

Letter of Justification,

To Whom It May Concern, I, Rita Laguna, declare that I am applying for a variance for my carport and partially enclosed patio on my property. The carport provides needed shade for my vehicle in the hot summer months. My partially enclosed patio is a necessity for my home and animals, it keeps them safe from individuals wandering my neighborhood and it provides separation for my pets while they are roaming my backyard. Booth structures provide general safety for my family and pets. I would appreciate your support in maintaining my carport and patio cover.

Thank you.
