

2. The estimated economic effect of the rule on businesses, including, without limitation, both adverse and beneficial effects, and both direct and indirect effects:

Adverse effects:

To the extent fees will be increased under the proposal, those subject to the increases will pay the additional amounts accordingly.

Beneficial effects:

Updated fee structure to be consistent with current conditions.

Direct effects:

See adverse and beneficial effects above.

Indirect effects:

None identified.

3. The following constitutes a description of the methods the local government considered to reduce the impact of the rule on businesses and a statement regarding whether any, and if so which, of these methods were used:

Not applicable.

4. The estimate of the annual cost to the local government for enforcement of the rule is:

No additional cost.

5. If the rule provides for a new fee or increases an existing fee, the total annual amount expected to be collected is:

Approximately \$10,500.

6. If the rule provides for a new fee or increases an existing fee, the money generated by the new fee or increase in existing fee will be used by the local government to:

Help fund administration, permitting and inspection related to private development work that requires offsite construction permits.

7. If the rule includes provisions that duplicate or are more stringent than federal, state or local standards regulating the same activity, the following explains why such duplicative or more stringent provisions are necessary:

Not applicable.

8. The reasons for the conclusions regarding the impact of the rule on businesses:

It is believed that the proposed fee increases are reasonable and will have a minimal effect on businesses.

CERTIFICATION

I certify that, to the best of my knowledge or belief, the information contained in this business impact statement was prepared properly and is accurate.
