborhood.

Comments	The temple will add beauty to the valley and also serve as a place of worship for members on the west side of the valley. It will increase property values in the area. The temple will be a clean, nice addition to the area

Comments	I fully support this project. My family and I frequently visit the area where the proposed LDS temple will be built. It is a beautiful area that will only be enhanced by the construction of this project. It will also raise properly values and be a majestic addition to the surrounding areas. The proposed architecture is beautiful and will bring added value to the area. In addition, there is no worry of increased crime or degradation to the neighborhood because the patrons who will attend are good upstanding citizens with very high moral character.

Comments	I support the project and all related applications. Having helped at the existing Temple on the East side of Las Vegas for 12 years and having to drive 30-35 to and from the Temple every week. It will be much easier to attend from my home -- about a 8 minute drive. This project will help increase the value of all the homes in the Lone Mountain area.

Comments	<p>As a resident of Las Vegas since 1982 (except for 5 years), I highly support this project and the building of the Lone Mountain Temple on the west side of the valley. We already have the Las Vegas temple on the east side of the valley. When that temple was constructed there was opposition about traffic and other things. None of them had any merit and there never was a traffic issue. I feel the same way about the temple being built on the west side of the valley.</p> <p>If anything it will add to the beauty of that neighborhood.</p>

Comments	<p>The Lone Mountain Temple will be a stunning addition to the neighborhood in which it is being built. Temples of The Church of Jesus Christ of Latter-day Saints are consistent in their architectural beauty and are exquisitely landscaped. They are immaculately maintained and the parking is expertly routed; temples do not cause vehicles to crowd surrounding roads and the presence of the temple does not negatively impact traffic in the neighborhood due to meetings happening every half an hour. Attendance is staggered and traffic jams do not happen. Real estate values have been shown to rise in neighborhoods where temples are present. They are places of peace, worship, and learning. I attend the Las Vegas Temple weekly and it makes a profound difference in my life. Please allow plans to continue for this special edifice of tranquility and spiritual rejuvenation. If necessary I would be willing to research statistics about the impact of temples on the real estate value of surrounding homes, and the temple's positive impact on the neighborhood. People from the neighborhood of the Las Vegas Temple are regularly seen strolling the grounds. It is a beautiful space. I express my strong support of the Lone Mountain Temple.</p>

Comments	I support the building of the temple. It will not cause extra traffic. You have to have an appointment to attend and it's limited time slots. Also the temple brings peace and calm to neighborhoods. Also it is shown that a temple only brings up property values in its neighborhood. Please approve the temple building so we can practice our religion freely. Thank you

Comments	<p>This land WILL be developed by someone someday. I would rather this be developed by someone who is going to make it beautiful and keep it well maintained and not let it go into disrepair like many of the homes and businesses have in the surrounding areas. The Church that is proposing this development is known for keeping their properties looking good for decades across the world.</p> <p>I am not a fan of the subsequent surrounding property value increases that would occur as a result of this development because of the tax increase but it's much better than a decrease in value for a less desirable development.</p> <p>I would definitely appreciate a compromise on the subject of light pollution as well</p>

Comments	I have lived in Las Vegas since 1976 and am a 4th-generation Las Vegan. I fully support the Lone Mountain Temple project. Members of The Church of Jesus Christ of Latter-day Saints have been a backbone to the Las Vegas community and even settled Las Vegas in 1855. The growth of our church has increased demand for another temple in this valley with closer proximity to thousands of members. Temples are the most sacred structures on the earth. The Lone Mountain Temple will bring beauty and peace to the area and to the residents of Las Vegas. Thank you for your consideration.

Comments	<p>I am in support of the proposed building of the temple for the following reasons:</p> <ol style="list-style-type: none">1. The majority of the people who attend the temple are senior citizens. Having a temple nearby will allow many more to attend where travel to the temple across town (especially at night) might be restrictive or impossible by themselves.2. The temple serves the intellectual, spiritual, and emotional needs of those who attend. The communities in which they live and serve will greatly benefit from the positive influence will have on those who attend.3, The purpose of work is to serve others, and practice Christian values of kindness, love and service. These are qualities that are needed in our lives and neighborhoods.

Comments	Having a Temple close to my home would be a wonderful thing. The Church of Jesus Christ of Latter Day Saints have beautiful temples. Just the site alone would be a great asset. The building would be beautiful as well as the wonderful landscaping. it would be a place that is welcome for all to walk around and admire. It would be a very peaceful and quiet place to be where people would want to visit and enjoy. I am very grateful that this could be a place that I could go and feel the peace that is so needed in this world, and to be so close - what a blessing. Thank you.

Comments	<p>I live on the west side of Vegas, and it can take up to an hour one way to drive to the temple on the other side of the valley. The temple is a special and beautiful place. Consider the Red Cliffs temple in St George. It was built in a residential neighborhood. It only beautifies the area.</p> <p>Please let the Church of Jesus Christ build this property. It will not devalue or ruin anything.</p>

Comments

Dear Sir/Madam,

I write to express my profound love, admiration, and appreciation for the beautiful temple located on Lone Mountain Road in Las Vegas. As a devoted member of The Church of Jesus Christ of Latter-day Saints, I hold this sacred place in the highest regard, and I am grateful for the opportunity to share my thoughts with you.

The temple stands as a beacon of light, inviting all who enter to seek solace, guidance, and a deeper connection with our Heavenly Father and Savior. It is a symbol of profound peace, tranquility, and the utmost understanding and knowledge of our faith. For me, it represents a sanctuary where individuals and families can come to worship and find spiritual renewal. It embodies the core teachings of Jesus Christ and provides a space for reflection, devotion, and personal growth.

I am delighted to hear that the temple has had a profound impact on your family's life, especially in raising your nine-year-old son. The temple on the east side of the building, overlooking the majestic sunrise mountain, has become a cherished location for you and your loved ones. It has served as a foundation for your family's faith, offering a sense of grounding, inspiration, and a constant reminder of the principles you hold dear.

I am confident that a second temple in Las Vegas would enhance the spiritual fabric of our community and provide a sacred space for all who seek a closer connection with divinity. By advocating for the construction of a second temple, you are not only promoting a symbol of peace, love, and unity but also extending an opportunity for more individuals and families to strengthen their faith and find spiritual solace.

Thank you for allowing me the time to share my thoughts and for endorsing the idea of a second temple in Las Vegas.

With warm regards,

Michael Earl Strickland

Comments	The proposed temple for the Church of Jesus Christ of Latter Day Saints will be a benefit to the community at large. In the temple, members of the church worship God, make promises to keep His commandments, and strengthen family and community relationships. Men and women who enter the temple are dedicated to loving their neighbors, serving those in need, and living in accordance with the laws of the land. The temple itself will be a beautiful building, an edifice that will add beauty to the community and a monument to the love and acceptance that citizens of this city have for one another.

Comments	The temple will be such a beautiful addition to the lone mountain community. All statistics show that housing prices go up, crime goes down and the neighborhood aesthetic is improved when a temple is put into an area.

Comments	I fully support the construction of the Temple to serve the members of the Church of Jesus Christ of Latter-Day Saints. I have seen the renderings of this building and grounds and it will be a wonderful addition to our community. As someone who lives less than a mile away from this site, I look forward to the enhancements that this beautiful building will bring to our neighborhood.

Comments	<p>I support the proposed project and the building of what will be the LDS Lone Mountain Temple. From experience, I know that the building of a religious building like this, will beautify and enhance the surrounding area. It is a quiet, beautiful ground for those of all beliefs to find solace and peace. I do not the believe that this project will alter the surrounding areas normal operations so drastically that it is not worth building. The building of and worshiping in holy grounds is the right of all American citizens, this building will stand as a representation of the best we have to offer as a society.</p>

Comments	<p>Bringing this temple here to the northwest part of our valley brings many blessings with it. This sacred place is a place of worship, a place of refuge, a place of renewal. The temple is a sacred place we as members hold in the deepest of regard in reverence and in peace. With the rich blessing of a temple in this location all will be blessed. In addition to those blessings the real estate surrounding the temple will see significant increase in value. This temple will stand as a beacon of righteousness and a holiness to our lord and savior. We thank you for your consideration in approving this project. We know that approving this project will bring rich blessings to our beautiful city. I ask that you please approve this project. Kind regards.</p>

Comments	<p>I know residents are worried about the bright lights and tall building, but if you just go to the other side of town, at Sunrise mountain, and see our other temple, you'll see that it's a beautiful addition to the area. And the way the temple works and operates, the traffic is minimal. There are small groups of people leaving all the time so it's never a huge amount of traffic at once. When I go visit the temple at sunrise mountain the traffic is further down Bonanza and dissipates as I get closer to the temple.</p>

Comments	Temples of the Church of Jesus Christ of Latter-day Saints are beautiful buildings that are always well maintained and landscaped. The people that come and go to the temple will trickle in and out all day quietly and will be dressed in nice clothing. The presence of a temple in this neighborhood will elevate the whole area, and in many areas of the United States, a temple increases the value of homes in the surrounding neighborhoods. A temple is a better addition to a neighborhood than a shopping center or a school. There may be some light pollution that some may be concerned about, but that seems to be a fair trade off for the other positives listed above.

Comments	<p>I fully support the Church of Jesus Christ of Latter-day Saints temple being built in the said location of Lone Mountain.</p> <p>All temples are built to comply and often exceed local and national building codes. This includes zoning requirements. From what I understand the temple is being built in a nonresidential or 'undeveloped' zone outside the neighborhood preservation district overlay.</p> <p>I've only seen temple lights at night and are not the typical flood lamps used to deter crime in apartment/residential/commercial housing. Instead the temple lights appear to be toned down and directed onto the exterior of the building, wall washing flat surfaces and wall grazing perimeter fencing, signage, etc. Creating a much lower profile than what many think.</p> <p>Many are concerned by the height of the temple but it is being built far from the road and a near football field distance to the front. In addition, the church has decided to build a smaller temple than the one on the east side and has forgone the cherished Angel Moroni atop its temples to reduce the height. It appears the church has made concessions already that are not even required by law.</p>

Comments	<p>We support this place of worship within the greater City of Las Vegas area. It will bring additional beauty to the area and allow all people the opportunity to find refuge and solace from life's challenges. Even as a currently rural community, this land was intended to be developed into something to benefit the area. If people have concerns about traffic or noise, we welcome them to visit the temple grounds at anytime on East Bonanza at 827 Temple View Drive, 89110. There are no traffic issues, even with two-lane roads, and housing surrounding the perimeter. There is also adequate parking, and most of the residential property values have increased to over a half-million dollars. We respect the opinions of the opposition, however, this will be beneficial as a long-term asset to the Las Vegas valley.</p>

Comments	This project will be a net benefit to our area. It is less than a mile from my home. It will increase property value and beautify the area. It is adjacent to a major road (Alexander) that will bear most of the traffic, which will be minimal except on Sundays like for any place of Christian worship.

Comments	<p>I am in favor of this project because it will enhance the neighborhood. All Temple grounds are meticulously cared for and The Church of Jesus Christ of Latter Day Saints has a proven reputation of being a good neighbor. Additionally the site for the Lone Mountain Temple IS NOT within the nearby Rural Neighborhood Preservation area. Rather the Current zoning for the property is undeveloped which pursuant to LVMC 19.06.050 is a "temporary classification to be used until property is ready for development for a more intense, permanent use."</p> <p>I feel that the beautiful building that has been designed would be a wonderful use of this parcel.</p>

----------	--

All church of Jesus Christ of Latter Day Saint temples are built to comply and often exceed local and national building codes. This includes zoning requirements. From what I understand the temple is planned in a nonresidential or 'undeveloped' zone outside the neighborhood preservation district overlay.

I've only seen temple lights at night and are not the normal flood lamps used to deter crime in apartment/residential/commercial housing. Instead temple lights appear to be toned down, landscaped and directed onto the exterior of the building, wall washing flat surfaces and wall grazing perimeter fencing, signage, etc. Creating a much lower profile than what many think.

Many are concerned by the height of the temple but it is being built far from the road and a near football field distance to the front. In addition, the church has decided to build a smaller temple than the one on the east side and has forgone the cherished Angel Moroni atop its temples to reduce the height. It appears the church has made concessions already that they are not even required to.

Comments	An LDS temple on the west side of town has been something that many people in the Vegas have been hoping for for a long time. The drive/traffic to get all the way across town to the temple on the East side has often prevented me and my family from worshipping as we would like to.

Comments	<p>My family and I fully support project 24-0072. This project will greatly enrich and bless our lives as well as everyone in the community. The completion of this project will only result in good repercussions into the communities that surround it. This project will have a significantly positive impact on the area, in all ramifications.</p> <p>It is fully within our best interest as homeowners within the are of this project that it is completed as planned and on schedule. This project will serve to increase our property value and be a source for renewed interest for new buyers to select our area to purchase.</p> <p>With more people buying into the area, it will increase tax funding for our schools and infrastructure. This project is supremely good for the area. It will surely be worth it in the end and benefit all who live near it.</p>

Comments	<p>I am in complete agreement of the application as it stands and know that this land use proposal will enhance the community of Lone Mountain and the greater Las Vegas area in a productive and positive manner.</p> <p>I also recognize that there are others in the community with concerns and dissenting opinions that deserve to and should be heard.</p> <p>As a community, if done with the upmost respect, we have the opportunity to strengthen our community. This cannot dissolve itself into winners and losers, as so often happens in today's society, or we lose as a community. Therefore, it has to be about a win/win for the Lone Mountain Community and the greater Las Vegas Area.</p>

Comments	<p>The presence of an LDS temple in a community brings numerous benefits beyond its religious significance. First and foremost, it serves as a focal point for spiritual growth and unity among members of The Church of Jesus Christ of Latter-day Saints (LDS Church) in the area, providing a sacred space for worship, prayer, and ordinances essential to their faith. Additionally, temples often contribute to the beautification and revitalization of the surrounding area, with meticulous architecture and well-maintained grounds. Economically, a temple can stimulate local businesses through increased tourism and patronage from visitors attending temple services or participating in nearby events. Furthermore, the emphasis on family and community values within the LDS faith can foster a sense of cohesion and support among residents, strengthening social bonds and promoting service opportunities. Overall, the establishment of another LDS temple in the Las Vegas valley would have profound spiritual, cultural, and economic benefits for both members of the LDS Church and the wider community.</p>

Comments	Not only are the temples built by the Church of Jesus Christ of Latter Day Saints beautiful in architecture and design, they are also symbols of peace, naturally drawing reverence to the area. Our family has long enjoyed our time at the temple currently in operation on the East side of town, walking the grounds and enjoying the tranquility that abides there. What a breathtaking addition the Lone Mountain temple will make to our city... a stark contrast from the hustle of city life and adult entertainment that engulfs other major parts of our hometown.

Comments	I and my family give our strongest endorsement and full support to the building of the Lone Mountain Las Vegas, LDS temple project #24-0072.. This temple and meeting house will serve a huge unmeet need for the people of The Church of Jesus Christ of Latter-day Saints that live here in the northwest Lone Mountain area of the valley. This building will not only be beautiful, well received, and bring value to the homes and property surrounding it, but it will be a blessing in the lives of thousands of faithful, Latter-day Saints.It is essential. I strongly urge you to please do not delay or postpone the approval of this application.

Comments	I fully support this project. The new temple from the Church of Jesus Christ of Later Day Saints will significantly enhance our community. This building will serve as a symbol of love and peace. It will also be a highly aesthetically pleasing view for all residents. This is an excellent use of the land, and I am excited to see this project completed.

Comments	<p>I'm very excited and look forward to a new, closer places of worship the Lone Mountain Temple of the Church off Jesus Christ of Later Day Saints will bring to this area.</p> <p>As a member I am obviously bias. However, I do think the Temple will add not only a placed of worship for those of us who will use it, but also a beautification of the area it will reside.</p> <p>Thank you, Mathew Tucker~</p>

Comments	<p>I support this project. I know residents think it will cause a lot of traffic and are worried about the lights. But they are worried because they don't know. The temple on the other side of town is a very peaceful building and the traffic is not bad up there at all. It really adds a lot of beauty to that area and the value of their house will only increase because of the temple being built in the area.</p>

Comments	Temples are beautiful and bring a smile and peace to whoever drives by one. It would be wonderful to have another one closer to home. Especially now that Vegas is becoming a city where people stay and not just pass by. Temples are a symbol of family and beauty hope. Not to mention an essential part of our worship.

Comments	We currently live in the RPN adjacent to the proposed project. We have been residents for 6 years and couldn't be more thrilled to welcome this new build and beautiful landmark to our area! It will be a timeless and maintained edifice that will carry with it peace and dignity. Our area will greatly benefit from the beautiful, open grounds and the surrounding civil improvements, The patrons are kind, humble and respectful. This project can only improve upon and elevate our beautiful end of town! I am in full support of this project!

Comments	The building of a temple for the church of Jesus Christ of Latter Day Saints will add to the beauty and peace on the West side of the city as it has with the temple on the East side. This will provide greater opportunity for the members of the church to attend the temple more frequently which will not only bless their lives but the lives of all they come in contact with. I strongly encourage the city to approve this project for the betterment of our great city and community.

Comments	I support the building of The Church of Jesus Christ of Latter Day Saints Temple in Lone Mountain. Having the Temple in Lone Mountain will make the commute easier and safer. Having to drive from where I live to the Temple, located in Sunrise Manior is very challenging and dangerous. Especially, due to the construction work, car accidents, potholes, J-walkers, non-drivers without license plates and much much more. I donot believe that the building of the Temple will harm or disturb the surrounding area but will enhance the natural beauty of the desert.

Comments	I think the Temple build will only be a positive addition to our city. In a town with so many beautiful buildings used for business, pleasure, and worship, this Temple will fit in great and give an added sense of community and inclusion. Knowing that there is a place for everyone, whatever their desire is, is Las Vegas. You can worship in one building, gamble in another, conduct business in another and live in the middle of it all. The Church of Jesus Christ of Later Day Saints helped start and build this city and I'm happy to see it grow here.

Comments	We think the architectural design is out of date with the current modern trends of architectural design with a the concept that it mimics the fifth Street school, seems a far stretch. We would prefer a more desert modern approach to the facade and massing design

Comments	<p>This project, a temple for the Church of Jesus Christ of LDS, is a much desired resource for our church community. Unlike our usual church buildings used for weekly services, a temple is a uniquely special place within our faith. Temples are constructed with extreme care, quality, and beauty to be a place of serenity and tranquility not only for those who participate inside the temple, but also for the community around as it provides beauty and a sense of peace to the neighborhood. Currently, the Las Vegas valley has only one operating temple on the east side of the valley that serves the entirety of the Las Vegas valley as well as surrounding communities in Nevada, Utah in California. This proposed project would provide greater access and accessibility to a sacred temple here on the west side of town. As a member of this faith community, our goal is to share and spread light with everyone around us and approving this project would help us in that goal.</p>

Comments	<p>Of all the buildings of worship for the members of the Church of Jesus Christ of Latter Day Saints, temples are the most important. It brings families together in a place of peace and reverence. At the beginning of its completion, we hold an open house for the entire community to come and see how we worship and to see the magnificence of the architecture. In all my experiences at various open house tours throughout the nation, this is something that brings peace and love within the entire community and not only for members of the church.</p>

Comments	<p>The siting of Temples of the Church of Jesus Christ of Latter-Day Saints has always had a positive influence in the community where they are built. They are a place of beauty and peace. The patrons who visit the building and grounds do so in a religious and respectful reverence as they come to worship God. If we, as a nation, believe that in "God we Trust", then the logical step forward is to support the religious endeavors to build and allow the worship of God. These buildings are beautiful structures and maintained to the highest standard for the God to whom they are built. They are the House of the Lord. To restrict this construction would be to deny God's blessings on those who wish to bring unity and love to all mankind. Please support this project. Allow God to expand his blessings to those who believe.</p>

Comments	The temple will be an asset to this neighborhood. There will be no traffic on Sundays or Mondays, as the temple will be closed those days. On the days the temple is open there will not be a big rush of traffic, as meeting times are spread throughout the day. I attend our temple on Bonanza regularly, and although there is constant use cars arrive one by one throughout the day. I rejoice in having a temple in our valley, attending it with many others, and I would love to have one in my neighborhood.

Comments	I am excited over this building of the LDS temple. It will be a beautiful addition to the neighborhood. The temple goers are reverent and peaceful. I know people are concerned about traffic, but I've never seen heavy traffic at any LDS temple. I've also see home values rise due their proximity to the temple. No noise and respectful.

Comments	I support where the temple is to be built. It takes me and other family members 40 mins to an 1 hour to drive to where the older temple is. The temple is a quiet and beautiful place. I have been in the lone mountin area before. I personlly believe that it will cause no big disruptions. We are encouraged to visit the temple as much as we can. Having a temple that is closer to my side of the valley would be very nice. Thank you.

Comments	This house of worship will be a great addition to that neighborhood. Traffic after it is dedicated will not be that significant. Certainly it will increase the value and demand for the homes in that area. And it will be a great blessing for this special house of worship on the west side of the Las Vegas valley. And with the tremendous population growth in our vally, is needed for the large number of members on this side of town.

Comments	My family and I support the building of this temple. Temples are sacred places to me and to all others of my faith. We and many others have long awaited a second temple in Las Vegas. I understand the concerns raised by neighbors and hope we can address those concerns while not delaying the building of this important structure. I know that temples bless the lands around them in many ways. Thank you for considering this approval.

Comments	As an active member of the Church of Jesus Christ of Later-Day Saints temples are a very important part of our religious practice for myself and my family. I was here for the announcement, planning and construction of our other temple in the valley. I saw some concern from the residents in that area at first, but the church was always respectful of their concerns and were able to construct a building that fit well into the community and enhanced the beauty and property values of the area. I am certain the same can happen in the Lone Mountain area.

Comments	First of all I support the building of the temple on the proposed site. I think it will be a great addition to the community. I recall years ago opposition to the temple that was built on the east end of Bonanza with many of the same concerns. The temple was built and had a positive impact on the community. It even increased the property values of the homes in that community significantly.

Comments	<p>I wish to add my voice of support for the proposed temple, known as the Lone Mountain Temple, which was applied for by the Church of Jesus Christ of Latter-day Saints. Throughout the world, it has not been uncommon for many voices of opposition to register their complaints about the construction of such an edifice. However, time has shown that many of the complaints registered against such a project are unfounded, and local communities and residents affected by these temples soon learn that this Church is a good community partner and there is great benefit to homeowners in close proximity to a temple. Land values increase, and local homeowners find that these temples contribute to a greater sense of community and security. Any concerns about "light pollution" have been resolved in those instances where these concerns were expressed, and any impact on local traffic flow is manageable. Patrons attending these temples have demonstrated tremendous respect for local homeowners and their properties. Please approve this application. I believe local residents and the community at large will benefit from the construction of such an edifice. Thank you.</p>

Comments	<p>I support the building of the Church of Jesus Christ of Latter Day Saints temple near Lone Mountain. The building will bring reverence and peace to the surrounding area- as the people who will attend it come in reverence and peace. It will not invite nor bring crowds or noise. The people it will attract and who will attend are God fearing, loving and serving people who will lift up and edify the surrounding community. The building will be a house of worship and a house of God. Having said all of that, it is also notable to mention that the surrounding property values have always increased after a temple is built nearby. And surrounding residents are usually very pleased with the final outcome. If in doubt, they could contact & talk with residents who have been in similar situations where temples have been built in their neighborhoods.</p>

Comments	Religious sites, regardless of affiliation, represent and promote community, good will, family, and every virtue that improves life. Driving by churches and temples is a reminder to me of those virtues. There can't be enough of those reminders. Worshipping inside these beautiful structures makes me want to be a better husband, father, brother, friend, leader, and person. Please support this application.

