Support Petition for 711 Campbell fence

Dear Councilmen,

We, the undersigned neighbors of 711 Campbell Drive (APN 139-32-306-009), are writing to express our support for the new proposal put forth by our neighbor regarding the wall on their property.

We have reviewed the pictures and plans of the proposed wall variety, which includes a three-foot-tall solid base and a screen on top. We believe that this new design is a more attractive and practical option that will address concerns related to visibility.

We understand that the regulations regarding front yard setbacks and wall height are in place to protect the community, and we appreciate the efforts of the city officials to ensure compliance with these regulations. However, we also believe that this new proposal is a reasonable compromise that will allow our neighbor to keep their property secure and private while also being in compliance with the regulations.

We respectfully request that you consider this new proposal and approve it for our neighbor's property. We believe that this solution is in the best interest of the community, and we appreciate your time and consideration in this matter.

Thank you for your service to our community.

Sincerely,

*Or at the* *ELYIA HO J RUSAN*
