**Oppose this project:**

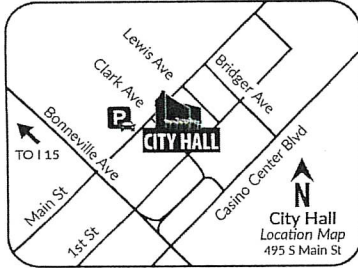

It's bad enough that a lot of our natural animals are being misplaced because of the housing development, but to add this "Massive" building in our local community is an insult to the Las Vegas taxpayers. The Lone Mountain section is a quiet, local community with families that located here for that reason. To add this "Casino Sized Building" would take away the natural effects of our community, let along create traffic congestion, sound and light pollution to an otherwise tranquil setting.

With all the open land that is available in Las Vegas, I am sure that there is a better location that can be chosen to build this temple.

**I "WHOLEHEARTLEY OPPOSE" the project and all related applications.**

Additionally, the continuous lights  
from the temple will obscure the  
night sky, causing it to be lost!!  
The residents cherish this area for  
its seclusion. This area is a  
rural preservation - that is why we live  
here!

I oppose this due to the traffic  
in the middle of our neighborhood.  
I have kids that will  
no longer be able to  
play in the front  
Yard with this many cars  
on our street. Also the  
lighting will eliminate our  
dark skies in this  
area.

With regards to the application being heard tonight for the LDS Lone Mtn Temple Project. **Project Number:** 24-0152 and **Project Number:** 24-0072.

I am outraged homeowner on an adjacent cul-de-sac and will be in the shadows of this massively inappropriate Obstruction (FAA term for this type of structure) towering my home, lifestyle, yard, safety, and every reason I live here.

RECEIVED  
MAY 14 2024  
Dept of Planning  
City of Las Vegas

The current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple. Hundreds and hundreds of homeowners in the immediate are completely outraged by this project and before comments can be made on this application we have repeatedly asked Councilwoman Palanske for an explanation of Bill No. 2024-8 with regards to who wrote, who else sponsored it, why public notice not given and the OBVIOUS very specific intentions on this bill being 100% written for the LDS Temple Project when it was amended just prior to the applicant presenting their plan. Were other city council members made aware of the specific intentions and changes to Bill No.2024-8 to alter language and rules to accommodate the application immediately following this bill being approved not more then 2-weeks later? If so, why was the public not made aware of Councilwoman Palanske's specific intentions on the way this bill was designed for a one specific applicant? Public demands an explanation from her and how she can go on guided tour of the temple in St George, Utah with the applicant's attorneys and LDS Church members, yet can't come speak and answer questions to us resident's in her own ward who are most impacted? The so called public forum on Tuesday May 7<sup>th</sup> was a complete joke. Impartial is laughable, no commenting, no questions, no way to ask anything and why my questions were not addressed... Describing this as a town hall open forum was cleaver way to mute the outrage. None of my sent questions ahead of the meeting were addressed and simply being presented with a one-sided power point with cherry picked answers to support the project is outright embarrassing to call myself a Las Vegas. The City should be ashamed of this. Each layer of this project that gets revealed is more rotten then the last and creates more outrage and questions to be answered then anything. On the back of City losing \$48M lawsuit on the Badlands deal for being on the wrong side of the law is starting to look very similar. All applicable law is on the side of the opposition for this application and should be simply denied.

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet
- Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone mtn and negatively impact all those who visit it
- Excessive lighting/wall wash all night in an essentially dark sky area – this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle
- Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
- Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller then more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriately for all that call this place home

Hem 39  
P

- Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community
  - L-864 MUCH brighter than L-810
- Early and late operating hours, 7 days a week is unacceptable
- Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural areas that see horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.
- Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here. Horse owners frequent these roads to and from the specific design of the Lone Mtn Equestrian Park, why would any horse owner be happy with no longer being able to safely ride to and from the park designed for the? Consider all NRS statutes for compatibility to surrounding neighborhood applicable laws. This is in clear violation of all of our property rights.
- 514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.
- Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate
- Street Lights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.
- Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.
- Why haven't line of sights exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits
- Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA  
[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo)
  - where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered. What gives the applicant the right to take away our sunlight? We will forever be stuck in the this Obstruction's shadows they cast.
- CV zoning is for public use and this Temple project is one of most exclusive paid memberships (appointments) one can get in the country. How is this Public in any form when they strictly prohibit members of the LGBT community to the membership? Many minorities and LGBT are outraged at this attempt to call it a Public Facility/Civic Zoning, when in fact it is more of a trigger that has caused personal trauma to them and steady reminder of who unwelcomed they are.
- Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?
- Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?

RECEIVED  
MAY 14 2024  
Dept of Planning  
City of Las Vegas

- No doctrine in the LDS church says they need a steeple, of any certain height or lighting either. Cases across the country will demonstrate this on built temples meeting zoning rules, laws, and compatibility to local surrounding residents.
- Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) – this will ruin quiet enjoyment of property rights of the locals there.
- Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed? Sellers will have to disclose the negative impact on the mandatory Sellers Real Property Disclosure Form when selling eliminating some 90+% of would-be buyers not wanting to live under the obstruction shadow with all night lights and obstruction lights blinking all night.
- Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?
- NRS: CHAPTER 278 - PLANNING AND ZONING (state.nv.us) <https://www.leg.state.nv.us/nrs/nrs-278.html#NRS278Sec250>
- Document Viewer | Unified Development Ordinance ([encodeplus.com](https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087)) <https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE my and my neighbors' livelihood, neighborhood, dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no shadow study, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

RE: GPA1 24-0072, ZON1 24-0072 and SDR1 24-0152

May 13, 2024

Dear Commissioner Schlottman,

This application for a proposed new LDS temple at the base of Lone Mountain has stirred much consternation on both sides of the aisle.

As the voice of many property owners within the rural area of Lone Mountain, the Northwest Rural Preservation Association stands in Opposition to the proposal as was presented on February 28, 2024 at the Alexander LDS meeting house.

Lone Mountain area is unique in character, and it is worth preserving. The origination of the first Lone Mountain Interlocal Agreement had at its core three elements: 1) guide and protect the area from urbanizing growth, 2) require municipal services to be offered without undue or excessive fees, namely sewer and water connection if desired, and 3) promote the orderly design of transportation, parks, and a trail system for the rural area. These same elements are within the current Agreement today. The Agreement's intent is to guide orderly Residential growth.

Within these guiding principles, both Clark County and City of Las Vegas have maintained cooperative and comprehensive Master Plans to correctly guide Residential growth. The placement of commas is purposeful, declarative, and defining. The restriction to not accept any General Plan Amendment that would modify any comprehensive master plan is intentional.

The Lone Mountain Interlocal Agreement is "silent" with respect to churches because there has always been awareness that churches are good for a neighborhood, but it was never envisioned that a supersized church or supersized quasi-public facility would be introduced into the heart of the Lone Mountain Interlocal area. The Interlocal Agreement, local ordinances, and Nevada Revised Statutes guard from overwhelmingly intrusive and unreasonable proposals.

However, much to our surprise, the revised City of Las Vegas C-V district ordinance conveniently eliminated the protections for any Residential neighborhood with respect to height limitations of 35'. It was proclaimed in November 2023 at the Planning Commission meeting as intended for parks, schools and libraries.

This Association is in objection to the GPA, as it should not have been accepted at all.

This Association is in objection to the ZON request to rezone this land from Residential to Public Facility and then to Civic for the sole purpose to evade the limitations of height, bulk, adjacency, and neighborhood compatibility.

This Association is in objection to the SDR as the proposal is too massive, excessively tall, establishes essentially a Commercial or Industrial size parking area, introduces preposterous lighting, and disturbs the balance and harmony of this established rural neighborhood.

Let it be stated clearly, this Association is not against this church nor seeks to restrict its ability to practice their belief. This Association is in opposition to the proposal of this magnitude and the flagrant disregard of the residents it wishes to consider as neighbors.

Please DENY these applications as proposed and request the applicant to begin actual dialogue with the neighborhood toward a mutual building design that is truly harmonious and complimentary.

<b>Comments</b>	<p>The proposed new Temple does not fit in our rural neighborhood. I would be very upset if I owned a multi million dollar home or just had a smaller place but lived there for the rural lifestyle. I've been hiking at Lone Mountain daily for 24 years and would not like to see it in the area even tho I'm LDS. Why should 3000 people affect the neighborhood of many, many thousands.</p>

<b>Comments</b>	LDS members should stop being Hippocrates. LDS articles of faith #12: "We believe in being subject to kings, presidents, rulers, and magistrates, in obeying, honoring, and sustaining the law." That includes local zoning laws. If they want the temple there, they can build it according to the zoning laws already in place. They should not ruin the neighborhood for their own selfish clout.

Comments	<p>EXISTING zoning laws, building codes, and ordinances were established to protect homeowners in the Lone Mountain Rural Preservation Neighborhood. Based on these EXISTING rules, I have invested my life savings into my forever home. I expect elected officials and public servants to remain accountable to their constituents, recognize and refute unfair and unethical influence, and PROTECT homeowners from aggressive, untoward developers, including the LDS church.</p> <p>It is shocking and offensive that we are having to defend ourselves against the LDS church. An entity worth \$265 billion chooses to purchase "Undeveloped Rural Residential" zoned land and then takes questionable measures to change the definition of Civic zoning, secure a GPA, and change the residential zoning to suit its own needs. All the while painting the residents who are simply attempting to preserve their neighborhood as "adversaries" and religious bigots.</p> <p>All we are asking is for developers, including the LDS church, to adhere to EXISTING zoning laws, building codes, and ordinances that PROTECT homeowners who have lived here for decades.</p> <p>Just because a monolith, including the LDS church, has more money, more power, more influence, and more members to show their support does not make this GPA and zone change right.</p>

<b>Comments</b>	The scope and size of this project doesn't fit in our rural community. The height, the light pollution , the number of parking spaces, and the amount of traffic this project will bring to our community is not compatible with our neighborhood.

Comments	<p>I am writing this to oppose this site for the LDS temple, stake house, pavilion and storage facility. This huge temple does not belong in a rural area that prides itself on the fact that we can still see the stars at night. An area that horses walk the trail around Lone Mountain. Myself and others who chose to live in this area were attracted to the fact that the streets were minimally developed, that the traffic was low and that the neighborhood still kept a rural feel the this city that never sleeps. Please don't allow this enormous structure to impact this protected pocket of Las Vegas for a few cars holding members. An LDS temple is Not a place for all to worship. It is a place that only people of that faith who have temple recommends can attend. There is already one temple 30 minutes away. It isn't over flowing with people attending. There simply is no reason for this structure to be built, especially in this location. Vegas has bright lights and tall structures all over the valley. Please protect this Lone Mountain area for ALL the residents of the area instead of destroying what makes it special so that a few can have a huge new temple. There is already a temple in Las Vegas as well as a church house a half a mile away from this proposed temple and stake center. Please protect this neighborhood and Lone Mountain for the horses and rabbits and humans who like to have an area that isn't lit up all night as this LDS temple will be. Please protect the dark skies in this pocket of Vegas. Oppose the approval of this project. Thank you!</p>

Comments	This is in direct violation of the Inter Local Agreement, which is a binding contract, with legal standing. It also fly's in the face of the Master Plan 2050, which keeps the RNP rural. 5 other city owned properties have been identified, that are within a 5 mile radius, that have all of the requirements the LDS church wants, commercially zoned, and would not disturb the Rural RNP. A land swap could easily be done, and all parties would be happy.

Comments	<p>I am opposed to this project as it does not fit the existing zoning rules/codes they knew were in place before and when they purchased the land. This area is entirely residential, and the current proposal does not meet the size &amp; scope for a rural area. If the applicant re-submits to build a structure more suitable to the area, following the existing rules, I would have no issue.</p> <p>Please do not allow the applicant to undue decades of rules/codes for their building that serves only a select few of the community.</p>

Comments	<p>My husband and I are very concerned about the impact the proposed zoning change will have to our neighborhood, our enjoyment of our home, our general enjoyment of the rural area that was supposed to be protected by the Interlocal Agreement and zoning plan. In our opinion, the size of the structure, lighting, noise and traffic will be a nuisance that will greatly impact our daily life and our enjoyment of our home and neighborhood. When we were shopping for our home in 2016, we had a reasonable expectation that the proposed structure could not be built in this neighborhood and we chose to purchase our home with this expectation in mind. We now have anxiety that this structure is going to impact our day to day lives to such an extent that it will cause us to relocate, and we worry about the negative impact to our property value. As a few examples of our concerns; we greatly enjoy the unobstructed view of the Las Vegas Strip from our home and the structure will cut right in front of that view. We enjoy the dark at night that lets us sleep without window shades so the sunlight can wake us naturally, and we fear the lighting of the structure will cause us to have to pull down our window shades every night. It is very frustrating that we chose to buy property in a place that we were willing to live within the boundaries of the existing laws and zoning, and this organization has chosen to buy land with the explicit purpose of changing the existing laws and zoning.</p>

Comments	<p>I oppose the construction of a 216-foot-tall structure in this neighborhood. Its height is extraordinarily out of place because all surrounding parcels (to its west, north and east) are restricted to a maximum height of 35 feet. In addition, its brightly lit illumination program will negatively transform the nighttime aspect of an area known for its limited street lighting and dark skies. It is an outrageous departure from the existing General Plan, and the Interlocal Agreement specifically bars changes to this plan through at least December of 2026. Discouragingly, the developer has demonstrated disregard for the surrounding neighbors' desire to preserve the low-profile character of the area and has indicated the extreme building height is a non-negotiable facet of the project. If that is indeed the case, the developer should be compelled to choose a location that is already zoned appropriately. Unfortunately, evidence observable not just here but in other U.S. communities indicates this developer's playbook is to choose controversial locations, thereby ensuring a battle for itself whose outcomes can be attributed to the aid and favor of a supernatural power. Sadly, what is actually afoot seems to be a very earthly, human campaign of influence-peddling and bullying.</p>

## Comments

I am very opposed to the LDS Temple at this location. This gargantuan structure would not only overshadow our skyline but also overshadow the values of our community. Here's why this must be opposed:

1. Disruption of skyline harmony: our neighborhood's skyline is a testament to our history and identity. Adding a colossal temple that dwarfs its neighbors would disrupt the balance and harmony that define our community.
  2. Aesthetics: Aesthetically, such a towering structure would be an eyesore. It would dominate the views from every angle, overshadowing the beauty of the surrounding natural landscape. Many of the existing residents have invested millions of dollars to be able to enjoy these views, which would be destroyed by a 216-foot tall structure (habitable and inhabitable building space counts) and forever remove the existing peace and tranquility we enjoy.
  3. Cultural insensitivity: While we respect religious diversity, constructing a temple of such immense size disregards the surrounding community's sensibilities. It sends a message of dominance rather than harmony. This entire process has demonstrated how this group will bully a community, disregard the existing resident's desires, do everything within their abilities to overpower and take over. Residents around existing temples complain of traffic, endless events, constant noise from landscaping activities, light pollution, and a disregard for others.
  4. Impact on property values: there is no documented proof of any benefit to property values and many real estate experts have noted that property values in the vicinity would likely decline as a result of this towering presence, especially when there is such disregard for non-members in the community.
  5. Environmental concerns: the environmental impact of a building of this scale cannot be ignored. From increased energy and water consumption to potential disruption of the local ecosystems, flooding issues, shadows, nighttime light pollution, increased ground heat from a 500+ parking lot, etc. will have a cost to our environment that is too high and does not benefit the public community.
  6. Quasi-public: there are no public benefits to allowing a special interest group to have such dramatic allowances. This sets a terrible precedent, clearly favoring one party over others, and paves the path for future groups to take advantage of the loop-holes attempting to be created.
- No special privileges. Just like this process has demonstrated, the Lone Mountain Temple will pack our quiet neighborhood forever destroying the peace and tranquility for the existing residents.
-

Comments	<p>I oppose the temple its too tall and it will be lit 24 hours a day. Plenty of other places this temple can be built. Native Las Vegan and I'm tired of the LDS getting to do whatever they want. There is an interlocal agreement with the city regarding the rural preservation. We moved here for a reason.</p> <p>If we wanted bright lights and a building 216 ft tall we would live on the strip. Come on politicians do the right thing for the people in this preservation not the LDS church who bribes everyone</p>

<b>Comments</b>	This is not a public faciity because it can only be accessed by a small number of members of the church. It will be to the detriment of the residential community where homeowners are accustomed to not having streetlights and not having lots of traffic. It should be built in a more suitable location.

Comments	<p>This temple needs to go on a property already zoned for commercial use. Property currently zoned as residential property, and clearly sits among private homes and residents, is inappropriate for this large structure, especially when the business operates 24/7. The current property doesn't have the infrastructure to support its purpose and the property should not be considered for use considering this could be and will be, a growing business. The disruption to the surrounding homes, residents and communities is too severe.</p>

<b>Comments</b>	This building will not only be obnoxiously high for a residential area but will also be a serious detriment to our beautiful night skies. Having seen how bright the LDS temple is in SLC, I strongly oppose anything even remotely like that in our natural desert environment.

## Comments

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet.

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas

Excessive lighting/wall wash all night in an essentially dark sky area

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M:

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot. Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot.

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot

514 proposed parking spaces

Bright parking lot lighting

Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties

Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events.

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc)

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN!!

NRS: CHAPTER 278 - PLANNING AND ZONING ([state.nv.us](http://state.nv.us))

Comments	<p>This planned proposal will effect the area and the surrounding neighborhood including the park at Lone Mountain that is used by the entire community. The light pollution alone will negatively impact the park and the ability for the community to enjoy the area. This is a residential and park area and the size, scope and lights will be a negative for the entire community. I strongly urge the council to not change the zoning to accommodate this project and urge the council to vote no and protect the lone mt recreational area and neighborhood.</p>

<b>Comments</b>	<p>I am vehemently opposed to this zone change, and any related matters asking to approve in any way this massive temple project. I built my home in 1992 and have been an active member of preserving the rural nature of this area. This project is detrimental to our quiet neighborhood, and I feel the proposed project would negatively affect our wildlife, our night skies, our streets, our water tables (wells), potential for worsening flooding, excessive traffic, and totally destroy the idea of the Northwest Rural Preservation Area. Please vote NO to this project and keep the designation of 1/2 acre plus residential for this property. There are plenty of areas that are currently zoned for this type of project.</p>

Comments	<p>I am writing to inform you of my opposition to the LDS temple and meetinghouse proposed to be constructed at the southeast corner of Hickam Avenue and Grand Canyon Drive (APNs 138-06-801-010 and 018).</p> <p>The proposed temple and meetinghouse are inconsistent with the surrounding area and will materially alter the community. The size and scale of the project far eclipses any man-made structure in the area. Although classified as civic, the project is more aligned with major commercial projects in terms of geographical footprint and intended use. There are other areas of the Las Vegas Valley that are more appropriate for such a development such as areas adjacent to freeways and other commercial-centric areas. The LDS church already maintains a place of worship down the street at 8801 W. Alexander Rd. and that building is nowhere near the size and scope proposed here. I urge you to reject the proposed temple and meetinghouse. To the extent there is an approval, it should be limited to similar size and height of other civic projects in the area like the LDS church at 8801 W. Alexander Rd. or the Lutheran church at 9550 W. Cheyenne.</p>

<b>Comments</b>	I do not want this structure in my rural neighborhood for the disruption to the landscape, increased traffic, and pushy door to door members. It upsets me that a church thinks it can bully the neighbors and residences with people who don't even live in the vicinity.

Comments	This giant eyesore of a building is not wanted and wholly inappropriate for our rural preservation area. Building this temple would violate the spirit of the agreements made long ago and would go against the wishes of a substantial majority of the residents who live here.

Comments	<p>This OPPOSTION is in regards to the crucial duty to protect the Rural Preservation rules that have been in effect for the Northwest Las Vegas area for many years. As a long time resident of this area, I have seen the benefit of the protection against this type of development several times. There is no reason to allow such a massively large structure to be granted approval in this residential area - especially when there are other sites outside the Rural Preservation that should be considered. Desire and convenience for those seeking this approval should in no way override the existence and protection of the Rural Preservation rules. As decision makers / government officials, it is your duty to support the long standing Rural Preservation rules and support the dedicated residents who live within the boundaries for many reasons but especially what the Rural Preservation has resulted in which is what is was intended to do. PROTECT THE AREA FROM THIS TYPE OF MISPLACED development. DO THE RIGHT THING. STAND UP FOR THOSE WHO LIVE AND LOVE THIS AREA.</p>

<b>Comments</b>	<p>I am opposed to the building of this large temple in its current location.</p> <p>The fact is that this structure is uncharacteristic and out of place for the neighborhood. There are no other large buildings within close proximity that have the same massive footprint.</p> <p>The proposed LDS temple is several times larger than the current temple. The current Las Vegas LDS temple is 137 feet tall on 10 screws and the new temple will be 216 feet tall on 19 acres.</p> <p>It is negligent to ignore and minimize the fact that a structure this size will alter the existing neighborhood, how it functions, how it has been preserved, and disrupt the rural lifestyle of this area.</p>

<b>Comments</b>	<p>This project should be rejected outright. The location is too close to Lone Mountain park and Red Rock Canyon National Conservation Area. The traffic and 24-hour a day lighting is a disturbance to the quality of living for people and wildlife. This is an infringement to the right to a peaceful and normal neighborhood . It ruins the ambiance of a natural setting. This should be at least 3-4 miles away from Line Mountain and Red Rock Area.</p>

## Comments

Large scale construction, urban planning, community enrichment and education, investment & accounting, all underscore both the main topics relevant to the conversation, and also my education and occupational history.

In today's day and age, we need to be concise about what endeavors we seek.

The impact, both environmental and socially.

The institution erecting this structure is not one that provides benefit to the community.

The organization & building itself is built on exclusion.

Generally, when private property at this scale is built, it is utilized to generate revenue then taxes are paid to the community.

This type of revenue generation can be seen by "The Sphere" through ticket sales, or "Red Rock Park" through a fee at the entrance; this structure will not do anything of the sort.

The generation of revenue is in a business model that provides jobs, but also pays taxes.

This structure will generate short term financial capital that will be funded by the institution - that will more than likely be distributed to members of the institution.

There is no positive impact financially on the community after that due to the organization not being taxed & the lack of function for the community at large ( < 5-10%).

The land use, as time continues, could provide housing for the burgeoning valley, a power plant to support the community, a renewable site to support our futures; the material use could provide housing, infrastructure, a local community structure that supports the spotlighting of events & community driven activities such as an entertainment pavilion, hiking routes and walking paths, a recreational center, possibly a small stadium for major local high school events such as championship & playoff sports & concerts.

Saying what it could be is always an ephemeral topic - because it could be anything, but as time continues this scope narrows and importance of usage increases.