Comments	<p>I support the temple project. I believe it will add value to the community-visually as a beautiful piece of architecture with well-landscaped grounds, but also in the peaceful nature of the area surrounding the temple. Observation of the area surrounding the temple on the city's East side can confirm that the neighborhoods surrounding that temple have benefitted from the peaceful nature of the building as well as those who frequently attend. I understand the opposition against developing what has been a more rural landscape, but as the temple site doesn't sit in the rural preservation district I don't think this is a question of whether to develop that piece of real estate or not. It likely WILL be developed at some point, despite the opposition of the surrounding neighborhood. In that case, I believe the temple project to be of greater value to the neighborhood than other possible developments that would disrupt the peace of the neighborhood, such as a middle or high school. I encourage the approval and support of this project.</p>

Comments	As a 10-year local area resident, I am totally in favor of this project going forward. The Church of Jesus Christ of Latter-Day Saints has built temples (like the one proposed in the Lone Mountain area) all over the world. I have had the opportunity and pleasure of touring many of these facilities over the years. Every one of the temples are very attractive additions to the communities where they are built. The traffic flow in an out of this temple will be more of a slow flow spread throughout the day with no real Sunday traffic. I feel that this temple will be a great neighbor to those who live in close proximity. As the temple in east Las Vegas has been a benefit to that area, so will this temple be a benefit to the Lone Mountain area. Please approve this development.

Comments	I support the building of the Lone Mountain temple. I believe it will increase the value of the property in the area it is being built. This has been the case for other temples that have been built. It will be a beautiful addition to the neighborhood. Temples are always well taken care of and the landscape will add to the beauty of the neighborhood. A huge benefit to the community.

Comments	<p>This application is for a house of worship, a place where citizens can enjoy their right to practice their religion (a foundation element in the governance of our country). The Church of Jesus Christ of Latter-Day Saints has temples throughout the world that are known for being well-built structures surrounded by ample parking for those using the temple and well-manicured gardens and landscape elements. The community benefits from such beautiful additions.</p> <p>Our family (including our children who reside near this proposed structure) whole-heartedly support this application and ask for approval of this project as proposed.</p> <p>Thank you for your service, Chris and Julie Davies</p>

Comments	<p>I live in close vicinity to the property located at at Alexander Ave and Grand Canyon Ave which The Church of Jesus Christ of Latterday Saints has purchased to build a new LDS Temple. I strongly support the building of this new LDS Temple in this area not only because it would benefit members of The Church of Jesus Christ of Latterday Saints who must currently drive long distances in order to access and worship in the only LDS Temple in the Las Vegas area. The architecture of LDS TEMPLES and the beautiful landscaping of the grounds surrounding LDS temples is stunningly beautiful. Consequently property/real estate values in close proximity to LDS Temples usually increase dramatically.</p> <p>(For example-Property/real estate values of homes/properties which lie within close vicinity of the current Las Vegas LDS Temple-are much higher than the values of properties even just one mile away. I ask that those who oppose the building of this new LDS Temple in Las Vegas-to take a few minutes to research and give honest "due-diligence" to this important matter-where they are likely to discover what has been the extraordinary "all-around" positive affects that the presence of LDS Temples has had in/on the neighborhoods/communities which exist in close proximity to ANY of the many LDS Temples which already exist in other areas of the United States-as well as LDS Temples currently operating in many foreign countries.</p> <p>*</p>

Comments	<p>I wish to comment in support of the temple by the Church of Jesus Christ of Latter-day Saints, The Lone Mountain temple. The temple on Sunrise mountain has been a blessing to the residents in that area of the Las Vegas valley. Increasing property values and helping to provide an area of beauty and serenity to the area. The same thing will happen in this new location. The property will be immaculately cared for, the temple will not be illuminated 24 hours a day as some have claimed. This should be approved, please don't bow to those who have ideas to not allow any change or progress to our valley.</p> <p>Sincerely Bradley Welch DDS</p>

Comments	We're beyond thrilled to have another temple of the Church of Jesus Christ of Latter-day Saints in our Las Vegas community. Personally I live a few blocks from the current temple near the East valley/ Sunrise mountain and feel it adds a sense of dignified peace and tranquility. My children and I frequently bike or jog there to enjoy its beauty and majesty. While the lights and entertainment that Las Vegas attract and dazzle visitors, these temples provide another standard of living and beauty that helps direct our gaze heaven-ward. Every community that I've lived (quite a few as an active duty Air Force member traveling the world) in that has a temple has always become a beacon of earthly splendor and spiritual strength. I can't recommend nor celebrate this decision to construct another temple in our Las Vegas home!

Comments	The Church of Jesus Christ chapels and temples make wonderful neighbors. Their properties are well kept and landscaping always well tended. Their people are community minded and kind. I can't think of any others who make better neighbors.

Comments	<p>I support this temple being built in the location that is in discussion. I was born and raised in the North West part of Las Vegas. I grew up with our house being mostly surrounded by desert. As kids we spent most of our time outside in the desert. Riding Fourwheelers, bikes, dirt bikes and just playing in the desert. As the years went on more and more development happened around us. It made it harder and harder for us to do the things that we grew up doing. While it was sad to see these changes I realized that it was part of a growing city. I can totally understand the concern of having a temple built on this site, but as I have seen throughout my life in Las Vegas things are going to grow and not always remain the small town it used to be. With this growth comes new opportunities. I am very excited for the opportunity to worship in a temple that will be 5 minutes from my house. I know that this will be a long term positive thing for all that are in this area. Something will be built in this area and I think there is no better thing than a Temple of the Church of Jesus Christ of Latter Day Saints.</p>

Comments	I remember when another Temple was to be built at the top of Bonanza and a lot of people were afraid of what it would do to the area, I noticed as soon as the first Temple was open property value actually went sky high. From what I've already noticed the property value has gone up in the area where this new Temple can be built if approved. I'm all for this new Temple being constructed.

Comments	I am so excited to have another LDS temple in Las Vegas. They bring peace to the surrounding communities. Beauty as the gardens are kept immaculate. A quiet place to sit outside and ponder without the noise of the bustling city. Its beauty is set against the desert in a view unlike any other. The tranquility LDS temples bring is not of this world. People ride their horses by the temple on the east side and stop to take in the peace they feel. We are so lucky.

Comments	<p>I fully support the building of a temple for The Church of Jesus Christ of Latter-day Saints. This structure will add beauty to the surrounding neighborhoods and provide a much needed place of worship in the northwest valley. These institutions are foundational to our society and provide a place of calm and serenity amongst the chaos of today's world. PLEASE let the process move forward. The presence of this new building will bless the lives of all who live in this valley.</p>

Comments	<p>I am in support of allowing the Churchj of Jesus Christ of Latter-day Saints to build their Temple on the property listed in this request. It has been my experience that anywhere and everywhere they have built a Temple it adds to</p> <p>that community in the quality of the building and the beauty it brings with it. The property is always very well maintained and the spirit it adds cannot be overstated. This will be a beautiful addition to this area.</p>

Comments	<p>I am grateful to the planning committee for striving to protect our beautiful community and serve its residents' wants and needs as well. I support the building of The Church of Jesus Christ of Latter Day Saints' temple. It will add beauty and be a well kept structure contributing calm to the surrounding community as well as the Las Vegas Valley, as has the already built temple of The Church of Jesus Christ of Latter Day Saints. Thank you for your time.</p>

Comments	<p>All of the members of my household, 8 of us, fully support the building of the announced LDS Temple in the Lone Mountain area. We are members of the Church of Jesus Christ of Latter Day Saints and currently there is only one temple in all of Southern Nevada. That temple is on the extreme east side of the valley, at the base of Sunrise mountain. It is a beautiful part of the community there. There is never any traffic around it, there is plenty of parking, and we consider it a reverent place, even the driving around and to it is reverent. It has added to the beauty of the neighborhood and we believe the Lone Mountain Temple will do the same. We regularly attend the temple, weekly is the goal, and have many friends who attend every week or more. Living in Summerlin, the new Lone Mountain Temple will decrease our commute time and costs, making it easier for us to worship. Thanks for your consideration of all sides on this matter. We truly believe this temple will be a great blessing to us and the whole community.</p>

Comments	I am in favor of having a beautiful temple built on this side of town. A structure such as this one will (as historically shown) increase surrounding property value as it stands as another symbol of God's love. Denial of approval would be an infringement of Constitutional Rights of those who claim that right to worship.

Comments	I love visiting the Las Vegas Nevada Temple for The Church of Jesus Christ of Latter-day Saints. It is a gorgeous and peaceful property. I know that building another temple would provide a wonderful opportunity for the community. The temples for The Church of Jesus Christ of Latter-day Saints are always beautiful, not just architecturally but also with the grounds and landscaping . I believe this project would add to the beauty of the Lone Mountain area.

Comments	<p>I have seen numerous LDS temples built in several cities throughout the country and have toured many of them during their open house phase. These buildings are beautiful and bring a peace and tranquility to the community. The grounds are always impeccably landscaped and kept and are open to the public for enjoyment during daytime hours. In many ways it is like having a public gardens! They also statistically increase the property values of surrounding properties. These temples are protected with 24 hour security which also benefits the community. The people frequenting the inside of these temples are vetted by their ecclesiastical leaders--no criminals or persons unable to pass the scrutiny of the standards applied to those who wish to enter. This means they must agree to uphold the law of the land, be honest in their dealings with their fellow citizens, keep the Word of Wisdom (no smoking, drinking, etc.), and be morally clean (no premarital sex or adultery). While not perfect, these people are the cream of the crop by world standards and would not detrimentally affect the neighborhood by their visits to the temple. Thank you.</p>

Comments	I would live to have this temple closer to my home so I can visit to find more light and peace in my life. Visiting often helps me be a better version of myself and have a more giving, kind, Christlike attitude toward others. Temples bring peace and light to this world. They are very important to our community. We all need more goodness in our lives.

Comments	<p>I am writing to express my enthusiastic support for the proposed construction of the Lone Mountain Temple. As a resident of West Las Vegas, I believe this addition will not only enhance our community but also provide numerous benefits for its residents. Like the presence of a new church, temple or synagogue, the Lone Mountain Temple affirms our community's commitment to goodness and strengthens the fundamental relationships that give life meaning and richness. The construction of the temple will also contribute to the architectural and cultural landscape of our community. The temples built by the Church of Jesus Christ of Latter-day Saints are renowned for their exquisite design and meticulous craftsmanship, often becoming iconic landmarks in their respective cities. They also signify a stable and desirable neighborhood, which would attract potential homebuyers who value strong community ties. For these reasons and many more, I urge the Planning Commission to approve the construction of the Lone Mountain Temple.</p>

Comments	<p>The news that we were going to have a temple on our side of town, just five minutes from my home, was extremely exhilarating. The temple is the most peaceful place that I know and to not have to drive 40 or more minutes to spend time there is a blessing to all members of the church in the west side of the valley. The prospect of having one so close was unexpected but something that we, collectively, are grateful for.</p> <p>Being situated so close to Alexander Road, there should be a minimal increase of traffic in the neighborhood. The proximity of a temple so close will increase home values and is much more conducive to a peaceful neighborhood than something like a school.</p>

Comments	<p>I have been in the real estate/mortgage industry for over 40+ years. I was up in Reno, NV when the Reno Temple was being built back in 2000. There were individuals up there that also opposed the temple being built and they were saying because of the brightness of the lights and/or the traffic. This ended up not being an issue and actually brought much enjoyment to the area. Property values increased in the area of the Temple as did safety. The Temple is a place of solace and refuge for the members of the Church of Jesus Christ of Latter Day Saints and those who attend the temple are in good standing with the church. There are many who don't want a Temple near them because they are just scared of the LDS church or just don't like members of the church. I'm sorry for those who are fearful. The church does a lot of good in all of the communities everywhere across the world. The Temple is not a hateful place and I hope that the city council and board members will look at the beauty and the positive affects that a Temple will have in a community. Thank you for listening to those that are for the Temple. There are many out there that are for the Temple and would be more than happy to answer any questions you may have.</p>

Comments	This temple will be a great addition to our valley. Those who are concerned about lights, height etc. should take the time to drive over to the temple located at the east end of Bonanza. The building and grounds are immaculate and beautiful. This temple will be kept in the same perfect condition.

Comments	Please approve the construction of the temple for the Church of Jesus Christ of Latter-day Saints. It will benefit our family and the environment by not requiring us to drive 45 minutes each way to the distant temple on East Bonanza multiple times per week.

Comments	<p>To Whom It May Concern,</p> <p>I am writing to express my strong support for the proposed construction of a second LDS temple in the Las Vegas area, as discussed in the upcoming Planning Commission Meeting. This project represents not only a significant spiritual milestone for our community but also a testament to the growing needs and diversity of our faith community in Las Vegas.</p> <p>The establishment of a second temple in our area would greatly benefit our members by providing more accessible worship spaces, fostering a sense of unity and peace, and accommodating the increasing number of worshippers in our region. Furthermore, the architectural beauty and serene ambiance of LDS temples have historically contributed positively to the local community's landscape and spirit.</p> <p>This temple will not only serve as a place of worship and community gathering but also as a beacon of hope, encouraging moral values and service to others. It promises to enhance the spiritual and cultural fabric of our city, making Las Vegas a more inclusive and compassionate community.</p> <p>I believe this project aligns with the city's values of promoting diversity, inclusion, and community development. Therefore, I urge the Planning Commission and City Council to approve the proposal for the construction of a second LDS temple in Las Vegas.</p> <p>Thank you for considering my comments.</p>

Comments	I respectfully support the recommendation to change the zoning for the temple. This neighbor will be quiet and respectful of the neighborhood. Their landscaping will be maintained. This may allow for some infrastructure improvements such as flood control and pedestrian safety. I would prefer this over what may be 40 homes under the current zoning. 40 homes will bring increased traffic at all hours and with all the other development going on will continue to overwhelm our already stressed neighborhood infrastructure, retail and service offerings

Comments	I lived by the LDS temple when they built it in Denver. It was a very nice addition to the community. It helped bring down crime because it was lighted during the nights until 10PM. It was better than just building a new church building which this is. I think that to oppose the building of this temple would be the same as religious discrimination by the planning commission. Please approve this project.

Comments	<p>The Temples of The Church of Jesus Christ of Latter Day Saints and their grounds are not only beautiful but stay beautiful and are a priority of the church. To have one in the area would bring a staple of peace and beauty. Besides the aesthetic appeal they bring up the property value of the neighboring buildings and residences as proven across not only the country but the world.</p>

Comments	Presently it takes at least an hour to get to the Temple on Bonanza and Hollywood from my home. A Temple on the west side of the valley is needed to serve the city as large as Las Vegas. This would help reduce traffic on I 15 and US 95 as those of us in the northwest valley would not have to travel so far.

Comments

To whom it may concern,

I fully support the building of the LDS temple in the Lone Mountain area. This area is a rural beauty in the community and I know there are some concerns. My hope is to show the ways that another LDS temple in Las Vegas will ultimately benefit the community.

1. A new LDS temple will help keep many of the members of the community safe. There are many people who travel all the way to the east side from the Lone Mountain area in order to attend and/or volunteer work at the LDS temple. This adds to the current traffic congestion in our city. There are also many elderly members of the community who have to travel. If they have access to a temple that is closer to them, this helps to lessen the congestion in the city as well as provides a safer route of travel. When they spend less time in their cars, it also is better for the environment as a whole as less fumes will be emitted.

2. There will be less financial strain on those who wish to worship or volunteer their time at the LDS temple. We cannot pretend that we are not in hard times financially. As discussed previously, many have to travel far distances in order to reach the current temple. This creates another sacrifice that members of the community must make in order to worship how they wish. With a closer destination as an option, there will be less sacrifice of time and finances. I will also add that temple worship is a sacred duty and not something someone can simply cut out of their schedule or budget. It is considered a commandment, so it is very necessary to members of this religious community.

3. LDS temples do not negatively affect the property value of surrounding homes. In fact, it is usually the opposite. It is often the case that homes around LDS temples increase in value.

4. LDS temples are kept quiet, clean, and beautiful. The grounds of the temple are peaceful and well cared for. They are also made to reflect the natural beauty of the area. If another structure was to take this place, it would not be guaranteed that it would pay respect to the beauty of the land. Anyone is welcome to visit the grounds to enjoy the beauty and quiet. There will be no loud music to disrupt the houses around it. LDS temples beautify the areas that surround it. Some may be concerned about the lighting for the temple. It has been the case for the east side temple that any complaints regarding lighting have been listened to and acted on. The lighting has been dimmed from what it once was to provide the community with less light pollution. Voices in the community will not be ignored.

Las Vegas will only continue to grow and we need to be prepared for it. We need structures that support the communities that need them. This is not simply a vanity project. Temples, different from churches, are immensely necessary and needed for followers of Christ. It is a place to do important and saving ordinances and to feel the presence of God. Temples are

sacred and the grounds reflect that nature. Though not everyone in the community will use the temple for its intended purpose, all can benefit from the peace and beauty that they bring. We desire better safety, health, and financial situations for our neighbors. We also desire that they may worship as they wish. If there is a structure to be built on this land, and eventually there will be, I cannot think of a more respectful and purposeful one than this.

Thank you for reading and I hope you take these points into consideration.

Comments	I support this project because in having an established Temple it better helps those people who visit often to obtain clarity and purpose in their lives and also helps in increasing their internal happiness and productivity, thus creating better citizens in that city. It also makes for a great place for pictures, visiting, and just a great view. If this project were to be allowed, it would benefit every party included. Those who love to worship in these type of facilities would have one closer to them, and even those from afar would definitely love to come and visit. The area would look much more beautiful attracting many more people to want to live in the surrounding neighborhoods. Utilities would be paid and paid well. People coming to visit or live would add to the supporting of the Vegas economy. Paying for their stay, food, transportation, etc. I along with many others would be joyous about the end result of said project.

Comments	I fully support project # 24-0072. I have lived on the east side of Las Vegas Nevada long before the temple was built. Since the temple was built in 1989 property values have increased and beautiful homes have been built. The area is well maintained and has created a lovely area to walk around and enjoy. Comments	As a participant in The Church of Jesus Christ of Latter-day Saints Temple activities, I am grateful that the location is very convenient for me when in Las Vegas for other business. It will be a beautiful addition to a very nice part of the Vegas Valley. The Temple with those members and guests who visit will be a good neighbor.

Comments	<p>From a design perspective, the proposed temple of the Church of Jesus Christ of Latter-day Saints will be a beautiful and appropriately modest addition to our community. The local roads will not be overwhelmed by traffic or congestion, and the skyline and natural surroundings will if anything be enhanced by its presence.</p> <p>But the temple will also serve a valuable functional role for not only the LDS community, but for the general population valley wide. Spending time in temples strengthens my commitment and capacity to take care of my family. It helps motivate me to put into practice Jesus's teachings about placing others' needs above my own and taking care of those who are suffering. Having a temple where members of the Church of Jesus Christ can regularly attend will positively impact the community by encouraging more compassion, community outreach, and lawfulness among everyone who visits the temple.</p> <p>Finally, it's important to note that Church of Jesus Christ temples are places of quiet worship, not proselyting or solicitation centers. The location of this temple will not result in any increase of such activities in the surrounding area. People will enter the temple with purpose, and will come out with reverence, renewal, and increased kindness.</p>

Comments	I'd like to share the 11th Article of Faith they we members of the Church of Jesus Christ of Latter Day Saints believe in:
-----------------	--

"We claim the privilege of worshiping Almighty God according to the dictates of our own conscience, and allow all men the same privilege, let them worship how, where, or what they may."

We allow everyone this same privilege to worship HOW and WHERE they would like to worship.

Please allow us to build our beautiful Temple in this proposed location. It will beautify the land and bring peace and blessings to the Las Vegas Valley.

Sincerely,
Jeffrey Stewart

Comments	<p>My family and I fully support the construction of the planned temple. It will be a wonderful addition to the neighborhood. I believe it will encourage positive things from those in the area and will uplift all. Beauty inspires good things and the proposed building is beautiful.</p> <p>Beyond that it will be a hub for people who are by and large known for their humanitarian work and love for their fellowmen (i.e., members of the Church of Jesus Christ of Later-day Saints).</p>

Comments	I try to go to the temple in North East Las Vegas once a week. I live in Pahrump and it would be so much nicer to have a temple closer. I also have a friend, a specially abled young man, who could walk to the new temple when it is completed. It would greatly enrich his life. Sincerely, Louise Gent

Comments	Every where I have traveled whether San Diego, Washington DC, Los Angeles, Seattle, Manhattan, various locations in Utah, Las Vegas (where I live)...the LDS temples are nothing but spectacular and represent faith in a higher power, a devotion to service in local communities. These are principles we could use more of. I strongly support the construction of the new LDS temple in Las Vegas.

Comments	We are thrilled to have another temple in Las Vegas! The temples are beautiful! They allow us opportunity to Worship and the addition of the lone mountain LDS temple is exciting for church members in logandale, NV. The temple will add beauty to the area and increase value of the communities around it! Our house hold strongly supports this wonderful project!

Comments	<p>If a heavenly religious temple of any faith, other than my own were to be build in the viewpoint of my home, I'd embrace it with open arms.</p> <p>I am not endowed and do not attend the temple and am a member of the Church of Jesus Christ of Latter Day saints. Yet my daughters 17 & 11 love the Gospel and go with friends to do temple work regularly at our sacred temple on the East side.</p> <p>For those with no interest sacred work is done there for all of God's children.</p> <p>But just as during the Savior it will be mocked and ridiculed. Is what it is.</p> <p>But I pray it gets built. There's always gonna be offended people raising havoc.</p>

Comments	I support the temple project. It supports our right to freedom of religion. It will be much more convenient for members of the church that live far away from other temples. It increases property values and keeps crime in the area minimal. The temples are beautiful and bring peace and joy to the area.

Comments	<p>I've seen many times where people living near proposed temples of The Church of Jesus Christ of Latter Day Saints complain and oppose the building of a temple in their neighborhoods.</p> <p>Each and every time after the temples are completed the residents love what it does to their community. Average home prices near temples throughout the world increase. Temples of The Church of Jesus Christ of Latter-Day Saints are beautiful with well-maintained landscaping.</p> <p>Additionally, temples attract many church member visitors from all parts of the world affectionately called Temple Tourists. These members come for temple worship as well as regular tourism.</p> <p>Temples are good for the neighborhoods they are built in and can bring additional economic growth to the city.</p>

Comments	What a lovely addition to our side of the valley .the Las Vegas Temple that now exists has been a great asset in the area. The immaculate grounds are an oasis. Those that visit are quiet and respectful of the neighbors. There is no doubt this new temple will be a distinctly positive addition to the area. I would sincerely encourage your support of this beautiful and peaceful building.

Comments	<p>I am grateful that the city is considering approval for the building of this house of worship for those of my faith tradition. I love that in Las Vegas I can drive around and see a host of places of worship for so many different faiths from across the world. I believe that this acceptance and celebration of diversity is far more important than simple tolerance when it comes to building a strong community. Is my hope that this temple can embody that belief from my faith tradition to yours.</p>

Comments	I would be so grateful to have a temple built on the West side of town for those of us who find joy serving there. I know that those who attend would be very respectful of the neighborhood around the building and I also know that when temples are built, property values only increase. I have seen it in several other cities. Thank you so much for your consideration.

Comments	I feel like this building will help those who worship in the community. It will not impede anyone who believes otherwise. The buildings by this church in previous places are beautiful and calm. If you look at the Las Vegas temple on Temple View Drive it is beautiful and complimenting to the area. It allows those who are members of the Church of Jesus Christ to deepen their worship. Church members are respectful of current laws and people living in the area surrounding the temple.

