DISCUSSION

DIRECTOR: Mike Janssen

SUBJECT:

REPORTS AND PRESENTATIONS:

Report by Ryan Wheeler, Senior Project Manager at the Nevada Department of Transportation (NDOT), on the Downtown Access Project, which evaluates safety and travel reliability alternatives along Interstate 515 (U.S. Highway 95) between Rancho Drive and Mojave Road in Downtown Las Vegas - Wards 3 and 5 (Diaz and Crear)

FISCAL IMPACT:

None

PURPOSE/BACKGROUND:

NDOT has initiated environmental and preliminary engineering studies for the Downtown Access Project to evaluate safety and travel reliability alternatives along Interstate 515 (U.S. Highway 95) between Rancho Drive and Mojave Road in Downtown Las Vegas. The project tentatively calls for replacing or removing the 1.6-mile viaduct, improving downtown access, and adding freeway capacity, among other improvements. NDOT staff will give a brief presentation on environmental, design, and outreach efforts to date and answer any questions.

RECOMMENDATION:

Report only; no action required.