From an investment perspective, the rate that land cost has gone up makes the land quite valuable, without an end in sight to the increase in real estate...the landowners and BLM holding the land would be a positive gain financially. When we lessen the assets, we hurt our future capacity to sustain itself financially. When the gold backed dollar was removed, it was for unsustainable short-term gain. '

When this project takes off and reduces the available labor and material sourcing throughout the valley, it hurts the capacity for other projects to start - projects that would provide a benefit to the community and Las Vegas Valley as a whole.

Any other project of this scale, \$1b+, would pay taxes & would provide a benefit to the community.

Instead this structure will increase the cost of work due to supply & demand - and would mean that our community is building a meaningless structure that does not help anyone - all whilst there are other fantastic city supporting opportunities that will not be able to receive the attention they deserve.

A place of worship is a sacred place, absolutely, if you close your eyes, you can experience the sacredness of your own worship - a structure like this does not increase the sacredness or spirituality of anything - to be so superficial and shallow as to conclude that this is necessary to achieve connection is a distraction from doing the lords work.

Size does not predicate strength, performance of function, or in this case, deliverance of service.

Hypothetically, a structure that has a great deal of seating would be a place the community could go, this is built with exclusion at the forefront of thought.

It'd be more acceptable if it was a 3-5 story building, with tiered seating that could house more members so their message can be delivered to more of their members - instead of building tall as to compensate for the lack of effect of the message.

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet
- Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone mtn and negatively impact all those who visit it
- Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle
- Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
- Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriate for all that call this place home
  - o Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot?
  - o Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot?
  - o BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE?
  - o L-864 MUCH brighter than L-810?
- Early and late operating hours, 7 days a week is unacceptable
- Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area? Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural area that sees horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.
- Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.
- 514 proposed parking spaces why so many?
- Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate
- Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.
- Why hasn't an environmental study impact been done?
- Why have line of sites exhibits from any and all neighbors been done from the applicant to show how this massive structure will permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the

skyline? Residents demand these exhibits?

- Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties? Has a flood mitigation study analysis been done?
- Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events?
- Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc)?
- Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values? When can we expect to see this report?
- Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?
- NRS: CHAPTER 278 - PLANNING AND ZONING (state.nv.us)

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of Lone Mtn and negatively impact all those who visit it

Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriate for all that call this place home

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot. Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week is unacceptable

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural area that sees horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.

514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.

Bright parking lot lighting in a rural dark neighborhood that does not allow street lights is highly inappropriate

Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.

Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

Why haven't line of sights exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?

NRS: CHAPTER 278 - PLANNING AND ZONING (state.nv.us)

<https://www.leg.state.nv.us/nrs/nrs-278.html#NRS278Sec250>

Document Viewer | Unified Development Ordinance (encodeplus.com)

<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood, dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no

line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

<b>Comments</b>	<p>Once being a homeowner in this quite rural community I highly oppose this building of a Mormon Temple. The Mormons already have a Temple. Considering the Mormons account for only 6% of the population why do they need another. To disrupt the quiet rural community of the NW with its size not to mention lights to be on 24/7 does not fall within the zoning of this area. While the Mormons want to play their religious discrimination claims I would be opposed to anything that did not conform to zoning whether it be a temple a Walmart or the like.</p>

<b>Comments</b>	Should not be in a neighborhood. Too much light and traffic. I would not want it in my neighborhood either. We are having too much building without infrastructure in my neighborhood so I get it. We are ruining the night sky with all the lighting. Some of us moved out here in 60's 70's and myself 85 to have a rural lifestyle. Rural preservation should stay that way!!!!

## Comments

Please find below all the reasons below why the current temple project

24-0072, #24-0152 and 24-0152-SDR1 LDS

Temple application should be DENIED.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet
- Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone min and negatively impact all those who visit it
- Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle
- Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
- Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular

70/7460-1M: the 216' height is taller then more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriately for all that call this place home

- Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot • Structures exceeding 150 feet (45.72 m) AGL.

At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

- BOTH OF THESE LIGHTS FLASH 30

FLASHES PER MINUTE is outrageous for dark sky community

- L-864 MUCH brighter than L-810
- Early and late operating hours, 7 days a week is unacceptable
- Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed?

These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural area that sees horse crossings!

Adding 2000 vehicles per day to the tune of 514 parking spaces in absurd.

- Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.
- 514 proposed parking spaces why so many, this is larger then most strip malls, stadiums and several casinos in town.
- Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate
- Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.
- Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

- Why haven't line of sights exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits
- Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?
- Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?
- Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

- Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STANDALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered? NRS: CHAPTER 278- PLANNING AND ZONING (state.nv.us).

<b>Comments</b>	As someone born and raised here in Las Vegas, it makes me extremely sad and angry to see how much of our already very limited access to nature, is being destroyed and built on. Not to mention how the hundreds of church members that will be visiting this project (church) and disturbing the peace of the surrounding neighborhoods. I'm sure there are PLENTY of options for the project to relocate to that won't be so damaging to our surroundings and neighbors.

<b>Comments</b>	This is not what the community wants. A project like this is an abuse of power and money which the church has plenty of. This is a project of greed and absolutely wants what it wants, will not listen to opposing views.

Comments	<p>I oppose this project due to the clear fact that it's in violation of the neighborhood's interlocal agreement to preserve the rural land. I was a member of the LDS church for nearly 40 years. I attended the LDS temple in East Las Vegas on a regular basis. The members already have a beautiful temple within less than an hour's drive from their homes. They are blessed. There is no need to build a second temple in Southern Nevada. But if the church really wants to offload some of its billions of dollars in order to keep its tax exempt status (which is the real purpose of building all these new temples), it can find a much better location for any new buildings. Unfortunately, the church does not seem to care about the neighbors who have worked so hard to preserve their rural neighborhood. The church has aggressively promoted a false and biased narrative regarding the zoning laws and the necessity of building in the Lone Mountain area. As a former member of the church, I can attest that this is very typical behavior for the leadership and legal teams of The Church of Jesus Christ of Later-day Saints. The manipulation of the members of the church and the laws of the land is a major reason that I no longer attend church or call myself an active member. Make no mistake, the church's legal team which has been assigned to this project has engaged in manipulative behavior including contributing thousands of dollars to the campaigns of several city council members. I oppose this project and stand with the residents of Lone Mountain who have a right to be heard and who are the actual constituents of the city council elected officials.</p>

<b>Comments</b>	<p>This project should be rejected outright. The location is too close to Lone Mountain park and Red Rock Canyon National Conservation Area. The traffic and 24-hour a day lighting is a disturbance to the quality of living for people and wildlife. This is an infringement to the right to a peaceful and normal neighborhood . It ruins the ambiance of a natural setting. This should be at least 3-4 miles away from Line Mountain and Red Rock Area.</p>

## Comments

I OPPOSE Site Development Review 24-0152-SDR1 (May 14, 2024 Las Vegas Planning Commission Agenda Item #39) for the following reasons:

1. The Staff reports that 198 parking spots are required but the applicant is providing 514 spots. It seems evident that there will be significantly more vehicles than the City's Traffic Analysis predicts. Also, as currently reported in the analysis, this project will generate an additional 119 weekday and 166 Sunday peak hour trips. Even this minimum estimate is a substantial increase to current patterns and will be particularly intrusive in a rural zoned area that typically has just a few vehicles each day. Based on the extra parking spots provided by the applicant, it is very possible that the estimated hourly trips may more than double. Any extra traffic exacerbates the impact and safety concerns in this rural area, particularly with the shared road use of equestrians and vehicles.

2. The Statement of the Department of Justice (DOJ) on the Land Use Provisions of the Religious Land Use and Institutionalized Persons Act (RLUIPA) Q&A (6/3/18 [www.justice.gov/crt/page/file/1071246/dl](http://www.justice.gov/crt/page/file/1071246/dl)) states, "RLUIPA is not a blanket exemption from zoning laws. As a general matter, religious institutions must apply for the same permits, follow the same requirements, and go through the same land use processes as other land users." In accordance with this statement, the Planning Commission should deny this project since it does not comply with the parcel's current Las Vegas zoning for the U(Undeveloped) or any "R" prefixed zoning districts. 19.12.070 expressly states that Churches on sites larger than 5 acres shall not be permitted in these areas.

Additionally, the Clark County/Las Vegas Interlocal Agreement (2016) does not permit rezoning of this parcel since it is in Planning Area A2. In the absence of specific code references to "Church," religious organizations are subject to the same codes as other land users, as clarified by the DOJ's statement above. The City should not be compelled to rezone or provide special considerations in order to accommodate a religious organization unless the exception is explicitly codified. Since the Interlocal Agreement does not explicitly exempt churches, they should be considered just as any other land user would.

3. There is clear intent in both the Code and Interlocal Agreement to maintain this parcel as low density and intensity and the City is therefore legally obligated to interpret and enact them as such. The City's 2020 "Land Use and Rural Neighborhoods Preservation Element" details the City's commitment to preserve the character and density of rural neighborhoods. Also, Las Vegas is bound by state and local ordinances to provide an orderly and efficient transition of land uses as well as to promote the general health, safety and welfare of its citizens. I do not believe that increasing the use intensity with this project supports these commitments and ordinances in this rural neighborhood.

## Comments

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of Lone Mtn and negatively impact all those who visit it

Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriate for all that call this place home

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week is unacceptable

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural area that sees horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.

514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.

Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate

Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.

Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently

destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single convert causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?

NRS: CHAPTER 278 - PLANNING AND ZONING (state.nv.us)

Comments	I oppose this project in every way. This kind of structure should be built on the very outer edge of the city... not smack dab in the middle of pre-existing homes that chose their homesite for the peace and quiet (and ability to see fireworks and ride horses on the roads!) NO! NO! NO!

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone mtn and negatively impact all those who visit it

Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriately for all that call this place home

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot. Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week is unacceptable

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural areas that see horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.

514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.

Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate

Street Lights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.

Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA

[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo) where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered.

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment of property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?

NRS: CHAPTER 278 - PLANNING AND ZONING ([state.nv.us](http://state.nv.us))

<https://www.leg.state.nv.us/nrs/nrs-278.html#NRS278Sec250>

Document Viewer | Unified Development Ordinance ([encodeplus.com](http://encodeplus.com))  
<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood,

dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA

[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo) where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered.

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment of property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?

NRS: CHAPTER 278 - PLANNING AND ZONING ([state.nv.us](http://state.nv.us))

<https://www.leg.state.nv.us/nrs/nrs-278.html#NRS278Sec250>

Document Viewer | Unified Development Ordinance ([encodeplus.com](http://encodeplus.com))  
<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood,

dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

<b>Comments</b>	<p>I OPPOSE this project. This temple does not belong in a residential neighborhood, especially since this is a designated rural preservation area. The extreme height violates the rules and the extreme lighting will illuminate the sky and surrounding areas, where it has always been dark. This temple will destroy our peace and quiet, our dark skies, and disrupt our animals and riding our horse due to the increased traffic and noise that will be created.</p> <p>The temple is not open to the general public, so it does not benefit the majority of the residents that it will affect. the 24 hours obnoxious lighting from the temple , the parking lot and the needed street lights will hinder our privacy., these lights will be shining in our backyards. It will not increase our property values as the LDS claim, which we do not care about increased values.</p> <p>They could have purchased land and built their temple in a more appropriate area where it is allowed. They have zero respect for any of us living in this neighborhood who will be affected by it.</p> <p>We all purchased this land and have lived here for several decades because of the rural preservation. To allow them to build and violate the rules when they have other options is disgusting and disrespectful.</p>

Comments	We moved to the NW Rural Preservation for the peace and quiet lifestyle, as rural as possible in the city environment. A large building like this that is a regional facility will by definition bring in large volumes of people and traffic to the area. This does not benefit the local community like a school would. The sight and light pollution would be incredibly bad, like nothing else in the area. It is vastly incongruent with the spirit and rule of the rural preservation concept. There's no way any elected official should approve of this concept and expect to be elected again by this community.

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of Lone Mountain and negatively impact all those who visit it

Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriate for all that call this place home

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot. Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week is unacceptable

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural areas that see horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.

514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.

Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate

Street Lights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.

Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA

[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo) where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered.

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment of property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! Comments	<p>I am writing to oppose application #24-0152 as a concerned citizen; I oppose the proposed development. I have visited the site myself; I don't think this location is suitable for the proposed LDS temple due to the rural character of the area and the natural landmarks nearby (e.g. Lone Mountain). The excessive height of the structure is worrisome to local residents. The maximum usable space is 68 feet and the steeple rises to 216 feet, both of which exceed the 35 ft restriction. There are also privacy concerns for local homes; at 68 feet it's possible to view the backyards of local residents who reasonably expect privacy in those areas. Such a structure would also limit the pristine view both to and from Lone Mountain. My understanding is that the majority of local residents that attended the neighborhood meeting were also against the construction of the temple in this location. I am not against the construction of an LDS temple in general, but in this particular location I am fully against it for the aforementioned reasons.</p>

Comments	I also commented on the general zoning review. I grew up Mormon/latter day saints near Lone Mountain. This proposed temple and lot are ridiculous and violate the interlocal agreement, upsets the local residents, and will dominate the skyline in front of Lone Mountain. There is no religious or doctrinal reason for such a large or tall building. The spire should be reduced in size and the parking lot should be reduced to lower automobile traffic and parking. The church designed this plan, with no local help or input. I recommend opposing the current design and letting the church revise to a smaller height and smaller construction footprint. Give the church the opportunity to revise to better comply with the interlocal agreement, appease the upset locals, and not take over the skyline near a Las Vegas natural beauty. Thank you

## Comments

Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet

Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of Lone Mtn and negatively impact all those who visit it

Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle

Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away

Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriate for all that call this place home

Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot

BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community

L-864 MUCH brighter than L-810

Early and late operating hours, 7 days a week is unacceptable

Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural area that sees horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.

Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.

514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.

Bright parking lot lighting in a rural dark neighborhood that does not allow street lights is highly inappropriate

Streetlights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.

Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits

Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?

Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single convert causing massive damage. Why has a flood control study not been submitted?

Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment property rights of the locals there.

Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?

Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?

<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood, dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

Thank you  
Rhonda Osiecki-Gurr

<b>Comments</b>	We live off Grand Canyon less than a mile away from the proposed project . We own an acre in the area and love the neighborhood. It's quiet, slow paced and we live here because of the rural preservation. We believe that it violates the community rural preservation by light pollution, noise pollution, traffic congestion, construction noise and traffic, air pollution, damage to the environment and wildlife habitat, general aesthetics of the 150 foot tall structure, and it violates the lawfully binding Interlocal Agreement.

<b>Comments</b>	<p>I'm ashamed to admit that I participated in a similar initiative to put a steeple on a church in Tucson that was in direct violation to similar residential zoning laws. The church sent the rally cry to all its members to flood city council and stand in support. The truth is that the church has insanely deep pockets and will bully the little guy in cases like this every time. It's pathetic and wrong. Put the temple somewhere else where the zoning laws allow for it.</p>

## Comments

We write to voice our concerns and opposition to the proposed LDS temple project. As homeowners for approximately twenty years in the rural preservation area near Lone Mountain, we object for the following reasons:

- The sheer size of the proposed building is a significant concern. Standing at over 210 feet, it looms over all other structures in the area. Your presentation acknowledges that existing buildings are limited to 35 feet (two stories). The proposed temple has a usable space of 68 feet (three stories). The remaining approximately 150 feet, which serves no functional purpose other than decoration, starkly contrasts the area's architectural character. If this were a residential request, regardless of the alleged sightline issue, it would be deemed entirely out of character for the area and quickly rejected.
- The proposed 24-hour wall washing of the 216-foot structure is not only a significant concern, but also a direct violation of the interlocal agreement. Allowing such a high level of light pollution in this rural preservation area is shocking and unacceptable. This agreement was put in place to protect the area's rural preservation, which includes larger lot sizes, limited sidewalks, and no provision for street lighting. It's important to note that no other residence, commercial, or civic structure would be granted this accommodation.
- The changes to the zoning area in this interlocal agreement do not go unnoticed. The City Council apparently allowed for a zoning change specifically to accommodate this project. Changes in zoning allowed for this type of civic project. One that would not have been allowed under prior existing zoning laws. Now, this City feels it must acquiesce to this project or face claims of religious biases. Yet, the people who object to the Temple only object to the SCALE of the project, which is clearly excessive. To be CLEAR, we have no objection to the meeting house, or the church planned on the property. A project with multiple buildings, approximately two stories (35 feet), is allowed in the rural preservation.

This letter is NOT an objection to the Church of Latter-Day Saints. No matter what ecclesiastical denomination sought to build a structure of this size, with this amount of lighting and increased traffic, it would cause us to register our objection. Quite simply, this project does not belong to the Rural Preservation category, which, in its name, requires the government to preserve the character of this area.

Comments	We live in a quiet rural zoned community. Just 1 block east from the proposed Temple site. We moved to this location from Centennial Hills, another rural zoned area . We chose this for its beauty and quietness. The Temple will have the same presence as a commercial building but with 24/7 lighting. It will increase traffic significantly. This area was and is zoned NOT for this type of structure, and needs to remain that way.

Comments	<p>This area is designed/designated as residential and rural land. This is why we and our neighbors chose to move our families here. This project will completely change everything.</p> <p>We have owls and other local birds that live in our backyards, the 24 hour lit temple will effect their migration. For the above reasons and many more I strongly request that the council deny the request to pursue this project in this special area.</p>

Comments	This is a rural area. We have lived here for 42 years. This project will bring in increased traffic. Create light pollution to the area at night. It will cause increased emissions on the weekends with up to 500 vehicles in the area. We all moved out here with the understanding that everything had to have height and lighting requirements that would restrict this project. It will be disturbing the natural environment of the area.

Comments	Oppose the zoning change, as this was and has been designed as a purely residential rural neighborhood. Therefore, zoning should not be changed. Additionally, even the zoning changes is for for "continuation of public and quasi-public use". So there is nothing in a residential zoning that is public use, and a private temple isn't a "quasi-public" use, as the public isn't even allowed within the main building.

## Comments

I OPPOSE this Lone Mountain Temple project and any zoning change in favor of that!

Besides the massive height of this temple structure, the plans of the LDS church show 5,000 sq ft of grass - not to mention all the trees with the 500+ parking spaces! So where is our water conservation here? Or do they just get a pass on this initiative?

Parking spaces are shown to be nearly double of what is required! Why?

Our dark skies are being destroyed with light pollution by this 24/7 lit structure, and traffic increase will be substantial. Was an actual independent traffic study done, not paid for by the LDS? We have live stock and farm animals in the area! A horse park t Lone Mountain Park!

What will the impact be with large shadows being cast on the environment ? Any studies being done there?

People build their homes here 20+ years ago and invested their lives in a rural lifestyle! We don't want to walk out of our front door and stare up at a 216 ft structure!

None of this, starting on how this proposed bill of zoning change came about to the actual plans of this temple site, make any sense at all and do not fit into an established rural neighborhood!

The LDS own enough land, so they can easily put this large structure and the other 3 that come with it, anywhere else further North and NOT in the middle of a rural zoned , tight fitting area!

How can you not see this?!

I STRONGLY OPPOSE!

<b>Comments</b>	A project of this magnitude which will serve a limited number of persons, and located in a residential area should not be permitted. To place this building in front of Lone Mountain, a unique natural landmark, is a form of silent but "in your face" proselytizing which should not be acceptable to any government employee, elected official, or the general public. There are many options in the Las Vegas valley for this type of structure, but in front of a natural landmark, in a rural designated residential area should not be one of them. I oppose all aspects of this project.

## Comments

Dear City of Las Vegas Planning Commission:

As futile as I think commenting on this project is and aside from the fact I think the proposal is in direct violation of the interlocal agreement between the City and the County, it is obvious the City changed its own civic zoning code to allow for the project (no matter what Seth Floyd says, the timing is all the proof necessary) and the project itself flies in the face of the City's own zoning code intent standards, as the project does not compliment the surrounding neighborhoods or add anything of value to the area except significant non-residential traffic, unwanted and unnecessary light pollution and unsightly views competing with one of Las Vegas' geographic treasures, Lone Mountain. The way City staff have actively and willingly cleared a path to make this a reality (proposed changing the civic zoning code, ignoring all precedent, ignoring the concerns of area residents and willfully looking the other way on the interlocal agreement) concerns me. I can't help but feel as if this is a coordinated effort between the petitioner and the City's staff, with staff integrating the petitioner's own talking-points into their recommendation. I really didn't want to write this but the City's staff is gaslighting the area's residents, that was very apparent during the May 7th information meeting, most especially the inaccurate rendering (the steeple in reality is more than twice as tall as the main structure, the rendering had them about the same) and elevations of the site, in addition to none of the representations provided being from ground level with the mountain in the background. It was as if everyone will see the site 700 feet in the air rather than on the ground level day-after-day.

In any case, for the site proposal itself, these are but a few issues I have with what is being proposed:

1) Temple Height: There is no rationale for the height of the main building to be 216 feet. Simply, it is obnoxious. Of the 166 temples with their heights easily found (Wikipedia), the average temple height is 110.8 feet. The Las Vegas Temple is 137 feet. The Lone Mountain Temple would be the 7th tallest LDS Temple in the world and among the tallest religious structures in the United States, only 8 feet shorter than the LDS Temple in downtown Salt Lake City. Outside of Utah, the majority of the 170+ foot temples are found in city centers or outside residential areas. Of the 166 temples, 45 of them are 71 feet tall. The required height limit of all the surrounding properties is currently 35 feet. As it relates to this project the main structure will be 68 of the 216 feet of height. That means the steeple alone is 148 feet tall, 11 feet taller than that entire height of the Las Vegas Temple across town. Why? There is no LDS doctrine outlining temple height as essential to their means of worship and it is pretty clear that height was more incidental than necessary prior to the current slate of proposed temples. What is the justification for the height other than they have come to like tall buildings? It will significantly detract from the area's natural beauty, competing with Lone Mountain itself. The City is well within its rights under the Religious Land Use Act of 2000 to make modifications to the project which adhere to area and neighboring standards and should

do so if they approve the GPA and zoning change. The City of Fairview, Texas is fighting it, why can't you?

2) Temple Lighting: There is no reason to light the temple from dusk till dawn aside from the LDS' church's need to use it as a huge "look at what we can do" billboard. The prophet and LDS leaders in Salt Lake City specifically selected this location, not the local church-going membership. I think it is pretty clear this location was selected because it is among the darkest locations in Las Vegas with building and zoning restrictions which guarantees nothing will ever compete visually with the structure, an unapologetic display of power and influence. I find it obscene and obnoxious that the petitioner would select this location because they knowingly can take advantage of the hard-fought, well-earned surrounding properties' height, lighting and use restrictions and find it unacceptable. City staff have not questioned if it is appropriate of the neighborhood, they simply rubber-stamped "recommend" to the project.

3) Public Facility: Why is this project being considered a "public facility?" It is not widely known but LDS temples are anything but "public". Once consecrated/blessed/dedicated, the facility is closed to the public forever and only LDS members "in good standing" with a "temple recommend" are allowed to enter. According to the Church's own website, "A temple recommend permits Latter-day Saint to enter one of the faith's temples. An adult member of the Church receives two interviews to receive a temple recommend—once by a member of their local bishopric, then by a member of their stake presidency (a regional leader). This recommend is valid for two years." That means that no children are allowed in the temple (children seem to be a key selling-point among the faithful) except under very restrictive circumstances. In fact, the vast number of LDS members are not allowed to enter., forget about the "public". Even in the broadest of definitions, it is difficult to see how a LDS temple can be considered public or quasi-public.

