**RE: 23-0050 Abeyance from March 14, 2023 , Planning Commission Hearing.
Item 25. Applicant: Golden Apartments**

Dear Mr. Swanton,

Our firm represents the above-mentioned applicant that is proposing a mixed use development at the north west corner of Vegas at Simmons. Considering Staff's unfavorable recommendation, we will make adjustments to the proposal to lessen the requested waivers. To allow the city time to process the modifications, we request the matter be held over to the April 11, 2023 Planning Commission hearing.

With appreciation,

Lora Dreja

Comments:

This area is unfortunately car-dependent. The parking plan provided is unrealistic for the number of housing units. The adjacent single-family neighborhood is already stressed for street parking with many large pickup trucks that are unable to fit in driveways or garages.

Overflow parking would spill out of this development onto Simmons street making biking and visibility even more dangerous than it already is.

I support building denser housing than R1 but the plans need to be realistic with the cars they will bring.

P

To Whom It May Concern,

We are writing you regarding the possible action on the following Land Use Entitlement project requests on 1.09 acres at the northwest corner of Vegas Drive and Simmons Street; the 23-0050 and 23-0050-VAR1 and 23-0050-SUP1 and 22-0050-SDR1 requests.

RECEIVED
CITY CLERK
2023 MAR -9 P 3:42

After several discussions with members of the communities and neighborhoods, we oppose the building in the area and urge you to support preserving the land, as it has always been, a vacant area. We believe the land should remain a vacant area because: our community and neighbors prominently rely on the peace of this vacant area, the many negative environmental effects outweigh the limited positive environmental benefits for current and future generations (some negative environmental concerns including: added lights, sounds, traffic (an increased possibility of accidents in our neighborhoods), persons (an increased possibility of crime in our neighborhoods), excess use of community resources (such as power, gas, water, sewage, and land use), and the possible use of cameras (possibly interfering with neighborhood privacy and creating vulnerabilities (cyber, physical, and emotional))), there is a greater chance that these negative environmental effects could also negatively affect our neighbors (including the youth and those at the Veterans Tribute Career & Technical Academy (VTCTA) (2531 Vegas Drive), Advanced Technologies Academy (ATA) (1411 Robin Street), and the Academic Support and Community Service Center (Clark County School District)(1255 Robin Street)), the construction might negatively affect our neighbors properties physically (structural integrity), the additional risks of physical and mental health hazards from the potential negative environmental effects to our neighborhoods, the possibility of the construction interfering with our neighbors view of the Las Vegas Strip (negatively effecting property values and the many positive benefits of the view of the Las Vegas Strip offers (aesthetic value, increased creativity and productivity, and improvements in mental health), there are an abundance of vacant areas available to be built available (and these resources already offered) and within a reasonable distance, and the potential negative environmental effects affecting our communities and neighborhoods that have enjoyed the peace and privacy of having this area vacant.

In conclusion, after several discussions with members of the communities and neighborhoods, we oppose the building on the northwest corner of Vegas Drive and Simmons Street and support preserving the land, as it has always been, a vacant area. We believe in preserving the land because: of the few benefits building in this area offers our communities, the many negative environmental effects building in this area would pose to our communities and neighbors and future generations to our communities and neighborhoods, the negative effects that might interfere with our neighbors (including the Veterans Tribute Career & Technical Academy (VTCTA), Advanced Technologies Academy (ATA), and the Academic Support and Community Service Center (Clark County School District), the additional physical and mental health hazards from these negative environmental effects to our communities and neighborhoods, the possibility building in this area might interfere with our neighbors view of the Las Vegas Strip, there being an abundance of other vacant areas available (and the proposed resources already offered) and within reasonable distance, and we hope to preserve the peace and privacy of having this area vacant.

Sincerely,

Citizens of Las Vegas, Nevada and The United States of America
