**** STAFF REPORT ****

PROJECT DESCRIPTION

This is the ninth required review of an approved Variance (V-0024-88) which allowed a 65-foot tall, 14-foot by 48-foot Off-Premise Sign at 1716 Highland Avenue.

ISSUES

- Condition Number Two (2) of Required Review (RQR-69729) approved on 09/06/17 required the review of Variance (V-0024-88) in five (5) years.
- The sign has a valid building permit (#144845) and was found in good condition.
- The subject site is located within Redevelopment Area 1 and shall be reviewed in three (3) years.

ANALYSIS

An Off-Premise Sign is defined by Title 19.12 as, “any sign advertising or announcing any place, product, goods, services, idea or statement whose subject is not available at, nor is located in, the lot where the sign is erected or placed.”

A building permit (#144845) was issued for a final only on 08/26/09 and finalized on 08/28/09. During the last Required Review (RQR-45617), the subject sign was in a same parcel as an office space, but the office space has since been demolished and the site only has the subject sign now. There is no development adjacent to the subject off-premise sign. Therefore, staff is recommending approval of the subject Required Review.

FINDINGS (22-0443-RQR1)

The sign is located in an M (Industrial) zoning district and is not within the Off-Premise Sign Exclusionary zone. Staff finds that the removal of development in the area is not significant and is recommending approval of this review with conditions, including a Required Review to be performed five-years from final approval of this application.
