

To Whom It May Concern,

We are requesting an extension on the patio permit and the following variances:
22-0296-sdr1
22-0296 var1

In 2022 we hired Artistic Iron Fencing under the impression that they would be able to pull the permit on the patio fencing work. We just recently discovered Artistic Iron was not able to pull the permit on the work as they are not a general contractor. Everything was completed on our end including paying all the fees and the hearing. We are now working on finding a general contractor to complete the city requirement. We respectfully ask for an extension on this matter.
