

To Whom It May Concern:

We are building a block wall on residence 10000 Hidden Knoll Ct, Las Vegas, NV 89117. The client wants to replace the existing iron bar fence at the front of the property with a solid wall, but the setbacks don't allow for that, they require the wall to be seen through. We would like to get a variance to allow us to construct the wall. The HOA has already given approval for this project.

Thank you,

Jesus Estrella
