NOTICES MAILED 403

PROTESTS 4 – 23-0382 [VAR1 and SDR1]

APPROVALS 2 – 23-0382 [VAR1 and SDR1]

**** CONDITIONS ****

23-0382-VAR1 CONDITIONS

Planning

1. A Variance (23-0382-VAR1) is hereby approved, to allow a 13-foot solid front yard wall where a five-foot front yard wall/fence with a two-foot solid base is the maximum allowed and to allow a 10-foot perimeter wall where eight feet is the maximum allowed.
2. Approval of and conformance to the Conditions of Approval for Site Development Plan Review (23-0382-SDR1) shall be required, if approved.
3. This approval shall be void two years from the date of final approval, unless exercised pursuant to the provisions of LVMC Title 19.16. An Extension of Time may be filed for consideration by the City of Las Vegas.
4. All necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Division.
5. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.
6. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

23-0382-SDR1 CONDITIONS

Planning

1. An administrative required review shall be performed six months after completion of the park expansion and operation commences of the pickle ball courts.
2. A sound study shall be performed prior to the issuance of a building permit.
3. No parking signs shall be installed along Constantinople Avenue adjacent to the park.

Conditions Page Two
March 12, 2024 - Planning Commission Meeting

4. Approval of and conformance to the Conditions of Approval for Variance (23-0382-VAR1) shall be required, if approved.
5. This approval shall be void two years from the date of final approval, unless exercised pursuant to the provisions of LVMC Title 19.16. An Extension of Time may be filed for consideration by the City of Las Vegas.
6. All development shall be in conformance with the site plan, landscape plan, and building elevations, date stamped 03/05/24, except as amended by conditions herein.
7. All necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Division.
8. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.
9. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. A permanent underground sprinkler system is required, which shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications. Installed landscaping shall not impede visibility of any traffic control device.
10. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

11. Per Title 13.12, dedicate 30 feet of right-of-way for Constantinople Avenue, where such does not exist, adjacent to this site prior to the issuance of any permits.
12. Construct half-street improvements matching improvements to the west on Constantinople Avenue, including appropriate overpaving, adjacent to this site concurrent with development of this site. All existing paving damaged or removed by this development shall be restored at its original location and to its original width concurrent with development of this site. Appropriate barricade or other improvements for the terminus of Constantinople shall meet the approval of the City Engineer. Street lighting may be deferred at the discretion of the City Engineer provided that street light conduit is installed with pull boxes at each future street light location.

Conditions Page Three
March 12, 2024 - Planning Commission Meeting

13. Coordinate with the Environmental Compliance & Enforcement staff of the Department of Public Works to locate any required grease interceptor and sand/oil interceptors in acceptable locations prior to submittal of sewer-related plans. Comply with the recommendations and requirements of the Environmental Compliance & Enforcement staff prior to the issuance of permits. The team may be contacted at 702-229-6594 or emailed at ece@lasvegasnevada.gov.
14. Landscape and maintain all unimproved right-of-way adjacent to this site. All landscaping and private improvements installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.
15. A Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits or submittal of any construction drawings, whichever may occur first. Provide and improve all drainageways recommended in the approved drainage plan/study. The developer of this site shall be responsible to construct such neighborhood or local drainage facility improvements as are recommended by the City of Las Vegas Neighborhood Drainage Studies and approved Drainage Plan/Study concurrent with development of this site.

March 12, 2024 - Planning Commission Meeting

**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Site Development Plan Review for the proposed expansion of Wayne Bunker Park to develop a 24-court pickleball complex.

ISSUES

- A Major Amendment to previously approved Development Plan [Z-0022-88(1)] is requested for the proposed expansion of Wayne Bunker Park to establish an outdoor pickleball complex. Staff supports this request.
- A Variance (23-0382-VAR1) is requested to allow a 13-foot tall solid front yard wall where a five-foot front yard wall/fence with a two-foot solid base is the maximum allowed and to allow a 10-foot tall perimeter wall where eight feet is the maximum allowed. Staff supports this request.
- The Public Park or Playground use is permitted in both the C-V (Civic) and U (Undeveloped [R (Rural Density Residential) General Plan Designation] zones.
- Variance (23-0382-VAR1) and Site Development Plan Review (23-0382-SDR1) have been remanded back to the Planning Commission meeting for 03/12/24 to address a sound study and associated recommendations.