4) Traffic: The projections that have been provided in the City's staff report seem VERY, VERY low and do not account for the "lookie-loo" factor such as a large, distinct, prominent building will create. That being said, it is pretty clear significantly more non-residential traffic, most of which coming from outside the immediate Lone Mountain residential area, will be brought into the community if this is approved and built. I see the meetinghouse is proposed to be located on the east side of the property, with Tee Pee being its primary ingress/egress street. Tee Pee is not master-planned and is slated to be a 60 foot street which terminates at Alexander. Grand Canyon, on the west side, is master planned, is slated to be 80 feet and has direct access to both Lone Mountain Road and Cheyenne Avenue (both have access to 215). It is safe to assume the meetinghouse will generate more overall traffic than the Temple. Knowing the limitations of the east side transportation infrastructure, why is the meetinghouse located on a smaller, non-masterplanned, "teed" road rather than on the west side which has a larger road with much easier access? Also, a large portion of traffic will be

coming from Lone Mountain road as it is the closest road connected to 215, dramatically increasing the traffic from the North through existing neighborhoods. Am I missing something or am I overestimating the impact traffic will have on the rural neighborhoods north of the project? Who will be paying for the extended (beyond the property) road improvements which will need to be made on Tee Pee, Florine, Grand Canyon and Hickam?

5) Grade: there is a significant grade to the property anywhere from 30-50 foot difference. How does the petitioner plan to address both the construction challenges and drainage issues the property presents, especially with the downstream affected areas being part of the rural preservation district which limits rain water drainage solutions? Will the property be developed in a stair-step or will the entire property be raised? I ask because the plans I've seen don't seem to account for the grade difference and the City's inaccurate rendering of the property showed it flat with no accommodation for the grade.

6) Parking and heat islands: The City staff was very adamant that the property would have 514 parking spaces, as if this is a feature rather than a problem. It appears the meeting house and temple parking will be separate and serve separate audiences, if that is the case, why isn't this two different projects with two different approval processes? In any case, there is no other structure within miles that has anywhere near 500 parking spaces. If this isn't going to generate huge amounts of traffic from outside the area, significantly impacting resident's quality of life, then why have so many parking spaces? When the city is working to reduce heat islands throughout it's jurisdiction, why support and approve something like this where there is no heat island issue, and wouldn't be if the City honored the interlocal agreement and kept the property zoned undeveloped rural residential. It is an unforced error.

I do think there are some serious concerns about what has been happening behind closed doors the past two years between the City and the LDS church, I have to put that on the record. The timing of everything makes it seem the City has not only accommodated the petitioner, but quietly colluded with them to make this a reality without considering the residents in the area and I think I think both the church and the city are more than happy that the most impacted areas, which engulf the project on three sides, do not fall into the City limits for both logistical and political reasons. I also think the City has made a calculation that it is better to be sued by the area residents than the LDS Church, knowing the law is probably on the resident's side, as the residents do not have the resources necessary to fight this for an extended period of time and they know, by historic example, the Church is more than willing to throw as much money at legal cases as necessary to get their way. The shadow of the Badlands case also may have affected this process as well. In any case, I really hope the planning commission uses logic and reason, ignores the City's planning departments' very questionable recommendation to approve and denies the project as it has been presented.

Comments	<p>To ensure the Land use and Zoning regulations of Rural Neighborhoods, the City Planning Commission should enforce and not deviate from existing regulations. People who are in this type of neighborhood want the tranquility and line of sight to enjoy nature. Establishing proposed buildings without complying to the height regulations will loosen the character of this Rural neighborhoods. Bringing in this type of facility will also lure traffic to the community. The catchment area of this facility will also expand to the surrounding areas.</p>

Comments	<p>To ensure the Land use and Zoning regulations of Rural Neighborhoods, the City Planning Commission should enforce and not deviate from existing regulations. People who are in this type of neighborhood want the tranquility and line of sight to enjoy nature. Establishing proposed buildings without complying to the height regulations will loosen the character of this Rural neighborhoods. Bringing in this type of facility will also lure traffic to the community. The catchment area of this facility will also expand to the surrounding areas.</p>

Comments	<p>I oppose the building of this structure right in the middle of a neighborhood that is primarily preserved as rural density lots. There is no transition planning considerations for a gradual transition of housing/civic/business density. The excessive height that forever alters the visitor's and Las Vegas residents experience of Lone Mountain and the park is also in my opinion contrary to the area already developed. This is before discussion traffic concerns from 3 sides of the property, the lighting concerns, the impact of the structure on surrounding homes that have or are considering solar panels, the noise from traffic and the ongoing vendors (trash, lawn maintenance, building maintenance) required to keep any building that is public like this proposal in appropriate presentation shape. The design also is not compatible with the neighborhood with no vision of respecting the rural preservation surrounding 3 sides of it given there is no transition of city planning to support a civic building of this magnitude.</p>

Comments	<p>I hike Lone Mtn monthly and chose to live in NW Vegas for its mountain scenery and natural beauty. Please oppose the corruption that allowed this rural preservation project to be rezoned and slip in under the radar. It's not okay!! No mega churches in our area, the overwhelming majority of area residents DO NOT WANT IT taking up our beautiful skyline over here. This is a rural area not meant for a megachurch and the corrupt officials that changed it need to be exposed now! Please don't let any church build a massive campus, it is not wanted by most and this is a democracy, we won't stand for the corruption that allowed this to even get this far. Religious campuses of this size and height do not belong in our RPP, especially when it is clear that corruption is at the root of the city planning dept. Call them out now! Please help us save Lone Mtn!!</p>

Comments	<p>As a Las Vegas resident of over 20 years, I oppose this development project. I frequently hike Lone Mountain to enjoy the scenic vista of our Strip and valley floor. I do not wish to have any one religious group bypassing long standing regulations enacted to maintain the view of the natural beauty of our desert.</p> <p>The proposed Mormon temple is not a public place of worship and will be a poor use of lands and zoning.</p> <p>The C-V zoning was completely re-written just before LDS application was submitted to the City of Las Vegas. They refuse an explanation. What role did Kaempfer Crowell (law firm for the LDS church) play in having this zoning changed, if any? This zoning change completely removed height adjacency standards that once existed that protected those in the rural residential neighborhood. It also removed the provision that megachurches could not exist within C-V zoning on parcels of 5 acres or more.</p>

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet
- Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone mtn and negatively impact all those who visit it
- Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle
- Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
- Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriately for all that call this place home
  - o Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - o Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - o BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community
  - o L-864 MUCH brighter than L-810
- Early and late operating hours, 7 days a week is unacceptable
- Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural areas that see horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.
- Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.
- 514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.
- Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate
- Street Lights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.
- Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

- Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits
- Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA  
[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo) where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered. What gives the applicant the right to take away our sunlight?
- Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?
- Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?
- Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment of property rights of the locals there.
- Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?
- Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! NO AMENDMENTS TO THE COMPREHENSIVE PLAN? This zoning plan amendment is explicitly prohibited in the Interlocal agreements, how can this even be considered?
- NRS: CHAPTER 278 - PLANNING AND ZONING (state.nv.us)  
<https://www.leg.state.nv.us/nrs/nrs-278.html#NRS278Sec250>
- Document Viewer | Unified Development Ordinance (encodeplus.com)  
<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood, dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

<b>Comments</b>	
-----------------	--

Despite abeyance, the applicant has not addressed neighborhood concerns nor proposed a design that is harmonious to the surrounding area by way of height, lighting, size, parking, and landscaping. Traffic and flood control have not been addressed either. Suggestions are forthcoming.

Our LDS neighbors and friends would like a new temple. Sadly, the LDS leadership has acted in a contemptuous manner regarding neighborhood concerns. If the LDS leadership is not open to modifications of the plan, I respectfully request that another more appropriate location be found. We can do better.

<b>Comments</b>	Deliberately changing the regulations that have been in place for decades just to satisfy the request of a large and well funded entity with significant political influence is extremely unethical. This project is overwhelmingly opposed by the residents of the affected area. The unintended future consequences of such an action all ALL negative.

## Comments

Please find below all the reasons below why the current temple project 24-0072, #24-0152 and 24-0152-SDR1 LDS Temple application should be DENIED.

- Excessive height of building that is actually usable at 64 foot, 6 inches while residences are restricted at 35-feet
- Excessive steeple height of 216-foot tall that far exceeds anything seen from any other church in Las Vegas, nearly half the height of lone mtn and negatively impact all those who visit it
- Excessive lighting/wall wash all night in an essentially dark sky area - this area was designed and built for dark skies, all the residents there bought homes and raised families for this lifestyle
- Privacy concerns for neighboring homes due to temple excessive height - temple visitors will be able to view private backyard spaces of residents from hundreds of feet away
- Height will require the following under paragraph 5.5 of Federal Aviation Administration Advisory Circular 70/7460-1M: the 216' height is taller than more air traffic control towers in the country, and placing an obstruction such as this in private rural neighborhood is completely inappropriately for all that call this place home
  - o Top-Mounted Obstruction Lights. Structures 150 feet (45.72 m) AGL or less. Two or more steady-burning red (L- 810) lights should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - o Structures exceeding 150 feet (45.72 m) AGL. At least one red flashing (L- 864) light should be installed in a manner to ensure an unobstructed view of one or more lights by a pilot
  - o BOTH OF THESE LIGHTS FLASH 30 FLASHES PER MINUTE is outrageous for dark sky community
  - o L-864 MUCH brighter than L-810
- Early and late operating hours, 7 days a week is unacceptable
- Traffic safety concerns, multiple ingress/egress on small collector streets within the rural preservation area. Why has no traffic study been completed? These streets are not attached to any main highway or freeway exit. They are small, low traveled 25mph in rural areas that see horse crossings! Adding 2000 vehicles per day to the tune of 514 parking spaces is absurd.
- Parking issues - The Las Vegas Temple always has temple visitors parking in front of resident's homes instead of in the parking lot, this is not safe for pedestrians, animals, and other locals who live here.
- 514 proposed parking spaces why so many, this is larger than most strip malls, stadiums and several casinos in town.
- Bright parking lot lighting in a rural dark neighborhood that does not allow street lights in highly inappropriate
- Street Lights surrounding property on all four sides and on Grand Canyon and Tee Pee from Alexander are strictly forbidden in this is the Interlocal Agreement which does apply to this parcel and will be challenged in court if approved.
- Why hasn't an environmental study impact been done? Numerous wildlife and desert tortoises occupy this land.

- Why haven't line of sight exhibits from all neighbors been completed by the applicant to show how this massive structure will be and permanently destroy their views of the Lone Mtn and surrounding area and this will dominate the skyline? Residents demand these exhibits
- Why hasn't a shadow study been done to show the impact to all surrounding neighbors on who their sunrises and sunsets will never be the same? Perfect example is in Yorba Linda, CA  
[https://www.youtube.com/watch?v=ngg8Gc\\_EOvo](https://www.youtube.com/watch?v=ngg8Gc_EOvo) where this was an issue and LDS temple was lowered to a height of 75'. Many people in this lone mtn area have solar panels and pool solar on top of their homes and this excessive height of 216' will certainly impact it. This study must be done before any vote can be rendered. What gives the applicant the right to take away our sunlight?
- Grading concerns to create level foundation - excessive fill will be needed that will have the temple towering over downhill properties. Has a flood mitigation study analysis been done?
- Major Drainage concerns to mitigate water to roadways and not homes - the neighboring areas are already experiencing substantial damage during heavy rain events. The current Templeton project on Helena and Grand Canyon is a perfect example of what not to do and how this floods the area on a single event causing massive damage. Why has a flood control study not been submitted?
- Noise from car alarms, trash dumpster collection, grounds maintenance noise (leaf blowers, chain saws, etc) - this will ruin quiet enjoyment of property rights of the locals there.
- Property value impact report on how this project and 216' tall airport traffic illuminated tower equivalent will destroy our property values, why has this not been completed?
- Most importantly - THE INTERLOCAL STATES THAT THE CITY AND COUNTY "SHALL NOT ACCEPT ANY GENERAL PLAN AMENDMENTS NOR AMEND THEIR RESPECTIVE COMPREHENSIVE PLANS"!!! THE SPIRIT AND INTENT OF THE INTERLOCAL IS TO PROTECT THE LONE MOUNTAIN AREA. THE PROHIBITION OF ANY GPA OR COMPREHENSIVE PLAN AMENDMENT IS A SEPARATE AND STAND-ALONE STATEMENT, SEPARATED BY A COMMA, WITHIN THE INTERLOCAL. IT IS VERY CLEAR. NO GPAS! - Document Viewer | Unified Development Ordinance (encodeplus.com)  
<https://online.encodeplus.com/regs/lasvegas-nv/doc-viewer.aspx#secid-2087> click to view 19.16.030 General Plan Amendment, 19.16.100 Site Development Plan Review, and 19.08.040 Development Standards to see that this proposed development goes against the City's own Unified Development Code

This project will OBLITERATE local residents' livelihood, neighborhood, dark skies, views, traffic safety, property values and all the reasons residents have spent hard-earned money to call this place home. It would be highly inappropriate to approve any such application especially when no line of sights exhibits done, no traffic safety study, no environmental impact, no FFA compliance and no impartial review of zoning, Interlocal Agreement or how CV zoning was amended not more than 2 weeks before this project was presented to the public which appears to be specially tailored by the city council members and city attorney for this specific project.

All LDS members part of the Planning Commission and City Council need to recuse themselves from voting on this as well. This is an obvious conflict of interest, and an impartial vote cannot be rendered. Please DENY this application.

<b>Comments</b>	This should not be approved. The size of the building takes away from our Lone Mountain for a facility that is only used by a select group, unlike other public buildings, churches and parks. It hurts to feel that the Mormon community does not care about their long time neighbors that are being effected by this building. Very sad.

<b>Comments</b>	<p>Zoning should never have been changed with a public vote of the local residents. We moved here to get away from high traffic and noise. To have the scenic views of the mountains. We live 1 block east to this proposed structure which will obstruct and alter the view of the mountains. It will bring greater traffic and noise.</p> <p>What politicians took money to allow this to pass without the Lone Mountain community being informed first. This needs to be stopped and keep this community quiet.</p>

<b>Comments</b>	This area should remain residential there is a lot of wildlife that has already been displaced because of rapid growth. By adding such a huge temple and parking to this area would destroy all the natural habitat needed for the already displaced wildlife.

Comments	<p>projects 24-0152-SDR1 (Site Development Review), 24-0072-GPA1 (General Plan Amendment), and 24-0072-ZON1 (Rezoning) here:</p> <p>PLEASE KNOW THAT WE ARE NOT AGAINST THE CHURCH OR THE LDS RELIGION IN ANY WAY. WE ARE AGAINST THE ZONING CHANGES. BUILDING HEIGHT, AND DISREGARD TO THE DEVOLPMENT STANDARDS SET IN PLACE for the Lone Mountain Rural Preservation area in the 90's. This temple will have over 500 parking places not to mention size of the temple and other buildings. This area was never intended for that volume of traffic either. The night sky still has stars out here because there is limited commercial projects to interfere with that with a lot of lighting. The temple would definitely impede the night skyscape. Our streets are designed for rural living and livestock in some areas. We are a community free of commercial encroachment to achieve &amp; preserve that way of life. Please do not vote to change &amp; destroy this with any commercial development including the massive temple project!</p>

## Comments

Re 24-0152

I strongly oppose the proposed zoning and building of the lds temple project and related applications in its current form.

The structure is too large for the area and in its current form will ruin the views of lone mountain and generally negatively impact the landscape. The height of the building structure is not in line with or sympathetic with to the buildings surround it (max 35ft).

Lds corp has been advising its members to mention the height is important in supporting letters. Both with regards to the lone mountain project and others around the country. This has never been a tenet of the faith and as demonstrated in other temple builds a tall building is not required for the practicing of the faith. See Tucson Arizona and Meridian Idaho as examples.

This is not a civic/public building, access is limited to paying members and is not appropriate for a residential area. The argument it's good for the community does not work. It is a benefit to a handful of people who have ignored all opinions of neighbors.

The area has many households with animals including horses, goats etc who traverse the surrounding roads. The remodeling needed will inherently make the roads busier and remove the ability to safely travel with animals which is part of the rural lifestyle in the area.

The lds organization made no attempt to facilitate a feedback cycle or take onboard neighbors concerns despite saying they would review and address residents concerns. Start to finish the engagement has been with no consideration to existing neighbors. The original comment from the local leader was concerns would be addressed, this then changed to "above my pay grade". Nothing has been offered as a compromise on the structure size.

It has been stated the project will "raise house prices". There is no peer reviewed study available showing such a correlation and that would be of no benefit to the neighbors who want to enjoy the area, not sell to the highest bidder.

The building is proposed to be lit which will impact the dark sky we enjoy in the area. Per the FAA it will also require aircraft anti collision lighting.

There has been no evidence of an impact study on wildlife which is a concern with such a large plot development with desert tortoise and burrowing owls being known to the area. This should be examined further before any projects move forward.

Between the temple and meetinghouse it has been stated there will be 7 day a week operations contributing to the noise of continuous maintenance,

trash removal etc and traffic impacts of the area.

The flood water runoff in the area already creates problems, adding a large concrete flat area with an excessive number of parking spaces will not help. The grading alone to level the site will push the structure even higher above neighbors and impose upon their views further.

The proposed design should respect the zoning requirements of the surrounding areas and have no structure taller than 35ft. There is no reasonable excuse for wanting anything higher and certainly fulfills no religious purpose that would prevent its intended use. The proposals should be rejected and resubmitted with designs that better match the area or for an alternative more suitable location.

Comments	This will be a significant change to a rural area, comparable to an uber large commercial operation with the added joy of red blinkinking lights. The height alone does not fit the area. This is a residential rural area. The rezoning and height changes will be challenged in court.

<b>Comments</b>	I oppose the Mormon church building a bright, giant, tall building in an area that is supposed to be preserved as residential. Any church that attempts to change local laws and politics by buying off politicians and changing laws because they have a lot of money shouldn't be allowed to build such a monstrosity where they shouldn't.

Comments	<p>Previous requests dating as far back as 2003, made by the Canyon Christian Church and the International Church of Las Vegas to exceed the 35' building height and 60' for a Steeple as specified by building codes were both ultimately denied although the ICLV had to be told several times. To go against precedence so profoundly with this proposed project is not only unfair but throws open the rural preservation areas as fair game to all sorts of violations.</p> <p>The site location is inappropriate for any building of this size and obviously not respectful of the existing residents of the area. Zoning is a promise, one repeatedly broken in this town and apparently anyone with enough money can do whatever they want, wherever they want without regard for the rights of others. This is not about religious freedom, but rather ill-informed and short-sighted elected officials making dumb decisions. Stop it now, while you still can.</p>

Comments	I strongly oppose this proposal for the temple. It will destroy the ambiance and character of the neighborhood. It will ruin the view and ambiance of Lone Mountain. It will be a disturbance to wildlife (what little is left) and to the neighborhood. The idea that lighting will be on for 24 hours a day will also be a grand annoyance for miles around. I live in my neighborhood to be away from the lights from the Strip. The zoning was done in what appears to be a sneaky way and approved quickly. This structure should not be close to a nature park. It's too close to the border of Red Rock. Please find another location.

<b>Comments</b>	<p>This neighborhood of designated rural preserve is not the right location for this project. There are many other places where the LDS church can still get the visibility they so desperately want and still make is easy for members to attend temple ceremonies. In fact, there are better places. This "temple" violates height rules at numerous levels, will completely ruin dark sky (in fact will affect everyone in the area with the blinking aviation warning light) and ruin the quiet neighborhood where kids can still ride their horses to school or friend's house, will pack quiet rural neighborhoods with dangerous traffic and cars, Due to the fill issues needed to stabilize the foundaton, it will make the building excessively high, towering over ranch homes and barns, resulting in a loss of privacy. All in all, for a Christian group that claims to "do unto others" is proving themselves to be poor students of Christ! I am not against people practicing their religion. I am against them stepping on and squashing the rights of others. This is not only unChristian, it's also very unpatriotic and totally against the American approach to democratic rights. Thank you.</p>

Comments	A project of this scope and size does not belong in a rural neighborhood. The City should not be bullied into changing the zoning because it is a religious institution that is requesting it. If it was a casino, outlet mall or car dealership, the application would be denied without all this controversy. And those projects wouldn't stand over 200 ft tall and be lit 24/7, which completely destroys the view of the mountains as well as the stars at night.

Comments	I strongly oppose. This is a Rural Preservation Neighborhood. No commercial sized building will bring any value to our neighborhood. We like our neighborhood the way it is. Peaceful, quiet, and beautiful. Nothing man made can create what God has already created. Not sure why the church is so persistent to build in our quiet neighborhood. That isnt being very neighborly. There is nothing worse than political bribery and mass manipulation.

<b>Comments</b>	My fellow Las Vegans that live in the area the Church wants to build this Temple shouldn't be treated like 2nd class citizens. They bought their homes here because they wanted the rural feel. Don't let the Church buy their way into getting what they want. There are already places in town zoned for this type of building, let them build it there. Don't punish the homeowners in the Lone Mountain Area.

Email	sdahlgren13@aol.com
Comments	The proposed changes will make a rural community no longer rural. This area is within the Desert Rural Density Residential legally binding Interlocal Agreement. The horse activities will no longer be safe as increased traffic will be much more constant than the traffic that would exist if this were developed into half acre, minimum, residential lots. The area would no longer have dark skies. This will allow additional facilities and towers to move into the area as well. The safety of this area will be diminished. Living in this area is one of the most peaceful areas of town. With the proposed changes, this will no longer be. Why should a "stranger" be permitted to move into and established community and cause such changes?

**Comments**

1. If we have a housing shortage, why are we allowing prime residential property to be rezoned? We need more housing and we need the tax revenue from property tax.
2. This land use proposal does not fit with the surrounding areas and comply with the intermodal agreement between City and County.
3. There is no necessity for a second temple since participation in LDS has decreased by 20% since Covid.
4. The LDS church plans to make this temple their new flagship location- hosting all marriages and large private events. This area is not setup for large event/traffic.
5. The design and scope is beyond tacky at the egregious height of 216' tall!! There is not a single document word that a temple must meet minimum required heights by God.

**Comments:** This isn't a normal neighborhood church; it should be in a commercial area. It will be a tourist attraction and dramatically increase noise and traffic in the quiet northwest.  
Municipalities spend hundreds of thousands of dollars on master plans and typically allow variances to the highest bidder.

**Comments:** This is a rural area. We have lived here for 42 years. This project will bring in increased traffic. Create light pollution to the area at night. It will cause increased emissions on the weekends with up to 500 vehicles in the area.  
We all moved out here with the understanding that everything had to have height and lighting requirements that would restrict this project. It will be disturbing the natural environment of the area.

