

**CITY OF LAS VEGAS
PLANNING COMMISSION AND CITY COUNCIL
RECOMMENDATIONS / COMMENTS**

FROM: **CLARK COUNTY DEPARTMENT OF AVIATION**

APPLICATION NUMBERS: **22-0199-VAR1, VAR2, SDR1**

PROJECT: **OFFICE DEVELOPMENT**

LOCATION: **138-12-810-009**

MEETING DATES: **JULY 12, 2022, PLANNING COMMISSION, AUGUST 17, 2022, CITY COUNCIL**

COMMENTS:

Federal Aviation Regulations (14 CFR, Part 77) and City of Las Vegas Code (Section 19.10.080) require that the Federal Aviation Administration (FAA) be notified before the construction or alteration of any building or structure that will exceed a slope of 100:1 for a distance of 20,000 feet from the nearest point of any airport runway or for any structure greater than 200 feet in height. Such notification allows the FAA to determine what impact, if any, the proposed development will have upon aircraft operations, and allow the FAA to determine whether the development should be obstruction marked or lighted.

The proposed development would exceed the 100:1 notification requirement or is greater than 200 feet in height.

- **Applicant is required to file FAA form 7460-1, “Notice of Proposed Construction or Alteration” with the FAA,**
- Applicant is advised that FAA’s airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments. Applicant is advised that the FAA’s airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment.
- No building permits should be issued until applicant provides evidence that a “Determination of No Hazard to Air Navigation” has been issued by the FAA.
- No structure greater than 35’ in height shall be permitted to be erected or altered that would constitute a hazard to air navigation, or would result in an increase to minimum flight altitudes during any phase of flight, or would otherwise be determined to pose a significant adverse impact on airport or aircraft operations.
