### Scope of Work

#### OSRLE MTSS Mega Conference

FY24

The School Climate Transformation Grant II received a no-cost extension for FY24. The focus of the no-cost extension is to continue training Local Education Agencies (LEAs) in multi-tiered systems of support (MTSS), restorative practices, trauma-informed practices, school safety and pupil transportation, school-based mental health, social emotional learning, positive youth development, and school-based mental health strategies. This no-cost extension will accomplish these training requirements via a 2.5-day conference via an interlocal agreement between the City of Las Vegas and the Nevada Department of Education (NDE). The following scope of work, proposed budget, and timeline will allow for these events to wrap up the end of the School Climate Transformation Grant II and meet the School Safety Conference requirements in NRS.

Each of 17 Local Educational Agencies (LEAs), in addition to the State Public School Charter Authority (SPSCA), will be allowed to send leaders from their schools and communities to come together for a robust 2.5-day foundational learning event to orient schools and community partners to MTSS systems within schools and discuss the role of restorative practices and school safety within the MTSS framework. In addition to school leaders, attendees will also include, but not be limited to, local law enforcement, juvenile justice, mental health professionals, community coalition partners, and other community-based providers.

The City of Las Vegas, herein referred to as Vendor, will provide the following services and reports according to the identified timeframes: (assumed start date) June 1, 2024 – September 29, 2024. In FY24, The City of Las Vegas will assist the Nevada Department of Education (NDE) with implementing two, 2.5-day, in-person trainings in the Fall of 2024. This event will occur in Las Vegas, NV, and Reno, NV, and include approximately 300-400 participants for each training. The meals and lodging expenses will be covered by all participants. The participants will also be responsible for their own travel to the meeting location.

This interlocal will include the following: organize and pay for all venue logistics; organize and pay for all speakers travel and fees; create print/digital material about the events, organize and implement sign-up processes for both in person and digital events, and create print/digital training agendas. The City of Las Vegas will also work with NDE across several meetings to create topics, agenda, and a run of show.

Participants will have community planning time built in during breaks and mealtimes where they will identify specific needs and evidence-based curriculum options will be distributed. The intended outcome for this cross-departmental event is to orient invited relevant community stakeholders to the student support systems that schools are installing within their districts and to educate both school and community providers on best practices in identifying youth for

additional supports, collaborating on role of restorative practices, addition to school leaders, engaging in universal screening, using data for decision making, providing research-based strategies for addressing disproportionate discipline practices, leveraging the capacity of electronic health records for Medicaid billing, updates on NRS, communicating resources in school safety and pupil transportation within the MTSS framework, and sharing resources for evidence based practices in mental health and substance abuse prevention.