**Comments:**

This area is designed/designated as residential and rural land. This is why we and our neighbors chose to move our families here. This project will completely change everything.

We have owls and other local birds that live in our backyards, the 24 hour lit temple will effect their migration. For the above reasons and many more I strongly request that the council deny the request to pursue this project in this special area.

**Comments:** We live in a quiet rural zoned community. Just 1 block east from the proposed Temple site. We moved to this location from Centennial Hills, another rural zoned area . We chose this for its beauty and quietness.  
The Temple will have the same presence as a commercial building but with 24/7 lighting. It will increase traffic significantly.  
This area was and is zoned NOT for this type of structure, and needs to remain that way.

**Phone:** (702) 395-3663

**Email:** sevenxhome@aol.com

**Comments:**

We write to voice our concerns and opposition to the proposed LDS temple project. As homeowners for approximately twenty years in the rural preservation area near Lone Mountain, we object for the following reasons:

- The sheer size of the proposed building is a significant concern. Standing at over 210 feet, it looms over all other structures in the area. Your presentation acknowledges that existing buildings are limited to 35 feet (two stories). The proposed temple has a usable space of 68 feet (three stories). The remaining approximately 150 feet, which serves no functional purpose other than decoration, starkly contrasts the area's architectural character. If this were a residential request,

regardless of the alleged sightline issue, it would be deemed entirely out of character for the area and quickly rejected.

- The proposed 24-hour wall washing of the 216-foot structure is not only a significant concern, but also a direct violation of the interlocal agreement. Allowing such a high level of light pollution in this rural preservation area is shocking and unacceptable. This agreement was put in place to protect the area's rural preservation, which includes larger lot sizes, limited sidewalks, and no provision for street lighting. It's important to note that no other residence, commercial, or civic structure would be granted this accommodation.
- The changes to the zoning area in this interlocal agreement do not go unnoticed. The City Council apparently allowed for a zoning change specifically to accommodate this project. Changes in zoning allowed for this type of civic project. One that would not have been allowed under prior existing zoning laws. Now, this City feels it must acquiesce to this project or face claims of religious biases. Yet, the people who object to the Temple only object to the SCALE of the project, which is clearly excessive. To be CLEAR, we have no objection to the meeting house, or the church planned on the property. A project with multiple buildings, approximately two stories (35 feet), is allowed in the rural preservation. This letter is NOT an objection to the Church of Latter-Day Saints. No matter what ecclesiastical denomination sought to build a structure of this size, with this amount of lighting and increased traffic, it would cause us to register our objection. Quite simply, this project does not belong to the Rural Preservation category, which, in its name, requires the government to preserve the character of this area.

**Phone:** (702) 245-1509

**Email:** andiwander@gmail.com

**Comments:**

As a Las Vegas resident of over 20 years, I oppose this development project. I frequently hike Lone Mountain to enjoy the scenic vista of our Strip and valley floor. I do not wish to have any one religious group bypassing long standing regulations enacted to maintain the view of the natural beauty of our desert.

The proposed Mormon temple is not a public place of worship and will be a poor use of lands and zoning.

The C-V zoning was completely re-written just before LDS application was

submitted to the City of Las Vegas. They refuse an explanation. What role did Kaempfer Crowell (law firm for the LDS church) play in having this zoning changed, if any? This zoning change completely removed height adjacency standards that once existed that protected those in the rural residential neighborhood. It also removed the provision that megachurches could not exist within C-V zoning on parcels of 5 acres or more.

**Comments:**

As a healthcare practitioner, I have grave concerns regarding the 24 hour seven day a week lit spire. Scientifically there are many studies, showing the negative effects of light and the effects to humans, domesticated, animals, and wildlife. Light pollution is scientifically valid and a concern to humans and animals. In addition due to the height, I understand this spire will require a beacon per the FAA and that Beacon will flash 30 times per minute the negative affects to humans in the nearby neighborhood as I live less than 1000 ft.<sup>2</sup> is detrimental to my own health and well-being as a landowner who moved back to the neighborhood in 2021, my mental and general health matters

**Phone:** (702) 816-0670

**Email:** ashleyfulkerson@gmail.com

**Comments:** This huge building dose not belong in the residents of Lone Mountian, back yard. The LDS church is a big bully and can take their billion dollars to another area of Las Vegas where the land is zoned for a building this size

**Phone:** (808) 445-3434

**Email:** kawailehua25@yahoo.com

**Comments:**

I have written about my concerns with the traffic which I understand on Nextdoor that there won't be a lot of traffic as it's closed on Sundays and Mondays then why are they requesting 514 parking spaces? I would imagine the LDS architects would factor in the estimated use. The statement that the temple harmoniously fits within our neighborhood is simply a non-truth as it does not fit in our neighborhood as this is a residential area that is home to people who follow all the zoning rules and laws that have existed for many many years, set by the city and within the intralocal agreement. The city response that the agreement is "silent" is a play on

words as it simply is or is not. I purchased my home prior to the LDS church purchasing in 2022. They purchased full well knowing it was zoned and as listed in the assessors office as 12.0 single-family residential homes. This is a Rural Residential area and surrounded by the RNP. Per the 2050 City Plans follow your own plans and deny this application.

<b>Comments</b>	<p>My wife and I moved here 38 years ago. Since then, we have seen tremendous growth in the neighborhood. The Santa Fe hotel, major power, transmission lines, two large city parks, multiple grade schools, a high school, and all of the residents that have moved here in the last 30 years around us consuming the natural desert area. We now have the 215 beltway, both I-95 and Lone Mountain Rd have gone from 2 lane roads to multiple lane roads. Growth is inevitable, and we welcome the addition of the new LDS Temple Project to our neighborhood. We ask that you vote favorably toward this accomplishment. Thank you.</p>

Comments	Having a temple closer to us would be a great blessing to our family. Driving across the valley takes an extra hour and a half of our time to and from the temple. Sometimes the traffic is so bad we miss the appointment time we have scheduled. This would make a huge difference for our family. Thank you for your consideration. I

<b>Comments</b>	LDS temples are such beautiful buildings! The lot is huge with immaculate landscaping. Only the very thin spire is as tall as people are stating, not the entire building. This is a wonderful place for all to visit for peace and tranquility.

## Comments

For Christians and Jews, the Bible or Torah gives specific directions and examples of the importance of temples in our worship. Moses erected a sort of traveling temple used by the Israelites in the wilderness. When Solomon built a temple in Jerusalem, he did so using only the best of materials and spared no expense. In fact, the word temple in Hebrew can be interpreted as 'palace', 'Holy of Holies' and 'House of the Lord'.

I have been to the Holy Land and had the sacred opportunity to stand at the Western Wall. This is a Holy place for Jews to gather to worship and pray with the hope of returning to the Temple Mount one day. I stood next to a mother and her daughter as they carefully placed a written prayer in between the Herodian stones of the wall. They both wept as they embraced one another. My heart ached for them, I knew they yearned to be within the walls of the temple and on the Temple Mount, the holiest of places for a Jewish person. It is a moment of my life that has been seared into my soul. I felt an immediate sisterhood with these strangers in a strange land. I felt this way because I believe in the power of temples, just as they do.

As a member of the Church of Jesus Christ of Latter-Day Saints, it is impossible for me to convey what a temple in my neighborhood would mean to me. I feel, like the mother and daughter standing at the Western Wall, the pull to be closer to God in His Holy House. I too weep and yearn to be able to worship in the holiest of places and receive the peace that comes from God in his Holy House.

Temple worship isn't just a part of our religion, it is our religion. It is the pinnacle of worship for us.

I know there is much to consider in this process. I know that my neighbors who oppose this temple do so with a desire to preserve our lovely little spot on this Earth. However, I fully believe the peace that can be felt from being near sacred, consecrated, holy structures, just as I felt peace and holiness while standing at the Western Wall.

Please consider the need for me and other members of my church to be within the walls, worshiping God in the holiest of places, a temple of the Lord.

---

<b>Comments</b>	I am in support of The Church of Jesus Christ of Latter Day Saints Temple to be built by Lone Mountain. It will add to the beauty of the area. Temple grounds are place where everyone can walk on and feel peace. It will give a sense of community to the neighborhood. It will not obstruct views or harm the look of the mountain. It will only enhance.

Comments	This area that I have grown up in, used to be dark and wide open. But over the years we have seen the streetlights come in, zonings change and density go up. This is all part of our world. It has always been a beautiful area and I think adding a beautiful temple will not take away from what we have here. As I've seen in other areas, it has increased the property values, which is always good for us.

Comments	We are 88 years old & moved here to be close to a Temple as we are not able to travel far. The Lone Mountain Temple would be a great addition to the community. They are all beautiful & well kept. It would sure be better than housing, bussiness's or schools. They would sure have more traffic & other things going on than a Temple. Please let us have the Temple.

<b>Comments</b>	<p>Having this new temple closer to where I live will cut down on my drive time by 2 hrs.</p> <p>It will also allow my younger daughter to use the temple more frequently as she will not be dependent on one of us, her parents, to drive and wait for her. We could simple drop her off. It m strong faith and belief having what's belive to be the House of our Lord in our neighborhood will bless all that surrounds it. Regardless of their religious beliefs</p>

<b>Comments</b>	I feel this is a perfect site for the temple of the The Church of Jesus Christ of Latter-day saints to be built. The backdrop of Lone Mountain and surrounding area compliments the building and the building will compliment the entire area. The site is central for those living on the west end of the valley that will be attending this temple.

Comments	I support the Lone Mountain Nevada Temple project. The temple building and grounds will be a beautiful addition to the area. Typically property values increase when a temple is built by the Church of Jesus Christ of Latter-day Saints. Visitors to the temple come during daytime/early evening hours, so there won't be a light or noise nuisance added.

Comments	Churches, like parks, cemetaries, and schools, serve a public purpose. In the case of churches and especially temples they are even more so to those that believe in them and follow their principles. They become the central part of our life and give us our purpose for having a good family, working hard and sacraficing, and becoming a better citizen. By denying our (my) ability to have a temple in an area like this and worship freely, when there are temples in every other kind of zone throughout the world, you are making it easier for the next area to deny us the ability to worship in theirs as well. In addition, it not only is a direct attack on the LDS community, but the same arguments can be used to deny the building of a mosque, synagogue, or any other church bldg too.

Comments	I'm in support of the LDS Temple being built on this lot. I've only seen very positive things come to EVERY neighborhood near a temple. Any concerns of higher traffic is unfounded, based on real data from the actual functioning temple on the East side of Las Vegas... In reality, the traffic will be cut in half of current levels.

<b>Comments</b>	I love the look of the new Temple. It's set back at least 300 feet from any homes and looks as though it will be a great place for quiet walks and peaceful reflection. A very rural feeling!!! Can't wait!!!

<b>Comments</b>	<p>I live in the rural preservation neighborhood close by to the proposed temple sight. We have horses and fully support the temple. The type of people that attend the temple along with the quiet, serene backdrop will be a huge benefit to the area. I am not worried in the least by any traffic or lighting worries of people that just aren't educated on the situation. Traffic will be lighter than anywhere else in the valley. The lighting at night will only bring beauty to a spot where you can see the strip. I FULLY support the temple.</p>

Comments	I support the building of the temple. Every neighborhood around a Mormon temple is always well taken care of and the property values are higher than other neighborhoods. The building is quiet and doesn't interrupt neighbors. The traffic is light around the area. We should be promoting religious building like this because of the peace it bring people when they turn to God.

Comments	I travel at least once a week to the temple on the east side of town. Proximity on the West End would be wonderful. I live two miles from the proposed site. I believe the lighting concern could be mitigated by having less lumins on the temple late at night.

Comments	<p>We totally support this project to bring a beautiful church building to this part of our valley. I live within a 10-15 minute drive and plan to attend religious worship services at this new temple at least monthly. I believe that this project will dramatically enhance the surrounding neighborhoods, including property values. The attendees will be respectful and courteous. The property values of the surrounding neighborhoods will be (and probably already are) increased just by the fact that this temple will be there. The grounds will be constantly maintained in a beautiful manner. This building will be a wonderful addition to our community.</p>

Comments	<p>I am an active member of the Church of Jesus Christ of Latterday Saints, and an active volunteer temple worker. I spend every Thursday evening in the temple helping in our worship services. There are over 150,000 members of our church in the Las Vegas Valley. Having a second temple will vastly increase accessibility to a central activity of our church. Personally, having a temple in the Northwest part of the valley will save me over an hour and a half every week in over the road time. That time currently is pulled away from my work day and my family time. Having the temple in the Northwest will not only save me and many others that lost time, but will allow us even more access (time-wise) to the temple and the blessings we enjoy from worshipping there.</p> <p>The temple is also a beautiful structure and grounds. It will bring beauty and peace to the neighborhood.</p>

Comments	I strongly SUPPORT the project which includes the Temple for the Church of Jesus Christ of Latter-Day Saints. This organization has exhibited exemplary behavior in keeping its grounds and property well-maintained and in accordance with all City/County/State policies and/or ordinances. This Temple will be a plus for the neighborhood and residents in its area.

Comments	<p>I ask that you support our request to build the Lone Mountain Temple. We have lived here for 20 years. Las Vegas is our home and the entire time we have lived in town we have had to drive across the valley to attend the only Temple on the east side of town. This is a 40min trip and it be would such a blessing to have Temple on the west side of town. This temple would be a jewel to the community! We always strive to be good neighbors and know that such an investment will add to the property values. I believe it would benefit so many Ladder Day Saints that live on the west side of the valley! Thank you for your consideration and hopefully your support in building a beautiful building that provide so much faith and hope to so many members of our community!</p>

Comments	The proposed temple will positively change my life and the lives of my posterity forever. I live right by Lone Mountain park and I anticipate being able to walk back and forth from the temple. Some of my deepest spiritual understandings have come to me while worshipping in the Las Vegas temple. I am eager to have a temple closer to me.

Comments	I own a home across the street from the proposed temple site. I am thrilled to have a temple build close to our beautiful area. I regularly attend the temple across town and this will be such a relief to lessen the commute of so many people that live here. Also looking forward to having this beautiful piece of architecture in the area.

## Comments

I am writing to express my fervent support for the motion to construct a Church of Jesus Christ of Latter-day Saints (LDS) temple right here in Las Vegas. As a resident deeply invested in the spiritual and communal growth of our city, I believe that the addition of such a sacred edifice would be a tremendous asset to our community in several profound ways.

First and foremost, the presence of an temple would serve as a beacon of unity and inclusivity in our diverse city. Las Vegas prides itself on its rich tapestry of cultures, beliefs, and backgrounds. Embracing the construction of a temple would not only honor the faith and traditions of our LDS neighbors but also symbolize our commitment to fostering a city where all religious expressions are respected and celebrated.

Moreover, the construction of an LDS temple in Las Vegas would undoubtedly bolster our city's cultural and architectural landscape. Temples are renowned for their exquisite craftsmanship and timeless beauty, often becoming iconic landmarks within their respective communities. By welcoming such an architectural marvel into our midst, we would not only enhance the aesthetic appeal of our city but also attract visitors from far and wide, boosting tourism and economic growth.

Beyond its architectural splendor, however, a LDS temple would serve as a vital center for spiritual nourishment and personal growth for both members of the LDS faith and the broader community. Temples are sacred spaces where individuals can seek solace, find guidance, and strengthen their connection to the divine. By providing a local sanctuary for worship and reflection, we would be empowering residents to cultivate their spiritual well-being and foster a deeper sense of belonging within our city.

In conclusion, I urge you to seize this remarkable opportunity to enrich the fabric of our city by approving the construction of a LDS temple in Las Vegas. By doing so, we will not only honor the principles of religious freedom and diversity but also lay the foundation for a more vibrant, inclusive, and spiritually enriched community for generations to come.

Thank you for your thoughtful consideration of this matter.

Comments	<p>My wife and I are overjoyed that there is going to be a new temple right next to our home. Just being able to drive past it everyday in its self. My wife and I tried to attend the temple every month in the past but switched it to every other month because gas was too expensive and inflation has mad it tougher. Now that it's closer we won't be as tight in the budget in order to visit the house of the Lord. We are excited to have the Lord as our neighbor. The calm, reverent and peaceful nature of the temple will be a true blessing for all not just members of the church. The temple is a reverent place as it is the holiest and most sacred place we can be. Please allow the temple to be built in lone mountain this place has always been a special place and has been for a reason or a temple wouldn't be being built there. Thank you for your time and consideration. May God bless you and guide you in your decision.</p>

<b>Comments</b>	<p>I live about 480 yards from proposed temple site and have no objection to it being built as proposed. The LDS people build the most beautiful structures you can find anywhere. Members and those not affiliated with their church can visit and walk the grounds of their houses of worship and enjoy the peace and serenity provided there. I wished I lived closer. I would walk their grounds every day if I could We need more places like this in our community.</p>

Comments	LDS temples and their grounds bring communities together. Patrons of the LDS temple have two main goals, to love God and love their neighbors. Temples are where LDS members, of which are hundreds of thousands of Las Vegas citizens, go to perform their most sacred religious ordinances. Approval of this plan will bring the blessings of God to the valley and overall will make for a more Godlike citizenry of Las Vegas. Please approve.

<b>Comments</b>	I whole heartedly support the building of this beautiful Temple by The Church of Jesus Christ of Latter-Day Saints. This will be, not only blessing for the members of our church, but also for the whole Vegas Valley. We believe in loving our neighbors. This House of the Lord will bring love and unity to, not only this neighborhood, but the whole city.

<b>Comments</b>	We are enthusiastically in favor of the plan. It will be a beautiful landmark for the area. The only building excitement in the area is in anticipation of the temple. The present area is a sparse collection of homes anywhere from 50 years old to newer homes. We need a project to encourage new development rather than a hodge podge of eclectic neighborhoods.

Comments	<p>We support the proposed Lone Mountain LDS Temple. We live 2 blocks east of the site, and have lived near Lone Mountain for over 20 years now:)</p> <p>In our experience elsewhere, the addition of a temple like this enhances property values, guarantees peaceful and pristine use of the land, and fosters community in all the stages of production.</p> <p>And so we strongly prefer this project to any other future foreseeable use of that land. Please help us, and approve this project. We love to see the temple. It is the highest form of worship for us. Having one so near will be a great blessing to us and our kids, and in turn our community. Temples are symbolic of our faith in many ways, both inside and out. This project is so important to us.</p> <p>Sincerely, The Rimmel family</p>

Comments	<p>I support the building of the LDS Lobe Mountain Temple. We need a house if worship on the west side of town. Traffic and congestion make it challenging to drive across town to attend the Las Vegas Temple, especially for older or physically challenged residents. I believe that most of the opponents simply lack a truthful understanding of the physicality of the temple, the character of the people who attend temples to worship, or the beauty, peace and tranquility of temples, not to mention the increase in property values generally attributed to building a temple in the vicinity. This will be a truly wonderful addition to the the northwest carea of Las Vegas.</p>

Comments	The temple is an important aspect to my religion. I am able to go inside and do work for others. But it is also a place that many can't go to feel peace and the love our God has for them. Those members that will attend this area are often seeking a place of refugee from life's trials. We members are peaceful, accepting, and loving to our society.

<b>Comments</b>	<p>I support The Church of Jesus Christ of Latter-Day-Saints building a temple at the current site, I live less than a mile from this property.</p> <p>I believe it will prove to be a landmark that will add strength, hope, peace and additional solitude to the neighborhood. It will be a beacon to which all may look in a very turbulent world.</p> <p>The grounds will prove to be a refuge for both members and nonmembers a like. As well as a haven for much wildlife.</p>

Comments	I support, the building of the Lone Mountain Temple, in the location in which it planning to be constructed and built. This would be a blessing to all! Temples are needed, in order to perform ordinances. We are in need of another temple in the valley, for the growth we have encountered here in the Northwest part of Las Vegas. Please consider, the zoning and building of this Temple, so close to my home.

Comments	Latter Day Saint Temples are among the most beautiful buildings in the world. It is an honor to have been chosen to have a second one built in our valley. They can bring a sense of peace and calm into this troubled world and so many seek that peace both inside and outside the Temple. Those who attend the Temple to worship their God are always respectful of those who live nearby. This Temple is very much needed by the Latter Day Saint community who live on the west side of Las Vegas. I fully support this Temple and ask that the project may move forward.

Comments	<p>I believe the proposed Temple is beautiful, will be a great addition to our part of town, and will not cause any noticeable disruptions for traffic. Interesting note, the people of Paris thought the Eiffel Tower was going to be an eyesore and take away from the beauty of the city. After it was built, however, the people changed their mind and now it is what Paris is best known for. I believe that this Temple will be viewed in the same way.</p>

<b>Comments</b>	Everywhere a temple has been built the surrounding property values have increased. Temples beautify the area. They are always landscaped beautifully and are well maintained. Patrons to the temple are respectful of the area. Please approve this temple.

<b>Comments</b>	<p>We live in Ward 4, of Las Vegas City in Lone Mountain Classics. We live 2500 feet from the proposed site. We would like to say we support the approval for the new temple. Our family lived a few miles from the existing LDS temple at 827 Temple View drive on East Bonanza From 1988 to 2001.</p> <p>Having 43 years' Experience as a Residential real estate Broker Affords me the knowledge and expertise to identify future values. The temple will bring newfound value to Your home and property.</p> <p>I watched it being built and all that has gone on there since from a professional point of view. The neighborhood improved a lot with their new neighbor (the temple) and gave new Life and Revitalization to the area and prices increased. The temple still looks Brand new.</p> <p>The temple is a destination. The landscaping is amazing and manicured. All lighting on temple grounds goes toward the building and not toward the neighbor's property. It is beautiful day and night.</p> <p>Anyone that has a temple as a neighbor has a good neighbor. Temples are closed on Sunday and Monday. I would ask anyone not sure about the temple as a neighbor to stop by the one on the east side of town day or night and see what the temple as a neighbor would be like.</p> <p>NOTHING but Love is emanated from the temple. It is Christs house. The temple property is not located in the Rural Preservation overlay.</p> <p>The Bonanza temple is very busy so another temple will be a great addition. Many people cannot get to the temple before and after work because of traffic and the busy commute. This temple will rectify that problem for many of us and make it more accessible for us to attend often.</p> <p>We are very happy to have the temple as a new neighbor and that close by.</p>

Comments	I believe this project will add great value to the community - property values will inevitably go up, families will have another place to gather and grow closer to one another, and our valley will have another place of worship that teaches love and respect.

Comments	As a member of the Church of Jesus Christ of Latter-day Saints, this temple has been long awaited and long anticipated. It is anticipated to bring beauty, peace, and and overall improved experience to the streets and neighborhoods around it. Please allow the moving forward of this project.