ANALYSIS

On 12/12/23 the Planning Commission approved both Variance (23-0382-VAR1) for a proposed 12-foot tall front yard wall where a five-foot tall front yard wall/fence with a two-foot solid base is the maximum allowed and a Site Development Plan Review (23-0382-SDR1) for a major amendment to a previously approved Development Plan [Z-0022-88(1)] for the proposed expansion of Wayne Bunker Park to establish an outdoor pickleball complex. After an appeal was received on 12/26/23, the project was then set to be heard by the City Council on 02/21/24. The City Council has since voted to remand these applications (23-0382-VAR1) and (23-0382-SDR1) back to the Planning Commission to address a sound study and associated recommendations.

The subject sites are currently zoned C-V (Civic) and U (Undeveloped [R (Rural Density Residential) General Plan Designation] and are subject to Title 19 development standards. Part of the site (APN 138-10-101-015, 138-10-101-006 and 138-10-196-002) are C-V (Civic) zoned. The C-V (Civic) zoning district allows any use operated or controlled by city, county, state or federal government, including a Public Park or Playground operated by the City of Las Vegas. The remaining parcel (APN 138-10-101-019) is zoned U (Undeveloped [R (Rural Density Residential) General Plan Designation]. Here, the U district functions as a temporary classification to be used until property is ready for development. Development standards defined in Title 19.06.050 are consistent with standards applied in the R-E (Residence Estates) zoning district.

Staff Report Page Two
March 12, 2024 - Planning Commission Meeting

The proposed expansion of Wayne Bunker Park is designed to accommodate a pickleball complex that will have 24 courts, spectator seating, shaded areas in addition to a concession and restroom building. Pursuant to Title 19.12, two parking spaces per gross acre, plus additional parking for each major sports facility is required. For facilities not specifically listed, the parking requirement shall be determined by applying the nearest comparable standard, as determined by the Director of Community Development. As parking standards for a pickleball facility are not defined in Title 19, staff has applied the on-site parking requirements for a Commercial Recreation/Amusement (Outdoor) use for Golf Courses which requires an additional four spaces per hole. The submitted site plan depicts a sufficient number of parking spaces as 158 spaces are provided where 120 are required.

The subject sites are adjacent to single family residential development south of Constantinople Avenue. Per the submitted building elevations the applicant proposes to construct a 12-foot tall front yard wall that extends across the two southernmost parcels (APNs 138-10-101-019 and 138-10-101-006). Pursuant to Title 19.06.050, front yard walls may be a maximum of five feet tall where the top three feet is required to be open to permit visibility. Additionally, perimeter walls may be up to eight feet tall. Based on the recommendations of a completed sound study, the City of Las Vegas has therefore requested a Variance of this requirement to allow a 13-foot tall solid front yard wall along the subject properties and a ten-foot perimeter wall that will run along the west property line. This request is intended to mitigate potential visual and audible noise concerns brought forward by neighboring residences that may be generated by the proposed pickleball complex. Staff finds that this is a unique circumstance and the proposed deviation would not have a negative impact on adjacent properties. Therefore, staff supports this Variance request.

Landscaping onsite is dense and evenly spread throughout the proposed development. The proposed perimeter landscape buffers also provide an adequate buffer between the adjacent residential and church/house of worship uses. The City of Las Vegas 2050 Master Plan has prioritized increasing tree canopy across all areas of the city for multiple public health and environmental benefits. This includes decreasing the amount of heat absorbed by asphalt areas like streets or parking lots. Therefore, staff has found that the submitted landscape plan fulfills key objectives of the master plan relating to urban forestry and mitigating the urban heat island effect.

