We have received your questions through your email on 07/14/2022, the same ones that we want to clarify, as follows :

1. The reception and distribution of items for sale, does not represent a major problem due to the size of the boxes that does not exceed 30 x 20 inches.
2. In reference to the second question, the additional request for Variance ..., basically the problem is because the land is designed that way.
At this point we want to clarify that the parking for 6 vehicles is sufficient for the movement of customers we serve.

We hope these answers have clarified your questions
Sincerely

Francisco Ramirez