Comments	Supporting the proposed construction of the Lone Mtn Temple. Zoning changes and architectural improvements requested are reasonable. Most of the objections are unfounded and if residents note that previous area improvements were more invasive than this project

Comments	The temple in this side of Las Vegas will make easier access for the members of the Church of Jesus Christ of Latter Day Saints that live in Nye county. The Temple grounds which are open to the public will be a place of serenity to all people in Clark County. Just as the Church's temple on the other sid of the valley it will not be a distraction or but a place of beauty and enhance the majestic Lobe Mountain.

Comments	This location will be a great spot for a beautiful house of worship. It will add value to the neighborhood and provide a place for service to others. It will also provide a place for our youth to visit to grow closer to God and learn to serve and be kind without having to be very far from home.

<b>Comments</b>	<p>I live 1,700 feet from the proposed Temple site, in the home where my wife and I have raised our kids. The site of the proposed temple is ideal - it is a 20 acre parcel in a beautiful location, consistent with the purpose of a temple, which, if approved, will be built and then dedicated to God, and used as a House of the Lord. The design of these buildings is highly religiously significant to us. Indeed, it is fair to say that our religious beliefs require us to worship and perform ordinances in temples. As a family and as members of our church, we love living in Las Vegas, we love our Northwest area, and we know that the temple will be an asset and blessing to this part of town.</p>

<b>Comments</b>	I support the construction of this new building. It will be a great addition to my neighborhood. I am about three blocks away. The building will be well-maintained and will bring reference to the area. The traffic impact will be minimal. Additionally, there will be no traffic on Sunday nor Monday Because it will be closed.

<b>Comments</b>	I own multiple houses in the northwest preservation district. We have farm animals and enjoy the rural area. I am in favor of the new temple being built in the area. It will add beauty and not take away from our rural lifestyle.

Comments	I fully support the building of the proposed temple as submitted. For those that are concerned about the impact of this temple on their neighborhoods in regards to traffic, noise, property, values and lighting, I would encourage you to visit the temple on the east side of town. If you do this, you will see how traffic is not an issue and you will see how the temple is a positive part of that community now. At night, you will notice how the lighting is subtle and not glaring as the lights on a casino as some have compared this to. I would invite all to investigate this proposed temple prior to making your mind up based on false statements that are being circulated. This temple will focus on and strengthen the families in our community. How can this be seen as a negative addition to our community?

Comments	This is a very special opportunity for members of our church to have yet another temple in the valley. This temple will reduce the time it takes to get to the temple. This will enable members of our church to get to the temple to enjoy our services held there.

<b>Comments</b>	I am so very excited to have a temple in my backyard! Living within walking distance, I believe this to be a wonderful thing for our community, both within the church and out! This building will be a sacred place to grow closer to God! The peace and comfort this building brings Will surely bless the community! I am 100% in agreement for this temple being built!

Comments	<p>I was born and raised in Las Vegas. I have seen the growth my entire life and I am so very thrilled at seeing a temple be built in the Northwest valley. It is only natural a temple should be built to better accommodate the community in which it serves. Temples always add beauty all around and offer a place of quiet and peace from the chaotic city life. I support this project fully and believe that it will not distract from the natural beauty that our desert home offers. The temple is a sacred place of worship and I am looking forward to having a beautiful structure so near my home and my family members.</p>

<b>Comments</b>	I am in support of the temple for the Church of Jesus Christ of Latter Day Saints to be built in the Lone Mountain area. I believe the building of this temple will not only bless the members of the church but also the community near the temple. It will allow members to worship our Savior Jesus Christ. Prior to its opening, community members will be able to visit the temple and feel the peace that comes from being in the Lord's house. It can and will bless many.

<b>Comments</b>	<p>I live within walking distance to the temple site. I am in full support of this project. Historically LDS temples are beautifully designed and landscaped and meticulously maintained. Temple sites are peaceful and members of The Church of Jesus Christ of Latter-day Saints see it as a holy house of God, therefore there is a natural reverence surrounding the building. There will not be a lot of noise to worry about. I've never experienced traffic to and from the building to be a problem.</p> <p>I am more concerned about a school potentially occupying this site. That would cause terrible traffic issues, a lot of foot traffic, noise, stadium lights, exhaust from school buses, etc.</p> <p>A beautiful, white temple against Lone Mountain will only enhance the beauty of the area and should help home values go up.</p>

<b>Comments</b>	I whole heartedly support and an approve of this temple being built. I was born and raised in this area and have seen so much change happen. I couldn't be any happier to have a temple built on this lot. Much better than more homes or a school or a commercial center.

<b>Comments</b>	<p>I fully support the Lone Mountain Temple of The Church of Jesus Christ of Latter-Day Saints. It will be a place of beauty, peace, safety, and refuge. It will bless not only members of the Church but the entire community. It is a sacred building that is literally a house of God. In temples, members of the Church of Jesus Christ participate in services that represent their highest form of worship and that bring individuals and families closer to Jesus Christ and to each other.</p>
-----------------	--

The temple will beautify and enhance the neighborhood. The best example of this is by looking at the Las Vegas Temple on the east side of Las Vegas. The Las Vegas Temple is the most beautiful, peaceful place on the east side of the Las Vegas Valley in my opinion. There is no noise, no traffic concerns. There is only a serene, quiet place of beauty.

The site of the Lone Mountain Temple is not particularly rural, or is only partially rural. For example, it is within the Las Vegas 215 Beltway system, which is a major freeway system. It is also only a stone's throw from a five lane road with street lights on both sides (Alexander) on the south, and not far on the west is Fort Apache, also a five line road with street lights. It is also across the street from Majestic Park - a large softball complex with over a dozen softball fields and tall stadium like lights.

We hope all applications related to the Lone Mountain Temple will be approved. Thank you!

<b>Comments</b>	I support the building of the temple in the Lone Mountain area. This temple will bring a lot of business to the area for gas stations, restaurants, and many other businesses long-term as people travel to the temple. The temple will provide jobs for many people during the construction phase and after construction for landscape maintenance crews, etc. Temples for the Church of Jesus Christ of Latter-Day Saints keep their grounds beautiful and the buildings in lovely condition, built with high quality materials and are designed specific for the area they are built including meaningful history within the landscaping, decor, and exterior/interior design.

<b>Comments</b>	<p>I live less than a mile away from the proposed temple site and within the boundaries of the rural preserve area. I am highly in favor of the LDS Temple being built in our area. It will be a peaceful and beautiful addition to our neighborhood. Much better than the rumored school (a traffic nightmare) that was to go there, track homes or even keeping it as open desert, which ends up being littered with trash after every wind storm, or a dumping ground for people not wanting to go all the way to the dump or a place where political signages end up lining the road. I would much rather have something like a well maintained and beautifully landscaped building such as an LDS Temple to be built there instead.</p>

Comments	I am in full support of the building of the temple for the Church of Jesus Christ of Latter Day Saints. I feel it will be a great addition to our neighborhood in both beauty and spirituality. The worship and service that takes place in the temple are centered around the two great commandments, to love God and love your neighbor. Having a temple on this side of town to accommodate more people who would like to better love God and their neighbors will be an asset to our community.

<b>Comments</b>	I live within the boundaries of the RNP. I have lived here for the last 25 years. My ancestors came to southern Nevada in 1895. When I sing home means Nevada I truly mean it. I love living in the rural area however I'm absolutely ecstatic of the prospect of having an LDS temple in our neighborhood What a beautiful addition to our peaceful neighborhood.

<b>Comments</b>	I live within the RNP. I have lived here for the past 25 years. My grandparents came to Las Vegas in the mid 1940s. This has been home for a long time. I'm absolutely delighted and honored to think that an LDS temple is to be built in our neighborhood. Temples are a sacred and holy building that brings beauty and peace to a community. I can hardly wait to have a temple within walking distance of my home.

<b>Comments</b>	I support Project 24-0152 because it will bring a temple closer to me in rural Indian Springs. My beliefs and values are important to me. The Lone Mountain Temple will save me more than 13 miles and 15 minutes of driving (not including heavy traffic) compared to the Las Vegas Temple.

Comments	I support the proposed project, and feel the use of the building will not detract from the residential feel of the area. It's going to be a controlled traffic pattern since people won't be coming and going at all hours. I do recommend the lighting on the building should be minimal, and not be lit all night.

<b>Comments</b>	I totally support the 'Site Plan' for the Church of Jesus Christ of Latter-day Saints TEMPLE! The Church Temple will have an exquisite design which will add beauty & value to the surrounding area. Maintenance & up keep of the Temple grounds will be emaculant as are the grounds of the Church Temple on the East side of Las Vegas!

<b>Comments</b>	<p>I support 100% the site plan for the Church of Jesus Christ of Latter Day Saints Temple. Regardless of what faith or beliefs an individual has, in America, we are supposed to have freedom of speech and religion. This beautiful Church of Jesus Christ of Latter Day Saints Temple that is proposed to be built is a resemblance of that. The same would be if it was a Jewish or Muslim temple. The argument from some maybe that it was zoned for a high school. My response would be who in the neighborhood wants a high school in such a nice upper class neighborhood when they can have a big beautiful temple of the Lord that will be even more nice and prestigious than any of the homes in the area. Who in the neighborhood wants to have the loud friday nights with the blinding lights of football games, not me! For those who may be concerned about the possible disturbance of this temple in the neighborhood, there is no need, just make a trip to the other temple at 827 Temple View Dr. LV NV 89110 and spend a short time or not so short time and you will realize the peace and quite that surround these buildings instead of the noise, traffic and friday night football games from a high school. The surrounding neighbors should be happy that their property value will go up more having a temple built there versus a school.</p>

Comments	I support the site plan for the LDS Lone Mountain temple. I live less than 2 miles from the site & will be happy to attend there once it is complete. I think it will fit in fine with the surrounding neighborhoods & will bring beauty to the area.

<b>Comments</b>	I live in the rural preservation area in which this project is proposed. I am full support of this project and am eager to have a temple close to my home. It is a peaceful place of worship that will only bring beauty and calm to our neighborhood. So very excited for this temple to be built in this proposed lot.

Comments	I support the building of this temple. It will make it easier for me to worship in the temple regularly and it will bless the lives on many people. I have many friends who are not members of the church in the area that are excited for the possibility of a beautiful temple with this design.

<b>Comments</b>	I look forward to the temple being built as a sanctuary of peace, strength, and devotion for the community. Because temple patrons make promises to love others, to be more understanding, and to live lives of meaning and purpose, Las Vegas will be a stronger, more inviting place with the temple.

Comments	<p>The design and landscaping standards of the temples of the Church of Jesus Christ of Latter-day Saints are of the highest caliber and are built to complement and augment the natural beauty of the areas in which they are built. Our family is very excited to have this dedicated place of worship close to our home in the Northwest part of the Las Vegas Valley. The youth I teach are also looking forward to being able to worship here in their own area without having to travel across the valley to reach the Las Vegas Temple. The Lone Mountain Temple will help these high school students feel their worth as children of God and feel the joy that comes from serving others. It will fortify them and shine light into their lives in an increasingly complex world .</p>

Comments	I SUPPORT the building of the Lone Mountain Temple by the Church of Jesus Christ of Latter-day Saints. I support religious freedom and the opportunity that all Americans should have in exercising their own faith according to their own conscience and will. The Temple is a House of the Lord and provides a place for peace. I love going to the Temple - the one on the east side of town as well as others when I travel for work. I hope that the planning commission and our City Council teams will recognize the the contributions of the people of our faith to the establishment and growth of this Valley and also support the establishment of this Temple.

<b>Comments</b>	As a resident of Ward 4 for over 20 years at this address, located only 2200 feet due east of the proposed site, I find all aspects of the design as proposed to be very well thought out and look forward to the enhancement this facility and its' grounds will bring to the area. Thank you for your time.

Comments	The proposed temple and chapel fit nicely on this 20 acre parcel, located between two CCSD school sites and west of a 30 acre BLM parcel. This is a Civic use that is surrounded by other Civic uses. This is the highest and best use for this parcel as it creates a Civic use area in a growing residential community and the site is well served by Grand Canyon Drive and Alexander with close proximity to the I-215. The building floor plates appear to total less than 60,000 sq. ft. on 20 acres. This is a very low density use and will have beautiful landscaping to shield the buildings from the surrounding neighborhoods.

<b>Comments</b>	<p>I fully support the application for zoning change for the proposed LDS temple. The current LDS temple on the east side of town has been a great neighbor to the residents around it and certainly raised property values. In other cities around the country where a temple is located in a residential area, they have always seen property values increase. But, maybe even more important, the temple is a good neighbor and would greatly increase the beauty of the surrounding area. The temple is a beautiful structure by itself, and the Church would include beautiful landscaping that would increase the value and beauty of the whole Lone Mountain area. It is a much better option than either a commercial strip center, business complex, or commercial project.</p>

## Comments

I strongly support this application for the construction of the Lone Mountain Temple of The Church of Jesus Christ of Latter-day Saints (the "Church"). I am writing this both in my capacity as an individual, and in my capacity as the President of the existing Temple of the Church on the east side of the Las Vegas Valley near Sunrise (Frenchman) Mountain. Temples are our most sacred buildings. In them we perform our most Holy and sacred ordinances, and enter into sacred covenants to God to be obedient to his commandments, keep the laws of the Gospel of Jesus Christ (including to love God and our fellow man), keep the law of chastity (or purity), and to consecrate our time and talents to building up the Kingdom of God on earth. This is also where holy eternal marriage ceremonies are performed, and where families are bound together for eternity. Our members are encouraged to attend the Temple frequently after these ceremonies are performed, and covenants are entered into, to be reminded of the sacred covenants they have made and to receive power from God to stay true and faithful to the commitments they have made. The Temple is literally considered to be the "House of the Lord." As such, it is lighted at night in holy reverence to God, and to encourage our members who look upon it, to in turn look to God for help, patience and strength to persevere. The Temple spire (including its height), is a very integral and sacred part of the Temple in that it points our members to look to God, and pray to him for help to keep the covenants they have made in the Temple, and to receive power, knowledge and inspiration, as well as to receive increased hope, comfort, and peace as they meet life's challenges. To accomplish these objectives, the Temple itself, as well as the grounds surrounding it, are beautiful, and above all "quiet." Thus, this sacred symbolism of the Temple is an integral part of our regular worship activities as we look to God for his mercy and help. The Temple illumination, and its spire, are very serious and Holy symbols of our Temple worship. Please allow us to build this oasis of hope in this part of God's desert. William H. Stoddard, Sr., Temple President, Las Vegas Nevada Temple.

Comments	<p>I fully support the Lone Mountain Temple project. A temple is a sacred place, and all aspects of the temple is a part of the religion, from the location that is selected, to the design, to the height of a steeple. It is important that religious freedoms are preserved. You can feel that peace and quiet both inside the temple as well as on the temple grounds. A neighborhood with a temple in its midst is a quiet, and serene neighborhood. In comparing many other temples already built, the building surprisingly does not stick out among the background, but it rather enhances the natural surroundings nearby. It is a place where anyone who enters makes and renews commitments to become more like the savior, Jesus Christ. They leave the temple a little kinder towards other people around them, and with a resolve to be a little better than they were before. In our day of turmoil and anger, we need a place where citizens are committing to becoming better citizens, and where we can find peace and comfort during times of trial.</p>

<b>Comments</b>	<p>I stand in support of this temple, it will for sure increase traffic in the area no different than a new community will, a park will, a community center will, and or any other proposed use of this land. This temple will bless the lives of all the citizens in this area of Las Vegas and throughout the greater Las Vegas valley also. We will see property values strengthened, we'll see skilled professionals with an interest in living in Las Vegas move here. All members of the community will be able to take part in enjoying the beauty of the temple grounds. Which are always very very well manicured and kept. This temple here in the north west part of our beautiful city will be yet another way to illustrate that we are community that believes in families, we are a community that believes in community, we are a community that puts faith first, and most of all we are a community that allows its members to worship as they freely choose. May god touch your heart providing you the clarity of the significance this temple brings and continue to bless our beautiful city.</p>

Comments	<p>Currently, our family has to drive 45+ minutes to get to the Las Vegas Temple on Bonanza and Hollywood. This would more than cut our commute in half and we could go more often. This is a place I go for peace to try to become a better person.</p> <p>Thank you for your consideration of this project for the Lone Mountain Temple.</p>

<b>Comments</b>	We live within the 1,000 ft radius of this projected temple site. We have a horse and chickens, and 5 kids! It will be a great addition to our neighborhood/community. We support the freedom of religion and would support any religious structure to our area. We have the Lutheran church on Cheyenne Avenue and Fort Apache, the Catholic church on Centennial and Fort Apache, The Baptist church on Craig Road and Valadez, the Jehovah Witness church on Florine Avenue and Cimarron, and others nearby. We do not feel this structure will harm our way of life as far as lighting and traffic goes. We look forward to the road improvements. LDS temples are beautiful in construction/design and are preferred over another walled-off gated community. Thank for your service and attention to this matter.

Comments	I feel such joy in my heart that a temple associated with The Church of Jesus Christ of Latter-day Saints has been announced for the Lone Mountain area here in Las Vegas. As a member of the Church, I consider this edifice to be a special, sacred place. In the holy temple, I can pray, ponder, worship, and find peace in the midst of a chaotic world. A temple in my vicinity will bring much joy and peace in my life.

<b>Comments</b>	I support the construction of this house of worship fully. I'm native to Nevada and I've seen this city grow in great leaps and bounds in my 46 years. I know the city has seen what a great influence the temple in the east side of town has been. This will be a similar experience on the west side!

Comments	The Church of Jesus Christ of Latter-day Saints does much to support and serve this valley. The City needs to reciprocate as it is through their temple service that members receive the spiritual strength to continue to serve others and our community -- one big, important, ongoing circle. Because of the increase in membership, the one temple at Sunrise Mtn cannot sustain the demand. Thank you.

Comments	The proposed Lone Mountain Temple will be a beautiful addition to the area. I have been to many similar buildings throughout the country and they are always beautiful, clean, and reflect the native landscape and culture in their architecture and landscape. As someone who has regularly worshiped in similar temples, I feel a great sense of peace and calm even being on the temple grounds and I believe that the temple is God's house. I know we will benefit from having the temple built here.

<b>Comments</b>	<p>I am so excited for the Lone Mountain Temple to be built. I love taking my 5 children to the current temple in Las Vegas to worship and practice my religion but unfortunately we are unable to go often because of the distance. I am excited to be able to worship more often and for my many of my children to be able to attend the temple on their own since the temple will be close enough for them to get to on their own. My family moved to Las Vegas in 2015 from California. I remember the excitement of the Newport Beach temple being built 30 minutes from my home and how that temple enriched and enhanced the lives of so many around it. Every time I attend the temple it is like visiting a calm in the storm of this crazy contentious world. It is a quiet place as well as peaceful property that when visited allows for meditation. It is a place to focus on loving others and being better neighbor, family member -and person in general. Thank you for considering the building of this holy place for our northwest community.</p>

Comments	<p>This temple will be a great addition to our neighborhood and Las Vegas. The quality of life will improve due to the peaceful nature of the building and the grounds surrounding it. As the valley has grown over the 49 years I have lived here we have seen growth unabated with suburbanization ruling the development. A temple in the midst of this side of town in a non commercial setting will add to the ambience and balance of the neighborhood in a way that none else can. We will reside and be able to worship in all the same area, close to home without the stress of driving an hour across town and back again. I live in the county rural preservation district, one half mile from the site and look forward to being able to attend this temple. It will be a welcome respite from a busy &amp; hectic city. New bonds of friendship will form amongst those of us who live in the proximity of this temple.</p>

Comments	I support having an LDS Temple to be added to our neighborhood and It will bring up property values. These building are crafted with beautiful architecture and the traffic brought will be much less than a school or other community building. The types of people who attend the temple are typically respectful and quiet.

Comments	I respectfully request that the City Council approve the referenced General Plan Amendment/Zoning, which will facilitate the building of a temple of The Church of Jesus Christ of Latter-day Saints. Temples are fundamental to the worship of members of The Church of Jesus Christ of Latter-day Saints and bring blessings to its members and the communities in which they are located. I fear that the opposition is based on misconceptions of The Church of Jesus Christ of Latter-day Saints and its members and does not consider the immaculate care taken of temples and their positive impact on the neighborhoods where they are located.

Comments	<p>The temple is not another church. It represents a literal house for God. Inside, Church of Jesus Christ of Latter-Day Saints members connect with and serve their ancestors and God. The proposed building will serve many community members by helping them come closer to God. Currently, in Las Vegas, there is one temple. The temple is often close to full capacity, and activities involving youth are often booked out several weeks in advance. Having a second temple will help meet the needs of our youth. We thank you for your consideration.</p>

<b>Comments</b>	I was born and raised in the Lone Mountain area of Las Vegas. I am now raising my own kids in this area because of how peaceful and beautiful it is. We love all of the walking trails and parks in the area. I know that allowing the Lone Mountain temple to be built, will add to the peace and beauty of the area.

Comments	<p>Site Plan Review: I believe this LDS Temple will be a beautiful neighbor to this community. The Church of Jesus Christ of Latter-Day Saints always maintains these Temples, both the building and the surrounding property. The temple is considered a sacred place for the members of the church, who attend nicely dressed. If folks looked at the Las Vegas Temple on the eastside of Las Vegas, they would see that. They could also see the amount of traffic--which I have rarely seen there, as I attend it. This Temple is important to the many Latter-Day Saints who reside in this valley and want to see the Lone Mountain Temple approved and built, especially those of us in the entire west side.</p> <p>Thank you for your consideration.</p>

<b>Comments</b>	I support this project as I believe it would be beneficial to the community to have a beautiful building with nice landscaping instead of an empty lot full of scrub brush, weeds and trash as it currently stands.

<b>Comments</b>	<p>This location is much closer for me, my family, my friends &amp; members from Kyle Canyon to Tonopah &amp; the far reaching western towns like Sandy Valley thru Death Valley.</p> <p>I really hope &amp; pray that we can come to an agreement with the residents that will satisfy all parties. I believe the Church is ready &amp; willing to make the changes necessary.</p> <p>Peace &amp; love to all who read this!</p>

<b>Comments</b>	Please approve all plans for the Lone Mountain Temple. The temple will be a beautiful place of peace and quiet. I feel all places of worship bring goodness to our neighborhood and am grateful for the way these places make myself and those around me better family members, neighbors, and citizens. Thank you.