Comments	<p>Of over 300 temples the Church of Jesus Christ of Latter-day Saints has built through out the world especially in the USA has blessed each community. Property values increase is a given but the more important blessings is that they add beauty and character to the neighborhood. Our church are good neighbors. Every city that has a temple has nothing negative to say. The spiritual blessings are the most important. Families who visit the temple become better people and better citizens. Who could complain about that. Let the Vegas desert blossom as a rose.</p>

Comments	<p>I would love to see another Church Of Jesus Christ of Latter Day Saints Temple in this valley. It takes 4-5 hours to drive all the way across town and back. It adds so much congestion to the already busy growing city. Having this Temple on my side of town will add beauty and value to all existing homes. It is also very nice to see love and service oriented church groups grow their footprint and impact on community lives. This only can add good to this valley!</p> <p>Thank you.</p>

Comments	I know this temple and its grounds will prove to be an asset to the surrounding neighborhoods. I have noticed that The Church of Jesus Christ of Latter Day Saints always takes very good care of their properties. The temple will be a quit peaceful addition to the neighborhood.

Comments	Stopping people from building places to practice their religion in the area they live shouldn't even be up for debate. Discrimination against religious beliefs should not prevail. To those hiding behind the argument that it will cause an extreme amount of traffic, you need only look to the temple that has already been built on the other side of town to see that is completely untrue.

Comments	<p>As a resident of northwest Las Vegas, I understand the concerns about preserving places that have been remarkably left untouched and trying to keep our area as out-of-the-way as possible for as long as possible. I share those values. I hope that those in opposition will take the opportunity to visit the Las Vegas Temple on the East side, which sits against a similar backdrop. While the architecture of that temple is different than what is proposed for the Lone Mountain Temple, the aesthetics and project scope will be a good model for what to expect. Like me, I feel like people may be surprised at how peaceful the traffic is, and how beautiful, yet understated, the lighting can be at night for an establishment so large as the temple grounds. While it seems in Las Vegas that we commonly see a cycle of people moving into new neighborhoods to find an out-of-the-way place that is quieter and more secure than the neighborhood they left, then about ten years later as businesses start moving in and then eventually maybe even a high-rise casino resort comes to the area, people leave to start the cycle over again, and the areas they left behind start feeling less and less attractive and secure. People who visit the Las Vegas Temple can see that this isn't typically the case in places where temples are built. There are very few places throughout the Las Vegas valley where residents can be assured that development will indefinitely remain beautifully designed and immaculately kept with security around the clock. Neighborhoods around these temples will typically stay very nice, and the community usually feels safe while surrounding properties consequently retain an elevated value. I encourage our Lone Mountain neighbors to visit the Las Vegas Temple grounds to see the reality of what the building of the Lone Mountain Temple could bring to the area, and I fully support Project # 24-0072.</p>

Comments	<p>LDS temples are beautiful buildings that not only increase the value of the surrounding properties, but bring with them a feeling of reverence, calm and peace. An LDS temple is a place for quiet worship and prayer, not a social gathering spot for large, noisy , or unruly crowds. The building itself is a house dedicated to God, wherein he can dwell. What a rare privilege to have God's own house in the neighborhood. If you have concerns about the impact a temple will have on the neighborhood, feel free to drive around the Las Vegas Temple at the east end of Bonanza, to get an idea of the beauty a temple would add to the area.</p>

Comments	<p>The Lone Mountain Temple will only do good for the residences around it! It will beautify the area, and will bring a feeling of peace and tranquility. I believe it will also raise the value of the properties that are in the area. Just like the east temple at the base of Sunrise Mountain has been nothing but good, the Lone Mountain Temple will be every bit as beautiful and good!</p>

Comments	The additional of this new and beautiful building will allow for not only physical improvements to our surrounding neighborhoods, but will contribute a modern and peaceful refuge for all residents. We live in the RPN and fully support this project. We foresee only positive changes that can result from its addition to the area.

Comments	<p>The Church of Jesus Christ of Latter-Day Saints Temple is a awesome addition to any community. It is a place of peace and wonder and beauty it will add value to any area that it is in. The work of our Father in heaven that is done in these wonderful temples is for the benefit of all mankind and detracts from nothing save it be evil influences.</p> <p>The work of the Lord must be done according to his will, and it has been prophesied that temples will dot the lands, so his mighty work and wonder can be done. Thanks for the chance to comment on this subject.</p>

Comments	<p>I am a second generation Las Vegan. My husband and I have raised our six children in this valley, not far from this site. I love Las Vegas with all my heart. My husband has protected and served with the LVMPD for 24 years. The beauty and peace of this temple will bless our valley just as the other one has. My hope is that it will be a blessing to all, regardless of religious affiliation.</p>

Comments	Temples of the Church of Jesus Christ of Latter-day Saints are wonderful additions to any neighborhood. They are beautiful well maintained buildings and grounds. People at the temple are respectful reverent and quiet. There are no loud or large gatherings. Property values will be enhanced by the construction and operation of this house of worship.

Comments	<p>The kinds of arguments that are being raised against the temple are raised at almost every other temple that's been built around the world, and the nearby residents always come to love it after it's built. I've been to dozens of temples and have never seen a traffic problem outside of them.</p> <p>The one on the east side of town has only increased the view and beauty of the mountain. It's difficult for several of my relatives to make the trip through the entire city to sunrise mountain, and this temple would make their worship much more convenient as it's much closer to a freeway exit. I support the building of this temple in the manner that it's planned. Almost all "neighborhood casinos" get pass on the height limit. I'd hope that a house of worship would get that kind of care and consideration as well in our community.</p>

Comments	<p>I support the construction of the Lone Mountain Temple! It is a wonderful opportunity for the members of the church of Jesus Christ of Latter Day Saints here in the Las Vegas Valley to have greater access to their places of worship. The temple itself will add to the beauty of the area and will increase property values in the surrounding neighborhood. Temples for the church of Jesus Christ of Latter Day Saints are always very well taken care of. As such, this building will never become run down or become an eye sore in the area. It will forever more be a place of beautiful religious worship. I support this project and know that it will bring a sense of peace and beauty to the Las Vegas Valley!</p>

Comments	<p>Our city is very diverse in both ethnic and spiritual expression and I think that to oppose this project would send a message that Las Vegas does not embrace inclusivity and diversity.</p>
-----------------	---

I think it's wonderful to see that as our city is expanding with new sports projects and possibly a movie studio project we are also expanding in services for people's private lives including spiritual outlets.

I have been to the church's current temple property to sit in their lovely garden and meditate and found it to be very peaceful. My coworkers and I at a local hospital have been discussing the project and our desire to tour the building once completed before it is blessed for members-only use. I did this when they had an "open-house" viewing of the temple in San Diego and was very impressed by the murals and carvings! I don't know of anyone else who builds such beautiful buildings anymore (with the exception of the gorgeous Venetian!).

In closing I would like to reiterate my support of the project. It will beautify our city, provide emotional support to many hard working members of our community, and be a symbol/message of inclusivity and diversity for our population.

Thank you.

Comments	<p>Thank you for taking a moment to read this. I support the building of temple in my neighborhood. Forget for a moment about the religious aspect of this project and look at the bottom line. Property value! In every community around the world where a temple has been built the surrounding neighborhood benefits. I have experienced this first hand. Homes in the New York, Boston, San Diego and St. Louis experienced an increase in value in part to a temple being built. The LDS church always keeps the ground beautifully maintain, meticulously so. Any one is welcome to walk the ground and enjoy the beauty. I am having a hard time finding the negative when there is so much positive. I for one want my neighborhood to be beautiful and desirable. This protects the monetary investment on my home. I support this project.</p>

Comments	Good people will flock to this building. Central to the belief of good works, family, faith, and being active, respectful, and responsible in the community. This building also increases the property values in the area and brings in millions of dollars in infrastructure upgrades to the area residents directly benefit from. This building will supply its own 24 hour security on site and that watchful eye translates to a safer community. I support this project whole heartedly!

Comments	Temples enable individuals to be washed from their sins, make other promises with God, and allow families to be together not just for this time on earth but for time and all eternity. Families are the foundation and this IS Christ's restored church. Please don't strip LDS members of our right to worship.

Comments	<p>The Church of Jesus Christ of Latter-day Saints Temple being proposed near Lone Mountain will be a stunning addition to an already beautiful area. My kids used to call it the "castle houses" because when they were little the big,beautiful multi-story houses in the area seemed like castles of kings and queens. So this house of worship will be a fitting addition. We hike Lone Mountain often, play and exercise at the parks, and enjoy the desert beauty of the area. We can't imagine a better use for the vacant property than the Temple. It will further elevate the value of the area just as it has done at Bonanza & Hollywood with that temple. Please know we fully support the zoning changes that need to occur for a temple to be built on this side of town.</p>

Comments	<p>I believe the Temple would be a very beautiful place to be with family and friend to honor our Lord and Savior Jesus Christ. Placing the Temple at the base of Lord Mountain would be a beautiful addition to the Northwest mountains. I feel it's something the community would embrace and bring joy and love throughout the valley. It also helps with our traffic problems. Allowing us to save time and gas as we wouldn't need to drive across the valley to get to our current Temple on the far eastside of town. Financially it would be good because the value of the houses in that area would increase. Higher values mean higher taxes. It's good for the homeowners and for the city.</p> <p>Sincerely, David Corbett</p>

Comments	I live just minutes from the subject property. I have been to MANY of the Church of Jesus Christ of Latter Day Saints properties around the Las Vegas Valley. They are well kept and maintained. Attractive buildings and designs. They are good and respectful neighbors to their adjoining properties. I look forward to having another beautiful Temple on the west side of the valley!

Comments	<p>A temple for The Church of Jesus Christ of Latter-day Saints is always a beautiful structure. The building itself is an architectural work of great beauty. The grounds surrounding it are always well planned and immaculately maintained. The immediate area around most temples become sought-after neighborhoods, possibly increasing property values. Those who will work in and attend the temple are individuals who are doing their best to live strong Christian values. They already live and work in the western valley. You may already know some of them as friends, neighbors, and/or coworkers. These members of The Church of Jesus Christ of Latter-day Saints use the temple as a place of reverent worship, making and remembering covenants with God. They wept with joy at the announcement of a temple nearer to them. And once it is completed, you and all the public will be invited to tour the interior to see the beauty of the interior. Please allow the construction of this magnificent edifice to move forward and be a part of the blessings it will bring to the community.</p>

Comments	<p>I am writing in support of the building of a temple close to Lone Mountain for the Church of Jesus Christ of Latter-Day Saints. I have lived in many places where different temples from this church are and have noticed that the surrounding area is always built up by their presence. The current temple in the Las Vegas area has a noticeable benefit to that area of the city. Temples for the Church of Jesus Christ of Latter-Day Saints are always beautifully done and add to the beauty of the surrounding area. As our city has grown, so has the membership of this church desiring to attend the temple, which has increased the need to have an additional temple on the opposite side of the city as the current one. The only possible downside I can foresee to the building of the temple in the current proposed location is an increase in traffic in that immediate area, though I anticipate that it will not ultimately make a noticeable negative effect on the neighborhood.</p>

Comments	Las vegas is known for gambling, sex, drugs/alcohol, and generally being a trashy place. Having the temple is like the opposite. It's beautiful, wholesome, and will be a benefit to people. It encourages them to live clean honest lives. Yes, construction is annoying at first, but you can't have growth without it. Las vegas needs tbis temple.

Comments	<p>We are so excited to have a temple near us and to reduce the amount of travel time worshipping in the temple. Besides the spiritual benefits of the temple, the neighborhood in which the temple resides in enhanced by the beauty of the temple and its grounds which are always well maintained and add to the esthetic of the area rather than detract. The property values of the residences surrounding the temple increase as well. I would gladly accept the construction of a temple in my neighborhood because of feeling and atmosphere that it brings and exists.</p>

Comments	<p>I support the building of the Lone Mountain Temple for the Church of Jesus Christ of Latter-Day saints. Not only will it be a beautiful structure it will bring with it a spirit of unity, community, service, love and goodness. Those coming to the temple are service minded, loving, individuals who want to do good in the world. This temple will build up the Lone Mountain community. It will not bring it down. There is a similar Temple in Oakland, CA that serves, not only the community of members of the Church of Jesus Christ of Latter-day Saints but also serves as a "lighthouse" to pilot landing airplanes at the Oakland and San Francisco airports. Even through the thickest nightimte fog, the temple shines bright and guides the pilots to their destination. Las Vegas does not have thick nighttime fog but it will still serve as a beacon of light physically and metaphorically as it leads people to Jesus Christ.</p>

Thank you,
Chelsea Silva

Comments	As a member of the community, I wholeheartedly support the construction of the LDS temple in Lone Mountain area here in Las Vegas. It not only signifies religious diversity but also adds to the cultural landscape of our area. Temples often serve as places of peace and reflection for both members and non-members alike, enriching the fabric of our society. Let's embrace this opportunity for unity and understanding within our community.

Comments	I want to just commjnt that I hope we can have the temple built. If you look at all the areas where temples were built, they only brought good things to the neighborhood. Such as cleaner streets, less crime and increase dproperty values. The temple does not bring extra traffic, because to attend the temple you have to make an appointment and it is a limited number of peoplr per appointment times and everyone who attends the temple are very quiet and peaceful. Please let the temple be built so all are families can reek the benefits. Thank you

Comments	I support the building of the Temple near Loan Mountain. It will be a beautiful addition to the city, and help those participate in their first Amendment rights. Freedom of religion has always been of upmost importance in the USA. We claim the privilege of worshiping Almighty God according to the dictates of our own conscience, and allow all men the same privilege, let them worship how, where, or what they may. Thank you for your consideration.

Position	I SUPPORT the project and all related applications.
Name	Linda Schlauder
Residential or Business Address	2100 Shenley Ct. Las Vegas, NV 89117
Phone	(702) 499-6905
Email	lschlauder@mac.com
Comments	I completely support the building of The Church of Jesus Christ of Latter Day Saints Temple at this address in the Lone Mountain area. It will beautify the neighborhood and bring property rates up. The grounds around an LDS temple are beautiful and kept meticulously as evidenced by the east side of Las Vegas LDS temple. The beauty, value and peaceful surroundings will only add to this area. I hope you will strongly vote yes!

Comments	<p>This is a very important set of buildings for those of our faith. It will help bring peace to many people in the valley, especially those in the areas surrounding this new temple. It will also have the side effect of raising the property value of all the nearby properties. That has been the case in all cities, actually countries that a Temple of the Church of Jesus Christ of Latter Day Saints have built. It will only bring good to the area.</p> <p>Thank you for approving this and allowing us our religious freedom without discriminating against us.</p> <p>With good thoughts,</p>

Comments	I am pleading for the approval of the Lone Mountain LDS Temple. It is essential for my religious worship and would greatly appreciate prayerful consideration for it's approval. If not approved it would create a hardship to travel to get to the Temple across town. History has shown property values improve, crime decreases and communities improve when any house of worship is build in a community. Please approve!

Comments	<p>I enjoy living in Las Vegas! The opportunity to have another temple in our valley is a blessing to all, member of the church or not. It will be a beautiful addition and definitely draws good thoughtful people to the area as they attend and worship there.</p> <p>I don't understand the thoughts of those that may oppose its construction as it will only add to the family community that this city desperately needs!</p> <p>Thanks for your consideration and service to our city, Scott & Janice Miller</p>

Comments	<p>This is a welcome addition to our community. I have long believed that we need more religious places of worship within our city. Many of the world's most significant cities offer many architecturally stunning places of worship, which not only add beauty to the urban landscape but also adds culture and fosters unity among its residents.</p>
----------	--

I firmly believe that the presence of religious buildings, regardless of denomination, reminds individuals within the community, regardless of denomination, of the core moral values we share. Whether Catholic, Buddhist, Islamic, or The Church of Jesus Christ of Latter-day Saints, each structure symbolizes principles of respect, reverence, and selfless service.

In my opinion, The Church of Jesus Christ of Latter-day Saints, in particular, has a long history of bringing timeless visual value to their surrounding areas through their temples. Las Vegas is a beautiful city with exceptional architecture on and off the strip. In addition to the social good I believe religious edifices provide to the community, this proposed temple will add a distinct form of architectural diversity to this city.

For these reasons and many more that I am happy to elaborate on, I fully support this project.

Brig Jensen

Comments	<p>Dear Members of Las Vegas City Council.</p> <p>I am a 40 year resident of Las Vegas and I strongly support the building of The Lone Mountain Temple..</p> <p>Recently I had the opportunity to attend two open houses for Temples in St. George, Utah. I was very impressed</p> <p>with the beauty of the grounds and architecture. These buildings are beautiful and the grounds are peaceful and</p> <p>serene. They are well maintained and have a reverent nature about them. Your approval will be a blessing to</p> <p>members of The Church of Jesus Christ of Latter-day Saints and the neighbors of the community that will benefit</p> <p>from its presence. Thank you for your consideration of this request.</p> <p>Sincerely,</p> <p>Craig & Lori Vanus</p>

Comments	I fully supprt this project. I have served in the Las Vegas Temple for over 11 years. Peace is felt in these holy edifices. For those unable to attend the temple peace can be felt as you walk and sit on these sacred grounds. It will be a beautiful addition to the neighborhood always well-kept and maintained.

Comments	I grew up with a temple close enough that I could go often (10 minute drive) and it changed my life being able to go and serve there weekly. I learned to care for other people, was happy and peaceful through my teenage years, developed a strong relationship with my sister that I normally clashed with, and built a strong faith in God. Right now the drive to a temple for people on this side of town is 40-60 minutes, which isn't feasible for teens to go often and have a real lasting impact on youth.

Comments	I strongly support the building of a temple for the Church of Jesus Christ of LDS being built near Lone Mountain. This will be a beautiful addition to the community. It will serve so many of the citizens in the area. Temples are peaceful, beautifully designed, and well maintained places of worship. It is attended by patrons one by one, so there are not large events or times of heavy traffic or anything like that. Historically, temples raise property values and add so much to the communities that they are in. Of all of the possible projects that could be proposed for this area- an LDS temple would be among the most beautifying, community-improving project there could be.

Comments	This will be an absolutely beautiful building that will be expertly maintained to keep the beauty immaculate. People will visit, but I don't see the chance of such an influx of traffic that it would cause any kind of problems. In my opinion, the gorgeousness of the temple will only increase property values. It is not an obnoxious looking structure, only something serene and peaceful.

Comments	I'd like the Lone Mountain temple construct built because I would love being able to visit the temple in Las Vegas. The other temple is so far away and for me, that one is a very sacred place. Since my step-dad, mom and I were sealed in the Las Vegas temple and they are no longer active members, letting the memories I have about that place linger would be memories I'd like to keep alive. The new temple will be much closer and an open place I'd likely visit often.

Comments	<p>I wholeheartedly support the construction of this temple for the Church of Jesus Christ of Latter-Day-Saints. These temples are always very beautiful and bring a special feeling to the surrounding area. Patrons attending the temple are always very respectful of the near-by residential areas as it is a peaceful and quiet place, so disturbance should not be a cause for concern. It would be very conveniently located for many members of the church who live on the west side of town. Please approve for this long-awaited project to become a reality. Thank you!</p>

Comments	<p>BOTH MY GRANDPARENTS MOVED TO LAS VEGAS 1912. MY FATHER WAS BORN HERE IN 1916. I WAS DELIVERED IN THE OLD LAS VEGAS HOSPITAL IN 1942. MY WIFE MARY AND I HAVE LIVED AT THE STATED ADDRESS FOR TWENTY YEARS.</p> <p>I WELL REMEMBER WHEN THE LAS VEGAS TEMPLE WAS BUILT IN THE LATE 1980'S, THERE WAS OPPOSITION PERTAINING TO "WHAT WOULD HAPPEN TO PROPERTY VALUES" , THE BACK AND FORTH ON MANY ISSUES WAS THICK.</p> <p>ALL THAT HAS PASSED AND WHAT STANDS NOW IS A BEAUTIFUL EDIFICE WITH WELL MANICURED LANDSCAPING. MY WIFE AND I ATTEND THIS TEMPLE REGULARLY WITH A LOT OF OTHER OLDER PEOPLE. THE DRIVE IS LONG IN HEAVY, DANGEROUS FREEWAY TRAFFIC WHICH STOPS SOME OF US FROM ATTENDING AS WE WOULD LIKE. A SHORT DRIVE TO THE LONE MOUNTAIN TEMPLE, OFF FREEWAYS WOULD BE A BLESSING TO US IN OUR OLDER YEARS.</p>

Comments	My husband, Bill Harrington and I are in favor of The Church of Jesus Christ of Latter-day Saints temple that is to be located near Lone Mountain.
-----------------	--

This temple will service people living in this area of town decreasing the traffic and other related issues in driving across the Strip.
In our temple service we are encouraged to be community and civic minded and in treating all honorably and ethically. There many good things that will result in the building of this temple and in it's location.

Best Regards,
Diane and Bill Harrington

Comments	<p>As an active member of the church of jesus christ of latter day saints, I would like to help explain something. It is crucial to understand that a temple is very different than a chapel meetinghouse to us. Our chapels are used for regular meetings on sunday and also various activities during the week. The temple is where our church members attend on occasion to perform sacred ordinances. It is significantly more spiritual for us to participate in a temple ordinance than a normal sunday church service. Its an experience that helps us feel connected to our faith on a VERY deep level. We consider it very sacred and would love to have the opportunity to attend the temple on a more frequent basis.</p> <p>I live in Skye Canyon and having this temple in Lone Mountain (as opposed to the most East portion of Bonanza) will be a big blessing and allow me and my family to attend more frequently. We will be a happier family with this construction of the temple in the Lone Mountain area.</p> <p>Thank you for taking time to consider our opinion!</p>

Comments	I fully support this project! The temple on the other side of town is beautiful, well maintained and has brought value to the homes in the area. I have no reason to believe this temple will not be the same. I think that opposition to this is based on prejudice toward The Church of Jesus Christ of Latter Day Saints.

Comments	As a member of the Church of Jesus Christ of Latter-Day Saints having a temple on the west side of Las Vegas means the world to my family and I. I am proud to say that the things that are done within the temple walls are sacred and the neighbors around the temple will not be bothered. As a matter of fact temples bring a calming spirit and peace that everyone is welcome to enjoy ok the temple grounds.

Comments	<p>This temple is a necessary addition to the Las Vegas area to provide adequate opportunity for members of the Latter Day Saint church to worship as they see fit. Freedom of religion should be an easy decision for this board. The Las Vegas Valley was settled by Mormons clean back in the 1850's. Las Vegas has grown and flourished since that time and latter day saints have been a positive part of that growth ever since. It's a house of worship plain and simple. Those who protest its construction under the guise of various complaints are pouting because they didn't realize they bought property next to a commercially zoned area and now that its being developed, they don't like it. People protested the first temple in Las Vegas many years ago when I was a kid and it hasn't hurt anyone. In fact the property value of homes in that area increased by more than double. Please allow this project to go forward as it is an essential part of LDS worship. It will be beautiful addition to the Las Vegas valley! Thank you.</p>

Comments	<p>I would like to see this Latter Day Saint Temple built because I love my religion and worship regularly. I love going to the Las Vegas Temple and would find it even more convenient for me to do my temple work with a temple that is on my side of town.</p> <p>I believe it will only bring beauty to the area.</p> <p>Thank you</p>

Comments	I support the building of the Lone Mountain temple of the church of Jesus Christ of Latter-day Saints. It is an important place of worship to those of the faith. LDS temples are held to the highest building, cleanliness and maintenance standards of the church. From a neighborhood standpoint, it increases home values nearby and creates safe neighborhoods. Temples always have adequate parking and perfectly manicured grounds. I am in full support of this building.

Comments	These buildings have never had complaints from surrounding neighbors throughout the United States. In Boston, it was built in a highly condensed residential neighborhood and the neighbors love it, because the patrons are quiet and kind. In addition, the real estate values have all tended to move upward when a building of this type was built.

