# Mosquitos

With rising numbers of mosquitos in Nevada, here are some helpful tips from Vivek Raman

- Clean and avoid having small water sources.
- Andes Aegypti can't fly long distances so they primarily multiply in backyards.
- Making sure toys and other object left outside during rainy seasons can prevent the breeding of this particular mosquito.

# Happy Mothers Day

Sunday, May 12<sup>th</sup>

Mother's Day is a global celebration that takes place every year to honor mothers for their love, sacrifices, and nurturing. It is celebrated worldwide on various dates. Mother's Day in 2024 is a special occasion, just like every year. It is an opportunity for us to reflect on the unique bond we share with our moms that transcends borders and cultures. Every culture has its way of celebrating Mother's Day, but the essence remains the same - to show our mothers how much we love and appreciate them. In some places, it is a day to pamper moms while in others, it is a day for family gatherings and special meals. Regardless of the traditions, the sentiment behind Mother's Day is universal. It is a day to express our gratitude for all that our mothers do for us.
