Comments	This is a very disturbing thing that is taking place at TAF with multiple prior reports of problems. These executives are making six figure salaries while homeless animals are living in squalor. It is unacceptable. Believe what volunteers and employees are saying and have pictures of. I am so thankful to Victoria Seaman for attempting to do something. Regular unannounced inspections need to be conducted. The CEO needs to be replaced and a corrective plan of action needs to be put in place. The board of directors also needs to account for what is happening. There is no way for public to get in touch with members of the board for public questions. These executives need to be held accountable. Whatever can be done and is in the city council power to hold these people's feet to the fire needs to be done.
