Dear Councilwoman Diaz,

We are requesting abeyance of this item from September 6th City Council agenda to November 1<sup>st</sup> agenda to allow more time for engagement with the community and Council Members. We need additional time and respectfully ask to abey this item.

We are looking forward to the community engagement event you will be hosting on the Consumption Lounges in general and feel that having our matter heard after that will help with the understanding of this new business category in the City.

We appreciate your help on this matter,

Theresa Abuan  
Manager