Staff Report Page Three
March 12, 2024 - Planning Commission Meeting

Parks and recreation assets are one of the greatest contributors to environment and quality of life in the City of Las Vegas. The use of these resources is reinforced by the statistically significant ward-based resident survey where 67 percent of residents find parks above average quality, 73 percent of residents feel at least moderately safe in City parks, and over 60 percent of residents use amenities like open spaces and walking trails at parks. As the City continues to grow, the Master Plan includes recommendations to increase the quantity and access to parks to seven acres per 1,000 residents within a one-fourth mile walk. This represents a significant increase over the current quantity of parks per resident. Accomplishing this task involves the use of Southern Nevada Public Land Management Act (SNPLMA) new park bonds for the upgrade of existing parks. The City of Las Vegas has indicated that funding for park construction would be partially fulfilled using funds from SNPLMA. Additionally, the City of Las Vegas has an active Parks Capital Improvement Plan (CIP) which identifies culture and park development priorities for future recreational projects and improvements, including the proposed expansion of Wayne Bunker Park for an outdoor pickleball complex.

Staff finds that the proposed development will be compatible and harmonious with the existing and surrounding residential development in the area despite the requested Variance of front yard wall height and perimeter wall height maximum standards. Therefore, staff recommends approval of the requested Site Development Plan Review and Variance, subject to conditions.

FINDINGS (23-0382-VAR1)

In accordance with the provisions of Title 19.16.140(B), the Planning Commission and Planning Commission, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Staff Report Page Four
March 12, 2024 - Planning Commission Meeting

Additionally, Title 19.16.140(L) states:

“Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.”

Staff finds sufficient evidence has been presented to allow approval of the requested deviation in front yard wall and perimeter wall maximum height standards. Therefore, it is concluded that the applicant’s hardship is not preferential in nature, and it is thereby within the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (23-0382-SDR1)

In order to approve a Site Development Plan Review application, per Title 19.16.100(E) the Planning Commission and/or Planning Commission must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

Despite the requested Variance of front yard wall and perimeter wall height maximums, the proposed development is compatible with the adjacent residential development and church/house of worship development in the area.

2. **The proposed development is consistent with the General Plan, this Title, and other duly-adopted city plans, policies and standards;**

Despite the requested Variance of front wall and perimeter wall height maximums, which staff supports, the proposed expansion of Wayne Bunker Park fulfills key objectives of the City of Las Vegas 2050 Master Plan and is otherwise consistent with other duly-adopted city plans, policies, and standards.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

Site access is provided by Alexander Road, a 100-foot Primary Arterial as defined by the Master Plan of Streets and Highways. Site access and circulation will not negatively impact adjacent roadways or neighborhood traffic.

Staff Report Page Five
March 12, 2024 - Planning Commission Meeting

4. Building and landscape materials are appropriate for the area and for the City;

Landscape materials are consistent with the Southern Nevada Regional Plant List. Building materials consist of ground face block and metal accents that are appropriate for the area and for the City.

5. Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;

Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment, and are harmonious and compatible with development in the area.

6. Appropriate measures are taken to secure and protect the public health, safety and general welfare.

Site development is subject to building permit review and inspection, thereby securing the public health, safety and general welfare.

BACKGROUND INFORMATION

<i>Related Relevant City Actions by Planning, Fire, Building, Code Enforcement, etc.</i>	
05/18/88	The Planning Commission approved a request for Rezoning to C-V (Civic) on the existing portion of Bunker Park as part of a larger request (Z-22-88).
04/05/89	The Planning Commission approved a request for Review of Development Plan for the proposed park (Bunker Park) [Z-22-88(1)].
02/02/00	The Planning Commission adopted Ordinance No. (#5195) to extend the boundaries of the City of Las Vegas which particularly annexes property generally located near the northeast corner of Buffalo Drive and Constantinople Avenue.
05/17/00	The Planning Commission approved a Site Development Plan Review (SD-0016-00) for the expansion of Wayne Bunker Park on the south side of Alexander Road between Buffalo Drive and Tenaya Way.
08/04/21	The Planning Commission adopted an Ordinance No. (#6793) to extend the boundaries of the City of Las Vegas which particularly annexes property described as 7418 Constantinople Avenue.
12/15/21	The Planning Commission approved a General Plan Amendment (21-0497-GPA1) from: R (Rural Density Residential) to: PF (Public Facilities) at 7418 Constantinople Avenue.