<b>Comments</b>	<p>Mary was born and raised in this area and John has lived here over 40 years. Our home is less than 2 miles from the temple site and we raised our 3 children here. Now they live in the area and are raising their families here. We love living in the Northwest/Lone Mountain area!</p> <p>Developers have been allowed to build larger roads with street lights and houses on lots less than the 1/2 acre minimum, which has increased traffic and lights in this area, against our opposition. We understand these concerns.</p> <p>We feel the temple will enhance and not negatively impact the area. The lights will shine on the building and should not adversely impact the community. The traffic will not increase any more than if developers build homes there and will be less than a busy school or other development. We support having the temple built in our community.</p>

Comments	<p>This project is very important for me and my family. When it was announced we were ecstatic! The temple will bring so much value to our community and the families in it because...</p> <ol style="list-style-type: none"><li>1) No one builds and maintains such beautiful groups as well as the LDS church.</li><li>2) The temple will bring the community together as we share our beliefs and build comradery as neighbors.</li><li>3) The Church of Jesus Christ of Latter-day Saints is, and has been a pillar in our community since the founding of Las Vegas.</li><li>4) The temple is a symbol of the value the church places on families, love, and peace, which is beneficial for everyone in the community, member and non-member alike.</li></ol> <p>I understand that some community members who oppose this proposition are worried about the land development, light, and it obscuring their mountain views. These are valid concerns, and I appreciate the opportunity to discuss this as a community. I truly feel that these concerns will not be as bad as some people are thinking, and whatever the building of the temple takes away from the neighborhood, it will only multiply tenfold in what it gives back.</p>

Comments	<p>The site plan for the Lone Mountain Temple provides significant and important buffer zones between the building and the closest residences. I was surprised to realize how far away the closest residences will be from the temple structure. Regarding traffic, some of my neighbors have expressed concerns about the amount of traffic that the temple will attract. They thought it would have extremely heavy traffic like mega churches (3,000 seat auditoriums) that often require police/safety presence to handle. Once I explained that the vehicle traffic to the temple will be a slow staggering of vehicles in and out throughout the day, their concerns were alleviated. I have found that much of the concerns over the Lone Mountain Temple come from misunderstandings or fear of the unknown.</p>

<b>Comments</b>	<p>I know there is concern for those who live in the area where the temple is proposed to be built. My family also lives there. The designers of temples are extremely aware of how the size, shape, lighting, landscape and other factors will affect the neighborhood. I have personally visited temple sites in several different cities and states, they are always beautiful, perfectly maintained and designed to not interfere with the homes around them.</p>

Comments	<p>I support this project and feel there is a definite need in this area. I understand the fear of the unknown from nearby residents. Once constructed, the grounds will be quite and will enhance the area. Development is happening everywhere in this area and has been for many years with curbs and lighting installed on all major streets. CCSD owns adjacent property to the proposed temple site and once built will impact the traffic and noise far greater than the temple ever will. I respectfully ask that this proposal be approved and the property be developed for the benefit of the community.</p>

Comments	There are tens of thousands of members of the Church of Jesus Christ of Latter Day Saints in the valley, but there is only one temple on the east side. This new temple would provide greater access to a temple for thousands of members on the west side. Temples are beautiful both inside and outside, and increase property value for property in the surrounding area. Temples are absolutely vital to the practice of our religion. I urge you to approve this project.

<b>Comments</b>	<p>We are so thrilled to have an additional temple in our valley! The Church of Jesus Christ builds beautiful building known as their temples. This is a place of additional worship, different from our chapels, where we worship on Sundays. The temple is a place of refuge, where we perform ordinances and make covenants with God. It is vital to our religious beliefs. Temples bring a peace and strength to areas where they are built. Our people love God and are respectful to others. When a temple is built it blesses the whole valley! There is a strength &amp; peace that comes with that beautiful edifice. I love the temple so much as I am able to feel God's Spirit there, feel direction in my life and know my ancestors are needing me to do their work for exaltation.</p>
-----------------	---

I just wished I lived in the Lone Mountain area to be edified having a temple right in their neighborhood. However, because we live on the west side of town, we are grateful to have a temple on this side of the Valley. it will be much easier for us to attend as we won't have to spend so much time in traffic as we do now. I know the temple will bless those living close by with their beautiful landscaping, architecture, and cleanliness! Lucky Lone Mountain area!

<b>Comments</b>	I support the site plan review for project 24-0152. I cherish the lifestyle offered in the Northwest.
-----------------	---

As a member of The Church of Jesus Christ of Latter-day Saints, Temples, in general, contribute positively to communities by attracting respectful visitors. They are architecturally stunning, constructed to the highest standards, and meticulously maintained with a commitment to being good neighbors. The site plan appears to be a stunning rendition with buildings constructed in a manner vastly superior to all others in the area with grounds that will be beautiful.

I am enthusiastic about the prospect of having a temple in the northwest area of Las Vegas. I believe it will only enhance the beauty, tranquility, and value of the Lone Mountain area. Therefore, I am wholeheartedly in support of Project #24-0152.

Comments	<p>My husband and I support the proposed building of the temple on this site. The Church of Jesus Christ of Latter-day Saints has gone to great lengths to make sure that the building falls within the parameters set forth in the laws and statutes.</p> <p>This building will do nothing but beautify the area. It will bring good people into the area. Although the building itself is not open to the general public, the grounds are. The temple grounds are immaculately cared for, and a beautiful, peaceful place to seek a respite from daily life.</p> <p>People who attend the temple are trying to become better versions of themselves, which would make them better neighbors. The youth who attend the temple are involved in doing good.</p> <p>I have heard people's complaints, how they worry that the light from the temple will wash out the night sky. I live in the area, and thanks to the lights of Las Vegas, there isn't much to see in our night sky. I've been up to the temple on the East side of town, at night. While I find that the area right around the temple to be very well lit, by the time I'm out to the street it is a different story. The light doesn't reflect that far.</p> <p>For those who worry about the size of it obscuring their view of the mountain, I invite them to visit the temple on the East side of town. While driving up Bonanza Rd, you don't see much of the temple until you are almost upon it. It is obscured by the houses that have built up around it. There are houses between that temple and the mountain that go higher up the hill. The temple does not block the view.</p> <p>I have heard the news reports and how they say that the residents in the Northwest part of the valley are against this project. Apparently the reporters and those in opposition don't realize that many of their neighbors are members of the Church of Jesus Christ of Latter-day Saints, who do want the temple. I wish there wasn't so much opposition. I understand where they come from, but they live in a city that hasn't stopped growing since the early '80s.</p>

<b>Comments</b>	<p>As previously stated in my desire to approve a temple in this area, I fully support building a temple on the approved site. This will add value to the surrounding property as well as be a deterrent to crime, with evening lighting. Grounds are kept up and noise will not be an issue. People who attend the temple are held to high moral standards and will not be in any way an issue with the residents as they pass by their homes. A temple is meant to bring peace. If the land is left open for sale it could make it accessible to undesirable owners who would not give the same respect to the land and residents.</p>

<b>Comments</b>	I am absolutely supportive and excited for a temple to be built closer to my home! Temples are not only beautiful, but central to my faith and religious practice. They are a blessing to every community and seem to lift the standard of cleanliness and order around them. It is a peaceful place where many go for respite, even on the grounds. We eagerly look forward to having the Lone Mountain built!

## Comments

I was born in Las Vegas, Nevada, as was my father. My Grandchildren are 7th generation Nevadans. In 1994, my husband and I moved to the Northwest part of the Las Vegas Valley. Our home is located in the area designated as the Northwest Rural Preservation Area. I have seen tremendous growth in the area since our move, including the construction of many necessary schools, parks and churches in our residential neighborhoods. I am also a member of the Church of Jesus Christ of Latter-day Saint and would like to voice my support for the proposed temple located near Alexander and Grand Canyon. I attend the temple frequently for religious instruction and worship. I believe that the time I spend in our temple will help lead me back to the presence of God.

Currently, there is only one temple, located near Sunrise Mountain, in the Las Vegas Valley. Traveling to the temple can take anywhere from 45 minutes to 1 hour and cost about \$8.00 in gas. When the proposed new temple was announced by our Church, I was elated. I can drive to this proposed location in less than 5 minutes.

I understand some of the opposition aimed at the proposed temple and respect the right of anyone to voice opposition and concern. However, places of worship, along with schools, have always been allowed in residential areas. In fact, the Clark County School District ("CCSD") owns two parcels of property adjacent to the proposed temple site. At one time, CCSD contemplated a high school in this exact area, and it is likely a school will be built on one of the parcels adjacent to the temple.

I have read the Interlocal Agreement Between the City of Las Vegas and County of Clark relating to the Northwest Rural Area, dated December 21, 2016. I have also read many comments criticizing my Church for not following the Agreement. However, nothing in the Agreement precludes the land from being used as a place of worship. This was confirmed by the recent webinar. The height of the proposed temple is also in compliance. Churches are routinely built in residential areas. I have seen the renderings of the proposed temple and believe it will enhance the area. I respectfully request your support for the issuance of a special use permit for this temple.

## Comments

I submit this comment in support of the Lone Mountain Temple. I am a ward 6 resident. We have lived in the Northwest Las Vegas Valley for 12 years.

In the musical Fiddler on the Roof, Tevye explains that, "because of our traditions every one of us knows who he is and what God expects him to do." This, even though to an outsider the traditions may seem to serve no functional purpose. Similarly, the high profile of temple spires remind Latter-day Saints, like myself, "who [I am] and what God expects [me] to do." I grew up in Cache Valley, Utah where the Logan Temple sits on a high-profile bench that overlooks the entire valley. The Logan Temple can be seen from anywhere in the valley- as far away as 40 miles. When I still lived in Cache Valley, the temple spires reminded me of the promises I made in that building, and in turn who I am and what God expects me to do. Temple spires also remind me of the ties that bind my family together in this life and beyond. I look forward to a similar experience with the Lone Mountain Temple, where our children will likely make similar promises and be married. Our kids are born-and-raised. This is their home town, and the Lone Mountain Temple will be their home temple.

When we see the 216-foot spire while commuting to work, driving to soccer practice, or running errands, we will be reminded of who we are and what God expects us to do. Frankly, I am disappointed in the Church's proposed design. The Lone Mountain Temple should have six spires, not one, three facing east and three facing west. Those spires should be at least 288 feet tall, the height of the Washington DC Temple.

In any event, the Lone Mountain Temple will not only create internal space for worship, but create a highly visible, external reminder of who I am and what God expects of me.

I urge you to vote to approve the Lone Mountain Temple.

---

Comments	<p>I think having more religious buildings in our community is an asset to Las Vegas and the Lone mountain neighborhood. I support the proposal and I look forward to having a quiet religious space where people are free to walk the beautiful grounds, and church members can peacefully engage in their spiritual beliefs. I understand the concerns for the height of the temple, but religious buildings across the valley incorporate spires, towers, and steeples. The architecture and lighting of the temple will be a unique and peaceful feature of the neighborhood. I think the church responsible for building the temple has taken time to carefully plan and meet requirements.</p> <p>I appreciate the city council taking time to resolve concerns and improve our community.</p>

Comments	A temple is a beautiful place, It is a peaceful place that is so needed in today's world. The building and its surroundings will always be kept lovely and clean. This is a much-needed addition to our community instead of having casinos and other places like that this place will be of worship and peace. Historically temples help increase the real estate value in their surrounding areas so financially this is a bonus too!

<b>Comments</b>	We appreciate all that the Planning Commission is doing to provide a fair, balanced, and ethical decision in this matter. Anticipation of the proposed Lone Mountain Temple has been a source of so much joy to thousands of Las Vegas residents, and we pray that the Commission will see fit to approve the Site Plan after review. Thank you! - The Ferre Family

Comments	What a blessing to have a HOUSE OF THE LIRD built in our neighborhood. Being able to do the Lords work and feel of his spirit is something that one will always remember and be blessed for their service. The beauty, peace and spirituality that radiates from the structure and grounds will be amazingly wonderful.

Comments	<p>We need this temple to serve our growing needs. Please leave the plans as submitted so the community and neighborhood can visit the beautiful temple and well kept grounds. This will provide peace and love of our Savior Jesus Christ. We need more of this on the west part of town. The proposed temple will be located not far from my backyard and this will help my family in so many ways. Please allow this house of worship to be built. It will be a gorgeous addition to the neighborhood and bring so many smiles! Thank you for your consideration.</p>

<b>Comments</b>	Having a temple built in this location can only help to uplift and strengthen our community. This beautiful building can only be matched by the wonderful ordinances that happen inside to help create better members of society. I know that building this temple will edify everyone who gets to witness its splendor.

Comments	<p>I believe that the Lone Mountain Temple will be a significant addition to the Lone Mountain Community and nearby area. There are many members of the Church of Jesus Christ of Latter-day Saints in this area of the Las Vegas Valley. The Temple and its grounds is a very beautiful and peaceful place for members and their families and friends. I am very supportive of this project. Once the temple is completed there will be an open house for all members of the public. This open house will include tours for all members of the public to see and witness the beauty and peaceful feeling inside and outside the facility.</p> <p>The project is important to my family as we worship at the temple frequently!</p>

<b>Comments</b>	<p>I support the building of the temple for the Church of Jesus Christ of Latter Day Saints. I go to the temple to worship Jesus Christ and serve others. The current temple in the valley is far from where I live. Having a temple closer to my family will make it easier to worship and feel of the peace the Savior brings. As I attend the temple, I will be respectful of those around me. The temples all over the world that I have visited have been very peaceful in their surroundings. They bring a great hope and light to the communities around them.</p>

<b>Comments</b>	<p>The announcement of this structure has already significantly increased the value of the surrounding homes and properties. This property was bought from CCSD School District which had slated a high school to be built. This structure will be ever so much more aesthetic, quiet and well maintained than typical high school properties are.</p>
-----------------	--

The population supports the need for this structure in this part of town.

Comments	Temple is very sacred for us; it is the house of the Lord. It is always peaceful and quiet and calm where you feel the spirit not only for the members of our church but for everyone. Nowhere in the history of building our temples here in US and around the world gave disturbances and nuisance or destruction to others. This is where the spirit dwells where we learned eternal truth and serving others.

<b>Comments</b>	Having a temple in the Lone Mountain area would bring nothing but a sense of beauty and peace to the neighborhood. If you go to the East side of town near Sunset Mountain, the area surrounding the temple of the Church of Jesus Christ of Latter-day Saints is well kept and beautiful. I believe the market value of the homes surrounding any of the temples increase as well. It would be a great addition to the valley!

Comments	Dedicated temples of God bring a feeling that can't be described. The beauty and peace extend to all of its well maintained landscapes which are available for anyone to enjoy. The addition of such tranquil places are few and far between these days. I know that this temple will bring increased peace and joy to all who are near this location.

## Comments

I live within the nearby Rural Neighborhood Preservation ("RNP") overlay district and support this project and all related applications. I appreciate that Land Use Forum that the City of Las Vegas hosted on May 7th as it put to rest a lot of the main objections to the proposed temple, namely that the project is not within the RNP, the temple is not prohibited by the Lone Mountain Interlocal Agreement ("LMIA"), the LMIA does not prevent this project from being approved for a variety of reasons, that the building height of 68 feet is within regulations set forth in the municipal code when accounting for setbacks and stepping back of upper floors pursuant to LVMC 19.08.040(b)(2)(c), that LVMC 19.06.040(l)(2)(c)(ii) exempts church steeple heights from the maximum height provisions, and that the church and temple are not a commercial/industrial land use.

I have heard those concerns for months by opponents of the temple, who have used them to gather additional opponents to oppose this place of worship. As a member of the church that does live WITHIN the rural neighborhood preservation area, I believe these untruths have created a false premise for many people who might not otherwise oppose the temple. It has also done tremendous harm by creating division and unfair bias to those of us living nearby who wish to have a place to worship.

With the Land Use Forum resolving those main concerns, the concerns left are traffic, lighting, and whether the temple will bring industrial/commercial businesses to the area. Regarding traffic, the current Las Vegas temple was completed in 1989. According to online government maps there are currently three (3) traffic signals within a 1.0-mile radius of that temple. The first, and CLOSEST, traffic signal near the temple was not installed/activated until 2009, twenty (20) years after the temple was completed. To determine if a traffic signal should be installed, the county had a traffic engineering study performed wherein the following factors were evaluated: "The number of vehicles and pedestrians that use the intersection; the intersection's physical makeup; average speed of the vehicles; the number and types of crashes that have occurred at the intersection; nearby developments; and the traffic delays during peak hours[.]" The construction of the Las Vegas temple in 1989 did not impact traffic flow/speed/crashes of the intersections within 1.0 mile of the temple to necessitate the installation of a traffic signal for twenty (20) years, during which time additional housing developments were also introduced within that radius of the temple. The construction of the Lone Mountain temple would likewise not have any immediate impact on traffic. According to the Staff Report for this proposal, the roads bordering the temple do not currently exceed 27 percent of capacity and with completion of the project, are expected to be about 37 percent capacity.

Regarding lighting, while the LVMC does not include development standards for lighting in Civic districts, the proposed lighting meets the development standards for commercial/industrial lighting under LVMC 19.08.040 and for residential under LVMC 19.06.040. For security purposes, property owners should be entitled to have reasonable lighting

on their buildings and surrounding land to deter crime and vandalism. From my house within the RNP, I can already see the 215 Highway lights; the stadium lights for the 12 baseball fields at Majestic Park that is less than 0.25 miles from the temple lot, the Centennial High School lights; the Strip lights; the quarry lights near the 215 Highway and Lone Mountain Road; the bus lot lights near Ann and the 215, the Epic Storage lights near Ann and the 215, the a variety of lights at schools, businesses, and parks in the area; and streetlights on Alexander Road, Lone Mountain Road, Fort Apache Road, and Anne Road. I hope to be able to see the lights of the temple too because from the renderings of the project, it appears that the temple will be built to the same standards and quality that the temple on the other side of the Valley is, which is also built next to a neighborhood with large lots. Thus, the building elevations, design characteristics, and other architectural and aesthetic features will not be unsightly, undesirable, or obnoxious in appearance. The steeple is narrow and will not obscure full views of the mountains, sky, strip, or other areas. This project will beautify the area and increase the property values of us that live nearby.

The project will also not bring industrial/commercial businesses to the surrounding area because, as indicated during the Land Use Forum, the temple project is not an industrial/commercial land use. Additionally, the current Las Vegas temple was completed in 1989. In the 35 years since that temple's completion, the closest industrial/commercial business building is an Albertson's approximately 1.37 miles away at Lake Mead/Hollywood, which was built in 1999 - 10 years after the construction of the temple. There are already industrial/commercial businesses closer than that to the proposed Lone Mountain temple. Specifically, there is a retail center approximately 1.24 miles away which was built 20 years ago in 2004, that is currently occupied by Subway, a smoke shop, and a disc golf shop at Cheyenne/Fort Apache. Additionally, the temple project proposes to change the zoning to Civic (C-V) which is a special area zoning district under LVMC 19.00.100(B)(3) and not included in the commercial and industrial uses of LVMC 19.00.100(B)(2). According to Las Vegas' 2050 Master Plan, comparable land use descriptions and zoning districts with Civic zoning are Parks, Recreation, Open Spaces, Public Facilities, Planned Development, and Planned Community; but not commercial/industrial. Although Planned Development and Planned Community zoning is a comparable zoning, neither will be built around the temple because a Planned Development requires a 40-acre parcel (LVMC 19.10.040) and a Planned Community requires 3,000 acres (LVMC 19.10.030). That amount of undeveloped land does not exist around the proposed temple. As a result, approval of this project and a change of zoning to Civic will not set a precedence for the city to change the zoning of nearby properties to the completely incompatible zoning districts of industrial/commercial.

It is important to note that another faith group was allowed to construct a Church/House of Worship within the LMIA within the last eight (8) years. Construction was completed in 2016 of the Saint Anthony of Padua Roman

Catholic Church located at 6350 North Fort Apache. There is also another church in the nearby community that is located on a C-V zoning classification, including a church located at 8801 West Alexander Road. Because of these other places of worship within the LMIA, this project is compatible with the City's General Plan, adjacent development, and development in the area. Denial of the project based on the design, location, or steeple height (all of which comply with LVMC); while allowing prior projects that also complied with LVMC, would be unfair and a violation of the Religious Land Use and Institutionalized Persons Act (42 USC 2000cc), which restricts government entities from imposing or implementing land use regulations that impose a substantial burden on the religious exercise of a person or religious institution.

An additional temple is needed in Las Vegas because of the tremendous population growth that Clark County has experienced since the first temple was announced in 1984. At that time, the population in Clark County was approximately 544,893 and has since grown to 2.323 million as of 2022 when the Lone Mountain temple was announced. With that rate of growth and continual growth in the years ahead, Clark County could support a third, or fourth, temple as well.

The project will not have an adverse effect on the community or nearby properties. In fact, development will be beneficial beyond just the beauty and increased property values. Historical events have demonstrated how important off-site improvements are for drainage control in the Valley, especially in the northwest part of town. Additionally, sidewalks on public streets provide safer pathways for children to walk to school. During storms, children are forced to walk in the middle of the road when sidewalks are absent.

Comments	<p>The proposed building of the Las Vegas temple for the Church of Jesus Christ of Latter Day Saints will not be an intrusive building more than a basement, ground floor, perhaps a second floor, and air space to accommodate the spire with the angel Moroni atop its structure. There will not be an accompanying 4th floor. The sacred sessions will start in early morning and be finished before 11pm. There will not be any wild parties or noises associated with parties. Temple work for members is sacred and quiet and involves sealings, baptisms, endowment sessions, and initiatories, all of which are sacred and quietly administered.</p> <p>I urge the Las Vegas City Council to approve the building of the LDS temple. Its patrons will operate quietly on the temple ground ingressing and egressing in an orderly fashion. Temple work for LDS patrons is a necessary part of their beliefs.</p> <p>LDS Temples are designed &amp; built by by architects and engineers who respect the LDS needs for a sacred structure.</p> <p>Please approve the building of the Lone Mountain temple, It will not be a detriment to the neighborhood. It will not interfere with the nature the Neighborhood which is of open spaces away from the hustle and bustle of the big city life.</p>

<b>Comments</b>	My husband and I have been looking forward to this temple being built ever since it was announced. The present temple takes 50 minutes to an hour to drive to. It requires an appointment for the times that are best suited to our schedules since there are quite a few people who attend.

<b>Comments</b>	<p>I support this zoning change for the Lone Mountain Temple Project. Our family is so thrilled to know that another temple for the Church of Jesus Christ of Latter-Day Saints will possibly be built in our valley. We love the temple and its sacred meaning. The temple is a place of peace. We feel certain that just like the Las Vegas Temple on Sunrise Mountain has raised home values, and heightened the overall feel of the neighborhood where it is built, this temple will do the same. We lend our voices of support to this project!</p>

Comments	I strongly support the building of the temple in the Lone Mountain region of Las Vegas for The Church of Jesus Christ of Latter Day Saints. Temple worship is central to our beliefs and we affirm the right to worship as we please and invite all to join in our quest for the universal salvation of humankind through the ordinances performed there.

Comments	The purpose for constructing an additional Temple in Las Vegas was driven by the Youth of the church. Those that are 12-17 years of age have found the Temple to be a place of peace and safety. Our community needs to provide these opportunities for our future generations. There is no better opportunity we can give to our future generations.

Comments	I am in full support of the proposed changes to allow the Lone Mountain Temple to be built. It will beautify the already peaceful area and help maintain a reverent and respectful atmosphere. I know that it will bless the lives of all who live near it and I wish that my home was located more closely to it. I understand that it is a large building, but it will always be well maintained and is beautifully designed in a manor that compliments its environment.