Comments	I am in full support of having a temple built on our side of town. I am a Las Vegas native and a member of the church of Jesus Christ of Latter-day Saints. I believe that this temple will be a beacon of hope to the community and bring light. Temples are a wonderful place of worship and will bring new people to the area which will bring infrastructure. I truly believe the building of this temple will be of great good to this part of Las Vegas!

Comments	I can't imagine having anything more beautiful in our community than the temple. It will not only add more beauty to this area, but it will also allow LDS members to expand and grow their faith. We need that, especially during these dark and crazy times that we live in. It is a quiet place we can go to to think and pray.

Comments	<p>I am in support of this project for many reasons. We have one other temple here in Las Vegas and it is a very peaceful place. It's not loud and doesn't cause issues to surrounding neighborhoods but adds to the beauty. The buildings are beautiful and the lawn and property are always well maintained. We love to take our family to walk around the temple to see the flowers and greenery. We would love to have another place to worship as our other temple at times is very busy. Sometimes we have to wait months at a time to go and participate in ordinances there. We are so excited for this to be built as it will be much closer to our home and more convenient for us to attend.</p>

Comments	<p>I support this project. I have seen the properties vales rise due to the beauty that is put in the land scaping and the glow of the light that is shown on both the building and said land scaping. The light is just on the building and not on any homes. Also the grounds give enough of a buffer form the homes. Traffic will not be a large impact because most will still go to the Las Vegas Temple. It will help with some of the traffic that is at the Las Vegas Temple location. Also they own the site also is it so wrong to build a place of religious at this stie. Ask if it was a Mosque or Synagogue would it make the same uproar that this has. If not then that is wrong. Because it is the same thing as any religious place would be to any religion. They will even hold an open house so that all may have a chance to enter and see what it will look like inside. So I ask that you please vote in support of this project. Thank you for your time and consideration.</p>

Comments	<p>Please approve the Lone Mountain Temple of the Church of Jesus Christ of Latter-Day Saints. As the temple on the East side of town illustrates, the project will not increase traffic and property values in the area will increase.</p> <p>Most importantly, this house of worship is sorely needed by the members of the Church who have to travel to the other side of town to perform to conduct special worship services.</p>

Comments	I am looking forward to seeing a new temple built on my side of town. This Temple will serve half of the 100,000 members of the Church of Jesus Christ of Latter Day Saints in the Las Vegas Metropolitan area. With each visit taking about 3 hours. The current Temple is insufficient to meet the needs of the metro area saints. By all accounts the Temples are exemplary neighbors with respectful visitors and immaculately maintained facilities and grounds. We literally consider the buildings the House of God on the earth. Thank you for your support of this important and needed Temple!

Comments

Thank you for the opportunity to provide input on the proposed new LDS Temple. My wife and I are active members of the Church of Jesus Christ of Latter-day Saints and I am a retired real estate and land use attorney with 40 years' experience dealing with issues such as those involved in this proposed project. I have also been closely involved in the development of several other temples. I am not authorized to speak for the Church, so these comments are mine alone.

The Church always tries to be a good neighbor-regarding temples and meetinghouses or the two together. I have never seen neighborhood concerns disregarded.

We live in Centennial Hills and have seen this area grow and develop. Some here wish this northwest area could have always remained rural, but population pressures have made that impossible. For the Lone Mountain area, it is probably not a matter of "if" but "when." New streets will be built and to the extent required, like any other landowner, the Church will pay its fair share of these and other development costs.

Traffic and parking should not be an issue. The existing temple at the base of Sunrise Mountain is a good example. Traffic to and from the temple occurs fairly slowly throughout the day-Tuesday thru Saturday. Locating a meetinghouse adjacent to the temple (as is the case with the existing temple) should result in the need for less parking than if the buildings were separate. I believe that the new meetinghouse would be needed whether or not the temple was also being built.

Regarding building size and lighting, I don't believe that the Church will ignore neighborhood concerns. Current lighting technology may allow solutions that will satisfy both sides. As to building size and height, you are aware that for Church members, these are more than matters of aesthetics. The 70,000 sq. ft. size will be required by the nature of worship conducted in temples and the large LDS population in the west valley that will frequent this building. Along with the rest of the architecture, the spire is aspirational, emblematic of our reference to temples as "The House of the Lord."

I realize that property values may not be the most serious of the neighbors' concerns, but I have never seen a new temple constructed that did not positively affect the values of neighboring properties. The temple and meetinghouse and we as Church members will be good neighbors.

Comments	Temples help strengthen communities. Men and women of all social classes and backgrounds enter these sacred buildings and make binding and important promises. They promise not to steal or lie, they promise to be faithful to their spouse and children. They vow to be peacemakers and seek the interest of neighbors, recognizing that we all are one family, valued alike unto God. If these promises are kept, society can literally be transformed. This temple will truly bless and strengthen our neighborhood and surrounding areas.

Comments	I support the LDS Temple project near Lone Mountain. The Las Vegas valley has only one LDS temple on the far east side. This adds a second location for those of the LDS faith to practice their religion. The LDS temple is a beautiful building, constructed with the highest quality materials and workmanship. It is much better than having a developer build a shopping center or office complex. The City of Las Vegas should encourage everyone to practice their faith, no matter what religion they belong to. I believe this project will be beneficial to members of the LDS faith and also to surrounding residents having a clean, upkept, quiet project in the area.

Comments	<p>I feel so blessed to have a temple near me. I am older now so it's difficult to get to the one on the east side of valley. I have lived her my entire adult life and my late husband and I have raised our 6 children here in Las Vegas. They are all good citizens and participate in several businesses and entities of Las Vegas. The temple has blessed our family and it will continue to do so. I feel it will be a great blessing to me as I will be able to attend more due to closer proximity. Thank you and please approve the temple.</p>

Comments	<p>All Temples of The Church of Jesus Christ of Latter Day Saints are central to sacred worship for members of the church. Temples are regarded as "The House of God" and as such, extreme care is taken to ensure that the highest quality of materials and workmanship are used in the construction of these buildings and that even the landscaping and surrounding areas are beautiful and well kept. I personally find peace and comfort whenever I have the opportunity to visit one of these sacred places and especially when I have the opportunity to worship within those walls. I am so excited at the prospect of a new temple on the west side of our valley that will provide those experiences so close to my home. Thank You</p>

Comments	LDS Temples are a beautiful and peaceful addition to any neighborhood. I believe anyone opposed to it at this time will change their mind when they experience the uplifting feeling that having a temple near them will bring. Many of us are rejoicing to have a temple on this side of town. It is a gift from God for us.

Comments	<p>The LDS Lone Mountain Temple project will bring great value to the west side of the valley -- just as the LDS Las Vegas Temple has on the east side of the valley -- without a negative impact on surrounding neighborhoods. Again, use the positive experience of the LDS Las Vegas Temple on the east side of the valley. All LDS temple grounds, regardless of size, are peaceful spaces. Furthermore, I am sure Clark County does not want to get into an expensive lawsuit over issues of religious freedom.</p>

Comments	The new Las Vegas Temple will be such a blessing to this community. The temple is a place of beauty and transformation. The building will be beautiful as will the grounds, this is a benefit for the entire community. This is a house of worship that brings peace and serenity along with it. We are completely in support of this new temple and cannot wait for it!

Comments	<p>I have lived in Las Vegas since 1954 and have resided in many parts of the valley. Eight or ten years ago, I lived about a mile from the LDS temple at the east end of Bonanza Road, at the foot of Sunrise Mountain. I was very favorably impressed with the definite positive influence and impact that that property had on all the surrounding area. I am confident that the temple's presence there has elevated and helped maintain the ambiance, value, and stability of that whole corner of the valley.</p> <p>Now I live in Summerlin, about 4 or 5 miles from the proposed site of the second LDS temple. I was very happy to learn of the plans for this. I am certain that this building will have the same very positive impact on all the area surrounding it that we have seen with the original LDS temple.</p> <p>Las Vegas needs more buildings (with such beautiful landscaping) as these buildings are and will be. Such buildings really do make this a better community, Please open the way for this project.</p> <p>Thank you.</p>

Comments	<p>The building of another temple by the Church of Jesus Christ of Latter-day Saints is necessary in order to accommodate the large and growing population of church members living in Southern Nevada.</p>
-----------------	---

Should the City of Las Vegas Planning Commission have any reservations regarding the impact of this new temple building on the surrounding neighborhood, I hope they will take into consideration the example of the LDS temple in the neighborhood at the base of Sunrise Mountain, since 1989.

I respectfully ask the commission to approve the plans for another temple in this ever growing valley. Thank you for the opportunity to express my opinion regarding this project.

Comments

My wife and I currently drive a 50-mile round trip 1-2 times each week to serve in the Las Vegas Temple. We were overjoyed when the Lone Mountain Temple was announced because travel will only require 5-10 minutes from our home.

Fifty years ago, my wife and I were newly married student living in another states. Seeing the illuminated temple in the distance at night was a reminder of the great promises we had made in the temple and the sure promised blessings if we were true to them. At that time, we perceived the temple as a lighthouse.

The image of a lighthouse seemed very appropriate to us at that time and seems applicable to the announced temple in Lone Mountain. If we lived in a quiet seashore village on an island surrounded by treacherous rock and boisterous waves, we might be initially concerned if someone proposed a lighthouse in our neighborhood. It certainly would be inconvenient to have the lighthouse beaming at night. But once we understood the purpose of the lighthouse was to safeguard approaching mariners to warn them of the dangers and to allow them to reach the safety of the harbor, our initial concerns would be resolved.

Perhaps the opponents are unfamiliar with the ordinances that will be performed within the temple precincts and their eternal impact? Individuals and families are not perfect, but they often reflect a more controlled side of humanity. We live in a gated community, but our tranquil lifestyle is often interrupted by the engines of motorcycles and racing cars. Those who will frequent the temple generally are law-abiding citizens that present no danger and obey local ordinances. The illuminated spire benefits the entire community by proving a safe environment, by reminding adherents of eternal covenants that impact lifestyle choices. and offer well-manicured grounds that are available to little children and curious visitors.

My experience has been that, despite initial concerns, most residents become quite grateful to have a temple in their midst. In marked contrast to initial concerns regarding decreasing property values and disrupted lifestyle, in other neighborhoods property values have soared and temple patrons are welcome neighbors.. A lower spire and/or diminished illumination at night would deprive everyone of its subtle beckoning beams.

I strongly urge you to support this proposal and its anticipated blessings to our community.

-------	---------------------------

Comments	<p>1) Temple buildings are beautiful works of art. The temple grounds are always kept immaculate, and bring a sense of peace and tranquility as one walks the beautiful grounds (which grounds are generally opened to the public to walk thru and enjoy).</p> <p>2) Studies show temples effect local real estate in a very positive manner, increasing the property values significantly.</p> <p>3) Members of the Church of Jesus Christ of Latter-Day Saints are peaceful, service oriented people who love God and Jesus Christ and love helping those in need within the community as well as around the world; working side-by-side with other religions, local charities, and local government to assist those in need no matter of their race, religion, gender, or nationality.</p> <p>4) Although the church has regular meeting houses to hold Sunday services and other activities; temples are dedicated as the House of the Lord, and are not used for regular Sunday worship and activities but rather sacred ordinances that seal families together forever.</p> <p>For more information on temples and how they are used, or information on the Church of Jesus Christ of Latter-Day Saints, I would invite you to contact the Church of Jesus Christ of Latter-Day Saints directly and ask to speak with the missionaries who can explain the Church and the purpose of temples more fully which may help ease any concerns.</p>

Comments	I am a member of the Church of Jesus Christ of Latter Day Saints and I do not think the valley NEEDS another temple, when the Temple on Bonanza is fully available. If the church would like to help the community, they should consider a homeless shelter with medical facilities to help those less fortunate and in desperate need of service and help. That would be following in the true spirit of spiritual teaching of " helping the least of these my brethren, ye have done it unto me."

Comments	<p>I love attending the LDS temples. They are places of peace and beauty and a refuge from the cares of the busy rumblings of the outside world.</p> <p>I believe this new temple will add to the quiet beauty that has long surrounded the area of Lone Mountain.</p> <p>LDS Temples are pristinely cared for and with beautiful grounds and are quiet places of solitude and reflection.</p> <p>I fully support this addition to the west side of the Las Vegas Valley.</p>

Comments	<p>I support the proposal for a house to worship near Lone Mountain.</p> <p>These temples beautify the area, allow those who choose to worship, and historically increase property values.</p> <p>The church should be expected to contribute to the expenses required to improve infrastructure, and should be build and maintained in a way that maintains the natural beauty of the area and considers the neighbors.</p>

Comments	I support the proposed project to build the Lone Mountain Temple. The building of houses of worship of any faith or congregation should be supported as a foundation of our community. The Lone Mountain Temple represents the pinnacle of worship for members of the Church of Jesus Christ of Latter-day Saints, and will be a positive to the surrounding neighborhood and city and county.

Comments	I am in full support of having a temple built on our side of town. I am a Las Vegas native and a member of the church of Jesus Christ of Latter-day Saints. I believe that this temple will be a beacon of hope to the community and bring light. Temples are a wonderful place of worship and will bring new people to the area which will bring infrastructure. I truly believe the building of this temple will be of great good to this part of Las Vegas!

Comments	Myself and my husband, Josh Williamson support the planned construction of the Lone Mountain Temple. This temple will be a beautiful addition to our Las Vegas Valley. When so much of what is built serves a purely secular and/or commercial purpose, it is a delight for a building that serves for spiritual edification. Even those not of the LDS faith can enjoy the gardens, architecture and the peace that will flow from this sacred building.

Comments	<p>My family fully support this temple being built. Every LDS temple I have visited is absolutely beautiful and grounds are very well kept. They definitely enhance the surroundings. This is the LDS church most sacred place and has great significance to its members. Having a place where you can have a piece of heaven on earth will greatly influence the area for the better.</p> <p>This area is already surrounded by grandiose residential properties that look like mansions far from rural.</p> <p>This opposition also steams from population who view negative towards the church and this is unconstitutional.</p>

Comments	<p>If you live around the area, YOU ARE LUCKY!!! Because the temple IS THE HOUSE OF GOD. A place of peace and beauty. You will be surrounded by GOOD PEOPLE, that doesn't drink, or smoke, doesn't steal, and are clean and respectful people. People ready to help if they see you in trouble. WHO DOES NOT WANT TO BE NEIGHBOR WITH CHRIST?! He is the best! Your houses, your families will be blessed , even IF YOU DO NOT BELIEVE. Sincerely know this and I a million per cent support the project. Alma??</p>

Comments	<p>I am in completely in support in building a temple for the church of Jesus Christ of Latter Day Saints!</p> <p>This project is a blessing for not only its members, but also the community! It will stand as a beacon for all. It will be a place of refuge, a place of worship, and a place of beauty for all!</p> <p>Many of us have had to travel far and navigate through traffic to attend our current temple located on Bonanza. This new temple would cut many of our travel times by 30-50 mins! This new temple would also be able to service more people, due to high attendance of our current temple.</p> <p>This new temple would only enhance the beauty of our great city! And bring peace to all who seek it!</p>

Comments	The way Las Vegas is growing, I find it refreshing that a single building of worship would sit on 20 acres of land. Think of the alternatives for those residents! There could be a Walmart there in the future, 1000 apartments, 500 townhomes, or whatever higher density residential area. I would love to have that quiet, beautiful, and well maintained building by my house. I'd say that the residents around that building hit the jackpot as far as construction goes.

Comments	<p>I believe the Lone Mountain Temple will be a wonderful addition to the community. I saw what the Las Vegas Temple on the east side of town did for that neighborhood and those that attend the temple are respectful of the community. It will be beautifully landscaped and maintained in all aspects. It will be a place of joy, marriages, family gatherings, peace, tranquility, beauty and honor. I will be one of those attending the Temple as I work my Temple shift weekly and attend as a patron to do work for my family on other days than my shift. I will be serving the community by assisting anyone interested in dong genealogy. I am grateful for this Temple, it's location and the proximity to my residence versus the travel time I put in weekly attending the east side location. Thank you for this forum to allow me to share my gratitude and excitement for this new Temple with the highest quality construction and design and purpose.</p>

Comments	I have lived in Las Vegas for 20 years and would love to see the Lone Mountain Temple become part of the beautiful desert landscape in the valley. I'm grateful for the freedom I have as an American to express my religious liberties and it would greatly benefit myself and many other people in this community to have the temple be built in its planned location.

Comments	<p>This project effects not only the people around it but all of the rest of Nevada and some of the surrounding states, it will be closer to a lot of us and make less traffic to the Sunrise manor area.</p> <p>there was a lot of dissent about the first temple in Vegas also but it has made that area better and land more valuable.</p> <p>I grew up in Vegas from 1951 in the Sunrise Manor, so I know what I am talking about and have seen Vegas grow, I live in Pahrump now but have to go to east side of Vegas to go to the existing temple and it is very busy, this new Temple will help reduce the traffic in that area and support the Businesses in the west side of town</p>

Comments	<p>My husband and I love to visit the current LV Latter Day Saint Temple for date night, as it is a place of solace for us. It brings us closer as a couple, closer to our ancestors, and closer to God. But as a family with young kiddos every minute counts. We live in central Las Vegas (so we are closer than many) and yet it still takes us 30 minutes one way to drive to the current temple grounds. The newly proposed temple grounds would be a full 10 minutes closer to us, and thus shaves 20 mins off our trip. This is great for having more time actually in the temple before rushing home to the babysitter or to get back to help kids with their activities. Our kids love to visit the temple grounds too and look forward to the day when they are old enough to serve inside. However, with their constantly growing busy schedules, having another temple closer will be such a blessing. Not only does it shorten the drive time, but also makes it a smoother process inside the temple as it won't be as crowded. We fully support the construction of this temple. In a constantly growing Las Vegas valley, why not add to the beauty of it and its people, with a finely constructed temple that urges men & women to become better parents, neighbors, & citizens, rather than let the land eventually turn into just more plain housing or such?</p>

Comments	We support the proposed temple being built by the Church of Jesus Christ of Latter-Day Saints in the Lone Mountain neighborhood. It will be a positive addition to the area. It will increase property values. The Church is known to build beautiful temples and temple grounds, and we happily support this addition to our community.

Comments	This project will increase the surrounding property values. This building and the surrounding grounds will be maintained so beautifully. The similar building near Hollywood and Bonanza is a wonderful addition to the neighborhood. The flora and fauna are always kept clean and it is a joy to walk around the grounds.

Comments	The Mormon's have a right to worship according to their religious freedom. Temples improve property values of an area, improve aesthetics and generally provide an overall sense of wellness to an area. The same should be true for any people of faith, Christian or non-Christian. If a people own property, abide by law, have a record of good will and seek a mutual prosperity, I don't see the problem. Leave good people of faith alone to worship as they see fit.

Comments	I understand the concerns of people regarding the Church of Jesus Christ of latter-day Saints Temple. In my experience, this occurs nearly everywhere a temple is built. After they are built, the concerns of nearby, citizens are often turned into appreciation for the good citizens that members of the church are, and the good they do and add to the community. Having been in that area, which is very nearby, I have found the traffic to be negligible. In addition at any given time, there are very few people traveling to and from the temple. The temple located there will bring additional economic activity to the area. Its beauty will be an addition to, not a distraction from the wonderful park and hikes on Lone Mountain. I know the temple will be good for Las Vegas and for that district.

Comments	<p>The temple will bring beauty and peace to the community. The people of the church are good people who give much service to our community in many ways . Every where an LDS temple is built, the price of homes goes up in that area. It is a very quiet and sacred edifice with beautiful and well kept grounds surrounding it. I would love to see the temple built and I would count it as a blessing to the neighborhood.</p>

Comments	<p>I strongly support the building of a Temple of the Church of Jesus Christ of Latter-Day Saints in our community. This holy edifice attracts only good people. More people of faith will come to this area of the valley. These people love their neighbors, look out for others, care about their property, spread kindness, and are generally more affluent. In addition to the people who will visit and who will move here permanently because the Temple is here, the Temple and its grounds will be a beautiful addition to the area. Property values will increase. Anyone is welcome to walk the graden grounds. It will be a place of peace and reflection for all who come.</p>

Comments	<p>I speak in favor of and approval for the new Lone Mountain Temple in Las Vegas.</p> <p>This past week I have been up in the Salt Lake City, Utah area. The area development there is not that much different from Las Vegas, with sprawling neighborhoods and intermittent areas of business. The one thing that make the Salt Lake and Utah County areas different, are the number of temples that dot the valley. As I have traveled the US and the world, I have been very impressed with the islands of peace and tranquility that the temples bring to any city. They are peaceful, calm and beautifully landscaped. Temples are beautiful to look at and increase the beauty of a neighborhood with their unique architecture, clean surroundings and reverent feel. I would love to have a temple in my neighborhood. I know temple architecture and landscaping is always designed to blend into the area where they are built. The color of the temple might even be slightly off-white to match the color of Lone Mountain. I used to live near that exact neighborhood but have moved a little further northwest. But wished I still lived right there in that exact area so I would have a temple in my neighborhood . I am all for the new temple. It will be a wonderful addition to the northwest area of Las Vegas. I was recently on a bus tour in New Zealand and as we drove by the new temple in Auckland, I could hear people saying 'how beautiful it was.' Temples are places of love and beauty.</p>

Comments	<p>My husband and I have been Las Vegas residents since 1965 and 1989, respectively. We moved to Pahrump a couple of months ago but still work in the valley. We believe that such a building will add not only to the property values in the area but it will add to the spirit of community and belonging. In order to worship at our current temple we have to travel 3 hours plus the time we spend inside, this makes for a long day on Saturdays. Having a temple closer to Pahrump will allow us to spend less time in traffic and more time in communion with God.</p>

Comments	I support the project and construction of the Lone Mountain Temple of The Church of Jesus Christ of Latter-Day Saints. The temple and temple grounds are a peaceful, beautiful place to visit and enjoy for all people. Like the Nevada, Las Vegas Temple on the east side of town, this temple will provide a place of worship for members of The Church of Jesus Christ of Latter-Day Saints living on the west side of the Las Vegas Valley. It will be a positive contribution to the Lone Mountain community as well as Las Vegas.

Comments	Our household supports a temple for The Church of Jesus Christ of Latter Day Saints on this lot as it will be a structure of beauty for the community. Our experience with temples in all locations is that both the structure and the manicured grounds are attractive and pleasing for neighbors and visitors to have as a quiet nearby attraction.

Comments	I fully support the LDS church building the Lone Mountain temple. Many of the concerns are born of ignorance as they likely have never gone to a temple and do not know how sacred they are. They will maintain the beauty of the land and it is a quiet holy place.

Comments	<p>I believe that the temple for the church of Jesus Christ of Latter Day Saints will be an amazing addition to the Lone Mountain area. I work right down the street and I would love to have a temple there. In my experience, temples always provide a light, and a beacon to us. They are beautiful, peaceful, quiet, reverent, and bring joy to the valley. Even without going inside, the views of temples are absolutely breathtaking. Landscaping is always taken care of and things are kept clean. I think a temple in Lone Mountain would bless our valley tremendously. It is a gorgeous building full of love for everyone.</p>

Comments	<p>My husband and I drove out to see where the new LDS Temple is slated to be built. I wanted to see first-hand because of all the controversy.</p> <p>It is on a vacant lot surrounded by a lot of houses. There are also new massive "Estate" homes with new ones being built right across the street. I didn't see one horse, horse barn, corral, nothing.</p> <p>The new LDS Temple and meeting house would be a magnificent addition to the neighborhood.</p>

Comments	I support the building of the temple for many reasons: (1) It would reduce traffic on major highways, (2) it would reduce opportunities for collisions, (3) It would allow citizens who live at the opposite valley to attend the temple more often, (4) citizens who do not drive the freeways and drive city streets have a shorter distance to drive.

