PROJECT DESCRIPTION

This is a request for a Special Use Permit for a proposed 4,909 square-foot Cannabis Dispensary use to be located at 7676 West Lake Mead Boulevard, Suite #101.

ISSUES

- The Cannabis Dispensary use is permitted within a C-1 (Limited Commercial) zoning district with the approval of a Special Use Permit.
- The subject site is in compliance with all minimum distance separation requirements pursuant to Title 19.12 pertaining to a Cannabis use, as set forth by adopted Ordinance No. 6321 and Title 19.18.030(F) Distance Separation requirements.

ANALYSIS

The Cannabis Dispensary use is defined as “An establishment which acquires, possesses, delivers, transfers, transports, supplies, sells or dispenses cannabis or related supplies and educational materials to holders of a valid registry identification card, consumers or other cannabis dispensaries. This use includes an adult-use cannabis retail store and a medical cannabis dispensary, as defined in NRS Chapter 678A.” Per the submitted justification letter and floor plan, the proposed use meets the definition outlined above.

The Minimum Special Use Permit Requirements for this use include:

- * 1. Pursuant to its general authority to regulate the cultivation, production, dispensing, and sale of cannabis, the City Council declares that the public health, safety and general welfare of the City are best promoted and protected by generally requiring a minimum distance separation between a cannabis dispensary and certain other uses that should be protected from the impacts associated with a cannabis dispensary.

May 21, 2025 - City Council Meeting

Therefore, except as otherwise provided in these Requirements, no cannabis dispensary may be located within 1000 feet of any school, or within 300 feet of any of the following uses:

- a. City park;
- b. Church/house of worship;
- c. Individual care - family home, individual care - group home, or individual care center (in each case licensed for the care of children);
- d. Community recreational facility (public); or
- e. Any use whose primary function is to provide recreational opportunities to minors. Such uses include without limitation commercial recreation/amusement (indoor or outdoor); library, art gallery or museum (public); teen dance center; and martial arts studio that provides instruction to minors.

The proposed use meets this requirement, the applicant submitted a survey demonstrating that there are no schools within 1,000 feet of the subject property, as well as there are no individual care centers licensed for more than 12 children, community recreational facilities (public) or City parks or churches/houses of worship or recreational opportunities to minors within 300 feet of the subject property. All measurements have been taken from the perimeter of the existing "Summergate Commercial Subdivision" where subject commercial building is located, pursuant to Title 19.18.030(F) distance separation requirements.

2. Independent of the minimum distance separation requirements in Requirement 1, no cannabis dispensary may be located within 1000 feet of any other cannabis dispensary, whether or not that other dispensary is located within the jurisdictional limits of the City.

The proposed use meets this requirement, the applicant submitted a survey demonstrating that there are no cannabis dispensaries within 1,000 feet of the subject site.

*3. The use shall conform to, and is subject to, the provisions of LVMC Title 6, as they presently exist and may be hereafter amended.

The proposed use will require approval of a business license and continual inspections to verify it is in compliance with Title 6 requirements.

*4. No outside storage shall be permitted, including the use of shipping containers for on-site storage.

The proposed use meets this requirement, as no outside storage including shipping containers has been denoted within the submitted site plan.

* 5. Subject to the requirements of applicable building and fire codes, public access to the building shall be from one point of entry and exit, with no other access to the interior of the building permitted.

The Building and Fire Department will monitor and require compliance with this requirement. The submitted floor plan indicates customers will enter and exit the dispensary through the Lobby area.

* 6. The Special Use Permit shall be void without further action if the use ceases for a period exceeding 90 days.

The Department of Planning - Business License division will monitor and require compliance with this requirement should the use cease.

* 7. A cannabis dispensary shall obtain all required approvals from the State of Nevada to operate such a facility prior to the Special Use Permit being exercised pursuant to LVMC 19.16.110.

The Department of Planning - Business License division will coordinate with the State of Nevada to assure that this requirement is met prior to the issuance of a business license.

* 8. No cannabis dispensary shall be located:

- a. On any property which abuts Fremont Street west of 8th Street; or
- b. Within 1500 feet of an establishment that holds a non-restricted gaming license described in subsection 1 or 2 of NRS 463.0177 and that existed on the date on which the application for the proposed cannabis dispensary was submitted to the City, but only if and to the extent the location of the proposed cannabis dispensary would be prohibited by Chapter 595, Statutes of Nevada 2019 (Assembly Bill 533).

This condition is not applicable, as the subject site is not located on property which abuts Fremont Street west of 8th Street nor is the property within 1,500 feet of an establishment that holds a non-restricted gaming license.

* 9 An application for a Special Use Permit for a cannabis dispensary must include or be accompanied by a survey that depicts the minimum distance separation buffers of 300, 1000 and 1500 that are referenced within these Minimum Special Use Permit Requirements, as well as the location of all the uses regarding which the separation distances are established. The survey must be signed and stamped or sealed by a surveyor who holds a current license from the Nevada Board of Engineers and Land Surveyors.

May 21, 2025 - City Council Meeting

The applicant has submitted a distance separation survey stamped by a land surveyor which indicates the subject site complies with Title 19.12 distance separation requirements.

Overall the existing shopping center provides 554 parking spaces, where 659 parking spaces are required for the 164,618 square-foot shopping center development. Pursuant to Title 19.18.030(D)(1) the subject site meets the definition of a parking-impaired development which is defined as, “A land use or building which is existing on the effective date of this Title and which complied with the applicable parking standards at the time the use or building was established, but which does not comply with the on-site parking requirements of this Title, shall not be considered a nonconforming use or non-conforming building; but rather, it shall be considered a parking-impaired development.” So, the proposed Cannabis Dispensary use being added to the shopping center conforms to Title 19 parking requirements.

Other than the Minimum Special Use Permit Requirements found within Title 19.12, there are no special development requirements pertaining to the site. The subject site is an existing commercial shopping center development, which can accommodate the intensity of the proposed use. The subject site complies with all minimum distance requirements as set forth by Title 19.12, and therefore the use can be conducted in a compatible and harmonious manner with the existing surrounding land uses and future land uses as projected by the General Plan. As such, staff recommends approval of the proposed use subject to conditions. If denied, no Cannabis Dispensary use would be permitted to be established at this site.

In order to approve a Special Use Permit application, per Title 19.16.110(L) the Planning Commission and City Council must affirm the following:

The proposed Cannabis Dispensary can be accessed from Lake Mead Boulevard and Buffalo Drive, which are both 100-foot Primary Arterials as depicted on the Master Plan of Streets and Highways that have adequate capacity to serve the proposed development. Secondary access is also provided from Mariner Drive, a 55-foot Local Street, as depicted by Title 13.

- 4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**