Comments	I strongly support Site Plan Review, Project 24-0152 and the General Plan Amendment/Zoning, Project 24-0072. The temple will beautify and add value to the area and will serve to strengthen our community. Construction of temples by the Church of Jesus Christ of Latter-day Saints improve communities wherever they are located. Traffic is less than other high-density housing or commercial projects. There is no traffic on at least two days of every week and holidays. The neighborhood's infrastructure is improved. Outdoor lighting, including illumination of the temple itself, is of the highest quality. These improvements together increase safety and enhance the aesthetic environment. In short, where these Church temples are constructed, property values increase, crime decreases, lands are beautified, meditation and prayer spaces are created, and, overall, communities are strengthened.

## Comments

I fully support the building of the Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints. My comments are copied in large part from Matt Schriever, who lives in the Rural Preservation Neighborhood near the temple's proposed location and shared some excellent comments on a Change.org petition.

Matt shared, "According to online county and city zoning maps, this proposed temple is not located within a Rural Neighborhood Preservation overlay district, despite what a lot of people have said. While it is within an Excepted Area of the Lone Mountain Interlocal Agreement ("LMIA"), that agreement does not prevent this project from being approved because this property is not currently zoned Residential; instead, it is currently zoned Undeveloped.

The LMIA states that Excepted Area properties "must remain residential" however the temple property is not currently zoned residential. Instead, it is currently zoned as Undeveloped, which pursuant to LVMC 19.06.050 is a "temporary classification to be used until property is ready for development for a more intense, permanent use." The temple property cannot "remain residential" when it is not currently zoned residential. That would be like saying I must remain Australian even though I've never been Australian. The purpose of the LMIA is to prevent residentially zoned properties from being rezoned to something other than residential. If a property is not currently zoned residential then the LMIA does not affect it. The Subject Property is not currently zoned residential and therefore it is not affected by the LMIA.

Additionally the LMIA states, "The Parties agreed that they shall not accept any General Plan Amendments (GPA) nor amend their respective comprehensive plans, rezone such properties or approve special or conditional use permits TO ALLOW INDUSTRIAL OR COMMERCIAL USES[.]" (Emphasis added). Accordingly, the LMIA only prohibits changes to GPA's, zoning, or use to industrial or commercial. Pursuant to LVMC 19.00.100(B)(2), commercial and industrial zoning districts include Professional Office (P-O), Office (O), Designed Commercial (C-D), Limited Commercial (C-1), General Commercial (C-2), Planned Business Park (C-PB), Commercial/Industrial (C-M) and Industrial (M). This project proposes to change the zoning to Civic (C-V) which is a special area zoning district under LVMC 19.00.100(B)(3) and not included in the commercial and industrial uses of LVMC 19.00.100(B)(2). As a result, approval of this project will not violate the LMIA because the proposed zoning/use is not being changed for industrial or commercial uses.

I live within the nearby RNP and approve and support this project. From my property, I can already see the 215 Highway lights; the Centennial High School lights; the Strip lights; the quarry lights near the 215 Highway and Lone Mountain Road; a variety of lights at schools, businesses, and parks in the area; and streetlights on Alexander Road, Lone Mountain Road, and Anne Road. I hope to be able to see the lights of the temple too because

from the renderings of the project, it appears that the temple will be built to the same standards and quality that the temple on the other side of the Valley is, which is also built next to a neighborhood with large lots. Thus, the building elevations, design characteristics, and other architectural and aesthetic features will not be unsightly, undesirable, or obnoxious in appearance. The steeple is narrow and will not obscure entire views of the mountains, sky, strip, or other areas. This project will beautify the area and increase the property values of us that live nearby.

The project will also not have an adverse effect on the community or nearby properties. In fact, development will be beneficial beyond just the beauty and increased property values. Historical events have demonstrated how important off-site improvements are for drainage control in the Valley, especially in the northwest part of town. Additionally, sidewalks on public streets provide safer pathways for children to walk to school. During storms, children are forced to walk in the middle of the road when sidewalks are absent."

As a member of the Church of Jesus Christ of Latter-day Saints, I have been disheartened to see the negative tone to the rhetoric surrounding this temple on social media and even traditional media such as the Las Vegas Review Journal. Hateful comments calling members of my faith a "cult" and other derogatory terms makes it seem clear that the real reason for the opposition to this project is not a desire to 'maintain a rural neighborhood,' but rather bigotry, plain and simple. The Las Vegas Valley is quite clearly the opposite of rural. It is FILLED with light and large, gaudy buildings. To oppose the temple on the grounds that it will disrupt an otherwise rural environment is extremely implausible. The Lone Mountain temple would mean a great deal to the members of the Church of Jesus Christ in this Valley, and, as the lights of LDS temples turn off late at night, would not even add to the already vast amount of light pollution already filling this glittering Valley. I hope the city will support this project as I and many others do.

<b>Comments</b>	<p>If you are at all familiar with temples built by The Church of Jesus Christ of Latter-day Saints, then you know how they absolutely beautify the neighborhoods they are in. The Church goes to great lengths to ensure the architecture fits the style of their area. The landscaping design is among the most beautiful in the entire city, including local plants, flowers, and water features. Everyone is invited to enjoy the temple grounds; many reporting they have never felt such a peaceful setting before. Peace is the point. The temple is designed to bring peace to the area and the families it serves. The temple attracts quiet, peaceful families who serve with love and respect inside.</p>
-----------------	--

Because membership in the church has grown so much in Las Vegas, a second temple is needed to serve all of the families who wish to attend. Currently, members on the west side of town must drive 40 minutes to participate in temple worship on the east side. The worship is sacred and quiet. This temple will never attract large crowds or noisy people. It is a welcome respite in a city that is all about self-indulgence, vanity, and non-stop partying.

I wholeheartedly support the building of this new temple in Las Vegas.

<b>Comments</b>	I lived across the street for over 20 years from the existing temple. The grounds were exquisite and well maintained. The traffic was never an issue and barely noticeable. The building and lighting are inspirational, it is why I built my home there. Family caused me to leave. I wish it were possible for them to build this new one across the street from my new home!

Comments	We need more light in this world. We need more places where we can gather and worship. There are so many bad things going on in our world. We need places where we can feel safe and come together to worship. We need more places or families can come together. Providing safe spaces should be a priority to the city.

Comments	<p>Please allow religious freedom which includes a place for us to be close to Jesus Christ. Our children have been so excited for this opportunity. What a blessing it would be to have our temple here.</p> <p>You allowed a marijuana dispensary in eye view of my parents. These things happen. How could anyone say this temple is an eyesore. Look how beautiful the temple is on the east side.</p>

<b>Comments</b>	<p>As a life long resident of Las Vegas, and a resident of this particular area since 1998, I would like to add my voice in support of the proposed temple. I do so with recognition that the people in the Lone Mountain Rural preservation Area deserve to have their foresight to preserve this area as one set apart from the busyness and commercialism of Las Vegas to be recognized and honored in the fullest degree.</p> <p>I believe in the spirit of this beautiful rural neighborhood; a tranquil place of peace preserved away from the rush and the noise of this city. I can unequivocally declare that this same spirit is fully embodied and enhanced by the building of this temple. Everything that is done both in the design considerations and within its walls is designed to focus its occupants on eternal, sacred, reverent, and peaceful subjects.</p> <p>These Temples are designed for no other purpose. The members of the Church of Jesus Christ of Latter day Saints are under sacred obligation to their God to live the principles of peace taught to them inside. Those individuals who come to the temple are affected by this spirit. Whether a person goes within it's walls or only admires it's outer design, that individual will readily feel a spirit of peace, one of tranquility, and find themselves preserved away from the rush and commercialism of the world while in proximity of this temple.</p> <p>Without reservation, I can say that the people of the Lone Mountain Rural preservation area and those throughout the surrounding neighborhood area will be recipients of such a spirit as they support this project. I hope that our mutually supportive goals will find expression in the building of this beautiful building.</p>

<b>Comments</b>	<p>The temple will be an asset to the community. It will improve the surrounding area and be aesthetically pleasing to the eye. LDS temples are known for being beautiful buildings. It will help bring up the property values of the surrounding homes. I can't think of anything better to live by. LDS temples are always quiet and peaceful. I fully support the building of the Lone Mountain Temple.</p>

<b>Comments</b>	<p>I support this project. This house of worship will not disrupt the neighborhood in the manner the opponents believe. The spire represents our looking upwards towards God. This is not a 20 story office building with floodlights pointing into neighbors houses. The building and lighting are meant for us to symbolically turn our minds and hearts to God. Casinos get their variances near residential communities all the time. I hope a house of worship could get the same if there's need for a variance.</p>

Comments	<p>13 And one of the elders answered, saying unto me, What are these which are arrayed in white robes? and whence came they?</p> <p>14 And I said unto him, Sir, thou knowest. And he said to me, These are they which came out of great tribulation, and have washed their robes, and made them white in the blood of the Lamb.</p> <p>15 Therefore are they before the throne of God, and serve him day and night in his temple: and he that sitteth on the throne shall dwell among them.</p> <p>16 They shall hunger no more, neither thirst any more; neither shall the sun light on them, nor any heat.</p> <p>17 For the Lamb which is in the midst of the throne shall feed them, and shall lead them unto living fountains of waters: and God shall wipe away all tears from their eyes.</p> <p>Revelation 7:13-17</p>

Comments	I look forward to the Church of Jesus Christ of Latter-day Saints, building a temple on the Lone Mountain site. Every temple I have had the privilege of visiting was a wonderful experience. The area is respectful of the neighbors or the residences nearby. Traffic has never been a issue. The grounds are kept up and there always is a level of personal responsibility. The church works hard with the cities to ensure code are meet and surrounding home, business are pleased with their design, architectural and landscaping. presenting a air of peace and tranquility. Which to me is a benefit rather than having a school or other structural there. i believe that the building will add to the surrounding beauty of the landscape and will be light compliant.

Comments	<p>As a life long resident of Las Vegas, and a resident of this particular area since 1998, I would like to add my voice in support of the proposed temple. I do so with recognition that the people in the Lone Mountain Rural preservation Area deserve to have their foresight to preserve this area as one set apart from the busyness and commercialism of Las Vegas to be recognized and honored in the fullest degree.</p> <p>I believe in the spirit of this beautiful rural neighborhood; a tranquil place of peace preserved away from the rush and the noise of this city. I can unequivocally declare that this same spirit is fully embodied and enhanced by the building of this temple. Everything that is done both in the design considerations and within its walls is designed to focus its occupants on eternal, sacred, reverent, and peaceful subjects.</p> <p>These Temples are designed for no other purpose. The members of the Church of Jesus Christ of Latter day Saints are under sacred obligation to their God to live the principles of peace taught to them inside. Those individuals who come to the temple are affected by this spirit. Whether a person goes within it's walls or only admires it's outer design, that individual will readily feel a spirit of peace, one of tranquility, and find themselves preserved away from the rush and commercialism of the world while in proximity of this temple.</p> <p>Without reservation, I can say that the people of the Lone Mountain Rural preservation area and those throughout the surrounding neighborhood area will be recipients of such a spirit as they support this project. I hope that our mutually supportive goals will find expression in the building of this beautiful building.</p>

Comments	The site plan for this project is beautiful by any measure! It is easy to make a rendering that looks beautiful but all you have to do is look at any LDS Temple in the World including the one in Las Vegas to see how the layout is enhanced in real life by the most beautiful landscaping anywhere! When it is finished there will be little doubt that those who love the Lord did everything they could to make it worthy of Him! If it is good enough for the Lord, how could any man object?

<b>Comments</b>	<p>This building will bring so much beauty and peace to the area. Wherever you go in the world, a temple of the Church of Jesus Christ of Latter-day Saints is always a welcome addition. People may not know that and at first, oppose it. However, once a temple has been built, everything changes. Neighborhoods become more serene, property values increase and the overall beauty of the surrounding neighborhoods is elevated. I am 100% in favor of this project.</p>

Comments	<p>I strongly support allowing a temple to be built on the proposed site and with its proposed design and site plan. My family and I attend the temple on the opposite edge of the city, which requires a long drive in both directions. Being able to attend the temple is of great significance to our family, and having a temple on this side of town, just a few miles from our home, would be a tremendous blessing. Wherever they are built, Latter-day Saint temples beautify their communities. That is emphatically true of the existing temple on the east side of Las Vegas, and it would be true in this case as well.</p>

<b>Comments</b>	This project will increase property Value in the area and provide for worship opportunities for members of the church of Jesus Christ who are good citizens in the Las Vegas area promoting many charitable services in the community which lift much of the burden in this community for needy individuals and families! These values are promoted in the temples. Terry Bunker

Comments	Dear Planning Commission,
----------	---------------------------

As a lifetime resident of Las Vegas, I have never advocated on behalf of any project on a personal basis. I support the temple project with a firm belief that the Temple will aesthetically enhance the surrounding area to a degree far surpassing that of most improvements, and that it will more importantly benefit its attendants and many community members as they seek in their own lives to match the peace afforded therein.

Sincerely,

Ben Ivie

<b>Comments</b>	<p>I am so excited about this project! This temple is long awaited and desperately needed. When it was announced, I literally jumped for joy. I know that the city will find the patrons of this place of worship to be respectful and kind, the building will be well kept and always in compliance with regulations, and the surrounding communities will appreciate a peaceful and beautiful building. The architecture and interior design will pay tribute to the beautiful desert landscape of Nevada. For the patrons of the temple, the building will be a place of worship that is easily accessible to the many members living in the surrounding area. As someone with many personal responsibilities, I look forward to only having to drive 12 minutes as opposed to my current 40 minute drive to the nearest temple.</p> <p>I sincerely hope that you will vote in favor of this project. Thank you for your consideration.</p>

Comments	The zoning of this project does not negatively affect the rural zoning and classification near the property in question. In fact, the grounds will beautify the area and enhance the natural beauty of surrounding places, creating a draw for people to more readily enjoy the desert beauty of Nevada.

## Comments

As a lifetime Las Vegas resident, I have seen the impact of failed development projects on the communities surrounding it. As someone who lives only 3 minutes from the proposed site, I am personally invested in the success of the sites use.

One enormous benefit of this project is that is supported by an institution that would not allow the development to fail if permitted to proceed with the site as planned. The land would be well cared for, maintained, and used appropriately. It

Additionally, I am aware of concerns that have been proposed by other community members regarding traffic and light. As someone who has lived within walking distance of other temple sites across the country, I feel I can speak to what my experience was living in such proximity to a temple.

Regarding traffic - the times of use are more fluid for a temple. At the temple I lived near, I would compare the traffic demand to be closer to that of a rundown movie theater with good deals on tickets than a school at pickup/dropoff. There were people coming and going consistently during business hours/early evening, but I never saw a traffic jam/standstill that impeded movement from temple attendee traffic.

Regarding light - the lighting used for temples is not like a stadium or arena. It's intended to illuminate the building not the area around it. I've walked on streets in the evening just outside temple grounds and have had to rely entirely on street lamps from the road, not the light of the temple a meters away to guide me.

I hope the council will vote in favor of this project at this site in the Lone Mountain area!

Comments	I live approximately 2.3 miles from the temple site. I live in the RNP and love the area. Having grown up in Las Vegas in the 80s this is one of the last areas that feels like home. I grew up on a dirt road near the Santa Fe before it was constructed. I remember my parents being upset that they were putting a casino in the area. I believe a house of worship in our area will be very beneficial and contribute to the area.

<b>Comments</b>	What a privileged opportunity to have such a blessed building in our valley. The caliber of people drawn to it is hard to beat. The peace brought to the area and limited noise compared to a general neighborhood is a desirable combination. The physical beauty is bonus. Please weigh blessings available.

Comments	The temple is a sacred place of peace and beauty that will bring much value to the surrounding area as people can come enjoy its grounds and members of our faith can go worship. Temples, and this one will be no different, bring so much beauty and peace to everyone who them, and they are a source of happiness and joy for so many!

Comments	I have been a part of the Las Vegas community since 1977, and there for saw the plannign and construction of the Church of Jesus Christ of Latter-Day Saints other temple. Throughout the process church was very respectfully of the concerns of those living in the are. In the end most came to see the temple as soming that not only enhanced the beauty of the area, but the property values as well.

Comments	The grounds of the temple are always a special place for gathering. Looking at the plot and plans for both temple and stake center, this area will be efficiently constructed and grounds will beautify the surrounding neighborhoods. While I understand the reservations with the neighbors, I appreciate the opportunity for us to travel to a closer temple as a family and to worship.

<b>Comments</b>	This is an appropriate use of this land in this neighborhood. A temple is a much less obstructive or distributive use when compared to a high school or other public endeavour. The development of this property is inevitable and this is positive way to use it.

<b>Comments</b>	<p>The temple is a place of peace and gospel learning. I attend regularly to strengthen my personal relationship with Jesus Christ. The new proposed temple is much closer to my home (just a 10 minute drive compared to the 35-45 minutes to the current temple) which will make it easier for me to attend and worship much more often. As a member of the Church of Jesus Christ of Latter-day Saints, I was so excited to hear the announcement of a proposed second temple in the Las Vegas valley and it's proximity to my home. There are so many members of the church in this area and having a second temple in this location will make accommodating all of those members for temple worship much easier.</p> <p>The temples of our church are beautiful buildings with gorgeous external grounds and gardens. There is a peace there that cannot be found anywhere else in the world. I know that once built it will be a blessing for the whole community not just members of our church.</p> <p>Thank you.</p>

<b>Comments</b>	<p>Thank you for allowing the public to voice their opinions regarding the Site Plan Review for the proposed LDS Temple near Lone Mountain. I am in support of the Project moving forward and the rezoning of the property for the benefit of the future patrons of The Church of Jesus Christ of Latter Day Saints, the surrounding community and the persons who are unaware of the benefits by having another beautiful, well-maintained and peaceful place in their community. From a practical standpoint, areas that have an LDS Temple have experienced overall increases in property values, as well as beatifying the neighborhood. Personally, the right to worship is one of the core values of this Country. Even if the project were not associated with my chosen faith - I would support any project whose goal was to help the public and its own members to try to be better people, to be more tolerant, to serve one another... I believe if you were to ask the community surrounding the LDS Temple on Sunrise Mountain if that Temple was overwhelmingly positive for the community; I assure you they would tell you, it has been. I would invite you to travel to that area and see for yourselves. While the proposed Temple near Lone Mountain will not be as expansive, it will bring the same benefits. I hope to be one of many that looks forward to visiting this place, to exercise my faith and freedoms in a peaceable manner. I respectfully request that the City of Las Vegas approve any applications and plans to move forward with this project. Thank you.</p>

<b>Comments</b>	<p>I am in support of the proposed temple. As a member of the church of Jesus Christ of Latter Day Saints and a 30 year resident of Nevada. I am so excited to have a temple near where I live. The temple is a place where I find peace. Where I grow closer to my Savior and Heavenly Father. This place of worship gives me the strength needed to live my life as the Savior would. Every person who enters the temple find His peace, His Love, and in return they share that love received with the community and world.</p>

## Comments

We are so excited for a new temple to be built in Las Vegas so much closer to many of the over 105,000 members in the valley. With only one temple at the base of sunrise mountain, many members drive close to an hour each way to attend the temple, which we consider the house of the Lord on earth and a place to receive guidance and peace in our lives. Many members love to attend the temple weekly or monthly and sacrifice to make the drive, including many teenagers that also love the the blessings of the temple. Below are pictures of my 13 year old son and his friends and my 15 year old daughter and her friends attending the temple near Sunrise mountain. I know many youth that make the trek across the valley regularly to spend time in the temple and feel closer to the Spirit. To have a temple closer would be such a blessing to so many faithful members of the Church of Jesus Christ of Latter-day Saints in the Las Vegas Valley.

Temples are so special and sacred to us. Our church explains them this way:

"Temples are literally houses of the Lord. They are holy places of worship where individuals make sacred covenants with God. Because making covenants with God is such a solemn responsibility, individuals cannot enter the temple to receive their endowments or be sealed in marriage for eternity until they have fully prepared themselves and been members of the Church for at least a year. Throughout history, the Lord has commanded His people to build temples. The Church is working to build temples all over the world to make temple blessings more available for a greater number of Heavenly Father's children.

### Places of Learning

Temples are places of learning. Their no principal purpose is to provide ordinances necessary for the children of God to enable them to return to dwell with Him. Temple ordinances lead to the greatest blessings available through the Atonement of Jesus Christ. Everything in the Church-the meetings and activities, the missionary efforts, the lessons taught and the hymns?-all lead to the work done in holy temples.

One ordinance received in the temple is called the endowment. The word endowment means "gift," and the temple endowment truly is a gift from God. The ordinance consists of a series of instructions and includes covenants to live righteously and follow the requirements of the gospel. The endowment focuses on the Savior, His role in Heavenly Father's plan, and the personal commitment of each member to follow Him.

Another temple ordinance is celestial marriage. In this ordinance husband and wife are sealed to one another for eternity. A sealing performed in the temple continues forever if the husband and wife are faithful to the covenants they make.

In addition to being a place where sacred priesthood ordinances are performed, the temple is a place of peace and revelation. It is a place where spiritual guidance can be received for crucial decisions or concerns."

LDS.org

## LDS INFLUENCE IN LAS VEGAS

Members of the Church of Jesus Christ of Latter-day Saints have played a major role in Las Vegas since the very beginning and have always helped the community for the better. Mormon missionaries first settled in Las Vegas in 1855.

"The Old Las Vegas Mormon Fort, the first permanent, non-native settlement in the Las Vegas Valley, features the historic remains of an adobe fort built by Mormon missionaries along a spring-fed creek in 1855. The creek, the only free-flowing water for miles around, provided irrigation for fields and orchards and the 22,000 square foot outpost served as a way station for travelers. Today the park is located in what is now Downtown Las Vegas.

<https://parks.nv.gov/parks/old-las-vegas-mormon-fort>

The members of the Church of Jesus Christ of Latter-day Saints are well respected in the community and have been recognized for their hard work and discipline and kindness and respect to others.

"Well-known Las Vegas journalists Jon Ralston and John L. Smith described the Latter-day Saint impact on their community from their perspective. Ralston, observed, their "influence has been pervasive because it's been so broad and so deep." And he added, "They were known for standing up, men of moral rectitude.

Smith has noted, "You cannot say that Las Vegas would be anywhere near what it is today with that tremendous influence of some very dedicated people who happen to be Mormon in faith and practice ... I don't think there's an area of Las Vegas life that has not been touched by the LDS faith. . . participating and organizing in the community. . . focusing on public education ... values that are so important to a community if you're going to put down roots ... I think the[ir] greatest contribution is stability. ...To have members of the community that are stabilizing influencers, can't be overstated, it's so important."

Perhaps former U.S. Senator Richard Bryan said it best in summarizing their influence: "The LDS community has had a profound impact on southern Nevada. Dating back to the early founding of the mission in 1855 here in Las Vegas and the growth of the community largely in the early days ...They brought with them strong family values. They brought with them the virtue of hard work, discipline, all of which is part of a value system that even those who were not members of the church, but always it was family. Family was first, not second, not third and the family structure impresses all. We don't understand necessarily the theological roots of the belief, but the family values, the civic responsibility. In effect, they're good people who helped to make Las Vegas a good city for all of us to live in."

