

City of Las Vegas

To whom it may concern:

My wife and I purchased the property ( 424 Pinecliff Dr. ) parcel # 138-34-214-084 back in 2010.

Directly behind our property is a ten foot easement that was being used as a walk way for the kids going to the elementary school.

About two years ago the school locked the gate at this easement and relinquished its use.

I spoke with Mr. Chris Dingle of the Board of Education and he confirmed this.

During these last few years people have thrown things into my yard, used condoms and syringes were found and several small fires had occurred.

My reason for acquiring this section of land is to extend my block wall on the Pinelake Drive side to my neighbors lot line and thus seal off any potential foul play.

I also had reached out to the people in Ward 1 who said , when I asked, if someone got hurt back there that we would be held responsible.

Unfortunately we live in a very scary world and for me at seventy one years of age I want my wife and I to be safe.

Thank you for your time

Kosta Bakalas