Comments	<p>The proposed temple will be a wonderful compliment to the beauty of the area and will align with the spirit of peace and tranquility in the nearby neighborhoods. As demonstrated by the Las Vegas Temple at the base of Sunrise Mountain, temples do not produce excess traffic or "busyness" in the areas where they are situated, nor do temple features or lighting create distractions. Rather, temple features elevate the surrounding streets and natural landscape with feelings of calm and reverence. It functions as a quiet symbol of, peace, commitment to higher purpose and goodwill that influences all in positive and constructive ways.</p>

Comments	<p>I support this project for a couple of reasons. First, we as a community should be supportive of an individual's right to worship and seek to better themselves. Second, the proposed building project is beautiful and will increase the beauty of the area. Third, historically property value increases in areas surrounding LDS temples.</p> <p>As to some concerns that I have seen from the opposition, the project will not drastically increase traffic in the surrounding area. When looking at the LDS temple on the other side of town, the neighborhood remains quiet and rarely are cars parked on the street. Further, temple sessions are spaced out throughout the day. As such, it will be rare that the parking lot will be beyond capacity. Also, the temple is quiet. It is a place of worship and a place where members of the LDS faith have much respect and are generally very reverent on the property. Thus, noise concerns are not an issue.</p> <p>Overall, I support this project because I support the right to assemble and worship.</p>

Comments	<p>I believe it's a freedom of religion issue to not blow a people to build a sacred structure that is the only place where certain promises to God can be made. With such a large membership of the church here in the Valley and throughout NV, another temple is warranted and will bless the lives of hundreds of thousands of Nevada residents. Even non-members can be uplifted by the presence of the temple due to its beauty, being well maintained, and the peaceful garden-like aura that tends to prevail there. Having grown up in Vegas, I've witnessed friends members and non-members be blessed by the temple on the East side of town. Some used it as a date, a picnic spot. Others for senior photos. Some for it's intended purpose, to enter and make sacred covenants with our Heavenly Father and in return be given gifts and power from on high. I've attended weddings there for dear friends. I even had my marriage to my husband sealed for eternity in the Las Vegas Temple. It is a special place. We are hopeful for our children that the Lone Mountain Temple will be that special place for them, just as the the Las Vegas Temple was for me. That they will be able to watch it being built as they grow. When it was announced, we drove to the site, thinking we'd get a picture as a family of the property to compare it one day! We were shocked when we arrived to see the street lined. Packed with other cars that had a similar idea. Everyone just wanted to be at the site. To celebrate the news. I didn't know many that were there, but we shared in the joy. Thank you for considering upholding our religious freedoms.</p>

Comments	The project being built is a way for members of the Church of Jesus Christ of Latter-day Saints to exercise their right to religion. It does not harm anyone nor anything, so why should we not build a project that is meant to allow members to continue and easily exercise their freedom of religion?

Comments	<p>The temple brings peace and serenity to the surrounding area. This can be observed by the many such temples built around the world even the one on the east side of Las Vegas. People who visited will testify this claim. They always left with greater comfort and appreciation.</p> <p>Loud music or rowdy people will NOT be at the temple.</p> <p>Temple is a sacred place and respected. This will be a great addition to the nearby communities.</p>

Comments	<p>The temple is an amazing place. It will bring blessings and happiness to many people, both members of the Church and non-members. It would be a travesty if the House of the Lord has to be changed or moved because of a vocal minority. It will beautify the area around it and increase the property to the surrounding areas. According to the statutes and laws that I have read and investigated, the construction of the temple does not violate any of them. It will not obstruct anyways view of the valley and the lights on the temple are dimmer than the nearby highschool and other buildings.</p> <p>God bless!</p>

Comments	I support the temple project for the church. As a frequent patron of the current Las Vegas temple I am thrilled for a temple location on this side of the valley. I can also comment that as a sacred place of worship the temple is a quiet neighbor, with those attending the temple doing all they can to act like the Savior. Please approve this project and all related applications, it is the best possible use for the land.

Comments	<p>As the member of the Clark County Commission whose election district include the neighborhood where the proposed Las Vegas Temple site existed on E. Bonanza Road, I received a massive amount of calls, letters, and in-person contacts from neighbors who were extremely concerned about the potential disruptive effects that a large temple could have on their lifestyle and property values. Additionally, many others in the community spoke out in favor of it.</p> <p>The County Commission unanimously approved the temple. Since then I have received only positive feedback from residents of that neighborhood, and all of their concerns faded away and have never resurfaced. There is no reason to believe that it will not be the same in the Lone Mountain neighborhood where the good people that live there will find that their fears were misplaced. That said, church representatives should, and no doubt will, seek to address any potential negative impacts in every way possible.</p> <p>Sincerely, Bruce L. Woodbury Former County Commissioner</p>

Comments	I am in favor of the Temple being built in my neighborhood. When a temple is built in an area it brings beauty and peace to the neighborhood, The people that attend the Temple are quiet and respectful of the area surrounding the temple. It will be a great asset to the area. When the temple was built on east Bonanza the property values in the neighborhood increased because people love to live near a temple.

Comments	As faithful members of The Church of Jesus Christ of Latter-day Saints, we are writing to express our support for the proposed new temple in Las Vegas. This temple will be built in the northwest part of town at Grand Canyon and Lone Mountain. This edifice is a very sacred, holy building to us. It is a place where we can pray, ponder, and find peace in a very chaotic world. We respectfully ask that the construction of this temple be approved.

Comments	<p>I am strongly in support of this project. It is nothing but a positive project a place for members of the whole Las Vegas community to be able to go to in such a positive way... The Church of Jesus Christ of Latter Day Saints have only been kind in all of my interactions with them. They also maintain and keep their temples and churches very clean and nice looking I, and their buildings are always architecturally beautiful to even just look at and walk around.</p>

Comments	<p>Although I do not live nearby, I felt compelled to chime in. I support the building of the LDS temple because I believe (and have experienced) that this group of individuals will offer support and help to anyone in the community. Religious practices such as the LDS church have shown tremendous support and relief to those struggling within the community. The LDS community attracts great people who want to do good in the neighborhood. In general, the LDS congregation keeps to themselves during gatherings. They have not shown to be rude, intrusive, or distracting during their gatherings. In addition, the building is a beautiful structure that can provide an attractive and peaceful landscape to those nearby and passing by. Furthermore, by allowing the construction of this temple, we are also protecting and maintaining religious freedom in our city and our nation.</p>

Comments	<p>To the City Council,</p> <p>I am writing to express my strong support for the proposed construction of a Church of Jesus Christ of Latter-day Saints (LDS) temple in our community. Such a temple would not only provide a spiritual haven for local members but also foster unity and diversity within our city.</p> <p>One compelling reason for this support is the considerable distance many of our residents currently travel to access the nearest temple. By bringing a temple closer to home, we alleviate the burden of long journeys for worship and strengthen community ties.</p> <p>It would also serve as a hub for charitable endeavors and interfaith dialogue, enriching the cultural fabric of our city.</p> <p>In conclusion, I urge the City Council to approve the construction of an additional temple in our area. This decision would align with our values of inclusivity and respect for religious diversity while addressing practical needs within our community.</p> <p>Thank you for your consideration.</p> <p>Sincerely, Nohely T.</p>

Comments	<p>The construction of the proposed buildings and the development of the property will enhance the neighborhood. Opponents claim that neighbors will lose tranquility, dark skies, and "breathtaking vistas" and assert that the existing zoning should not be changed. Zoning rules are not permanent, and it is appropriate to allow for religious buildings to be built in a residential neighborhood. The existing Las Vegas Temple at 525 Temple View Drive in Las Vegas has not generated an undue burden on the surrounding neighborhood, and this proposed Temple and meetinghouse will not create inordinate light, noise, or traffic that will disturb the neighborhood's tranquility in any inappropriate way. No one is losing a "breathtaking vista". Property values will almost undoubtedly go up because of the Temple's location. My wife and I live close by, and we look forward to having the Temple and meetinghouse near where we live.</p>

Comments	LDS temples are absolutely beautiful and enrich any neighborhood or city where they are built. The temple on the east side of town brings such beauty to that area. It is my belief that the people who are opposing its location will come to love this building .

Comments	<p>I'm excited to have a temple of the Church of Jesus Christ of Latter-day Saints on this side of the valley. The church builds beautiful temples. The landscaping is always maintained beautifully too. Go by the temple located at 827 Temple View Dr, Las Vegas, NV 89110, on the east side of the valley, and you'll see what I mean. Every time I go to the temple grounds, there is a peaceful feeling there. It would be a great place to pray and talk to God.</p>

Comments	I support the building of the Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints. I think it is a beautiful location for this building. Moreover, I think the neighbors will enjoy the beauty of the building and surrounding landscaping. The building will be set in the middle of a very big lot, so I don't think the view of the Las Vegas Valley from behind the temple will be affected very much. Thank you.

Comments	<p>I am excited about the proposed Temple for the Church of Jesus Christ of Latter-Day-Saints in the Northwest area of Las Vegas!! I have lived here for over 25 years, and seen many efforts to elevate the lifestyle in Las Vegas, such as: the building of the Smith Center, a revitalized downtown area, attracting major league sports teams, and the addition of many parks and recreation areas in our neighborhoods. I believe a tasteful house of worship also elevates neighborhoods: it brings peace and beauty to our daily lives. As a member of the Church of Jesus Christ of Latter-Day-Saints, I have traveled across the valley for many years to worship. I would welcome a closer location!! As a resident within two miles of the proposed building, I also strongly support this use of the land! Any temple I have visited in this country has only added to the value and desirability of its neighborhood. Please support this project!!</p>

Comments	<p>My sister, Lori Murphy and I, Susan Patchett, live at this residence. We have been so excited for our Church, The Church of Jesus Christ of Latter Day Saints to build this temple here in the Lone Mountain area. WE STRONGLY SUPPORT THE VOTE TO MOVE FORWARD WITH THE PLANS TO BUILD THIS TEMPLE!!</p> <p>Currently, we go to our temple located on Sunrise Mountain, and it is quite a drive for us,. We are elderly as many of our friends are and having this temple closer to us would be a real blessing. We love having access to worship God in this peaceful, beautiful building. We know that the local people are against having this built in the Lone Mountain area. It is hard for us to understand, when it will be a lovely building, with beautiful landscaping. All of the parking is within the gated grounds, and would not cause a problem for neighborhoods near by. This temple would be much closer to where we live and would provide us the opportunity to worship more often.</p> <p>We understand the residents of Lone Mountain are concerned with the temple "taking away" from the beauty of the surrounding area. We urge any of these people to take a trip over to the temple on Sunrise Mountain. They will see that it did NOT take away from the loveliness of the area, but in fact it enhanced it. Beautiful home are now all around the area near the temple. We do not feel that it has detracted from the beauty of the mountain, only enhanced it.</p> <p>Once again WE STRONGLY SUPPORT THE VOTE TO MOVE FORWARD WITH THE PLANS TO BUILD THE LONE MOUNTAIN TEMPLE FOR THE MEMBERS OF THE CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS.</p> <p>We thank you for this opportunity to voice our request.</p> <p>Sue Patchett and Lori Murphy</p>

Comments	<p>I am grateful that Las Vegas is a place where I and my friends from different faiths feel welcome and free to worship according to our convictions. Just as I support the building of churches of other faiths, I support the building of this temple for the church of Jesus Christ of Latter Day Saints. The freedom to worship is a freedom I hold dear. Religious structures like this temple are an important part of our city that make us stronger as a community because they support the building of strong values like honesty, integrity and service to our fellow man. I have also seen lives healed from the chains of addiction because of the strength they found through sacred worship in churches and temples.</p>

Comments	<p>In the general vicinity of the proposed Temple site, there are currently several residential developments. There are many undeveloped residential sites in that area that will continue to be developed over the next dozen or so years. All of the development will create the need for more retail spaces, Health care facilities, schools, substations, water and sewer plants, Churches, etc. During the next dozen or so years as the area gets built out, all of the types of support facilities that aren't residential homes needed to make the community livable will all detract from a predominantly rural look. Eventually the look will be a monochrome like expanse of residential suburban housing mixed with retail, schools etc. The Temple will add an upscale diverse look to the area that will add stature, value, and aesthetic charm that will pay huge dividends to the area. The landscaping will be absolutely gorgeous.</p>

Comments	I strongly support the building of a temple for The Church of Jesus Christ of Latter-Day Saints. As a member it is important to attend the Temple as often as you can. I live in Centennial Hills area and attending the Temple on the East side of town is difficult. The convenience of being able to worship in a House of the Lord within a few miles of me would make a huge difference. Please allow the Temple to move forward and bless the lives of people in the area.

Comments	I think having the Lone Mountain Nevada temple will add a lot to the city. It increases the value of homes around it, and adds a great view. I personally think it is important for the LDS members to have more access to a place that they can worship. I do not see any reason that it should be prevented from being built.

Comments	<p>As a homeowner and long term resident in the lone mountain area, I am a strong believer the Mormon temple will bring value and beautification to the area.</p> <p>I am not a subscriber to the idea that traffic in the area will become a nuisance. Traffic at other similar temples do not have a negative impact.</p>

Comments	<p>I full heartedly support the proposed project of the Lone Mountain Temple (project 24-0072). I believe it will enhance the area where it is proposed to be built. Common concerns by those who oppose the project are an increase in traffic and too much light which they feel will ruin the view of the night sky. Those who live near the LDS temple on the East side of the city have been polled and express no concerns with traffic as a nuisance. The flow of cars arriving and leaving during normal temple activity is spaced out and not in mass for one big event. The concern is understandable but the reality is not much of an impact. Regarding the light from the landscaping and building: I love the night sky as well and live near the area, but Las Vegas is already "light polluted" sufficient to diminish any real star gazing, even out in the northwest. I believe the ball fields at Majestic Park just a couple of blocks away are brighter then the temple will appear.</p> <p>Whether one is an active member of the LDS church who will be attending the temple to strive to draw closer to God or a neighbor in the general northwest area, I truly believe this project will be a beautiful symbol of peace and a positive image for our area.</p> <p>Jim Polley</p>

Comments	I am in favor of adding value to the neighborhood and letting the structure be built. I grew up about two blocks from the proposed site and have lived in Las Vegas my entire life. Born and raised multi generations here. I am 42 and am raising my little family here. I believe that this can only add to the beauty of the area and suits the surroundings with a nice mountain backdrop. My only suggestion would be that they use local building materials that show case the beauty of the surrounding Mojave desert. The desert is majestic when you get out and discover it. So, as long as it pays homage to that and doesn't bring in stuff from halfway around the globe. There are beautiful natural materials from here that could and should be used.

Comments	<p>Regardless of what faith or beliefs an individual has, in America, we are supposed to have freedom of speech and religion. This beautiful church of Jesus Christ of Latter Day Saints Temple that is proposed to be built is a resemblance of that. The same would be if it was a Jewish or Muslim temple. The argument from some maybe that it was zoned for a high school. My response would be who in the neighborhood wants a high school in such a nice upper class neighborhood when they can have a big beautiful temple of the Lord that will be even more nice and prestigious than any of the homes in the area. Who in the neighborhood wants to have the loud friday nights with the blinding lights of football games, not me! For those who may be concerned about the possible disturbance of this temple in the neighborhood, there is no need, just make a trip to the other temple in town and spend a short time or not so short time and you will realize the peace and quite that surround these buildings instead of the noise, traffic and friday night football games from a high school.</p>

Comments	Preventing a temple being built is a violation against religious freedom. Every denomination should have every right to have accessible place of worship. Maybe there can be a consensus on the scale of the temple?

Comments	<p>I support any and all religions that want to build places of worship. If everything is legal and upright what is the problem?</p> <p>The main reason all of us live in this country is because of our religious freedoms. Some people are saying "this is our backyard" but it isn't, if the LDS church or any church, synagogue, mosque, owns the land and what's to build then there should be no question.</p> <p>Years ago "they" said the same the thing about the LDS temple at the base of Sunrise mountain, that it would detract from the the beauty of the mountain, etc,etc,etc.</p> <p>Nevertheless the temple is there since 1989</p> <p>And is the neighborhood better or worse?</p> <p>Those who oppose also state traffic as a concern, these temples are not sporting events or concerts and the traffic patterns are quite different. The naysayers are ignorant of what is happening, they say they are not against the LDS church yet they oppose the construction of this proposed house of worship. I have lived, worked, been schooled, raised children in Las Vegas for 53 years and I have seen alot of change, these people think that because of their location that they are exempt from change? As I drive throughout the Las Vegas valley, I love to see churches, of all creeds wherever I go, it is a reminder that in this country we believe in the Almighty, and that man should not and cannot stop His work of salvation.</p>

Comments	The construction of the Lone Mountain Temple by the Church of Jesus Christ of Latter-day Saints is a positive project to complete. Not only will this project be a beautiful addition to the skyline and surrounding neighborhood, but these projects tend to increase property values and community safety. The grounds can be a peaceful place for all to ponder and enjoy.

Comments	The temple will be an excellent addition to the neighborhood and city. It will be a beautiful and well kept building and grounds. It is a peaceful place of worship for church members in Las Vegas and surrounding areas. Please allow the project to go through without any difficulties. Thank you.

Comments	<p>We love Las Vegas and have lived here for years now. My husband was born and raised here. Over the years, we have seen so much development, new infrastructure and there is always people opposing development but in end, development was and is exactly what our small las Vegas town needed and needs. It's no longer just a gambling town that no one cared about or wanted to move to. It's now a mixture of all things. Sports is now big here. People opposed that too but so far, it's been great for our town. We now have a good hockey team that helped bring more serious exposure to our gambling town by winning the Stanley cup. Why not add a religious infrastructure to that!?! It's exactly what this town needs, more religion, not less. We're getting stadiums, all these races on the strip and all kinds of changes. Change can be uncomfortable at first, but change is necessary to move with the times, especially if it's good change like religion. If it was a casino, stadium or mall being built near the neighborhood, no one would be complaining. The temple is a quiet sacred place any homeowner near it should feel blessed to have their home there. Not only does it increase the value of your home, but brings serenity and elegance to the neighborhood. Las Vegas has seen an increase in people moving here, it isn't rural anymore and hasn't been for a long time. The city needs to move with these changes; more infrastructure, religious ones included instead of blocking such development. You want rural, Moapa, Pahrump, Overton, Logandale etc would be a better fit, not Vegas.</p>

Comments	<p>I am not a fan of the Mormons. Never have liked them together with the Jehovah's witnesses. I however do like what their buildings bring to a place. Their old temple across town, my grandparents back in the day had 2 pieces of land over there. The minute we started to hear about the Mormon temple being built there, my grandparents' pieces of land started to increase in value out of nowhere. There weren't any stores nearby or casino. We could only attribute it to the Mormon building. By the time they were done building their thing, my grandparents' 2 plots had also tripled in value. That's how my grandparents sold 1 of the pieces of land and paid for the other one with some change left over. If it wasn't for the Mormon temple, they would have spent years paying monthly for those pieces of land. My grandparents were glad they warmed up to the idea as they they didn't want to be near any Mormon anything. After they built their house on the other piece of land, the temple made the neighborhood look very nice and since they have security there all the time, crime rate was low. I have my fondest memories visiting my grandparents as we would go and walk around the Mormon temple and look at the beautiful flowers and all the little things they had there. Such a beautiful place.</p>

Comments	The Church of Jesus Christ of latter day Saints temple building is very important to me and my family as a place to practice my personal religious worship to grow closer to my Heavenly Father and His son and my Savior, Jesus Christ. As outlined in the Constitution of the United States, and my first amendment rights to have freedom of religion should be enough to propel this project forward.

Comments	<p>I was born in las vegas in 1968. I have always loved the familiar spirit I have felt living in Las Vegas. One hundred sixty nine years ago lds pioneers arrived in the Las Vegas Springs in 1855. The church has blessed the Las Vegas Valley in so many ways. Initially the buikding of the temple on Sunrise mountain in 1989 was also frought with opposition. Over time residents hearts softened and they realized the peace the temple brought to their neighborhood.</p> <p>I know people have lived on Lone Mtn fir many years because of the quiet, tranquil setting. By experience, I know the residents in that area will quickly realize the Lone Moutain Temple will increase that very tranquil- peaceful spirit. Please look at the long term blessing of the temple in this beautiful backdrop of Lone Mountain.</p>

Comments	What a wonderful addition to our city and to our area! Temples are beautiful structures with amazing surrounding grounds! They are an enhancement to any place that has one. The peace and spirit that are there enrich and lift the lives of all who come on the grounds. We are blessed to be given another temple in our valley..

Comments	This beautiful edifice enrich the lives of both residents and visitors of our great city. People all over the world recognize that LDS Temples not only beautify cities world wide but the members who attend these temples enrich their communities by supporting family values and serving needs in their communities.

Comments	<p>I support the construction of the new Las Vegas Nevada Temple in the Lone Mountain Area. Even though there is already a Temple in the east side of Las Vegas near Sunrise Mountain, the traffic congestion and travel time from the far west side to the far east side of town is a long commute for the Church Members, who live on the the west side of the Las Vegas Valley and desire to worship in the Temple. This new Temple will greatly enhance the area.</p> <p>Lee Blad 4773 San Leandro Ave Las Vegas, NV 89120</p>

Comments	<p>The Las Vegas Temple near Sunrise Mtn is in a housing development on the end of Bonanza with plenty of parking, as is St George Temple, the Red Rock Temple in St. George, the La Jolla Temple in California, the Ceder City Temple in Utah, Tuscan Temple Arizona. Those I have personally been to, with no problem going through the neighborhood. With W. Lone Mtn. Rd. W. Craig Rd., N. Jenson St. and N. Grand Canyon Dr., As main access Streets and no complaints about Lone Mtn. Park. There will likely be any problem with this new Temple. Next issue may be the height, it will be 40 ft. with a single sparer 20 ft. more, the view of Lone Mtn. is 2000 Ft. above that. There may be several houses west of the Temple that will lose the east view of the city.</p> <p>Please note that a beautiful white building with lovely gardens and grounds will be a plus to their neighborhood.</p> <p>Thank You.</p>

Comments	<p>We would be so grateful to have a temple near us to freely worship God. We love and support people of all faiths! It is an amazing blessing to live in a country where we can freely worship. I love passing and visiting edifices that others find sacred and learning more about how they worship. I hope that we will be received similarly and that we can have this temple built near by us. It would truly be a gift! The beauty and light of the temple would only add to the beauty and culture of Las Vegas. Thank you for hearing our voices and allowing us to support what we feel is important to us! All the best.</p>

Comments	<p>I am in full support of this project. I lived the first 30 years of my life in Utah where many temples have been effected and have nothing but good things to say about them. Home values increase, neighborhoods become safer, the buildings are beautiful, and they stand as beacons of hope to all people (members of the church or not).</p> <p>I am a member of the Church of Jesus Christ of Latter-day Saints and know that this will help members in particular. Because my wife and I live on the western side of the city it takes us an hour or longer to get to the Las Vegas temple on the east side of the valley. All members who live on this side will be saving much more time and gas (thereby helping the environment) with the building of this temple.</p> <p>The land will be used for something eventually. I see no reason it should not be for a sacred building inviting calm, peace, and love which are all messages of The Lord to all people.</p>

Comments	We support the building of a temple on the west side of Las Vegas. Temples enhance the areas where they are built. The grounds are beautiful and will add to the peaceful feeling of the area. The individuals who attend the temple are respectful, and come there to worship Heavenly Father and His son, Jesus Christ. We encourage you to allow this project to move forward.

Comments	I wholeheartedly support the building of this beautiful temple. It is a house of peace. Anyone can enter the foyer or walk the grounds and feel the peace that is there. If anyone has doubts about what this temple will bring to the valley, they should go to an open house of a temple. They will feel spiritually closer to their divine Creator. They will feel tangible love and peace. It is a place to go for quiet and meditation in a world of confusion. A place to receive answers to prayers.

