RE: 23-0092-GPA1 - Park System Plan of the 2050 Master Plan

Dear Mr Floyd and Mr Ford:

As you are aware, the Parks Goal of the City of Las Vegas 2050 Master Plan, (Ordinance 6788) contains a Key Action to adopt a Parks System Master Plan, a necessary step that will help the City attain the plan outcome of future certification from the Commission for the Accreditation of Park and Recreation Agencies. The Parks System Master Plan, a detailed recreation and open space element required by NRS 278.160(1)(f), will supplement the 2050 Master Plan's overarching Parks and Park Connectivity Goals, Outcomes, and Key Actions:

- * Strengthen recreation and cultural opportunities for residents and visitors across the city.

- * Improve access and connectivity of open spaces for ecological, social, health, and quality of life benefits.

Specifically, this plan helps the City quantify and inventory existing park and recreational amenities and determine the need for future parks and recreational facilities and programming.

I would also like to extend additional appreciation to Mr. Neelay Bhatt and the SmithGroup consulting team for aiding the City in the completion of this plan.

If you have any questions or concerns, please don't hesitate to ask.

Thank you,

Marco N. Velotta, AICP - Project Manager, 2050 Master Plan
City of Las Vegas

cc. Travis Buell, Deputy Director - Parks, Recreation & Cultural Affairs
