**PURPOSE/BACKGROUND:**

On January 16, 2019, council approved award of a three year agreement for data center space and services, to house IT infrastructure at a local secure colocation facility. Addenda 1 and 2 provided for redundant radiofrequency data communications services between sites, new cross connects, burstable data and a 3 year renewal term. Addendum No. 3 upgrades all colocation data connections from 1 gigabits per second (Gbps), up to 10 Gbps, which provides the increased data throughput speed and reduced latency necessary to support multiple cutting-edge City IT initiatives that are underway. Switch is located in Las Vegas, Nevada.