Comments	<p>The Mormon's have been in the Las Vegas valley since 1855 when they established their fort. How long have the residents of Lone Mountain been here, and where are they from?</p> <p>They are talking about someone else being in their "backyard" but did they ever just once think that they are in someone else's backyard?</p> <p>When someone moves someplace new because they like it, that move changes the reason why they moved in the first place.</p> <p>People move to Las Vegas from all over the country, however the long term residents of Las Vegas never asked them to move here. They move here and want to change the very nature of the valley without ever the most vague idea of the history of Las Vegas and who helped tame the desert.</p>

Comments

The Church of Jesus Christ of Latter-day Saints is always mindful of every facet when it comes to constructing a church building, and even more so when that building is intended to be a temple. The architects and planning committee are comprised of local members who have a vested interest in preserving and strengthening their community. Financially, the Church is extremely responsible when it comes to constructing a temple. Ground is not broken for the temple until the budget has been carefully calculated and every detail inside and outside the temple is planned and organized. There may be well-intentioned members of the community who may be concerned about the temple clashing with the natural beauty of the Las Vegas valley. Or that an artificial obstruction, like a massive and ornately decorated building, might diminish the natural landscape and become an eyesore. I have had the benefit of living in Utah where temples are plentiful. The Utah Valley alone holds more than 20 temples scattered across the Wasatch Front. I have also toured and visited temples in a variety of climates. I can say with confidence that every temple's construction, design, landscaping, and exterior is respectful of the local environment, designed and planned by locally appointed professionals, and reflect and enhance the natural beauty of its unique location. The beauty of the natural environment will be respected and preserved during and after the construction of the temple. In my mind, there is nothing more beautiful than when God's masterpiece is the backdrop of His house. God painted the majestic hues and tones of the mountain desert. He crafted the variety of trees and brushes that dot its landscape. He formed the mountains of this valley, including the one for which Lone Mountain is named. And though countless religions build worship houses and sacred buildings, in my mind, there can never be too many houses of worship. And when the beauties of God's creation combine with the devoted faith of countless individuals exemplified by that physical house of worship, there is an undeniable harmony that unifies and uplifts not only the natural environment, but also the local communities.

Comments	I look forward to when the construction of the Lone Mountain Nevada Temple is completed. The building and grounds will be beautiful, peaceful, and a blessing to the community. Many lives will be enriched by having a temple on this side of the Valley. I have lived in Las Vegas for 25 years and I (along with many others) have long hoped and prayed for a temple on the west side.

Comments	We have lived near and used many Church of Jesus Christ of Latter Day Saint Temples all over the world and find them visibly appealing, neat, clean and well kept. The temples actually upgrade the real estate values of the neighborhoods where they are found. There is typically no traffic issues and the temples maintain their own parking areas. I find only upsides to building a new temple near my home, so that I can attend and worship there.

Comments	<p>I support the building of the Lone Mountain temple. I understand that there are those who oppose due to various reasons, including: Misconceptions, "Unknown entity", even the inconvenience caused during construction. Many initial objectors will attend the open house and will see and learn more.....and many objections will soften. For me, the temple is a symbol of hope and God's love for all people. The building will be beautiful and it's grounds immaculately maintained as it is believed to be the House of the Lord. Overtime, it will become a landmark and a blessing to the community in the northwest valley of our city to many people, regardless of their faith.</p>

Comments	I wholeheartedly support the Temple in our valley. The buildings are beautiful and actually bring up home values. The buildings are beautifully built and always have well-maintained landscaping. The Temple is a reverent and quiet place and not noisy and disruptive. It does not cause much additional traffic in the area. It would be a great addition to the area. Please consider the value it will add.

Comments	I support the proposal to build a temple in our community. Temples are peaceful, quiet places of worship. Those who participate in temple worship can bring goodness into their neighborhoods and communities because the messages taught in the temple promote neighborly kindness and encourage service in the community.

Councilwoman Francis Allen-Palenske & Fellow Councilmen & Women,

I am in full support of the proposed LDS Temple being built on the west side of the valley in Ward 4. I am a life long resident of Las Vegas as is my wife. Our parents moved to Las Vegas in 1959 and 1961 respectfully and both sets of parents worked for the Clark County School District as teachers and administrators. We were raised and educated here, and we raised and educated our five boys here as well. I am a business owner and employer (Financial Advisor - Dixon Financial Group, LLC) in Las Vegas. I have a vested interest in the development of the city and support those events and projects that will contribute to the quality of life in Las Vegas for those of us who live and work here. The building of the Lone Mountain LDS Temple will contribute to that quality of life and will prove to be something that all citizens of the neighborhood in which it will be built will be proud of. That is exactly what occurred in the 1980's when the existing LDS temple on the east side of the valley at the base of Sunrise Mountain was being considered and built.

Concerned citizens, particularly in the surrounding neighborhood where the temple is proposed to be built, are entitled to express their opinion's and concerns regarding the size of the building, the lighting, the traffic, etc.. As a council person who is charged with making a decision regarding this project, it may prove helpful to find out how previous government officials dealt with these very same issues when the LDS temple on the east side of the valley was being considered and debated. Here is just one quote from former County Commissioner Bruce Woodbury who was serving as a County Commissioner at the time:

"A lot of the surrounding neighborhoods had . . . good, well-meaning people. This was part of my commission district, so they focused on me. They were very much opposed; they felt it would be a big intrusion on their semi-rural neighborhood lifestyle. Traffic and lights and so on. So, there were a lot of public meetings. There were a lot of protests, and the matter eventually came to us on the Clark County commission to make that decision, and there were even calls that the LDS members of the commission should abstain from voting But we ended up with a unanimous vote in favor of it.

We listened to the neighbors, and the church agreed to various revisions and modifications to make it as compatible as possible in the neighborhood. The nonmembers (non-members of the LDS Church) of the commission took the lead in . . . making the motion for approval and making the arguments in favor, and many good members of the community came forward to support it. And after it was built, I never had one constituent then tell me that they regretted it. . . . Many came forward to say it actually benefited the neighborhood in many ways, so that was a good experience for all of us, and I think it helped with the LDS standing in the community quite a bit." (quoted from Bright Lights in the Desert, published by University of Nevada Press, written by Fred E. Woods with a Foreward

by Michael S. Green, page 155).

During the three-and-a-half-hour Clark County Commission planning meeting in which the matter of the temple on the east side of the valley was being considered, Commissioner Manny Cortez stated the following: ' "I am disappointed with the committee that chose this site . . . because I wish they would have selected a site in the west end of town in my area." ' (Bright Lights in the Desert, page 153).

"Another author mentioned that on this occasion, Commissioner Cortez remarked, "It is an honor to have the Mormon Church build a temple in our community. " (Bright Lights in the Desert, page 153)

On December 31, 1984 the Las Vegas Review-Journal published an article entitled, "The Right Decision on Mormon Temple." The article states, ' "In the end, the commissioners made the right decision; they approved construction of the temple . . . Everyone can empathize and sympathize with the neighbors who objected to the temple . . . For the greater good of the community, however, a Mormon temple is a welcome addition." ' (Bright Lights in the Desert, page 154).

An LDS temple is a holy place. Its a place of love and beauty. The grounds are immaculate and groomed to perfection. It will be a place that all can find peace, member of the church or not. It is also a quiet place. As the years go by, the area will be further developed with homes and properties that will add additional beauty to the area.

Here is a link to the Bright Lights in the Desert Documentary which is a companion to the book referenced above. Many current and former government officials as well as prominent people in the community are featured including Mayor Goodman:

<https://www.byutv.org/b1066b59-a9db-469b-bdf8-4db286a612cf/bright-lights-in-the-desert-the-latter-day-saints-of-las-vegas>

Below are some of the comments by non-members of the church who visited the current Las Vegas temple during its open house in 1989 prior to its dedication for your reference. These quotes were also taken from the Bright Lights in the Desert Book. Thank-you for your consideration. Please support this project, for the good of the people of Las Vegas and those good citizens of our community that are or might eventually be members of the Church of Jesus Christ of Latter-Day Saints.

Comments from Las Vegas Temple Visitors during the open house (Nov. 15-Dec.9, 1989)

Following the inspiring open house tour, hundreds of written statements expressing awe and gratitude were written upon comment cards from people living locally in the

Vegas region as well as in other cities, states, and countries as well as from varied faiths. Here are a variety of samplings from those comments which were collected:

Rosette Wirtz from Boulder City wrote, "I better appreciate the Mormon faith as a viable religion."

Pat Schreiber of Henderson noted, "Thank you for letting me learn about your faith."

Connie Crabb from Spring Branch, Texas penned, "Thank you for sharing. As a Baptist Christian I feel uplifted in your joy." Another wrote, "During the tour I felt I was with friends, people smiled at me and met my eyes. I felt humanity had a real value. . . . I am not a Mormon."

Kenneth James of Glendale, Arizona observed, "I was able to spend two days in Las Vegas. The first night we toured 'the strip.' The second night the Temple. It was comforting to find the temple surpassed in spirituality the strips worldliness."

Barbara Dempsey, a Vegas local penned, "The temple was beautiful. . . . Although I am not a Mormon I feel your temple helps Las Vegas shed its tarnished image."

Mrs. Harold Mueller, also of Las Vegas, wrote, "I have many Mormon friends. . . . The beauty of the temple is equally matched by the beauty of the people!"

Christina Manteris from Boulder City noted, "Inspiring experience; however the thing that touches me most was the happy peaceful and loving looks on all the men and women. . . . Something on their faces that cannot be described."

Las Vegas local, P. Wolfsohn wrote, "You have confirmed in my very Jewish mind that the Church of Jesus Christ of Latter-day Saints has a kinship to our faith in that you expound on the highest principles of human existence."

Mrs. Sidney H. Copeland, also of Vegas, noted, "As a Jew, I found the links between Judaism and the Mormon Church very interesting."

An unnamed visitor penned, "Absolutely Fantastic - a joy to behold! From a Catholic." R.

Johnston, noted, "I am a Buddhist, what a magnificent temple. Your hosts are so friendly." Reverend Troy

D. Perry said, "Well worth my one day trip from L.A."

William Rieman from Minneapolis recorded,
"One of the most beautiful houses of worship I've had the pleasure of visiting. The highlight of our visit to Nevada."

Harley Nosker, a Las Vegas local, noted, "I am a Christian and of a different denomination. I think this temple's awesome and I felt the presence of the Lord everywhere. Thank you. Thank you for letting me see this."

Bette Shortridge from Henderson observed, "Beautiful church. Ushers very pleasant.
Tour well organized. This is a wonderful experience. I am delighted to learn more of the Mormon religion."

Shortridge was not the only one who wanted to know more. Many others responded that they would like to learn more about the Latter-day Saint faith. Several local citizens of Las Vegas noted their interest. For example, Julie Gonzales, stated, "Breath taking! Made me feel like I did not want to leave. . .
. I would like to know more about this Church." Pamela J. Gomez wrote, "This visit was very special to me. I would like to join with the Mormons." Patricia Monroe said, "I was extremely surprised at the beauty of the temple. I am interested in learning more about the inner peace of the Mormon religion."
Barry Klassoff, wrote, "I've never seen anything so beautiful. I enjoyed coming to see your church. I am also interested in becoming Mormon. Can you please get back with me?"
Several who were inactive Church members also expressed an interest in getting their life in order and returning to full activity. 1

1 All of the quotations and content regarding comments expressed by visitors after the temple open house tour were taken from a seventeen page manuscript titled, "Church of Jesus Christ of Latter-day Saints Las Vegas, Nevada Temple Open House November 15-December 9, 1989." On the cover page is written, "The following pages contain a summary of the comment cards during the Open House. They represent a random sampling of the common

responses on the comment cards." Papers of James K. Seastrand,
courtesy of Scott Seastrand. The author counted
210 samples of which only a few examples are referred to above.

Comments	Having lived in the Las Vegas valley since June of 1964 I have witnessed much growth. I know from personal experience that people who attend a temple spread their visits out so that there isn't excessive traffic. The grounds are impeccable and the building and grounds will enhance a neighborhood.

Comments	I fully support and advocate for the Church of Jesus Christ of Latter-day Saints to be able to build the proposed Lone Mountain Temple. It will serve a large community of faithful members, and will beautify and enhance the area in which it is meant to be built. I can't think a better way for that plot of land to be transformed. Temples are places of peace and tranquility.

Comments	<p>I fully support this project. Temples of the Church of Jesus Christ of Latter Day Saints are well known to be beautifully constructed, meticulously maintained, and to have beautiful grounds. It is a well established fact that they increase the property values in areas surrounding wherever they are located. They also bring in visitors and local patrons who will frequent local businesses such as gas stations and restaurants. It truly is a win for our community to have the temple built. May there be others built in and throughout our various communities. I humbly ask that you approve this project.</p>

Comments	My family is very supportive of this project and all related applications. Temples are a holy place for thousands of good members of our community. The building and the surrounding grounds also add tremendous beauty to the area. In particular, many elderly members of this church reside in Sun City and it is extremely difficult for them to attend, worship and serve in the only other Las Vegas Temple on the far East side of the Valley. A temple on the West side would be a great blessing to these elderly individuals in particular.

Comments	<p>Good Morning,</p> <p>My husband, Shannon Hogan, and I would like to express our support for the Lone Mountain Temple construction project. We cherish the opportunity to see another Temple of the Lord in the Las Vegas Valley. The Lone Mountain Temple will be a great blessing to our community and a beautiful addition to the surrounding homes and businesses. Like the existing Las Vegas Temple on the eastern side of the Las Vegas valley, the Lone Mountain Temple will be an area of peace and protection from the strife of the world. The Lone Mountain Temple will be a focal point of God's power and revelation to all who enter. We can welcome all who come to the temple grounds to feel the presence of the Holy Spirit and encourage all to feel closer to our Heavenly Father.</p> <p>We humbly ask our leaders, in whose hands this decision is placed, to prayerfully move forward with faith in the work of the Lord and give your approval to this project.</p> <p>Sincerely, Evalyn Hogan</p>

Comments	<p>I strongly support the building of a Temple of the Church of Jesus Christ of Latter-Day Saints in our community. This holy edifice attracts only good people. More people of faith will come to this area of the valley. These people love their neighbors, look out for others, care about their property, spread kindness, and are generally more affluent. In addition to the people who will visit and who will move here permanently because the Temple is here, the Temple and its grounds will be a beautiful addition to the area. Property values will increase. Anyone is welcome to walk the graden grounds. It will be a place of peace and reflection for all who come.</p>

Comments	The building of the Lone Mountain temple will be a blessing to those around the area. The temple will offer an Open House once it is built for all those in the area to view and see. I believe that once this happens, people will have a more firm understanding about the temple and will see that it is a peaceful place where people come together to worship God.

Comments	Whenever a temple building is built, property values in the nearby area increase significantly (this happened in Newport, California, for example). Building such structures encourages service-oriented and family-focused individuals to move into an area, which will only strengthen our Las Vegas community. Temples also improve upon the aesthetics, and increase beauty in an area. I strongly favor the building of the Lone Mountain temple.

Comments	I support the building of the Lone Mountain Temple. It is important to the community not only the members of the church. It will enhance the area. If you drive around the Las Vegas Temple on the east side, you will find that the traffic is not bad and the area is enhanced around the temple. It is a beautiful area. This will be the same around the Lone Mountain Temple. Thank you for supporting this project.

Comments

I am saddened but not surprised over the recent controversy over building a temple of the Church of Jesus Christ of Latter Day Saints in North Las Vegas. Here are some reasons I think the Temple will be of benefit to our community.

As a youth, I was able to attend church, attend youth activities, and privileged to go to the temple in Manti Utah to perform baptisms for the dead there. Based on the results of the National Study of Youth and Religion, professor Kenda Creasy Dean observed that "belonging to a [Latter-day Saint] family simultaneously means belonging to the Church," and therefore, "the number of adults teenagers can turn to for help and support increases proportionately with teenagers' religious due to the highly participative nature of the faith, "Mormon youth assume that their contributions matter."

As a consequence, "Mormon teenagers showed the highest levels of religious understanding, vitality, and congruence between religious belief and practiced faith; they were the least likely to engage in high-risk behavior and consistently were the most positive, healthy, hopeful and self-aware teenagers in the interviews."

As preparation to serve a mission I went through the Manti temple and received my endowment. This endowment helped me have a better sense of who I was and what I wanted in life. After returning home from my mission in Arkansas, I went to Snow College in Ephraim Utah. There was an English class that the students were asked a series of questions. We were instructed to stand in different areas of the room to answer the questions. I noticed that members of the Church of Jesus Christ had similar answers to the questions asked. However, on one particular question only me and another returned missionary had the same answer. I don't remember what that question was, however, I felt that being endowed and serving missions had done for us what Daniel and his brethren in the days of Nebuchadnezzar had done for them. God gave us knowledge and skill in all learning and wisdom. Elder David B. Haight of the Quorum of the Twelve in 1992 said: "A temple is a place in which those whom He has chosen are endowed with power from on high - a power which enables us to use our gifts and capabilities with greater intelligence and increased effectiveness in order to bring to pass our Heavenly Father's purposes in our own lives and the lives of those we love.

Church President Thomas S. Monson taught, "As we look heavenward, we inevitably learn of our responsibility to reach outward." In Pew's survey, nearly three-quarters of respondents (73%) said that working to help the poor and needy was "essential to being a good Mormon."

A 2012 University of Pennsylvania report concluded that active Mormons "are even more generous in time and money than the upper quintile of religious people in America." According to these results, a typical church-attending Latter-day Saint spends approximately 430 hours per year (36 hours per month) volunteering-nearly nine times more than the

average American.

In life there are challenges and questions that need to be answered. When I go to the temple I expect to receive personal revelation from God our Heavenly Father. In the Celestial Room of the Temple there are scriptures. I cannot count the many times I have flipped open the scriptures there and have found guidance to challenges and questions that I have had. I have felt of the promised blessings that the Prophet Joseph Smith asked at the dedication of the Kirtland Temple. He said: 'We ask thee, Holy Father, that thy servants may go forth from this house armed with thy power, and that thy name may be upon them, and thy glory be round about them, and thine angels have charge over them.' (D&C 109:22.)?

Every man or woman who goes to the temple comes out of that building a better man or woman than he or she was when entering into it. That's something that's remarkable that happens with all of us. ... Do you have problems and concerns and worries? Do you want for peace in your heart and an opportunity to commune with the Lord and meditate upon His way? Go to the house of the Lord and there feel of His Spirit and commune with Him and you will know a peace that you will find nowhere else" ?--President Gordon B. Hinckley, Rejoice in the Blessings of the Temple, Ensign, December 2002

Covenants of chastity between Husband and Wife are made in the temple. In our day of infidelity and dwindling morals, the temple stands as a firm reminder that individuals who violate covenants of chastity, who abuse spouse or offspring, or who fail to fulfill family responsibilities will one day stand accountable before God. We have seen that the disintegration of the family is bringing upon individuals, communities, and nations the calamities foretold by ancient and modern prophets.

Temples of the Church of Jesus Christ are build with the highest quality of materials, attention to detail, and are designed to last through the millennium. The grass and grounds of the temples are well kept with green grass, flowers, and fountains of water. Neighborhoods surrounding the temple have a great example of beauty to follow.

The temple is a reminder of the highest standards of excellence that are to be sought for in this life and the next. I am saddened that there are some who oppose the building of this building that is more than just a building but a symbol of peace from the master of peace for the Man of Holiness is his name.

Comments

I appreciate the chance to express my support for the proposed Lone Mountain Temple.

We consider these buildings, and the worship activities that happen inside, to be the most sacred and important to members of the Church of Jesus Christ of Latter-day Saints and making access to them by the members of the church more convenient and of a closer proximity (especially for the elderly who attend there) of critical importance.

In my experience, I have found that the neighbors to these temples have many questions, and a few concerns that relate to the building of and attendance at a temple. In almost all cases, these concerns disappear after the temple is completed. As in all such construction, there is a time of increased activity in the beginning stages, which diminishes as the construction progresses. These neighbors find that a temple is a beautiful addition to the area and enhances, rather than reduces, the aesthetics and property values.

I understand there is some concern about "light pollution" from the temple. Having lived in Las Vegas for many years, I note that the bright lights of Vegas can be seen from 100 miles away in either direction on I-15. The lights directed on the proposed temple would be minimal, compared to that coming from downtown and the Strip, and makes the temple a beautiful jewel among such neighborhoods.

As members of the LDS Church, "We claim the privilege of worshiping Almighty God according to the dictates of our own conscience, and allow all men the same privilege, let them worship how, where, or what they may" (11th Article of Faith, Joseph Smith). Our temples are the culmination of our worship activities, and we would appreciate the opportunity to build and use the Lone Mountain Temple, just as we would support the building of any other religion's church, mosque or temple.

Comments	<p>It will be a great blessing to have another temple due to the need here in this evergrowing valley.</p> <p>The land was purchased a long time ago with the knowledge a temple would be needed there someday.</p> <p>Property values will increase and those driving to the temple will be members of the church of JESUS CHRIST who have recommends holding us to high moral values. Its not a place that will draw criminal activity and the extra appropriate lighting will also make it a deterrent.</p> <p>It would make the neighborhood an even safer place to live.</p> <p>I sincerely hope those who are opposed will have their hearts softened if they pray about it, and understand this building will be one of beauty who will draw peace.</p>

Comments	As a Las Vegas resident, I'd like to express my support for the construction of the lone mountain temple. As an attendee of the Las Vegas temple I have witnessed the peace and beauty that the temple adds to not only the community but to our city. The beauty and peace of the temple supersedes any other concerns. The temple transcends any other edifice in Las Vegas and only makes our city a more desirable place to live. Thank you so much for your consideration.

Comments	If you want an example of a temple community you only have to look at the one on the east side of town. It is not a huge eye sore office building as some are making it out to be. It is not a noisy reception hall with parties. It is a place of quite worship.

Comments	The Lone Mountain Temple will be a beautiful addition to the area. It will bring insurmountable peace to all who visit and all who reside. Those who are members of the Church who reside on the west side of Las Vegas will be able to worship more readily with a temple closer. We believe that families are united forever in the temple and family is integral in this community! The temple is 100% a positive addition to the community and should continue to completion!

Comments	This project will bring a peaceful, quiet place to the neighborhood. LDS temples have been shown to increase local property values, are quiet places of contemplation, and are well designed for a proper flow of traffic. A temple closer to my home will allow me personally to more deliberately worship in my faith. I understand there is some concern for the height of the building, but temples are meant to sit on hills and be beacons, give light to the area around them, and bring an uplifting presence to the neighborhood.

Comments	<p>The temples of the Church of Jesus Christ of Latter Day Saints are beautiful and meticulously maintained properties. They are sacred places that maintain peace and quiet and reverence by all who come to worship. They have been embraced by community members throughout the world. They enhance the beauty of the surrounding area. Please consider favorably the proposal to build a temple in the Lone Mountain area.</p>

Comments	<p>I am in favor of the building of a temple for the Church of Jesus Christ of Latter-Day Saints. As a member of this church, this helps show support for the religious community here in Las Vegas. It's spiritual and religious significance are very important to me and to church members like me.</p> <p>The temple and temple grounds are beautiful to look at and help support the community around it, such as bringing customers for local businesses (from temple patrons) and helping to deter night crime (the lights of the temple and late-night cleaning crews help with "eyes on the street", which help deter crime).</p> <p>I can understand the neighborhoods reluctance to accept a large new building and parcel of land to be built, especially with concerns of light pollution and increased traffic congestion. It can be difficult to feel that your wishes about your own home and neighborhood are steamrolled by powers beyond your control, which is something we are familiar with in the history of this Church.</p> <p>However, I believe that the relationship with the temple and the neighborhood will be mutually beneficial. Both will uplift and support one another. I support this project wholeheartedly.</p>

Comments	Though I now live in Pahrump, I lived with my family for 25 years very close to the site where this temple for The Church of Jesus Christ of Latter-day Saints has been proposed. Please consider all of the good that this temple will bring to the people, not only in the Lone Mountain area, not only to the Las Vegas Valley, but also to rural areas such as Pahrump. I appreciate your service and consideration.

