RE: Bonn Community Residence - Special Use Permit

To whom this may concern:

This letter is requesting that the Special Use Permit for the referenced facility is granted for approval. The facility proposes the following:

- Total of six residents and three employees in a community-based living arrangement.
- 24-hour facility
- Business hours are 8am to 8pm - Monday thru Friday

“Community-based living arrangement services” means flexible, individualized services, including training and habilitation services, that are provided in the home, for compensation, to persons with mental illness or persons with developmental disabilities and designed and coordinated to assist such persons in maximizing their independence.

I own and operate an existing similar use located at:
4408 Thompson Circle
Las Vegas, NV 89107

I have also enclosed the completed Special Use Permit application along with a copy of the facility floor plan. Please call should you have any questions or require additional information.

Best Regards,

Almon Myles
