EXHIBIT B

LEGAL DESCRIPTION OF PROPERTY

The Project is comprised of 3978 square feet of landscaping in the specific areas described in Exhibit C and having the following characteristics:

Physical description of the Project area:

A) Living Plants - The project areas may have living plants; however, there is no turf grass in the project area.

B) Irrigation Systems - The project areas either have no irrigation system or a low-volume drip irrigation system. If a watering system is used, it is a drip irrigation system equipped with a filter, pressure regulator and emitters rated at 20 gallons per hour (gph) or less. The system is maintained free of leaks and malfunctions. No spray irrigation is applied to the area, including spray from irrigation systems adjacent to the project area.

C) Surface Treatments - The project area is covered by a layer of mulch permeable to air and water, including, but not limited to rock, bark, ungrouted steppingstones and artificial turf manufactured to be permeable or a high-density planting of living groundcover plants. There are no impermeable barriers that would inhibit the passage of air and/or water to the soil.