Comments	<p>This building will be a blessing to so many! It will be beautiful to the area and increase property value as other temples historically have. It will be a place that youth and adults can go to draw closer to God and a place where anyone can feel peace. Those who worship there are peaceful goers. It is an institution of learning and its location will allow more people to have ready access to attending the temple as they so choose.</p>

Comments	<p>Regarding the building of the Lone Mountain Temple of The Church of Jesus Christ of Latter-day Saints, my family would like to show support. As longtime residents of Clark County, Nevada and as members of The Church of Jesus Christ of Latter-day Saints, the announced temple and it's construction is an answer to many personal and family prayers in our home. This temple will be a blessing to not only members of the LDS Church, but it will also be a blessing to the lives of all residents of this beautiful city, county and state. We know that as this temple is built, it will be a beacon to all residents of Gods love for them. Peace will abound in this community and the love of God and all men will permeate our hearts. Thank you for supporting this project and may God bless your efforts. Thank you,</p> <p>The Maes Family</p>

Comments	Dear Members of the City Council,
-----------------	-----------------------------------

My family and I wholeheartedly support the proposed Lone Mountain Temple of the Church of Jesus Christ of Latter-Day Saints. As a father of five (now almost grown) children, and a life-long member of the church, I have witnessed the good that comes to our youth when they have access to a House of God, where those that wish to can commune more deeply and fully with Diety. Our amazing youth are devoted to their God, to their families, to their schools, and to serving our beautiful community. Many of these will become our future community leaders.

A temple is for us a "house of prayer, a house of fasting, a house of faith, a house of learning, a house of glory, a house of order, a house of God". We aspire to stand in "holy places". We believe our temples are central to our developing those attributes that help make Latter-Day Saints great neighbors, citizens, and leaders in our community industry.

As a practicing architect and business owner here in Las Vegas, I know that our community benefits enormously from more houses of worship, not less. Please support the LDS Church's efforts to bring a holy place to the Lone Mountain area.

Respectfully,
Henry CJ Hoogland, III AIA
Hoogland Architecture, Ltd.

Comments	I am very much looking forward to the construction of a new temple for the Church of Jesus Christ of Latter-day Saints to be built on the west side of Las Vegas. I attend the current LDS temple frequently. I like the idea of not having to drive so far to get to a temple. I am told that there are usually those that oppose the building of LDS temples in their neighborhood, but that after temples are built, property values go up and people are glad to have them once they have been built.

Comments	<p>The temple brings peace to our difficult world. My teenage children often have us attend with them to grow closer as a family and to Jesus Christ. Temples of the Church of Jesus Christ of Latter Day Saints are beautiful inside and out. They are necessary to my religion and are a blessing to the cities they serve. Please allow our city to have the necessary place of refuge and guidance to the members within. Temple work blesses my life beyond measure. It would be wonderful if the teenage and adult members of our church had a place to serve our Savior in love and light. Thank you.</p>

-------	----------------------

Comments	<p>As a former resident of Provo, Utah, where a I lived rough 200 feet from a temple of the Church of Jesus Christ of Latter Day Saints, I would like to affirm that having a temple in the neighborhood does not attract more traffic nor increase light or noise pollution. The temples are beautiful and will only add value to the neighboring areas.</p>
----------	---

As a member of the Church of Jesus Christ of Latter Day Saints, I would be so grateful if this temple were to be build, as it is an important part of our religious practice and worship. I greatly value the freedom of religion we have in the United States and assert that the construction of this temple would be an asset to the community.

Comments	This temple, of The Church of Jesus Christ of Latter-Day Saints, will strengthen our community, as people come to worship Jesus Christ, and are more inspired to follow His example of love and kindness to all people, and integrity in all aspects of their lives. The temple is a place of peace and hope, especially needed during this time in the world. It will also be a beautiful structure to grace our valley. I wholeheartedly support this project.

Comments	I support the project and all related applications. The Church of Jesus Christ of Latter-Day Saints takes the area in which they are building into deep thought and consideration. Temples are built with solemn respect to histories and traditions in the areas they are built. Temples are places for all to feel peace and reflect on the beauty of the Earth. I know that all who enter this temple will feel a desire to be respectful of the area they are in. The temple is closed on Sunday and Monday, and closes at a respectful time of night. Peace will prevail in the neighborhoods surrounding the temple. Lives and properties will be enriched as this beautiful contribution to God is in operation.

Comments	<p>The building of the Lone Mountain Temple has been met with some pretty vocal opposition. I don't care if you are a member of the Church of Jesus Christ of Latter-day Saints or not. Historically, these temples have helped increase property values around them. The grounds are always kept so beautiful for anyone to wander and partake of the peaceful feeling there. The people who enter the temple doors, though flawed, are doing their best to be good citizens. Youth, ages 12-18 who attend there are also involved in wholesome and uplifting activities. I don't believe the lights on the temple would interfere with viewing the night sky any more than the lights of Las Vegas already have. In many of the countries I have visited, where a temple is built, the citizens have great pride in this House of the Lord, even if they are not members of the church.</p> <p>My husband and I strongly support the plans to build the temple on this sight.</p>

Comments	We desperately need a second temple in our City.. I testify that we only do ordinance work in the Temple. It is sacred, and we do the ordinance work first for ourselves and later for the dead, they then have the opportunity to accept or reject it .

Comments	<p>My comment is simply based on my own personal experience, but I wish to share it anyway. When I have the chance to visit a temple, I notice a real difference in the way I feel and the way I act. Each time I leave temple grounds, I feel a desire to be a better husband, a better father, a better friend and a better neighbor. I feel a desire to be more kind and more honest. I feel a calmness and a peace that I cannot find anywhere else. I believe many others will share in experiencing some of these same feelings by having a temple in our community.</p>

Comments	I am a resident of the northwest side of Las Vegas. While I respect that there are differences of opinion, me and my family are very excited to have this House of the Lord close to where we live. I feel that once most people understand the purpose of this building that they will also support it. I believe the benefits will far outweigh the negative aspects. A similar process has played out in other cities where these temples have been built. Ultimately, they become an asset to the community. Hopefully, this review process can create new friendships and greater understanding as well.

Comments	I support the project of the Lone Mountain Temple of The Church of Jesus Christ of Latter-day Saints. As I visit the existing temple in Las Vegas frequently, I am aware of the need for another one. I have lived in various places in the US and in Europe and have found that the presence of a temple, which is always a beautiful building, visited by respectful and quiet people, is ALWAYS an asset for the surrounding neighborhood and becomes well-loved by all those nearby.

Comments

I fully support the proposed temple of The Church of Jesus Christ of Latter-day Saints in the Lone Mountain area. I understand and welcome positive debate about land use development and the desire to retain as much rural environment as possible here in the Northwest. I am especially keen to these issues having been raised in a rural farming community in Idaho where such discussions of importance are commonplace. I have lived in the Rural Neighborhood Preservation area of Las Vegas since 1992 and my wife and I have happily raised our children here. As a member of The Church of Jesus Christ of Latter-day Saints we are taught to love our neighbor as our selves. As a result, I have tried to consider both sides. To members of our church, the Temple stands as a beacon of our faith and is dedicated and consecrated as The House of the Lord. It is truly the gateway to receiving all of the blessings our Heavenly Father has prepared for his children to be able to return and live with him again. As a result, the ability to access and regularly attend the temple is quintessential to our worship. Although there is a temple located across the valley at the foot of sunrise mountain, its distance and size make it difficult for the vast, growing numbers of members on this side of the valley to travel and regularly attend there. As a result, this new proposed temple has been designed and located to accommodate the important needs of the members in their worship on this side of the valley. I have been blessed to travel to over 40 countries in the world in my lifetime and visited dozens of temples; the latest of which was in a rural suburb of Helsinki, Finland. Without fail, every temple I have visited has greatly enhanced the peace and beauty to that area, especially in rural areas. Never once have I thought that a temple was out of place or a blight on any area I have visited. Temples are designed and built with the history of each location in mind and contain the finest materials and craftsmanship. Because of their purpose, those who enter, come in peace and with great reverence with the sole purpose to worship and receive blessings and inspiration a temple attendance brings. In my own childhood communities of Rexburg/Idaho Falls Idaho, two temples reside, both of which are located in residential prime real estate areas; one abutting homes and pristine, valuable farmland overlooking the Rexburg Bench and Teton mountain range and the other, sitting in a residential neighborhood on the banks of the gorgeous and famous Snake River in the area of beautiful water falls. Both of these temple have only added to the beauty and serenity (and value/peace) of the areas. Certainly, it is difficult to develop any land and make everyone happy. But with the increase in residential homes in the Northwest comes the need to provide the religious and other support for those homes. I can think of no other better use of that land than to build one of these gorgeous and vital edifices. Once it is built, I strongly believe the neighborhood will be grateful it is there. Thank you for your consideration and efforts on this wonderful and important project for our community.

Comments	<p>The Latter Day Saints are very respectful people, the current temple that is off Bonanza/Hollywood and the residents that surround it can testify to how respectful the traffic is that comes through the neighborhood constantly. This Temple would bring more beauty to Las Vegas, will bring some more traffic but will help the economy of Las Vegas.</p>

Comments	<p>I have lived in Las Vegas for almost 7 years. Previously when I lived in Norther California, Arizona, and Southern California, I have been near temples of The Church of Jesus Christ of Latter-Day Saints, one of which as it was under construction. Consequently, I have seen the effect of the temple on the community. I am aware of many of the complaints and concerns. They existed in the areas where I previously lived. However, the complaints and concerns didn't materialized as anticipated. The effect has been positive every time, both for those who attended the temple and for those in the surrounding area. There is a feeling the temple brings that is unlike any other building I've been around. The grounds are immaculately kept. The people are some of the most Christ-like people I've ever met. And the impact on surrounding businesses and neighborhoods has consistently been positive. Always. I am in full support of the new temple being built so close to where I currently live. I am actually looking forward to it.</p>

Comments	I would love a Mormon Temple in my neighborhood! They are always beautiful & well maintained. The people that go there are respectful to the residents & quiet. There's not near the amount of traffic like a business would create, like a convenience store or small strip mall. The house values double if not more. Although they are lit up all night, the lights aren't overly bright nor obnoxiously flashing. It can bring jobs & revenue to the area. Plus they are aesthetically pleasing.

Comments	<p>Dear Planning Commission,</p> <p>It is my hope that you will consider my support of moving forward to the building of the Lone Mountain Temple for the Church of Jesus Christ of Latter-Day Saints. I have been going to the many Temples of the Church of Jesus Christ of Latter-Day for over 40 yrs in Utah, Idaho, California and the Las Vegas Temple at 827 Temple View Dr, Las Vegas, NV 89110. Every Temple is beautifully built with impeccable ground care, and is considered the most sacred place we can go to within the organization of our Church. Every community of the Temples I have been in are beautiful homes of people of all faiths. I invite you to visit the grounds of the Las Vegas Temple. I believe you will find that it fits in well with the settings of the surrounding community peacefully. I also believe that it will increase the value of the properties around the Temple. Having the Temple built in the Lone Mountain area will provide myself and many others with a shorter commute time and opportunities to be involved with the important work of our Temples.</p>
----------	--

Many thanks and with warmest regards,

Kristine Anderson

Comments	<p>This project has my full support and I am excited to have this Temple near my home. The Church of Jesus Christ of Latter-day Saints has an unmatched commitment to building and maintaining these structures. Because of their religious significance to the members of the church, they are among the most beautiful religious structures in the world and are always well maintained. They are sites of quiet peace and refuge from the world. This relatively quiet and peaceful area of town makes for an ideal location for such a facility. My ancestors worked as grounds keepers on the St. George, UT Temple 100 years ago. That Temple has been operational for 150 years and is still the most beautiful building in the area and recently received a major renovation. I expect the Lone Mountain Temple to bring beauty to the NW Valley for the next few hundred years as well.</p>

Comments	<p>I am writing to strongly support this appropriate and well thought out proposal for the construction of the Lone Mountain Temple. This will be a sacred structure to the Church of Jesus Christ of Latter-day Saints and such temples are widely known to be of the highest quality of structures and properties. They are a profound asset to the City of Las Vegas, as has been clearly established by the Las Vegas Temple on the East side of the Valley. Concerns from opposition groups do not measure up when evaluated against the many decades of experience the city has had with the existing temple. There has not been ANY traffic issues, noise complaints or negative visual impacts. Instead, this building has served the citizens of the city and become known as a refuge of beauty and contemplation. The building of a second temple will better serve the community by reducing travel of those members of the faith from the far West side of the valley. This will actually reduce travel by car across the city. Additionally, by allowing the Church to exercise their ability to develop this parcel, the overall traffic to the two temples will be roughly divided between the two. I strongly encourage the approval of this building on a parcel that is both appropriate and ideal for such a use within the City of Las Vegas, within the 215-beltway (easy access) and within the needs of the immediate community of citizens of the City of Las Vegas.</p>

Comments	<p>We are excited to have an LDS temple on the west side of the valley which is closer to where we live. We go to the temple frequently and currently have to deal with a lot of traffic and distance to get to the current temple on east Bonanza. The temples of the Church of Jesus Christ of Latter-day Saints are beautiful edifices and the grounds are beautiful and pristine.</p> <p>In my experience, wherever there are temples the property values close to the temple usually increase.</p> <p>Please approve this project.</p> <p>Thank you.</p>

Comments	<p>Esteemed Members of the Las Vegas Planning Commission,</p> <p>I would like to voice my support, and that of my household, for the proposed Lone Mountain Temple project. This use of the land will be a benefit to the community and beautify the entire area. In my personal experience, areas that have temples also enjoy lower crime rates which is a benefit for all in the area. I understand that there are concerns being voiced about lighting, height, and traffic. People rightfully want this community to not be overrun and still be a peaceful and enjoyable place to live. My opinion is that the temple will make our area even more peaceful and enjoyable to live in. There are many others that can and will speak in more detail to set the stated concerns at ease, but I will not attempt. I know that this proposed temple will cement Lone Mountain as a truly wonderful place. All who are the area will be encouraged towards being better neighbors and citizens. Not only will a project such as this be pleasant to view and enjoy the grounds of, it will also elevate surrounding land values because of it's peace and beauty. The temple will be much better than the vacant, trash filled lot that presently occupies that location. I couldn't think of a better use for the land.</p>

Comments	<p>The Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints will add tremendous value to the area. The architecture and landscaping of LDS temples are always beautifully maintained. The grounds around LDS temples are open for anyone to enjoy the quiet reverence and peaceful atmosphere.</p> <p>Additionally, construction of the Lone Mountain Temple will allow opportunities for faithful members to practice their religion freely through peaceful worship.</p>

Comments	I am so excited for a Temple to be built in this community. Temples are always a huge blessing to all wherever they are built, increasing the wholesome nature of the community. An increase in religious infrastructure increases the amount of stable family units, which decreases crime and increases education, quality of life, livability and happiness in the community. There are really no downsides to building a Temple. It will be a beautiful landmark which will increase tourism in the area, which can revitalize the local economy. I urge you to hastily approve the construction of this Temple! I am looking forward to bringing my family there when it is completed.

Comments	<p>The LDS temple at Lone Mountain is a sacred place of worship and will bring a peaceable atmosphere to the neighborhood. The building is beautiful and will enhance the neighborhood. I, and I am sure others who attend the temple come and go with the spirit of reverence and respect to those who live around the temple, along with the streets that they travel. I strongly endorse this LDS temple at Lone Mountain.</p>

Comments	<p>To me, a temple is a house of God. It is a beautiful place where I can worship God, serve the Lord Jesus Christ, and experience the peace that He brings. It is a place where I can escape all the noise of the world and refocus on what is truly important: God, the gospel of Jesus Christ, my family, and my loved ones. My husband and I also enjoy attending the temple together and it helps strengthen our faith and our marriage. I know that many residents of the greater Las Vegas area, myself included, were beyond thrilled to hear that the west side of town would be getting a new temple, because the Church of Jesus Christ of Latter-day Saints currently only has one other temple in all of Clark County, and less than a handful in the entire state of Nevada. Historically, temples have added a measure of beauty, peace, and purpose to the areas and neighborhoods they share. There are many members of the Church of Jesus Christ of Latter-day Saints on the west side of the Las Vegas Valley and Pahrump who will benefit from having this temple located in the Lone Mountain area. Because these temples are not used for commercial purposes, it makes no sense to relegate their locations to commercial zoning. If one were to visit one of our temple's grounds or search for images on Google, they would be met with meticulously manicured landscaping that highlights the region's natural beauty and clean buildings with resplendent modern architecture. This temple can be a symbol of peace and hope for my fellow brothers and sisters, for all believers, and for any people in need of refuge and relief. I hope that everyone is able to see the beauty and love that is represented in this special building, and that everyone will support their friends and neighbors who look forward to worshipping here.</p>

Comments	This project will bring a sense of beauty and joy to all that is close . It will be a beautiful structure that will be maintained for decades to come. There will be great opportunities for this religious building to strengthen and edify those that visit to be better citizens of the community. Please allow this project to go forward and enhance all that are apart of it. Thank-you for your time and considerations. Jeff A. Stewart

Comments	<p>I whole-heartedly offer my support in favor of the building of this temple and church building. It's beautiful architecture, well maintained grounds, and a peaceful atmosphere will be a benefit to the surrounding community, and to the 100,000 plus members of the Church of Jesus Christ of Latter-Day Saints across the entire valley. I live about forty-five minutes from the current temple, and this will cut travel time to worship in a temple by more than half. Although this site is near the current Rural Preservation area, it does not actually include it and therefore does not violate any current zoning. And some are concerned that it's height will block views of the valley, but clearly the design shows that it is only one narrow spire that will reach over 200 feet. Many residents on the Eastern side of the valley opposed the building of the current Las Vegas Temple, concerned about property values. But the temple construction and surrounding grounds proved to increase, not decrease their property value. Please consider the enormous influence for good this temple will have on the Las Vegas Valley.</p>

Comments	I am writing to express my support for the proposed construction of a temple by the Church of Jesus Christ of Latter Day Saints in our community. I believe that having a temple in our area will not only serve the spiritual needs of the members of the LDS Church but also contribute positively to the cultural and social fabric of our city. Temples are places of peace, reflection, and community engagement, and their presence can enhance the overall quality of life for residents. Additionally, the construction of the temple will likely bring economic benefits, such as job creation and increased tourism, to our region. Overall, I am confident that the addition of a temple will enrich our community and strengthen its diversity and vibrancy.

Comments	I fully support the building of The Lone Mountain Temple for The Church of Jesus Christ of Latter-Day Saints. People worried about traffic should realize the traffic is relatively constant and low throughout the day - compared to schools or businesses that could be built there. I have many experience going to the Las Vegas Nevada temple in the northeast part of the valley. It has literally saved my mental health (and spiritual) in some very difficult times in college. This new temple will bless its community.

Comments	<p>As members of the Church of Jesus Christ of Latter-day Saints, we support the temple construction and recognize how it will benefit the community (i.e., beautiful and peaceful; strengthens those who attend and strengthens the community), but we must also be good neighbors. The temple design should reflect sensitivity to the concerns of existing residents in the neighborhood by minimizing light pollution, not obstructing views of the mountains, or changing the character of the neighborhood.</p> <p>We would like to see a temple that is a beautiful structure that is harmonious with the environment, and enhances and improves the area for everyone.</p>

Comments	<p>There are large scale buildings and parking lots in residential areas that are crucial for a high quality of life, like schools, libraries, community centers, parks, and grocery stores. Our communities should be filled not only with homes but places that improve its members lives-intellectually, physically, socially, and spiritually. The Lone Mountain Temple will be a building that beautifies the area, increases home values, and brings peaceful, God loving people who are striving to love God and their neighbor to the area . I live across the street from a school and it increases traffic significantly at certain times of the day but nothing that significantly delays or impedes my drive time. The Lone Mountain Temple will have a lot less traffic than a school and is just as crucial to our community's quality of life and well being.</p>

Comments	<p>When the temple was to be built at Sunrise Mtn., neighbors were concerned about increased traffic. It has proven not to be a problem. Members come at scattered times. I believe it has also proven property values in the area have increased.</p> <p>If light is a question, that can be mitigated.</p> <p>Despite the 3 stories, it will not be as massive as many casinos in town. And the people the temple attracts are quiet, upright citizens that will bring peace and tranquility to the neighborhood.</p> <p>Thank you.</p>

Comments	<p>The Church of Jesus Christ will only make the area nicer and it will raise property value. It would be really good to have such a beautiful building added to our community.</p> <p>It's not going to be the same traffic a casino sees, it is a different crowd and requires a membership to attend; so attendance will be more limited than a casino.</p>

Subject: Enhancing Communities: The Positive Impact of LDS Temples

Dear City of Las Vegas,

I hope this message finds you well. I am writing to discuss an important topic that often garners varying perspectives: the construction of temples by the Church of Jesus Christ of Latter-day Saints (LDS). Contrary to misconceptions, these temples contribute significantly to the improvement of surrounding communities in several ways.

First and foremost, the presence of an LDS temple tends to elevate property values in the vicinity. Studies have consistently shown that religious institutions, including temples, positively impact nearby property prices due to increased demand and improved neighborhood desirability. This upsurge benefits homeowners and fosters economic growth in the area.

Moreover, I want to emphasize the Church's commitment to collaborating with property owners and developers to ensure the seamless integration of temples into the community. This involves meticulous planning to address any concerns regarding traffic congestion or strain on utility systems. The LDS Church recognizes the importance of infrastructure development and is dedicated to working hand in hand with local stakeholders to mitigate any potential disruptions.

Furthermore, LDS temples embody a long-term commitment to maintaining the aesthetic appeal of their surroundings. The Church takes pride in beautifying the areas where its temples are located, often investing in landscaping, maintenance, and community beautification projects. This not only enhances the visual appeal but also fosters a sense of pride and belonging among residents.

In conclusion, the construction of LDS temples brings tangible benefits to surrounding communities, including increased property values, proactive infrastructure planning, and a commitment to beautification. By recognizing these positive contributions, we can appreciate the valuable role that religious institutions play in our neighborhoods.

Thank you for considering these points. I look forward to further discussions on this topic.

Warm regards,

Patricia Adams

Comments	I support the construction of the L.D.S. Lone Mountain Temple. It will be a beautiful building and in no way will have any negative impact on t he traffic or community in the area. People who come there to worship will be considerate of drivers and any businesses in the area. There is no reason to deny or object to the construction on this temple, and it is very much needed for the members of our church.

Comments	<p>The temple is an essential part of my family's religious devotion. It binds us to our God and our family.</p> <p>Within its walls we learn more about our Savior Jesus Christ. Having a temple in our neighborhood would enrich and bless my family and by extension the community. My family is confident the presence of this sacred place within our community will prove to be a major influence for good.</p>

Comments	<p>The building of temples in other places and communities has shown that the Church of Jesus Christ of Latter-day Saints makes positive impacts and provides benefits in many other ways, including the investment in and support of the overall community and surrounding area. They meticulously maintain their properties and temples often help to increase the real estate value of immediately adjacent neighborhoods.</p> <p>Temples are also an important element of worship and are of great significance to the members of the church. There are many members living in West Las Vegas who will benefit and it will see visitors from around the world.</p>

Comments

My family and I support this project whole-heartedly.

I am a Las Vegas native, born and raised in the Northwest valley of this amazing city. I can appreciate the desert life and the city life well as that is how this area of town has grown over the last 30 years. It is truly inspiring to see so many people come to Vegas to call it home.