<https://www.unlv.edu/news/article/saints-among-us-lds-impact-las-vegas#:~:text=Today%20this%20sacred%20edifice%20stands,105%2C000%20in%20this%20metropolitan%20region.>

Oscar Goodman and his wife, Carolyn, who have both served as mayor of Las Vegas (Oscar 1999-2011, Carolyn 2011-present) recognize the important contributions of Latter-day Saints. According to Oscar, Church members "have placed themselves in places of responsibility, ... in order to shepherd what makes an area successful: roads, streets, schools, that kind of thing. Their presence [is] always felt; they [are] always well-respected."

The temples of the Church of Jesus Christ of Latter-day Saints are kept in pristine condition and respected by the members of the church. The Temple near Lone Mountain will add to the beauty of the surrounding area and those attending will respect the community and be so grateful for the ability to attend the temple closer to our homes. The members of the Church have long shown the Las Vegas Community that they only want the best for our beautiful City and have gained the respect and love of our neighbors.

<b>Comments</b>	I believe this kind of land use is ideal as a place to provide quiet reflection and peace to all on its beautifully maintained grounds (as evidenced by the LDS temple on the east side of Las Vegas). That it is free to the public and requires no taxpayer money is a bonus indeed.

## Comments

My name is Jeff Sorensen and I am a citizen of Las Vegas, Nevada. I am writing this comment to indicate my SUPPORT for Project #24-0152 to facilitate the building of the Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints.

In my faith, our temples are considered to be places where active members can make promises to God that we are willing to obey God's commandments, willing to sacrifice for others, and that we will try to raise strong families that can contribute positively to our communities. The pinnacle activity that occurs in temples is the sealing of families together in marriage for this life and throughout the next. Personally, a temple is a place of peace for me in a chaotic world. It is a place of prayer, and a place where I can silence my phone and take off my smart watch and be alone with God in a place of beauty and serenity. I have found that active temple worship helps me be a better husband, father, and neighbor as my perspective becomes much less self-centered and more focused on the needs of others. To me, the temple is a symbol of the virtues of hard work, discipline, strong families, and the God that guides those virtues towards good ends for his children on earth.

I have seen many temples around the world and each brings light and beauty to its surrounding community. Recently, the community around the temple in Mesa, Arizona had begun to deteriorate and become an "eyesore" according to Mesa citizens. Because of our church's commitment to maintaining the temple and its surrounding community, the church invested millions in a community revitalization project which dramatically enhanced the infrastructure, appearance, and livability of the surrounding area.

(<https://newsroom.churchofjesuschrist.org/article/church-mesa-arizona-red-evelopment-project>) Our faith is committed to the growth and development of communities that are home to our temples.

As a citizen of Las Vegas who values the religious freedom of every member of the community, I have become concerned about the volume of protest comments online that have sought for the church to "build somewhere else." While I do not assert that these protestors hold religious animosity towards my faith, the invitation to "build somewhere else" has throughout history been the first statement of those who seek to push minority religions out of a community, which has escalated to the use of forceful expulsion in the history of my faith and others. I encourage the Las Vegas City Council to avoid any consideration of discussion regarding inviting the church to build the temple "somewhere else," as this would set an unfortunate precedent of state pressure upon religious minorities, which would not be in keeping with our city's past efforts to make all feel welcome and sadly put Las Vegas on the path of other communities around the world that have embraced an increasing hostility to religious observance.

The Las Vegas valley is one of the most magnificent night-time sights in the world with the bright lights that illuminate the darkness. I invite the Las

Vegas City Council to vote in support of this project to further illuminate the valley as a beacon to the world of our welcoming attitude to visitors. The soft light of the Lone Mountain Temple will enhance our community and create a warm invitation to the world that all are welcome in Las Vegas, whether they are here to enjoy the Las Vegas Strip or to find God.

I strongly voice my SUPPORT for project 24-0152.

Thank you for your consideration,

Sincerely,  
Jeff Sorensen

Comments	I support the LDS Temple. The grounds are open to anyone and are peaceful and will add to the neighborhoods beauty and tranquility. I understand that the proposed hight is high however it is just the spire and is not wide. The majority of the building will be below 50 feet. The building will blend in to the beautiful surroundings

<b>Comments</b>	<p>Thank you for allowing us to make public comment. I live within the rural preservation area. I have lived in this Northwest area for 28 years. I am in full support of all matters related to the proposed Lone Mountain temple project. I look forward to continuing to show my complete support for this project as it goes forward. I know it will add beauty and peace to the Lone Mountain area and community and will be well kept and immaculately maintained. I will appreciate very much having this proposed House of Worship minutes from my home. Thank you for your time!</p>

## Comments

My husband and I wholeheartedly support the project relative to the building of the Las Vegas Lone Mountain Temple of the Church of Jesus Christ of Latter-day Saints. The addition of this 2nd temple in the Las Vegas valley will greatly enhance our ability to practice the crucial ordinances of our faith by allowing additional space for members of our church to access them. With the continuing growth of the population in the valley, scheduling these appointments has become more difficult, and the growth on the west side of valley makes the travel time for those in that area considerably longer.

I understand that neighbors may have objections to building a structure that has a spire, that the lighting and additional traffic from the temple might detract from their residential area--similar objections were brought forth 40 years ago when the first Las Vegas temple was in the planning stages. Quite frankly, the opposite has been found to be true.

What will be built will be a tasteful, beautiful structure with well-kept, lovely, and serene landscaping. Unlike so many of the structures in Las Vegas whose lighting is designed to call attention to itself in a blatant manner, the lighting at the temple is soft and pleasant. Likewise, patrons at the temple come and go in a quiet, reserved manner, and there are no large "events" that use outdoor speakers or attract people whose aim is to cause disruption. Conversely, the addition of an LDS temple to a neighborhood--and many of them, including the current Las Vegas temple, are situated in residential neighborhoods--has attracted stable families to the area and has raised property values.

We are looking forward to this positive addition to the Las Vegas valley and respectfully request that your decisions will allow the building process to move forward readily.

Ron & Connie Cannon

Comments	Look forward to the beauty this temple will bring to our area. The tall cranes on Hualapai between Lone Mountain and Ann are an eyesore, but no one complains. In addition, right across Alexander is the Softball complex with lots of lights.

<b>Comments</b>	I SUPPORT the building of the Lone Mountain temple for the Church of Jesus Christ of Latter Day Saints. With more than 182,000 members in the valley, a second temple is much needed. The proposed design would only beautify and bring more value to our neighborhood.

Comments	I support the site location and plan for the construction of the Las Vegas Lone Mountain Temple by The Church of Jesus Christ of Latter-day Saints. As far as I know, all plans, permits, and procedures are in accordance with state and local codes. In addition,I honestly believe this temple will do great good for the local community, whether they are members of this church or not.

## Comments

My name is Jerome Bowen. I am an attorney and small business owner in Las Vegas. My wife and I have lived on Cadwell Park Street in the designated Rural Preservation Area for almost 20 years. This is where our children were raised and attended public school. Like others in the area, we love the beauty and serenity of this corridor of the Northwest.

On behalf of our family, we fully support the proposed temple of The Church of Jesus Christ of Latter-day Saints in the Lone Mountain area. It will truly be a landmark, positive development for this area we call home.

I understand and welcome positive debate about appropriate land use development and the desire of residents to retain as much rural environment as possible here in the Northwest. I am especially keen to these issues having been raised in a rural farming community in the Upper Snake River Valley of Idaho where such discussions of importance are commonplace.

As a member of The Church of Jesus Christ of Latter-day Saints, I was taught to love my neighbor as myself. As a result, I have tried to consider all sides to this land development issue. I recently attended the very informative virtual forum on land use hosted by Councilwoman Francis Allen-Palenske and the City of Las Vegas. After much further study and listening, it is my sincere belief that this project meets all of the guidelines of the City and area for such a development and should be approved.

The proposed Lone Mountain Temple and others like it, similar to other "most holy" sites of other faiths, stands as a beacon of our faith and is dedicated and consecrated as The House of the Lord. It is truly the gateway to receiving all of the blessings our Heavenly Father has prepared for His children to be able to return and live with him again some day. As a result, the ability to access and regularly attend the temple is quintessential to our worship and faith. Although there is a long-standing temple located across the valley at the foot of sunrise mountain, its distance and size make it increasingly difficult for the vast, growing number of members of our faith on this side of the valley to travel and regularly attend there. As a result, this new proposed temple has been designed and located to accommodate the important needs of the members in their worship on this side of the valley.

In my life, I have been blessed to travel to dozens of countries in the world and visited many temples; the latest of which was in the rural, beautiful suburb of Espoo outside of Helsinki, Finland. I can say without fail, every temple I have visited has greatly enhanced the surrounding area. It is truly a special place of peace and beauty. Never once have I thought that a temple was out of place or a blight on any area I have visited. My thoughts have been the opposite; that each has greatly enhanced the value, peace and safety of the area. Temples are designed and built with the history of the area in mind and contain the finest materials and craftsmanship. They

contain full-time security and their grounds are beautifully designed. Because of their purpose, those who enter, come in peace and with great reverence with the sole purpose to worship and receive blessings and inspiration temple attendance brings. They leave with an increased desire to be a better, man, woman, friend and citizen.

In my own childhood communities of Rexburg/Idaho Falls Idaho, two temples reside, both of which are located in residential prime real estate areas; one abutting homes and pristine, valuable farmland overlooking the vast, fertile Rexburg Bench farming area and famed Teton mountain range; the other, sitting in a residential neighborhood on the banks of the gorgeous and famous Snake River in an area of beautiful water falls in Idaho Falls. Both of these temples have only added to the beauty and serenity (and value/peace) of the areas.

Certainly, it is difficult to develop any land and make everyone citizen happy. But with the increase in residential homes in the Northwest comes the need to provide the religious and other community support for the residents. When compared to other potential uses of the property such as a public high school with thousands of children coming and going, many buses traveling our residential streets and the familiar challenges that come from such circumstances, I truly cannot think of any other better use of that land than to build one of these gorgeous and vital edifices.

As a result, I strongly urge the council to approve this entire project of land use as presented, for the Lone Mountain Temple and another supportive smaller structure as proposed. Once the project is built, I believe the neighborhood will be grateful it is here versus another alternative use of the land. Thank you for your consideration and efforts on this wonderful and important project for our community.

Comments	<p>I fully support the construction of the temple for the Church of Jesus Christ of Latter Day Saints. I am an active member of this church and this temple is very important to my family and those in our church community. It is central to our beliefs, and doesn't impose on the local community or surrounding neighborhoods with noise or traffic etc.</p> <p>The construction of this temple will help my family to become the most positive and kind influences to our community that we can be. We strive to act honestly and kindly in all of our dealings with others. In addition to adult members, youth aged members (12 and up) even attend the temple to have their faith nurtured and draw nearer to God.</p> <p>Please consider granting this for our community!</p> <p>A 10 year Las Vegas resident with a wife and 2 toddlers,</p> <p>Emilio Parrish</p>

<b>Comments</b>	<p>I am in support of the bldg of the Lone Mountain location for the new LDS Temple.</p> <p>It is a bridge to God. A place we learn to be better sons n daughters of God.. A place we can feel peace and do that which is holy. Seal families eternally, make n keep sacred covenants to be chaste and true to our spouses. We receive blessings as we keep our covenants. That of safety and peace even with the world in turmoil we can have strength as we wade through mortality. We do work for those who never had the opportunity to have spiritual ordinances performed like baptism and confirmation and sealings of families for eternity.</p> <p>I feel a great blessing has been given to us here in Vegas to have another temple in our midst.</p>

Comments	<p>The temple is an essential part of my family's religious devotion. It binds us to our God and our family.</p> <p>Within its walls we learn more about our Savior Jesus Christ. Having a temple in our Neighborhood would enrich and bless my family and by extension the community. My family is confident the presence of this sacred place within our community will prove to be a major influence for good.</p>

<b>Comments</b>	A temple is a testament to our commitment to a community. As good, God-fearing citizens of this valley, a temple shows our commitment. The beauty of a temple compliments the citizenry and their spiritual ideals. It rounds out the physical, cerebral and spiritual strength of residents in Las Vegas.

Comments	The Church of Jesus Christ of Latter-day Saints temples are beautiful, reverent places to make covenants to follow the peaceful, charitable example of Jesus Christ. Attending the temple motivates me to love God and to be kind to and care for my family and those around me. I am in full support of the Lone Mountain Temple.

<b>Comments</b>	<p>I am a life long resident of the city of Las Vegas. I am also a long time employee of the City of Las Vegas (27 yrs with Building and Safety and Public Works) I live just a few miles away. (3.4 miles). I am looking forward to seeing and attending this beautiful addition to the city. This is a rare opportunity to have such a beautiful building built in our city. I only wish I lived right next door! Thank you for your consideration .</p>

Comments	<p>I support this project and I am hopeful it will bring many updates to an area that drastically needs it. The amount of flooding that occurs here is ridiculous and it is long overdue that the area finally moves on from a "rural" concept to that of the rest of the city. Let's get some streetlights, traffic lights, curbs, and sidewalks put in so we can keep our kids safe from the traffic that is already going up and down the streets. The argument that this project will create more traffic is disingenuous because if people truly cared about the amount of traffic they wouldn't be resistant to creating basic infrastructure which will better protect citizens and better control the rise in traffic which is primarily due to the rise in new communities built all around this site.</p>

Comments	I sincerely hope the City of Las Vegas will approve the site plan review that is before them relating to the proposed site of a temple for The Church of Jesus Christ of Latter-day Saints. Our family has reviewed the exterior plans, as well as enjoyed a digital preview of the proposed interior. It is clear that the temple grounds and building plans have been very thoughtfully designed. If approved, the exterior would be tasteful and elegant. The grounds plans are beautiful and lush. Temples are maintained meticulously throughout the church, so I have complete confidence that the site will be an asset to the neighborhood. Approval of this project would be a tremendous blessing for my family and many others in the greater Las Vegas area.

Comments	I support the site plan review for Lone Mountain LDS Temple. Like other houses of worship from all denominations throughout the world, I want to see this building filled with light and spires reaching heavenward. Our church is a diligent caretaker of our temples and churches. They are built with the best of technology and care. They are built to be reverent and respectful of all of God's children. I know this temple will bless the neighborhood by maintaining property values and security.

Comments	When I googled photos of beautiful houses of worship, I found that all religions use height and light to lift mankind toward their God in Heaven. This temple is seeking to do the same. It would be discriminatory not to allow this house of worship to incorporate these beautiful elements.

Comments	I support the project. It will add beauty to the area. I lived by the other temple in Las Vegas for 20 years. Never was there a problem for me as a neighbor. It will be a quiet place, watched over by security guards, and bring business to the local businesses around. I think it will be a great addition.

<b>Comments</b>	<p>Thank you to the City Planning Commissioner Staff and Director Seth Floyd for their excellent report and Virtual Forum for Land Use regarding this project, which helped dispell misinformation about the project. My wife and I strongly support this project and all related applications, as do many of our extended family living in the Las Vegas Valley.</p>
-----------------	---

My wife and I own a home approximately 1 mile from the project site and I drive past it nearly every day, to work. As we raise our young children, we enjoy the beauty of this area, including Lone Mountain and its adjacent park. After reviewing the plans, we believe that this temple project will be a beautiful and peaceful place, and it will bless lives and the community.

The current Las Vegas Temple is also a beautiful and peaceful place. Those who visit it or the neighborhood regularly know that it does not have excessive traffic nor does it disrupt the community. With a second temple in the valley, we expect a similar situation. Our church is known for building temples to the highest quality standards and diligently maintaining them.

This temple project will enhance the beauty of our community and also add a valuable sacred space--a place of peace and a reminder of covenants to be better people as well as the importance of family. But more than that, it will direct us towards Heaven and God. Like others of our faith, we believe that the temple will be "the gateway to the greatest blessings God has in store for each of us, for the temple is the only place on earth where we may receive all of the blessings promised to Abraham."

Please approve the site plan.

Comments	The building of this temple will be a great asset to our local community. Aside from just being stunningly beautiful, the temple is a symbol of love, peace and encourages us to reach for our highest potential and be our best selves. It emphasizes the importance of family and being a community that is committed to loving and serving our friends and neighbors in a Christ-like manner.

Comments	I have observed how The Church of Jesus Christ of Latter-day Saints maintains its properties in general, and its temples in particular. The planned temple will exceed in beauty and long-term maintenance the finest personal residence or any other development that could be built in the area. This would be a fantastic addition to this area.

Comments	<p>When I learned that the temple of the Church of Jesus Christ of Latter Day Saints was proposed to be built in the Lone Mountain area, I was SO EXCITED!!! Ever since I moved to Las Vegas 15 years ago, I have LOVED that area. It seems like the perfect location to build a beautiful building where individuals and families can worship the Lord. The temple grounds and building are always beautiful and well kept. It will be an amazing addition to the community. I am very much looking forward to the prospect of having a temple in the Lone Mountain area.</p>

Comments	Please approve the construction of the new Las Vegas Longe Mountain Temple for the Church of Jesus Christ of Latter-Day saints. The structure on the east side of town is a lovely building and the proposal for the one on the west side will be even better. There are thousands of members here on the west side of town who have to travel halfway across the valley to visit the temple on the east side. It would be a wonderful benefit to all to have this wonderful structure on the west side of town. Thank you for your consideration.

## Comments

I wholeheartedly support the proposed site plan proposed by the Church of Jesus Christ of Latter-day Saints for temple. I live in the rural preservation area and I understand the concerns raised by some neighbors. However, I believe that churches, homes, and schools belong in this rural area.

Size-For those homeowners who truly feel they are living in a rural area here, I'm surprised that they are against the temple size. If this were truly a rural area, we would have huge barns and silos dotting the landscape. I appreciate that the Church picked a spot for the temple that would affect fewer homeowners' views. There are only a few lots behind the temple before you get to Lone Mountain.

Lights-The Church has been respectful when asked to dim lights or turn them off at night. In addition, the lights only illuminate the building and don't shine out like floodlights. I have neighbors on either side of me that have intrusive lighting on their house that penetrates my closed blinds at night. There are no guarantees in this area that someone won't build a huge RV garage right next to me-with lights that shine down in my yard. At least no one will live right next to the temple-it will be surrounded by landscape and parking lot.

Traffic-I drive across town to attend the temple on Sunrise mountain. (It is quite a journey, depending on the traffic). I am usually the only one driving in the parking lot when I arrive- as we trickle in and out throughout the day. Traffic will not seem to increase except during the open house weeks before the building is dedicated.

This location is ideal for the membership of our Church residing on the west side of town. Please approve this site plan.

Thank you,

Janet Chamberlain

<b>Comments</b>	<p>I support the building of a temple here. The building and its grounds will be beautiful and peaceful. It invites meaningful contemplation and joy. Everyone can enjoy its beauty. Those who worship within seek to serve others and learn more of God and their relationship with Him. A temple is a beautiful place of reverence and peace, and I believe it will be a blessing to the community.</p>

<b>Comments</b>	Our household would be so thrilled to have this temple built! We love temples of the Church of Jesus Christ of Latter Day Saints. They mean so much to us and and we feel they are always such beautiful buildings and grounds that only add to the property values of surrounding areas. We hope you will support this temple being built. It would be a blessing for us!

Comments	As a local property owner, I support the request to change zoning to C-V (CIVIC) for the purpose of building the Lone Mountain Temple. Despite the size of the lot and the proposed structure, the design looks to be aesthetically complimentary to the surrounding area. Additionally, the project will bring appreciated improvements to the area that, based on observations of other such temple sites over decades, are likely to stay well-maintained and secure, together with well-managed traffic considerate of the immediate neighborhood and its residents.

<b>Comments</b>	<p>I don't know where to begin except that the Mormon neighbors and Mormon people are the most wonderful people in this town. I recently lost my husband and they helped me through the entire ordeal, they supported me and they did not care that was not a Mormon. They helped my daughter, they kept her mind busy invited her to many activities to help her deal with such a great loss of losing her father at the age of 14. Her dad was sick w cancer! They brought us meals for at least three months. They help me take care of my husband, and he was at home. They were actually better than the hospice that came to our house. If everybody in this town were a little bit like the Mormon people, this would be a great town! We are never promised a view, never promised no traffic! And guess what, we're going to be like California anyway Another few years and nobody can stop it. Look at how we're building up instead of. Out!!! So why are we picking on a Mormon temple? I believe this is discrimination against the Mormon religion .</p>

**Comments:**

The temple is a place of peace and gospel learning. I attend regularly to strengthen my personal relationship with Jesus Christ. The new proposed temple is much closer to my home (just a 10 minute drive compared to the 35-45 minutes to the current temple) which will make it easier for me to attend and worship much more often. As a member of the Church of Jesus Christ of Latter-day Saints, I was so excited to hear the announcement of a proposed second temple in the Las Vegas valley and it's proximity to my home. There are so many members of the church in this area and having a second temple in this location will make accommodating all of those members for temple worship much easier.

The temples of our church are beautiful buildings with gorgeous external grounds and gardens. There is a peace there that cannot be found anywhere else in the world. I know that once built it will be a blessing for the whole community not just members of our church.

Thank you.

**Comments:** Serve our families and us individually in so many ways. You will also cut back on the emissions around town because we won't have to drive all the way across town to get to the other temple. It will save on gas money as well as time away from our kids. Or Time with our children. Please, please consider allowing this temple to increase the value in the area as well as the peaceful spirit that will be bounded in the area because of it.

**Meeting Date:** Tuesday, May 14, 2024

**Project Number:** 24-0152<sup>SEP</sup>

**Position:** I SUPPORT the project and all related applications.

**Name:** Debra McCracken

**Residential or Business Address:** 9160 Ellington Hill Ln  
Las Vegas, NV 89148

**Phone:** (702) 426-8569

**Email:** dmccrack2000@yahoo.com

**Comments:**

Site Plan Review: I believe this LDS Temple will be a beautiful neighbor to this community. The Church of Jesus Christ of Latter-Day Saints always maintains these Temples, both the building and the surrounding property. The temple is considered a sacred place for the members of the church, who attend nicely dressed. If folks looked at the Las Vegas Temple on the eastside of Las Vegas, they would see that. They could also see the amount of traffic--which I have rarely seen there, as I attend it. This Temple is important to the many Latter-Day Saints who reside in this valley and want to see the Lone Mountain Temple approved and

**Meeting Date:** Tuesday, May 14, 2024

**Project Number:** 00-152

**Position:** I SUPPORT the project and all related applications.

**Name:** Tamera Cozzens

**Residential or  
Business  
Address:** 4510 Amazing View St  
Las Vegas, NV 89129

**Phone:** (548) 623-7654

**Email:** cozzense@yahoo.com

**Comments:** I fully support the construction of the temple in this location. It allows me to not have to drive 45 min accross the valley to worship. Aarhus temple will be less than 5 min from my house and will be a beautiful addition to our area.