One of the biggest draws to our town that I often think is overlooked, is the tremendous Christian community we have here. We might be the City of Sin, but there is a solid Christian foundation of people that have lived here since before Las Vegas became a world-wide attraction. Because of this amazing community, the LDS faith in particular has found Las Vegas to be a home to grow and put roots down and that has caused our numbers to grow and our needs for an additional temple has become more evident in the last several years. For example, our membership is regularly rearranging our worship boundaries to accommodate the growth. What a wonderful problem to have! The LDS community strives to be peacemakers, neighborly, and contribute to the community as often as possible.

Our temple is a very sacred place of worship that is unique from our regular meetinghouses. The building is beautiful to behold and is meant to be a contrast from the everyday business of life. We want to make our lives more centered on heaven and the temples provide a place that is clean, neat, and a shining beacon to resemble that goal.

LDS temples (and meetinghouses) are maintained with the utmost care. The property will always be well-cared for and the building in immaculate condition at all times. As far as surrounding properties in the area, the values of those will increase because many people will want to be close to a building that has such a high standard of maintenance.

The temple will be lit up. It is unfortunate that so many think it's similar to a hotel. The temple is meant to bring peace and comfort. Flashing lights or obnoxious colors are not what belong on a temple. Instead, lighting will be added to spotlight the building but not so much to annoy neighbors. I have been to the temple on the East side of town many times. The lighting of the temple is not a distraction to neighbors. Furthermore, there are other buildings and structures that have lighting, a must, in the area - Centennial HS, nearby elementary schools, the 215 Beltway, the Lone Mountain Park, and the many neighborhoods surrounding Lone Mountain. Lighting is not a new thing in the area.

I'd like to mention the additional traffic. The temple is not like a school where there is a mad dash of traffic in the morning and then again at night. That's not how the flow of the temple works. There is regular attendance, but it is not chaotic like school traffic often is. Regular attendance is based on the ability of the LDS community to attend at their leisure. Traffic will not increase as dramatic as many might think. The LDS community will respect

traffic laws and neighborhoods as they approach the temple including minding the speed limit, being more aware of foot traffic and even horse trail traffic. How wonderful it is to have such a house of worship that will be so near every day life of the desert landscape that makes Las Vegas so beautiful.

Many people have yearned for a temple to be more easily accessible. Our East side temple is absolutely gorgeous, but my life has been so busy that getting across town to worship there on a regular basis is not something my family can do right now. To have a temple right down the road is a tremendous blessing and I cannot wait to attend this temple more regularly because it's so much closer - cutting down travel time significantly.

Thank you for reading this comment. I sincerely appreciate the efforts being made to work with the local government and the neighbors and the LDS community to move forward with the construction of the temple. My family is eagerly awaiting news on how we can show additional support for such an important building. Thank you!

Comments	<p>I'm looking forward to seeing a new, beautiful, well built and tasteful Temple on the proposed lot. I want it to be lit, so it stands out but not flooding the area with light, 24 hours a day. It should be a beacon on a hill. The Temple on the East side always looks beautiful and I am looking forward to seeing the same thing on the other side of the valley.</p> <p>Thank You</p> <p>Jason Widdison</p>

Comments	The temple grounds are a place of peace and beauty. We took our family to visit the temple in California once, when we had a big decision to make as a family. We walked around and looked at the blooming flowers and bubbling fountains, and talked with our small children. As we contemplated a change for our family, we felt happy and content. The temple grounds are always well-kept, so we know we can visit any time and enjoy the peace we feel there. This temple is for everyone in the community.

Comments	<p>Our City needs to be blessed by the completion of this temple Bldg being built in Lone Mountain. I support this 100%. I know that the Las Vegas Temple on 827 Temple View Drive had some opposition as well but talk to the neighborhood now and see how very wonderful it is and has been received.</p> <p>I am a volunteer worker of the temples and would be honored to have one built so very close to home. We take pride in having the house of the Lord and we keep it very attractive and clean. Visit any temple in any city or country and your eyes will be opened at how attractive the structures are and how the landscape is maintained so meticulously perfect.</p> <p>It will not be the look of a local Las Vegas casino at all. Its height is a pole in width. Trust me that the temple attracts very worthy members of the Mormon religion. They are the cream of the crop. There will be many prayers and dedications made to bless the whole neighborhood. It is hard to comprehend looking from the outside of ones having faith in the One God that created all of us.</p> <p>Please let it happen..... Hear the pleads of those who know what an awesome addition this Holy House of God will be to our neighborhood.</p>

Comments	<p>The LDS Temple is an asset to the community. I'm excited to have another Temple in Las Vegas. It will bring more people to our city and support our seniors who are LDS. It is about 25mi from the farthest point of LV many members don't have cars to get to the Temple. The structure is beautiful and the grounds are well keep for the community to visit and feel the spirit and be able to feel the peace it can give you. The youth of our church come mostly on Saturday and in the evenings. What a wonderful place for the youth to do baptism for their ancestors. They are doing something constructive. The dead cannot get anywhere without the living and the living cannot get anywhere without the dead. So the Temple is very, very important to LDS.</p> <p>Sincerely, Margaret S Joanitis</p>

Comments	<p>The temple for the Church of Jesus Christ will be a place for all to find some quiet and peace in their day. Visitors are welcome to walk the grounds where that peace is found abundantly. There will be low amounts of cars there on Sundays and Mondays. Those attending the temple are there to serve God in a reverent way and will not cause a disturbance to the surrounding area. This white building will be beautiful near our Lone Mountain overlooking the valley and can remind us to seek higher ground and be better people.</p>

Comments	Our Law Firm, located in the City of Las Vegas, is familiar with past and the present Temple construction applications. We support without reservation each of the related Applications before the Planning Commission, whenever heard. Our experience is that the construction of a Temple for the Church of Jesus Christ of Latter-Day Saints in any area in the world, and especially in Las Vegas, will surely: (i) progress with exactness, as planned; (ii) bring peace and tranquility to the neighbors; (iii) enhance all neighborhood property values; (iv) significantly beautify the surroundings; and (v) attract conscientious, reverent residents and visitors for its use in worship. We encourage the Commission to approve this Project.

Comments	<p>The temples of the Church of Jesus Christ of Latter Day Saints are beautiful, perfectly maintained and landscaped better than any park you will see in Las Vegas. The people who frequent the buildings are respectful of the surroundings and love their neighbors. The traffic flow is moderate and there are not any peak times when the roadways would be congested. Yes, I belong to the church and welcome this building in my neighborhood. Please support this lovely addition to our area. Thank you.</p>

Comments	<p>The Church of Jesus Christ of Latter-day Saints is always considerate of the effects a temple may have on the area where temples are built. The Church takes great care to preserve the aesthetics and add to the beauty. The Church is careful to properly maintain the temple property and surrounding areas, increasing the care and beauty of the area around the temple. Temples are wonderfully spectacular structures and will do nothing but add to the area and likely increase appeal and property values. Temples are holy places of worship that'll benefit the tens of thousands of members who live in Las Vegas and surrounding areas.</p>

Comments	<p>I support this project. The temples for the Church of Jesus Christ of Latter Day Saints are built to the highest construction standards. The edifice and grounds will beautify the neighborhood and increase property values. Although the traffic will increase, the people who attend the temple are law abiding citizens and hold themselves to high standards of conduct. The spiritual impact is great for those of us who will be using the building.</p>

Comments

To the City of Las Vegas Planning Commission: I am writing in full support of the proposed general plan amendments and zone changes included in project 24-0072. The Church of Jesus Christ of Latter-day Saints has a rich history in our community and an ever-growing population of members living in the Las Vegas valley and surrounding areas. The proposed changes will not only enhance the value and beauty of the Lone Mountain area, but also has the capacity to maintain the quiet peace that local residents and neighbors are seeking to preserve in the area. Below are three points to consider in this decision:

1) Traffic concerns: Unlike any other structure of this magnitude, particularly in Las Vegas, a temple invites quiet and reverence. As evidenced by the current temple that has operated at the east end of Bonanza road since 1989, the temple itself can operate at full capacity (Tue-Sat) with no observable traffic noise or congestion (I myself have lived in the valley for almost 30 years and have never seen traffic buildup around that temple). The temple operates throughout the day on a regular schedule; thus, there is no singular event where patrons all be arriving/leaving at the same time, making any concerns regarding overwhelming traffic increases a moot point.

2) Concern that the structure itself does not align with the current zoning: As stated in the application as well as the agenda details, much of the land surrounding the site is owned by CCSD, such that schools and/or other government facilities are likely to be built in the area at some point in the future, which are also permissible under the same P-F general plan and C-V zoning district that is required for the construction of the temple. As included in the agenda, other facilities of this nature have been approved in the past for similar residential areas in accordance with Title 19 and the Las Vegas 2050 Master Plan with little/no adverse impacts to the local community.

3) Rural preservation of the area: The design and landscaping of temples generally reflect the environment in which they are built, including the incorporation of local plants, etc. in the exterior and interior of the building. By approving the zoning changes to permit the construction of the temple, the temple will help preserve much of what concerned neighbors fear losing in terms of the beautiful landscaping that defines the west side of the valley. With the rate of growth the valley is experiencing, and the ever-present need for more land, the construction of a temple with beautifully-landscaped grounds is a sure way to preserve the beauty of the area that is sure to experience more and more population growth as the city continues to expand.

As a born-and-raised resident of Las Vegas, I am excited for the future construction of an additional temple for The Church of Jesus Christ of Latter-day Saints and the positive externalities to the local and broader community that it will produce.

Comments	<p>I fully support the construction of the Lone Mountain Temple. I have lived in several neighborhoods over the years where a temple was built. In every case, everyone's property values increased significantly, and it brought a feeling of reverence and awe into the area. There was very little impact from noise or lighting - if anything, the end result was a significant improvement to the area. The pace of life around a temple is slower and peaceful in my opinion. I see no reason to limit this project in any way.</p> <p>Every time a house of worship is built in the Las Vegas valley, the quality of life improves.</p>

Comments	<p>The land that was purchased for the LDS temple and the temple building itself will be aesthetically pleasing additions to the surrounding community. The grounds will be well kept, and the building will be maintained to the highest standards of building code enforcement, The only way for the community members to look at this purchase and construction of the temple, is that the land might have been purchased by a big developer who would install a high rise with either many offices, or apartment buildings with undesirable traffic and noise pollution, none of which will be present with the LDS temple. The beauty of the well-kept grounds and building will be a peaceful and pleasing addition to the community. Since the land was going to be purchased by someone anyway, the residents who are against the temple building might just have to consider the temple as the least of ALL evils. For those in the surrounding community who are LDS, they will consider the temple as a blessing.</p>

Comments	<p>I support this project and believe it will enhance the area and be an asset to the community. It's adjacent to 2 future CCSD properties to the north and south that will cause more noise and traffic than the temple and chapel ever will. I understand there is fear from neighbors of change and the unknown. I hope the neighbors acknowledge that the site will be developed and the proposed area is already being developed and is changing with street lights and curb and gutter on Fort Apache, Lone Mt and Alexander. I think it will surprise neighbors once it is built how quiet and peaceful the completed property will be. There is already evidence of this on the east side of town where another temple and chapel have been operating for decades next to the mountains with half acre residential lots surrounding it. I've loved this area for decades and used to live nearby. I still have friends who live near the site. This will be a place of beauty and peace that will preserve the quiet of the area. I believe the property owners and patrons will be good neighbors to the surrounding community.</p>

Comments	<p>Hello. I would like to express support for the construction of the Lone Mountain LDS Temple. This will be a very beautiful building that will enhance the neighborhood where it is proposed to be built. Generally, LDS temples tend to increase property values of the homes and properties around them. LDS temples also are very serene and peaceful both inside and outside. If people are concerned about traffic congestion and noise, they should spend time outside the current LDS temple at the base of Sunrise Mountain at the far eastern end of Bonanza Road. Anybody who spends any amount of time will realize that the traffic flow in and out of LDS temples is generally very orderly and a continuous flow with no times when it is majorly congested. If people oppose the construction of the temple because of fears of the lighting on the temple grounds, then again they should look to the current temple. The lighting is always very soft and calming, used to accent beautiful architectural features. It is never bright and obnoxious. Lastly, if the opposition to the temple is in reference to the temple obstructing views of Lone Mountain, then perhaps a compromise could be reached between the LDS Church and the city to perhaps move the temple down the hill slightly on the proposed property. Please consider voting to approve the construction of this sacred edifice. The population of the LDS membership in the Las Vegas Valley has grown significantly over the last few decades, and the need for a second temple is necessary to meet the spiritual needs of the LDS people. Having a second temple on the west side of the Valley will make the blessings of the temple more accessible to the LDS members living in Summerlyn, Providence, and Sky Canyon communities. Currently, those members must travel about an hour across the valley to engage in worship in the current temple. Please consider the thousands of LDS members that will be very grateful if this temple is approved. Thank you.</p>

Comments	The First Amendment of the Constitution of the United States allows for the free exercise of religion. Temples are a very important part of religious worship for Latter-Day Saints. Our experience has been that LDS temples add peace and beauty to the community wherever they are located. We are grateful whenever local governments approve the building of temples and the opportunity to worship within their walls.

Comments

I wholeheartedly support the building of the LDS Lone Mountain Temple for the following reasons:

1. LDS Temples are beautiful structures that always improve the beauty and value of the surrounding area for generations.
2. The LDS Temples historically attract and greatly improve the population growth of families that desire to move to that area to live within close proximity of the temple - thereby adding very productive revenue for the surrounding community.
3. The LDS Lone Mountain Temple will not negatively affect or obstruct the view for the large majority of those that currently live in the area, but will actually be a monument that will stand as a desirable vista for residence, similar to that of the Las Vegas Strip, if not more!

To elaborate on the 3 points made.

1. LDS Temples are built to the highest code and standards and are never allowed to fall into disrepair. The temple grounds are set up to be some of the most beautiful park-like settings in the area attracting not only LDS visitors, but also universally admired by most people all over the world that are not even of the LDS faith. Residential values for the surrounding homes will see a very distinct rise in demand and value over the construction period of the temple as well as for many generations into the future. LDS Temples are not only places of worship, but also symbols of hope, love, and charity. We are likewise taught to embody those principles as members within our churches and the temple, adding to the safety and security of the neighbors around the temple. The LDS community believe that the grounds are sacred and deserve reverence, which LDS members try to display whenever attending or visiting the temple.

2. One of the key admonitions being taught in the LDS faith currently is to go to the temple often. Most families when deciding where they want to establish residence in a city are almost always determined based on proximity to two things 1. Work 2. The LDS temple. Good LDS families that have these priorities and believes will now flock to the Lone Mountain area to live near this holy edifice. The family structure is the foundation for solid future growth of a community, neighborhood, city, and even the State of Nevada. The LDS faith encourages strongly its members to get a good education and to work very hard to have the means to support their families - which are traditionally much larger and generally more affluent than the general public. There are many professionals such as doctors, lawyers, business leaders, contractors, educators that will be drawn to the City of Las Vegas due to the Lone Mountain Temple and all of the beautiful real estate available in the area that has great proximity to the temple. I am a Doctor of Audiology and the #1 reason we like living in the Centennial Hills area is due to the close proximity to the future LDS Lone Mountain Temple. The only downside to our location is that we would rather live even closer to the temple but currently cannot afford the 1 million dollar lots of land! I don't know anyone that would deny that LDS people generally make THE

BEST neighbors that are charitable to fellow members and non members alike! If there is any tragedy or disaster, our churches are places of safety and refuge for all!

3. The concern about the LDS Lone Mountain Temple affecting some residence view is a valid concern, however, much blown out of proportion relative to how many residences will truly be affected. If a current resident is disillusioned by the beautiful temple within their view, they will very easily be able to sell their current home/residence for a healthy profit (due to the huge spike in land value that with historically come - compliments of the beautiful Lone Mountain Temple) and take up residence far enough away from the temple to be out of its proximity, thus allowing them to keep the healthy profits that they acquired from the sale while maintaining a similar size/value of residence.

Comments

My name is Jeff Sorensen and I am a citizen of Las Vegas, Nevada. I am writing this comment to indicate my SUPPORT for Project #24-0072 to facilitate the building of the Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints.

In my faith, our temples are considered to be places where active members can make promises to God that we are willing to obey God's commandments, willing to sacrifice for others, and that we will try to raise strong families that can contribute positively to our communities. The pinnacle activity that occurs in temples is the sealing of families together in marriage for this life and throughout the next. Personally, a temple is a place of peace for me in a chaotic world. It is a place of prayer, and a place where I can silence my phone and take off my smart watch and be alone with God in a place of beauty and serenity. I have found that active temple worship helps me be a better husband, father, and neighbor as my perspective becomes much less self-centered and more focused on the needs of others. To me, the temple is a symbol of the virtues of hard work, discipline, strong families, and the God that guides those virtues towards good ends for his children on earth.

I have seen many temples around the world and each brings light and beauty to its surrounding community. Recently, the community around the temple in Mesa, Arizona had begun to deteriorate and become an "eyesore" according to Mesa citizens. Because of our church's commitment to maintaining the temple and its surrounding community, the church invested millions in a community revitalization project which dramatically enhanced the infrastructure, appearance, and livability of the surrounding area.

(<https://newsroom.churchofjesuschrist.org/article/church-mesa-arizona-red-evelopment-project>) Our faith is committed to the growth and development of communities that are home to our temples.

As a citizen of Las Vegas who values the religious freedom of every member of the community, I have become concerned about the volume of protest comments online that have sought for the church to "build somewhere else." While I do not assert that these protestors hold religious animosity towards my faith, the invitation to "build somewhere else" has throughout history been the first statement of those who seek to push minority religions out of a community, which has escalated to the use of forceful expulsion in the history of my faith and others. I encourage the Las Vegas City Council to avoid any consideration of discussion regarding inviting the church to build the temple "somewhere else," as this would set an unfortunate precedent of state pressure upon religious minorities, which would not be in keeping with our city's past efforts to make all feel welcome and sadly put Las Vegas on the path of other communities around the world that have embraced an increasing hostility to religious observance.

The Las Vegas valley is one of the most magnificent night-time sights in the world with the bright lights that illuminate the darkness. I invite the Las

Vegas City Council to vote in support of this project to further illuminate the valley as a beacon to the world of our welcoming attitude to visitors. The soft light of the Lone Mountain Temple will enhance our community and create a warm invitation to the world that all are welcome in Las Vegas, whether they are here to enjoy the Las Vegas Strip or to find God.

I strongly voice my SUPPORT for project 24-00072.

Thank you for your consideration,

Sincerely,
Jeff Sorensen

Comments	<p>I wish to take this opportunity to express my SUPPORT for the proposed "Lone Mountain Temple" to be constructed by The Church of Jesus Christ of Latter Day Saints. In addition to chapels, The Church of Jesus Christ of Latter Day Saints is a temple building church. Currently there are 186 operating temples, 55 new temples under construction, and 94 new temples have been announced by the Church. These beautiful edifices not only dot the United States, but also cities around the world. Las Vegas is already home to one beautiful temple near Sunrise Mountain. This magnificent structure has increased property values, and added tranquility and peace to the neighborhood. Good schools, employment opportunities and houses of worship are all part of a balanced community. With numerous casinos, stadiums and ball parks, surely there is room for one more house of worship, a house of peace, a house of faith, hope, and tranquility; a House of God. Thank you for accepting my comments.</p>

Comments	The proposed temple would be a tremendous blessing and asset to the members of The Church of Jesus Christ of Latter-day Saints who live on the west side of the city. It would reduce the travel time and effort that is currently expended by going to the far east side of the valley. Additionally, in any city and neighborhood around the country where a temple has been built, the nearby property values increase and the neighborhoods improve. This building will be a benefit to any city and neighborhood it is built in.

Comments	<p>I would like to strongly support the building of the Lone Mountain LDS Temple. ALL temples that have been built by the LDS church (100's) are beautiful, both in architecture and landscaping. They bring a serene feeling to the surrounding area. The temples also tend to increase surrounding property values because of the beauty and richness of the building. LDS temples are quiet places that never have a high volume of traffic or activity (except during the brief open-house period since that few weeks brings in a lot of curious people.) The patrons that visit the temple, come dressed in church best, with a calmness about them, as they are preparing to go in and participate in sacred worship. This second Las Vegas Temple will bring much needed relief to church members desiring to attend the original LDS temple that is on the east side of the valley, at the base of Frenchman Mountain. The original Las Vegas Temple can no longer adequately serve the number of patrons desiring to worship there. This temple will be a beautiful edifice that will certainly enhance the beauty of the Lone Mountain area. Our household anxiously looks forward to visiting the temple once it is built. Thank you.</p>

Comments	I fully support this project. I think the residents who live in the immediate vicinity of the proposed temple will find that their property values will increase and that there will not be a lot of traffic, except during the open house and on the day the temple is dedicated. The building and grounds will be beautifully designed and maintained, and the people that will visit and worship in the temple will be kind, considerate, quiet, thoughtful good neighbors.

Comments:

We are writing to express our support of the new temple building as designed, and for the location where it is planned to be built near Lone Mountain. We are aware of those opposed to this project and of their concerns, but we hope these concerns will be mitigated and properly addressed by thoughtful consideration and information instead of dis-information governing the discussion that will ultimately allow this temple to be constructed at the proposed site.

Latter-day Saints on the west side of town for the past 30+ years have had to drive all the way across the valley to worship in the temple. Today, we have 181,975 members of our church living in Las Vegas, and another temple in which to worship and conduct sacred ordinances is desperately needed. Having one of these beautiful, peaceful, comforting edifices on the west side of the valley will only enhance the appearance of the area, not to mention increase

property values, which happens with every temple. Anyone who has actually seen or been on the grounds of a temple of The Church of Jesus Christ of Latter-day Saints has experienced the tranquility and peace of the structure and the grounds. A temple is a far cry from a Terrible Herbst gas station, a Fabulous Freddy's gas station/car wash, a PT's Pub, a WalMart, a McDonalds, a cannabis pharmacy, a smoke shop, etc.: they don't even exist in the same realm. Patrons of the temple are modestly attired, quiet and respectful of the grounds and the building, as well as the property of those living around the temple. When you enter the temple grounds you hear very little noise, and then only that coming from outside the temple grounds. Temples are not light up like stores and casinos: it is much more subtle. We believe that the resistance to the construction of this temple at Lone Mountain is based on a lack of accurate information, misunderstanding and fear – none of which has anything to do with our church, our temples, or the important work we do inside them.

We have lived in the Summerlin community for 35 years, and have watched the Lone Mountain area grow along with the rest of the city. We believe that the impact of this building and the activity of the patrons visiting it will be compatible and in harmony with the clean, peaceful, and quiet atmosphere of the neighborhood surrounding it. Temples are very well maintained with beautiful landscaping, and have modest lighting that is consistent with the local area.

The temple is a place of instruction and worship. The Church of Jesus Christ of Latter-day Saints temples are architecturally beautiful and often prominently placed. Because members believe the temple to be the house of God, the church asks those who design and construct temples and their grounds to reflect that belief in what they create.

As residents of Las Vegas for half our lives, employees, supporters of our community, and church members, we strongly support the construction of the Lone Mountain Temple and are hopeful that accurate and respectful dialogue will enable those who currently oppose this construction to become better informed about temples and their patrons. If you are concerned about the impact a temple will have on your community, please feel free to visit one of the beautiful edifices not far from you, either across the valley in Las Vegas, in St. George or Washington, Utah, in or Cedar City, Utah. Within a two hour drive, you can visit these serene, majestic buildings and, if you give yourself a chance, you will feel the peace and calm that emanates from them. Many of the concerns being voiced in public forums are unsupported by fact. We are hopeful that a mutually agreeable solution can be achieved for the Lone Mountain Temple that will allay the division being raised by opponents to the temple.

Thank you.
